22.3 Section 1. **[16A.967] LEWIS AND CLARK APPROPRIATION BONDS.**

22.4 Subdivision 1. **Definitions.** (a) The definitions in this subdivision apply to this

22.17 of this subdivision, the commissioner may sell and issue appropriation bonds of the state

22.18 under this section for public purposes as provided by law, including, in particular, the

22.26 section must provide for reimbursement to the state from any federal money provided for

22.27 the project, consistent with the Lewis and Clark Regional Water System, Inc., agreement.

23.21 made from or deposited as provided in the agreement or ancillary arrangement. The
23.22 determination of the commissioner included in an interest exchange agreement that the
23.23 agreement relates to an appropriation bond shall be conclusive.

23.24 (f) The commissioner may enter into written agreements or contracts relating to the
23.25 continuing disclosure of information necessary to comply with or facilitate the issuance
23.26 of appropriation bonds in accordance with federal securities laws, rules, and regulations,

23.29 with purchasers and holders of appropriation bonds set forth in the order or resolution
23.30 authorizing the issuance of the appropriation bonds, or a separate document authorized
23.31 by the order or resolution.

The commissioner may issue appropriation bonds for the purpose of refunding any appropriation bonds then outstanding, including the payment of any redemption premiums on the bonds, any interest accrued or to accrue to the redemption date, and costs related to the issuance and sale of the refunding bonds. The proceeds of any refunding bonds may, in the discretion of the commissioner, be applied to the purchase or payment at maturity of the appropriation bonds to be refunded, to the redemption of the outstanding appropriation bonds on any redemption date, or to pay interest on the refunding bonds and may, pending application, be placed in escrow to be applied to the purchase, payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under section 11A.24. The income earned or realized on the investment may also be applied to the payment of the appropriation bonds to be refunded or interest or premiums on the refunded appropriation bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been fully satisfied, any balance of the proceeds and any investment income may be returned to the general fund or, if applicable, the special appropriation Lewis and Clark bond proceeds fund for use in any lawful manner. All refunding bonds issued under this subdivision must be prepared, executed, delivered, and secured by appropriations in the same manner as the appropriation bonds to be refunded.

25.9 state to appropriate money sufficient to make debt service payments with respect to the
25.10 appropriation bonds in any fiscal year. Appropriation bonds shall be canceled and shall
25.11 no longer be outstanding on the earlier of (1) the first day of a fiscal year for which the

26.17 The Minnesota Amateur Sports Commission shall develop a plan to promote the
26.18 development of proposals for new statewide public ice facilities including proposals for
26.19 ice centers and matching grants based on the criteria in this section.

26.20 (a) For ice center proposals, the commission will give priority to proposals that
26.21 come from more than one local government unit. Institutions of higher education are not
26.22 eligible to receive a grant.

26.23 (b) The commission must give priority to grant applications for indoor air quality
26.24 improvements and projects that eliminate R-22. For purposes of this section:

26.25 (1) "indoor air quality improvements" means: (i) renovation or replacement of
26.26 heating, ventilating, and air conditioning systems in existing indoor ice arenas whose
26.27 ice resurfacing and ice edging equipment are not powered by electricity in order to
26.28 reduce concentrations of carbon monoxide and nitrogen dioxide; and (ii) acquisition of
26.29 zero-emission ice resurfacing and ice edging equipment. The new or renovated systems
26.30 may include continuous electronic air monitoring devices to automatically activate the
26.31 ventilation systems when the concentration of carbon monoxide or nitrogen dioxide
26.32 reaches a predetermined level; and

26.33 (2) "projects that eliminate R-22," means replacement of ice-making systems in
26.34 existing public facilities that use R-22 as a refrigerant, with systems that use alternative
26.35 non-ozone-depleting refrigerants.

(c) In the metropolitan area as defined in section 473.121, subdivision 2, the commission is encouraged to give priority to the following proposals:

- (1) proposals for construction of two or more ice sheets in a single new facility;
- (2) proposals for construction of an additional sheet of ice at an existing ice center;
- (3) proposals for construction of a new, single sheet of ice as part of a sports complex with multiple sports facilities; and
- (4) proposals for construction of a new, single sheet of ice that will be expanded to a two-sheet facility in the future.

(d) The commission shall administer a site selection process for the ice centers. The commission shall invite proposals from cities or counties or consortia of cities. A proposal for an ice center must include matching contributions including in-kind contributions of land, access roadways and access roadway improvements, and necessary utility services, landscaping, and parking.

(e) Proposals for ice centers and matching grants must provide for meeting the demand for ice time for female groups by offering up to 50 percent of prime ice time, as needed, to female groups. For purposes of this section, prime ice time means the hours of 4:00 p.m. to 10:00 p.m. Monday to Friday and 9:00 a.m. to 8:00 p.m. on Saturdays and Sundays.

(f) The location for all proposed facilities must be in areas of maximum demonstrated interest and must maximize accessibility to an arterial highway.

(g) To the extent possible, all proposed facilities must be dispersed equitably, must be located to maximize potential for full utilization and profitable operation, and must accommodate noncompetitive family and community skating for all ages.

(h) The commission may also use the money to upgrade current facilities, purchase girls' ice time, or conduct amateur women's hockey and other ice sport tournaments.

(i) To the extent possible, 50 percent of all grants must be awarded to communities in greater Minnesota.

(j) To the extent possible, technical assistance shall be provided to Minnesota communities by the commission on ice arena planning, design, and operation, including the marketing of ice time and on projects described in paragraph (b).

(k) A grant for new facilities may not exceed \$250,000.

(l) The commission may make grants for rehabilitation and renovation. A rehabilitation or renovation grant for air quality may not exceed \$200,000 and a rehabilitation or renovation grant for R-22 elimination may not exceed \$50,000 for indirect cooling systems and may not exceed \$400,000 for direct cooling systems. Priority

28.1 must be given to grant applications for indoor air quality improvements, including zero
28.2 emission ice resurfacing equipment, and for projects that eliminate R-22.

28.3 (m) Grant money may be used for ice centers designed for sports other than hockey.

28.4 (n) Grant money may be used to upgrade existing facilities to comply with the
28.5 bleacher safety requirements of section 326B.112.
