## **SENATE** STATE OF MINNESOTA NINETY-FIRST SESSION

## S.F. No. 3884

 

 (SENATE AUTHORS: DIBBLE, Franzen, Marty and Wiklund)

 DATE
 D-PG
 OFFICIAL STATUS

 03/02/2020
 5127
 Introduction and first reading Referred to Health and Human Services Finance and Policy

1.1	A bill for an act
1.2 1.3	relating to health care; authorizing pharmacists to dispense preexposure prophylaxis and postexposure prophylaxis without a prescription; amending Minnesota Statutes 2018, section 151.37, by adding subdivisions; Minnesota Statutes 2019 Supplement,
1.4 1.5 1.6	sections 151.01, subdivision 27; 151.06, subdivision 6; 214.122; 256B.0625, subdivision 13; proposing coding for new law in Minnesota Statutes, chapter 62Q.
1.7	BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:
1.8	Section 1. [62Q.1842] PROHIBITION ON USE OF STEP THERAPY FOR
1.9	ANTIRETROVIRAL DRUGS.
1.10	Subdivision 1. Definitions. (a) For purposes of this section, the following definitions
1.11	<u>apply.</u>
1.12	(b) "Health plan" has the meaning given in section 62Q.01, subdivision 3, and includes
1.13	health coverage provided by a managed care plan or a county-based purchasing plan
1.14	participating in a public program under chapter 256B or 256L, or an integrated health
1.15	partnership under section 256B.0755.
1.16	(c) "Step therapy protocol" has the meaning given in section 62Q.184.
1.17	Subd. 2. Prohibition on use of step therapy protocols. (a) A health plan that covers
1.18	antiretroviral drugs that are medically necessary for the prevention of AIDS/HIV, including
1.19	preexposure prophylaxis and postexposure prophylaxis, must not limit or exclude coverage
1.20	for the antiretroviral drugs by requiring prior authorization or by requiring an enrollee to
1.21	follow a step therapy protocol, except as provided in paragraph (b).
1.22	(b) If the United States Food and Drug Administration has approved one or more
1.23	therapeutic equivalents of a drug, device, or product for the prevention of AIDS/HIV, a

	02/26/20	REVISOR	EM/LN	20-7489	as introduced
2.1	health plan is	s not required to c	over all of the ther	apeutically equivalent v	ersions without
2.2				uirement so long as at le	
2.3	therapeutical	ly equivalent vers	ion is covered witl	nout requiring prior auth	orization or the
2.4	use of a step	therapy protocol.			
2.5	Sec. 2. [62	Q.529] COVERA	GE FOR HIV PI	REEXPOSURE PROP	HYLAXIS AND
2.6	HIV POSTE	EXPOSURE PRO	OPHYLAXIS.		
2.7	(a) A hea	lth plan that provi	des prescription co	overage must provide co	verage for
2.8	preexposure	and postexposure	prophylaxis dispen	sed by a pharmacist und	er section 151.37,
2.9	subdivision 1	4 or 15, under the	same terms of cove	erage that would apply ha	d the prescription
2.10	drug been die	spensed according	to a valid prescrip	otion drug order.	
2.11	<u>(b)</u> A hea	lth plan is not req	uired to cover pree	xposure prophylaxis or	postexposure
2.12	prophylaxis i	if dispensed by an	out-of-network pl	narmacy unless the healt	h plan covers
2.13	prescription	drugs dispensed by	y out-of-network p	harmacies.	
2.14	<u>(c)</u> A hea	lth plan is not requ	uired to cover pree	xposure prophylaxis dis	pensed by a
2.15	pharmacist a	s authorized by se	ction 151.37, subd	ivision 14, if the enrolle	e has already
2.16	received a 60	-day supply within	n a two-year period	l unless the preexposure	prophylaxis drug
2.17	is dispensed	by the pharmacist	pursuant to a valid	l prescription drug order	<u>r.</u>
2.18	<u>(d)</u> A hea	lth plan company	must not prohibit	or permit a pharmacy be	enefit manager to
2.19	prohibit a ph	armacy provider f	rom dispensing pr	eexposure prophylaxis o	or postexposure
2.20	prophylaxis a	as a term or condit	tion of a pharmacy	in-network contract.	
2.21	Soo 2 Min	unasata Statutas 20	10 Supplement	ection 151.01, subdivisio	n 27 is amondod
2.21	to read:	inesota Statutes 20	19 Supplement, se		JII 27, 18 amenucu
2.22					
2.23	Subd. 27.	Practice of phar	macy. "Practice of	f pharmacy" means:	
2.24	(1) interp	retation and evalu	ation of prescription	on drug orders;	
2.25	(2) composition	ounding, labeling,	and dispensing dr	ugs and devices (except	labeling by a
2.26	manufacture	r or packager of no	nprescription drug	s or commercially packa	aged legend drugs
2.27	and devices)	•			
2.28	(3) partic	ipation in clinical	interpretations and	monitoring of drug ther	apy for assurance
2.29	of safe and e	ffective use of dru	gs, including the p	performance of laborator	ry tests that are
2.30	waived under	the federal Clinic	al Laboratory Impr	ovement Act of 1988, U	nited States Code,
2.31	title 42, sectio	on 263a et seq., pro	vided that a pharm	acist may interpret the res	sults of laboratory

3.1	tests but may modify drug therapy only pursuant to a protocol or collaborative practice
3.2	agreement;
3.3	(4) participation in drug and therapeutic device selection; drug administration for first
3.4	dosage and medical emergencies; intramuscular and subcutaneous administration used for
3.5	the treatment of alcohol or opioid dependence; drug regimen reviews; and drug or
3.6	drug-related research;
3.7	(5) drug administration, through intramuscular and subcutaneous administration used
3.8	to treat mental illnesses as permitted under the following conditions:
3.9	(i) upon the order of a prescriber and the prescriber is notified after administration is
3.10	complete; or
3.11	(ii) pursuant to a protocol or collaborative practice agreement as defined by section
3.12	151.01, subdivisions 27b and 27c, and participation in the initiation, management,
3.13	modification, administration, and discontinuation of drug therapy is according to the protocol
3.14	or collaborative practice agreement between the pharmacist and a dentist, optometrist,
3.15	physician, podiatrist, or veterinarian, or an advanced practice registered nurse authorized
3.16	to prescribe, dispense, and administer under section 148.235. Any changes in drug therapy
3.17	or medication administration made pursuant to a protocol or collaborative practice agreement
3.18	must be documented by the pharmacist in the patient's medical record or reported by the
3.19	pharmacist to a practitioner responsible for the patient's care;
3.20	(6) participation in administration of influenza vaccines to all eligible individuals six
3.21	years of age and older and all other vaccines to patients 13 years of age and older by written
3.22	protocol with a physician licensed under chapter 147, a physician assistant authorized to
3.23	prescribe drugs under chapter 147A, or an advanced practice registered nurse authorized to
3.24	prescribe drugs under section 148.235, provided that:
3.25	(i) the protocol includes, at a minimum:
3.26	(A) the name, dose, and route of each vaccine that may be given;
3.27	(B) the patient population for whom the vaccine may be given;
3.28	(C) contraindications and precautions to the vaccine;
3.29	(D) the procedure for handling an adverse reaction;
3.30	(E) the name, signature, and address of the physician, physician assistant, or advanced
3.31	practice registered nurse;

4.1 (F) a telephone number at which the physician, physician assistant, or advanced practice
4.2 registered nurse can be contacted; and

4.3 (G) the date and time period for which the protocol is valid;

4.4 (ii) the pharmacist has successfully completed a program approved by the Accreditation
4.5 Council for Pharmacy Education specifically for the administration of immunizations or a
4.6 program approved by the board;

4.7 (iii) the pharmacist utilizes the Minnesota Immunization Information Connection to
4.8 assess the immunization status of individuals prior to the administration of vaccines, except
4.9 when administering influenza vaccines to individuals age nine and older;

4.10 (iv) the pharmacist reports the administration of the immunization to the Minnesota4.11 Immunization Information Connection; and

(v) the pharmacist complies with guidelines for vaccines and immunizations established 4.12 by the federal Advisory Committee on Immunization Practices, except that a pharmacist 4.13 does not need to comply with those portions of the guidelines that establish immunization 4.14 schedules when administering a vaccine pursuant to a valid, patient-specific order issued 4.15 by a physician licensed under chapter 147, a physician assistant authorized to prescribe 4.16 drugs under chapter 147A, or an advanced practice nurse authorized to prescribe drugs 4.17 under section 148.235, provided that the order is consistent with the United States Food 4.18 and Drug Administration approved labeling of the vaccine; 4.19

(7) participation in the initiation, management, modification, and discontinuation of 4.20 drug therapy according to a written protocol or collaborative practice agreement between: 4.21 (i) one or more pharmacists and one or more dentists, optometrists, physicians, podiatrists, 4.22 or veterinarians; or (ii) one or more pharmacists and one or more physician assistants 4.23 authorized to prescribe, dispense, and administer under chapter 147A, or advanced practice 4.24 nurses authorized to prescribe, dispense, and administer under section 148.235. Any changes 4.25 in drug therapy made pursuant to a protocol or collaborative practice agreement must be 4.26 documented by the pharmacist in the patient's medical record or reported by the pharmacist 4.27 to a practitioner responsible for the patient's care; 4.28

4.29 (8) participation in the storage of drugs and the maintenance of records;

4.30 (9) patient counseling on therapeutic values, content, hazards, and uses of drugs and
4.31 devices;

4.32 (10) offering or performing those acts, services, operations, or transactions necessary
4.33 in the conduct, operation, management, and control of a pharmacy; and

5.1	(11) participation in the initiation, management, modification, and discontinuation of
5.2	therapy with opiate antagonists, as defined in section 604A.04, subdivision 1, pursuant to:
5.3	(i) a written protocol as allowed under clause (6); or
5.4	(ii) a written protocol with a community health board medical consultant or a practitioner
5.5	designated by the commissioner of health, as allowed under section 151.37, subdivision 13;
5.6	and
5.7	(12) the administration of HIV preexposure prophylaxis and HIV postexposure
5.8	prophylaxis as authorized under section 151.37, subdivision 14 or 15.
5.9	Sec. 4. Minnesota Statutes 2019 Supplement, section 151.06, subdivision 6, is amended
5.10	to read:
5.10	to read.
5.11	Subd. 6. Information provision; sources of lower cost prescription drugs. (a) The
5.12	board shall publish a page on its website that provides regularly updated information
5.13	concerning:
5.14	(1) patient assistance programs offered by drug manufacturers, including information
5.15	on how to access the programs;
5.16	(2) the prescription drug assistance program established by the Minnesota Board of
5.17	Aging under section 256.975, subdivision 9;
5.18	(3) the websites through which individuals can access information concerning eligibility
5.19	for and enrollment in Medicare, medical assistance, MinnesotaCare, and other
5.20	government-funded programs that help pay for the cost of health care;
5.21	(4) availability of providers that are authorized to participate under section 340b of the
5.22	federal Public Health Services Act, United States Code, title 42, section 256b;
5.23	(5) having a discussion with the pharmacist or the consumer's health care provider about
5.24	alternatives to a prescribed drug, including a lower cost or generic drug if the drug prescribed
5.25	is too costly for the consumer; and
5.26	(6) information on the availability of preexposure and postexposure prophylaxis, including
5.27	how to obtain these drugs with or without a prescription, in accordance with section 151.37,
5.28	subdivision 14 or 15; and
5.29	(7) any other resource that the board deems useful to individuals who are attempting to

5.30 purchase prescription drugs at lower costs.

6.1	(b) The board must prepare educational materials, including brochures and posters, based
6.2	on the information it provides on its website under paragraph (a). The materials must be in
6.3	a form that can be downloaded from the board's website and used for patient education by
6.4	pharmacists and by health care practitioners who are licensed to prescribe. The board is not
6.5	required to provide printed copies of these materials.
6.6	(c) The board shall require pharmacists and pharmacies to make available to patients
6.7	information on sources of lower cost prescription drugs, including information on the
6.8	availability of the website established under paragraph (a).
6.9	Sec. 5. Minnesota Statutes 2018, section 151.37, is amended by adding a subdivision to
6.10	read:
6.11	Subd. 14. HIV preexposure prophylaxis. (a) For purposes of this subdivision, the
6.12	following definitions apply:
6.13	(1) "preexposure prophylaxis" means a fixed dose combination of tenofovir disoproxil
6.14	fumarate (TDF) (300 milligrams) with emtricitabine (FTC) (200 milligrams), or another
6.15	drug or drug combination determined by the board to meet the same clinical eligibility
6.16	recommendations provided in United States Centers for Disease Control and Prevention
6.17	(CDC) guidelines; and
6.18	(2) "CDC guidelines" means the "2017 Preexposure Prophylaxis for the Prevention of
6.19	HIV Infection in the United States-2017 Update: A Clinical Practice Guidelines" or any
6.20	subsequent guidelines published by the CDC.
6.21	(b) A pharmacist may dispense HIV preexposure prophylaxis without a prescription
6.22	drug order in accordance with this subdivision.
6.23	(c) Before dispensing a preexposure prophylaxis to a patient, a pharmacist must complete
6.24	a training program approved by the board on the use of preexposure prophylaxis and
6.25	postexposure prophylaxis. The training program must include information on financial
6.26	assistance programs for preexposure prophylaxis and postexposure prophylaxis, including
6.27	patient assistance programs offered by drug manufacturers and the AIDS drug assistance
6.28	program administered by the Department of Human Services. The board must approve a
6.29	training program in consultation with the Board of Medical Practice, the commissioners of
6.30	human services and health, and other relevant stakeholders by January 1, 2021.
6.31	(d) If a pharmacist completes the training program required under paragraph (c), the
6.32	pharmacist may dispense a preexposure prophylaxis to a patient if the patient:

7.1	(1) is HIV negative, as documented by a negative HIV test result obtained within the
7.2	previous seven days from an HIV antigen/antibody test, an antibody only test, or a rapid,
7.3	point-of-care finger stick blood test approved by the United States Food and Drug
7.4	Administration. If the test results are not provided directly to the pharmacist, the pharmacist
7.5	must verify the test results to the pharmacist's satisfaction. If the patient does not provide
7.6	evidence of a negative HIV test in accordance with this clause, the pharmacist must either
7.7	administer an HIV test to the patient or provide the patient with information on where to
7.8	locally obtain an HIV test. If the pharmacist does not receive documentation of a negative
7.9	HIV test to the satisfaction of the pharmacist, the pharmacist may dispense up to a ten-day
7.10	supply of preexposure prophylaxis to the patient if the patient satisfies clauses (2) and (3).
7.11	If the patient tests positive for HIV, the pharmacist must direct the patient to the patient's
7.12	primary care provider. If the patient does not have a primary care provider, the pharmacist
7.13	must provide the patient with a list of local providers and clinics;
7.14	(2) does not report any signs or symptoms of acute HIV infection on a self-reported
7.15	checklist of acute HIV infection signs and symptoms; and
7.16	(3) does not report taking any contraindicated medications.
7.17	(e) The pharmacist must provide counseling to the patient on the ongoing use of
7.17 7.18	(e) The pharmacist must provide counseling to the patient on the ongoing use of preexposure prophylaxis. The counseling may include education on possible side effects,
7.18	preexposure prophylaxis. The counseling may include education on possible side effects,
7.18 7.19	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the
7.18 7.19 7.20	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis
<ul><li>7.18</li><li>7.19</li><li>7.20</li><li>7.21</li></ul>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing
<ul><li>7.18</li><li>7.19</li><li>7.20</li><li>7.21</li><li>7.22</li></ul>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health
<ul> <li>7.18</li> <li>7.19</li> <li>7.20</li> <li>7.21</li> <li>7.22</li> <li>7.23</li> </ul>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health care provider to receive subsequent prescriptions of preexposure prophylaxis.
<ul> <li>7.18</li> <li>7.19</li> <li>7.20</li> <li>7.21</li> <li>7.22</li> <li>7.23</li> <li>7.24</li> </ul>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health care provider to receive subsequent prescriptions of preexposure prophylaxis. (f) After dispensing the preexposure prophylaxis to the patient, the pharmacist must,
<ol> <li>7.18</li> <li>7.19</li> <li>7.20</li> <li>7.21</li> <li>7.22</li> <li>7.23</li> <li>7.24</li> <li>7.25</li> </ol>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health care provider to receive subsequent prescriptions of preexposure prophylaxis. (f) After dispensing the preexposure prophylaxis to the patient, the pharmacist must, with the patient's consent, inform the patient's primary care provider that the pharmacist
<ol> <li>7.18</li> <li>7.19</li> <li>7.20</li> <li>7.21</li> <li>7.22</li> <li>7.23</li> <li>7.24</li> <li>7.25</li> <li>7.26</li> </ol>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health care provider to receive subsequent prescriptions of preexposure prophylaxis. (f) After dispensing the preexposure prophylaxis to the patient, the pharmacist must, with the patient's consent, inform the patient's primary care provider that the pharmacist has dispensed preexposure prophylaxis to the patient and has provided the required counseling
<ol> <li>7.18</li> <li>7.19</li> <li>7.20</li> <li>7.21</li> <li>7.22</li> <li>7.23</li> <li>7.24</li> <li>7.25</li> <li>7.26</li> <li>7.27</li> </ol>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health care provider to receive subsequent prescriptions of preexposure prophylaxis. (f) After dispensing the preexposure prophylaxis to the patient, the pharmacist must, with the patient's consent, inform the patient's primary care provider that the pharmacist has dispensed preexposure prophylaxis to the patient and has provided the required counseling in accordance with paragraph (e). If the patient does not have a primary care provider or
<ol> <li>7.18</li> <li>7.19</li> <li>7.20</li> <li>7.21</li> <li>7.22</li> <li>7.23</li> <li>7.24</li> <li>7.25</li> <li>7.26</li> <li>7.27</li> <li>7.28</li> </ol>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health care provider to receive subsequent prescriptions of preexposure prophylaxis. (f) After dispensing the preexposure prophylaxis to the patient, the pharmacist must, with the patient's consent, inform the patient's primary care provider that the pharmacist has dispensed preexposure prophylaxis to the patient and has provided the required counseling in accordance with paragraph (e). If the patient does not have a primary care provider or refuses consent to notify the patient's primary care provider, the pharmacist must provide
<ul> <li>7.18</li> <li>7.19</li> <li>7.20</li> <li>7.21</li> <li>7.22</li> <li>7.23</li> <li>7.24</li> <li>7.25</li> <li>7.26</li> <li>7.27</li> <li>7.28</li> <li>7.29</li> </ul>	preexposure prophylaxis. The counseling may include education on possible side effects, safety during pregnancy and breastfeeding, adherence to recommended dosing, and the importance of timely testing and treatment as applicable for HIV, renal function, hepatitis B, hepatitis C, sexually transmitted diseases, and pregnancy for patients of childbearing capacity. The pharmacist must inform the patient that the patient must be seen by a health care provider to receive subsequent prescriptions of preexposure prophylaxis. (f) After dispensing the preexposure prophylaxis to the patient, the pharmacist must, with the patient's consent, inform the patient's primary care provider that the pharmacist has dispensed preexposure prophylaxis to the patient and has provided the required counseling in accordance with paragraph (e). If the patient does not have a primary care provider or refuses consent to notify the patient's primary care provider, the pharmacist must provide the patient with a list of providers to contact regarding ongoing care for preexposure

	02/26/20	REVISOR	EM/LN	20-7489	as introduced
8.1	Sec. 6. Mi	innesota Statutes 20	18, section 151.3	7, is amended by adding	a subdivision to
8.2	read:				
8.3	<u>Subd. 15</u>	5. HIV postexposur	e prophylaxis. (a	a) For purposes of this su	bdivision, the
8.4	following d	efinitions apply:			
8.5	<u>(1) "pos</u>	texposure prophylax	tis" means any of	the following:	
8.6	(i) tenof	ovir disoproxil fuma	urate (TDF) (300 1	nilligrams) with emtricita	abine (FTC) (200
8.7	<u>milligrams)</u>	, taken once daily, in	combination wit	h either raltegravir (400 m	nilligrams), taken
8.8	twice daily,	or dolutegravir (50	milligrams), take	n once daily;	
8.9	(ii) tenot	fovir disoproxil fum	arate (TDF) (300	milligrams) and emtricita	abine (FTC) (200
8.10	milligrams)	, taken once daily, in	combination wit	h darunavir (800 milligra	ms) and ritonavir
8.11	<u>(100 millig</u>	rams), taken once da	uily; or		
8.12	(iii) anot	her drug or drug cor	nbination determ	ined by the board to meet	the same clinical
8.13	eligibility re	ecommendations pro	ovided in the CDO	C guidelines; and	
8.14	<u>(2)</u> "CD	C guidelines" means	s the "Updated G	uidelines for Antiretrovir	al Postexposure
8.15	Prophylaxis	After Sexual, Injec	tion Drug Use, or	Other Nonoccupational	Exposure to
8.16	HIV-United	l States, 2016" or an	y subsequent gui	delines published by the	CDC.
8.17	<u>(b)</u> A ph	armacist may disper	nse a postexposu	e prophylaxis without a	prescription drug
8.18	order in acc	ordance with this su	lbdivision.		
8.19	(c) Befor	re dispensing a poste	xposure prophyla	xis to a patient, a pharmac	ist must complete
8.20	a training p	rogram approved by	the board on the	use of preexposure prop	hylaxis and
8.21	postexposu	e prophylaxis. The	training program	must include information	n about financial
8.22	assistance p	rograms for preexpo	osure prophylaxis	and postexposure proph	ylaxis, including
8.23	patient assis	stance programs offe	ered by drug man	ufacturers and the AIDS	drug assistance
8.24	program ad	ministered by the De	epartment of Hur	nan Services. The board	must approve a
8.25	training pro	gram in consultation	n with the Board	of Medical Practice, the c	ommissioners of
8.26	human serv	ices and health, and	other relevant sta	akeholders by January 1,	2021.
8.27	<u>(d) If a p</u>	pharmacist complete	es the training pro	gram required under para	agraph (c), the
8.28	pharmacist	may dispense a com	plete course of p	ostexposure prophylaxis	to a patient after
8.29	the pharmad	eist:			
8.30	<u>(1) scree</u>	ens the patient and d	etermines that ex	posure occurred within the	ne previous 72
8.31	hours and th	e patient meets the c	elinical criteria for	postexposure prophylax	is consistent with
8.32	CDC guidel	ines; and			

02/26/20	REVISOR	EM/LN	20-7489	as introduced
----------	---------	-------	---------	---------------

9.1	(2) provides HIV testing to the patient that is classified as waived under the federal
9.2	Clinical Laboratory Improvement Amendments of 1988 (United States Code, title 42, section
9.3	263a) or the pharmacist determines that the patient is willing to undergo HIV testing
9.4	consistent with CDC guidelines. If the patient refuses to undergo HIV testing but is otherwise
9.5	eligible for postexposure prophylaxis under this subdivision, the pharmacist may dispense
9.6	postexposure prophylaxis to the patient.
9.7	(e) The pharmacist must provide counseling to the patient on the use of postexposure
9.8	prophylaxis consistent with CDC guidelines. The counseling may include education on
9.9	possible side effects, safety during pregnancy and breastfeeding, adherence to recommended
9.10	dosing, and the importance of timely testing and treatment for HIV and sexually transmitted
9.11	diseases. The pharmacist must inform the patient of the availability of preexposure
9.12	prophylaxis for individuals who are at substantial risk of acquiring HIV.
9.13	(f) After dispensing the postexposure prophylaxis to the patient, the pharmacist must,
9.14	with the patient's consent, inform the patient's primary care provider of the postexposure
9.15	prophylaxis treatment. If the patient does not have a primary care provider, or refuses consent
9.16	to notify the patient's primary care provider, the pharmacist must provide the patient with
9.17	a list of providers to contact regarding follow up care for postexposure prophylaxis. The
9.18	pharmacist must maintain a record of the services provided to the patient and the postexposure
9.19	prophylaxis dispensed to the patient. The record must be maintained in the same manner
9.20	required for prescription drug orders dispensed under this section.

9.21 Sec. 7. Minnesota Statutes 2019 Supplement, section 214.122, is amended to read:

## 9.22 214.122 INFORMATION PROVISION; PHARMACEUTICAL ASSISTANCE 9.23 PROGRAMS.

9.24 (a) The Board of Medical Practice and the Board of Nursing shall at least annually inform
9.25 licensees who are authorized to prescribe prescription drugs of the availability of the Board
9.26 of Pharmacy's website that contains information on resources and programs to assist patients
9.27 with the cost of prescription drugs. The boards shall provide licensees with the website
9.28 address established by the Board of Pharmacy under section 151.06, subdivision 6, and the
9.29 materials described under section 151.06, subdivision 6, paragraph (b).

9.30 (b) Licensees must make available to patients information on sources of lower cost
9.31 prescription drugs, including information on the availability of the website established by
9.32 the Board of Pharmacy under section 151.06, subdivision 6.

02/26/20 REVISOR EM/LN 20-7489 as i
-------------------------------------

as introduced

(c) The Board of Medical Practice and the Board of Nursing shall ensure that licensees
 are provided with information regarding the availability of preexposure or postexposure
 prophylaxis if the licensee has patients who are at high risk for HIV or may have been
 potentially exposed to HIV.

Sec. 8. Minnesota Statutes 2019 Supplement, section 256B.0625, subdivision 13, is
amended to read:

Subd. 13. Drugs. (a) Medical assistance covers drugs, except for fertility drugs when
specifically used to enhance fertility, if prescribed by a licensed practitioner and dispensed
by a licensed pharmacist, by a physician enrolled in the medical assistance program as a
dispensing physician, or by a physician, physician assistant, or a nurse practitioner employed
by or under contract with a community health board as defined in section 145A.02,
subdivision 5, for the purposes of communicable disease control.

10.13 (b) The dispensed quantity of a prescription drug must not exceed a 34-day supply,10.14 unless authorized by the commissioner.

(c) For the purpose of this subdivision and subdivision 13d, an "active pharmaceutical 10.15 10.16 ingredient" is defined as a substance that is represented for use in a drug and when used in the manufacturing, processing, or packaging of a drug becomes an active ingredient of the 10.17 drug product. An "excipient" is defined as an inert substance used as a diluent or vehicle 10.18 for a drug. The commissioner shall establish a list of active pharmaceutical ingredients and 10.19 excipients which are included in the medical assistance formulary. Medical assistance covers 10.20 10.21 selected active pharmaceutical ingredients and excipients used in compounded prescriptions when the compounded combination is specifically approved by the commissioner or when 10.22 a commercially available product: 10.23

10.24 (1) is not a therapeutic option for the patient;

10.25 (2) does not exist in the same combination of active ingredients in the same strengths10.26 as the compounded prescription; and

10.27 (3) cannot be used in place of the active pharmaceutical ingredient in the compounded10.28 prescription.

(d) Medical assistance covers the following over-the-counter drugs when prescribed by
a licensed practitioner or by a licensed pharmacist who meets standards established by the
commissioner, in consultation with the board of pharmacy: antacids, acetaminophen, family
planning products, aspirin, insulin, products for the treatment of lice, vitamins for adults
with documented vitamin deficiencies, vitamins for children under the age of seven and

pregnant or nursing women, and any other over-the-counter drug identified by the 11.1 commissioner, in consultation with the Formulary Committee, as necessary, appropriate, 11.2 and cost-effective for the treatment of certain specified chronic diseases, conditions, or 11.3 disorders, and this determination shall not be subject to the requirements of chapter 14. A 11.4 pharmacist may prescribe over-the-counter medications as provided under this paragraph 11.5 for purposes of receiving reimbursement under Medicaid. When prescribing over-the-counter 11.6 drugs under this paragraph, licensed pharmacists must consult with the recipient to determine 11.7 11.8 necessity, provide drug counseling, review drug therapy for potential adverse interactions, and make referrals as needed to other health care professionals. 11.9

(e) Effective January 1, 2006, medical assistance shall not cover drugs that are coverable 11.10 under Medicare Part D as defined in the Medicare Prescription Drug, Improvement, and 11.11 Modernization Act of 2003, Public Law 108-173, section 1860D-2(e), for individuals eligible 11.12 for drug coverage as defined in the Medicare Prescription Drug, Improvement, and 11.13 Modernization Act of 2003, Public Law 108-173, section 1860D-1(a)(3)(A). For these 11.14 individuals, medical assistance may cover drugs from the drug classes listed in United States 11.15 Code, title 42, section 1396r-8(d)(2), subject to this subdivision and subdivisions 13a to 11.16 13g, except that drugs listed in United States Code, title 42, section 1396r-8(d)(2)(E), shall 11.17 not be covered. 11.18

(f) Medical assistance covers drugs acquired through the federal 340B Drug Pricing
Program and dispensed by 340B covered entities and ambulatory pharmacies under common
ownership of the 340B covered entity. Medical assistance does not cover drugs acquired
through the federal 340B Drug Pricing Program and dispensed by 340B contract pharmacies.

(g) Notwithstanding paragraph (a), medical assistance covers preexposure prophylaxis
 dispensed by a licensed pharmacist in accordance with section 151.37, subdivision 14, and
 postexposure prophylaxis dispensed by a licensed pharmacist in accordance with section
 151.37, subdivision 15.
