## 2.20 ARTICLE 1

### 2.21 ELECTRONIC LICENSE SYSTEM

2.22 Section 1. Minnesota Statutes 2022, section 14.386, is amended to read:

#### 2.23 14.386 PROCEDURE FOR ADOPTING EXEMPT RULES; DURATION.

2.24 (a) A rule adopted, amended, or repealed by an agency, under a statute enacted after  
 2.25 January 1, 1997, authorizing or requiring rules to be adopted but excluded from the  
 2.26 rulemaking provisions of chapter 14 or from the definition of a rule, has the force and effect  
 2.27 of law only if:

2.28 (1) the revisor of statutes approves the form of the rule by certificate;

2.29 (2) the person authorized to adopt the rule on behalf of the agency signs an order adopting  
 2.30 the rule;

2.31 (3) the Office of Administrative Hearings approves the rule as to its legality within 14  
 2.32 days after the agency submits it for approval and files four paper copies or an electronic  
 2.33 copy of the adopted rule with the revisor's certificate in the Office of the Secretary of State;  
 2.34 and

2.35 (4) a copy is published by the agency in the State Register.

2.36 The secretary of state shall forward one copy of the rule to the governor.

2.37 A statute enacted after January 1, 1997, authorizing or requiring rules to be adopted but  
 2.38 excluded from the rulemaking provisions of chapter 14 or from the definition of a rule does  
 2.39 not excuse compliance with this section unless it makes specific reference to this section.

3.1 (b) A rule adopted under this section is effective for a period of two years from the date  
3.2 of publication of the rule in the State Register. The authority for the rule expires at the end  
3.3 of this two-year period.

3.4 (c) The chief administrative law judge shall adopt rules relating to the rule approval  
3.5 duties imposed by this section and section 14.388, including rules establishing standards  
3.6 for review.

3.7 (d) This section does not apply to:

3.8 (1) any group or rule listed in section 14.03, subdivisions 1 and 3, except as otherwise  
3.9 provided by law;

3.10 (2) game and fish rules of the commissioner of natural resources adopted under section  
3.11 84.027, subdivision 13, or sections 97A.0451 to 97A.0459;

3.12 (3) experimental and special management waters designated by the commissioner of  
3.13 natural resources under sections 97C.001 and 97C.005;

3.14 (4) game refuges designated by the commissioner of natural resources under section  
3.15 97A.085; or

3.16 (5) transaction fees established by the commissioner of natural resources for electronic  
3.17 or telephone sales of licenses, stamps, permits, registrations, or transfers under section  
3.18 84.027, subdivision 15, paragraph (a), clause ~~(3)~~ (2).

3.19 (e) If a statute provides that a rule is exempt from chapter 14, and section 14.386 does  
3.20 not apply to the rule, the rule has the force of law unless the context of the statute delegating  
3.21 the rulemaking authority makes clear that the rule does not have force of law.

3.22 Sec. 2. Minnesota Statutes 2022, section 84.027, subdivision 15, is amended to read:

3.23 Subd. 15. **Electronic transactions.** (a) The commissioner may receive an application  
3.24 for, sell, and issue any license, stamp, permit, pass, sticker, gift card, safety training  
3.25 certification, registration, or transfer under the jurisdiction of the commissioner by electronic  
3.26 means, including by telephone. Notwithstanding section 97A.472, electronic and telephone  
3.27 transactions may be made outside of the state. The commissioner may:

3.28 (1) provide for the electronic transfer of funds generated by electronic transactions,  
3.29 including by telephone;

3.30 ~~(2) assign an identification number to an applicant who purchases a hunting or fishing~~  
3.31 ~~license or recreational vehicle registration by electronic means, to serve as temporary~~

4.1 ~~authorization to engage in the activity requiring a license or registration until the license or~~  
4.2 ~~registration is received or expires;~~

4.3 ~~(3)~~ (2) charge and permit agents to charge a fee of individuals who make electronic  
4.4 transactions and transactions by telephone or Internet, including issuing fees and an additional  
4.5 transaction fee not to exceed \$3.50;

4.6 ~~(4)~~ (3) charge and permit agents to charge a convenience fee not to exceed three percent  
4.7 of the cost of the license to individuals who use electronic bank cards for payment. An  
4.8 electronic licensing system agent charging a fee of individuals making an electronic bank  
4.9 card transaction in person must post a sign informing individuals of the fee. The sign must  
4.10 be near the point of payment, clearly visible, include the amount of the fee, and state:  
4.11 "License agents are allowed by state law to charge a fee not to exceed three percent of the  
4.12 cost of state licenses to persons who use electronic bank cards for payment. The fee is not  
4.13 required by state law.";

4.14 ~~(5)~~ (4) establish, by written order, an electronic licensing system commission to be paid  
4.15 by revenues generated from all sales made through the electronic licensing system. The  
4.16 commissioner shall establish the commission in a manner that neither significantly  
4.17 overrecovers nor underrecovers costs involved in providing the electronic licensing system;  
4.18 and

4.19 ~~(6)~~ (5) adopt rules to administer the provisions of this subdivision.

4.20 (b) The fees established under paragraph (a), clauses (2) and (3) ~~and (4)~~, and the  
4.21 commission established under paragraph (a), clause ~~(5)~~ (4), are not subject to the rulemaking  
4.22 procedures of chapter 14 and section 14.386 does not apply.

4.23 (c) Money received from fees and commissions collected under this subdivision, including  
4.24 interest earned, is annually appropriated from the game and fish fund and the natural  
4.25 resources fund to the commissioner for the cost of electronic licensing.

4.26 (d) Game and fish licenses under chapters 97A, 97B, and 97C shall be available by  
4.27 electronic transaction, regardless of whether all or any part of the biennial appropriation  
4.28 law for the department has been enacted. If, by July 1 of an odd-numbered year, legislation  
4.29 has not been enacted to appropriate money to the commissioner of management and budget  
4.30 for central accounting, procurement, payroll, and human resources functions, amounts  
4.31 necessary to operate those functions for the purpose of this paragraph are appropriated from  
4.32 the general fund to the commissioner of management and budget. As necessary, the  
4.33 commissioner may transfer a portion of this appropriation to other state agencies to support  
4.34 carrying out these functions. Any subsequent appropriation to the commissioner of

5.1 management and budget for a biennium in which this section is applicable supersedes and  
5.2 replaces the funding authorized in this paragraph.

61.3 (c) A landowner is not in violation of the conservation easement if a failure of approved  
 61.4 practices was caused by reasons beyond the landowner's control.

61.5 **Subd. 10. Use for mitigation prohibited.** Money made available under the reinvest in  
 61.6 Minnesota reserve program may not be used for environmental regulatory or wetland  
 61.7 mitigation purposes required under federal or state law.

61.8 **Sec. 70. [103F.527] CONSERVATION PRACTICES.**

61.9 Subdivision 1. **Approved practices.** An approved practice must be consistent with  
 61.10 section 103F.505. The landowner is responsible for establishing all approved practices on  
 61.11 the easement area as specified by the board.

61.12 Subd. 2. **Approved practices eligible for reimbursement.** The board must determine  
 61.13 which approved practices are eligible for payments or reimbursement under a conservation  
 61.14 easement program. Food plots are not eligible for payments or reimbursement under a  
 61.15 conservation easement program.

61.16 Subd. 3. **Money from other sources.** The board may augment money available to pay  
 61.17 for or reimburse approved practices with money from other agencies, organizations, or  
 61.18 individuals.

61.19 **Sec. 71. [103F.528] SOIL AND WATER CONSERVATION DISTRICT**  
 61.20 **RESPONSIBILITIES.**

61.21 Subdivision 1. **Program delegation.** With the consent of the Board of Water and Soil  
 61.22 Resources, a district may enter into an agreement with others, as authorized under section  
 61.23 103C.231, to delegate, in whole or in part, the responsibility for administering a conservation  
 61.24 easement program.

61.25 Subd. 2. **Land in more than one district.** If an application involves land in more than  
 61.26 one district, the districts or delegated parties may jointly agree for one of the districts or  
 61.27 delegated parties to be the responsible party to review and prioritize the application and  
 61.28 complete all tasks necessary to convey the conservation easement to the Board of Water  
 61.29 and Soil Resources.

61.30 Subd. 3. **Violations and enforcement.** The district may take measures that are necessary  
 61.31 to ensure landowner compliance with the conservation agreement, conservation easement,  
 61.32 and conservation plan. If the district is unsuccessful in obtaining landowner compliance,

62.1 the district must notify the Board of Water and Soil Resources of the violation and may  
 62.2 recommend appropriate measures to be taken to correct the violation.

62.3 Sec. 72. Minnesota Statutes 2022, section 103F.535, subdivision 5, is amended to read:

62.4 Subd. 5. **Altering conservation easements.** (a) Conservation easements may be altered,  
 62.5 released, or terminated by the board after consultation with the commissioners of agriculture  
 62.6 and natural resources. The board may alter, release, or terminate a conservation easement  
 62.7 only if the board determines that the public interest and general welfare are better served  
 62.8 by the alteration, release, or termination.

62.9 (b) The board may adopt policies and procedures to implement this subdivision, including  
 62.10 provisions to ensure at least equal resource value as a condition of approving a request to  
 62.11 alter, release, or terminate a conservation easement.

62.12 (c) The landowner must compensate the board for damages and loss of benefits to the  
 62.13 conservation easement that result from the alteration, release, or termination. The board  
 62.14 may require the landowner to reimburse the board's administrative expenses and costs  
 62.15 incurred in altering, releasing, or terminating a conservation easement.

62.16 Sec. 73. Minnesota Statutes 2022, section 103G.005, subdivision 14d, is amended to read:

62.17 Subd. 14d. **Project.** "Project" means a specific plan, contiguous activity, proposal, or  
 62.18 design necessary to accomplish a goal as defined by the local government unit. As used in  
 62.19 this chapter, a project may not be split into components or phases for the sole purpose of  
 62.20 gaining additional exemptions.

62.21 Sec. 74. Minnesota Statutes 2022, section 103G.005, subdivision 17b, is amended to read:

62.22 Subd. 17b. **Wetland type.** "Wetland type" means a wetland type classified according  
 62.23 to *Wetlands of the United States*, United States Fish and Wildlife Service Circular 39 (1971  
 62.24 edition), ~~as summarized in this subdivision~~ or *A Hydrogeomorphic Classification for*  
 62.25 *Wetlands*, United States Army Corps of Engineers (August 1993), including updates,  
 62.26 supplementary guidance, and replacements, if any, as determined by the board.

62.27 ~~(1) "Type 1 wetlands" are seasonally flooded basins or flats in which soil is covered~~  
 62.28 ~~with water or is waterlogged during variable seasonal periods but usually is well-drained~~  
 62.29 ~~during much of the growing season. Type 1 wetlands are located in depressions and in~~  
 62.30 ~~overflow bottomlands along watercourses, and in which vegetation varies greatly according~~  
 62.31 ~~to season and duration of flooding and includes bottomland hardwoods as well as herbaceous~~  
 62.32 ~~growths.~~

63.1 ~~(2) "Type 2 wetlands" are inland fresh meadows in which soil is usually without standing~~  
63.2 ~~water during most of the growing season but is waterlogged within at least a few inches of~~  
63.3 ~~surface. Vegetation includes grasses, sedges, rushes, and various broad-leafed plants.~~  
63.4 ~~Meadows may fill shallow basins, sloughs, or farmland sags, or these meadows may border~~  
63.5 ~~shallow marshes on the landward side.~~

63.6 ~~(3) "Type 3 wetlands" are inland shallow fresh marshes in which soil is usually~~  
63.7 ~~waterlogged early during a growing season and often covered with as much as six inches~~  
63.8 ~~or more of water. Vegetation includes grasses, bulrushes, spikerushes, and various other~~  
63.9 ~~marsh plants such as cattails, arrowheads, pickerelweed, and smartweeds. These marshes~~  
63.10 ~~may nearly fill shallow lake basins or sloughs, or may border deep marshes on the landward~~  
63.11 ~~side and are also common as seep areas on irrigated lands.~~

63.12 ~~(4) "Type 4 wetlands" are inland deep fresh marshes in which soil is usually covered~~  
63.13 ~~with six inches to three feet or more of water during the growing season. Vegetation includes~~  
63.14 ~~cattails, reeds, bulrushes, spikerushes, and wild rice. In open areas, pondweeds, naiads,~~  
63.15 ~~coontail, water milfoils, waterweeds, duckweeds, waterlilies, or spatterdocks may occur.~~  
63.16 ~~These deep marshes may completely fill shallow lake basins, potholes, limestone sinks, and~~  
63.17 ~~sloughs, or they may border open water in such depressions.~~

63.18 ~~(5) "Type 5 wetlands" are inland open fresh water, shallow ponds, and reservoirs in~~  
63.19 ~~which water is usually less than ten feet deep and is fringed by a border of emergent~~  
63.20 ~~vegetation similar to open areas of type 4 wetland.~~

63.21 ~~(6) "Type 6 wetlands" are shrub swamps in which soil is usually waterlogged during~~  
63.22 ~~growing season and is often covered with as much as six inches of water. Vegetation includes~~  
63.23 ~~alders, willows, buttonbush, dogwoods, and swamp privet. This type occurs mostly along~~  
63.24 ~~sluggish streams and occasionally on floodplains.~~

63.25 ~~(7) "Type 7 wetlands" are wooded swamps in which soil is waterlogged at least to within~~  
63.26 ~~a few inches of the surface during growing season and is often covered with as much as one~~  
63.27 ~~foot of water. This type occurs mostly along sluggish streams, on floodplains, on flat uplands,~~  
63.28 ~~and in shallow basins. Trees include tamarack, arborvitae, black spruce, balsam, red maple,~~  
63.29 ~~and black ash. Northern evergreen swamps usually have a thick ground cover of mosses.~~  
63.30 ~~Deciduous swamps frequently support beds of duckweeds and smartweeds.~~

63.31 ~~(8) "Type 8 wetlands" are bogs in which soil is usually waterlogged and supports a~~  
63.32 ~~spongy covering of mosses. This type occurs mostly in shallow basins, on flat uplands, and~~  
63.33 ~~along sluggish streams. Vegetation is woody or herbaceous or both. Typical plants are heath~~  
63.34 ~~shrubs, sphagnum moss, and sedges. In the north, leatherleaf, Labrador tea, cranberries,~~

64.1 ~~carex, and cottongrass are often present. Scattered, often stunted, black spruce and tamarack~~  
 64.2 ~~may occur.~~

64.3 Sec. 75. Minnesota Statutes 2023 Supplement, section 103G.005, subdivision 19, is  
 64.4 amended to read:

64.5 Subd. 19. **Wetlands.** (a) "Wetlands" means lands transitional between terrestrial and  
 64.6 aquatic systems where the water table is usually at or near the surface or the land is covered  
 64.7 by shallow water. For purposes of this definition, wetlands must have the following three  
 64.8 attributes:

64.9 (1) have a predominance of hydric soils;

64.10 (2) are inundated or saturated by surface water or groundwater at a frequency and duration  
 64.11 sufficient to support a prevalence of hydrophytic vegetation typically adapted for life in  
 64.12 saturated soil conditions; and

64.13 (3) under normal circumstances support a prevalence of such vegetation.

64.14 (b) For the purposes of regulation under this chapter, the term wetlands does not include  
 64.15 public waters wetlands as defined in subdivision 15a.

64.16 (c) Notwithstanding paragraph (a), wetlands includes deepwater aquatic habitats that  
 64.17 are not public waters or public waters wetlands. For purposes of this paragraph, "deepwater  
 64.18 aquatic habitats" has the meaning given in *Corps of Engineers Wetlands Delineation Manual,*  
 64.19 United States Army Corps of Engineers (January 1987).

64.20 Sec. 76. Minnesota Statutes 2022, section 103G.222, subdivision 1, is amended to read:

64.21 Subdivision 1. **Requirements.** (a) Wetlands must not be drained or filled, wholly or  
 64.22 partially, unless replaced by actions that provide at least equal public value under a  
 64.23 replacement plan approved as provided in section 103G.2242, a replacement plan under a  
 64.24 local governmental unit's comprehensive wetland protection and management plan approved  
 64.25 by the board under section 103G.2243, or, if a permit to mine is required under section  
 64.26 93.481, under a mining reclamation plan approved by the commissioner under the permit  
 64.27 to mine. Project-specific wetland-replacement plans submitted as part of a project for which  
 64.28 a permit to mine is required and approved by the commissioner on or after July 1, 1991,  
 64.29 may include surplus wetland credits to be allocated by the commissioner to offset future  
 64.30 mining-related wetland impacts under any permits to mine held by the permittee, the operator,  
 64.31 the permittee's or operator's parent, an affiliated subsidiary, or an assignee pursuant to an  
 64.32 assignment under section 93.481, subdivision 5. For project-specific wetland replacement

65.1 completed prior to wetland impacts authorized or conducted under a permit to mine within  
65.2 the Great Lakes and Rainy River watershed basins, those basins ~~shall be~~ are considered a  
65.3 single watershed for purposes of determining wetland-replacement ratios. Mining reclamation  
65.4 plans ~~shall~~ must apply the same principles and standards for replacing wetlands that are  
65.5 applicable to mitigation plans approved as provided in section 103G.2242. The commissioner  
65.6 must provide notice of an application for wetland replacement under a permit to mine to  
65.7 the county in which the impact is proposed and the county in which a mitigation site is  
65.8 proposed. Public value must be determined in accordance with section 103B.3355 or a  
65.9 comprehensive wetland protection and management plan established under section  
65.10 103G.2243. Sections 103G.221 to 103G.2372 also apply to excavation in permanently and  
65.11 semipermanently flooded areas of ~~types 3, 4, and 5~~ wetlands.

65.12 (b) Replacement must be guided by the following principles in descending order of  
65.13 priority:

65.14 (1) avoiding the direct or indirect impact of the activity that may destroy or diminish  
65.15 the wetland;

65.16 (2) minimizing the impact by limiting the degree or magnitude of the wetland activity  
65.17 and its implementation;

65.18 (3) rectifying the impact by repairing, rehabilitating, or restoring the affected wetland  
65.19 environment;

65.20 (4) reducing or eliminating the impact over time by preservation and maintenance  
65.21 operations during the life of the activity;

65.22 (5) compensating for the impact by restoring a wetland; and

65.23 (6) compensating for the impact by replacing or providing substitute wetland resources  
65.24 or environments.

65.25 For a project involving the draining or filling of wetlands in an amount not exceeding 10,000  
65.26 square feet more than the applicable amount in section 103G.2241, subdivision 9, paragraph  
65.27 (a), the local government unit may make an on-site sequencing determination without a  
65.28 written alternatives analysis from the applicant.

65.29 (c) If a wetland is located in a cultivated field, then replacement must be accomplished  
65.30 through restoration only without regard to the priority order in paragraph (b), provided that  
65.31 the altered wetland is not converted to a nonagricultural use for at least ten years.

65.32 (d) If a wetland is replaced under paragraph (c), or drained under section 103G.2241,  
65.33 ~~subdivision 2, paragraph (b) or (c),~~ subdivision 1, clause (1), the local government unit may

66.1 require a deed restriction that prohibits nonagricultural use for at least ten years. The local  
66.2 government unit may require the deed restriction if it determines the wetland area drained  
66.3 is at risk of conversion to a nonagricultural use within ten years based on the zoning  
66.4 classification, proximity to a municipality or full service road, or other criteria as determined  
66.5 by the local government unit.

66.6 (e) Restoration and replacement of wetlands must be accomplished in accordance with  
66.7 the ecology of the landscape area affected and ponds that are created primarily to fulfill  
66.8 stormwater management, and water quality treatment requirements may not be used to  
66.9 satisfy replacement requirements under this chapter unless the design includes pretreatment  
66.10 of runoff and the pond is functioning as a wetland.

66.11 (f) Except as provided in paragraph (g), for a wetland or public waters wetland located  
66.12 on nonagricultural land, replacement must be in the ratio of two acres of replaced wetland  
66.13 for each acre of drained or filled wetland.

66.14 (g) For a wetland or public waters wetland located on agricultural land or in a greater  
66.15 than 80 percent area, replacement must be in the ratio of one acre of replaced wetland for  
66.16 each acre of drained or filled wetland.

66.17 (h) Wetlands that are restored or created as a result of an approved replacement plan are  
66.18 subject to the provisions of this section for any subsequent drainage or filling.

66.19 (i) Except in a greater than 80 percent area, only wetlands that have been restored from  
66.20 previously drained or filled wetlands, wetlands created by excavation in nonwetlands,  
66.21 wetlands created by dikes or dams along public or private drainage ditches, or wetlands  
66.22 created by dikes or dams associated with the restoration of previously drained or filled  
66.23 wetlands may be used for wetland replacement according to rules adopted under section  
66.24 103G.2242, subdivision 1. Modification or conversion of nondegraded naturally occurring  
66.25 wetlands from one type to another are not eligible for wetland replacement.

66.26 (j) The Technical Evaluation Panel established under section 103G.2242, subdivision  
66.27 2, shall ensure that sufficient time has occurred for the wetland to develop wetland  
66.28 characteristics of soils, vegetation, and hydrology before recommending that the wetland  
66.29 be deposited in the statewide wetland bank. If the Technical Evaluation Panel has reason  
66.30 to believe that the wetland characteristics may change substantially, the panel shall postpone  
66.31 its recommendation until the wetland has stabilized.

66.32 (k) This section and sections 103G.223 to 103G.2242, 103G.2364, and 103G.2365 apply  
66.33 to the state and its departments and agencies.

67.1 (l) For projects involving draining or filling of wetlands associated with a new public  
 67.2 transportation project, and for projects expanded solely for additional traffic capacity, public  
 67.3 transportation authorities may purchase credits from the board at the cost to the board to  
 67.4 establish credits. Proceeds from the sale of credits provided under this paragraph are  
 67.5 appropriated to the board for the purposes of this paragraph. For the purposes of this  
 67.6 paragraph, "transportation project" does not include an airport project.

67.7 (m) A replacement plan for wetlands is not required for individual projects that result  
 67.8 in the filling or draining of wetlands for the repair, rehabilitation, reconstruction, or  
 67.9 replacement of a currently serviceable existing state, city, county, or town public road  
 67.10 necessary, as determined by the public transportation authority, to meet state or federal  
 67.11 design or safety standards or requirements, excluding new roads or roads expanded solely  
 67.12 for additional traffic capacity lanes. This paragraph only applies to authorities for public  
 67.13 transportation projects that:

67.14 (1) minimize the amount of wetland filling or draining associated with the project and  
 67.15 consider mitigating important site-specific wetland functions on site;

67.16 (2) except as provided in clause (3), submit project-specific reports to the board, the  
 67.17 Technical Evaluation Panel, the commissioner of natural resources, and members of the  
 67.18 public requesting a copy at least 30 days prior to construction that indicate the location,  
 67.19 amount, and type of wetlands to be filled or drained by the project or, alternatively, convene  
 67.20 an annual meeting of the parties required to receive notice to review projects to be  
 67.21 commenced during the upcoming year; and

67.22 (3) for minor and emergency maintenance work impacting less than 10,000 square feet,  
 67.23 submit project-specific reports, within 30 days of commencing the activity, to the board  
 67.24 that indicate the location, amount, and type of wetlands that have been filled or drained.

67.25 Those required to receive notice of public transportation projects may appeal  
 67.26 minimization, delineation, and on-site mitigation decisions made by the public transportation  
 67.27 authority to the board according to the provisions of section 103G.2242, subdivision 9. The  
 67.28 Technical Evaluation Panel ~~shall~~ must review minimization and delineation decisions made  
 67.29 by the public transportation authority and provide recommendations regarding on-site  
 67.30 mitigation if requested to do so by the local government unit, a contiguous landowner, or  
 67.31 a member of the Technical Evaluation Panel.

67.32 Except for ~~state~~ public transportation projects that occur on state roads, for which the  
 67.33 state Department of Transportation is responsible for the wetland replacement, the board  
 67.34 must replace the wetlands, and wetland areas of public waters if authorized by the

68.1 commissioner or a delegated authority, drained or filled by public transportation projects  
68.2 on existing roads.

68.3 Public transportation authorities at their discretion may deviate from federal and state  
68.4 design standards on existing road projects when practical and reasonable to avoid wetland  
68.5 filling or draining, provided that public safety is not unreasonably compromised. The local  
68.6 road authority and its officers and employees are exempt from liability for any tort claim  
68.7 for injury to persons or property arising from travel on the highway and related to the  
68.8 deviation from the design standards for construction or reconstruction under this paragraph.  
68.9 This paragraph does not preclude an action for damages arising from negligence in  
68.10 construction or maintenance on a highway.

68.11 (n) If a landowner seeks approval of a replacement plan after the proposed project has  
68.12 already affected the wetland, the local government unit may require the landowner to replace  
68.13 the affected wetland at a ratio not to exceed twice the replacement ratio otherwise required.

68.14 (o) A local government unit may request the board to reclassify a county or watershed  
68.15 on the basis of its percentage of presettlement wetlands remaining. After receipt of  
68.16 satisfactory documentation from the local government, the board shall change the  
68.17 classification of a county or watershed. If requested by the local government unit, the board  
68.18 must assist in developing the documentation. Within 30 days of its action to approve a  
68.19 change of wetland classifications, the board shall publish a notice of the change in the  
68.20 Environmental Quality Board Monitor.

68.21 (p) One hundred citizens who reside within the jurisdiction of the local government unit  
68.22 may request the local government unit to reclassify a county or watershed on the basis of  
68.23 its percentage of presettlement wetlands remaining. In support of their petition, the citizens  
68.24 shall provide satisfactory documentation to the local government unit. The local government  
68.25 unit shall consider the petition and forward the request to the board under paragraph (o) or  
68.26 provide a reason why the petition is denied.

68.27 Sec. 77. Minnesota Statutes 2022, section 103G.2241, subdivision 1, is amended to read:

68.28 Subdivision 1. **Agricultural activities.** A replacement plan for wetlands is not required  
68.29 for:

68.30 ~~(1) activities in a wetland that was planted with annually seeded crops, was in a crop~~  
68.31 ~~rotation seeding of pasture grass or legumes, or was required to be set aside to receive price~~  
68.32 ~~support or other payments under United States Code, title 7, sections 1421 to 1469, in six~~  
68.33 ~~of the last ten years prior to January 1, 1991;~~

69.1 ~~(2) activities in a type 1 wetland on agricultural pasture land that remains in the same~~  
69.2 ~~use, except for bottomland hardwood type 1 wetlands, and activities in a type 2 or type 6~~  
69.3 ~~wetland that is less than two acres in size and located on agricultural pasture land that~~  
69.4 ~~remains in the same use;~~

69.5 (1) impacts to wetlands on agricultural land labeled prior-converted cropland and impacts  
69.6 to wetlands resulting from drainage maintenance activities authorized by the United States  
69.7 Department of Agriculture, Natural Resources Conservation Service, on areas labeled farmed  
69.8 wetland, farmed-wetland pasture, and wetland. The prior-converted cropland, farmed  
69.9 wetland, farmed-wetland pasture, or wetland must be labeled on a valid final certified  
69.10 wetland determination issued by the Natural Resources Conservation Service in accordance  
69.11 with Code of Federal Regulations, part 7, section 12, as amended. It is the responsibility of  
69.12 the owner or operator of the land to provide a copy of the final certified wetland determination  
69.13 to, and allow the Natural Resources Conservation Service to share related information with,  
69.14 the local government unit and the board for purposes of verification.

69.15 ~~(3)~~ (2) activities in a wetland conducted as part of normal farming practices. For purposes  
69.16 of this clause, "normal farming practices" means farming, silvicultural, grazing, and ranching  
69.17 activities such as plowing, seeding, cultivating, and harvesting for the production of feed,  
69.18 food, and fiber products, but does not include activities that result in the draining of wetlands;

69.19 ~~(4)~~ (3) soil and water conservation practices approved by the soil and water conservation  
69.20 district, after review by the Technical Evaluation Panel;

69.21 ~~(5)~~ (4) wetland impacts resulting from aquaculture activities, including pond excavation  
69.22 and construction and maintenance of associated access roads and dikes, authorized under,  
69.23 and conducted in accordance with, a permit issued by the United States Army Corps of  
69.24 Engineers under section 404 of the federal Clean Water Act, United States Code, title 33,  
69.25 section 1344, but not including construction or expansion of buildings;

69.26 ~~(6)~~ (5) wetland impacts resulting from wild rice production activities, including necessary  
69.27 diking and other activities, authorized under and conducted in accordance with a permit  
69.28 issued by the United States Army Corps of Engineers under section 404 of the federal Clean  
69.29 Water Act, United States Code, title 33, section 1344; or

69.30 ~~(7)~~ (6) agricultural activities on agricultural land that is subject to the swampbuster  
69.31 provisions of the federal farm program restrictions consistent with a memorandum of  
69.32 understanding and related agreements between the board and the United States Department  
69.33 of Agriculture, Natural Resources Conservation Service.

70.1 Sec. 78. Minnesota Statutes 2022, section 103G.2241, subdivision 2, is amended to read:

70.2 Subd. 2. **Drainage.** ~~(a) For the purposes of this subdivision, "public drainage system"~~  
 70.3 ~~means a drainage system as defined in section 103E.005, subdivision 12, and any ditch or~~  
 70.4 ~~tile lawfully connected to the drainage system.~~

70.5 ~~(b) A replacement plan is not required for draining of type 1 wetlands, or up to five acres~~  
 70.6 ~~of type 2 or 6 wetlands, in an unincorporated area on land that has been assessed drainage~~  
 70.7 ~~benefits for a public drainage system, provided that:~~

70.8 ~~(1) during the 20-year period that ended January 1, 1992:~~

70.9 ~~(i) there was an expenditure made from the drainage system account for the public~~  
 70.10 ~~drainage system;~~

70.11 ~~(ii) the public drainage system was repaired or maintained as approved by the drainage~~  
 70.12 ~~authority; or~~

70.13 ~~(iii) no repair or maintenance of the public drainage system was required under section~~  
 70.14 ~~103E.705, subdivision 1, as determined by the public drainage authority; and~~

70.15 ~~(2) the wetlands are not drained for conversion to:~~

70.16 ~~(i) platted lots;~~

70.17 ~~(ii) planned unit, commercial, or industrial developments; or~~

70.18 ~~(iii) any development with more than one residential unit per 40 acres, except for parcels~~  
 70.19 ~~subject to local zoning standards that allow for family members to establish an additional~~  
 70.20 ~~residence on the same 40 acres.~~

70.21 ~~If wetlands drained under this paragraph are converted to uses prohibited under clause (2)~~  
 70.22 ~~during the ten-year period following drainage, the wetlands must be replaced under section~~

80.13 (b) The commissioner shall establish procedures to make aquatic life available to licensed  
80.14 facilities if state aquatic life would otherwise die or go to waste, such as in cases of winterkill  
80.15 lakes, waters where piscicides will be applied, and waters subject to extreme draw-down.  
80.16 The public must be given angling opportunities if public access is available.

80.17 (c) The commissioner shall attempt to provide opportunities to make brood stock available  
80.18 to licensed facilities to reduce reliance on out-of-state sources without causing adverse  
80.19 impacts to game fish and native rough fish populations.

80.20 (d) If the commissioner denies approval to obtain aquatic life outside the state, a written  
80.21 notice must be submitted to the applicant stating the reasons for denial, and the commissioner  
80.22 shall:

80.23 (1) designate approved sources if available to obtain the desired aquatic life; or

80.24 (2) sell the aquatic life from state hatcheries at fair wholesale market value if there is a  
80.25 surplus from state operations.

80.26 Sec. 5. Minnesota Statutes 2022, section 17.4984, subdivision 2, is amended to read:

80.27 Subd. 2. **Listed waters.** (a) An aquatic farm license must list:

80.28 (1) the specific waters of the state that may be used in connection with the licensed  
80.29 aquatic farm and the species approved for each licensed water; and

80.30 (2) whether aeration requiring a permit is approved.

81.1 Additional waters may not be used until they are approved by the commissioner.

81.2 (b) The right to use waters licensed for private fish hatchery or aquatic farm purposes  
81.3 may be transferred between licensees with prior approval by the commissioner if requirements  
81.4 for species to be raised are met. Waters that are continually connected by a permanent  
81.5 watercourse to other waters must not be approved for aquatic farm use, except that connected  
81.6 waters that are isolated from other waters may be licensed as a single water body. Waters  
81.7 that are intermittently connected or may become connected with other waters may be denied,  
81.8 or screening or other measures may be required to prevent passage of aquatic life. Listed  
81.9 waters may be changed on approval by the area fisheries supervisor or the commissioner.

81.10 (c) The commissioner shall conduct an inspection of waters to be licensed prior to  
81.11 approving or denying initial licensing of the waters. When artificial tanks, jars, or other  
81.12 containers are added to existing licensed facilities, an additional inspection is not required.

81.13 (d) Waters containing ~~game~~ fish of significant public value, including game fish and  
81.14 native rough fish, may be denied licensing unless the applicant can demonstrate exclusive  
81.15 riparian control.

81.16 (e) Waters containing ~~game~~ fish of significant public value, including game fish and  
81.17 native rough fish, may be denied licensing unless the game fish and native rough fish of  
81.18 significant public value are, at the commissioner's option, and taking into consideration the  
81.19 recommendation of the licensed applicant, sold to the licensee, or removed by the Department  
81.20 of Natural Resources or disposed of as provided in writing by the commissioner.

81.21 (f) Waters licensed under an aquatic farm license may be aerated during open water  
81.22 periods without a separate aeration permit.

81.23 (g) Common carp and bullheads may be removed from licensed waters, and transported  
81.24 and disposed of by the licensee.

81.25 Sec. 6. Minnesota Statutes 2022, section 17.4988, subdivision 4, is amended to read:

81.26 Subd. 4. **Aquarium facility.** (a) A person operating a commercial aquarium facility  
81.27 must have a commercial aquarium facility license issued by the commissioner if the facility  
81.28 contains species of aquatic life that are for sale and that are present in waters of the state.  
81.29 The commissioner may require an aquarium facility license for aquarium facilities importing  
81.30 or holding species of aquatic life that are for sale and that are not present in Minnesota if  
81.31 those species can survive in waters of the state. The fee for an aquarium facility license is  
81.32 \$90.

82.1 (b) Game fish and native rough fish transferred by an aquarium facility must be  
82.2 accompanied by a receipt containing the information required on a shipping document by  
82.3 section 17.4985, subdivision 3, paragraph (b).

82.4 Sec. 7. Minnesota Statutes 2022, section 17.4992, subdivision 1, is amended to read:

82.5 Subdivision 1. **Acquisition and purchase.** Game fish and native rough fish sperm,  
82.6 viable game fish and native rough fish eggs, or live game fish and native rough fish may  
82.7 not be taken from public waters for aquaculture purposes, but may be purchased from the  
82.8 state or acquired from aquatic farms.

82.9 Sec. 8. Minnesota Statutes 2022, section 17.4992, subdivision 3, is amended to read:

82.10 Subd. 3. **Acquisition of fish for brood stock.** (a) Game fish brood stock and native  
82.11 rough fish brood stock may be sold to private fish hatcheries or aquatic farms by the state  
82.12 at fair wholesale market value. For brood stock development, up to 20 pair of adults of each  
82.13 species requested may be provided to a licensee once every three years, if available, by the  
82.14 state through normal operations.

82.15 (b) If brood stock is not available by the June 1 following the request under paragraph  
82.16 (a) and a permit to take brood stock by angling is requested by the licensee, within 30 days  
82.17 of the request, the commissioner may issue a permit to the licensee to take, by angling, up  
82.18 to 20 pairs of each species requested. Game and fish laws and rules relating to daily limits,  
82.19 seasons, and methods apply to the taking of fish by angling pursuant to a permit issued  
82.20 under this paragraph.

82.21 Sec. 9. Minnesota Statutes 2022, section 17.4996, is amended to read:

82.22 **17.4996 WHITE EARTH INDIAN RESERVATION.**

82.23 Until the commissioner reaches an agreement with the White Earth Indian Reservation  
82.24 regarding the acquisition and sale of aquatic life from public waters, an aquatic farm licensee  
82.25 may acquire and transport native rough fish, as defined in section 97A.015, subdivision 43,  
82.26 and yellow perch lawfully acquired and possessed by a tribal member for sale under tribal  
82.27 laws and regulations on the White Earth Reservation. Transportation of yellow perch off  
82.28 the reservation must be accompanied by documentation showing the source and number of  
82.29 the yellow perch.

83.1 Sec. 10. Minnesota Statutes 2022, section 41A.02, subdivision 6, is amended to read:

83.2 Subd. 6. **Agricultural resource project; project.** "Agricultural resource project" or  
 83.3 "project" means (1) any facility, or portion of a facility, located in the state which is operated  
 83.4 or to be operated primarily for the production from agricultural resources of marketable  
 83.5 products, (2) buildings, equipment, and land used for the commercial production of turkeys  
 83.6 or turkey products, (3) a facility or portion of a facility used for the commercial production  
 83.7 of fish or of products made from commercially produced fish or native rough fish, as defined  
 83.8 in section 97A.015, subdivision 43, or common carp that are not commercially produced,  
 83.9 or (4) real or personal property used or useful in connection with a revenue-producing  
 83.10 enterprise, or a combination of two or more revenue-producing enterprises engaged in a  
 83.11 business, that is not used for the production of livestock, other than poultry, or for the  
 83.12 production of crops, plants, or milk. The land in clause (2) is limited to land on which  
 83.13 buildings and equipment are situated and immediately surrounding land used for storage,  
 83.14 waste disposal, or other functions directly related to the commercial production of turkeys  
 83.15 or turkey products at that project site. The land in clause (2) does not include land used for  
 83.16 the growing or raising of crops or the grazing of livestock other than poultry. A project  
 83.17 includes a facility or portion of a facility for mixing or producing substances to be mixed  
 83.18 with other substances for use as a fuel or as a substitute for petroleum or petrochemical  
 83.19 feedstocks.

83.20 Sec. 11. Minnesota Statutes 2022, section 84.027, subdivision 12, is amended to read:

83.21 Subd. 12. **Property disposal; gift acknowledgment; advertising sales.** (a) The  
 83.22 commissioner may recognize the contribution of money or in-kind services on plaques,  
 83.23 signs, publications, audiovisual materials, and media advertisements by allowing the  
 83.24 organization's contribution to be acknowledged in print of readable size.

83.25 (b) The commissioner may accept paid advertising for departmental publications.  
 83.26 Advertising revenues received are appropriated to the commissioner to be used to defray  
 83.27 costs of publications, media productions, or other informational materials. The commissioner  
 83.28 may not accept paid advertising from any elected official or candidate for elective office.

83.29 (c) Notwithstanding section 16B.2975, subdivision 6, clause (2), if the commissioner  
 83.30 determines that a transfer benefits the state's natural resources management or bison  
 83.31 management, the commissioner may request that the commissioner of administration donate  
 83.32 and convey bison to a governmental unit or nonprofit organization, in or outside Minnesota,  
 83.33 or sell bison. The recipient of the bison is solely responsible for all future expenses related  
 83.34 to the bison.

84.1 Sec. 12. [84.0871] DATA ON FOREST INDUSTRY.

84.2 (a) The following data that the Department of Natural Resources collects, receives, or  
 84.3 maintains through voluntary responses to questionnaires or surveys by forest industry  
 84.4 businesses are classified as private data on individuals, as defined in section 13.02,  
 84.5 subdivision 12, if the data are data on individuals or as nonpublic data, as defined in section  
 84.6 13.02, subdivision 9, if the data are data not on individuals:

84.7 (1) timber resource consumption;

84.8 (2) origin of timber resources;

84.9 (3) cost of delivered timber;

84.10 (4) forest industry product output; and

84.11 (5) production costs.

84.12 (b) Data that the department collects, receives, or maintains through voluntary responses  
 84.13 to questionnaires or surveys by forest industry businesses and that are not specified under  
 84.14 paragraph (a), clauses (1) to (5), are public data.

84.15 (c) Summary data, as defined in section 13.02, subdivision 19, that the department  
 84.16 compiles from data under paragraph (a) or (b) are public data.

84.17 (d) Data collected, received, or maintained by the department from bidders on state  
 84.18 timber under section 90.145 are not subject to this section.

84.19 Sec. 13. Minnesota Statutes 2022, section 84.0895, subdivision 1, is amended to read:

84.20 Subdivision 1. **Prohibition.** Notwithstanding any other law, a person may not take,  
 84.21 import, transport, release, or sell any portion of an endangered or threatened species of wild  
 84.22 animal or plant, or sell or possess with intent to sell an article made with any part of the  
 84.23 skin, hide, or parts of an endangered or threatened species of wild animal or plant, except  
 84.24 as provided in subdivisions 2 and 7.

84.25 Sec. 14. Minnesota Statutes 2022, section 84.0895, subdivision 8, is amended to read:

84.26 Subd. 8. **Application.** This section does not apply retroactively ~~or prohibit importation~~  
 84.27 ~~into this state and subsequent possession, transport, and sale of wild animals, wild plants,~~  
 84.28 ~~or parts of wild animals or plants that are legally imported into the United States or legally~~  
 84.29 ~~acquired and exported from another territory, state, possession, or political subdivision of~~  
 84.30 ~~the United States.~~

85.1 Sec. 15. Minnesota Statutes 2022, section 84.96, subdivision 2, is amended to read:

85.2 Subd. 2. **Definition.** For the purposes of this section, "native prairie" means ~~land that~~  
 85.3 ~~has never been plowed, with less than ten percent tree cover and with predominantly native~~  
 85.4 ~~prairie vegetation~~ a grassland dominated by original native prairie vegetation, usually  
 85.5 occurring where the sod has never been broken.

85.6 Sec. 16. Minnesota Statutes 2022, section 84.96, subdivision 3, is amended to read:

85.7 Subd. 3. **Easement acquisition.** (a) The commissioner may acquire native prairie for  
 85.8 conservation purposes by entering into easements with landowners or with the land  
 85.9 administrator of state school trust lands. Before acquiring easements under this subdivision  
 85.10 on school trust lands, the commissioner must receive advice from the school trust lands  
 85.11 director according to section 127A.353, subdivision 4. The easements must be conservation  
 85.12 easements as defined in section 84C.01, clause (1), except the easements may be made  
 85.13 possessory as well as nonpossessory if agreed upon by the landowner or land administrator  
 85.14 and the commissioner.

85.15 (b) The easements may be permanent or of limited duration. Highest priority must be  
 85.16 given to permanent easements consistent with the purposes of this section. Easements of  
 85.17 limited duration must be for at least 20 years, with provision for renewal for at least another  
 85.18 20-year period. For easements of limited duration, the commissioner may reexamine and  
 85.19 adjust the payment rates at the beginning of any renewal period after considering current  
 85.20 land and crop values.

85.21 Sec. 17. Minnesota Statutes 2022, section 84.96, subdivision 5, is amended to read:

85.22 Subd. 5. **Payments.** (a) For interests in lands acquired under this section, the  
 85.23 commissioner must make payments to the landowner ~~under~~ or land administrator according  
 85.24 to this subdivision for the easement.

85.25 ~~(b) For a permanent easement, the commissioner must pay 65 percent of the permanent~~  
 85.26 ~~marginal agricultural land payment rate as established by the Board of Water and Soil~~  
 85.27 ~~Resources for the time period when the application is made.~~

85.28 (b) For a permanent easement, the commissioner may pay up to ten percent more than  
 85.29 the Board of Water and Soil Resources pays for noncrop easements. If the Board of Water  
 85.30 and Soil Resources does not establish a noncrop easement payment rate, the commissioner  
 85.31 must establish land value rates for payments considering market factors, such as  
 85.32 county-assessed land value and sales ratio studies, along with ecological, biological, and

86.1 cultural factors that take into consideration the global rarity of native prairie. The rates must  
 86.2 be based on the need to protect the extremely small amount of the globally vulnerable and  
 86.3 imperiled remaining native prairie in Minnesota.

86.4 (c) For an easement of limited duration, the commissioner ~~must pay~~ may pay up to 65  
 86.5 percent of the permanent prairie bank easement rate for the time period when the application  
 86.6 is made.

86.7 (d) To maintain and protect native prairies, the commissioner may enter into easements  
 86.8 that allow selected agricultural practices. Payment must be based on paragraph (b) or (c)  
 86.9 but may be reduced due to the agricultural practices allowed after negotiation with the  
 86.10 landowner or land administrator.

86.11 (e) If a native prairie qualifies for the native prairie bank but the landowner requests that  
 86.12 the commissioner acquire the native prairie in fee rather than acquire an easement, the  
 86.13 commissioner may acquire it as any outdoor recreation system classification under section  
 86.14 86A.05 with protections equivalent to a native prairie bank easement. For acquisition under  
 86.15 this paragraph, the commissioner may pay up to 25 percent more than what the Board of  
 86.16 Water and Soil Resources pays for noncrop easements. If the Board of Water and Soil  
 86.17 Resources does not establish a noncrop easement payment rate, the commissioner must  
 86.18 establish land value rates for payments considering market factors, such as county-assessed  
 86.19 land value and sales ratio studies, along with ecological, biological, and cultural factors that  
 86.20 take into consideration the global rarity of native prairie.

86.21 (f) For a permanent easement acquired on school trust lands under this section, the  
 86.22 commissioner must pay no less than 100 percent of the easement's appraised value at the  
 86.23 time of closing.

86.24 Sec. 18. Minnesota Statutes 2022, section 84B.061, is amended to read:

86.25 **84B.061 STATE JURISDICTION OVER RAINY LAKE AND OTHER**  
 86.26 **NAVIGABLE WATERS; DUTIES OF GOVERNOR, ATTORNEY GENERAL, AND**  
 86.27 **OTHER PUBLIC OFFICERS.**

86.28 As required by this chapter and the act of Congress authorizing Voyageurs National  
 86.29 Park, the state of Minnesota donated in excess of 35,000 acres of state and other publicly  
 86.30 owned land for the park, roughly one-fourth of the land area of the park, at a cost of over  
 86.31 \$5,000,000 to the state. More than 24,000 acres of this land was state trust fund land which  
 86.32 the state condemned before making its donation. Pursuant to section 84B.06, lands donated  
 86.33 by the state, along with other lands acquired by the National Park Service for the park, were

87.1 made subject to concurrent jurisdiction by the state and the United States under section  
87.2 1.041. In making these donations, none of the navigable waters within the park and the  
87.3 lands under them have been donated to the United States. These navigable waters include  
87.4 the following: Rainy, Kabetogama, Namakan, Sand Point, and Crane Lakes. Pursuant to  
87.5 applicable federal and state law, navigable waters and their beds are owned by the state.  
87.6 Ownership of and jurisdiction over these waters and their beds has not been ceded by the  
87.7 state, either expressly or implicitly, to the United States. Unlike section 1.044 relating to  
87.8 the Upper Mississippi Wildlife and Fish Refuge, where the state expressly granted its consent  
87.9 and jurisdiction to the United States to acquire interests in water, as well as land, the consent  
87.10 granted by the state in section 84B.06 to acquisitions by the United States for Voyageurs  
87.11 National Park is limited to land, only. In the discharge of their official duties, the governor,  
87.12 attorney general, other constitutional officers, and other public officials, such as the  
87.13 commissioner of natural resources, shall vigorously assert and defend, in all forums, the  
87.14 state's ownership of and jurisdiction over these waters and their beds and related natural  
87.15 resources, together with associated rights of the state and its citizens arising from the state's  
87.16 ownership and jurisdiction. In discharging their duties, the governor, attorney general, other  
87.17 constitutional officers, and other public officials shall, additionally, be especially cognizant  
87.18 of the free rights of travel afforded to citizens of Minnesota and others under the  
87.19 Webster-Ashburton Treaty (proclaimed November 10, 1842) and the Root-Bryce Treaty  
87.20 (proclaimed May 13, 1910) on international and associated boundary waters. Also, in  
87.21 furtherance of duties under this section, the commissioner of natural resources shall continue  
87.22 in effect the commercial removal of native rough fish, as defined in section 97A.015,  
87.23 subdivision 43, from these waters, together with any rights to do so possessed by any person  
87.24 on January 1, 1995, so long as the commissioner determines that such taking is desirable  
87.25 to the management of the native fishery.

87.26 Sec. 19. Minnesota Statutes 2022, section 88.82, is amended to read:

87.27 **88.82 MINNESOTA RELEAF PROGRAM.**

87.28 The Minnesota releaf program is established in the Department of Natural Resources to  
87.29 encourage, promote, and fund the inventory, planting, assessment, maintenance,  
87.30 improvement, protection, utilization, and restoration of trees and forest resources in this  
87.31 state to enhance community forest ecosystem health and sustainability as well as to reduce  
87.32 atmospheric carbon dioxide levels and promote energy conservation.

88.1 Sec. 20. Minnesota Statutes 2022, section 89.36, subdivision 1, is amended to read:

88.2 Subdivision 1. **Production at state nurseries.** The commissioner of natural resources  
88.3 may produce tree planting stock for the purposes of sections 89.35 to 89.39 upon any lands  
88.4 under control of the commissioner which may be deemed suitable and available therefor so  
88.5 far as not inconsistent with other uses to which such lands may be dedicated by law. ~~The~~  
88.6 ~~commissioner may not produce more than 10,000,000 units of planting stock annually, after~~  
88.7 ~~January 1, 2003.~~

88.8 Sec. 21. Minnesota Statutes 2022, section 89.37, subdivision 3, is amended to read:

88.9 Subd. 3. **Private lands.** The commissioner may supply ~~only bare root~~ seedlings, woody  
88.10 cuttings, and transplant material for use on private land, provided that such material must  
88.11 be sold in lots of not less than 250 for a sum determined by the commissioner to be equivalent  
88.12 to the cost of the materials and the expenses of their distribution. The commissioner may  
88.13 not directly or indirectly supply any other planting stock for use on private lands.

88.14 Sec. 22. Minnesota Statutes 2022, section 93.0015, subdivision 3, is amended to read:

88.15 Subd. 3. **Expiration.** The committee expires June 30, ~~2026~~ 2036.

88.17 Subd. 3b. **Bow fishing.** "Bow fishing" means taking native rough fish and common carp  
88.18 by archery where the arrows are tethered or controlled by an attached line.

88.19 Sec. 24. Minnesota Statutes 2022, section 97A.015, subdivision 39, is amended to read:

88.20 Subd. 39. **Protected wild animals.** "Protected wild animals" means big game, small  
88.21 game, game fish, native rough fish, minnows, leeches, ~~alewives, eiseoes,~~ chubs, ~~lake whitefish~~  
88.22 ~~and the subfamily Coregoninae, rainbow smelt,~~ frogs, turtles, clams, mussels, wolf, mourning  
88.23 doves, bats, snakes, salamanders, lizards, any animal species listed as endangered, threatened,  
88.24 or of special concern in Minnesota Rules, chapter 6134, and wild animals that are protected  
88.25 by a restriction in the time or manner of taking, other than a restriction in the use of artificial  
88.26 lights, poison, or motor vehicles.

88.27 Sec. 25. Minnesota Statutes 2022, section 97A.015, subdivision 43, is amended to read:

88.28 Subd. 43. **Native rough fish.** "Native rough fish" means ~~carp, buffalo, sucker, sheepshead,~~

 89.2 Hiodontidae (goldeye and mooneye), Ictaluridae (black, brown, and yellow bullhead),  
 89.3 Lepisosteidae (longnose and shortnose gar), and Sciaenidae (freshwater drum), except for  
 89.4 any fish species listed as endangered, threatened, or of special concern in Minnesota Rules,  
 89.5 chapter 6134.

89.6 Sec. 26. Minnesota Statutes 2022, section 97A.015, is amended by adding a subdivision  
 89.7 to read:

89.8 Subd. 47a. **Taxidermist.** "Taxidermist" means a person who engages in the business or  
 89.9 operation of preserving or mounting wild animals or parts thereof that do not belong to the  
 89.10 person.

89.11 Sec. 27. Minnesota Statutes 2022, section 97A.055, subdivision 4b, is amended to read:

89.12 Subd. 4b. ~~Citizen oversight committees~~ **Fish and Wildlife Advisory Committee.** (a)

109.26 of the date and time in appropriate public places at least 48 hours before the open season  
109.27 begins.

109.28 (b) The commissioner may close specific lakes and waters that are otherwise open under  
109.29 this subdivision if the commissioner posts notice of the closing at a minimum of three sites  
109.30 on the shore of the waters, including all public water-access sites. Before closing waters

110.1 under this paragraph, the commissioner shall determine that the closure is necessary to  
110.2 protect game fish or native rough fish populations.

110.3 Sec. 68. Minnesota Statutes 2022, section 97C.805, subdivision 4, is amended to read:

110.4 Subd. 4. **No limit on native rough fish netted.** Lake whitefish and ciscoes taken under  
110.5 this section may be taken and possessed without limit. Native rough fish caught while netting  
110.6 may be retained. All other fish taken while netting must be returned to the water immediately.

110.7 Sec. 69. Minnesota Statutes 2022, section 97C.811, subdivision 2, is amended to read:

110.8 Subd. 2. **Commercial fish defined.** For purposes of this section and section 97A.475,  
110.9 subdivision 30, "commercial fish" are common carp; ~~bowfin; burbot; cisco; goldeye; rainbow~~  
110.10 ~~smelt; black bullhead, brown bullhead, and yellow bullhead; lake whitefish; members of~~  
110.11 ~~the sucker family, Catostomidae, including white sucker, redhorse, bigmouth buffalo, and~~  
110.12 ~~smallmouth buffalo; members of the drum family, Sciaenidae, including sheepshead; and~~  
110.13 ~~members of the gar family, Lepisosteidae~~ and native rough fish, except for bowfin.

110.14 Sec. 70. Minnesota Statutes 2022, section 97C.831, subdivision 1, is amended to read:

110.15 Subdivision 1. **Lake whitefish, common carp, and native rough fish.** Lake whitefish  
110.16 and native rough fish may be taken by licensed commercial fishing operators unless otherwise  
110.17 changed by rule of the commissioner, under section 97C.805, subdivision 1, from Namakan  
110.18 Lake and Sand Point Lake.

110.19 Sec. 71. Minnesota Statutes 2022, section 97C.835, subdivision 2, is amended to read:

110.21 round whitefish, pygmy whitefish, rainbow smelt, common carp, and native rough fish may  
110.22 be taken by licensed commercial fishing operators from Lake Superior, in accordance with  
110.23 this section.

110.24 Sec. 72. Minnesota Statutes 2022, section 97C.835, subdivision 3, is amended to read:

111.5 record of:

111.6 (1) the name, address, and license number of the shipper;

111.7 (2) the name and address of the consignee; and

111.8 (3) the number of each species and net weight of fish in the shipment.

111.9 (b) The records of the fish packer must be made available to an enforcement officer  
111.10 upon request.

111.11 Sec. 74. Minnesota Statutes 2022, section 103F.211, subdivision 1, is amended to read:

111.12 Subdivision 1. **Adoption.** The commissioner shall adopt model standards and criteria  
111.13 for the subdivision, use, and development of shoreland in municipalities and areas outside  
111.14 of a municipality. The authority to adopt model standards and criteria is exempt from section  
111.15 14.125 and does not expire. The standards and criteria must include:

111.16 (1) the area of a lot and length of water frontage suitable for a building site;

111.22 (7) variances from the minimum standards and criteria; and

111.23 (8) for areas outside of a municipality only, a model ordinance.

111.24 Sec. 75. Minnesota Statutes 2023 Supplement, section 103G.301, subdivision 2, is amended  
111.25 to read:

111.26 Subd. 2. **Permit application and notification fees.** (a) A fee to defray the costs of  
111.27 receiving, recording, and processing must be paid for a permit application authorized under  
111.28 this chapter, except for a general permit application, for each request to amend or transfer  
111.29 an existing permit, and for a notification to request authorization to conduct a project under

112.1 a general permit. Fees established under this subdivision, unless specified in paragraph (c),  
112.2 must comply with section 16A.1285.

112.3 (b) Proposed projects that require water in excess of 100 million gallons per year must  
112.4 be assessed fees to recover the costs incurred to evaluate the project and the costs incurred  
112.5 for environmental review. Fees collected under this paragraph must be credited to an account  
112.6 in the natural resources fund and are appropriated to the commissioner.

112.7 (c) The fee to apply for a permit to appropriate water, in addition to any fee under  
112.8 paragraph (b), is \$150. The application fee for a permit to construct or repair a dam that is  
112.9 subject to a dam safety inspection, to work in public waters, or to divert waters for mining  
112.10 must be at least \$1,200, but not more than \$12,000. The fee for a notification to request  
112.11 authorization to conduct a project under a general permit is \$400, except that the fee for a  
112.12 notification to request authorization to appropriate water under a general permit is \$100.

112.13 Sec. 76. Minnesota Statutes 2022, section 103G.315, subdivision 15, is amended to read:

112.14 Subd. 15. **Rules.** The commissioner shall adopt rules prescribing standards and criteria

112.17 Sec. 77. Minnesota Statutes 2023 Supplement, section 115.03, subdivision 1, is amended  
112.18 to read:

112.19 Subdivision 1. **Generally.** (a) The commissioner is given and charged with the following  
112.20 powers and duties:

112.21 (1) to administer and enforce all laws relating to the pollution of any of the waters of  
112.22 the state;

112.23 (2) to investigate the extent, character, and effect of the pollution of the waters of this  
112.24 state and to gather data and information necessary or desirable in the administration or  
112.25 enforcement of pollution laws, and to make such classification of the waters of the state as  
112.26 it may deem advisable;

112.27 (3) to establish and alter such reasonable pollution standards for any waters of the state  
112.28 in relation to the public use to which they are or may be put as it shall deem necessary for  
112.29 the purposes of this chapter and, with respect to the pollution of waters of the state, chapter  
112.30 116;

112.31 (4) to encourage waste treatment, including advanced waste treatment, instead of stream  
112.32 low-flow augmentation for dilution purposes to control and prevent pollution;

113.1 (5) to adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable  
113.2 orders, permits, variances, standards, rules, schedules of compliance, and stipulation  
113.3 agreements, under such conditions as it may prescribe, in order to prevent, control or abate  
113.4 water pollution, or for the installation or operation of disposal systems or parts thereof, or  
113.5 for other equipment and facilities:

113.6 (i) requiring the discontinuance of the discharge of sewage, industrial waste or other  
113.7 wastes into any waters of the state resulting in pollution in excess of the applicable pollution  
113.8 standard established under this chapter;

113.9 (ii) prohibiting or directing the abatement of any discharge of sewage, industrial waste,  
113.10 or other wastes, into any waters of the state or the deposit thereof or the discharge into any  
113.11 municipal disposal system where the same is likely to get into any waters of the state in  
113.12 violation of this chapter and, with respect to the pollution of waters of the state, chapter  
113.13 116, or standards or rules promulgated or permits issued pursuant thereto, and specifying  
113.14 the schedule of compliance within which such prohibition or abatement must be  
113.15 accomplished;

113.16 (iii) prohibiting the storage of any liquid or solid substance or other pollutant in a manner  
113.17 which does not reasonably assure proper retention against entry into any waters of the state  
113.18 that would be likely to pollute any waters of the state;

113.19 (iv) requiring the construction, installation, maintenance, and operation by any person  
113.20 of any disposal system or any part thereof, or other equipment and facilities, or the  
113.21 reconstruction, alteration, or enlargement of its existing disposal system or any part thereof,  
113.22 or the adoption of other remedial measures to prevent, control or abate any discharge or  
113.23 deposit of sewage, industrial waste or other wastes by any person;

113.24 (v) establishing, and from time to time revising, standards of performance for new sources  
113.25 taking into consideration, among other things, classes, types, sizes, and categories of sources,  
113.26 processes, pollution control technology, cost of achieving such effluent reduction, and any  
113.27 nonwater quality environmental impact and energy requirements. Said standards of  
113.28 performance for new sources shall encompass those standards for the control of the discharge  
113.29 of pollutants which reflect the greatest degree of effluent reduction which the agency  
113.30 determines to be achievable through application of the best available demonstrated control  
113.31 technology, processes, operating methods, or other alternatives, including, where practicable,  
113.32 a standard permitting no discharge of pollutants. New sources shall encompass buildings,  
113.33 structures, facilities, or installations from which there is or may be the discharge of pollutants,  
113.34 the construction of which is commenced after the publication by the agency of proposed

114.1 rules prescribing a standard of performance which will be applicable to such source.

114.2 Notwithstanding any other provision of the law of this state, any point source the construction  
114.3 of which is commenced after May 20, 1973, and which is so constructed as to meet all  
114.4 applicable standards of performance for new sources shall, consistent with and subject to  
114.5 the provisions of section 306(d) of the Amendments of 1972 to the Federal Water Pollution  
114.6 Control Act, not be subject to any more stringent standard of performance for new sources  
114.7 during a ten-year period beginning on the date of completion of such construction or during  
114.8 the period of depreciation or amortization of such facility for the purposes of section 167  
114.9 or 169, or both, of the Federal Internal Revenue Code of 1954, whichever period ends first.  
114.10 Construction shall encompass any placement, assembly, or installation of facilities or  
114.11 equipment, including contractual obligations to purchase such facilities or equipment, at  
114.12 the premises where such equipment will be used, including preparation work at such  
114.13 premises;

114.14 (vi) establishing and revising pretreatment standards to prevent or abate the discharge  
114.15 of any pollutant into any publicly owned disposal system, which pollutant interferes with,  
114.16 passes through, or otherwise is incompatible with such disposal system;

114.17 (vii) requiring the owner or operator of any disposal system or any point source to  
114.18 establish and maintain such records, make such reports, install, use, and maintain such  
114.19 monitoring equipment or methods, including where appropriate biological monitoring  
114.20 methods, sample such effluents in accordance with such methods, at such locations, at such  
114.21 intervals, and in such a manner as the agency shall prescribe, and providing such other  
114.22 information as the agency may reasonably require;

114.23 (viii) notwithstanding any other provision of this chapter, and with respect to the pollution  
114.24 of waters of the state, chapter 116, requiring the achievement of more stringent limitations  
114.25 than otherwise imposed by effluent limitations in order to meet any applicable water quality  
114.26 standard by establishing new effluent limitations, based upon section 115.01, subdivision  
114.27 13, clause (b), including alternative effluent control strategies for any point source or group  
114.28 of point sources to insure the integrity of water quality classifications, whenever the agency  
114.29 determines that discharges of pollutants from such point source or sources, with the  
114.30 application of effluent limitations required to comply with any standard of best available  
114.31 technology, would interfere with the attainment or maintenance of the water quality  
114.32 classification in a specific portion of the waters of the state. Prior to establishment of any  
114.33 such effluent limitation, the agency shall hold a public hearing to determine the relationship  
114.34 of the economic and social costs of achieving such limitation or limitations, including any  
114.35 economic or social dislocation in the affected community or communities, to the social and

115.1 economic benefits to be obtained and to determine whether or not such effluent limitation  
115.2 can be implemented with available technology or other alternative control strategies. If a  
115.3 person affected by such limitation demonstrates at such hearing that, whether or not such  
115.4 technology or other alternative control strategies are available, there is no reasonable  
115.5 relationship between the economic and social costs and the benefits to be obtained, such  
115.6 limitation shall not become effective and shall be adjusted as it applies to such person;

115.7 (ix) modifying, in its discretion, any requirement or limitation based upon best available  
115.8 technology with respect to any point source for which a permit application is filed after July  
115.9 1, 1977, upon a showing by the owner or operator of such point source satisfactory to the  
115.10 agency that such modified requirements will represent the maximum use of technology  
115.11 within the economic capability of the owner or operator and will result in reasonable further  
115.12 progress toward the elimination of the discharge of pollutants; and

115.13 (x) requiring that applicants for wastewater discharge permits evaluate in their  
115.14 applications the potential reuses of the discharged wastewater;

115.15 (6) to require to be submitted and to approve plans and specifications for disposal systems  
115.16 or point sources, or any part thereof and to inspect the construction thereof for compliance  
115.17 with the approved plans and specifications thereof;

115.18 (7) to prescribe and alter rules, not inconsistent with law, for the conduct of the agency  
115.19 and other matters within the scope of the powers granted to and imposed upon it by this  
115.20 chapter and, with respect to pollution of waters of the state, in chapter 116, provided that  
115.21 every rule affecting any other department or agency of the state or any person other than a  
115.22 member or employee of the agency shall be filed with the secretary of state;

115.23 (8) to conduct such investigations, issue such notices, public and otherwise, and hold  
115.24 such hearings as are necessary or which it may deem advisable for the discharge of its duties  
115.25 under this chapter and, with respect to the pollution of waters of the state, under chapter  
115.26 116, including, but not limited to, the issuance of permits, and to authorize any member,  
115.27 employee, or agent appointed by it to conduct such investigations or, issue such notices and  
115.28 hold such hearings;

115.29 (9) for the purpose of water pollution control planning by the state and pursuant to the  
115.30 Federal Water Pollution Control Act, as amended, to establish and revise planning areas,  
115.31 adopt plans and programs and continuing planning processes, including, but not limited to,  
115.32 basin plans and areawide waste treatment management plans, and to provide for the  
115.33 implementation of any such plans by means of, including, but not limited to, standards, plan

116.1 elements, procedures for revision, intergovernmental cooperation, residual treatment process  
116.2 waste controls, and needs inventory and ranking for construction of disposal systems;

116.3 (10) to train water pollution control personnel and charge training fees as are necessary  
116.4 to cover the agency's costs. All such fees received must be paid into the state treasury and  
116.5 credited to the Pollution Control Agency training account;

116.6 (11) to provide chloride reduction training and charge training fees as necessary to cover  
116.7 the agency's costs not to exceed \$350. All training fees received must be paid into the state  
116.8 treasury and credited to the Pollution Control Agency training account;

116.9 (12) to impose as additional conditions in permits to publicly owned disposal systems  
116.10 appropriate measures to insure compliance by industrial and other users with any pretreatment  
116.11 standard, including, but not limited to, those related to toxic pollutants, and any system of  
116.12 user charges ratably as is hereby required under state law or said Federal Water Pollution  
116.13 Control Act, as amended, or any regulations or guidelines promulgated thereunder;

116.14 (13) to set a period not to exceed five years for the duration of any national pollutant  
116.15 discharge elimination system permit or not to exceed ten years for any permit issued as a  
116.16 state disposal system permit only;

116.17 (14) to require each governmental subdivision identified as a permittee for a wastewater  
116.18 treatment works to evaluate in every odd-numbered year the condition of its existing system  
116.19 and identify future capital improvements that will be needed to attain or maintain compliance  
116.20 with a national pollutant discharge elimination system or state disposal system permit; ~~and~~

116.21 (15) to train subsurface sewage treatment system personnel, including persons who  
116.22 design, construct, install, inspect, service, and operate subsurface sewage treatment systems,  
116.23 and charge fees as necessary to pay the agency's costs. All fees received must be paid into  
116.24 the state treasury and credited to the agency's training account. Money in the account is  
116.25 appropriated to the agency to pay expenses related to training; and

116.26 (16) to encourage practices that enable the recovery and use of waste heat from  
116.27 wastewater treatment operations, in accordance with the federal Clean Water Act, United  
116.28 States Code, title 33, section 1281(e).

116.29 (b) The information required in paragraph (a), clause (14), must be submitted in every  
116.30 odd-numbered year to the commissioner on a form provided by the commissioner. The  
116.31 commissioner shall provide technical assistance if requested by the governmental subdivision.

116.32 (c) The powers and duties given the agency in this subdivision also apply to permits  
116.33 issued under chapter 114C.

117.1 **Sec. 78. [115A.412] WASTE COMPOSITION; INFORMATION REQUIRED.**

117.2 **Subdivision 1. Study required.** (a) Every two years, beginning in ..., the commissioner  
117.3 must direct the owners and operators at 20 percent of each of the following facility types  
117.4 to perform a waste composition study:

117.5 (1) mixed municipal solid waste land disposal facilities;

117.6 (2) industrial solid waste land disposal facilities;

117.7 (3) demolition debris land disposal facilities;

117.8 (4) resource recovery facilities;

117.9 (5) transfer stations; and

117.10 (6) other facilities identified by the commissioner.

117.11 (b) The waste composition study must be performed at the sole expense of each owner  
117.12 or operator as directed by the commissioner.

117.13 (c) When selecting facilities for waste composition studies, the commissioner must rotate  
117.14 the participants so that, over time, the studies cover the entirety of the facilities identified  
117.15 under paragraph (a). The commissioner must determine the time frame for each study in  
117.16 the two-year cycle. The owner or operator of each selected facility must complete the study  
117.17 within one year of being notified by the commissioner of selection to perform a waste  
117.18 composition study.

117.19 **Subd. 2. Study requirements.** (a) The commissioner must:

117.20 (1) determine the sampling methods to be used and the categories of materials to be  
117.21 sampled for waste composition studies; and

117.22 (2) provide the sampling methods and any additional requirements identified by the  
117.23 commissioner to each owner or operator directed to perform a study.

117.24 (b) The sampling methods must include the number of samples to be taken, the size or  
117.25 weight of each sample, the duration of a sampling event, the sampling interval, and any  
117.26 additional methods identified by the commissioner. The categories of materials to be sampled  
117.27 must include categories and subcategories identified by the commissioner to represent the  
117.28 materials present at each facility.

117.29 **Subd. 3. Report.** Within six months after completing a waste composition study required  
117.30 under this section, the owner or operator of a facility must submit the raw data and results  
117.31 of the study to the commissioner in a form and manner prescribed by the commissioner.

118.1 Subd. 4. **Compilation.** After each two-year cycle, the commissioner must compile and  
 118.2 summarize the waste composition data received under subdivision 3. The commissioner  
 118.3 must make the summary information available to the public.

118.4 Subd. 5. **Additional studies; information.** (a) The commissioner may conduct additional  
 118.5 waste composition studies at facilities described in subdivision 1.

118.6 (b) Upon request of the commissioner for purposes of determining compliance with this  
 118.7 section, a person must furnish to the commissioner any information that the person has or  
 118.8 may reasonably obtain.

118.9 (c) The owner or operator of a facility shall allow access upon reasonable notice to  
 118.10 authorized agency staff for the purpose of conducting waste composition studies.

118.11 Sec. 79. Minnesota Statutes 2022, section 115A.5502, is amended to read:

118.12 **115A.5502 PACKAGING PRACTICES; PREFERENCES; GOALS.**

118.13 Packaging forms a substantial portion of solid waste and contributes to environmental  
 118.14 degradation and the costs of managing solid waste. It is imperative to reduce the amount  
 118.15 and toxicity of packaging that must be managed as solid waste. In order to achieve significant  
 118.16 reduction of packaging in solid waste ~~and to assist packagers and others to meet the packaging~~  
 118.17 ~~reduction goal in section 115A.5501~~, the goal of the state is that items be distributed without  
 118.18 any packaging where feasible and, only when necessary to protect health and safety or  
 118.19 product integrity, with the minimal amount of packaging possible. The following categories  
 118.20 of packaging are listed in order of preference for use by all persons who find it necessary  
 118.21 to package items for distribution or use in the state:

118.22 (1) minimal packaging that contains no intentionally introduced toxic materials and that  
 118.23 is designed to be and actually is reused for its original purpose at least five times;

118.24 (2) minimal packaging that contains no intentionally introduced toxic materials and  
 118.25 consists of a significant percentage of postconsumer material;

118.26 (3) minimal packaging that contains no intentionally introduced toxic materials, that is  
 118.27 recyclable, and is regularly collected through recycling collection programs available to at  
 118.28 least 75 percent of the residents of the state;

118.29 (4) minimal packaging that does not comply with clause (1), (2), or (3) because it is  
 118.30 required under federal or state law and for which there does not exist a commercially feasible  
 118.31 alternative that does comply with clause (1), (2), or (3);

119.1 (5) packaging that contains no intentionally introduced toxic materials but does not  
119.2 comply with clauses (1) to (4); and  
119.3 (6) all other packaging.

119.4 Sec. 80. Minnesota Statutes 2022, section 116.0711, subdivision 1, is amended to read:

119.5 Subdivision 1. **Conditions.** (a) The agency shall not require feedlot permittees to maintain  
119.6 records as to rainfall or snowfall as a condition of a general feedlot permit if the owner  
119.7 directs the commissioner or agent of the commissioner to appropriate data on precipitation  
119.8 maintained by a government agency or educational institution.

119.9 (b) A feedlot permittee shall give notice to the agency when the permittee proposes to  
119.10 transfer ownership or control of the feedlot to a new party. The commissioner shall not  
119.11 unreasonably withhold or unreasonably delay approval of any transfer request. This request  
119.12 shall be handled in accordance with sections 116.07 and 15.992.

119.13 (c) An animal feedlot in shoreland that has been unused may resume operation after  
119.14 obtaining a permit from the agency or county, regardless of the number of years that the  
119.15 feedlot was unused.

119.16 (d) Notwithstanding Minnesota Rules, chapter 7020, a person who applies manure in a  
119.17 Level 2 or higher drinking water supply management area as designated under Minnesota  
119.18 Rules, part 1573.0040, must follow a manure management plan approved by the  
119.19 commissioner. A manure management plan for a Level 2 or higher drinking water supply  
119.20 management area must include the Department of Agriculture's recommended best

120.11 (2) help coordinate climate adaptation planning, implementation, and evaluation efforts  
120.12 among state agencies, local government units, Tribal governments, and other relevant  
120.13 organizations; and

120.14 (3) address inequities due to social, economic, historical, and political factors that result  
120.15 in some communities having less ability to prepare for, cope with, and recover from impacts  
120.16 of climate change.

120.17 (b) To address inequities under paragraph (a), clause (3), the commissioner must seek  
120.18 input and collaboration from disproportionately impacted communities.

 121.18 or contractor under this subdivision to the extent of the grantee's or contractor's liability  
 121.19 insurance. The grantee's or contractor's right to indemnity is not a waiver of limitations,  
 121.20 defenses, and immunities available to either the grantee or contractor or the state by law.

121.21 Subd. 6. **Award for excellence in community resilience.** The governor or commissioner  
 121.22 may issue annual awards in the form of a commendation for excellence in climate adaptation

(d) If upon full hearing the managers find that the benefits resulting from the construction or implementation will be greater than the assessments including damages they shall confirm the appraisers' report.

(e) Persons or political subdivisions affected by the order may appeal the order under this chapter.

Subd. 6. **Assessments and levies.** Proceedings for assessments and levies may be brought under section 103D.901 after the managers file a statement with the auditor of a county that lists the property and corporations benefited or damaged or otherwise affected by a project as found by the appraisers and approved by the managers.

- (5) state that a hearing will be held by the managers on the appraisers' report at the time and place specified in the notice.

(c) After the managers have confirmed the appraisers' report listing the property to be benefited or damaged as provided in subdivision 5, the managers have all rights of possession and entry conferred in other cases of condemnation by chapter 117.

(d) After confirmation of the appraisers' report, the attorney for the managers shall make a certificate describing the property taken and the purpose for the taking, and reciting the fact of payment of all awards determined by the appraisers appointed by the managers or judgments in relation to the land. When approved by the managers, the certificate establishes the right of the watershed district in the property taken. The certificate must be filed for record with the county recorder of the county where the property is located. The filing constitutes notice to all parties of the title of the watershed district to the property described in the certificate.

(e) After the certificate is filed, the managers may convey the property and interests in the property acquired to the federal government, if necessary.

Subdivision 1. **Statewide reduction goal.** It is the goal of the state that there be a minimum 25 percent statewide per capita reduction in the amount of discarded packaging delivered to facilities by December 31, 1995, based on a reasonable estimate of the amount of packaging that was delivered to facilities in calendar year 1992.

Subd. 2. **Measurement; procedures.** (a) To measure the overall percentage of packaging in the statewide solid waste stream, the commissioner shall conduct annual solid waste composition studies in the nonmetropolitan and metropolitan areas or shall develop an alternative method that is as statistically reliable as a waste composition study to measure the percentage of packaging in the waste stream.

(b) The commissioner shall average the nonmetropolitan and metropolitan results and submit the statewide percentage, along with a statistically reliable margin of error, to the senate and house of representatives committees having jurisdiction over environment and natural resources and environment and natural resources finance by July 1 of each year. The 1994 report must include a discussion of the reliability of data gathered under this subdivision and the methodology used to determine a statistically reliable margin of error.

Subd. 3. **Access; waste composition studies.** The owner or operator of a facility shall allow access upon reasonable notice to authorized agency staff for the purpose of conducting waste composition studies or otherwise assessing the amount of total packaging in the waste delivered to the facility under this section.

By July 1, 1996, the commissioner shall submit to the Legislative Commission on Waste Management an analysis of the extent to which the waste packaging reduction goal in subdivision 1 has been met. In determining whether the goal has been met, the margin of error must be applied in favor of meeting the goal. The commissioner shall use the statistical mean for the data collected in determining whether the goal has been met and shall include in the analysis a discussion of the margin of error and statistical reliability for the data collected.

Subd. 5. **Recommendations for further reduction goals.** If the goal in subdivision 1 is met, the commissioner shall include in the report required in subdivision 4 recommendations for

#### **8400.3110 DURATION OF CONSERVATION EASEMENTS.**

For purposes of the RIM reserve program, a conservation easement may be permanent or of limited duration. A conservation easement acquired on restorable drained wetlands, replacement wetlands, or land for highway windbreak purposes, must be of permanent duration. A conservation easement of limited duration may be acquired on other eligible land within a district if it is for a period not less than 20 years and only if the state board has approved enrollment of limited duration conservation easements in that district.

All permanent wetlands preserve program conservation easements must be of permanent duration.

#### **8400.3210 DELEGATION OF PROGRAM TO ANOTHER DISTRICT.**

A district board may enter into an agreement with other district boards as authorized by Minnesota Statutes, section 103C.231, to delegate to another district board the responsibility for administering any conservation easement program of the state board. Where such delegation has been mutually agreed upon, each district board must so notify all landowners in their respective district and each district must so notify the state board.

#### **8400.3260 LAND IN MORE THAN ONE DISTRICT.**

If an application involves land in more than one district, the participating districts may jointly delegate to one of the districts the responsibility for review and prioritization of that application. If that application is accepted for enrollment, the affected districts may also jointly delegate to one of the districts the responsibility for completing all of the tasks necessary for conveyance of the conservation easement to the state board.

**8400.3300 CRITERIA FOR SCREENING COMMITTEE REVIEW OF APPLICATIONS.**

The state board may direct districts to utilize a local screening process or committee to prioritize local project areas or applications. The criteria for screening committee prioritization are as follows:

- A. consistency with the purpose and policy of the respective conservation easement program;
- B. the parcel's potential impact on reducing soil erosion and sedimentation, improving water quality, reducing flooding, and enhancing fish and wildlife habitat;
- C. compatibility with established priorities of the organizations and agencies participating in the screening process; and
- D. highest priority must be given to permanent easements pursuant to Minnesota Statutes, section 103F.515, subdivision 2, paragraph (e).

**8400.3400 CONSERVATION AGREEMENT FOR EASEMENT.**

The district board shall direct its staff or the district technical representative to develop conservation agreements as prescribed by the state board and in a recordable form for all approved applications which incorporate the minimum requirements stated in Minnesota Statutes, section 103F.515, subdivisions 4 and 5. In addition, each conservation agreement must require the landowner to:

- A. pay, when due, all taxes and assessments that may be levied against the easement area;
- B. remove any existing structures as required by the district board or the state board prior to the conveyance of the conservation easement with all associated costs being the responsibility of the landowner, and not place, erect, or construct any temporary or permanent structures on the easement area;
- C. remove any existing hazardous and toxic substances or any pollutants and contaminants prior to the conveyance of the conservation easement with all associated costs being the responsibility of the landowner, and not place such substances, pollutants, or contaminants on the easement area;
- D. properly seal all abandoned wells on the easement area prior to the conveyance of the conservation easement, with all associated costs being the responsibility of the landowner; and
- E. allow the state board and its employees and agents to enter the easement area for the purposes of inspection and enforcement of the terms and conditions of the conservation easement.

**8400.3460 TITLE REQUIREMENTS.**

The landowner must have good and marketable title that is insurable under a title insurance policy. In addition, the title must not be subject to any prior liens or encumbrances determined to be objectionable by the Attorney General. Objectionable title defects, liens, or encumbrances must be promptly removed or corrected by the landowner prior to easement conveyance.

**8400.3600 RENEWAL AND EXTENSION OF CONSERVATION EASEMENTS.**

- A. When a conservation easement of limited duration expires, a new conservation agreement and conservation easement for an additional period of not less than 20 years may be acquired by agreement of the state board and the landowner under the rules in force at that time. The state board may adjust payment rates as a result of renewing a conservation

agreement and conservation easement after examining the condition of the established cover, conservation practices, and land values.

B. The easement duration may be lengthened through mutual agreement of the current landowner with the state board, in consultation with the commissioners of agriculture and natural resources, if the state board determines that the changes are consistent with the purpose of the conservation easement program. When converting limited duration easements to permanent easements, the payment is the difference between the amount that would be paid per acre for the permanent easement as established for the most recent sign-up period and the amount already paid for the limited duration easement on the area.

#### **8400.3610 ALTERATION, RELEASE, OR TERMINATION OF CONSERVATION EASEMENTS.**

The state board may alter, release, or terminate a conservation easement after consultation with the commissioners of agriculture and natural resources. The board may alter, release, or terminate an easement only if the state board determines that the public interests and general welfare are better served by the alteration, release, or termination.

The state board must be provided the following information at least 30 days prior to a state board meeting, before the state board will consider a request to alter, release, or terminate a conservation easement:

A. a copy of the letter from the landowner to the district board justifying the change and identifying how the public interest and general welfare will be better served;

B. a letter from the district board recommending either approval or disapproval of the proposed change;

C. a letter from the Department of Natural Resources recommending either approval or disapproval of the proposed change; and

D. other supporting documents, including:

(1) an aerial photo identifying the requested change;

(2) a soil survey map of the area;

(3) cropping history information; and

(4) other pertinent documentation that will support the request.

The state board reserves the right to require special provisions to ensure at least equal resource value as a condition of approving the request. The state board must be compensated by the landowner for all damages and loss of benefits to the conservation easement and the state board may also require reimbursement for administrative expenses and costs incurred in the alteration, release, or termination of a conservation easement.

#### **8400.3630 APPROVED PRACTICES.**

Subpart 1. **Criteria.** Approved practices must have as their primary purpose the control of soil erosion or sedimentation, protection or improvement of water quality, reduction of flooding, or enhancement of fish and wildlife habitat. Approved practices may be further specified in the easement program policies or practice specifications. Practices that do not qualify as approved practices include, but are not limited to, Christmas tree plantations and fruit orchards. Food plots are not eligible for conservation easement program cost-sharing, but are considered an approved practice and, therefore, are allowed on enrolled acres as specified in the easement conservation plan.

Subp. 2. **Establishment of approved practices.** A landowner is responsible for the establishment of all approved practices on the easement area in accordance with the easement program practice specifications. Establishment of approved practices must be monitored by the district board or its delegate to ensure compliance with the conservation plan and the

conservation easement. Upon establishment or partial completion of an approved practice, a district technical representative shall certify whether or not the approved practice, in whole or part, has been satisfactorily performed.

#### **8400.3700 COST-SHARED PRACTICES.**

Subpart 1. **Approved practices eligible for cost-sharing.** The state board shall determine which approved practices are eligible for conservation easement program cost-sharing, consistent with the criteria as described in part 8400.3630, subpart 1.

##### **Subp. 2. Eligible costs for cost-shared practices.**

A. Upon satisfactory performance under part 8400.3630, subpart 2, the landowner shall present receipts or invoices to the district board, or its delegate, of the costs incurred in the installation of the cost-shared practice. The district board shall review the receipts or invoices to determine the costs eligible for conservation easement program payment. If the district board determines that the costs requested for reimbursement are reasonable and necessary, it shall recommend payment to the landowner by submitting certification of satisfactory performance and providing documentation of reimbursable practice costs to the state board on forms provided by the state board. If the district board determines that certain costs requested for reimbursement are not eligible or reasonable, it shall notify the landowner in writing of this determination. The landowner may request reconsideration of this determination by the district board within 30 days of receipt of the determination. If additional costs are determined to be eligible and reasonable, the district board shall then recommend payment for the approved amount. The state board reserves the right to approve whether costs requested for reimbursement are eligible and reasonable.

B. Eligible costs for approved practices are limited to those prescribed by the state board as allowed in Minnesota Statutes, section 103F.515, subdivision 6.

C. The state board reserves the right to approve and provide funding for cost-shared practices.

Subp. 3. **Payment for in-kind services.** In-kind services provided by the landowner including, but not limited to, earthwork, seedbed preparation, and seeding, may be credited to the landowner's share of the total cost of establishing the cost-shared practice. The district board shall credit only those costs it determines to be practical and reasonable and may approve receipts or invoices directly or through its delegate.

Subp. 4. **Funds from other sources.** Conservation easement program cost-sharing funds may be augmented by funds from other agencies, organizations, or individuals.

#### **8400.3730 FAILURE OF APPROVED PRACTICES.**

Subpart 1. **Cost-shared practices.** A landowner is not in violation of the conservation easement if the failure, in whole or part, of a cost-shared practice was caused by reasons beyond the landowner's control such as extreme weather conditions. In these instances, the district board may recommend to the state board that conservation easement program cost-sharing funds be encumbered for reestablishment of the cost-shared practice. The encumbrance must comply with the limits prescribed by the state board. In no case may a district board authorize conservation easement program financial assistance to a landowner for the reestablishment of cost-shared practices that were removed or altered by the landowner, or that have failed due to improper maintenance during the term of the conservation easement.

Subp. 2. **All other approved practices.** A landowner is not in violation of the conservation easement if the failure of approved practices was caused by reasons beyond the landowner's control.

**8400.3800 OPERATION AND MAINTENANCE.**

A landowner is responsible for the operation and maintenance of approved practices designated in the conservation plan.

**8400.3830 VIOLATIONS AND ENFORCEMENT.**

Subpart 1. **District board action.** The district board may take such measures as are necessary to ensure landowner compliance with the conservation agreement, conservation easement, and conservation plan. If the district board is unsuccessful at obtaining landowner compliance, the district board shall notify the state board of the violation and may recommend appropriate measures to be taken to correct violations.

Subp. 2. **State board action.** Upon notification or discovery of a violation of a conservation agreement, conservation easement, or conservation plan, the state board shall take action to resolve the violation.

A landowner who violates the terms of a conservation agreement, conservation easement, or conservation plan under this chapter, or induces, assists, or allows another to do so, is liable to the state for treble damages if the violation is willful or double damages if the violation is not willful. The amount of damages is the amount needed to make the state whole or the amount the landowner has gained due to the violation, whichever is greater.

If the state board is not successful in resolving the violation, it may request the state attorney general to commence legal action to enforce the conservation agreement, conservation easement, or conservation plan.

Subp. 3. **Attorney general action.** Upon request by the state board, the attorney general may commence an action for specific performances, injunctive relief, damages, including attorney fees, and any other appropriate relief to enforce Minnesota Statutes, sections 103F.501 to 103F.531 in district court in the county where all or part of the violation is alleged to have been committed, or where the landowner resides or has a principal place of business.

Conservation easements remain in effect even if maintenance violations have occurred.

**8400.3930 RECONSIDERATION AND APPEAL.**

Subpart 1. **Reconsideration by district board.** An affected landowner may request the district board to reconsider its:

A. recommendation or determination regarding that landowner's application for enrollment in a conservation easement program;

B. recommendation or determination to cancel that landowner's conservation agreement;

C. determination regarding that landowner's eligible and allowable costs to be reimbursed by the state board;

D. request to that landowner to correct any alleged noncompliant conditions regarding that landowner's enrolled easement area; or

E. recommendation to disapprove that landowner's request to change an enrolled easement area.

Subp. 2. **Time for reconsideration by district board.** A landowner requesting reconsideration under subpart 1 shall mail a written request to the district board within 15 days of receipt of notice of the district board's determination or recommendation of the matters specified in subpart 1. The request for reconsideration shall include the specific reasons for the request and evidence to support the landowner's claims. The district board shall notify the landowner in writing of its final recommendation and the reasons for the recommendation within 60 days of receipt of the landowner's request for reconsideration.

APPENDIX  
Repealed Minnesota Rules: S3631-1

Subp. 3. **Appeal to state board.** An affected landowner may appeal to the state board from a final recommendation made by the district board pursuant to subpart 2. The landowner shall mail a written appeal to the state board within 15 days after receipt of the district board's final recommendation. The appeal shall include the specific reasons for the request and evidence to support the landowner's claims. The state board shall notify in writing the landowner and the district board of its final decision and the reasons for the decision within 60 days of receipt of the landowner's appeal.
