Subdivision 1. Establishment. To increase the distribution of potential economic benefit of deposits of reserve funds of the institutions of the Minnesota State Colleges and Universities (MnSCU), the MnSCU reserves project is established to transfer certain reserve deposits of selected institutions from the state treasury to a community financial institution. Notwithstanding section 16A.27, by January 2 of every other year beginning January 2, 2014, the commissioner of management and budget shall transfer the specified amount of board-required reserve funds of colleges and universities selected by the Board of Trustees under subdivision 2 to a community financial institution designated for each of the participating colleges and universities.

Subd. 2. **Participating colleges and universities.** By August 15 of every other year beginning August 15, 2013, colleges and universities may apply to the Board of Trustees of the Minnesota State Colleges and Universities for participation in the MnSCU reserves project. Each applicant must designate one or more community financial institutions for the deposit of a specified amount of board-required reserves with the terms of the deposit for each designated community financial institution. The designated community financial institution must be located in the geographic area of a participating campus. From the applicants, the board may select up to eight postsecondary institutions to participate in the MnSCU reserves project. In making its selection, the board must consider the size of the institution's reserves and the terms offered by the designated community financial institutions. Unless there are not sufficient applicants, two-year and four-year institutions may be selected to participate in the MnSCU reserves project and the majority of the selected institutions must be located in greater Minnesota. By December 1 of every other year beginning December 1, 2013, the board must notify the commissioner of management and budget and the chair and ranking minority members of the legislative committees and divisions with jurisdiction over higher education finance of the participating colleges and universities, the deposit amount for each institution, and the associated community

financial institutions. The MnSCU reserves project shall provide for the transfer of deposits for up to a five-year period.

Subd. 3. Community financial institution. As used in this section, "community financial institution" means a federally insured bank or credit union, chartered as a bank or credit union by the state of Minnesota or the United States.

- Subd. 4. Evaluation and report. The commissioner of management and budget and the Board of Trustees shall independently evaluate the effectiveness or harm of the MnSCU reserves project in increasing the use of community financial institutions and providing wider distribution of the economic benefit of the deposit of postsecondary reserves. Each evaluation must include the participating colleges, universities, and community financial institutions. The commissioner of management and budget and the Board of Trustees shall report on the MnSCU reserves project evaluation to the committees and divisions of the legislature with primary jurisdiction over higher education finance by February 1 every four years beginning on February 1, 2016.

Sec. 8. DEVELOPMENT OF FINANCIAL STRATEGIES FOR TIMELY COMPLETION OF POSTSECONDARY PROGRAMS.

	The director of the Minnesota Office of Higher Education, in consultation with the
1	higher education policy and finance committees of the legislature, shall analyze strategies
-	to financially assist students in the timely completion of their higher education program.
	The director shall seek the advice of stakeholders in the higher education community
	about the analysis. In addition to other issues, the analysis must include consideration of
	the following:
	(1) tuition policies such as tuition guarantees, tuition rebates, declining tuition,
	and other tuition strategies that provide a financial incentive to complete a program in a
t	imely fashion;
	(2) financial aid policies, including state grant awards and loan interest rate
	adjustments, that make completing a program less of a financial burden than the costs
a	at the beginning of a program;
	(3) a system for identifying, counseling, and assisting students who are considering
l	eaving a program due to financial reasons;
	(4) increased state grant awards for enrollment in programs for which there is a
de	emonstrated employment need within the state for program graduates; and
	(5) a strategy to connect students to employers prior to completion of a program and
<u>C</u> (ombining a work experience with program completion.
	The director shall report the results of the analysis along with any recommendations
to	o the committees and divisions of the legislature with jurisdiction over higher education
б	inance and policy by January 15, 2014.

	STUDENT LOAN REFINANCING ANALYSIS.
	The director of the Minnesota Office of Higher Education, in consultation with
tl	he higher education finance and policy committees of the legislature, shall analyze the
f	easibility and appropriate components of a program that would assist Minnesota residents
l	n refinancing student loans for higher education. Without limitation, the outlines of the
ľ	program could include the issuance of bonds by the Minnesota Office of Higher Education
	to provide a pool of money that could be lent at a lower rate to student loan debtors than is
	charged on their existing student loan debt, thereby reducing borrowing costs.
	In addition to any other issues the director determines necessary to analyze, the
(director shall analyze:

27.1	(1) whether there would be a sufficient spread between interest that could be charged
27.2	by the office on its refinancing loans and the current interest on existing student loans to
27.3	make the loans from the office attractive and sufficiently beneficial to student loan debtors;
27.4	(2) the amount of bonds that need to be issued to make them marketable;
27.5	(3) the eligibility requirements for student loan debtors seeking to refinance,
27.6	including whether a debtor must be employed, the sort of education received, and whether
27.7	the education received was completed; and
27.8	(4) the appropriate cap on the amount of a refinancing loan and other loan program
27.9	specifics.
27.10	The director shall report on the analysis under this section and make
27.11	recommendations to the higher education finance and policy committees of the legislature
27.12	by January 15, 2014.
27.13	EFFECTIVE DATE. This section is effective the day following final enactment.

27.18	level of course advising and guidance, personal financial counseling, and job placement
27.19	for students who are at risk of not completing their studies. The objectives of the pilot
27.20	program are as follows:
27.21	(1) to increase the likelihood that students will complete their higher education
27.22	programs of study by identifying programs of study that interest the students and
27.23	connecting those interests to appropriate programs within the college or university;
27.24	(2) to provide mentoring to students;
27.25	(3) to monitor and advise students concerning higher education finance and financial
27.26	assistance;
27.27	(4) to connect students to employers while enrolled at the college or university; and
27.28	(5) to connect graduates of the college or university with postgraduation employment
27.29	options.
27.30	The board must report by November 1, 2015, on the results of the pilot program to

136A.121 GRANTS.

- Subd. 9b. Onetime grant for high school-to-college developmental transition program.

 (a) A student who enrolls in a program under section 135A.61 is eligible for a onetime grant to help pay expenses to attend the program. The amount of the grant must be determined according to subdivision 5, except as modified by paragraph (b). The requirement in subdivision 9a that subtracts a federal Pell Grant award for which a student would be eligible, even if the student has exhausted the federal Pell Grant award, does not apply to a student who receives a grant under this subdivision in the award year in which the grant is received. The maximum grant under this subdivision must be reduced by the average amount a student would earn working in an on-campus work-study position for ten hours per week during a summer term. The office must determine an amount for student earnings in a summer term, using available data about earnings, before determining the amount awarded under this subdivision.
- (b) For a student with an expected family contribution of zero, the maximum amount of the grant is the cost of attendance under subdivision 6.
- (c) A grant under this subdivision counts as one of the nine semesters of eligibility under subdivision 9. A grant under this subdivision must not be awarded for the same term for which another grant is awarded under this section.
