(b) For purposes of applicable federal law, the academic standards for language arts, mathematics, and science apply to all public school students, except the very few students with extreme cognitive or physical impairments for whom an individualized education program team has determined that the required academic standards are inappropriate. An individualized education program team that makes this determination must establish alternative standards.

The department may modify and adapt the national standards to accommodate state interest. The modification and adaptations must maintain the purpose and integrity of the national standards. The department must make available sample assessments, which school districts may use as an alternative to local assessments, to assess students' mastery of the physical education standards beginning in the 2018-2019 school year.

(d) A school district may include child sexual abuse and sexual exploitation prevention instruction in a health curriculum, consistent with paragraph (a), clause (6). Child sexual abuse and sexual exploitation prevention instruction may include age-appropriate instruction on recognizing sexual abuse ~~and~~ assault, and sexual exploitation; boundary violations; and ways offenders identify, groom, or desensitize victims, as well as strategies to promote disclosure, reduce self-blame, and mobilize bystanders. A school district may consult with other federal, state, or local agencies and community-based organizations to identify research-based tools, curricula, and programs to prevent child sexual abuse and sexual exploitation. A school district may provide instruction under this paragraph in a variety of ways, including at an annual assembly or classroom presentation.
