If advance payments are made under clause (1) or (2) to the health maintenance organization or community integrated service network for more than one reporting period, the portion of the payment that has not yet been earned must be treated as a liability.

(e) (d) When a health maintenance organization or community integrated service network merges or consolidates with or is acquired by another health maintenance organization or community integrated service network, the surviving corporation or the new corporation shall be responsible for the annual surcharge originally imposed on each of the entities or corporations subject to the merger, consolidation, or acquisition, regardless of whether one of the entities or corporations does not retain a certificate of authority under chapter 62D or a license under chapter 62N.

(f) (g) In the event a health maintenance organization or community integrated service network converts its licensure to a different type of entity subject to liability for the surcharge under this chapter, but survives in the same or substantially similar form, the surviving entity remains liable for the surcharge regardless of whether one of the entities or corporations does not retain a certificate of authority under chapter 62D or a license under chapter 62N.

Subd. 2b. Operating payment rates. In determining operating payment rates for admissions occurring on or after the rate year beginning January 1, 1991, and every two years after, or more frequently as determined by the commissioner, the commissioner shall obtain operating data from an updated base year and establish operating payment rates per admission for each hospital based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year. Rates under the general assistance medical care, medical assistance, and MinnesotaCare programs shall not be rebased to more current data on January 1, 1997, January 1, 2005, for the first 24 months of the rebased period beginning January 1, 2009. For the first three six months of the rebased period beginning January 1, 2011, rates shall not be rebased at 74.25 percent of the full value of the rebasing percentage change. From April July 1, 2011, to March 31, 2012, rates shall be rebased at 39.2 percent of the full value of the rebasing percentage change. Effective April 1, 2012, rates shall be rebased at full value. The base year operating payment rate per admission is standardized by the case mix index and adjusted by the hospital cost index, relative values, and disproportionate population adjustment. The cost and charge data used to establish operating rates shall only reflect inpatient services covered by medical assistance and shall not include property cost information and costs recognized in outlier payments.

Sec. 5. Minnesota Statutes 2009 Supplement, section 256.969, subdivision 3a, is amended to read:

Subd. 3a. **Payments.** (a) Acute care hospital billings under the medical assistance program must not be submitted until the recipient is discharged. However, the commissioner shall establish monthly interim payments for inpatient hospitals that have individual patient lengths of stay over 30 days regardless of diagnostic category. Except as provided in section 256.9693, medical assistance reimbursement for treatment of mental illness shall be reimbursed based on diagnostic classifications. Individual hospital payments established under this section and sections 256.9685, 256.9686, and 256.9695, in addition to third party and recipient liability, for discharges occurring during the rate year shall not exceed, in aggregate, the charges for the medical assistance covered inpatient services paid for the same period of time to the hospital. This payment limitation shall be calculated separately for medical assistance and general assistance medical care services. The limitation on general assistance medical care shall be effective for admissions occurring on or after July 1, 1991. Services that have rates established under subdivision 11 or 12, must be limited separately from other services. After consulting with the affected hospitals, the commissioner may consider related hospitals one entity and

may merge the payment rates while maintaining separate provider numbers. The operating and property base rates per admission or per day shall be derived from the best Medicare and claims data available when rates are established. The commissioner shall determine the best Medicare and claims data, taking into consideration variables of recency of the data, audit disposition, settlement status, and the ability to set rates in a timely manner. The commissioner shall notify hospitals of payment rates by December 1 of the year preceding the rate year. The rate setting data must reflect the admissions data used to establish relative values. Base year changes from 1981 to the base year established for the rate year beginning January 1, 1991, and for subsequent rate years, shall not be limited to the limits ending June 30, 1987, on the maximum rate of increase under subdivision 1. The commissioner may adjust base year cost, relative value, and case mix index data to exclude the costs of services that have been discontinued by the October 1 of the year preceding the rate year or that are paid separately from inpatient services. Inpatient stays that encompass portions of two or more rate years shall have payments established based on payment rates in effect at the time of admission unless the date of admission preceded the rate year in effect by six months or more. In this case, operating payment rates for services rendered during the rate year in effect and established based on the date of admission shall be adjusted to the rate year in effect by the hospital cost index.

- (b) For fee-for-service admissions occurring on or after July 1, 2002, the total payment, before third-party liability and spenddown, made to hospitals for inpatient services is reduced by .5 percent from the current statutory rates.
- (c) In addition to the reduction in paragraph (b), the total payment for fee-for-service admissions occurring on or after July 1, 2003, made to hospitals for inpatient services before third-party liability and spenddown, is reduced five percent from the current statutory rates. Mental health services within diagnosis related groups 424 to 432, and facilities defined under subdivision 16 are excluded from this paragraph.
- (d) In addition to the reduction in paragraphs (b) and (c), the total payment for fee-for-service admissions occurring on or after August 1, 2005, made to hospitals for inpatient services before third-party liability and spenddown, is reduced 6.0 percent from the current statutory rates. Mental health services within diagnosis related groups 424 to 432 and facilities defined under subdivision 16 are excluded from this paragraph. Notwithstanding section 256.9686, subdivision 7, for purposes of this paragraph, medical assistance does not include general assistance medical care. Payments made to managed care plans shall be reduced for services provided on or after January 1, 2006, to reflect this reduction.

Facilities defined under subdivision 16 are excluded from this paragraph. Payments made to managed care plans shall be reduced for services provided on or after October 1, 2009, to reflect this reduction.
- (i) In order to offset the ratable reductions provided for in this subdivision, the total payment rate for medical assistance fee-for-service admissions occurring on or after March 1, 2010, to June 30, 2011, made to Minnesota hospitals for inpatient services before third-party liability and spenddown, shall be increased by 14 percent from the current statutory rates if the hospital is located in Hennepin or Ramsey County and 18 percent from the current statutory rates for all other Minnesota hospitals. For purposes of this paragraph, medical assistance does not include general assistance medical care. This increase shall be paid from the account established in section 256D.032. The commissioner shall not adjust rates paid to a prepaid health plan under contract with the commissioner to reflect

Sec. 5. 8

Admissions under the general assistance medical care program occurring on or after July 1, 1990, and admissions under medical assistance, excluding general assistance medical care, occurring on or after July 1, 1990, and on or before September 30, 1992, that are classified to a diagnostic category of mental health or chemical dependency shall have rates established according to the methods of subdivision 14, except the per day rate shall be multiplied by a factor of 2, provided that the total of the per day rates shall not exceed the per admission rate. 30.2	medical care may be paid for individuals identified in paragraph (a) for a temporary
30.3	period beginning the date of application. Eligibility for general assistance medical care

30.24	assistance medical care shall begin no earlier than the date of application. The date of
30.25	application shall be the date the applicant has provided a name, address, and Social
30.26	Security number, signed and dated, to the county agency or the Department of Human
30.27	Services. If the applicant is unable to provide a name, address, Social Security number,
30.28	and signature when health care is delivered due to a medical condition or disability, a
30.29	health care provider may act on an applicant's behalf to establish the date of an application
30.30	by providing the county agency or Department of Human Services with provider

31.5	(c) In determining the amount of assets of an individual eligible under subdivision 1,
31.6	paragraph (a), clause (2), there shall be included any asset or interest in an asset, including

31.8	disposed of for less than fair market value within the 60 months preceding application for
31.9	general assistance medical care or during the period of eligibility. Any transfer described
31.10	in this paragraph shall be presumed to have been for the purpose of establishing eligibility
31.11	for general assistance medical care, unless the individual furnishes convincing evidence to
31.12	establish that the transaction was exclusively for another purpose. For purposes of this
31.13	paragraph, the value of the asset or interest shall be the fair market value at the time it
31.14	was given away, sold, or disposed of, less the amount of compensation received. For any
31.15	uncompensated transfer, the number of months of ineligibility, including partial months,
31.16	shall be calculated by dividing the uncompensated transfer amount by the average monthly
31.17	per person payment made by the medical assistance program to skilled nursing facilities
31.18	for the previous calendar year. The individual shall remain ineligible until this fixed period
31.19	has expired. The period of ineligibility may exceed 30 months, and a reapplication for
31.20	benefits after 30 months from the date of the transfer shall not result in eligibility unless
31.21	and until the period of ineligibility has expired. The period of ineligibility begins in the
31.22	month the transfer was reported to the county agency, or if the transfer was not reported,
31.23	the month in which the county agency discovered the transfer, whichever comes first. For
31.24	applicants, the period of ineligibility begins on the date of the first approved application.
31.25	(d) When determining eligibility for any state benefits under this subdivision,
31.26	the income and resources of all noncitizens shall be deemed to include their sponsor's
31.27	income and resources as defined in the Personal Responsibility and Work Opportunity
31.28	Reconciliation Act of 1996, title IV, Public Law 104-193, sections 421 and 422, and
31.29	subsequently set out in federal rules.
