ARTICLE 5

CONSTRUCTION CODES AND LICENSING

Section 1. Minnesota Statutes 2023 Supplement, section 326B.106, subdivision 1, is amended to read:

Subdivision 1. Adoption of code. (a) Subject to paragraphs (c) and (d) and sections 326B.101 to 326B.194, the commissioner shall by rule and in consultation with the Construction Codes Advisory Council establish a code of standards for the construction, reconstruction, alteration, and repair of buildings, governing matters of structural materials, design and construction, fire protection, health, sanitation, and safety, including design and construction standards regarding heat loss control, illumination, and climate control. The code must also include duties and responsibilities for code administration, including procedures for administrative action, penalties, and suspension and revocation of certification. The code must conform insofar as practicable to model building codes generally accepted and in use throughout the United States, including a code for building conservation. In the preparation of the code, consideration must be given to the existing statewide specialty codes presently in use in the state. Model codes with necessary modifications and statewide specialty codes may be adopted by reference. The code must be based on the application of scientific principles, approved tests, and professional judgment. To the extent possible, the code must be adopted in terms of desired results instead of the means of achieving those results, avoiding wherever possible the incorporation of specifications of particular methods or materials. To that end the code must encourage the use of new methods and new materials. Except as otherwise provided in sections 326B.101 to 326B.194, the commissioner shall administer and enforce the provisions of those sections.

No loan for rehabilitation shall be made unless the agency 139.21 determines that the loan will be used primarily to make the housing more desirable to live 139.22 in, to increase the market value of the housing, for compliance with state, county or municipal 139.23 building, housing maintenance, fire, health or similar codes and standards applicable to 139.24 housing, or to accomplish energy conservation related improvements decarbonization, 139.25 climate resiliency, and other qualified projects. No loan under this subdivision 139.28 for the rehabilitation of owner-occupied housing shall be denied solely because the loan 139.29 will not be used for placing the owner-occupied residential housing in full compliance with 139.30 all state, county, or municipal building, housing maintenance, fire, health, or similar codes 139.31 and standards applicable to housing. Rehabilitation loans shall be made only when the 139.32 agency determines that financing is not otherwise available, in whole or in part, from private lenders upon equivalent terms and conditions. - 140.7 (3) the improvement will enable the borrower or a member of the borrower's family to reside in the housing.

Loans made in whole or in part with federal funds may exceed the maximum loan amount to the extent necessary to comply with federal 140.30 lead abatement requirements prescribed by the funding source. In making loans, the agency shall determine the circumstances under which and the terms and conditions under which 140.31 all or any portion of the loan will be repaid and shall determine the appropriate security for 140.32 the repayment of the loan.
