14.17 ARTICLE 3

14.18 MOTOR FUELS GROSS RECEIPTS TAX

Section 1. [296A.085] MOTOR FUELS GROSS RECEIPTS TAX.

Subdivision 1. Imposition. In addition to other taxes imposed on the use of motor fuels under this chapter, a motor fuels gross receipts tax is imposed on the first licensed distributor receiving motor fuel for use in motor vehicles. The motor fuels gross receipts tax is imposed at the rate of six and one-half percent of the average wholesale price of gasoline for Minnesota as calculated in subdivisions 3 and 4. The motor fuels gross receipts tax is imposed on all motor fuel, in either a liquid or gaseous form.

Subd. 2. **Exemptions.** Subdivision 1 does not apply to gasoline, denatured ethanol, special fuel, or alternative fuel purchased by an entity described in section 296A.07, subdivision 4, or 296A.08, subdivision 3.

Subd. 3. Calculation of tax amount per gallon. (a) The tax imposed under this section must be calculated by converting the motor fuels gross receipts tax amount into a tax rate per gallon. The commissioner of revenue will determine and publish the motor fuels gross receipts tax amount per gallon annually. The amount is determined by multiplying the previous calendar year's average wholesale gasoline price for Minnesota,

04/08/16	REVISOR	RSI/EP	16-7099

for all grades of a gallon of gasoline, by six and one-half percent. The wholesale price 15.1 15.2 used shall not include any tax or fee that can be assessed by the state of Minnesota or the United States government. The wholesale price published by the United States Energy 15.3 Information Administration must be used to determine the motor fuels gross receipts tax 15.4 amount per gallon. The minimum average wholesale price to be used for this calculation 15.5 is \$2.50 per gallon. The motor fuels gross receipts tax amount per gallon will be in effect 15.6 for fuel received during a 12-month period from the next July 1 to June 30. By May 1 15.7 of each year, the commissioner will publish the upcoming fiscal year's motor fuels gross 15.8 receipts tax amounts per gallon and the current gasoline excise tax amount per gallon. 15.9 All amounts will be stated in cents per gallon rounded to the nearest one-tenth of a cent, 15.10 disregarding amounts less than .05 cents and increasing amounts of .05 cents to .099 15.11 15.12 cents to the next highest one-tenth of a cent. (b) For the period of October 1, 2016, through June 30, 2017, the motor fuels gross 15.13 receipts tax amount per gallon of gasoline is six and one-half percent of the greater of 15.14 15.15 \$2.50 or the average wholesale gasoline price for Minnesota, for all grades of a gallon of gasoline, for calendar year 2015, as published by the United States Energy Information 15.16 Administration. The commissioner must publish the rates before August 1, 2016. 15.17 15.18 Subd. 4. Calculation of tax amount per gallon for other motor fuels. (a) The motor fuels gross receipts tax on other motor fuels must be computed at the following 15.19 15.20 tax rate: (1) the tax rate per gallon of E85 is 71 percent of the motor fuels gross receipts tax 15.21 amount per gallon for gasoline, rounded to the nearest tenth of a cent per gallon; 15.22 15.23 (2) the tax rate per gallon of M85 is 57 percent of the motor fuels gross receipts tax 15.24 amount per gallon for gasoline, rounded to the nearest tenth of a cent per gallon; (3) the tax rate per gallon of Liquefied Petroleum Gas (LPG) is 75 percent of the 15.25 15.26 motor fuels gross receipts tax amount per gallon for gasoline, rounded to the nearest tenth of a cent per gallon; 15.27 (4) the tax rate per gallon of Liquid Natural Gas (LNG) is 60 percent of the motor 15.28 fuels gross receipts tax amount per gallon for gasoline, rounded to the nearest tenth of a 15.29 cent per gallon; and 15.30 (5) the tax rate per thousand cubic feet of Compressed Natural Gas (CNG) is the 15.31 same as the motor fuels gross receipts tax amount per gallon of gasoline. 15.32 (b) The tax rate per gallon of all other special fuel used as a motor fuel is the 15.33 same as the motor fuels gross receipts tax amount per gallon of gasoline as specified in 15.34

subdivision 3.
