 14.9 **INSURANCE**

14.10 Section 1. Minnesota Statutes 2020, section 60A.092, subdivision 10a, is amended to read:

14.11 Subd. 10a. **Other jurisdictions.** The reinsurance is ceded and credit allowed to an
 14.12 assuming insurer not meeting the requirements of subdivision 2, 3, 4, 5, ~~or 10~~, or 10b, but
 14.13 only with respect to the insurance of risks located in jurisdictions where the reinsurance is
 14.14 required by applicable law or regulation of that jurisdiction.

14.15 **EFFECTIVE DATE.** This section is effective January 1, 2022, and applies to reinsurance
 14.16 contracts entered into or renewed on or after that date.

14.17 Sec. 2. Minnesota Statutes 2020, section 60A.092, is amended by adding a subdivision to
 14.18 read:

14.19 Subd. 10b. **Credit allowed; reciprocal jurisdiction.** (a) Credit shall be allowed when
 14.20 the reinsurance is ceded to an assuming insurer meeting each of the following conditions:

14.21 (1) the assuming insurer must have its head office in or be domiciled in, as applicable,
 14.22 and be licensed in a reciprocal jurisdiction. A "reciprocal jurisdiction" means a jurisdiction
 14.23 that is:

14.24 (i) a non-United States jurisdiction that is subject to an in-force covered agreement with
 14.25 the United States, each within its legal authority, or, in the case of a covered agreement
 14.26 between the United States and the European Union, is a member state of the European
 14.27 Union. For purposes of this subdivision, a "covered agreement" means an agreement entered
 14.28 into pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, United
 14.29 States Code, title 31, sections 313 and 314, that is currently in effect or in a period of
 14.30 provisional application and addresses the elimination, under specified conditions, of collateral
 14.31 requirements as a condition for entering into any reinsurance agreement with a ceding insurer
 14.32 domiciled in Minnesota or for allowing the ceding insurer to recognize credit for reinsurance;

15.1 (ii) a United States jurisdiction that meets the requirements for accreditation under the
15.2 National Association of Insurance Commissioners (NAIC) financial standards and
15.3 accreditation program; or

15.4 (iii) a qualified jurisdiction, as determined by the commissioner, which is not otherwise
15.5 described in item (i) or (ii) and which meets the following additional requirements, consistent
15.6 with the terms and conditions of in-force covered agreements:

15.7 (A) provides that an insurer which has its head office or is domiciled in such qualified
15.8 jurisdiction shall receive credit for reinsurance ceded to a United States-domiciled assuming
15.9 insurer in the same manner as credit for reinsurance is received for reinsurance assumed by
15.10 insurers domiciled in such qualified jurisdiction;

15.11 (B) does not require a United States-domiciled assuming insurer to establish or maintain
15.12 a local presence as a condition for entering into a reinsurance agreement with any ceding
15.13 insurer subject to regulation by the non-United States jurisdiction or as a condition to allow
15.14 the ceding insurer to recognize credit for such reinsurance;

15.15 (C) recognizes the United States state regulatory approach to group supervision and
15.16 group capital, by providing written confirmation by a competent regulatory authority, in
15.17 such qualified jurisdiction, that insurers and insurance groups that are domiciled or maintain
15.18 their headquarters in this state or another jurisdiction accredited by the NAIC shall be subject
15.19 only to worldwide prudential insurance group supervision including worldwide group
15.20 governance, solvency and capital, and reporting, as applicable, by the commissioner or the
15.21 commissioner of the domiciliary state and will not be subject to group supervision at the
15.22 level of the worldwide parent undertaking of the insurance or reinsurance group by the
15.23 qualified jurisdiction; and

15.24 (D) provides written confirmation by a competent regulatory authority in such qualified
15.25 jurisdiction that information regarding insurers and their parent, subsidiary, or affiliated
15.26 entities, if applicable, shall be provided to the commissioner in accordance with a
15.27 memorandum of understanding or similar document between the commissioner and such
15.28 qualified jurisdiction, including but not limited to the International Association of Insurance
15.29 Supervisors Multilateral Memorandum of Understanding or other multilateral memoranda
15.30 of understanding coordinated by the NAIC;

15.31 (2) the assuming insurer must have and maintain, on an ongoing basis, minimum capital
15.32 and surplus, or its equivalent, calculated according to the methodology of its domiciliary
15.33 jurisdiction, on at least an annual basis as of the preceding December 31 or on the date
15.34 otherwise statutorily reported to the reciprocal jurisdiction, in the following amounts:

- 16.1 (i) no less than \$250,000,000; or
- 16.2 (ii) if the assuming insurer is an association, including incorporated and individual
- 16.3 unincorporated underwriters:
- 16.4 (A) minimum capital and surplus equivalents, net of liabilities, or own funds of the
- 16.5 equivalent of at least \$250,000,000; and
- 16.6 (B) a central fund containing a balance of the equivalent of at least \$250,000,000;
- 16.7 (3) the assuming insurer must have and maintain, on an ongoing basis, a minimum
- 16.8 solvency or capital ratio, as applicable, as follows:
- 16.9 (i) if the assuming insurer has its head office or is domiciled in a reciprocal jurisdiction
- 16.10 defined in clause (1), item (i), the ratio specified in the applicable covered agreement;
- 16.11 (ii) if the assuming insurer is domiciled in a reciprocal jurisdiction defined in clause (1),
- 16.12 item (ii), a risk-based capital ratio of 300 percent of the authorized control level, calculated
- 16.13 in accordance with the formula developed by the NAIC; or
- 16.14 (iii) if the assuming insurer is domiciled in a Reciprocal Jurisdiction defined in clause
- 16.15 (1), item (iii), after consultation with the reciprocal jurisdiction and considering any
- 16.16 recommendations published through the NAIC Committee Process, such solvency or capital
- 16.17 ratio as the commissioner determines to be an effective measure of solvency;
- 16.18 (4) the assuming insurer must agree and provide adequate assurance in the form of a
- 16.19 properly executed Form RJ-1 of its agreement to the following:
- 16.20 (i) the assuming insurer must provide prompt written notice and explanation to the
- 16.21 commissioner if it falls below the minimum requirements set forth in clause (2) or (3), or
- 16.22 if any regulatory action is taken against the assuming insurer for serious noncompliance
- 16.23 with applicable law;
- 16.24 (ii) the assuming insurer must consent in writing to the jurisdiction of the courts of
- 16.25 Minnesota and to the appointment of the commissioner as agent for service of process. The
- 16.26 commissioner may require that consent for service of process be provided to the
- 16.27 commissioner and included in each reinsurance agreement. Nothing in this subdivision shall
- 16.28 limit or in any way alter the capacity of parties to a reinsurance agreement to agree to
- 16.29 alternative dispute resolution mechanisms, except to the extent such agreements are
- 16.30 unenforceable under applicable insolvency or delinquency laws;

17.1 (iii) the assuming insurer must consent in writing to pay all final judgments, wherever
17.2 enforcement is sought, obtained by a ceding insurer or its legal successor, that have been
17.3 declared enforceable in the jurisdiction where the judgment was obtained;

17.4 (iv) each reinsurance agreement must include a provision requiring the assuming insurer
17.5 to provide security in an amount equal to 100 percent of the assuming insurer's liabilities
17.6 attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists
17.7 enforcement of a final judgment that is enforceable under the law of the jurisdiction in which
17.8 it was obtained or a properly enforceable arbitration award, whether obtained by the ceding
17.9 insurer or by its legal successor on behalf of its resolution estate;

17.10 (v) the assuming insurer must confirm that it is not presently participating in any solvent
17.11 scheme of arrangement which involves this state's ceding insurers, and agree to notify the
17.12 ceding insurer and the commissioner and to provide security in an amount equal to 100
17.13 percent of the assuming insurer's liabilities to the ceding insurer, should the assuming insurer
17.14 enter into such a solvent scheme of arrangement. The security shall be in a form consistent
17.15 with sections 60A.092, subdivision 10, 60A.093, 60A.096, and 60A.097. For purposes of
17.16 this section, the term "solvent scheme of arrangement" means a foreign or alien statutory
17.17 or regulatory compromise procedure subject to requisite majority creditor approval and
17.18 judicial sanction in the assuming insurer's home jurisdiction either to finally commute
17.19 liabilities of duly noticed classed members or creditors of a solvent debtor, or to reorganize
17.20 or restructure the debts and obligations of a solvent debtor on a final basis, and which may
17.21 be subject to judicial recognition and enforcement of the arrangement by a governing
17.22 authority outside the ceding insurer's home jurisdiction; and

17.23 (vi) the assuming insurer must agree in writing to meet the applicable information filing
17.24 requirements set forth in clause (5);

17.25 (5) the assuming insurer or its legal successor must provide, if requested by the
17.26 commissioner, on behalf of itself and any legal predecessors, the following documentation
17.27 to the commissioner:

17.28 (i) for the two years preceding entry into the reinsurance agreement and on an annual
17.29 basis thereafter, the assuming insurer's annual audited financial statements, in accordance
17.30 with the applicable law of the jurisdiction of its head office or domiciliary jurisdiction, as
17.31 applicable, including the external audit report;

17.32 (ii) for the two years preceding entry into the reinsurance agreement, the solvency and
17.33 financial condition report or actuarial opinion, if filed with the assuming insurer's supervisor;

18.1 (iii) prior to entry into the reinsurance agreement and not more than semiannually
18.2 thereafter, an updated list of all disputed and overdue reinsurance claims outstanding for
18.3 90 days or more, regarding reinsurance assumed from ceding insurers domiciled in the
18.4 United States; and

18.5 (iv) prior to entry into the reinsurance agreement and not more than semiannually
18.6 thereafter, information regarding the assuming insurer's assumed reinsurance by ceding
18.7 insurer, ceded reinsurance by the assuming insurer, and reinsurance recoverable on paid
18.8 and unpaid losses by the assuming insurer to allow for the evaluation of the criteria set forth
18.9 in clause (6);

18.10 (6) the assuming insurer must maintain a practice of prompt payment of claims under
18.11 reinsurance agreements. The lack of prompt payment will be evidenced if any of the
18.12 following criteria is met:

18.13 (i) more than 15 percent of the reinsurance recoverables from the assuming insurer are
18.14 overdue and in dispute as reported to the commissioner;

18.15 (ii) more than 15 percent of the assuming insurer's ceding insurers or reinsurers have
18.16 overdue reinsurance recoverable on paid losses of 90 days or more which are not in dispute
18.17 and which exceed for each ceding insurer \$100,000, or as otherwise specified in a covered
18.18 agreement; or

18.19 (iii) the aggregate amount of reinsurance recoverable on paid losses which are not in
18.20 dispute, but are overdue by 90 days or more, exceeds \$50,000,000, or as otherwise specified
18.21 in a covered agreement;

18.22 (7) the assuming insurer's supervisory authority must confirm to the commissioner by
18.23 December 31, 2021, and annually thereafter, or at the annual date otherwise statutorily
18.24 reported to the reciprocal jurisdiction, that the assuming insurer complies with the
18.25 requirements set forth in clauses (2) and (3); and

18.26 (8) nothing in this subdivision precludes an assuming insurer from providing the
18.27 commissioner with information on a voluntary basis.

18.28 (b) The commissioner shall timely create and publish a list of reciprocal jurisdictions.
18.29 The commissioner's list shall include any reciprocal jurisdiction as defined under paragraph
18.30 (a), clause (1), items (i) and (ii), and shall consider any other reciprocal jurisdiction included
18.31 on the NAIC list. The commissioner may approve a jurisdiction that does not appear on the
18.32 NAIC list of reciprocal jurisdictions in accordance with criteria developed under rules issued
18.33 by the commissioner. The commissioner may remove a jurisdiction from the list of reciprocal

19.1 jurisdictions upon a determination that the jurisdiction no longer meets the requirements of
19.2 a reciprocal jurisdiction, in accordance with a process set forth in rules issued by the
19.3 commissioner, except that the commissioner shall not remove from the list a reciprocal
19.4 jurisdiction as defined under paragraph (a), clause (1), items (i) and (ii). Upon removal of
19.5 a reciprocal jurisdiction from the list, credit for reinsurance ceded to an assuming insurer
19.6 which has its home office or is domiciled in that jurisdiction shall be allowed, if otherwise
19.7 allowed pursuant to law.

19.8 (c) The commissioner shall timely create and publish a list of assuming insurers that
19.9 have satisfied the conditions set forth in this subdivision and to which cessions shall be
19.10 granted credit in accordance with this subdivision. The commissioner may add an assuming
19.11 insurer to the list if an NAIC accredited jurisdiction has added the assuming insurer to a list
19.12 of assuming insurers or if, upon initial eligibility, the assuming insurer submits the
19.13 information to the commissioner as required under paragraph (a), clause (4), and complies
19.14 with any additional requirements that the commissioner may impose by rule, except to the
19.15 extent that they conflict with an applicable covered agreement.

19.16 (i) If an NAIC-accredited jurisdiction has determined that the conditions set forth in
19.17 paragraph (a), clause (2), have been met, the commissioner has the discretion to defer to
19.18 that jurisdiction's determination, and add such assuming insurer to the list of assuming
19.19 insurers to which cessions shall be granted credit in accordance with this paragraph. The
19.20 commissioner may accept financial documentation filed with another NAIC-accredited
19.21 jurisdiction or with the NAIC in satisfaction of the requirements of paragraph (a), clause
19.22 (2);

19.23 (ii) When requesting that the commissioner defer to another NAIC-accredited
19.24 jurisdiction's determination, an assuming insurer must submit a properly executed Form
19.25 RJ-1 and additional information as the commissioner may require. A state that has received
19.26 such a request will notify other states through the NAIC Committee Process and provide
19.27 relevant information with respect to the determination of eligibility.

19.28 (d) If the commissioner determines that an assuming insurer no longer meets one or
19.29 more of the requirements under this subdivision, the commissioner may revoke or suspend
19.30 the eligibility of the assuming insurer for recognition under this subdivision in accordance
19.31 with procedures set forth in rule. While an assuming insurer's eligibility is suspended, no
19.32 reinsurance agreement issued, amended, or renewed after the effective date of the suspension
19.33 qualifies for credit, except to the extent that the assuming insurer's obligations under the
19.34 contract are secured in accordance with this section. If an assuming insurer's eligibility is
19.35 revoked, no credit for reinsurance may be granted after the effective date of the revocation

20.1 with respect to any reinsurance agreements entered into by the assuming insurer, including
20.2 reinsurance agreements entered into prior to the date of revocation, except to the extent that
20.3 the assuming insurer's obligations under the contract are secured in a form acceptable to
20.4 the commissioner and consistent with the provisions of this section.

20.5 (e) Before denying statement credit or imposing a requirement to post security with
20.6 respect to paragraph (d) or adopting any similar requirement that will have substantially the
20.7 same regulatory impact as security, the commissioner shall:

20.8 (1) communicate with the ceding insurer, the assuming insurer, and the assuming insurer's
20.9 supervisory authority that the assuming insurer no longer satisfies one of the conditions
20.10 listed in paragraph (a), clause (2);

20.11 (2) provide the assuming insurer with 30 days from the initial communication to submit
20.12 a plan to remedy the defect, and 90 days from the initial communication to remedy the
20.13 defect, except in exceptional circumstances in which a shorter period is necessary for
20.14 policyholder and other consumer protection;

20.15 (3) after the expiration of 90 days or less, as set out in clause (2), if the commissioner
20.16 determines that no or insufficient action was taken by the assuming insurer, the commissioner
20.17 may impose any of the requirements as set out in this paragraph; and

20.18 (4) provide a written explanation to the assuming insurer of any of the requirements set
20.19 out in this paragraph.

20.20 (f) If subject to a legal process of rehabilitation, liquidation, or conservation, as applicable,
20.21 the ceding insurer, or its representative, may seek and, if determined appropriate by the
20.22 court in which the proceedings are pending, may obtain an order requiring that the assuming
20.23 insurer post security for all outstanding ceded liabilities.

20.24 (g) Nothing in this subdivision limits or in any way alters the capacity of parties to a
20.25 reinsurance agreement to agree on requirements for security or other terms in the reinsurance
20.26 agreement, except as expressly prohibited by applicable law or rule.

20.27 (h) Credit may be taken under this subdivision only for reinsurance agreements entered
20.28 into, amended, or renewed on or after the effective date of this subdivision, and only with
20.29 respect to losses incurred and reserves reported on or after the later of: (1) the date on which
20.30 the assuming insurer has met all eligibility requirements pursuant to this subdivision; and
20.31 (2) the effective date of the new reinsurance agreement, amendment, or renewal. This
20.32 paragraph does not alter or impair a ceding insurer's right to take credit for reinsurance, to
20.33 the extent that credit is not available under this subdivision, as long as the reinsurance

21.1 qualifies for credit under any other applicable provision of law. Nothing in this subdivision
21.2 shall authorize an assuming insurer to withdraw or reduce the security provided under any
21.3 reinsurance agreement, except as permitted by the terms of the agreement. Nothing in this
21.4 subdivision shall limit, or in any way alter, the capacity of parties to any reinsurance
21.5 agreement to renegotiate the agreement.

21.6 **EFFECTIVE DATE.** This section is effective January 1, 2022, and applies to reinsurance
21.7 contracts entered into or renewed on or after that date.

21.8 Sec. 3. Minnesota Statutes 2020, section 60A.0921, subdivision 2, is amended to read:

21.9 Subd. 2. **Certification procedure.** (a) The commissioner shall post notice on the
21.10 department's website promptly upon receipt of any application for certification, including
21.11 instructions on how members of the public may respond to the application. The commissioner
21.12 may not take final action on the application until at least 30 days after posting the notice.

21.13 (b) The commissioner shall issue written notice to an assuming insurer that has applied
21.14 and been approved as a certified reinsurer. The notice must include the rating assigned the
21.15 certified reinsurer in accordance with subdivision 1. The commissioner shall publish a list
21.16 of all certified reinsurers and their ratings.

21.17 (c) In order to be eligible for certification, the assuming insurer must:

21.18 (1) be domiciled and licensed to transact insurance or reinsurance in a qualified
21.19 jurisdiction, as determined by the commissioner under subdivision 3;

21.20 (2) maintain capital and surplus, or its equivalent, of no less than \$250,000,000 calculated
21.21 in accordance with paragraph (d), clause (8). This requirement may also be satisfied by an
21.22 association including incorporated and individual unincorporated underwriters having
21.23 minimum capital and surplus equivalents net of liabilities of at least \$250,000,000 and a
21.24 central fund containing a balance of at least \$250,000,000;

21.25 (3) maintain financial strength ratings from two or more rating agencies acceptable to
21.26 the commissioner. These ratings shall be based on interactive communication between the
21.27 rating agency and the assuming insurer and shall not be based solely on publicly available
21.28 information. These financial strength ratings shall be one factor used by the commissioner
21.29 in determining the rating that is assigned to the assuming insurer. Acceptable rating agencies
21.30 include the following:

21.31 (i) Standard & Poor's;

21.32 (ii) Moody's Investors Service;

- 22.1 (iii) Fitch Ratings;
- 22.2 (iv) A.M. Best Company; or
- 22.3 (v) any other nationally recognized statistical rating organization; and
- 22.4 (4) ensure that the certified reinsurer complies with any other requirements reasonably
- 22.5 imposed by the commissioner.

22.6 (d) Each certified reinsurer shall be rated on a legal entity basis, with due consideration
 22.7 being given to the group rating where appropriate, except that an association including
 22.8 incorporated and individual unincorporated underwriters that has been approved to do
 22.9 business as a single certified reinsurer may be evaluated on the basis of its group rating.
 22.10 Factors that may be considered as part of the evaluation process include, but are not limited
 22.11 to:

22.12 (1) certified reinsurer's financial strength rating from an acceptable rating agency. The
 22.13 maximum rating that a certified reinsurer may be assigned will correspond to its financial
 22.14 strength rating as outlined in the table below. The commissioner shall use the lowest financial
 22.15 strength rating received from an approved rating agency in establishing the maximum rating
 22.16 of a certified reinsurer. A failure to obtain or maintain at least two financial strength ratings
 22.17 from acceptable rating agencies will result in loss of eligibility for certification;

22.18 Ratings	Best	S&P	Moody's	Fitch

22.28 (2) the business practices of the certified reinsurer in dealing with its ceding insurers,
 22.29 including its record of compliance with reinsurance contractual terms and obligations;

22.30 (3) for certified reinsurers domiciled in the United States, a review of the most recent
 22.31 applicable NAIC annual statement;

22.32 (4) for certified reinsurers not domiciled in the United States, a review annually of such
 22.33 forms as may be required by the commissioner;

23.1 (5) the reputation of the certified reinsurer for prompt payment of claims under
23.2 reinsurance agreements, based on an analysis of ceding insurers' reporting of overdue
23.3 reinsurance recoverables, including the proportion of obligations that are more than 90 days
23.4 past due or are in dispute, with specific attention given to obligations payable to companies
23.5 that are in administrative supervision or receivership;

23.6 (6) regulatory actions against the certified reinsurer;

23.7 (7) the report of the independent auditor on the financial statements of the insurance
23.8 enterprise, on the basis described in clause (8);

23.9 (8) for certified reinsurers not domiciled in the United States, audited financial statements
23.10 (audited United States GAAP basis if available, audited IFRS basis statements are allowed,
23.11 but must include an audited footnote reconciling equity and net income to a United States
23.12 GAAP basis, or, with permission of the commissioner, audited IFRS statements with
23.13 reconciliation to United States GAAP certified by an officer of the company). Upon the
23.14 initial application for certification, the commissioner will consider audited financial
23.15 statements for the last ~~three~~ two years filed with its non-United States jurisdiction supervisor;

23.16 (9) the liquidation priority of obligations to a ceding insurer in the certified reinsurer's
23.17 domiciliary jurisdiction in the context of an insolvency proceeding;

23.18 (10) a certified reinsurer's participation in any solvent scheme of arrangement, or similar

34.29 Minnesota if, as a result of the cybersecurity event reported to the commissioner, the
34.30 consumer's nonpublic information was or is reasonably believed to have been acquired by
34.31 an unauthorized person, and there is a reasonable likelihood of material harm to the consumer
34.32 as a result of the cybersecurity event. Consumer notification is not required for a

35.1 cybersecurity event resulting from the good faith acquisition of nonpublic information by
35.2 an employee or agent of the licensee for the purposes of the licensee's business, provided
35.3 the nonpublic information is not used for a purpose other than the licensee's business or
35.4 subject to further unauthorized disclosure. The notification must be made in the most

40.11 Sec. 14. Minnesota Statutes 2020, section 61A.245, subdivision 4, is amended to read:

40.12 Subd. 4. **Minimum values.** The minimum values as specified in subdivisions 5, 6, 7, 8
40.13 and 10 of any paid-up annuity, cash surrender or death benefits available under an annuity

40.15 (a) The minimum nonforfeiture amount at any time at or prior to the commencement of
40.16 any annuity payments shall be equal to an accumulation up to that time at rates of interest
40.17 as indicated in paragraph (b) of the net considerations, as defined in this subdivision, paid
40.18 prior to that time, decreased by the sum of clauses (1) through (4):

40.19 (1) any prior withdrawals from or partial surrenders of the contract accumulated at rates
40.20 of interest as indicated in paragraph (b);

40.21 (2) an annual contract charge of \$50, accumulated at rates of interest as indicated in
40.22 paragraph (b);

40.23 (3) any premium tax paid by the company for the contract and not subsequently credited
40.24 back to the company, such as upon early termination of the contract, in which case this
40.25 decrease must not be taken, accumulated at rates of interest as indicated in paragraph (b);
40.26 and

40.27 (4) the amount of any indebtedness to the company on the contract, including interest
40.28 due and accrued.

41.1 The net considerations for a given contract year used to define the minimum nonforfeiture
 41.2 amount shall be an amount equal to 87.5 percent of the gross considerations credited to the
 41.3 contract during that contract year.

41.4 (b) The interest rate used in determining minimum nonforfeiture amounts must be an
 41.5 annual rate of interest determined as the lesser of three percent per annum and the following,
 41.6 which must be specified in the contract if the interest rate will be reset:

41.7 (1) the five-year constant maturity treasury rate reported by the Federal Reserve as of a
 41.8 date, or average over a period, rounded to the nearest 1/20 of one percent, specified in the

 41.18 equity indexed benefit, it may increase the reduction described in clause (2) by up to an
 41.19 additional 100 basis points to reflect the value of the equity index benefit. The present value
 41.20 at the contract issue date, and at each redetermination date thereafter, of the additional
 41.21 reduction must not exceed the market value of the benefit. The commissioner may require
 41.22 a demonstration that the present value of the additional reduction does not exceed the market

79.13 service or function listed in paragraph (a) until the transportation service provider has
79.14 received notification from the commissioner of human services indicating that the individual:

79.15 (1) is not disqualified under chapter 245C; or

79.16 (2) is disqualified, but has received a set-aside of that disqualification according to
79.17 sections 245C.22 and 245C.23 related to that transportation service provider.

79.19 subdivision 17, by a volunteer driver, as defined in section 65B.472, subdivision 1, paragraph
79.20 (h), and the agency authorizing the ride has reason to believe the volunteer driver has a
79.21 history that would disqualify the individual or that may pose a risk to the health or safety
79.22 of passengers, the agency may initiate a background study to be completed according to
79.23 chapter 245C using the commissioner of human services' online NETStudy system, or
79.24 through contacting the Department of Human Services background study division for
79.25 assistance. The agency that initiates the background study under this paragraph shall be
79.26 responsible for providing the volunteer driver with the privacy notice required under section
79.27 245C.05, subdivision 2c, and payment for the background study required under section

79.30 Subd. 3b. **Passenger transportation; exemptions.** (a) A person who transports
79.31 passengers for hire in intrastate commerce, who is not made subject to the rules adopted in
79.32 section 221.0314 by any other provision of this section, must comply with the rules for

80.1 hours of service of drivers while transporting employees of an employer who is directly or
80.2 indirectly paying the cost of the transportation.

80.3 (b) This subdivision does not apply to:

80.4 (1) a local transit commission;

80.5 (2) a transit authority created by law; or

80.6 (3) persons providing transportation:

80.7 (i) in a school bus as defined in section 169.011, subdivision 71;

80.8 (ii) in a Head Start bus as defined in section 169.011, subdivision 34;

80.17 (viii) in a taxicab, if the fare for the transportation is determined by a meter inside the

80.18 taxicab that measures the distance traveled and displays the fare accumulated.

80.19 Sec. 19. Minnesota Statutes 2020, section 256B.0625, subdivision 17, is amended to read:

80.20 Subd. 17. **Transportation costs.** (a) "Nonemergency medical transportation service"

80.21 means motor vehicle transportation provided by a public or private person that serves

80.22 Minnesota health care program beneficiaries who do not require emergency ambulance

80.23 service, as defined in section 144E.001, subdivision 3, to obtain covered medical services.

80.24 (b) Medical assistance covers medical transportation costs incurred solely for obtaining

80.25 emergency medical care or transportation costs incurred by eligible persons in obtaining

80.26 emergency or nonemergency medical care when paid directly to an ambulance company,

80.27 nonemergency medical transportation company, or other recognized providers of

80.28 transportation services. Medical transportation must be provided by:

80.29 (1) nonemergency medical transportation providers who meet the requirements of this

80.30 subdivision;

81.1 (2) ambulances, as defined in section 144E.001, subdivision 2;

81.2 (3) taxicabs that meet the requirements of this subdivision;

81.3 (4) public transit, as defined in section 174.22, subdivision 7; or

81.4 (5) not-for-hire vehicles, including volunteer drivers, as defined in section 65B.472,
81.5 subdivision 1, paragraph (h).

81.6 (c) Medical assistance covers nonemergency medical transportation provided by
81.7 nonemergency medical transportation providers enrolled in the Minnesota health care
81.8 programs. All nonemergency medical transportation providers must comply with the
81.9 operating standards for special transportation service as defined in sections 174.29 to 174.30
81.10 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the
81.11 commissioner and reported on the claim as the individual who provided the service. All
81.12 nonemergency medical transportation providers shall bill for nonemergency medical
81.13 transportation services in accordance with Minnesota health care programs criteria. Publicly
81.14 operated transit systems, volunteers, and not-for-hire vehicles are exempt from the
81.15 requirements outlined in this paragraph.

81.16 (d) An organization may be terminated, denied, or suspended from enrollment if:

81.17 (1) the provider has not initiated background studies on the individuals specified in
81.18 section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

81.19 (2) the provider has initiated background studies on the individuals specified in section
81.20 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

81.21 (i) the commissioner has sent the provider a notice that the individual has been
81.22 disqualified under section 245C.14; and

81.23 (ii) the individual has not received a disqualification set-aside specific to the special
81.24 transportation services provider under sections 245C.22 and 245C.23.

81.25 (e) The administrative agency of nonemergency medical transportation must:

81.26 (1) adhere to the policies defined by the commissioner in consultation with the
81.27 Nonemergency Medical Transportation Advisory Committee;

81.28 (2) pay nonemergency medical transportation providers for services provided to
81.29 Minnesota health care programs beneficiaries to obtain covered medical services;

81.30 (3) provide data monthly to the commissioner on appeals, complaints, no-shows, canceled
81.31 trips, and number of trips by mode; and

82.1 (4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single
82.2 administrative structure assessment tool that meets the technical requirements established
82.3 by the commissioner, reconciles trip information with claims being submitted by providers,
82.4 and ensures prompt payment for nonemergency medical transportation services.

82.5 (f) Until the commissioner implements the single administrative structure and delivery
82.6 system under subdivision 18e, clients shall obtain their level-of-service certificate from the
82.7 commissioner or an entity approved by the commissioner that does not dispatch rides for
82.8 clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).

82.9 (g) The commissioner may use an order by the recipient's attending physician, advanced
82.10 practice registered nurse, or a medical or mental health professional to certify that the
82.11 recipient requires nonemergency medical transportation services. Nonemergency medical
82.12 transportation providers shall perform driver-assisted services for eligible individuals, when
82.13 appropriate. Driver-assisted service includes passenger pickup at and return to the individual's
82.14 residence or place of business, assistance with admittance of the individual to the medical
82.15 facility, and assistance in passenger securement or in securing of wheelchairs, child seats,
82.16 or stretchers in the vehicle.

82.17 Nonemergency medical transportation providers must take clients to the health care
82.18 provider using the most direct route, and must not exceed 30 miles for a trip to a primary
82.19 care provider or 60 miles for a trip to a specialty care provider, unless the client receives
82.20 authorization from the local agency.

82.21 Nonemergency medical transportation providers may not bill for separate base rates for
82.22 the continuation of a trip beyond the original destination. Nonemergency medical
82.23 transportation providers must maintain trip logs, which include pickup and drop-off times,
82.24 signed by the medical provider or client, whichever is deemed most appropriate, attesting
82.25 to mileage traveled to obtain covered medical services. Clients requesting client mileage
82.26 reimbursement must sign the trip log attesting mileage traveled to obtain covered medical
82.27 services.

82.28 (h) The administrative agency shall use the level of service process established by the
82.29 commissioner in consultation with the Nonemergency Medical Transportation Advisory
82.30 Committee to determine the client's most appropriate mode of transportation. If public transit
82.31 or a certified transportation provider is not available to provide the appropriate service mode
82.32 for the client, the client may receive a onetime service upgrade.

82.33 (i) The covered modes of transportation are:

83.1 (1) client reimbursement, which includes client mileage reimbursement provided to
83.2 clients who have their own transportation, or to family or an acquaintance who provides
83.3 transportation to the client;

83.4 (2) volunteer transport, which includes transportation by volunteers using their own
83.5 vehicle;

83.6 (3) unassisted transport, which includes transportation provided to a client by a taxicab
83.7 or public transit. If a taxicab or public transit is not available, the client can receive
83.8 transportation from another nonemergency medical transportation provider;

83.9 (4) assisted transport, which includes transport provided to clients who require assistance
83.10 by a nonemergency medical transportation provider;

83.11 (5) lift-equipped/ramp transport, which includes transport provided to a client who is
83.12 dependent on a device and requires a nonemergency medical transportation provider with
83.13 a vehicle containing a lift or ramp;

83.14 (6) protected transport, which includes transport provided to a client who has received
83.15 a prescreening that has deemed other forms of transportation inappropriate and who requires
83.16 a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety
83.17 locks, a video recorder, and a transparent thermoplastic partition between the passenger and
83.18 the vehicle driver; and (ii) who is certified as a protected transport provider; and

83.19 (7) stretcher transport, which includes transport for a client in a prone or supine position
83.20 and requires a nonemergency medical transportation provider with a vehicle that can transport
83.21 a client in a prone or supine position.

83.22 (j) The local agency shall be the single administrative agency and shall administer and
83.23 reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the
83.24 commissioner has developed, made available, and funded the web-based single administrative
83.25 structure, assessment tool, and level of need assessment under subdivision 18e. The local
83.26 agency's financial obligation is limited to funds provided by the state or federal government.

83.27 (k) The commissioner shall:

83.28 (1) in consultation with the Nonemergency Medical Transportation Advisory Committee,
83.29 verify that the mode and use of nonemergency medical transportation is appropriate;

83.30 (2) verify that the client is going to an approved medical appointment; and

83.31 (3) investigate all complaints and appeals.

84.1 (l) The administrative agency shall pay for the services provided in this subdivision and
84.2 seek reimbursement from the commissioner, if appropriate. As vendors of medical care,
84.3 local agencies are subject to the provisions in section 256B.041, the sanctions and monetary
84.4 recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

84.5 (m) Payments for nonemergency medical transportation must be paid based on the client's
84.6 assessed mode under paragraph (h), not the type of vehicle used to provide the service. The
84.7 medical assistance reimbursement rates for nonemergency medical transportation services
84.8 that are payable by or on behalf of the commissioner for nonemergency medical
84.9 transportation services are:

84.10 (1) \$0.22 per mile for client reimbursement;

84.11 (2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer
84.12 transport;

84.13 (3) equivalent to the standard fare for unassisted transport when provided by public
84.14 transit, and \$11 for the base rate and \$1.30 per mile when provided by a nonemergency
84.15 medical transportation provider;

84.16 (4) \$13 for the base rate and \$1.30 per mile for assisted transport;

84.17 (5) \$18 for the base rate and \$1.55 per mile for lift-equipped/ramp transport;

84.18 (6) \$75 for the base rate and \$2.40 per mile for protected transport; and

84.19 (7) \$60 for the base rate and \$2.40 per mile for stretcher transport, and \$9 per trip for
84.20 an additional attendant if deemed medically necessary.

84.21 (n) The base rate for nonemergency medical transportation services in areas defined
84.22 under RUCA to be super rural is equal to 111.3 percent of the respective base rate in
84.23 paragraph (m), clauses (1) to (7). The mileage rate for nonemergency medical transportation
84.24 services in areas defined under RUCA to be rural or super rural areas is:

84.25 (1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage
84.26 rate in paragraph (m), clauses (1) to (7); and

84.27 (2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage
84.28 rate in paragraph (m), clauses (1) to (7).

84.29 (o) For purposes of reimbursement rates for nonemergency medical transportation
84.30 services under paragraphs (m) and (n), the zip code of the recipient's place of residence
84.31 shall determine whether the urban, rural, or super rural reimbursement rate applies.

85.1 (p) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means
 85.2 a census-tract based classification system under which a geographical area is determined
 85.3 to be urban, rural, or super rural.

85.4 (q) The commissioner, when determining reimbursement rates for nonemergency medical
 85.5 transportation under paragraphs (m) and (n), shall exempt all modes of transportation listed
 85.6 under paragraph (i) from Minnesota Rules, part 9505.0445, item R, subitem (2).

93.7 (1) taken out of service prior to December 22, 1988; ~~or~~

93.9 did not know of the existence of the underground petroleum storage tank and could not have
93.10 reasonably been expected to have known of the tank's existence at the time the owner first
93.11 acquired right, title, or interest in the tank; or

93.12 (3) taken out of service and is located on property that is being held by the state in trust
93.13 for local taxing districts under section 281.25.

93.14 (b) The board may contract for:

93.15 (1) a statewide assessment in order to determine the quantity, location, cost, and feasibility
93.16 of removing abandoned underground petroleum storage tanks;

93.17 (2) the removal of an abandoned underground petroleum storage tank; and

93.18 (3) the removal and disposal of petroleum-contaminated soil if the removal is required
93.19 by the commissioner at the time of tank removal.

93.20 (c) Before the board may contract for removal of an abandoned petroleum storage tank,
93.21 the tank owner must provide the board with written access to the property and release the
93.22 board from any potential liability for the work performed.

93.23 (d) If at the time of the forfeiture of property identified under paragraph (a), clause (3),
93.24 the property owner or the owner's heirs, devisees, or representatives, or any person to whom
93.25 the right to pay taxes was granted by statute, mortgage, or other agreement, repurchases the
93.26 property under section 282.241, the board's contracted costs for the underground storage

93.29 of the property.

93.30 ~~(d)~~ (e) Money in the fund is appropriated to the board for the purposes of this section.

94.1 Sec. 2. Minnesota Statutes 2020, section 308A.201, subdivision 12, is amended to read:

94.2 Subd. 12. **Electric cooperative powers.** (a) An electric cooperative has the power and
94.3 authority to:

94.4 (1) make loans to its members;

94.5 (2) prerefund debt;

94.6 (3) obtain funds through negotiated financing or public sale;

94.7 (4) borrow money and issue its bonds, debentures, notes, or other evidence of
94.8 indebtedness;

94.9 (5) mortgage, pledge, or otherwise hypothecate its assets as may be necessary;

94.10 (6) invest its resources;

94.11 (7) deposit money in state and national banks and trust companies authorized to receive
94.12 deposits; and

94.13 (8) exercise all other powers and authorities granted to cooperatives.

94.14 (b) A cooperative organized to provide rural electric power may enter agreements and
94.15 contracts with other electric power cooperatives or with a cooperative constituted of electric
94.16 power cooperatives to share losses and risk of losses to their transmission and distribution
94.17 lines, transformers, substations, and related appurtenances from storm, sleet, hail, tornado,
94.18 cyclone, hurricane, or windstorm. An agreement or contract or a cooperative formed to
94.19 share losses under this paragraph is not subject to the laws of this state relating to insurance
94.20 and insurance companies.

94.21 (c) An electric cooperative, an affiliate of the cooperative formed to provide broadband,
94.22 or another entity pursuant to an agreement with the cooperative or the cooperative's affiliate,
94.23 may use the cooperative, affiliate, or entity's existing or subsequently acquired electric
94.24 transmission or distribution easements for broadband infrastructure and to provide broadband
94.25 service, which may include an agreement to lease fiber capacity. To exercise rights granted
94.26 under this paragraph, the cooperative must provide to the property owner on which the
94.27 easement is located two written notices, at least two months apart, that the cooperative
94.28 intends to use the easement for broadband purposes. The use of the easement for broadband
94.29 services vests and runs with the land beginning six months after the first notice is provided
94.30 under paragraph (d) unless a court action challenging the use of the easement for broadband
94.31 purposes has been filed before that time by the property owner, as provided under paragraph

95.1 (e). The cooperative must also file evidence of the notices for recording with the county
95.2 recorder.

95.3 (d) The cooperative's notices under paragraph (c) must be sent by first class mail to the
95.4 last known address of the owner of the property on which the easement is located or by
95.5 printed insertion in the property owner's utility bill. The notice must include the following:

95.6 (1) the name and mailing address of the cooperative;

95.7 (2) a narrative describing the nature and purpose of the intended easement use;

95.8 (3) a description of any trenching or other underground work expected to result from
95.9 the intended use, including the anticipated time frame for the work;

95.10 (4) a phone number of a cooperative employee to contact regarding the easement; and

95.11 (5) the following statement, in bold red lettering: "It is important to make any challenge
95.12 by the deadline to preserve any legal rights you may have."

95.13 (e) Within six months after receiving notice under paragraph (d), a property owner may
95.14 commence an action seeking to recover damages for an electric cooperative's use of an
95.15 electric transmission or distribution easement for broadband service purposes. If the claim
95.16 for damages is under \$15,000, the claim may be brought in conciliation court.

95.17 Notwithstanding any other law to the contrary, the procedures and substantive matters set
95.18 forth in this subdivision govern an action under this paragraph and are the exclusive means
95.19 to bring a claim for compensation with respect to a notice of intent to use a cooperative
95.20 transmission or distribution easement for broadband purposes. To commence an action
95.21 under this paragraph, the property owner must serve a complaint upon the electric cooperative
95.22 as in a civil action and file the complaint with the district court for the county in which the
95.23 easement is located. The complaint must state whether the property owner (1) is challenging
95.24 the electric cooperative's right to use the easement for broadband services or infrastructure
95.25 as authorized under paragraph (c), (2) is seeking damages as provided under paragraph (f),
95.26 or (3) both.

95.27 (f) If the property owner is seeking damages, the electric cooperative may, at any time
95.28 after answering the complaint: (1) deposit with the court administrator an amount equal to
95.29 the cooperative's estimate of damages, which must be no less than \$1; and (2) after making
95.30 the deposit, use the electric transmission or service line easements for broadband purposes,
95.31 conditioned on an obligation to pay the amount of damages determined by the court. If the
95.32 property owner is challenging the electric cooperative's right to use the easement for
95.33 broadband services or infrastructure as authorized under paragraph (c), after the electric

96.1 cooperative answers the complaint the district court must promptly hold a hearing on the
 96.2 property owner's challenge. If the district court denies the property owner's challenge, the
 96.3 electric cooperative may proceed to make a deposit and make use of the easement for
 96.4 broadband service purposes, as provided under clause (2).

96.5 (g) In an action involving a property owner's claim for damages, the landowner has the
 96.6 burden to prove the existence and amount of any net reduction in the fair market value of
 96.7 the property, considering the existence, installation, construction, maintenance, modification,
 96.8 operation, repair, replacement, or removal of broadband infrastructure in the easement, as
 96.9 well as any benefit to the property from access to broadband service. Consequential or
 96.10 special damages must not be awarded. Evidence of revenue, profits, fees, income, or similar
 96.11 benefits to the electric cooperative, the cooperative's affiliate, or a third party is inadmissible.
 96.12 Any fees or costs incurred as a result of an action under this subdivision must be paid by
 96.13 the party that incurred the fees or costs, except that the cooperative is responsible for the
 96.14 landowner attorney fees if the final judgment or award of damages is more than 140 percent
 96.15 of the cooperative's damage deposit.

96.16 (h) Nothing in this section limits in any way an electric cooperative's existing easement
 96.17 rights, including but not limited to rights an electric cooperative has or may acquire to
 96.18 transmit communications for electric system operations or otherwise.

96.19 (i) The placement of broadband infrastructure for use to provide broadband service under
 96.20 paragraphs (c) to (h) in any portion of an electric transmission or distribution easement
 96.21 located in the public right-of-way is subject to local government permitting and right-of-way
 96.22 management authority under section 237.163, and the placement must be coordinated with
 96.23 the relevant local government unit to minimize potential future relocations. The cooperative
 96.24 must notify a local government unit prior to placing infrastructure for broadband service in
 96.25 an easement that is in or adjacent to the local government unit's public right-of-way.

96.26 (j) For purposes of this subdivision:

96.27 (1) "broadband infrastructure" has the meaning given in section 116J.394; and

96.28 (2) "broadband service" means broadband infrastructure and any services provided over
 96.29 the infrastructure that offer advanced telecommunications capability and Internet access.

 97.10 (2).

97.11 (b) By February 15 of each year following the receipt of a grant, the Minnesota Council
 97.12 on Economic Education must report to the commissioner of education on the number and

 97.14 the Minnesota Council on Economic Education or affiliated state centers. The report must
 97.15 include a description of the content, length, and location of the programs; the number of
 97.16 preservice and licensed teachers receiving professional development through each of these
 97.17 opportunities; and a summary of evaluations of professional opportunities for teachers.

112.6 energy to serve its retail electricity customers in Minnesota so that by the end of 2020, at
112.7 least 1.5 percent of the utility's total retail electric sales to retail customers in Minnesota is
112.8 generated by solar energy.

112.9 (b) For a public utility with more than 200,000 retail electric customers, at least ten
112.10 percent of the 1.5 percent goal must be met by solar energy generated by or procured from
112.11 solar photovoltaic devices with a nameplate capacity of 40 kilowatts or less.

112.12 (c) A public utility with between 50,000 and 200,000 retail electric customers:

112.13 (1) must meet at least ten percent of the 1.5 percent goal with solar energy generated by
112.14 or procured from solar photovoltaic devices with a nameplate capacity of 40 kilowatts or
112.15 less; and

112.16 (2) may apply toward the ten percent goal in clause (1) individual customer subscriptions
112.17 of 40 kilowatts or less to a community solar garden program operated by the public utility
112.18 that has been approved by the commission.

112.19 (d) The solar energy standard established in this subdivision is subject to all the provisions
112.20 of this section governing a utility's standard obligation under subdivision 2a.

112.21 (e) It is an energy goal of the state of Minnesota that, by 2030, ten percent of the retail
112.22 electric sales in Minnesota be generated by solar energy.

112.23 (f) For the purposes of calculating the total retail electric sales of a public utility under
112.24 this subdivision, there shall be excluded retail electric sales to customers that are:

112.25 (1) an iron mining extraction and processing facility, including a scam mining facility
112.26 as defined in Minnesota Rules, part 6130.0100, subpart 16; or

112.27 (2) a paper mill, wood products manufacturer, sawmill, or oriented strand board
112.28 manufacturer.

112.29 Those customers may not have included in the rates charged to them by the public utility
112.30 any costs of satisfying the solar standard specified by this subdivision.

113.1 (g) A public utility may not use energy used to satisfy the solar energy standard under
113.2 this subdivision to satisfy its standard obligation under subdivision 2a. A public utility may
113.3 not use energy used to satisfy the standard obligation under subdivision 2a to satisfy the
113.4 solar standard under this subdivision.

113.5 (h) Notwithstanding any law to the contrary, a solar renewable energy credit associated
113.6 with a solar photovoltaic device installed and generating electricity in Minnesota after
113.7 August 1, 2013, but before 2020 may be used to meet the solar energy standard established
113.8 under this subdivision.

113.9 ~~(i) Beginning July 1, 2014, and each July 1 through 2020, each public utility shall file~~
113.10 ~~a report with the commission reporting its progress in achieving the solar energy standard~~
113.11 ~~established under this subdivision.~~

113.12 **EFFECTIVE DATE.** This section is effective the day following final enactment.

113.13 Sec. 17. Minnesota Statutes 2020, section 216B.241, is amended by adding a subdivision
113.14 to read:

113.15 **Subd. 14. Minnesota efficient technology accelerator.** (a) A nonprofit organization
113.16 with extensive experience implementing energy efficiency programs in Minnesota and
113.17 conducting efficient technology research in the state may file a proposal with the
113.18 commissioner of commerce for a program to accelerate deployment and reduce the cost of
113.19 emerging and innovative efficient technologies and approaches and lead to lower energy
113.20 costs for Minnesota consumers. Accelerator activities include strategic initiatives with
113.21 technology manufacturers to improve the efficiency and performance of products, as well
113.22 as with equipment installers and other key actors in the technology supply chain. Benefits
113.23 of activities expected from the accelerator include cost effective energy savings for Minnesota
113.24 utilities, bill savings for Minnesota utility consumers, enhanced employment opportunities
113.25 in Minnesota, and avoidance of greenhouse gas emissions.

113.26 (b) Prior to developing and filing a proposal, the nonprofit must submit to the
113.27 commissioner of commerce a notice of intent to file a proposal under this subdivision. The
113.28 notice of intent must describe the nonprofit's qualifications and eligibility to file a proposal
113.29 under this subdivision. The commissioner must review the notice of intent and issue a
113.30 determination of eligibility within 30 days if the commissioner determines the nonprofit
113.31 meets the required qualifications.

114.1 (c) Upon receiving the determination by the commissioner under paragraph (b), the
114.2 nonprofit organization must engage with interested stakeholders on at least the following
114.3 attributes required of a program proposal under this subdivision:

114.4 (1) a proposed budget and operational guidelines for the accelerator;

114.5 (2) a proposed energy savings attribution, evaluation, and allocation methodology that
114.6 includes a method for calculating net benefits from activities under the program. Energy
114.7 savings and net benefits from activities under the program must be allocated to participating
114.8 utilities and be considered when determining cost-effectiveness of achieved energy savings
114.9 and related incentives;

114.10 (3) a process to ensure that the technologies that are selected for the program benefit
114.11 electric and natural gas utility customers in proportion to the funds each utility sector
114.12 contributes to the program and address residential, commercial, and industrial building
114.13 energy use; and

114.14 (4) a process for identifying and tracking performance metrics for each technology
114.15 selected against which progress can be measured, including one or more methods for
114.16 evaluating cost-effectiveness.

114.17 (d) No earlier than 180 days from the date of the commissioner's eligibility determination
114.18 under paragraph (b), the nonprofit may file a program proposal under this subdivision. The
114.19 filing must describe how the proposal addresses each of the required attributes listed in
114.20 paragraph (c), clauses (1) to (4), and how the proposal addresses the recommendations and
114.21 concerns identified in the stakeholder engagement process required under paragraph (c).

114.22 (e) Within ten days of receiving the proposal, the commissioner must provide public
114.23 notice of the proposal and solicit feedback from interested parties for a period of not less
114.24 than ten business days.

114.25 (f) Within 90 days of the filing of the proposal, the commissioner must approve, modify,
114.26 or reject a proposal under this subdivision. In making a determination, the commissioner
114.27 must consider public comments, the expected costs and benefits of the program from the
114.28 perspectives of ratepayers, the participating utilities, and society, and the expected costs
114.29 and benefits relative to other energy conservation programming authorized under this section.

114.30 (g) The initial program term may be up to five years. At the request of the nonprofit, the
114.31 commissioner may renew a program approved under paragraph (d) for up to five years at
114.32 a time. The nonprofit must submit to the commissioner a request to renew the program no
114.33 later than 180 days prior to the end of the term of the program approved or renewed under

115.1 this subdivision. When making a request to renew and determination on renewal, the
115.2 nonprofit and commissioner must follow the process established under this subdivision,
115.3 except that a qualified nonprofit is not required to seek eligibility under paragraph (b).

115.4 (h) Upon approval, each public utility with over 30,000 customers must participate in
115.5 the program and contribute to the approved budget of the program by depositing annually
115.6 in the energy and conservation account under subdivision 2a an amount that is proportional
115.7 to the utility's gross operating revenue from sales of gas or electric service in Minnesota,
115.8 excluding revenues from large customer facilities exempted under subdivision 1a. A
115.9 participating utility must not be required to contribute more than the following percentages
115.10 of the utility's spending approved by the commission in the plan filed under subdivision 2:
115.11 (1) two percent in the program's initial two years; (2) 3.5 percent in the program's third and
115.12 fourth years; and (3) five percent thereafter. Other utilities may elect to participate in the
115.13 accelerator program. Costs incurred by a public utility under this subdivision are recoverable
115.14 under subdivision 2b as an assessment to the energy and conservation account. Amounts
115.15 provided to the account under this subdivision are not subject to the cap on assessments in
115.16 section 216B.62. The commissioner may make expenditures from the account for the
115.17 purposes of this subdivision, including amounts necessary to cover administrative costs
115.18 incurred by the department under this subdivision. Costs for research projects under this
115.19 subdivision that the commissioner determines may be duplicative to projects that would be
115.20 eligible for funding under subdivision 1e, paragraph (a), may be deducted from the
115.21 assessment under subdivision 1e for utilities participating in the accelerator.

115.22 (i) The commissioner must not approve more than one program to be implemented or
115.23 in operation at any given time under this subdivision.

115.24 (j) At least once during the term of a program that is approved or renewed, the
115.25 commissioner must contract for an independent review of the program to determine if it
115.26 meets the objectives and requirements of this section and any criteria established by the
115.27 department as a condition of approval. The review may not be conducted by an entity or
115.28 person that acted as a stakeholder or interested party, or otherwise participated in the program
115.29 preparation, filing, or review process. Upon completion, the reviewer must prepare a report
115.30 detailing findings and recommendations, and the commissioner must transmit a copy of the
115.31 report to the chairs and ranking minority members of the house of representatives and senate
115.32 committees with jurisdiction over energy policy. Money required to conduct the review and
115.33 prepare the report must be deducted from the total contribution amount under paragraph
115.34 (h).

115.35 **EFFECTIVE DATE.** This section is effective the day following final enactment.

116.1 Sec. 18. Minnesota Statutes 2020, section 216B.2412, subdivision 3, is amended to read:

116.2 Subd. 3. **Pilot programs.** The commission shall allow one or more rate-regulated utilities
 116.3 to participate in a pilot program to assess the merits of a rate-decoupling strategy to promote
 116.4 energy efficiency and conservation. Each pilot program must utilize the criteria and standards
 116.5 established in subdivision 2 and be designed to determine whether a rate-decoupling strategy
 116.6 achieves energy savings. On or before a date established by the commission, the commission
 116.7 shall require electric and gas utilities that intend to implement a decoupling program to file
 116.8 a decoupling pilot plan, which shall be approved or approved as modified by the commission.
 116.9 A pilot program may not exceed three years in length. Any extension beyond three years
 116.10 can only be approved in a general rate case, unless that decoupling program was previously
 116.11 approved as part of a general rate case. ~~The commission shall report on the programs annually~~
 116.12 ~~to the chairs of the house of representatives and senate committees with primary jurisdiction~~
 116.13 ~~over energy policy.~~

116.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.

116.15 Sec. 19. Minnesota Statutes 2020, section 216B.2422, is amended by adding a subdivision
 116.16 to read:

 116.18 required to file a resource plan under subdivision 2 that has scheduled the retirement of an
 116.19 electric generating facility located in Minnesota must include in the filing a narrative
 116.20 describing the utility's efforts, in conjunction with the utility's workers and the workers'
 116.21 designated representatives, to develop a plan to minimize the dislocations employees may
 116.22 suffer as a result of the facility's retirement. The narrative must address, at a minimum,
 116.23 plans to:

116.24 (1) minimize financial losses to workers;

121.12 avoidance benefits of the utility's proposed plan.

121.13 (b) The commission must approve, modify, or reject a plan. The commission must not
121.14 approve an innovation plan unless the commission finds:

121.15 (1) the size, scope, and scale of the plan produces net benefits under the cost-benefit
121.16 framework established by the commission in section 216B.2428;

121.17 (2) the plan promotes the use of renewable energy resources and reduces or avoids
121.18 greenhouse gas emissions at a cost level consistent with subdivision 3;

121.19 (3) the plan promotes local economic development;

121.23 resources included in the plan are reasonable, considering available third-party tracking and
121.24 verification systems;

121.25 (6) the costs and revenues projected under the plan are reasonable in comparison to other

121.28 (7) the total amount of estimated greenhouse gas emissions reduction or avoidance to
121.29 be achieved under the plan is reasonable considering the state's greenhouse gas and renewable
121.30 energy goals, including those established in section 216C.05, subdivision 2, clause (3), and
121.31 section 216H.02, subdivision 1; customer cost; and the total amount of greenhouse gas

122.4 the anaerobic digestion of manure is certified as being produced at an agricultural livestock
122.5 production facility that has not and does not increase the number of animal units at the
122.6 facility solely or primarily to produce renewable natural gas for the plan.

122.7 (c) In seeking to recover costs under a plan approved by the commission under this
122.8 section, the utility must demonstrate to the satisfaction of the commission that the actual
122.9 total incremental costs incurred to implement the approved innovation plan are reasonable.
122.10 Prudently incurred costs under an approved plan, including prudently incurred costs to
122.11 obtain the third-party analysis required in paragraph (a), clauses (6) and (7), are recoverable
122.12 either:

122.13 (1) under section 216B.16, subdivision 7, clause (2), via the utility's purchased gas
122.14 adjustment;

122.15 (2) in the utility's next general rate case; or

122.16 (3) via annual adjustments, provided that after notice and comment the commission
122.17 determines that the costs included for recovery through rates are prudently incurred. Annual
122.18 adjustments must include a rate of return, income taxes on the rate of return, incremental
122.19 property taxes, incremental depreciation expense, and incremental operation and maintenance
122.20 expenses. The rate of return must be at the level approved by the commission in the utility's
122.21 last general rate case, unless the commission determines that a different rate of return is in
122.22 the public interest.

122.23 (d) The commission may not approve a utility's initial plan filed under this section unless:

122.24 (1) 50 percent or more of the utility's costs approved by the commission for recovery
122.25 under the plan are for the procurement and distribution of renewable natural gas, biogas,
122.26 hydrogen produced via power-to-hydrogen, and ammonia produced via power-to-ammonia;
122.27 and

122.28 (2) the utility's costs approved by the commission for recovery for any pilot program to
122.29 facilitate the development, expansion, or modification of district energy systems, as required
122.30 under subdivision 9, represent no more than 20 percent of the total costs approved by the
122.31 commission for recovery under the plan.

122.32 (e) Upon approval of a utility's plan, the commission shall establish cost-effectiveness
122.33 objectives for the plan based on the cost-benefit test for innovative resources developed

123.1 under section 216B.2428. The cost-effectiveness objective for each plan must demonstrate
123.2 incremental progress from the previously approved plan's cost-effectiveness objective.

123.3 (f) A utility operating under an approved plan must file annual reports to the commission
123.4 on work completed under the plan, including:

123.5 (1) costs incurred;

123.6 (2) lifecycle greenhouse gas emissions reductions or avoidance achieved;

123.7 (3) a description of the processes used to track and verify the innovative resources and
123.8 to retire the associated environmental attributes;

123.9 (4) an assessment of the degree to which the lifecycle greenhouse gas accounting
123.10 methodology is consistent with current science;

123.11 (5) the economic impact of the plan, including job creation;

123.12 (6) the utility's progress toward achieving the cost-effectiveness objectives established
123.13 by the commission; and

123.14 (7) modifications to elements of the plan proposed by the utility.

123.15 (g) When evaluating a utility's annual report, the commission may:

123.16 (1) approve the continuation of a pilot program included in the plan, with or without
123.17 modifications;

123.18 (2) require the utility to file a new or modified pilot program or plan; or

123.19 (3) disapprove the continuation of a pilot program or plan.

123.20 (h) An innovation plan has a term of five years. A subsequent innovation plan must be
123.21 filed no later than four years after the previous plan was approved by the commission so
123.22 that, if approved, the new plan takes effect immediately upon expiration of the previous
123.23 plan.

123.24 (i) For purposes of this section and the commission's lifecycle carbon accounting
123.25 framework and cost-benefit test for innovative resources under section 216B.2428, any
123.26 required analysis of lifecycle greenhouse gas emissions reductions or avoidance, or lifecycle
123.27 greenhouse gas intensity:

123.28 (1) must include but is not limited to estimates of:

123.29 (i) avoided or reduced greenhouse gas emissions attributable to utility operations;

124.1 (ii) avoided or reduced greenhouse gas emissions from the production, processing, and
124.2 transmission of fuels prior to receipt by the utility; and

124.3 (iii) avoided or reduced greenhouse gas emissions at the point of end use;

124.4 (2) must not count any unit of greenhouse gas emissions avoidance or reduction more
124.5 than once; and

124.6 (3) may, where direct measurement is not technically or economically feasible, rely on
124.7 emissions factors, default values, or engineering estimates from a publicly accessible source
124.8 accepted by a federal or state government agency, provided that the emissions factors,
124.9 default values, or engineering estimates can be demonstrated to the satisfaction of the
124.10 commission to produce a reasonable estimate of greenhouse gas emissions reductions,
124.11 avoidance, or intensity.

124.12 (j) Strategic electrification implemented in a plan approved by the commission under
124.13 this section is not eligible for a financial incentive under section 216B.241, subdivision 2c.
124.14 Electric end-use equipment installed under a plan approved by the commission under this
124.15 section is the exclusive property of the building owner.

124.16 **Subd. 3. Limitations on utility customer costs.** (a) Except as provided in paragraph
124.17 (b), the first innovation plan submitted to the commission by a utility must not propose, and
124.18 the commission must not approve, annual total incremental costs exceeding the lesser of:

124.19 (1) 1.75 percent of the utility's gross operating revenues from natural gas service provided
124.20 in Minnesota at the time of plan filing; or

124.21 (2) \$20 per nonexempt customer, based on the proposed annual total incremental costs
124.22 for each year of the plan divided by the total number of nonexempt utility customers.

124.23 (b) The commission may approve additional annual costs up to the lesser of:

124.24 (1) an additional 0.25 percent of the utility's gross operating revenues from service
124.25 provided in Minnesota at the time of plan filing; or

124.26 (2) \$5 per nonexempt customer, based on the proposed annual total incremental costs
124.27 for each year of the plan divided by the total number of nonexempt utility customers of
124.28 incremental costs.

124.29 The commission may approve the additional costs under this paragraph only if the
124.30 commission determines that the additional costs are associated exclusively with the purchase
124.31 of renewable natural gas produced from:

124.32 (i) food waste diverted from a landfill;

- 125.1 (ii) a municipal wastewater treatment system; or
- 125.2 (iii) an organic mixture that includes at least 15 percent, by volume, sustainably harvested
- 125.3 native prairie grasses or locally appropriate cover crops, as determined by a local soil and
- 125.4 water conservation district or the United States Department of Agriculture, Natural Resources
- 125.5 Conservation Service.
- 125.6 (c) Unless the commission determines that paragraph (d) applies, if the commission
- 125.7 determines that the utility has successfully achieved the cost-effectiveness objectives
- 125.8 established in the utility's most recently approved innovation plan, the next subsequent plan
- 125.9 filed by the utility under this section is subject to the provisions of paragraphs (a) and (b),
- 125.10 except that:
- 125.11 (1) the cap on total incremental costs in paragraph (a) with respect to the second plan is
- 125.12 the lesser of:
- 125.13 (i) 2.75 percent of the utility's gross operating revenues from natural gas service in
- 125.14 Minnesota at the time of the plan's filing; or
- 125.15 (ii) \$35 per nonexempt customer; and
- 125.16 (2) the cap on additional costs in paragraph (b) is the lesser of:
- 125.17 (i) an additional 0.75 percent of the utility's gross operating revenues from natural gas
- 125.18 service in Minnesota at the time of the plan's filing; or
- 125.19 (ii) \$10 per nonexempt customer.
- 125.20 (d) If the commission determines that the utility has successfully achieved the
- 125.21 cost-effectiveness objectives established in two of the same utility's previously approved
- 125.22 innovation plans, all subsequent plans filed by the utility under this section are subject to
- 125.23 paragraphs (a) and (b), except that:
- 125.24 (1) the cap on total incremental costs in paragraph (a) with respect to the third or
- 125.25 subsequent plan is the lesser of:
- 125.26 (i) four percent of the utility's gross operating revenues from natural gas service in
- 125.27 Minnesota at the time of the plan's filing; or
- 125.28 (ii) \$50 per nonexempt customer; and
- 125.29 (2) the cap on additional costs in paragraph (b) is the lesser of:
- 125.30 (i) an additional 1.5 percent of the utility's gross operating revenues from natural gas
- 125.31 service in Minnesota at the time of the plan's filing; or

126.1 (ii) \$20 per nonexempt customer.

126.2 (e) For purposes of paragraphs (a) to (d), the limits on annual total incremental costs
126.3 must be calculated at the time the innovation plan is filed as the average of the utility's
126.4 forecasted total incremental costs over the five-year term of the plan.

126.5 (f) A large customer facility that the commissioner of commerce has exempted from a
126.6 utility's conservation improvement program under section 216B.241, subdivision 1a,
126.7 paragraph (b), is exempt from the utility's innovation plan offerings and must not be charged
126.8 any costs incurred to implement an approved innovation plan unless the large customer
126.9 facility files a request with the commissioner to be included in a utility's innovation plan.
126.10 The commission may prohibit large customer facilities exempt from innovation plan costs
126.11 from participating in innovation plans.

126.12 (g) A utility filing an innovation plan may include annual spending and investments on
126.13 research and development of up to ten percent of the proposed total incremental costs related
126.14 to innovative plans, subject to the limitations in paragraphs (a) to (e).

126.15 (h) For purposes of this subdivision, gross operating revenues do not include revenues
126.16 from large customer facilities exempt from innovation plan costs.

126.17 **Subd. 4. Innovative resources procured outside of an innovation plan.** (a) Without
126.18 filing an innovation plan, a natural gas utility may propose and the commission may approve
126.19 cost recovery for:

126.20 (1) innovative resources acquired to satisfy a commission-approved green tariff program
126.21 that allows customers to choose to meet a portion of the customers' energy needs through
126.22 innovative resources; or

126.23 (2) utility expenditures for innovative resources procured at a cost that is within five
126.24 percent of the average of Ventura and Demarc index prices for natural gas produced from
126.25 conventional geologic sources at the time of the transaction per unit of natural gas that the
126.26 innovative resource displaces.

126.27 (b) An approved green tariff program must include provisions to ensure that reasonable
126.28 systems are used to track and verify the environmental attributes of innovative resources
126.29 included in the program, taking into account any available third-party tracking or verification
126.30 systems.

126.31 (c) For the purposes of this subdivision, "Ventura and Demarc index prices" means the
126.32 daily index price of wholesale natural gas sold at the Northern Natural Gas Company's
126.33 Ventura trading hub in Hancock County, Iowa, and its demarcation point in Clifton, Kansas.

127.1 Subd. 5. **Power-to-ammonia.** When determining whether to approve a power-to-ammonia
127.2 pilot program as part of an innovative plan, the commission must consider:

127.3 (1) the risk of exposing any person to unhealthy concentrations of ammonia;

127.4 (2) the risk that any home or business might be affected by ammonia odors;

127.5 (3) whether the greenhouse gas emissions addressed by the proposed power-to-ammonia
127.6 project could be more efficiently addressed using power-to-hydrogen; and

127.7 (4) whether the power-to-ammonia project achieves lifecycle greenhouse gas emissions
127.8 reductions in the agricultural sector more effectively than power-to-hydrogen.

127.9 Subd. 6. **Thermal energy audits.** The first innovation plan filed under this section by
127.10 a utility with more than 800,000 customers must include a pilot program to provide thermal
127.11 energy audits to small- and medium-sized business in order to identify opportunities to
127.12 reduce or avoid greenhouse gas emissions from natural gas use. The pilot program must
127.13 provide incentives for businesses to implement recommendations made by the audit. The
127.14 utility must develop criteria to identify businesses that achieve significant emissions
127.15 reductions by implementing audit recommendations and must recognize the businesses as
127.16 thermal energy leaders.

127.17 Subd. 7. **Innovative resources for certain industrial processes.** The first innovation
127.18 plan filed under this section by a utility with more than 800,000 customers must include a
127.19 pilot program to provide innovative resources to industrial facilities whose manufacturing
127.20 processes, for technical reasons, are not amenable to electrification. A large customer facility
127.21 exempt from innovation plan offerings under subdivision 3, paragraph (f), is not eligible to
127.22 participate in the pilot program under this subdivision.

127.23 Subd. 8. **Electric cold climate air-source heat pumps.** (a) The first innovation plan
127.24 filed under this section by a utility with more than 800,000 customers must include a pilot
127.25 program that facilitates deep energy retrofits and the installation of cold climate electric
127.26 air-source heat pumps in existing residential homes that have natural gas heating systems.

127.27 (b) For purposes of this subdivision, "deep energy retrofit" means the installation of any
127.28 measure or combination of measures, including air sealing and addressing thermal bridges,
127.29 that under normal weather and operating conditions can reasonably be expected to reduce
127.30 a building's calculated design load to ten or fewer British Thermal Units per hour per square
127.31 foot of conditioned floor area. Deep energy retrofit does not include the installation of
127.32 photovoltaic electric generation equipment, but may include the installation of a solar thermal
127.33 energy project.

128.1 Subd. 9. District energy. The first innovation plan filed under this section by a utility
128.2 with more than 800,000 customers must include a pilot program to facilitate the development,
128.3 expansion, or modification of district energy systems in Minnesota. This subdivision does
128.4 not require the utility to propose, construct, maintain, or own district energy infrastructure.

128.5 Subd. 10. Throughput goal. It is the goal of the state of Minnesota that through the
128.6 Natural Gas Innovation Act and Conservation Improvement Program, utilities reduce the
128.7 overall amount of natural gas produced from conventional geologic sources delivered to
128.8 customers.

128.9 Subd. 11. Utility system report and forecasts. (a) A public utility filing an innovation
128.10 plan shall concurrently submit a report to the commission containing the following
128.11 information:

128.12 (1) the volume of methane gas emissions attributed to venting or leakage across the
128.13 utility's system, including emissions information reported to the Environmental Protection
128.14 Agency and gas leaks considered to be hazardous or nonhazardous, and a narrative description
128.15 of the utility's expectations regarding the cost and performance of the utility's leakage
128.16 reduction programs over the next five years;

128.17 (2) total system greenhouse gas emissions and greenhouse gas emissions projected to
128.18 be reduced or avoided through innovative resource investments and energy conservation
128.19 investments, and a narrative description of the costs required to achieve the reductions over
128.20 the next five years through investments in innovative resources and energy conservation;

128.21 (3) the quantity of pipe in service in the utility's natural gas network in Minnesota, by
128.22 material, size, coating, operating pressure, and decade of installation, based on utility
128.23 information reported to the United States Department of Transportation;

128.24 (4) a narrative description of other significant equipment owned and operated by the
128.25 utility through which gas is transported or stored, including regulator stations and storage
128.26 facilities, a discussion of the function of the equipment, how the equipment is maintained,
128.27 and utility efforts to prevent leaks from the equipment;

128.28 (5) a five-year forecast of fuel prices and anticipated purchases including, as available,
128.29 natural gas produced from conventional geologic sources, renewable natural gas, and
128.30 alternative fuels;

128.31 (6) a five-year forecast of potential capital investments by the utility in existing
128.32 infrastructure and new infrastructure for natural gas produced from conventional geologic
128.33 sources and for innovative resources; and

129.1 (7) an inventory of the utility's current financial incentive programs for natural gas,
129.2 including rebates and incentives offered for new and existing buildings and a description
129.3 of the utility's projected changes in incentives the utility is likely to implement over the next
129.4 five years.

129.5 (b) Information filed under this subdivision is intended to be used by the commission
129.6 to evaluate a utility's innovation plan in the context of the utility's other planned investments
129.7 and activities with respect to natural gas produced from conventional geologic sources.
129.8 Information filed under this subdivision must not be used by the commission to set or limit
129.9 utility rate recovery.

129.10 **EFFECTIVE DATE.** This section is effective June 1, 2022.

129.11 Sec. 21. **[216B.2428] LIFECYCLE GREENHOUSE GAS EMISSIONS**
129.12 **ACCOUNTING FRAMEWORK; COST-BENEFIT TEST FOR INNOVATIVE**
129.13 **RESOURCES.**

129.14 By June 1, 2022, the commission shall, by order, issue frameworks the commission must
129.15 use to calculate lifecycle greenhouse gas emissions intensities of each innovative resource,
129.16 as follows:

129.17 (1) a general framework to compare the lifecycle greenhouse gas emissions intensities
129.18 of power-to-hydrogen, strategic electrification, renewable natural gas, district energy, energy
129.19 efficiency, biogas, carbon capture, and power-to-ammonia; and

129.20 (2) a cost-benefit analytic framework to be applied to innovative resources and innovation
129.21 plans filed under section 216B.2427 that the commission must use to compare the
129.22 cost-effectiveness of those resources and plans. This analytic framework must take into
129.23 account:

129.24 (i) the total incremental cost of the plan or resource and the lifecycle greenhouse gas
129.25 emissions avoided or reduced by the innovative resource or plan, using the framework
129.26 developed under clause (1);

129.27 (ii) additional economic costs and benefits, programmatic costs and benefits, additional
129.28 environmental costs and benefits, and other costs or benefits that may be expected under a
129.29 plan; and

129.30 (iii) baseline cost-effectiveness criteria against which an innovation plan should be
129.31 compared. When establishing baseline criteria, the commission must take into account
129.32 options available to reduce lifecycle greenhouse gas emissions from natural gas end uses
129.33 and the goals in section 216C.05, subdivision 2, clause (3), and section 216H.02, subdivision

130.1 1. To the maximum reasonable extent, the cost-benefit framework must be consistent with
 130.2 environmental cost values established under section 216B.2422, subdivision 3, and other
 130.3 calculations of the social value of greenhouse gas emissions reductions used by the
 130.4 commission. The commission may update frameworks established under this section as
 130.5 necessary.

130.6 **EFFECTIVE DATE.** This section is effective the day following final enactment.

130.7 Sec. 22. Minnesota Statutes 2020, section 216B.62, subdivision 3b, is amended to read:

130.8 Subd. 3b. **Assessment for department regional and national duties.** (a) In addition
 130.9 to other assessments in subdivision 3, the department may assess up to \$500,000 per fiscal
 130.10 year ~~for performing its~~ to perform the duties under section 216A.07, subdivision 3a, and to
 130.11 conduct analysis that assesses energy grid reliability at state, regional, and national levels.
 130.12 The amount in this subdivision shall be assessed to energy utilities in proportion to their
 130.13 respective gross operating revenues from retail sales of gas or electric service within the
 130.14 state during the last calendar year and shall be deposited into an account in the special
 130.15 revenue fund and is appropriated to the commissioner of commerce for the purposes of
 130.16 section 216A.07, subdivision 3a. An assessment made under this subdivision is not subject
 130.17 to the cap on assessments provided in subdivision 3 or any other law. For the purpose of
 130.18 this subdivision, an "energy utility" means public utilities, generation and transmission
 130.19 cooperative electric associations, and municipal power agencies providing natural gas or
 130.20 electric service in the state.

130.21 (b) By February 1, 2023, the commissioner of commerce must submit a written report
 130.22 to the chairs and ranking minority members of the legislative committees with primary
 130.23 jurisdiction over energy policy. The report must describe how the department has used
 130.24 utility grid assessment funding under paragraph (a) and must explain the impact the grid
 130.25 assessment funding has had on grid reliability in Minnesota.

130.26 (c) This subdivision expires June 30, ~~2024~~ 2023.

130.27 **EFFECTIVE DATE.** This section is effective the day following final enactment.

 131.13 installation of solar energy systems on or adjacent to school buildings by reducing the cost,
 131.14 and to enable schools to use the solar energy system as a teaching tool that can be integrated
 131.15 into the school's curriculum.

131.16 Subd. 3. **Establishment of account.** A solar for schools program account is established
 131.17 in the special revenue fund. Money received from the general fund must be transferred to
 131.18 the commissioner of commerce and credited to the account. Except as otherwise provided
 131.19 in this paragraph, money deposited in the account remains in the account until expended.
 131.20 Any money that remains in the account on June 30, 2027, cancels to the general fund.

131.21 Subd. 4. **Expenditures.** (a) Money in the account may be used only:

131.22 (1) for grant awards made under this section; and

131.23 (2) to pay the reasonable costs incurred by the department to administer this section.

131.24 (b) Grant awards made with funds in the account must be used only for grants for solar

 134.21 withheld from the renewable development account to provide financial assistance to schools
 134.22 at which a solar energy system is installed;

134.23 (2) an estimate of the amount of financial assistance that the public utility provides to a
 134.24 school under clause (1), and the length of time financial assistance is provided;

 134.31 the public utility's plan submitted under this subdivision. The commissioner must approve
 134.32 a plan under this subdivision that the commissioner determines to be in the public interest

135.1 no later than December 31, 2021. Any proposed modifications to the plan approved under
135.2 this subdivision must be approved by the commissioner.

135.3 Subd. 3. **System eligibility.** A solar energy system is eligible to receive financial
135.4 assistance under this section if it meets all of the following conditions:

136.3 Subd. 6. **Limitation.** (a) No more than 60 percent of the financial assistance provided
136.4 by the public utility to schools under this section may be provided to schools where the
136.5 proportion of students eligible for free and reduced-price lunch under the National School
136.6 Lunch Program is less than 50 percent. If, after December 31, 2024, there is an insufficient
136.7 number of applicant schools to fulfill the requirements of this paragraph, the remaining
136.8 amounts may be provided to any school that is otherwise eligible to receive financial
136.9 assistance under this section but for the requirements of this paragraph.

136.10 (b) No more than ten percent of the total amount of financial assistance provided by the
136.11 public utility to schools under this section may be provided to schools that are part of the
