1.20

(c) The MnCHOICES assessment provided by the commissioner to lead agencies must

1.21

be used to complete a comprehensive, conversation-based, person-centered assessment.

1.22

The assessment must include the health, psychological, functional, environmental, and

social needs of the individual necessary to develop a person-centered community support plan that meets the individual's needs and preferences.

(d) The assessment must be conducted by a certified assessor in a face-to-face conversational interview with the person being assessed. The person's legal representative must provide input during the assessment process and may do so remotely if requested. At the request of the person, other individuals may participate in the assessment to provide information on the needs, strengths, and preferences of the person necessary to develop a community support plan that ensures the person's health and safety. (e) The certified assessor and the individual responsible for developing the coordinated service and support plan must complete the community support plan and the coordinated service and support plan no more than 60 calendar days from the assessment visit. The person or the person's legal representative must be provided with a written community support plan within the timelines established by the commissioner, regardless of whether the person is eligible for Minnesota health care programs.
