shortage payment over the taxable property of the taxing district of the employing unit if
the employing unit is supported by property taxes. Payment may not be made for shortages
in member deductions on salary paid or payable under paragraph (b) or for shortages in
member deductions for persons employed by the Minnesota State Colleges and Universities
system in a faculty position or in an eligible unclassified administrative position and whose
employment was less than 25 percent of a full academic year, exclusive of the summer
session, for the applicable institution that exceeds the most recent 36 months.

5.8 (b) For a person who is employed by the Minnesota State Colleges and Universities system in a faculty position or in an eligible unclassified administrative position and whose 5.9 employment was less than 25 percent of a full academic year, exclusive of the summer 5.10 session, for the applicable institution, upon the person's election under section 354B.21 of 5.11 retirement coverage under this chapter, the shortage in member deductions on the salary 5.12 for employment by the Minnesota State Colleges and Universities system institution of less 5.13 than 25 percent of a full academic year, exclusive of the summer session, for the applicable 5.14 institution for the most recent 36 months and the associated employer contributions must 5.15 be paid by the Minnesota State Colleges and Universities system institution, plus annual 5.16 compound interest at the rate of 8.5 percent applicable annual rate or rates specified in 5.17 section 356.59, subdivision 4, compounded annually, from the end of the fiscal year in 5.18 which the shortage occurred to the end of the month in which the Teachers Retirement 5.19 Association coverage election is made. An individual electing coverage under this paragraph 5.20 shall repay the amount of the shortage in member deductions, plus interest, through deduction 5.21 from salary or compensation payments within the first year of employment after the election 5.22 under section 354B.21, subject to the limitations in section 16D.16. The Minnesota State 5.23 Colleges and Universities system may use any means available to recover amounts which 5.24 were not recovered through deductions from salary or compensation payments. No payment 5.25 of the shortage in member deductions under this paragraph may be made for a period longer 5.26 than the most recent 36 months. 5.27

12.1

Sec. 9. Minnesota Statutes 2016, section 356.215, subdivision 11, is amended to read:

Subd. 11. Amortization contributions. (a) In addition to the exhibit indicating the level 12.2 normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial 12.3 reporting purposes indicating the additional annual contribution sufficient to amortize the 12.4 unfunded actuarial accrued liability and must contain an exhibit for contribution 12.5 determination purposes indicating the additional contribution sufficient to amortize the 12.6 unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph 12.7 12.8 (c), but excluding the legislators retirement plan, the additional contribution must be calculated on a level percentage of covered payroll basis by the established date for full 12.9 funding in effect when the valuation is prepared, assuming annual payroll growth at the 12.10 applicable percentage rate set forth in subdivision 8, paragraph (d). For all other retirement 12.11 plans and for the legislators retirement plan, the additional annual contribution must be 12.12 calculated on a level annual dollar amount basis. 12.13

(b) For any retirement plan other than a retirement plan governed by paragraph (d), (e), 12.14 (f), (g), (h), (i), or (j), if there has not been a change in the actuarial assumptions used for 12.15 calculating the actuarial accrued liability of the fund, a change in the benefit plan governing 12.16 annuities and benefits payable from the fund, a change in the actuarial cost method used in 12.17 calculating the actuarial accrued liability of all or a portion of the fund, or a combination 12.18 of the three, which change or changes by itself or by themselves without inclusion of any 12.19 other items of increase or decrease produce a net increase in the unfunded actuarial accrued 12.20 liability of the fund, the established date for full funding is the first actuarial valuation date 12.21 occurring after June 1, 2020. 12.22

(c) For any retirement plan, if there has been a change in any or all of the actuarial 12.23 assumptions used for calculating the actuarial accrued liability of the fund, a change in the 12.24 benefit plan governing annuities and benefits payable from the fund, a change in the actuarial 12.25 cost method used in calculating the actuarial accrued liability of all or a portion of the fund, 12.26 or a combination of the three, and the change or changes, by itself or by themselves and 12.27 without inclusion of any other items of increase or decrease, produce a net increase in the 12.28 unfunded actuarial accrued liability in the fund, the established date for full funding must 12.29 be determined using the following procedure: 12.30

(i) the unfunded actuarial accrued liability of the fund must be determined in accordance
with the plan provisions governing annuities and retirement benefits and the actuarial
assumptions in effect before an applicable change;

17-2402

(ii) the level annual dollar contribution or level percentage, whichever is applicable,
needed to amortize the unfunded actuarial accrued liability amount determined under item
(i) by the established date for full funding in effect before the change must be calculated
using the interest assumption specified in subdivision 8 in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance
with any new plan provisions governing annuities and benefits payable from the fund and
any new actuarial assumptions and the remaining plan provisions governing annuities and
benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable,
needed to amortize the difference between the unfunded actuarial accrued liability amount
calculated under item (i) and the unfunded actuarial accrued liability amount calculated
under item (iii) over a period of 30 years from the end of the plan year in which the applicable
change is effective must be calculated using the applicable interest assumption specified in
subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv)
must be added to the level annual dollar amortization contribution or level percentage
calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in 13.18 item (iii) is amortized by the total level annual dollar or level percentage amortization 13.19 contribution computed under item (v) must be calculated using the interest assumption 13.20 specified in subdivision 8 in effect after any applicable change, rounded to the nearest 13.21 integral number of years, but not to exceed 30 years from the end of the plan year in which 13.22 the determination of the established date for full funding using the procedure set forth in 13.23 this clause is made and not to be less than the period of years beginning in the plan year in 13.24 which the determination of the established date for full funding using the procedure set forth 13.25 13.26 in this clause is made and ending by the date for full funding in effect before the change; and 13.27

(vii) the period determined under item (vi) must be added to the date as of which the
actuarial valuation was prepared and the date obtained is the new established date for full
funding.

(d) For the general employees retirement plan of the Public Employees RetirementAssociation, the established date for full funding is June 30, 2031.

(e) For the Teachers Retirement Association, the established date for full funding is June
30, 2037 2047.

Sec. 9.

(f) For the correctional state employees retirement plan of the Minnesota State Retirement
System, the established date for full funding is June 30, 2038.

14.3 (g) For the judges retirement plan, the established date for full funding is June 30, 2038.

(h) For the public employees police and fire retirement plan, the established date for fullfunding is June 30, 2038.

(i) For the St. Paul Teachers Retirement Fund Association, the established date for full
funding is June 30, 2042. In addition to other requirements of this chapter, the annual
actuarial valuation must contain an exhibit indicating the funded ratio and the deficiency
or sufficiency in annual contributions when comparing liabilities to the market value of the
assets of the fund as of the close of the most recent fiscal year.

(j) For the general state employees retirement plan of the Minnesota State RetirementSystem, the established date for full funding is June 30, 2040.

(k) For the retirement plans for which the annual actuarial valuation indicates an excess
of valuation assets over the actuarial accrued liability, the valuation assets in excess of the
actuarial accrued liability must be recognized as a reduction in the current contribution
requirements by an amount equal to the amortization of the excess expressed as a level
percentage of pay over a 30-year period beginning anew with each annual actuarial valuation
of the plan.

14.19 **EFFECTIVE DATE.** This section is effective the day following final enactment.

14.20 Sec. 10. Minnesota Statutes 2016, section 356.415, subdivision 1d, is amended to read:

Subd. 1d. Teachers Retirement Association annual postretirement adjustments. (a)
Retirement annuity, disability benefit, or survivor benefit recipients of the Teachers
Retirement Association are entitled to a postretirement adjustment annually on, effective
as of each January 1, as follows:

(1) for each January 1 until funding stability is restored, effective January 1, 2018,
through December 31, 2022, a postretirement increase of two one percent must be applied
each year, effective on January 1, to the monthly annuity or benefit amount of each annuitant
or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months
as of the June 30 of the calendar year immediately before the adjustment;

(2) for each January 1 until funding stability is restored, effective January 1, 2018,
through December 31, 2022, for each annuitant or benefit recipient who has been receiving
an annuity or a benefit for at least one full month, but less than 12 full months as of the June

30 of the calendar year immediately before the adjustment, an annual postretirement increase
of 1/12 of two one percent for each month the person has been receiving an annuity or
benefit must be applied to the monthly annuity or benefit amount of the annuitant or benefit
recipient;

(3) for each January 1 following the restoration of funding stability, effective January
1, 2023, and thereafter, a postretirement increase of 2.5 1.5 percent must be applied each
year, effective January 1, to the monthly annuity or benefit amount of each annuitant or
benefit recipient who has been receiving an annuity or a benefit for at least 12 full months
as of the June 30 of the calendar year immediately before the adjustment; and

15.10 (4) for each January 1 following the restoration of funding stability, effective January 15.11 <u>1, 2023, and thereafter, for each annuitant or benefit recipient who has been receiving an</u> 15.12 annuity or a benefit for at least one <u>full</u> month, but less than 12 full months as of the June 15.13 30 of the calendar year immediately before the adjustment, an annual postretirement increase 15.14 of 1/12 of 2.5 <u>1.5</u> percent for each month the person has been receiving an annuity or benefit 15.15 must be applied to the monthly annuity or benefit amount of the annuitant or benefit recipient.

(b) Funding stability is restored when the market value of assets of the Teachers
Retirement Association equals or exceeds 90 percent of the actuarial accrued liabilities of
the Teachers Retirement Association in the two most recent prior actuarial valuations
prepared under section 356.215 and the standards for actuarial work by the approved actuary
retained by the Teachers Retirement Association under section 356.214.

(c) After having met the definition of funding stability under paragraph (b), the increase
provided in paragraph (a), clauses (1) and (2), rather than an increase under subdivision 1,
or the increase under paragraph (a), clauses (3) and (4), is again to be applied in a subsequent
year or years if the market value of assets of the plan equals or is less than:

15.25 (1) 85 percent of the actuarial accrued liabilities of the plan for two consecutive actuarial
 15.26 valuations; or

15.27 (2) 80 percent of the actuarial accrued liabilities of the plan for the most recent actuarial
 15.28 valuation.

(d) (b) An increase in annuity or benefit payments under this section must be made
automatically unless written notice is filed by the annuitant or benefit recipient with the
executive director of the Teachers Retirement Association requesting that the increase not
be made.

356.415 POSTRETIREMENT ADJUSTMENTS; STATEWIDE RETIREMENT PLANS.

Subdivision 1. Annual postretirement adjustments; generally. (a) Except as otherwise provided in subdivision 1a, 1b, 1c, 1d, 1e, or 1f, retirement annuity, disability benefit, or survivor benefit recipients of a covered retirement plan are entitled to a postretirement adjustment annually on January 1, as follows:

(1) a postretirement increase of 2.5 percent must be applied each year, effective January 1, to the monthly annuity or benefit of each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months as of the June 30 of the calendar year immediately before the adjustment; and

(2) for each annuitant or benefit recipient who has been receiving an annuity or a benefit amount for at least one full month, but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment, an annual postretirement increase of 1/12 of 2.5 percent for each month that the person has been receiving an annuity or benefit must be applied.

(b) An increase in annuity or benefit payments under this section must be made automatically unless written notice is filed by the annuitant or benefit recipient with the executive director of the covered retirement plan requesting that the increase not be made.
