Subdivision 1. **Certification of levy.** (a) Except as provided under paragraph (b), the taxes voted by cities, counties, school districts, and special districts shall be certified by the proper authorities to the county auditor on or before five working days after December 20 in each year. A town must certify the levy adopted by the town board to the county auditor by September 15 each year. If the town board modifies the levy at a special town meeting after September 15, the town board must recertify its levy to the county auditor on or before five working days after December 20. If a city, town, county,

school district, or special district fails to certify its levy by that date, its levy shall be the amount levied by it for the preceding year.

(b)(i) The taxes voted by counties under sections 103B.241, 103B.245, ~~and~~ 103B.251, and 103C.331 shall be separately certified by the county to the county auditor on or before five working days after December 20 in each year. Sec. 4. **APPROPRIATION.**

\$11,000,000 in fiscal year 2016 and \$11,000,000 in fiscal year 2017 are appropriated from the general fund to the Board of Water and Soil Resources for payments to soil and water conservation districts for the purposes of Minnesota Statutes, sections 103C.321 and 103C.331. From the appropriation, each soil and water conservation district shall receive an increase of \$20,000 above the base amount in the district's general service grant. Money remaining after the base increase in general service grants is available for matching grants to soil and water conservation districts up to a maximum of \$50,000 per district and shall be at a rate of \$1.25 in state matching grants for each \$1 of district match. Money remaining after the previous matching grants are allocated is available for matching grants to soil and water conservation districts up to a maximum of \$500,000 per district and shall be at a rate of \$1 for each 65 cents of district match. The board may reduce the amount of the natural resources block grant to a county by an amount equal to any reduction in the county's general services allocation to a soil and water conservation district from the county's previous-year allocation when the board determines that the reduction was disproportionate.
