Subdivision 1. **Bond proceeds fund.** To provide the money appropriated in this act from the bond proceeds fund, the commissioner of management and budget shall sell and issue bonds of the state in an amount up to \$305,429,000 in the manner, upon the terms, and with the effect prescribed by Minnesota Statutes, sections 16A.631 to 16A.675, and by the Minnesota Constitution, article XI, sections 4 to 7.

REVISOR

Subd. 2. **Transportation fund.** To provide the money appropriated in this act from the state transportation fund, the commissioner of management and budget shall sell and issue bonds of the state in an amount up to \$20,000,000 in the manner, upon the terms, and with the effect prescribed by Minnesota Statutes, sections 16A.631 to 16A.675, and by the Minnesota Constitution, article XI, sections 4 to 7. The proceeds of the bonds, except accrued interest and any premium received on the sale of the bonds, must be credited to a bond proceeds account in the state transportation fund.

Sec. 26. Minnesota Statutes 2010, section 16B.32, subdivision 1, is amended to read: Subdivision 1. **Alternative energy sources.** Plans prepared by the commissioner for a new building or for a renovation of 50 percent or more of an existing building or its energy systems must include designs which use active and passive solar energy systems, earth sheltered construction, and other alternative energy sources where feasible.

#### **EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 27. Minnesota Statutes 2010, section 16B.32, subdivision 1a, is amended to read: Subd. 1a. **Onsite energy generation from renewable sources.** A state agency that prepares a predesign for a new building must consider meeting at least two percent of the energy needs of the building from renewable sources wind energy located on the building site. For purposes of this subdivision, "renewable sources" are limited to wind and the sun. The predesign must include an explicit cost and price analysis of complying with the two-percent requirement compared with the present and future costs of energy supplied by a public utility from a location away from the building site and the present and future costs of controlling carbon emissions. If the analysis concludes that the building should not meet at least two percent of its energy needs from renewable sources wind energy located on the building site, the analysis must provide explicit reasons why not. The building may

Sec. 27. 29

30.1

not receive further state appropriations for design or construction unless at least two

30.2	percent of its energy needs are designed to be met from renewable sources wind energy,
30.3	unless the commissioner finds that the reasons given by the agency for not meeting the
30.4	two-percent requirement were supported by evidence in the record.
30.5	<b>EFFECTIVE DATE.</b> This section is effective the day following final enactment.
30.6	Sec. 28. [16B.323] SOLAR ENERGY IN STATE BUILDINGS.
30.7	Subdivision 1. <b>Definitions.</b> (a) For purposes of this section, the following terms

30.26	conjunction with a solar thermal system.
30.27	(e) "Solar photovoltaic module" has the meaning given in section 116C.7791,

purchase and installation of "Made in Minnesota" solar energy systems on or adjacent to

31.2	the state building.
31.3	(b) An appropriation made under this section may not be used to purchase and install:
31.4	(i) solar photovoltaic modules on a single building that, in aggregate, exceed a
31.5	capacity of 40 kilowatts; or

31.24	accommodate private investment and job creation.
31.25	Subd. 3. Trunk highway projects. Money in the program shall not be used on
31.26	trunk highway improvements, but can be used for needed infrastructure improvements

31.29	Subd. 4. Application. The commissioners of transportation and employment and
31.30	economic development shall design an application process and selection process to
31.31	distribute funding to local units of government for publicly owned infrastructure using
