1.21 Section 1. Minnesota Statutes 2020, section 84.027, subdivision 14a, is amended to read:

1.22 Subd. 14a. **Permitting efficiency; public notice.** (a) It is the goal of the state that

1.23 environmental and resource management permits be issued or denied within 90 days for

1.24 tier 1 permits or 150 days for tier 2 permits following submission of a permit application.

1.25 The commissioner of natural resources shall establish management systems designed to

1.26 achieve the goal.

1.27 (b) The commissioner shall prepare an annual permitting efficiency report that includes

1.28 statistics on meeting the goal in paragraph (a) and the criteria for tier 2 by permit categories.

1.29 The report is due ~~August~~ October 1 each year. For permit applications that have not met

2.1 the goal, the report must state the reasons for not meeting the goal. In stating the reasons
2.2 for not meeting the goal, the commissioner shall separately identify delays caused by the
2.3 responsiveness of the proposer, lack of staff, scientific or technical disagreements, or the
2.4 level of public engagement. The report must specify the number of days from initial
2.5 submission of the application to the day of determination that the application is complete.
2.6 The report must aggregate the data for the year and assess whether program or system
2.7 changes are necessary to achieve the goal. The report must be posted on the department's
2.8 website and submitted to the governor and the chairs and ranking minority members of the
2.9 house of representatives and senate committees having jurisdiction over natural resources
2.10 policy and finance.

2.11 (c) The commissioner shall allow electronic submission of environmental review and

2.13 (d) Within 30 business days of application for a permit subject to paragraph (a), the
2.14 commissioner of natural resources shall notify the permit applicant, in writing, whether the
2.15 application is complete or incomplete. If the commissioner determines that an application
2.16 is incomplete, the notice to the applicant must enumerate all deficiencies, citing specific
2.17 provisions of the applicable rules and statutes, and advise the applicant on how the
2.18 deficiencies can be remedied. If the commissioner determines that the application is complete,
2.19 the notice must confirm the application's tier 1 or tier 2 permit status. If the commissioner
2.20 believes that a complete application for a tier 2 construction permit cannot be issued within
2.21 the 150-day goal, the commissioner must provide notice to the applicant with the
2.22 commissioner's notice that the application is complete and, upon request of the applicant,
2.23 provide the permit applicant with a schedule estimating when the agency will begin drafting
2.24 the permit and issue the public notice of the draft permit. This paragraph does not apply to
2.25 an application for a permit that is subject to a grant or loan agreement under chapter 446A.

2.26 (e) When public notice of a draft individual tier 2 permit is required, the commissioner
