13.9	Sec. 3. [121A.3951] STUDENT SUPPORT SERVICES PERSONNEL GRANT
13.10	PROGRAM.
13.11	Subdivision 1. Definitions. For the purposes of sections 121A.395 to 121A.3951,

13.18	Subd. 2. Purpose. The purpose of the student support services personnel grant
13.19	program is to:
13.20	(1) address shortages of student support services personnel within Minnesota schools;
13.21	(2) decrease caseloads for existing student support services personnel to ensure
13.22	effective services;
13.23	(3) ensure that students receive effective academic guidance and integrated and
13.24	comprehensive services to improve kindergarten through grade 12 school outcomes and

- 69.5 Payment 8 October 30: 25 percent of the final adjustment for the prior fiscal year for all aid entitlements
 - Sec. 9. Minnesota Statutes 2014, section 127A.47, subdivision 7, is amended to read:
 - Subd. 7. **Alternative attendance programs.** (a) The general education aid and special education aid for districts must be adjusted for each pupil attending a nonresident district under sections 123A.05 to 123A.08, 124D.03, 124D.08, and 124D.68. The adjustments must be made according to this subdivision.
 - (b) For purposes of this subdivision, the "unreimbursed cost of providing special education and services" means the difference between: (1) the actual cost of providing special instruction and services, including special transportation and unreimbursed building lease and debt service costs for facilities used primarily for special education, for a pupil with a disability, as defined in section 125A.02, or a pupil, as defined in section 125A.51, who is enrolled in a program listed in this subdivision, minus (2) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum equalization aid as defined in section 125A.11, subdivision 1, paragraph (e) (d), attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, minus (3) special education aid under section 125A.76 attributable to that pupil, that is received by the district providing special instruction and services. For purposes of this paragraph, general education revenue and referendum equalization aid attributable to a pupil must be calculated using the serving district's average general education revenue and referendum equalization aid per adjusted pupil unit.
 - (c) For fiscal year 2015 and later, special education aid paid to a resident district must be reduced by an amount equal to 90 percent of the unreimbursed cost of providing special education and services.
 - (d) Notwithstanding paragraph (c), special education aid paid to a resident district must be reduced by an amount equal to 100 percent of the unreimbursed cost of special education and services provided to students at an intermediate district, cooperative, or charter school where the percent of students eligible for special education services is at least 70 percent of the charter school's total enrollment.

(e) Notwithstanding paragraph (c), special education aid paid to a resident district
must be reduced under paragraph (d) for students at a charter school receiving special
education aid under section 124D.11, subdivision 5b, calculated as if the charter school
received special education aid under section 124D.11, subdivision 5.

- (e) (f) Special education aid paid to the district or cooperative providing special instruction and services for the pupil, or to the fiscal agent district for a cooperative, must be increased by the amount of the reduction in the aid paid to the resident district under paragraphs (c) and (d). If the resident district's special education aid is insufficient to make the full adjustment under paragraphs (c), (d), and (e), the remaining adjustment shall be made to other state aids due to the district.
- (g) Notwithstanding paragraph (a), general education aid paid to the resident district of a nonspecial education student for whom an eligible special education charter school receives general education aid under section 124D.11, subdivision 1, paragraph (b), must be reduced by an amount equal to the difference between the general education aid attributable to the student under section 124D.11, subdivision 1, paragraph (b), and the general education aid that the student would have generated for the charter school under section 124D.11, subdivision 1, paragraph (a). - (f) (h) An area learning center operated by a service cooperative, intermediate district, education district, or a joint powers cooperative may elect through the action of the constituent boards to charge the resident district tuition for pupils rather than to have the general education revenue paid to a fiscal agent school district. Except as provided in paragraph (e) (f), the district of residence must pay tuition equal to at least 90 and no more than 100 percent of the district average general education revenue per pupil unit minus an amount equal to the product of the formula allowance according to section 126C.10, subdivision 2, times .0466, calculated without compensatory revenue, local optional revenue, and transportation sparsity revenue, times the number of pupil units for pupils attending the area learning center.

or provide information about family circumstances that might affect development and identification of risk factors that may influence learning. The notice must state "Early childhood developmental screening helps a school district identify children who may benefit from district and community resources available to help in their development. Early childhood developmental screening includes a vision screening that helps detect potential eye problems but is not a substitute for a comprehensive eye exam." The notice must clearly state that declining to answer questions or provide information does not prevent the child from being enrolled in kindergarten or first grade if all other screening components are met. If a parent or guardian is not able to read and comprehend the written notice, the district and the person performing or supervising the screening must convey the information in another manner. The notice must also inform the parent or guardian that a child need not submit to the district screening program if the child's health records indicate to the school that the child has received comparable developmental screening performed within the preceding 365 days by a public or private health care organization or individual health care provider. The notice must be given to a parent or guardian at the time the district initially provides information to the parent or guardian about screening and must be given again at the screening location.

- (b) All screening components shall be consistent with the standards of the state commissioner of health for early developmental screening programs. A developmental screening program must not provide laboratory tests or a physical examination to any child. The district must request from the public or private health care organization or the individual health care provider the results of any laboratory test or physical examination within the 12 months preceding a child's scheduled screening. For the purposes of this section, "comprehensive vision examination" means a vision examination performed by an optometrist or ophthalmologist.
- (c) If a child is without health coverage, the school district must refer the child to an appropriate health care provider.
- (d) A board may offer additional components such as nutritional, physical and dental assessments, review of family circumstances that might affect development, blood pressure, laboratory tests, and health history.
- (e) If a statement signed by the child's parent or guardian is submitted to the administrator or other person having general control and supervision of the school that the child has not been screened because of conscientiously held beliefs of the parent or guardian, the screening is not required.

An application for a license under this section must be accompanied by:
 - (1) an executed criminal history consent form, including fingerprints; and
- (2) a money order or cashier's check payable to the Bureau of Criminal Apprehension for the fee for conducting the payment to conduct a criminal history background check.

 Proceeds from this fee are annually appropriated to the commissioner for costs associated with processing licensure applications.

107.22	(b) The rules adopted under paragraph (a) must limit certificates of advanced
107.23	professional study to:
