18.14 Notwithstanding that section, up to \$527,000
18.15 may be used to design projects eligible for
18.16 future funding. The society shall determine
18.17 project priorities as appropriate based on
18.18 need.

18.19 **Sec. 18. BOND SALE EXPENSES** **\$** **245,000**

18.20 To the commissioner of finance for bond sale
18.21 expenses under Minnesota Statutes, section
18.22 16A.641, subdivision 8.

18.23 **Sec. 19. BOND SALE SCHEDULE.**

18.24 The commissioner of finance shall schedule the sale of state general obligation
18.25 bonds so that, during the biennium ending June 30, 2011, no more than \$1,074,985,000
18.26 will need to be transferred from the general fund to the state bond fund to pay principal
18.27 and interest due and to become due on outstanding state general obligation bonds. During
18.28 the biennium, before each sale of state general obligation bonds, the commissioner of
18.29 finance shall calculate the amount of debt service payments needed on bonds previously
18.30 issued and shall estimate the amount of debt service payments that will be needed on the
18.31 bonds scheduled to be sold. The commissioner shall adjust the amount of bonds scheduled
18.32 to be sold so as to remain within the limit set by this section. The amount needed to make
18.33 the debt service payments is appropriated from the general fund as provided in Minnesota
18.34 Statutes, section 16A.641.

19.1 Sec. 20. **BOND SALE AUTHORIZATION.**

19.2 Subdivision 1. **Bond proceeds fund.** To provide the money appropriated in this act
19.3 from the bond proceeds fund, the commissioner of finance shall sell and issue bonds of the
19.4 state in an amount up to \$230,855,000 in the manner, upon the terms, and with the effect
19.5 prescribed by Minnesota Statutes, sections 16A.631 to 16A.675, and by the Minnesota
19.6 Constitution, article XI, sections 4 to 7.

19.7 Subd. 2. **Maximum effort school loan fund.** To provide the money appropriated in
19.8 this act from the maximum effort school loan fund, the commissioner of finance shall sell
19.9 and issue bonds of the state in an amount up to \$5,780,000 in the manner, upon the terms,
19.10 and with the effect prescribed by Minnesota Statutes, sections 16A.631 to 16A.675, and by
19.11 the Minnesota Constitution, article XI, sections 4 to 7. The proceeds of the bonds, except
19.12 accrued interest and any premium received on the sale of the bonds, must be credited to a
19.13 bond proceeds account in the maximum effort school loan fund.

19.14 Subd. 3. **Transportation fund bond proceeds account.** To provide the money
19.15 appropriated in this act from the state transportation fund, the commissioner of finance
19.16 shall sell and issue bonds of the state in an amount up to \$11,000,000 in the manner, upon
19.17 the terms, and with the effect prescribed by Minnesota Statutes, sections 16A.631 to
19.18 16A.675, and by the Minnesota Constitution, article XI, sections 4 to 7. The proceeds of
19.19 the bonds, except accrued interest and any premium received on the sale of the bonds,
19.20 must be credited to a bond proceeds account in the state transportation fund.

19.21 Sec. 21. Minnesota Statutes 2008, section 16A.641, subdivision 4, is amended to read:

19.22 Subd. 4. **Sale and issuance.** State bonds ~~must~~ may be sold and issued ~~upon~~
19.23 ~~competitive bids~~ at public or negotiated sale in the manner and on the terms and conditions
19.24 determined by the commissioner in accordance with the laws authorizing them and
19.25 subject to the approval of the attorney general, but not subject to chapter 14, including
19.26 section 14.386. For each series, in addition to provisions required by subdivision 3, the
19.27 commissioner may determine:

19.28 (1) the time, place, and form of notice of sale ~~and for competitive bids and requests~~
19.29 for proposals for negotiated sales;

19.30 (2) method of comparing bids;

19.31 ~~(2)~~ (3) the price, not less than par for highway bonds;

19.32 ~~(3)~~ (4) the principal amount and date of issue;

19.33 ~~(4)~~ (5) the interest rates and payment dates;

19.34 ~~(5)~~ (6) the maturity amounts and dates, not more than 20 years from the date of
19.35 issue, subject to subdivision 5;

20.1 ~~(6)~~ (7) the terms, if any, on which the bonds may or must be redeemed before
20.2 maturity, including notice, times, and redemption prices; and

20.3 ~~(7)~~ (8) the form of the bonds and the method of execution, delivery, payment,
20.4 registration, conversion, and exchange, in accordance with section 16A.672.

20.5 Sec. 22. Minnesota Statutes 2008, section 16A.641, subdivision 7, is amended to read:

20.6 Subd. 7. **Credit of proceeds.** (a) Proceeds of bonds issued under each law must be
20.7 credited by the commissioner to a special fund, as provided in this subdivision.

20.8 (b) Accrued interest ~~and any premium~~ received on sale of the bonds must be credited
20.9 to the state bond fund created by the Constitution, article XI, section 7. Premium received
20.10 on the sale of the bonds must be credited either to the state bond fund or to the bond
20.11 proceeds fund where it is used to reduce the par amount of the bonds issued. Premium
20.12 may only be credited to the bond proceeds fund and used to reduce the par amount if it
20.13 does not cause an increase in the general fund debt service transfer for the biennium
20.14 during which the bonds are sold, as estimated by the commissioner.

20.15 (c) Except as otherwise provided by law, proceeds of state bonds issued under the
20.16 Constitution, article XI, section 5, clause (a), must be credited to the bond proceeds fund
20.17 established by section 16A.631.

20.18 (d) Proceeds of state highway bonds must be credited to the trunk highway fund
20.19 under the Constitution, article XIV, section 6.

20.20 (e) Proceeds of bonds issued for programs of grants or loans to political subdivisions
20.21 must be credited to special accounts in the bond proceeds fund or to special funds
20.22 established by laws stating the purposes of the grants or loans, and the standards and
20.23 criteria under which an executive agency is authorized to make them.

20.24 (f) Proceeds of refunding bonds must be credited to the state bond fund as provided
20.25 in section 16A.66, subdivision 1.

20.26 (g) Proceeds of other bonds must be credited as provided in the law authorizing
20.27 their issuance.

20.28 Sec. 23. [16A.6455] MINNESOTA FIRST BONDS.

20.29 Subdivision 1. Program established. The commissioner of finance may establish
20.30 the Minnesota first bond program to encourage individuals to invest in state general
20.31 obligation bonds. The program consists of:

20.32 (1) issuing a portion of the state general obligation bonds in denominations and
20.33 maturities that will be attractive to individuals; and

20.34 (2) developing a program for marketing the bonds to investors.

21.1 Subd. 2. **Denominations.** The commissioner shall determine the appropriate
21.2 denominations and maturities for the Minnesota first bonds. It is the intent of the
21.3 legislature to make bonds available in as small denominations as is feasible given the
21.4 costs of marketing and administering the bond issue. Minimum denominations of \$1,000
21.5 must be made available. The minimum denomination bonds need not be made available
21.6 for bonds of all maturities. If a zero coupon bond is sold, "denomination" means the
21.7 compounded maturity amount of the bond.

21.8 Subd. 3. **Direct sale permitted.** The commissioner may sell any series of savings
21.9 bonds directly to the public or to financial institutions for prompt resale to the public
21.10 upon the terms and conditions and the restrictions the commissioner prescribes. The
21.11 commissioner may enter into all contracts deemed necessary or desirable to accomplish
21.12 the sale in a cost-effective manner including a private or negotiated sale, but the
21.13 commissioner may contract for investment banking and banking services only after
21.14 receiving competitive proposals for the services.

21.15 Subd. 4. **Marketing plan.** The commissioner shall develop a plan for marketing
21.16 Minnesota first bonds. The plan must include strategies to:

- 21.17 (1) inform the public about the availability of the bonds;
21.18 (2) take orders for the bonds;
21.19 (3) target the sale of the bonds to Minnesota residents; and
21.20 (4) market the bonds at the lowest cost to the state.

21.21 Sec. 24. Minnesota Statutes 2008, section 16A.66, subdivision 2, is amended to read:

21.22 Subd. 2. **Special provisions for sale and issuance.** Refunding bonds may be sold
21.23 ~~publicly~~ at public or negotiated sale, or directly to the State Board of Investment without
21.24 bids, or may be exchanged for bonds refunded by agreement with their holders. The
21.25 refunding bonds must be prepared, executed, delivered, and secured in the same way as
21.26 the refunded bonds. The proceeds of refunding bonds may be deposited, invested, and
21.27 applied to accomplish the refunding as provided in section 475.67, subdivisions 5 to
21.28 10 and 13. The interest rate on refunding bonds may exceed that on the refunded bonds
21.29 if the purpose of refunding is to extend the maturities and to reduce the amount needed
21.30 annually to pay and to secure the debt.

21.31 Sec. 25. Minnesota Statutes 2008, section 16A.86, subdivision 2, is amended to read:

21.32 Subd. 2. **Budget request.** A political subdivision that requests an appropriation of
21.33 state money for a local capital improvement project is encouraged to submit the request
21.34 to the commissioner of finance by July 15 of an odd-numbered year to ensure its full

22.1 consideration. The requests must be submitted in the form and with the supporting
22.2 documentation required by the commissioner of finance. All requests timely received by
22.3 the commissioner must be ~~forwarded~~ submitted to the legislature, along with ~~agency~~
22.4 ~~requests~~ the governor's recommendations, whether or not the governor recommends that a
22.5 request be funded, by the deadline established in section 16A.11, subdivision 1.

22.6 Sec. 26. Minnesota Statutes 2008, section 16A.86, is amended by adding a subdivision
22.7 to read:

22.8 Subd. 3a. **Information provided.** All requests for state assistance under this section
22.9 must include the following information:

22.10 (1) the name of the political subdivision that will own the capital project for which
22.11 state assistance is being requested;

22.12 (2) the public purpose of the project;

22.13 (3) the extent to which the political subdivision has or expects to provide local,
22.14 private, user financing, or other nonstate funding for the project;

22.15 (4) a list of the bondable activities that the project encompasses; examples of
22.16 bondable activities are public improvements of a capital nature for land acquisition,
22.17 predesign, design, construction, and furnishing and equipping for occupancy;

22.18 (5) whether the project will require new or additional state operating subsidies;

22.19 (6) whether the governing body of the political subdivision requesting the project
22.20 has passed a resolution in support of the project and has established priorities for all
22.21 projects within its jurisdiction for which bonding appropriations are requested when
22.22 submitting multiple requests; and

22.23 (7) if the project requires a predesign under section 16B.335, whether the predesign
22.24 has been completed at the time the capital project request is submitted, and whether
22.25 the political subdivision has submitted the project predesign to the commissioner of
22.26 administration for review and approval.

22.27 Sec. 27. [84.946] NATURAL RESOURCES ASSET PRESERVATION AND
22.28 REPLACEMENT (NRAPR).

22.29 Subdivision 1. **Purpose.** The legislature recognizes that the Department of Natural
22.30 Resources owns and operates capital assets that in number, size, and programmatic use
22.31 differ significantly from the capital assets owned and operated by other state departments
22.32 and agencies. However, the legislature recognizes the need for standards to aid in
22.33 categorizing and funding capital projects. The purpose of this section is to provide

23.1 standards for those natural resource projects that are intended to preserve and replace
23.2 existing facilities.

23.3 Subd. 2. **Standards.** (a) An appropriation for asset preservation may be used only
23.4 for a capital expenditure on a capital asset previously owned by the state, within the
23.5 meaning of generally accepted accounting principles as applied to public expenditures.
23.6 The commissioner of natural resources will consult with the commissioner of finance to
23.7 the extent necessary to ensure this and will furnish the commissioner of finance a list
23.8 of projects to be financed from the account in order of their priority. The legislature
23.9 assumes that many projects for preservation and replacement of portions of existing
23.10 capital assets will constitute betterments and capital improvements within the meaning of
23.11 the Constitution and capital expenditures under generally accepted accounting principles,
23.12 and will be financed more efficiently and economically under this section than by direct
23.13 appropriations for specific projects.

23.14 (b) An appropriation for asset preservation must not be used to acquire land or to
23.15 acquire or construct buildings or other facilities.

23.16 (c) Capital budget expenditures for natural resource asset preservation and
23.17 replacement projects must be for one or more of the following types of capital projects that
23.18 support the existing programmatic mission of the department: code compliance including
23.19 health and safety, Americans with Disabilities Act requirements, hazardous material
23.20 abatement, access improvement, or air quality improvement; building energy efficiency
23.21 improvements using current best practices; building or infrastructure repairs necessary
23.22 to preserve the interior and exterior of existing buildings; or renovation of other existing
23.23 improvements to land, including but not limited to trails and bridges.

23.24 (d) Up to ten percent of an appropriation awarded under this section may be used
23.25 for design costs for projects eligible to be funded from this account in anticipation of
23.26 future funding from the account.

23.27 Subd. 3. **Reporting priorities.** The commissioner of natural resources must
23.28 establish priorities within its natural resource asset preservation and replacement projects.
23.29 By January 15 of each year, the commissioner must submit to the commissioner of
23.30 finance and to the chairs of the house and senate committees with jurisdiction over
23.31 environment and natural resources finance and capital investment a list of the projects that
23.32 have been paid for with money from a natural resource asset preservation and replacement
23.33 appropriation during the preceding calendar year as well as a list of those priority projects
23.34 for which natural resource asset preservation and replacement appropriations will be
23.35 sought in that year's legislative session.

24.1 Sec. 28. Minnesota Statutes 2008, section 85.015, is amended by adding a subdivision
24.2 to read:

24.3 Subd. 26. **Great River Ridge Trail, Wabasha and Olmsted Counties.** The trail
24.4 shall originate in the city of Plainview in Wabasha County and extend southwesterly
24.5 through the city of Elgin in Wabasha County and the town of Viola in Olmsted County to
24.6 the Chester Woods Trail in Olmsted County.

24.7 **EFFECTIVE DATE.** This section is effective retroactively from June 2, 2006.

24.8 Sec. 29. Minnesota Statutes 2008, section 134.45, is amended by adding a subdivision
24.9 to read:

24.10 Subd. 8. **Sale of public library funded with state bond proceeds.** If the
24.11 commissioner of education and the local or regional governmental entity that owns
24.12 a public library that has been improved with state bond proceeds under this section
24.13 determines that the library is no longer usable or needed for the purposes for which the
24.14 grant of state bond funds was made, the owner of the public library may sell the property
24.15 in the manner authorized by law for the sale of other property owned by that jurisdiction
24.16 for its fair market value. The sale must be approved by the commissioner of finance.
24.17 Notwithstanding section 16A.695, subdivision 3, clause (2), the net proceeds must be
24.18 applied as follows: first, to pay the state the amount of state bond proceeds used to acquire
24.19 or better the property; and second, any remaining amount must be paid to the local or
24.20 regional governmental owner of the property sold. When the sale is complete and the sale
24.21 proceeds have been applied as provided in this subdivision, section 16A.695 no longer
24.22 applies to the property and the property is no longer state bond financed property.

24.23 **EFFECTIVE DATE.** This section is effective the day following final enactment
24.24 and applies to the sale of public library property on or after that date.

24.25 Sec. 30. Minnesota Statutes 2008, section 135A.046, subdivision 2, is amended to read:

24.26 Subd. 2. **Standards.** Capital budget expenditures for Higher Education Asset
24.27 Preservation and Replacement (HEAPR) projects must be for one or more of the
24.28 following: code compliance including health and safety, Americans with Disabilities
24.29 Act requirements, hazardous material abatement, access improvement, or air quality
24.30 improvement; building energy efficiency improvements using current best practices; or
24.31 building or infrastructure repairs necessary to preserve the interior and exterior of existing
24.32 buildings; or renewal to support the existing programmatic mission of the campuses. Up
24.33 to ten percent of an appropriation awarded under this section may be used for design

25.1 costs for projects eligible to be funded from this account in anticipation of future funding
25.2 from the account.

25.3 Sec. 31. Minnesota Statutes 2008, section 174.03, subdivision 1b, is amended to read:

25.4 Subd. 1b. **Statewide freight and passenger rail plan.** (a) The commissioner
25.5 shall develop a comprehensive statewide freight and passenger rail plan to be included
25.6 and revised as a part of the statewide transportation plan.

25.7 (b) Before the initial version of the plan is adopted, the commissioner shall provide a
25.8 copy for review and comment to the chairs and ranking minority members of the senate
25.9 and house of representatives committees with jurisdiction over transportation policy and
25.10 finance. Notwithstanding paragraph (a), the commissioner may adopt the next revision
25.11 of the statewide transportation plan, scheduled to be completed in calendar year 2009,
25.12 prior to completion of the initial version of the comprehensive statewide freight and
25.13 passenger rail plan.

25.14 (c) The plan must identify the corridors and the capital improvements and
25.15 betterments to be made. Capital improvements and betterments include preliminary
25.16 engineering, design, engineering, environmental analysis and mitigation, acquisition
25.17 of land and right-of-way, and construction. Capital improvements and betterments do
25.18 not include planning, feasibility studies, or alternatives analysis. The plan must specify
25.19 criteria for determining the priority for allocation of funds among the projects and routes.

25.20 Sec. 32. **[174.632] COMMISSIONER'S DUTIES.**

25.21 The planning, design, development, construction, operation, and maintenance
25.22 of passenger rail track, facilities, and services are governmental functions, serve a
25.23 public purpose, and are a matter of public necessity. The commissioner is responsible
25.24 for all aspects of planning, designing, developing, constructing, equipping, operating,
25.25 and maintaining passenger rail, including system planning, alternatives analysis,
25.26 environmental studies, preliminary engineering, final design, construction, negotiating
25.27 with railroads, and developing financial and operating plans. The commissioner may
25.28 enter into a memorandum of understanding or agreement with a public or private entity,
25.29 including a regional railroad authority, a joint powers board, and a railroad, to carry out
25.30 these activities.

25.31 Sec. 33. **[174.634] PASSENGER RAIL FUNDING.**

25.32 The commissioner may apply for funding from federal, state, regional, local, and
25.33 private sources to carry out the commissioner's duties in section 174.632.

26.1 Sec. 34. [174.636] EXERCISE OF POWER; PASSENGER RAIL.

26.2 (a) The commissioner has all powers necessary to carry out the duties specified
26.3 in section 174.632. In the exercise of those powers, the commissioner may acquire by
26.4 purchase, gift, or by eminent domain proceedings as provided by law, all land and property
26.5 necessary to preserve future passenger rail corridors or to construct, maintain, and improve
26.6 passenger rail corridors, to let all necessary contracts as provided by law, and to make
26.7 agreements with and cooperate with any governmental authority or private entity to carry
26.8 out statutory duties related to passenger rail.

26.9 (b) The commissioner shall consult with metropolitan planning organizations and
26.10 regional rail authorities in areas where passenger rail corridors are under consideration
26.11 to ensure that passenger rail services are integrated with existing rail and transit services
26.12 and other transportation facilities to provide as nearly as possible connected, efficient,
26.13 and integrated services.

26.14 Sec. 35. [174.638] FUNDING.

26.15 Section 174.88 does not apply to the commissioner's performance of duties and
26.16 exercise of powers under sections 174.632 to 174.636.

26.17 Sec. 36. Minnesota Statutes 2008, section 174.88, subdivision 2, is amended to read:

26.18 Subd. 2. **Expenditure of state funds.** The commissioner shall not spend any state
26.19 funds for construction or equipment of commuter rail facilities unless the funds have been
26.20 appropriated by law specifically for those purposes. ~~The commissioner shall not spend~~
26.21 ~~state funds to study commuter rail unless the funds are appropriated in legislation that~~
26.22 ~~identifies the route, including origin and destination.~~

26.23 Sec. 37. [473.3992] TRANSIT CAPITAL IMPROVEMENT PROGRAM.

26.24 Subdivision 1. Establishment. A transit capital improvement program is established
26.25 to prioritize among eligible public projects to be funded from state bond proceeds
26.26 appropriated to the council that are distinctly specified for transit capital improvements
26.27 throughout the metropolitan area through the acquisition and betterment of public land
26.28 and buildings and other public improvements and the construction, improvement, and
26.29 maintenance of transit capital improvements, which may include the state trunk highway
26.30 system.

26.31 Subd. 2. **Definition.** For purposes of this section, "transit capital improvement"
26.32 means a busway corridor, express bus corridor with transit advantages, bus rapid transit,
26.33 light rail transit, or commuter rail.

27.1 Subd. 3. **Program standards; criteria.** Article XI, section 5, clause (a), of the
27.2 Constitution provides that state general obligation bonds may be issued to finance the
27.3 acquisition and betterment of public land and buildings and other public improvements
27.4 of a capital nature. Article XI, section 5, clause (e), and article XIV, sections 1, 2, 6,
27.5 and 11, of the Constitution provide that state general obligation trunk highway bonds
27.6 may be issued to finance capital projects that are part of, or functionally related to,
27.7 the construction, improvement, or maintenance of the state trunk highway system. In
27.8 interpreting these provisions and applying them to the purpose of the program established
27.9 in this section, the following standards are adopted for determining the priority among
27.10 eligible transit capital improvement projects to be funded under the program, provided
27.11 such funding is otherwise consistent with the appropriation of state bond proceeds and all
27.12 other laws, regulations, and orders applicable to the expenditure of state bond proceeds as
27.13 determined by the commissioner of finance.

27.14 (a) A cost will be an eligible expenditure under this program only when it is a capital
27.15 expenditure on a capital asset, owned or to be owned by the state, an agency of the state, or
27.16 a political subdivision of the state, within the meaning of accepted accounting principles as
27.17 applied to public expenditures. Eligible expenditures may include acquisition, predesign,

27.25 standards of this subdivision and the following specific criteria:

27.33 regulation applicable to a transit capital improvement, including the state law authorizing
27.34 the state bond fund appropriation for the transit capital improvement.

28.1 (c) Criteria can be stated only in general terms, since it is a purpose of the program
28.2 to improve the allocation of limited amounts of available funds by enlisting the knowledge
28.3 and experience of the council in determining relative needs as they develop.

28.4 (d) The criteria in paragraph (b) are not listed in a rank order of priority.

28.5 (e) The council may enter into a memorandum of understanding or agreement with a
28.6 county or county regional rail authority to carry out the activities of this program.
