The account consists of all money appropriated from the trunk highway fund for the purposes of this section and any other money donated, allotted, transferred, or otherwise provided to the account by law. Money in the account is appropriated to the commissioner for the purposes specified and consistent with the standards and criteria set forth in this section.

(c) A transportation facilities capital account is established in the bond proceeds account of the trunk highway fund. The account consists of trunk highway bond proceeds appropriated to the commissioner. Money in the account may only be expended on trunk highway purposes, which includes the purposes in this section.

Subd. 2. **Standards.** (a) Article XIV, section 11, of the Minnesota Constitution states that trunk highway bonds may be issued to finance the construction, improvement, and maintenance of the public highway system in the state. The legislature assumes that many projects for preservation and replacement of portions of existing capital assets constitute the construction, improvement, and maintenance of the public highway system within the meaning of the Minnesota Constitution and capital expenditures under generally accepted accounting principles, and shall be financed more efficiently and economically under the program than by direct appropriations for specific projects.

(b) When allocating funding under this section, the commissioner must review the projects deemed eligible under subdivision 3 and prioritize allocations using the criteria in subdivision 4. Money allocated to a specific project in an act of appropriation or other law must be allocated as provided by the law.

53.1 Subd. 3. **Eligible expenditures; limitations.** (a) A project is eligible under this
53.2 section only if it is a capital expenditure on a capital building asset owned or to be owned
53.3 by the state within the meaning of accepted accounting principles as applied to public
53.4 expenditures.

53.5 (b) Capital budget expenditures that are eligible under this section include, but
53.6 are not limited to: acquisition of land and buildings, and the predesign, engineering,
53.7 construction, furnishing and equipping of district headquarter buildings, truck stations,
53.8 salt storage or other unheated storage buildings, deicing and anti-icing facilities, fuel
53.9 dispensing facilities, highway rest areas, and vehicle weigh and inspection stations.

53.10 Subd. 4. **Criteria for priorities.** When prioritizing funding allocation among
53.11 projects eligible under subdivision 3, the commissioner must consider:

53.12 (1) whether a project ensures the effective and efficient condition and operation
53.13 of the facility;

53.14 (2) the urgency in ensuring the safe use of existing buildings;

53.15 (3) the project's total life-cycle cost;

53.16 (4) additional criteria for priorities otherwise specified in state law, statute, or rule
53.17 that applies to a category listed in the act making an appropriation for the program; and

53.18 (5) any other criteria the commissioner deems necessary

53.19 Sec. 3. **[219.016] CRUDE OIL AND HAZARDOUS MATERIALS RAIL SAFETY**
53.20 **ACCOUNT.**

53.21 Subdivision 1. **Purpose.** A hazardous materials rail safety program is established
53.22 for the purpose of reducing the risks associated with the transportation of hazardous
53.23 material by rail.

53.24 Subd. 2. **Creation of account.** A hazardous materials rail safety program account is
53.25 established in the bond proceeds fund. Money in the account may only be used for capital
53.26 costs associated with planning, engineering, administration, and construction of public
53.27 highway-rail grade crossing improvements on rail corridors transporting crude oil and
53.28 other hazardous materials. Improvements may include upgrades to existing protection
53.29 systems, the closing of crossings and necessary roadwork, and reconstruction of at-grade
53.30 crossings to full grade separations.

53.31 Subd. 3. **Grants.** The commissioner may approve grants for financial assistance to
53.32 eligible applicants for capital costs associated with hazardous materials rail safety projects
53.33 on public highway-rail grade crossings. Qualifying capital costs include, but are not
53.34 limited to, upgrades to existing protection systems, the closing of crossings and necessary
53.35 roadwork, and reconstruction of at-grade crossings to full grade separations.

Subd. 4. **Eligible applicants.** Counties, statutory or home rule charter cities, or towns that are responsible for establishing and maintaining public highway-rail grade crossings on rail corridors transporting crude oil and other hazardous materials may apply to the commissioner for financial assistance for the purposes in this section.

Subd. 5. **Criteria for grant award.** The commissioner shall consider the following criteria to evaluate applications for a grant award for a hazardous materials rail safety project:

(1) whether the crossing was identified as a potential candidate for grade separation in MnDOT's crude by rail grade crossing study (Improvements to Highway Grade Crossings and Rail Safety, December 2014);

(2) roadway traffic volumes and speeds;

(3) train volumes and speeds;

(4) adjacent land use;

(5) crash history;

(6) use of the crossing by emergency vehicles;

(7) use of the crossing by vehicles carrying hazardous materials; and

(8) local financial contributions to the project.

Sec. 4. Minnesota Statutes 2014, section 219.166, is amended to read:

219.166 ESTABLISHMENT OF QUIET ZONES.

Subdivision 1. **Eligible applicants.** A county, statutory or home rule charter city, or town may apply to the Federal Railroad Administration for the establishment of a "quiet zone" at a public highway-rail grade crossing in which the sounding of horns, whistles, or other audible warnings by locomotives is regulated or prohibited. All quiet zones, regulations, and ordinances adopted under this section must conform to federal law and the regulations of the Federal Railroad Administration under United States Code of Federal Regulations, title 49, section 20153 parts 222 and 229.

Subd. 2. **Purpose of program.** A public highway-rail grade crossing quiet zone program is established for the purpose of improving and rehabilitating railroad rights-of-way and other public and private rail facilities, including necessary safety-related capital improvements at public highway-rail grade crossings where quiet zones are established.

Subd. 3. **Creation of account.** A public highway-rail grade crossing quiet zone account is established in the bond proceeds fund. Money in the account may only be used for capital costs associated with the establishment of a quiet zone at a public highway-rail grade crossing.

Subd. 4. **Eligible applicants for state assistance.** Counties, statutory or home rule charter cities, or towns that are responsible for traffic control or law enforcement at a public highway-rail grade crossing qualify as eligible applicants to the Federal Railroad Administration (FRA) for the establishment of a quiet zone may apply to the commissioner for financial assistance for establishment of a quiet zone.

Subd. 5. **Grants.** The commissioner may approve grants for financial assistance to eligible applicants for capital costs associated with the establishment of a quiet zone at a public highway-rail grade crossing. Qualifying capital costs include, but are not limited to, the installation of grade crossing active warning devices and other traffic control devices and associated roadwork necessary to meet the FRA criteria for approval of the quiet zone.

Subd. 6. **Criteria for grant award.** The commissioner shall consider the following criteria to evaluate applications for a grant award for a quiet zone project:

(1) the number of residents that will benefit from the establishment of the quiet zone through a reduction in train horn noise;

(2) the number of existing grade crossings that will be closed, thereby improving public safety;

(3) evidence that the project meets FRA qualifications and requirements for a quiet zone, without the need for additional annual review by FRA per federal quiet zone regulations;

(4) nonstate financial participation as a percentage of total project cost; and

(5) the amount of state financial participation per resident benefiting from the project.

Sec. 5. Minnesota Statutes 2014, section 256E.37, is amended to read:

256E.37 EARLY CHILDHOOD LEARNING AND CHILD PROTECTION FACILITIES.

Subdivision 1. **Grant authority.** The commissioner may make grants to state agencies and political subdivisions to construct or rehabilitate facilities for early childhood programs, ~~crisis nurseries, or parenting time centers.~~ The following requirements apply:

(1) The facilities must be owned by the state or a political subdivision, but may be leased under section 16A.695 to organizations that operate the programs. The commissioner must prescribe the terms and conditions of the leases.

(2) A grant for an individual facility must not exceed \$500,000 for each program that is housed in the facility, up to a maximum of \$2,000,000 for a facility that houses three programs or more. Programs include Head Start, School Readiness, Early Childhood Family Education, licensed child care, and other early childhood intervention programs.

(3) State appropriations must be matched on a 50 percent basis with nonstate funds. The matching requirement must apply program wide and not to individual grants.

~~(4) At least 80 percent of grant funds must be distributed to facilities located in counties not included in the definition under section 473.121, subdivision 4.~~

Subd. 1a. Special authority for grant funded with general fund appropriation.

(a) Notwithstanding subdivision 1, clause (1), the commissioner may make a grant that is funded with general fund appropriations to a federally recognized tribal government in Minnesota or to a private nonprofit organization. A facility financed with a grant under this subdivision may be owned by private nonprofit organizations or federally recognized tribal governments in Minnesota.

(b) Section 16A.642 applies to a general fund appropriation under this section.

(c) The treatment of appropriations under section 16A.28, subdivision 5, apply to appropriations from the general fund for the purposes of this section.

Subd. 2. Grant priority. (a) The commissioner must give priority to:

(1) projects located in counties not included in the definition under section 473.121, subdivision 4;

(2) projects in counties or municipalities with the highest percentage of children living in poverty;

~~(2) (3) grants that involve collaboration among sponsors of programs under this section; and~~

~~(3) (4) where feasible, grants for programs that utilize Youthbuild under sections 116L.361 to 116L.366 for at least 25 percent of each grant awarded or \$50,000 of the labor portion of the construction, whichever is less, if:~~

~~(i) the work is appropriate for Youthbuild, as mutually agreed upon by the grantee and the local Youthbuild program, considering safety and skills needed;~~

~~(ii) it is demonstrated by Youthbuild that using Youthbuild will not increase the overall cost of the project; and~~

~~(iii) eligible programs consult with appropriate labor organizations to deliver education and training.~~

(b) The commissioner may give priority to:

(1) projects that collaborate with child care providers, including all-day and school-age child care programs, special needs care, sick child care, nontraditional hour care, and programs that include services to refugee and immigrant families; and

~~(2) grants for programs that will increase their child care workers' wages as a result of the grant; and~~

~~(3) (2) projects that will improve the quality of early childhood programs.~~

57.1 Sec. 6. Minnesota Statutes 2014, section 446A.072, is amended to read:

57.2 **446A.072 ~~WASTEWATER~~ WATER INFRASTRUCTURE FUNDING**
57.3 **PROGRAM.**

57.4 Subdivision 1. **Establishment of program.** The authority will establish a
57.5 ~~wastewater~~ water infrastructure funding program to provide supplemental assistance to
57.6 governmental units receiving funding through the clean water revolving fund program, the
57.7 drinking water revolving fund program, or the United States Department of Agriculture
57.8 Rural Economic and Community Development's (USDA/RECD) Water and Waste
57.9 Disposal Loans and Grants program for the predesign, design, and construction of
57.10 municipal wastewater ~~treatment~~ and drinking water systems, including purchase of land
57.11 and easements. The purpose of the program is to assist governmental units demonstrating
57.12 financial need to build cost-effective projects to address existing environmental or public
57.13 health problems. To implement the program, the authority shall establish a ~~wastewater~~
57.14 water infrastructure fund to provide grants ~~and loans~~ for the purposes authorized under
57.15 title VI of the Federal Water Pollution Control Act and the federal Safe Drinking Water
57.16 Act. The fund shall be credited with all investment income from the fund and all
57.17 repayments of loans, grants, and penalties.

57.18 Subd. 3. **Program administration.** (a) The authority shall provide supplemental
57.19 assistance, as provided in subdivision 5a to governmental units:

57.20 (1) whose projects are listed on the Pollution Control Agency's project priority list or
57.21 the Department of Health's project priority list;

57.22 (2) that demonstrate their projects are a cost-effective solution to an existing
57.23 environmental or public health problem; and

57.24 (3) whose projects are approved by the USDA/RECD or certified by the
57.25 commissioner of the Pollution Control Agency or the Department of Health.

57.26 (b) For a governmental unit receiving grant funding from the USDA/RECD,
57.27 applications must be made to the USDA/RECD with additional information submitted to
57.28 the authority as required by the authority. Eligible project costs and affordability criteria
57.29 shall be determined by the USDA/RECD.

57.30 (c) For a governmental unit not receiving grant funding from the USDA/RECD,
57.31 application must be made to the authority on forms prescribed by the authority for the
57.32 clean water revolving fund program or the drinking water revolving fund program with
57.33 additional information as required by the authority. In accordance with section 116.182,
57.34 the Pollution Control Agency or Department of Health shall:

57.35 (1) calculate the essential project component percentage based on the portion of
57.36 project costs necessary to convey or treat the existing wastewater flows and loadings or,

58.1 for drinking water projects, to provide safe drinking water to meet existing needs, which
58.2 must be multiplied by the total project cost to determine the eligible project cost for the
58.3 program under this section; and

58.4 (2) review and certify approved projects to the authority.

58.5 (d) Each fiscal year the authority shall make funds available for projects based on
58.6 their ranking on the Pollution Control Agency's project priority list or the Department
58.7 of Health's project priority list. The authority shall reserve funds for a project when
58.8 the applicant receives a funding commitment from the United States Department of
58.9 Agriculture Rural Development (USDA/RECD) or ~~submits plans and specifications to the~~
58.10 project is certified by the Pollution Control Agency or Department of Health. Funds must
58.11 be reserved in an amount based on the project cost estimate submitted to the authority
58.12 ~~prior to the appropriation of the funds and awarded based on the lesser of that amount or~~
58.13 the as-bid cost when the project is certified or the as-bid cost, whichever is less.

58.14 Subd. 5a. **Type and amount of assistance.** (a) For a governmental unit receiving
58.15 grant funding from the USDA/RECD, the authority may provide assistance in the form
58.16 of a grant of up to 65 percent of the eligible grant need determined by USDA/RECD. A
58.17 governmental unit may not receive a grant under this paragraph for more than \$4,000,000
58.18 \$5,000,000 per project or ~~\$15,000~~ \$20,000 per existing connection, whichever is less,
58.19 unless specifically approved by law.

58.20 (b) For a governmental unit receiving a loan from the clean water revolving fund
58.21 under section 446A.07, the authority may provide assistance under this section in the form
58.22 of a grant if the average annual residential wastewater system cost after completion of the
58.23 project would otherwise exceed 1.4 percent of the median household income of the project
58.24 service area. In determining whether the average annual residential wastewater system
58.25 cost would exceed 1.4 percent, the authority must consider the total costs associated with
58.26 building, operating, and maintaining the wastewater system, including existing wastewater
58.27 debt service, debt service on the eligible project cost, and operation and maintenance
58.28 costs. Debt service costs for the proposed project are calculated based on the maximum
58.29 loan term permitted for the clean water revolving fund loan under section 446A.07,
58.30 subdivision 7. The amount of the grant is equal to 80 percent of the amount needed to
58.31 reduce the average annual residential wastewater system cost to 1.4 percent of median
58.32 household income in the project service area, to a maximum of ~~\$4,000,000~~ \$5,000,000 per
58.33 project or ~~\$15,000~~ \$20,000 per existing connection, whichever is less, unless specifically
58.34 approved by law. The eligible project cost is determined by multiplying the total project
58.35 costs minus any other grants by the essential project component percentage calculated

59.1 under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant
59.2 exceed 80 percent of the eligible project cost.

59.3 (c) For a governmental unit receiving a loan from the drinking water revolving
59.4 fund under section 446A.081, the authority may provide assistance under this section in
59.5 the form of a grant if the average annual residential drinking water system cost after
59.6 completion of the project would otherwise exceed 1.2 percent of the median household
59.7 income of the project service area. In determining whether the average annual residential
59.8 drinking water system cost would exceed 1.2 percent, the authority must consider the total
59.9 costs associated with building, operating, and maintaining the drinking water system,
59.10 including existing drinking water debt service, debt service on the eligible project cost,
59.11 and operation and maintenance costs. Debt service costs for the proposed project are
59.12 calculated based on the maximum loan term permitted for the drinking water revolving
59.13 fund loan under section 446A.081, subdivision 8, paragraph (c). The amount of the grant
59.14 is equal to 80 percent of the amount needed to reduce the average annual residential
59.15 drinking water system cost to 1.2 percent of median household income in the project
59.16 service area, to a maximum of \$5,000,000 per project or \$20,000 per existing connection,
59.17 whichever is less, unless specifically approved by law. The eligible project cost is
59.18 determined by multiplying the total project costs minus any other grants by the essential
59.19 project component percentage calculated under subdivision 3, paragraph (c), clause (1). In
59.20 no case may the amount of the grant exceed 80 percent of the eligible project cost.

59.21 ~~(e) (d)~~ Notwithstanding the limits in paragraphs (a) ~~and~~ (b), ~~and~~ (c), for a
59.22 governmental unit receiving supplemental assistance under this section after January 1,
59.23 2002, if the authority determines that the governmental unit's construction and installation
59.24 costs are significantly increased due to geological conditions of crystalline bedrock or karst
59.25 areas and discharge limits that are more stringent than secondary treatment, the maximum
59.26 award under this section shall not be more than \$25,000 per existing connection.

59.27 ~~Subd. 5b. **Special assessment deferral.** A governmental unit receiving a loan~~
59.28 ~~under subdivision 5a that levies special assessments to repay the loan under subdivision~~
59.29 ~~5a or section 446A.07 may defer payment of such assessments under the provisions of~~
59.30 ~~sections 435.193 to 435.195.~~

59.31 **Subd. 6. Disbursements.** Disbursements of grants ~~or loans~~ awarded under this
59.32 section by the authority to recipients must be made for eligible project costs as incurred by
59.33 the recipients, and must be made by the authority in accordance with the project financing
59.34 agreement and applicable state and federal laws and rules governing the payments.

59.35 ~~Subd. 7. **Loan repayments.** Notwithstanding the limitations set forth in section~~
59.36 ~~475.54, subdivision 1, this subdivision shall govern the maturities and mandatory sinking~~

60.1 ~~fund redemptions of the loans under this section. A governmental unit receiving a loan~~
60.2 ~~under this section shall repay the loan in semiannual payment amounts determined by~~
60.3 ~~the authority. The payment amount must be based on the average payments on the~~
60.4 ~~governmental unit's clean water revolving fund loan or, if greater, the minimum amount~~
60.5 ~~required to fully repay the loan by the maturity date. Payments must begin within one year~~
60.6 ~~of the date of the governmental unit's final payment on the clean water revolving fund~~
60.7 ~~loan. The final maturity date of the loan under this section must be no later than 20 years~~
60.8 ~~from the date of the first payment on the loan under this section and no later than 40 years~~
60.9 ~~from the date of the first payment on the clean water revolving fund loan.~~

60.10 Subd. 8. **Eligibility.** A governmental unit is eligible for assistance under this section
60.11 only after applying for grant funding from other sources and funding has been obtained,
60.12 rejected, or the authority has determined that the potential funding is unlikely.

60.13 Subd. 9. **Funding limitation.** Supplemental assistance may not be used to reduce
60.14 the sewer service charges of a significant ~~wastewater contributor~~ industrial user that has a
60.15 separate service charge agreement with the recipient, or a single user that has caused the
60.16 need for the project or whose current or projected ~~flow and load exceed~~ usage exceeds
60.17 one-half of the current wastewater ~~treatment plant's~~ or drinking water system capacity.

60.18 Subd. 11. **Report on needs.** By February 1 of each even-numbered year, the
60.19 authority, in conjunction with the Pollution Control Agency and Department of Health,
60.20 shall prepare a report to the Finance Division of the senate Environment and Natural
60.21 Resources Committee and the house of representatives Environment and Natural
60.22 Resources Finance Committee on wastewater and drinking water funding assistance needs
60.23 of governmental units under this section.

60.24 Subd. 12. **System replacement fund.** Each governmental unit receiving a loan ~~or~~
60.25 grant under this section shall establish a system replacement fund and shall annually
60.26 deposit a minimum of \$.50 per 1,000 gallons of flow for major rehabilitation ~~or~~ ₂ expansion,
60.27 or replacement of the treatment wastewater or drinking water system, ~~or replacement of~~
60.28 ~~the treatment system at the end of its useful life.~~ Money must remain in the account for the
60.29 life of the corresponding project loan from the authority or USDA/RECD, unless use of
60.30 the fund is approved in writing by the authority for major rehabilitation, expansion, or
60.31 replacement of the ~~treatment~~ wastewater or drinking water system. By March 1 each year
60.32 during the life of the loan, each recipient shall submit a report to the authority regarding
60.33 the amount deposited and the fund balance for the prior calendar year. A recipient is not
60.34 required to maintain a fund balance greater than the amount of the grant received. Failure
60.35 to comply with the requirements of this subdivision shall result in the authority assessing a
60.36 penalty fee to the recipient equal to one percent of the supplemental assistance amount for

61.1 each year of noncompliance. ~~Failure to make the required deposit or pay the penalty fee as~~
61.2 ~~required constitutes a default on the loan.~~

61.3 Subd. 14. **Consistency with land use plans.** A governmental unit applying for a
61.4 project in an unsewered area shall include in its application to the authority a certification
61.5 from the county in which the project is located that:

61.6 (1) the project is consistent with the county comprehensive land use plan, if the
61.7 county has adopted one;

61.8 (2) the project is consistent with the county water plan, if the county has adopted
61.9 one; and

61.10 (3) the county has adopted specific land use ordinances or controls so as to meet or
61.11 exceed the requirements of Minnesota Rules, part 7080.0305.

61.12 Sec. 7. Minnesota Statutes 2014, section 446A.073, as amended by Laws 2015, First
61.13 Special Session chapter 4, article 4, sections 127, 128, and 129, is amended to read:

61.14 **446A.073 POINT SOURCE IMPLEMENTATION GRANTS.**

61.15 Subdivision 1. **Program established.** When money is appropriated for grants
61.16 under this program, the authority shall award grants up to a maximum of ~~\$3,000,000~~
61.17 \$7,000,000 to governmental units to cover ~~up to one-half~~ 80 percent of the cost of water
61.18 infrastructure projects made necessary by:

61.19 (1) a wasteload reduction prescribed under a total maximum daily load plan required
61.20 by section 303(d) of the federal Clean Water Act, United States Code, title 33, section
61.21 1313(d);

61.22 (2) a phosphorus concentration or mass limit which requires discharging one
61.23 milligram per liter or less at permitted design flow which is incorporated into a permit
61.24 issued by the Pollution Control Agency;

61.25 (3) any other water quality-based effluent limit established under section 115.03,
61.26 subdivision 1, paragraph (e), clause (8), and incorporated into a permit issued by the
61.27 Pollution Control Agency that exceeds secondary treatment limits; or

61.28 (4) a total nitrogen concentration or mass limit of that requires discharging ten
61.29 milligrams per liter or less ~~for a land-based treatment system~~ at permitted design flow.

61.30 Subd. 2. **Grant application.** Application for a grant must be made to the authority
61.31 on forms prescribed by the authority ~~for the total maximum daily load grant program, with~~
61.32 ~~additional information as required by the authority,~~ including a project schedule and cost
61.33 estimate for the work necessary to comply with the ~~point source wasteload allocation~~
61.34 requirements listed in subdivision 1. The Pollution Control Agency shall:

62.1 (1) ~~in accordance with section 116.182, calculate the essential project component~~
62.2 ~~percentage, which must be multiplied by the total project cost to determine the eligible~~
62.3 ~~project cost; and~~

62.4 (2) review and certify to the authority those projects that have plans and
62.5 specifications approved under section 115.03, subdivision 1, paragraph (f).

62.6 Subd. 3. **Project priorities.** ~~When money is appropriated for grants under this~~
62.7 ~~program,~~ The authority shall accept applications under this program during the month of
62.8 July and reserve money for projects expected to proceed with construction by the end of
62.9 the fiscal year in the order listed on the Pollution Control Agency's project priority list and
62.10 in an amount based on the cost estimate submitted to the authority in the grant application
62.11 or the as-bid costs, whichever is less. Notwithstanding Minnesota Rules, chapter 7077,
62.12 the Pollution Control Agency may rank a drinking water infrastructure project on the
62.13 agency's project priority list if the project is necessary to meet an applicable requirement
62.14 in subdivision 1.

62.15 Subd. 4. **Grant approval.** The authority must make a grant for an eligible project
62.16 only after:

62.17 (1) the applicant has submitted the as-bid cost for the water infrastructure project;

62.18 (2) the Pollution Control Agency has approved the as-bid costs and certified the
62.19 grant eligible portion of the project; and

62.20 (3) the authority has determined that the additional financing necessary to complete
62.21 the project has been committed from other sources.

62.22 Subd. 5. **Grant disbursement.** Disbursement of a grant must be made for eligible
62.23 project costs as incurred by the governmental unit and in accordance with a project
62.24 financing agreement and applicable state and federal laws and rules governing the
62.25 payments.

62.26 Sec. 8. Minnesota Statutes 2014, section 446A.081, subdivision 9, is amended to read:

62.27 Subd. 9. **Other uses of fund.** (a) The drinking water revolving loan fund may be
62.28 used as provided in the act, including the following uses:

62.29 (1) to buy or refinance the debt obligations, at or below market rates, of public water
62.30 systems for drinking water systems, where the debt was incurred after the date of enactment
62.31 of the act, for the purposes of construction of the necessary improvements to comply with
62.32 the national primary drinking water regulations under the federal Safe Drinking Water Act;

62.33 (2) to purchase or guarantee insurance for local obligations to improve credit market
62.34 access or reduce interest rates;

(3) to provide a source of revenue or security for the payment of principal and interest on revenue or general obligation bonds issued by the authority if the bond proceeds are deposited in the fund;

(4) to provide loans or loan guarantees for similar revolving funds established by a governmental unit or state agency;

(5) to earn interest on fund accounts;

(6) to pay the reasonable costs incurred by the authority, the Department of Employment and Economic Development, and the Department of Health for conducting activities as authorized and required under the act up to the limits authorized under the act;

(7) to develop and administer programs for water system supervision, source water protection, and related programs required under the act;

(8) notwithstanding Minnesota Rules, part 7380.0280, to provide principal forgiveness or grants to the extent permitted under the federal Safe Drinking Water Act and other federal law, based on the criteria and requirements established for drinking water projects under the water infrastructure funding program under section 446A.072;

(9) to provide loans, principal forgiveness or grants to the extent permitted under the federal Safe Drinking Water Act and other federal law to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities; and

(10) to provide principal forgiveness, or grants for 50 percent of the project cost up to a maximum of \$10,000 for projects needed to comply with national primary drinking water standards for an existing community or noncommunity public water system.

~~(b) Principal forgiveness or grants under paragraph (a), clause (8), must only be provided if the average annual residential drinking water system cost after completion of the project would otherwise exceed 1.2 percent of the median household income in the project service area. In determining whether the average annual residential drinking water system cost would exceed 1.2 percent, the authority must consider the total costs associated with building, operating, and maintaining the drinking water system, including debt service and operation and maintenance costs. Debt service costs for the proposed project must be calculated based on the maximum loan term permitted for the drinking water revolving fund loan under this section. The amount of the principal forgiveness or grant must be equal to 80 percent of the amount needed to reduce the average annual residential drinking water system cost to 1.2 percent of median household income in the project service area, to a maximum of \$4,000,000 or \$15,000 per connection, whichever is less, and not to exceed 80 percent of the total project cost.~~

~~(e)~~ (b) Principal forgiveness or grants provided under paragraph (a), clause (9), may not exceed 25 percent of the eligible project costs as determined by the Department of

64.1 Health for project components directly related to green infrastructure, water or energy
64.2 efficiency improvements, or other environmentally innovative activities, up to a maximum
64.3 of \$1,000,000.

64.4 ~~(d) The authority may reduce the percentage of median household income at which a~~
64.5 ~~loan term could extend to 30 years under subdivision 8, paragraph (c), and at which~~
64.6 ~~principal forgiveness or grants could be provided under paragraph (b) if it determines that~~
64.7 ~~the federal money allotted to the state cannot be fully utilized without the reduction. If it~~
64.8 ~~determines that the reduction is necessary to fully utilize the federal money, the authority~~
64.9 ~~must effect the change through its approval of the annual intended use plan.~~
