57.14 **137.61 PURPOSE.**

57.15 Sections 137.61 to 137.65 provide for a biomedical science research funding program  
57.16 to further the investment in biomedical science research facilities in Minnesota to benefit  
57.17 the state's economy, advance the biomedical technology industry, benefit human health,  
57.18 and facilitate research collaboration between the University of Minnesota and other private  
57.19 and public institutions in this state. Sections 137.61 to 137.65 also provide funding for  
57.20 design, land acquisition, site preparation, and preconstruction services for the new clinical

76.16 Subdivision 1. **Adoption of policy.** (a) The commissioner of transportation must develop,  
 76.17 adopt, and implement a policy for every program or process the commissioner uses to  
 76.18 evaluate, prioritize, or select capital projects; award grants for capital projects; or allocate  
 76.19 funding or resources for capital projects, including trunk highway and general obligation  
 76.20 bonds. At a minimum, the commissioner must adopt a policy for capital project selections  
 76.21 and programs for each of the following: rail grade separation program; greater Minnesota  
 76.22 transit capital program; state airport development program; safety improvements on crude  
 76.23 oil corridors; facilities capital improvement program; Minnesota rail service improvement

 76.25 developing, adopting, or implementing a policy for a program or selection process, the  
 76.26 commissioner must consult with the following entities, where appropriate: the Federal  
 76.27 Highway Administration; metropolitan planning organizations; regional development  
 76.28 commissions; area transportation partnerships; local governments; the Metropolitan Council;

 76.32 policy and updates on the department's website and through other effective means selected  
 76.33 by the commissioner.

77.1 (1) establish a process that identifies criteria, the weight of each criterion, and a process  
77.2 to score each project based on the weighted criteria. The scoring system may consider project  
77.3 readiness as a criterion for evaluation, but project readiness must not be a major factor in  
77.4 determining the final score;

77.5 (2) identify and apply all relevant criteria contained in enacted Minnesota or federal law,  
77.6 or added by the commissioner;

77.7 (3) identify for stakeholders and the general public the candidate project selected under  
77.8 each selection process and every project considered that was not selected;

77.9 (4) involve area transportation partnerships and other local authorities, as appropriate,  
77.10 in the process of scoring and ranking candidate projects under consideration;

77.11 (5) publicize scoring and decision outcomes concerning each candidate project, including  
77.12 the projects that were considered but not selected, and the reason each project was not  
77.13 selected; and

77.14 (6) require that the projects in the state transportation improvement program include the  
77.15 score assigned to the project.

77.16 (c) This section does not apply to the following: the safe routes to school program under  
77.17 Minnesota Statutes, section 174.40; the local bridge replacement program under Minnesota

77.22 or recondition the physical assets that make up the transportation system.

77.23 Subd. 2. **Report to legislature.** By February 1, 2022, the commissioner must submit a  
77.24 report to the chairs, ranking minority members, and staff of the legislative committees with  
77.25 jurisdiction over transportation policy and finance concerning the adopted policy and how  
77.26 the policy is anticipated to improve the consistency, objectivity, and transparency of the  
77.27 selection process. The report must include information on input from members of the public  
77.28 and the organizations identified in subdivision 1.

77.29 **EFFECTIVE DATE.** This section is effective the day following final enactment.
