4.4 Section 1. **[62J.811] PROVIDER BALANCE BILLING REQUIREMENTS.**

4.5 Subdivision 1. **Requirements.** (a) Each health provider and health facility shall comply
4.6 with Division BB, Title I of the Consolidated Appropriations Act, 2021, also known as the
4.7 "No Surprises Act," including any federal regulations adopted under that act, to the extent
4.8 that it imposes requirements that apply in this state but are not required under the laws of
4.9 this state. This section does not require compliance with any provision of the No Surprises
4.10 Act before January 1, 2022.

4.11 (b) For the purposes of this section, "provider" or "facility" means any health care
4.12 provider or facility pursuant to section 62A.63, subdivision 2, or 62J.03, subdivision 8, that
4.13 is subject to relevant provisions of the No Surprises Act.

4.14 Subd. 2. **Compliance and investigations.** (a) The commissioner of health shall, to the
4.15 extent practicable, seek the cooperation of health care providers and facilities in obtaining

4.17 (b) A person who believes a health care provider or facility has not complied with the
4.18 requirements of the No Surprises Act or this section may file a complaint with the
4.19 commissioner of health. Complaints filed under this section must be filed in writing, either
4.20 on paper or electronically. The commissioner may prescribe additional procedures for the
4.21 filing of complaints.

4.23 care providers and facilities are complying with this section.

4.24 (d) The commissioner shall investigate complaints filed under this section. The
4.25 commissioner may prioritize complaint investigations, compliance reviews, and the collection
4.26 of any possible civil monetary penalties under paragraph (g), clause (2), based on factors
4.27 such as repeat complaints or violations, the seriousness of the complaint or violation, and
4.28 other factors as determined by the commissioner.

4.29 (e) The commissioner shall inform the health care provider or facility of the complaint
4.30 or findings of a compliance review and shall provide an opportunity for the health care
4.31 provider or facility to submit information the health care provider or facility considers
4.32 relevant to further review and investigation of the complaint or the findings of the compliance

5.1 review. The health care provider or facility must submit any such information to the
5.2 commissioner within 30 days of receipt of notification of a complaint or compliance review
5.3 under this section.

5.4 (f) If, after reviewing any information described in paragraph (e) and the results of any
5.5 investigation, the commissioner determines that the provider or facility has not violated this
5.6 section, the commissioner shall notify the provider or facility as well as any relevant
5.7 complainant.

5.8 (g) If, after reviewing any information described in paragraph (e) and the results of any
5.9 investigation, the commissioner determines that the provider or facility is in violation of
5.10 this section, the commissioner shall notify the provider or facility and take the following
5.11 steps:

5.12 (1) in cases of noncompliance with this section, the commissioner shall first attempt to
5.13 achieve compliance through successful remediation on the part of the noncompliant provider
5.14 or facility including completion of a corrective action plan or other agreement; and

5.15 (2) if, after taking the action in clause (1) compliance has not been achieved, the
5.16 commissioner of health shall notify the provider or facility that the provider or facility is in
5.17 violation of this section and that the commissioner is imposing a civil monetary penalty. If
5.18 the commissioner determines that more than one health care provider or facility was
5.19 responsible for a violation, the commissioner may impose a civil money penalty against
5.20 each health care provider or facility. The amount of a civil money penalty shall be up to
5.21 \$100 for each violation, but shall not exceed \$25,000 for identical violations during a
5.22 calendar year; and

5.23 (3) no civil money penalty shall be imposed under this section for violations that occur
5.24 prior to January 1, 2023. Warnings must be issued and any compliance issues must be
5.25 referred to the federal government for enforcement pursuant to the federal No Surprises Act
5.26 or other applicable federal laws and regulations.

5.27 (h) A health care provider or facility may contest whether the finding of facts constitute
5.28 a violation of this section according to the contested case proceeding in sections 14.57 to
5.29 14.62, subject to appeal according to sections 14.63 to 14.68.

5.30 (i) When steps in paragraphs (b) to (h) have been completed as needed, the commissioner
5.31 shall notify the health care provider or facility and, if the matter arose from a complaint,
5.32 the complainant regarding the disposition of complaint or compliance review.

6.1 (j) Civil money penalties imposed and collected under this subdivision shall be deposited
6.2 into the general fund and are appropriated to the commissioner of health for the purposes
6.3 of this section, including the provision of compliance reviews and technical assistance.

6.4 (k) Any compliance and investigative action taken by the department under this section
6.5 shall only include potential violations that occur on or after the effective date of this section.

6.6 **EFFECTIVE DATE.** This section is effective the day following final enactment.

6.7 Sec. 2. Minnesota Statutes 2020, section 62Q.021, is amended by adding a subdivision to
6.8 read:

6.9 Subd. 3. **Compliance with 2021 federal law.** Each health plan company, health provider,
6.10 and health facility shall comply with Division BB, Title I of the Consolidated Appropriations
6.11 Act, 2021, also known as the "No Surprises Act," including any federal regulations adopted
6.12 under that act, to the extent that it imposes requirements that apply in this state but are not
6.13 required under the laws of this state. This section does not require compliance with any
6.14 provision of the No Surprises Act before the effective date provided for that provision in
6.15 the Consolidated Appropriations Act. The commissioner shall enforce this subdivision.

6.16 Sec. 3. Minnesota Statutes 2020, section 62Q.55, subdivision 5, is amended to read:

6.17 Subd. 5. **Coverage restrictions or limitations.** If emergency services are provided by
6.18 a nonparticipating provider, with or without prior authorization, the health plan company
6.19 shall not impose coverage restrictions or limitations that are more restrictive than apply to
6.20 emergency services received from a participating provider. Cost-sharing requirements that
6.21 apply to emergency services received out-of-network must be the same as the cost-sharing
6.22 requirements that apply to services received in-network and shall count toward the in-network
6.23 deductible. All coverage and charges for emergency services must comply with all
6.24 requirements of Division BB, Title I of the Consolidated Appropriations Act, 2021, including
6.25 any federal regulations adopted under that act.

6.26 Sec. 4. Minnesota Statutes 2020, section 62Q.556, is amended to read:

6.27 **62Q.556 UNAUTHORIZED PROVIDER SERVICES CONSUMER**
6.28 **PROTECTIONS AGAINST BALANCE BILLING.**

6.29 Subdivision 1. ~~Unauthorized provider services~~ **Nonparticipating provider balance**
6.30 **billing prohibition.** (a) Except as provided in paragraph ~~(e)~~ (b), ~~unauthorized provider~~
6.31 ~~services occur~~ balance billing is prohibited when an enrollee receives services:

7.1 (1) from a nonparticipating provider at a participating hospital or ambulatory surgical
7.2 center, ~~when the services are rendered:~~ as described by Division BB, Title I of the
7.3 Consolidated Appropriations Act, 2021, including any federal regulations adopted under
7.4 that act;

7.5 ~~(i) due to the unavailability of a participating provider;~~

7.6 ~~(ii) by a nonparticipating provider without the enrollee's knowledge; or~~

7.7 ~~(iii) due to the need for unforeseen services arising at the time the services are being~~
7.8 ~~rendered; or~~

7.9 (2) from a participating provider that sends a specimen taken from the enrollee in the
7.10 participating provider's practice setting to a nonparticipating laboratory, pathologist, or other
7.11 medical testing facility; or

7.12 ~~(b) Unauthorized provider services do not include emergency services as defined in~~
7.13 ~~section 62Q.55, subdivision 3.~~

7.14 (3) from a nonparticipating provider or facility providing emergency services as defined
7.15 in section 62Q.55, subdivision 3, and other services as described in the requirements of
7.16 Division BB, Title I of the Consolidated Appropriations Act, 2021, including any federal
7.17 regulations adopted under that act.

7.18 ~~(e)~~ (b) The services described in paragraph (a), ~~clause~~ clauses (1) and (2), as defined in
7.19 Division BB, Title I of the Consolidated Appropriations Act, 2021, and any federal
7.20 regulations adopted under that act, are not unauthorized provider services subject to balance
7.21 billing if the enrollee gives ~~advance written~~ informed consent ~~to the~~ prior to receiving
7.22 services from the nonparticipating provider acknowledging that the use of a provider, or
7.23 the services to be rendered, may result in costs not covered by the health plan. The informed
7.24 consent must comply with all requirements of Division BB, Title I of the Consolidated
7.25 Appropriations Act, 2021, including any federal regulations adopted under that act.

7.26 Subd. 2. ~~Prohibition~~ **Cost-sharing requirements and independent dispute**
7.27 **resolution.** (a) An enrollee's financial responsibility for the ~~unauthorized~~ nonparticipating
7.28 provider services described in subdivision 1, paragraph (a), shall be the same cost-sharing
7.29 requirements, including co-payments, deductibles, coinsurance, coverage restrictions, and
7.30 coverage limitations, as those applicable to services received by the enrollee from a
7.31 participating provider. A health plan company must apply any enrollee cost sharing
7.32 requirements, including co-payments, deductibles, and coinsurance, for unauthorized provider

8.1 services to the enrollee's annual out-of-pocket limit to the same extent payments to a
8.2 participating provider would be applied.

8.3 ~~(b) A health plan company must attempt to negotiate the reimbursement, less any~~
8.4 ~~applicable enrollee cost sharing under paragraph (a), for the unauthorized provider services~~
8.5 ~~with the nonparticipating provider. If a health plan company's and nonparticipating provider's~~
8.6 ~~attempts to negotiate reimbursement for the health care services do not result in a resolution,~~
8.7 ~~the health plan company or provider may elect to refer the matter for binding arbitration,~~
8.8 ~~chosen in accordance with paragraph (c). A nondisclosure agreement must be executed by~~
8.9 ~~both parties prior to engaging an arbitrator in accordance with this section. The cost of~~
8.10 ~~arbitration must be shared equally between the parties and nonparticipating provider shall~~
8.11 initiate open negotiations of disputed amounts. If there is no agreement, either party may
8.12 initiate the federal independent dispute resolution process pursuant to Division BB, Title I
8.13 of the Consolidated Appropriations Act, 2021, including any federal regulations adopted
8.14 under that act.

8.15 ~~(e) The commissioner of health, in consultation with the commissioner of the Bureau~~
8.16 ~~of Mediation Services, must develop a list of professionals qualified in arbitration, for the~~
8.17 ~~purpose of resolving disputes between a health plan company and nonparticipating provider~~
8.18 ~~arising from the payment for unauthorized provider services. The commissioner of health~~
8.19 ~~shall publish the list on the Department of Health website, and update the list as appropriate.~~

8.20 ~~(d) The arbitrator must consider relevant information, including the health plan company's~~
8.21 ~~payments to other nonparticipating providers for the same services, the circumstances and~~
8.22 ~~complexity of the particular case, and the usual and customary rate for the service based on~~
8.23 ~~information available in a database in a national, independent, not-for-profit corporation,~~
8.24 ~~and similar fees received by the provider for the same services from other health plans in~~
8.25 ~~which the provider is nonparticipating, in reaching a decision.~~

8.26 Subd. 3. Annual data reporting. (a) Beginning April 1, 2023, a health plan company
8.27 must report annually to the commissioner:

8.28 (1) the total number of claims and total billed and paid amount for nonparticipating
8.29 provider services, by service and provider type, submitted to the health plan in the prior
8.30 calendar year; and

8.31 (2) the total number of enrollee complaints received regarding the rights and protections
8.32 established by Division BB, Title I of the Consolidated Appropriations Act, 2021, including
8.33 any federal regulations adopted under that act, in the prior calendar year.

9.1 (b) The commissioners of commerce and health may develop the form and manner for
9.2 health plan companies to comply with paragraph (a).

9.3 Subd. 4. **Enforcement.** (a) Any provider or facility, including a health care provider or
9.4 facility pursuant to section 62A.63, subdivision 2, or 62J.03, subdivision 8, that is subject
9.5 to relevant provisions of the No Surprises Act is subject to the requirements of this section.

9.6 (b) The commissioner of commerce or health may enforce this section.

9.7 (c) If the commissioner of health has cause to believe that any hospital or facility licensed
9.8 under chapter 144 has violated this section, the commissioner may investigate, examine,
9.9 and otherwise enforce this section pursuant to chapter 144 or may refer the potential violation
9.10 to the relevant licensing board with regulatory authority over the provider.

9.11 (d) If a health-related licensing board has cause to believe that a provider has violated
9.12 this section, it may further investigate and enforce the provisions of this section pursuant
9.13 to chapter 214.

9.14 Sec. 5. Minnesota Statutes 2020, section 62Q.56, subdivision 2, is amended to read:

9.15 Subd. 2. **Change in health plans.** (a) If an enrollee is subject to a change in health plans,
9.16 the enrollee's new health plan company must provide, upon request, authorization to receive
9.17 services that are otherwise covered under the terms of the new health plan through the
9.18 enrollee's current provider:

9.19 (1) for up to 120 days if the enrollee is engaged in a current course of treatment for one
9.20 or more of the following conditions:

9.21 (i) an acute condition;

9.22 (ii) a life-threatening mental or physical illness;

9.23 (iii) pregnancy ~~beyond the first trimester of pregnancy;~~

9.24 (iv) a physical or mental disability defined as an inability to engage in one or more major
9.25 life activities, provided that the disability has lasted or can be expected to last for at least
9.26 one year, or can be expected to result in death; or

9.27 (v) a disabling or chronic condition that is in an acute phase; or

9.28 (2) for the rest of the enrollee's life if a physician certifies that the enrollee has an expected
9.29 lifetime of 180 days or less.

10.1 For all requests for authorization under this paragraph, the health plan company must grant
10.2 the request for authorization unless the enrollee does not meet the criteria provided in this
10.3 paragraph.

10.4 (b) The health plan company shall prepare a written plan that provides a process for
10.5 coverage determinations regarding continuity of care of up to 120 days for new enrollees
10.6 who request continuity of care with their former provider, if the new enrollee:

10.7 (1) is receiving culturally appropriate services and the health plan company does not
10.8 have a provider in its preferred provider network with special expertise in the delivery of
10.9 those culturally appropriate services within the time and distance requirements of section
10.10 62D.124, subdivision 1; or

10.11 (2) does not speak English and the health plan company does not have a provider in its
10.12 preferred provider network who can communicate with the enrollee, either directly or through
10.13 an interpreter, within the time and distance requirements of section 62D.124, subdivision
10.14 1.

10.15 The written plan must explain the criteria that will be used to determine whether a need for
10.16 continuity of care exists and how it will be provided.

10.17 (c) This subdivision applies only to group coverage and continuation and conversion
10.18 coverage, and applies only to changes in health plans made by the employer.

10.19 Sec. 6. Minnesota Statutes 2020, section 62Q.73, subdivision 7, is amended to read:

10.20 Subd. 7. **Standards of review.** (a) For an external review of any issue in an adverse
10.21 determination that does not require a medical necessity determination, the external review
10.22 must be based on whether the adverse determination was in compliance with the enrollee's
10.23 health benefit plan and any applicable state and federal law.

10.24 (b) For an external review of any issue in an adverse determination by a health plan
10.25 company licensed under chapter 62D that requires a medical necessity determination, the
10.26 external review must determine whether the adverse determination was consistent with the
10.27 definition of medically necessary care in Minnesota Rules, part 4685.0100, subpart 9b.

10.28 (c) For an external review of any issue in an adverse determination by a health plan
10.29 company, other than a health plan company licensed under chapter 62D, that requires a
10.30 medical necessity determination, the external review must determine whether the adverse
10.31 determination was consistent with the definition of medically necessary care in section
10.32 62Q.53, subdivision 2.

11.1 (d) For an external review of an adverse determination involving experimental or
11.2 investigational treatment, the external review entity must base its decision on all documents
11.3 submitted by the health plan company and enrollee, including medical records, the attending
11.4 physician, advanced practice registered nurse, or health care professional's recommendation,
11.5 consulting reports from health care professionals, the terms of coverage, federal Food and
11.6 Drug Administration approval, and medical or scientific evidence or evidence-based
11.7 standards.

11.8 Sec. 7. Minnesota Statutes 2020, section 62U.04, is amended by adding a subdivision to
11.9 read:

11.10 Subd. 5b. **Non-claims-based payments.** (a) Beginning in 2024, all health plan companies
11.11 and third-party administrators shall submit to a private entity designated by the commissioner
11.12 of health all non-claims-based payments made to health care providers. The data shall be
11.13 submitted in a form, manner, and frequency specified by the commissioner. Non-claims-based
11.14 payments are payments to health care providers designed to pay for value of health care
11.15 services over volume of health care services and include alternative payment models or
11.16 incentives, payments for infrastructure expenditures or investments, and payments for
11.17 workforce expenditures or investments. Non-claims-based payments submitted under this
11.18 subdivision must, to the extent possible, be attributed to a health care provider in the same
11.19 manner in which claims-based data are attributed to a health care provider and, where
11.20 appropriate, must be combined with data collected under subdivisions 4 and 5 in analyses
11.21 of health care spending.

11.22 (b) Data collected under this subdivision are nonpublic data as defined in section 13.02.
11.23 Notwithstanding the definition of summary data in section 13.02, subdivision 19, summary
11.24 data prepared under this subdivision may be derived from nonpublic data. The commissioner
11.25 shall establish procedures and safeguards to protect the integrity and confidentiality of any
11.26 data maintained by the commissioner.

11.27 (c) The commissioner shall consult with health plan companies, hospitals, and health
11.28 care providers in developing the data reported under this subdivision and standardized
11.29 reporting forms.

11.30 Sec. 8. Minnesota Statutes 2020, section 62U.04, subdivision 11, is amended to read:

11.31 Subd. 11. **Restricted uses of the all-payer claims data.** (a) Notwithstanding subdivision
11.32 4, paragraph (b), and subdivision 5, paragraph (b), the commissioner or the commissioner's

12.1 designee shall only use the data submitted under subdivisions 4 ~~and~~ 5, and 5b for the
12.2 following purposes:

12.3 (1) to evaluate the performance of the health care home program as authorized under
12.4 section 62U.03, subdivision 7;

12.5 (2) to study, in collaboration with the reducing avoidable readmissions effectively
12.6 (RARE) campaign, hospital readmission trends and rates;

12.7 (3) to analyze variations in health care costs, quality, utilization, and illness burden based
12.8 on geographical areas or populations;

12.9 (4) to evaluate the state innovation model (SIM) testing grant received by the Departments
12.10 of Health and Human Services, including the analysis of health care cost, quality, and
12.11 utilization baseline and trend information for targeted populations and communities; and

12.12 (5) to compile one or more public use files of summary data or tables that must:

12.13 (i) be available to the public for no or minimal cost by March 1, 2016, and available by
12.14 web-based electronic data download by June 30, 2019;

12.15 (ii) not identify individual patients, payers, or providers;

12.16 (iii) be updated by the commissioner, at least annually, with the most current data
12.17 available;

12.18 (iv) contain clear and conspicuous explanations of the characteristics of the data, such
12.19 as the dates of the data contained in the files, the absence of costs of care for uninsured
12.20 patients or nonresidents, and other disclaimers that provide appropriate context; and

12.21 (v) not lead to the collection of additional data elements beyond what is authorized under
12.22 this section as of June 30, 2015.

12.23 (b) The commissioner may publish the results of the authorized uses identified in
12.24 paragraph (a) so long as the data released publicly do not contain information or descriptions
12.25 in which the identity of individual hospitals, clinics, or other providers may be discerned.

12.26 (c) Nothing in this subdivision shall be construed to prohibit the commissioner from
12.27 using the data collected under subdivision 4 to complete the state-based risk adjustment
12.28 system assessment due to the legislature on October 1, 2015.

12.29 ~~(d) The commissioner or the commissioner's designee may use the data submitted under~~
12.30 ~~subdivisions 4 and 5 for the purpose described in paragraph (a), clause (3), until July 1,~~
12.31 ~~2023.~~

13.1 ~~(e)~~ (d) The commissioner shall consult with the all-payer claims database work group
13.2 established under subdivision 12 regarding the technical considerations necessary to create
13.3 the public use files of summary data described in paragraph (a), clause (5).

13.4 Sec. 9. Minnesota Statutes 2020, section 62U.10, subdivision 7, is amended to read:

13.5 Subd. 7. **Outcomes reporting; savings determination.** (a) ~~Beginning November 1,~~
13.6 ~~2016, and~~ Each November 1 ~~thereafter~~, the commissioner of health shall determine the
13.7 actual total private and public health care and long-term care spending for Minnesota
13.8 residents related to each health indicator projected in subdivision 6 for the most recent
13.9 calendar year available. The commissioner shall determine the difference between the
13.10 projected and actual spending for each health indicator and for each year, and determine
13.11 the savings attributable to changes in these health indicators. The assumptions and research
13.12 methods used to calculate actual spending must be determined to be appropriate by an
13.13 independent actuarial consultant. If the actual spending is less than the projected spending,
13.14 the commissioner, in consultation with the commissioners of human services and management
13.15 and budget, shall use the proportion of spending for state-administered health care programs
13.16 to total private and public health care spending for each health indicator for the calendar
13.17 year two years before the current calendar year to determine the percentage of the calculated
13.18 aggregate savings amount accruing to state-administered health care programs.

13.19 (b) The commissioner may use the data submitted under section 62U.04, subdivisions
13.20 4 ~~and~~, 5, and 5b, to complete the activities required under this section, but may only report
13.21 publicly on regional data aggregated to granularity of 25,000 lives or greater for this purpose.

13.22 Sec. 10. [115.7411] ADVISORY COUNCIL ON WATER SUPPLY SYSTEMS AND
13.23 WASTEWATER TREATMENT FACILITIES.

13.24 Subdivision 1. Purpose; membership. The advisory council on water supply systems
13.25 and wastewater treatment facilities shall advise the commissioners of health and the Pollution
13.26 Control Agency regarding classification of water supply systems and wastewater treatment
13.27 facilities, qualifications and competency evaluation of water supply system operators and
13.28 wastewater treatment facility operators, and additional laws, rules, and procedures that may
13.29 be desirable for regulating the operation of water supply systems and of wastewater treatment
13.30 facilities. The advisory council is composed of 11 voting members, of whom:

13.31 (1) one member must be from the Department of Health, Division of Environmental
13.32 Health, appointed by the commissioner of health;

14.1 (2) one member must be from the Pollution Control Agency, appointed by the
14.2 commissioner of the Pollution Control Agency;

14.3 (3) three members must be certified water supply system operators, appointed by the
14.4 commissioner of health, one of whom must represent a nonmunicipal community or
14.5 nontransient noncommunity water supply system;

14.6 (4) three members must be certified wastewater treatment facility operators, appointed
14.7 by the commissioner of the Pollution Control Agency;

14.8 (5) one member must be a representative from an organization representing municipalities,
14.9 appointed by the commissioner of health with the concurrence of the commissioner of the
14.10 Pollution Control Agency; and

14.11 (6) two members must be members of the public who are not associated with water
14.12 supply systems or wastewater treatment facilities. One must be appointed by the
14.13 commissioner of health and the other by the commissioner of the Pollution Control Agency.
14.14 Consideration should be given to one of these members being a representative of academia
14.15 knowledgeable in water or wastewater matters.

14.16 Subd. 2. **Geographic representation.** At least one of the water supply system operators
14.17 and at least one of the wastewater treatment facility operators must be from outside the
14.18 seven-county metropolitan area, and one wastewater treatment facility operator must be
14.19 from the Metropolitan Council.

14.20 Subd. 3. **Terms; compensation.** The terms of the appointed members and the
14.21 compensation and removal of all members are governed by section 15.059.

14.22 Subd. 4. **Officers.** When new members are appointed to the council, a chair must be
14.23 elected at the next council meeting. The Department of Health representative shall serve as
14.24 secretary of the council.

14.25 Sec. 11. Minnesota Statutes 2020, section 144.122, is amended to read:

14.26 **144.122 LICENSE, PERMIT, AND SURVEY FEES.**

14.27 (a) The state commissioner of health, by rule, may prescribe procedures and fees for
14.28 filing with the commissioner as prescribed by statute and for the issuance of original and
14.29 renewal permits, licenses, registrations, and certifications issued under authority of the
14.30 commissioner. The expiration dates of the various licenses, permits, registrations, and
14.31 certifications as prescribed by the rules shall be plainly marked thereon. Fees may include
14.32 application and examination fees and a penalty fee for renewal applications submitted after

15.1 the expiration date of the previously issued permit, license, registration, and certification.
15.2 The commissioner may also prescribe, by rule, reduced fees for permits, licenses,
15.3 registrations, and certifications when the application therefor is submitted during the last
15.4 three months of the permit, license, registration, or certification period. Fees proposed to
15.5 be prescribed in the rules shall be first approved by the Department of Management and
15.6 Budget. All fees proposed to be prescribed in rules shall be reasonable. The fees shall be
15.7 in an amount so that the total fees collected by the commissioner will, where practical,
15.8 approximate the cost to the commissioner in administering the program. All fees collected
15.9 shall be deposited in the state treasury and credited to the state government special revenue
15.10 fund unless otherwise specifically appropriated by law for specific purposes.

15.11 (b) The commissioner may charge a fee for voluntary certification of medical laboratories
15.12 and environmental laboratories, and for environmental and medical laboratory services
15.13 provided by the department, without complying with paragraph (a) or chapter 14. Fees
15.14 charged for environment and medical laboratory services provided by the department must
15.15 be approximately equal to the costs of providing the services.

15.16 (c) The commissioner may develop a schedule of fees for diagnostic evaluations
15.17 conducted at clinics held by the services for children with disabilities program. All receipts
15.18 generated by the program are annually appropriated to the commissioner for use in the
15.19 maternal and child health program.

15.20 (d) The commissioner shall set license fees for hospitals and nursing homes that are not
15.21 boarding care homes at the following levels:

85.2 and ensure public safety.

85.3 (e) Commitments made by an applicant in the application for registration or registration
85.4 renewal, including but not limited to maintenance of a labor peace agreement, shall be an
85.5 ongoing material condition of maintaining a manufacturer registration.

89.16 about a patient participating in the program, except as provided in sections 152.22 to 152.37.

89.17 (g) No information contained in a report, document, or registry or obtained from a patient
89.18 or a Tribal medical cannabis program patient under sections 152.22 to 152.37 may be

89.20 with a proceeding involving a violation of sections 152.22 to 152.37.

89.21 (h) Notwithstanding section 13.09, any person who violates paragraph (e) or (f) is guilty
89.22 of a gross misdemeanor.

89.23 (i) An attorney may not be subject to disciplinary action by the Minnesota Supreme

89.25 to prospective or registered manufacturers or others related to activity that is no longer

89.27 providing legal assistance to a Tribal medical cannabis program.

89.28 (j) Possession of a registry verification or application for enrollment in the program by
89.29 a person entitled to possess or apply for enrollment in the registry program, or possession
89.30 of a verification or equivalent issued by a Tribal medical cannabis program by a person

90.1 Subd. 3. **Discrimination prohibited.** (a) No school or landlord may refuse to enroll or
90.2 lease to and may not otherwise penalize a person solely for the person's status as a patient
90.3 enrolled in the registry program under sections 152.22 to 152.37 or for the person's status
90.4 as a Tribal medical cannabis program patient enrolled in a Tribal medical cannabis program,
90.5 unless failing to do so would violate federal law or regulations or cause the school or landlord
90.6 to lose a monetary or licensing-related benefit under federal law or regulations.

90.7 (b) For the purposes of medical care, including organ transplants, a registry program
90.8 enrollee's use of medical cannabis under sections 152.22 to 152.37, or a Tribal medical
90.9 cannabis program patient's use of medical cannabis as authorized by the Tribal medical
90.10 cannabis program, is considered the equivalent of the authorized use of any other medication
90.11 used at the discretion of a physician or advanced practice registered nurse and does not
90.12 constitute the use of an illicit substance or otherwise disqualify a patient from needed medical
90.13 care.

90.14 (c) Unless a failure to do so would violate federal law or regulations or cause an employer
90.15 to lose a monetary or licensing-related benefit under federal law or regulations, an employer
90.16 may not discriminate against a person in hiring, termination, or any term or condition of
90.17 employment, or otherwise penalize a person, if the discrimination is based upon ~~either~~ any
90.18 of the following:

90.19 (1) the person's status as a patient enrolled in the registry program under sections 152.22
90.20 to 152.37; ~~or~~

90.21 (2) the person's status as a Tribal medical cannabis program patient enrolled in a Tribal
90.22 medical cannabis program; or

90.23 ~~(2)~~ (3) a patient's positive drug test for cannabis components or metabolites, unless the
90.24 patient used, possessed, or was impaired by medical cannabis on the premises of the place
90.25 of employment or during the hours of employment.

90.26 (d) An employee who is required to undergo employer drug testing pursuant to section
90.27 181.953 may present verification of enrollment in the patient registry or of enrollment in a
90.28 Tribal medical cannabis program as part of the employee's explanation under section 181.953,
90.29 subdivision 6.

90.30 (e) A person shall not be denied custody of a minor child or visitation rights or parenting
90.31 time with a minor child solely based on the person's status as a patient enrolled in the registry
90.32 program under sections 152.22 to 152.37 or on the person's status as a Tribal medical
90.33 cannabis program patient enrolled in a Tribal medical cannabis program. There shall be no
90.34 presumption of neglect or child endangerment for conduct allowed under sections 152.22

91.1 to 152.37 or under a Tribal medical cannabis program, unless the person's behavior is such
91.2 that it creates an unreasonable danger to the safety of the minor as established by clear and
91.3 convincing evidence.

91.4 Sec. 88. Minnesota Statutes 2020, section 152.33, subdivision 1, is amended to read:

91.5 Subdivision 1. **Intentional diversion; criminal penalty.** In addition to any other
91.6 applicable penalty in law, a manufacturer or an agent of a manufacturer who intentionally
91.7 transfers medical cannabis to a person other than another registered manufacturer, a patient,
91.8 a registered designated caregiver, a Tribal medical cannabis program patient, or, if listed
91.9 on the registry verification, a parent, legal guardian, or spouse of a patient is guilty of a
91.10 felony punishable by imprisonment for not more than two years or by payment of a fine of
91.11 not more than \$3,000, or both. A person convicted under this subdivision may not continue
91.12 to be affiliated with the manufacturer and is disqualified from further participation under
91.13 sections 152.22 to 152.37.

91.14 Sec. 89. Minnesota Statutes 2020, section 152.35, is amended to read:

91.15 **152.35 FEES; DEPOSIT OF REVENUE.**

91.16 (a) The commissioner shall collect an enrollment fee of ~~\$200~~ \$40 from patients enrolled
91.17 under ~~this section 152.27. If the patient provides evidence of receiving Social Security~~
91.18 ~~disability insurance (SSDI), Supplemental Security Income (SSI), veterans disability, or~~
91.19 ~~railroad disability payments, or being enrolled in medical assistance or MinnesotaCare, then~~
91.20 ~~the fee shall be \$50. For purposes of this section:~~

91.21 ~~(1) a patient is considered to receive SSDI if the patient was receiving SSDI at the time~~
91.22 ~~the patient was transitioned to retirement benefits by the United States Social Security~~
91.23 ~~Administration; and~~

91.24 ~~(2) veterans disability payments include VA dependency and indemnity compensation.~~
91.25 ~~Unless a patient provides evidence of receiving payments from or participating in one of~~

91.32 ~~\$20,000~~ \$10,000 from each entity submitting an application for registration as a medical

92.1 cannabis manufacturer. Revenue from the fee shall be deposited in the state treasury and
92.2 credited to the state government special revenue fund.

92.3 (c) The commissioner shall establish and collect an annual registration renewal fee from
92.4 a medical cannabis manufacturer equal to the cost of regulating and inspecting the
92.5 manufacturer ~~in that year~~ for the upcoming registration period. Revenue from the fee amount
92.6 shall be deposited in the state treasury and credited to the state government special revenue
92.7 fund.

92.8 (d) A medical cannabis manufacturer may charge patients enrolled in the registry program
92.9 a reasonable fee for costs associated with the operations of the manufacturer. The
92.10 manufacturer may establish a sliding scale of patient fees based upon a patient's household
92.11 income and may accept private donations to reduce patient fees.

92.12 Sec. 90. Laws 2021, First Special Session chapter 7, article 3, section 44, is amended to
92.13 read:

92.14 Sec. 44. **MENTAL HEALTH CULTURAL COMMUNITY CONTINUING**
92.15 **EDUCATION GRANT PROGRAM.**

92.16 (a) The commissioner of health shall develop a grant program, in consultation with the
92.17 relevant mental health licensing boards, to:

92.18 (1) provide for the continuing education necessary for social workers, marriage and
92.19 family therapists, psychologists, and professional clinical counselors to become supervisors
92.20 for individuals pursuing licensure in mental health professions;

92.21 (2) cover the costs when supervision is required for professionals becoming supervisors;
92.22 and

92.23 (3) cover the supervisory costs for mental health practitioners pursuing licensure at the
92.24 professional level.

92.25 (b) Social workers, marriage and family therapists, psychologists, and professional
92.26 clinical counselors obtaining continuing education and mental health practitioners needing
92.27 supervised hours to become licensed as professionals under this section must:

92.28 (1) be members of communities of color or underrepresented communities as defined
92.29 in Minnesota Statutes, section 148E.010, subdivision 20, or practice in a mental health
92.30 professional shortage area; and

93.1 (2) ~~work for community mental health providers and~~ agree to deliver at least 25 percent
93.2 of their yearly patient encounters to state public program enrollees or patients receiving

93.4 established by the United States Department of Health and Human Services under Code of
93.5 Federal Regulations, title 42, section 51, chapter 303.

93.6 Sec. 91. **BENEFIT AND COST ANALYSIS OF A UNIVERSAL HEALTH REFORM**
93.7 **PROPOSAL.**

93.8 Subdivision 1. **Contract for analysis of proposal.** The commissioner of health shall
93.9 contract with the University of Minnesota School of Public Health and the Carlson School
93.10 of Management to conduct an analysis of the benefits and costs of a legislative proposal for
93.11 a universal health care financing system and a similar analysis of the current health care
93.12 financing system to assist the state in comparing the proposal to the current system.

93.13 Subd. 2. **Proposal.** The commissioner of health, with input from the commissioners of
93.14 human services and commerce, shall submit to the University of Minnesota for analysis a
93.15 legislative proposal known as the Minnesota Health Plan that would offer a universal health
93.16 care plan designed to meet the following principles:

93.17 (1) ensure all Minnesotans are covered;

93.18 (2) cover all necessary care, including dental, vision and hearing, mental health, chemical
93.19 dependency treatment, prescription drugs, medical equipment and supplies, long-term care,
93.20 and home care; and

93.21 (3) allow patients to choose their doctors, hospitals, and other providers.

93.22 Subd. 3. **Proposal analysis.** (a) The analysis must measure the performance of both the
93.23 Minnesota Health Plan and the current health care financing system over a ten-year period
93.24 to contrast the impact on:

93.25 (1) the number of people covered versus the number of people who continue to lack
93.26 access to health care because of financial or other barriers, if any;

93.27 (2) the completeness of the coverage and the number of people lacking coverage for
93.28 dental, long-term care, medical equipment or supplies, vision and hearing, or other health
93.29 services that are not covered, if any;

93.30 (3) the adequacy of the coverage, the level of underinsured in the state, and whether
93.31 people with coverage can afford the care they need or whether cost prevents them from
93.32 accessing care;

94.1 (4) the timeliness and appropriateness of the care received and whether people turn to
94.2 inappropriate care such as emergency rooms because of a lack of proper care in accordance
94.3 with clinical guidelines; and

94.4 (5) total public and private health care spending in Minnesota under the current system
94.5 versus under the legislative proposal, including all spending by individuals, businesses, and
94.6 government. "Total public and private health care spending" means spending on all medical
94.7 care including but not limited to dental, vision and hearing, mental health, chemical
94.8 dependency treatment, prescription drugs, medical equipment and supplies, long-term care,
94.9 and home care, whether paid through premiums, co-pays and deductibles, other out-of-pocket
94.10 payments, or other funding from government, employers, or other sources. Total public and
94.11 private health care spending also includes the costs associated with administering, delivering,
94.12 and paying for the care. The costs of administering, delivering, and paying for the care
94.13 includes all expenses by insurers, providers, employers, individuals, and government to
94.14 select, negotiate, purchase, and administer insurance and care including but not limited to
94.15 coverage for health care, dental, long-term care, prescription drugs, medical expense portions
94.16 of workers compensation and automobile insurance, and the cost of administering and
94.17 paying for all health care products and services that are not covered by insurance. The
94.18 analysis of total health care spending shall examine whether there are savings or additional
94.19 costs under the legislative proposal compared to the existing system due to:

94.20 (i) reduced insurance, billing, underwriting, marketing, evaluation, and other
94.21 administrative functions including savings from global budgeting for hospitals and
94.22 institutional care instead of billing for individual services provided;

94.23 (ii) reduced prices on medical services and products including pharmaceuticals due to
94.24 price negotiations, if applicable under the proposal;

94.25 (iii) changes in utilization, better health outcomes, and reduced time away from work
94.26 due to prevention, early intervention, health-promoting activities, and to the extent possible

104.30 defined by the Long Term Care Facility Resident Assessment Instrument User's Manual,
104.31 version 3.0, or its successor issued by the Centers for Medicare and Medicaid Services. The
104.32 commissioner of health may substitute successor manuals or question and answer documents

105.26 of this assessment must be set on day eight after all therapy services have ended; and

105.27 (ii) isolation for an infectious disease has ended. If isolation was not coded on the most

164.19 (e) The commissioner shall require each medical cannabis manufacturer to contract with
164.20 an independent laboratory to test medical cannabis produced by the manufacturer. The

165.18 (5) supervise the participation of the health care practitioner in conducting patient
165.19 treatment and health records reporting in a manner that ensures stringent security and

165.24 undertaking any task under the influence of medical cannabis that would constitute negligence
165.25 or professional malpractice on the part of the patient; and

165.26 (7) conduct research and studies based on data from health records submitted to the
165.27 registry program and submit reports on intermediate or final research results to the legislature

180.14 (3) improve the quality and value of care for all Minnesotans, and for specific populations
180.15 adversely affected by health inequities.

180.16 Subd. 4. **Office of Patient Protection.** The board shall establish an Office of Patient
180.17 Protection, to be operational by January 1, 2024. The office shall assist consumers with
180.18 issues related to access and quality of health care, and advise the legislature on ways to
180.19 reduce consumer health care spending and improve consumer experiences by reducing
180.20 complexity for consumers.

180.21 Sec. 5. **[62J.90] HEALTH CARE SPENDING GROWTH TARGETS.**

180.22 Subdivision 1. **Establishment and administration.** The board shall establish and
180.23 administer the health care spending growth target program to limit health care spending
180.24 growth in the state, and shall report regularly to the legislature and the public on progress
180.25 toward these targets.

180.26 Subd. 2. **Methodology.** (a) The board shall develop a methodology to establish annual
180.27 health care spending growth targets and the economic indicators to be used in establishing
180.28 the initial and subsequent target levels.

180.29 (b) The health care spending growth target must:

180.30 (1) use a clear and operational definition of total state health care spending;

- 181.1 (2) promote a predictable and sustainable rate of growth for total health care spending
181.2 as measured by an established economic indicator, such as the rate of increase of the state's
181.3 economy or of the personal income of residents of this state, or a combination;
- 181.4 (3) define the health care markets and the entities to which the targets apply;
- 181.5 (4) take into consideration the potential for variability in targets across public and private
181.6 payers;
- 181.7 (5) account for the health status of patients; and
- 181.8 (6) incorporate specific benchmarks related to health equity.
- 181.9 (c) In developing, implementing, and evaluating the growth target program, the board
181.10 shall:
- 181.11 (1) consider the incorporation of quality of care and primary care spending goals;
- 181.12 (2) ensure that the program does not place a disproportionate burden on communities
181.13 most impacted by health disparities, the providers who primarily serve communities most
181.14 impacted by health disparities, or individuals who reside in rural areas or have high health
181.15 care needs;
- 181.16 (3) explicitly consider payment models that help ensure financial sustainability of rural
181.17 health care delivery systems and the ability to provide population health;
- 181.18 (4) allow setting growth targets that encourage an individual health care entity to serve
181.19 populations with greater health care risks by incorporating:
- 181.20 (i) a risk factor adjustment reflecting the health status of the entity's patient mix; and
- 181.21 (ii) an equity adjustment accounting for the social determinants of health and other
181.22 factors related to health equity for the entity's patient mix;
- 181.23 (5) ensure that growth targets:
- 181.24 (i) do not constrain the Minnesota health care workforce, including the need to provide
181.25 competitive wages and benefits;
- 181.26 (ii) do not limit the use of collective bargaining or place a floor or ceiling on health care
181.27 workforce compensation; and
- 181.28 (iii) promote workforce stability and maintain high-quality health care jobs; and
- 181.29 (6) consult with the advisory council and other stakeholders.

182.1 Subd. 3. **Data.** The board shall identify data to be used for tracking performance in
182.2 meeting the growth target and identify methods of data collection necessary for efficient
182.3 implementation by the board. In identifying data and methods, the board shall:

182.4 (1) consider the availability, timeliness, quality, and usefulness of existing data, including
182.5 the data collected under section 62U.04;

182.6 (2) assess the need for additional investments in data collection, data validation, or data
182.7 analysis capacity to support the board in performing its duties; and

182.8 (3) minimize the reporting burden to the extent possible.

182.9 Subd. 4. **Setting growth targets; related duties.** (a) The board, by June 15, 2023, and
182.10 by June 15 of each succeeding calendar year through June 15, 2027, shall establish annual
182.11 health care spending growth targets for the next calendar year consistent with the
182.12 requirements of this section. The board shall set annual health care spending growth targets
182.13 for the five-year period from January 1, 2024, through December 31, 2028.

182.14 (b) The board shall periodically review all components of the health care spending
182.15 growth target program methodology, economic indicators, and other factors. The board may
182.16 revise the annual spending growth targets after a public hearing, as appropriate. If the board
182.17 revises a spending growth target, the board must provide public notice at least 60 days
182.18 before the start of the calendar year to which the revised growth target will apply.

182.19 (c) The board, based on an analysis of drivers of health care spending and evidence from
182.20 public testimony, shall evaluate strategies and new policies, including the establishment of
182.21 accountability mechanisms, that are able to contribute to meeting growth targets and limiting
182.22 health care spending growth without increasing disparities in access to health care.

182.23 Subd. 5. **Hearings.** At least annually, the board shall hold public hearings to present
182.24 findings from spending growth target monitoring. The board shall also regularly hold public
182.25 hearings to take testimony from stakeholders on health care spending growth, setting and
182.26 revising health care spending growth targets, the impact of spending growth and growth
182.27 targets on health care access and quality, and as needed to perform the duties assigned under
182.28 section 62J.89, subdivisions 1, 2, and 3.

182.29 Sec. 6. **[62J.91] NOTICE TO HEALTH CARE ENTITIES.**

182.30 Subdivision 1. **Notice.** (a) The board shall provide notice to all health care entities that
182.31 have been identified by the board as exceeding the spending growth target for any given
182.32 year.

183.1 (b) For purposes of this section, "health care entity" must be defined by the board during
183.2 the development of the health care spending growth methodology. When developing this
183.3 methodology, the board shall consider a definition of health care entity that includes clinics,
183.4 hospitals, ambulatory surgical centers, physician organizations, accountable care
183.5 organizations, integrated provider and plan systems, and other entities defined by the board,
183.6 provided that physician organizations with a patient panel of 15,000 or fewer, or which
183.7 represent providers who collectively receive less than \$25,000,000 in annual net patient
183.8 service revenue from health plan companies and other payers, are exempt.

183.9 Subd. 2. **Performance improvement plans.** (a) The board shall establish and implement
183.10 procedures to assist health care entities to improve efficiency and reduce cost growth by
183.11 requiring some or all health care entities provided notice under subdivision 1 to file and
183.12 implement a performance improvement plan. The board shall provide written notice of this
183.13 requirement to health care entities.

183.14 (b) Within 45 days of receiving a notice of the requirement to file a performance
183.15 improvement plan, a health care entity shall:

183.16 (1) file a performance improvement plan with the board; or

183.17 (2) file an application with the board to waive the requirement to file a performance
183.18 improvement plan or extend the timeline for filing a performance improvement plan.

183.19 (c) The health care entity may file any documentation or supporting evidence with the
183.20 board to support the health care entity's application to waive or extend the timeline to file
183.21 a performance improvement plan. The board shall require the health care entity to submit
183.22 any other relevant information it deems necessary in considering the waiver or extension
183.23 application, provided that this information must be made public at the discretion of the
183.24 board. The board may waive or delay the requirement for a health care entity to file a
183.25 performance improvement plan in response to a waiver or extension request in light of all
183.26 information received from the health care entity, based on a consideration of the following
183.27 factors:

183.28 (1) the costs, price, and utilization trends of the health care entity over time, and any
183.29 demonstrated improvement in reducing per capita medical expenses adjusted by health
183.30 status;

183.31 (2) any ongoing strategies or investments that the health care entity is implementing to
183.32 improve future long-term efficiency and reduce cost growth;

184.1 (3) whether the factors that led to increased costs for the health care entity can reasonably
184.2 be considered to be unanticipated and outside of the control of the entity. These factors may
184.3 include but are not limited to age and other health status adjusted factors and other cost
184.4 inputs such as pharmaceutical expenses and medical device expenses;

184.5 (4) the overall financial condition of the health care entity; and

184.6 (5) any other factors the board considers relevant. If the board declines to waive or
184.7 extend the requirement for the health care entity to file a performance improvement plan,
184.8 the board shall provide written notice to the health care entity that its application for a waiver
184.9 or extension was denied and the health care entity shall file a performance improvement
184.10 plan.

184.11 (d) A health care entity shall file a performance improvement plan with the board:

184.12 (1) within 45 days of receipt of an initial notice;

184.13 (2) if the health care entity has requested a waiver or extension, within 45 days of receipt
184.14 of a notice that such waiver or extension has been denied; or

184.15 (3) if the health care entity is granted an extension, on the date given on the extension.

184.16 (e) The performance improvement plan must identify the causes of the entity's cost
184.17 growth and include but not be limited to specific strategies, adjustments, and action steps
184.18 the entity proposes to implement to improve cost performance. The proposed performance
184.19 improvement plan must include specific identifiable and measurable expected outcomes
184.20 and a timetable for implementation. The timetable for a performance improvement plan
184.21 must not exceed 18 months.

184.22 (f) The board shall approve any performance improvement plan it determines is
184.23 reasonably likely to address the underlying cause of the entity's cost growth and has a
184.24 reasonable expectation for successful implementation. If the board determines that the
184.25 performance improvement plan is unacceptable or incomplete, the board may provide
184.26 consultation on the criteria that have not been met and may allow an additional time period
184.27 of up to 30 calendar days for resubmission. Upon approval of the proposed performance
184.28 improvement plan, the board shall notify the health care entity to begin immediate
184.29 implementation of the performance improvement plan. The board shall provide public notice
184.30 on its website identifying that the health care entity is implementing a performance
184.31 improvement plan. All health care entities implementing an approved performance
184.32 improvement plan shall be subject to additional reporting requirements and compliance

185.1 monitoring, as determined by the board. The board shall provide assistance to the health
185.2 care entity in the successful implementation of the performance improvement plan.

185.3 (g) All health care entities shall in good faith work to implement the performance
185.4 improvement plan. At any point during the implementation of the performance improvement
185.5 plan, the health care entity may file amendments to the performance improvement plan,
185.6 subject to approval of the board. At the conclusion of the timetable established in the
185.7 performance improvement plan, the health care entity shall report to the board regarding
185.8 the outcome of the performance improvement plan. If the board determines the performance
185.9 improvement plan was not implemented successfully, the board shall:

185.10 (1) extend the implementation timetable of the existing performance improvement plan;

185.11 (2) approve amendments to the performance improvement plan as proposed by the health
185.12 care entity;

185.13 (3) require the health care entity to submit a new performance improvement plan; or

185.14 (4) waive or delay the requirement to file any additional performance improvement
185.15 plans.

185.16 (h) Upon the successful completion of the performance improvement plan, the board
185.17 shall remove the identity of the health care entity from the board's website. The board may
185.18 assist health care entities with implementing the performance improvement plans or otherwise
185.19 ensure compliance with this subdivision.

185.20 (i) If the board determines that a health care entity has:

185.21 (1) willfully neglected to file a performance improvement plan with the board within
185.22 45 days as required;

185.23 (2) failed to file an acceptable performance improvement plan in good faith with the
185.24 board;

185.25 (3) failed to implement the performance improvement plan in good faith; or

185.26 (4) knowingly failed to provide information required by this subdivision to the board or
185.27 knowingly provided false information, the board may assess a civil penalty to the health
185.28 care entity of not more than \$50,000. The board must only impose a civil penalty as a last
185.29 resort.

186.1 Sec. 7. **[62J.92] REPORTING REQUIREMENTS.**

186.2 **Subdivision 1. General requirement.** (a) The board shall present the reports required
186.3 by this section to the chairs and ranking members of the legislative committees with primary
186.4 jurisdiction over health care finance and policy. The board shall also make these reports
186.5 available to the public on the board's website.

186.6 (b) The board may contract with a third-party vendor for technical assistance in preparing
186.7 the reports.

186.8 **Subd. 2. Progress reports.** The board shall submit written progress updates about the
186.9 development and implementation of the health care spending growth target program by
186.10 February 15, 2024, and February 15, 2025. The updates must include reporting on board
186.11 membership and activities, program design decisions, planned timelines for implementation
186.12 of the program, and the progress of implementation. The reports must include the
186.13 methodological details underlying program design decisions.

186.14 **Subd. 3. Health care spending trends.** By December 15, 2024, and every December
186.15 15 thereafter, the board shall submit a report on health care spending trends and the health
186.16 care spending growth target program that includes:

186.17 (1) spending growth in aggregate and for entities subject to health care spending growth
186.18 targets relative to established target levels;

186.19 (2) findings from analyses of drivers of health care spending growth;

186.20 (3) estimates of the impact of health care spending growth on Minnesota residents,
186.21 including for communities most impacted by health disparities, related to their access to
186.22 insurance and care, value of health care, and the ability to pursue other spending priorities;

186.23 (4) the potential and observed impact of the health care growth targets on the financial
186.24 viability of the rural delivery system;

186.25 (5) changes under consideration for revising the methodology to monitor or set growth
186.26 targets;

186.27 (6) recommendations for initiatives to assist health care entities in meeting health care
186.28 spending growth targets, including broader and more transparent adoption of value-based
186.29 payment arrangements; and

186.30 (7) the number of health care entities whose spending growth exceeded growth targets,
186.31 information on performance improvement plans and the extent to which the plans were

187.1 completed, and any civil penalties imposed on health care entities related to noncompliance
187.2 with performance improvement plans and related requirements.

187.3 Sec. 8. Minnesota Statutes 2020, section 62U.04, subdivision 11, is amended to read:

187.4 Subd. 11. **Restricted uses of the all-payer claims data.** (a) Notwithstanding subdivision
187.5 4, paragraph (b), and subdivision 5, paragraph (b), the commissioner or the commissioner's
187.6 designee shall only use the data submitted under subdivisions 4 and 5 for the following
187.7 purposes:

187.8 (1) to evaluate the performance of the health care home program as authorized under
187.9 section 62U.03, subdivision 7;

187.10 (2) to study, in collaboration with the reducing avoidable readmissions effectively
187.11 (RARE) campaign, hospital readmission trends and rates;

187.12 (3) to analyze variations in health care costs, quality, utilization, and illness burden based
187.13 on geographical areas or populations;

187.14 (4) to evaluate the state innovation model (SIM) testing grant received by the Departments
187.15 of Health and Human Services, including the analysis of health care cost, quality, and
187.16 utilization baseline and trend information for targeted populations and communities; ~~and~~

187.17 (5) to compile one or more public use files of summary data or tables that must:

187.18 (i) be available to the public for no or minimal cost by March 1, 2016, and available by
187.19 web-based electronic data download by June 30, 2019;

187.20 (ii) not identify individual patients, payers, or providers;

187.21 (iii) be updated by the commissioner, at least annually, with the most current data
187.22 available;

187.23 (iv) contain clear and conspicuous explanations of the characteristics of the data, such
187.24 as the dates of the data contained in the files, the absence of costs of care for uninsured
187.25 patients or nonresidents, and other disclaimers that provide appropriate context; and

187.26 (v) not lead to the collection of additional data elements beyond what is authorized under
187.27 this section as of June 30, 2015; and

187.28 (6) to provide technical assistance to the Health Care Affordability Board to implement
187.29 sections 62J.86 to 62J.92.

188.1 (b) The commissioner may publish the results of the authorized uses identified in
188.2 paragraph (a) so long as the data released publicly do not contain information or descriptions
188.3 in which the identity of individual hospitals, clinics, or other providers may be discerned.

188.4 (c) Nothing in this subdivision shall be construed to prohibit the commissioner from
188.5 using the data collected under subdivision 4 to complete the state-based risk adjustment
188.6 system assessment due to the legislature on October 1, 2015.

188.7 (d) The commissioner or the commissioner's designee may use the data submitted under
188.8 subdivisions 4 and 5 for the purpose described in paragraph (a), clause (3), until July 1,
188.9 2023.

188.10 (e) The commissioner shall consult with the all-payer claims database work group
188.11 established under subdivision 12 regarding the technical considerations necessary to create
188.12 the public use files of summary data described in paragraph (a), clause (5).

188.13 Sec. 9. Minnesota Statutes 2020, section 256.01, is amended by adding a subdivision to
188.14 read:

188.15 Subd. 43. **Education on contraceptive options.** The commissioner shall require hospitals
188.16 and primary care providers serving medical assistance and MinnesotaCare enrollees to
188.17 develop and implement protocols to provide these enrollees, when appropriate, with
188.18 comprehensive and scientifically accurate information on the full range of contraceptive
188.19 options in a medically ethical, culturally competent, and noncoercive manner. The
188.20 information provided must be designed to assist enrollees in identifying the contraceptive
188.21 method that best meets their needs and the needs of their families. The protocol must specify
188.22 the enrollee categories to which this requirement will be applied, the process to be used,
188.23 and the information and resources to be provided. Hospitals and providers must make this
188.24 protocol available to the commissioner upon request.

188.25 Sec. 10. Minnesota Statutes 2020, section 256.969, is amended by adding a subdivision
188.26 to read:

188.27 Subd. 31. **Long-acting reversible contraceptives.** (a) The commissioner must provide
188.28 separate reimbursement to hospitals for long-acting reversible contraceptives provided
188.29 immediately postpartum in the inpatient hospital setting. This payment must be in addition
188.30 to the diagnostic related group (DRG) reimbursement for labor and delivery.

188.31 (b) The commissioner must require managed care and county-based purchasing plans
188.32 to comply with this subdivision when providing services to medical assistance enrollees.

189.1 **EFFECTIVE DATE.** This section is effective January 1, 2023.

189.2 Sec. 11. Minnesota Statutes 2020, section 256B.021, subdivision 4, is amended to read:

189.3 Subd. 4. **Projects.** The commissioner shall request permission and funding to further
189.4 the following initiatives.

189.5 (a) Health care delivery demonstration projects. This project involves testing alternative
189.6 payment and service delivery models in accordance with sections 256B.0755 and 256B.0756.
189.7 These demonstrations will allow the Minnesota Department of Human Services to engage
189.8 in alternative payment arrangements with provider organizations that provide services to a
189.9 specified patient population for an agreed upon total cost of care or risk/gain sharing payment
189.10 arrangement, but are not limited to these models of care delivery or payment. Quality of
189.11 care and patient experience will be measured and incorporated into payment models alongside
189.12 the cost of care. Demonstration sites should include Minnesota health care programs
189.13 fee-for-services recipients and managed care enrollees and support a robust primary care
189.14 model and improved care coordination for recipients.

189.15 (b) Promote personal responsibility and encourage and reward healthy outcomes. This
189.16 project provides Medicaid funding to provide individual and group incentives to encourage
189.17 healthy behavior, prevent the onset of chronic disease, and reward healthy outcomes. Focus
189.18 areas may include diabetes prevention and management, tobacco cessation, reducing weight,
189.19 lowering cholesterol, and lowering blood pressure.

189.20 (c) Encourage utilization of high quality, cost-effective care. This project creates
189.21 incentives ~~through Medicaid and MinnesotaCare enrollee cost-sharing and other means to~~
189.22 encourage the utilization of high-quality, low-cost, high-value providers, as determined by
189.23 the state's provider peer grouping initiative under section 62U.04.

189.24 (d) Adults without children. This proposal includes requesting federal authority to impose
189.25 a limit on assets for adults without children in medical assistance, as defined in section
189.26 256B.055, subdivision 15, who have a household income equal to or less than 75 percent
189.27 of the federal poverty limit, and to impose a 180-day durational residency requirement in
189.28 MinnesotaCare, consistent with section 256L.09, subdivision 4, for adults without children,
189.29 regardless of income.

189.30 (e) Empower and encourage work, housing, and independence. This project provides
189.31 services and supports for individuals who have an identified health or disabling condition
189.32 but are not yet certified as disabled, in order to delay or prevent permanent disability, reduce

190.1 the need for intensive health care and long-term care services and supports, and to help
190.2 maintain or obtain employment or assist in return to work. Benefits may include:

190.3 (1) coordination with health care homes or health care coordinators;

190.4 (2) assessment for wellness, housing needs, employment, planning, and goal setting;

190.5 (3) training services;

190.6 (4) job placement services;

190.7 (5) career counseling;

190.8 (6) benefit counseling;

190.9 (7) worker supports and coaching;

190.10 (8) assessment of workplace accommodations;

190.11 (9) transitional housing services; and

190.12 (10) assistance in maintaining housing.

190.13 (f) Redesign home and community-based services. This project realigns existing funding,
190.14 services, and supports for people with disabilities and older Minnesotans to ensure community
190.15 integration and a more sustainable service system. This may involve changes that promote
190.16 a range of services to flexibly respond to the following needs:

190.17 (1) provide people less expensive alternatives to medical assistance services;

190.18 (2) offer more flexible and updated community support services under the Medicaid
190.19 state plan;

190.20 (3) provide an individual budget and increased opportunity for self-direction;

190.21 (4) strengthen family and caregiver support services;

190.22 (5) allow persons to pool resources or save funds beyond a fiscal year to cover unexpected
190.23 needs or foster development of needed services;

190.24 (6) use of home and community-based waiver programs for people whose needs cannot
190.25 be met with the expanded Medicaid state plan community support service options;

190.26 (7) target access to residential care for those with higher needs;

190.27 (8) develop capacity within the community for crisis intervention and prevention;

190.28 (9) redesign case management;

191.1 (10) offer life planning services for families to plan for the future of their child with a
191.2 disability;

191.3 (11) enhance self-advocacy and life planning for people with disabilities;

191.4 (12) improve information and assistance to inform long-term care decisions; and

191.5 (13) increase quality assurance, performance measurement, and outcome-based
191.6 reimbursement.

191.7 This project may include different levels of long-term supports that allow seniors to remain
191.8 in their homes and communities, and expand care transitions from acute care to community
191.9 care to prevent hospitalizations and nursing home placement. The levels of support for
191.10 seniors may range from basic community services for those with lower needs, access to
191.11 residential services if a person has higher needs, and targets access to nursing home care to
191.12 those with rehabilitation or high medical needs. This may involve the establishment of
191.13 medical need thresholds to accommodate the level of support needed; provision of a
191.14 long-term care consultation to persons seeking residential services, regardless of payer
191.15 source; adjustment of incentives to providers and care coordination organizations to achieve
191.16 desired outcomes; and a required coordination with medical assistance basic care benefit
191.17 and Medicare/Medigap benefit. This proposal will improve access to housing and improve
191.18 capacity to maintain individuals in their existing home; adjust screening and assessment
191.19 tools, as needed; improve transition and relocation efforts; seek federal financial participation
191.20 for alternative care and essential community supports; and provide Medigap coverage for
191.21 people having lower needs.

191.22 (g) Coordinate and streamline services for people with complex needs, including those
191.23 with multiple diagnoses of physical, mental, and developmental conditions. This project
191.24 will coordinate and streamline medical assistance benefits for people with complex needs
191.25 and multiple diagnoses. It would include changes that:

191.26 (1) develop community-based service provider capacity to serve the needs of this group;

191.27 (2) build assessment and care coordination expertise specific to people with multiple
191.28 diagnoses;

191.29 (3) adopt service delivery models that allow coordinated access to a range of services
191.30 for people with complex needs;

191.31 (4) reduce administrative complexity;

191.32 (5) measure the improvements in the state's ability to respond to the needs of this
191.33 population; and

192.1 (6) increase the cost-effectiveness for the state budget.

192.2 (h) Implement nursing home level of care criteria. This project involves obtaining any
192.3 necessary federal approval in order to implement the changes to the level of care criteria in
192.4 section 144.0724, subdivision 11, and implement further changes necessary to achieve
192.5 reform of the home and community-based service system.

192.6 (i) Improve integration of Medicare and Medicaid. This project involves reducing
192.7 fragmentation in the health care delivery system to improve care for people eligible for both
192.8 Medicare and Medicaid, and to align fiscal incentives between primary, acute, and long-term
192.9 care. The proposal may include:

192.10 (1) requesting an exception to the new Medicare methodology for payment adjustment
192.11 for fully integrated special needs plans for dual eligible individuals;

192.12 (2) testing risk adjustment models that may be more favorable to capturing the needs of
192.13 frail dually eligible individuals;

192.14 (3) requesting an exemption from the Medicare bidding process for fully integrated
192.15 special needs plans for the dually eligible;

192.16 (4) modifying the Medicare bid process to recognize additional costs of health home
192.17 services; and

192.18 (5) requesting permission for risk-sharing and gain-sharing.

192.19 (j) Intensive residential treatment services. This project would involve providing intensive
192.20 residential treatment services for individuals who have serious mental illness and who have
192.21 other complex needs. This proposal would allow such individuals to remain in these settings
192.22 after mental health symptoms have stabilized, in order to maintain their mental health and
192.23 avoid more costly or unnecessary hospital or other residential care due to their other complex
192.24 conditions. The commissioner may pursue a specialized rate for projects created under this
192.25 section.

192.26 (k) Seek federal Medicaid matching funds for Anoka-Metro Regional Treatment Center
192.27 (AMRTC). This project involves seeking Medicaid reimbursement for medical services
192.28 provided to patients to AMRTC, including requesting a waiver of United States Code, title
192.29 42, section 1396d, which prohibits Medicaid reimbursement for expenditures for services
192.30 provided by hospitals with more than 16 beds that are primarily focused on the treatment
192.31 of mental illness. This waiver would allow AMRTC to serve as a statewide resource to
192.32 provide diagnostics and treatment for people with the most complex conditions.

193.1 (l) Waivers to allow Medicaid eligibility for children under age 21 receiving care in
193.2 residential facilities. This proposal would seek Medicaid reimbursement for any
193.3 Medicaid-covered service for children who are placed in residential settings that are
193.4 determined to be "institutions for mental diseases," under United States Code, title 42,
193.5 section 1396d.

202.18 (3) taxicabs that meet the requirements of this subdivision;

202.19 (4) public transit, as defined in section 174.22, subdivision 7; or

202.20 (5) not-for-hire vehicles, including volunteer drivers, as defined in section 65B.472,
202.21 subdivision 1, paragraph (h).

202.22 (c) Medical assistance covers nonemergency medical transportation provided by
202.23 nonemergency medical transportation providers enrolled in the Minnesota health care
202.24 programs. All nonemergency medical transportation providers must comply with the
202.25 operating standards for special transportation service as defined in sections 174.29 to 174.30
202.26 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the
202.27 commissioner and reported on the claim as the individual who provided the service. All
202.28 nonemergency medical transportation providers shall bill for nonemergency medical
202.29 transportation services in accordance with Minnesota health care programs criteria. Publicly
202.30 operated transit systems, volunteers, and not-for-hire vehicles are exempt from the
202.31 requirements outlined in this paragraph.

202.32 (d) An organization may be terminated, denied, or suspended from enrollment if:

203.1 (1) the provider has not initiated background studies on the individuals specified in
203.2 section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

203.3 (2) the provider has initiated background studies on the individuals specified in section
203.4 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

203.5 (i) the commissioner has sent the provider a notice that the individual has been
203.6 disqualified under section 245C.14; and

203.7 (ii) the individual has not received a disqualification set-aside specific to the special
203.8 transportation services provider under sections 245C.22 and 245C.23.

203.9 (e) The administrative agency of nonemergency medical transportation must:

203.10 (1) adhere to the policies defined by the commissioner in consultation with the
203.11 Nonemergency Medical Transportation Advisory Committee;

203.12 (2) pay nonemergency medical transportation providers for services provided to
203.13 Minnesota health care programs beneficiaries to obtain covered medical services;

203.14 (3) provide data monthly to the commissioner on appeals, complaints, no-shows, canceled
203.15 trips, and number of trips by mode; and

203.16 (4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single
203.17 administrative structure assessment tool that meets the technical requirements established
203.18 by the commissioner, reconciles trip information with claims being submitted by providers,
203.19 and ensures prompt payment for nonemergency medical transportation services.

203.20 (f) Until the commissioner implements the single administrative structure and delivery
203.21 system under subdivision 18e, clients shall obtain their level-of-service certificate from the
203.22 commissioner or an entity approved by the commissioner that does not dispatch rides for
203.23 clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).

203.24 (g) The commissioner may use an order by the recipient's attending physician, advanced
203.25 practice registered nurse, or a medical or mental health professional to certify that the
203.26 recipient requires nonemergency medical transportation services. Nonemergency medical
203.27 transportation providers shall perform driver-assisted services for eligible individuals, when
203.28 appropriate. Driver-assisted service includes passenger pickup at and return to the individual's
203.29 residence or place of business, assistance with admittance of the individual to the medical
203.30 facility, and assistance in passenger securement or in securing of wheelchairs, child seats,
203.31 or stretchers in the vehicle.

204.1 Nonemergency medical transportation providers must take clients to the health care
204.2 provider using the most direct route, and must not exceed 30 miles for a trip to a primary
204.3 care provider or 60 miles for a trip to a specialty care provider, unless the client receives
204.4 authorization from the local agency.

204.5 Nonemergency medical transportation providers may not bill for separate base rates for
204.6 the continuation of a trip beyond the original destination. Nonemergency medical
204.7 transportation providers must maintain trip logs, which include pickup and drop-off times,
204.8 signed by the medical provider or client, whichever is deemed most appropriate, attesting
204.9 to mileage traveled to obtain covered medical services. Clients requesting client mileage
204.10 reimbursement must sign the trip log attesting mileage traveled to obtain covered medical
204.11 services.

204.12 (h) The administrative agency shall use the level of service process established by the
204.13 commissioner in consultation with the Nonemergency Medical Transportation Advisory
204.14 Committee to determine the client's most appropriate mode of transportation. If public transit
204.15 or a certified transportation provider is not available to provide the appropriate service mode
204.16 for the client, the client may receive a onetime service upgrade.

204.17 (i) The covered modes of transportation are:

204.18 (1) client reimbursement, which includes client mileage reimbursement provided to
204.19 clients who have their own transportation, or to family or an acquaintance who provides
204.20 transportation to the client;

204.21 (2) volunteer transport, which includes transportation by volunteers using their own
204.22 vehicle;

204.23 (3) unassisted transport, which includes transportation provided to a client by a taxicab
204.24 or public transit. If a taxicab or public transit is not available, the client can receive
204.25 transportation from another nonemergency medical transportation provider;

204.26 (4) assisted transport, which includes transport provided to clients who require assistance
204.27 by a nonemergency medical transportation provider;

204.28 (5) lift-equipped/ramp transport, which includes transport provided to a client who is
204.29 dependent on a device and requires a nonemergency medical transportation provider with
204.30 a vehicle containing a lift or ramp;

204.31 (6) protected transport, which includes transport provided to a client who has received
204.32 a prescreening that has deemed other forms of transportation inappropriate and who requires
204.33 a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety

205.1 locks, a video recorder, and a transparent thermoplastic partition between the passenger and
205.2 the vehicle driver; and (ii) who is certified as a protected transport provider; and

205.3 (7) stretcher transport, which includes transport for a client in a prone or supine position
205.4 and requires a nonemergency medical transportation provider with a vehicle that can transport
205.5 a client in a prone or supine position.

205.6 (j) The local agency shall be the single administrative agency and shall administer and
205.7 reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the
205.8 commissioner has developed, made available, and funded the web-based single administrative
205.9 structure, assessment tool, and level of need assessment under subdivision 18e. The local
205.10 agency's financial obligation is limited to funds provided by the state or federal government.

205.11 (k) The commissioner shall:

205.12 (1) in consultation with the Nonemergency Medical Transportation Advisory Committee,
205.13 verify that the mode and use of nonemergency medical transportation is appropriate;

205.14 (2) verify that the client is going to an approved medical appointment; and

205.15 (3) investigate all complaints and appeals.

205.16 (l) The administrative agency shall pay for the services provided in this subdivision and
205.17 seek reimbursement from the commissioner, if appropriate. As vendors of medical care,
205.18 local agencies are subject to the provisions in section 256B.041, the sanctions and monetary
205.19 recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

205.20 (m) Payments for nonemergency medical transportation must be paid based on the client's
205.21 assessed mode under paragraph (h), not the type of vehicle used to provide the service. The
205.22 medical assistance reimbursement rates for nonemergency medical transportation services
205.23 that are payable by or on behalf of the commissioner for nonemergency medical
205.24 transportation services are:

205.25 (1) \$0.22 per mile for client reimbursement;

205.26 (2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer
205.27 transport;

205.28 (3) equivalent to the standard fare for unassisted transport when provided by public
205.29 transit, and \$11 for the base rate and \$1.30 per mile when provided by a nonemergency
205.30 medical transportation provider;

205.31 (4) \$13 for the base rate and \$1.30 per mile for assisted transport;

205.32 (5) \$18 for the base rate and \$1.55 per mile for lift-equipped/ramp transport;

206.1 (6) \$75 for the base rate and \$2.40 per mile for protected transport; and

206.2 (7) \$60 for the base rate and \$2.40 per mile for stretcher transport, and \$9 per trip for
206.3 an additional attendant if deemed medically necessary.

206.4 (n) The base rate for nonemergency medical transportation services in areas defined
206.5 under RUCA to be super rural is equal to 111.3 percent of the respective base rate in
206.6 paragraph (m), clauses (1) to (7). The mileage rate for nonemergency medical transportation
206.7 services in areas defined under RUCA to be rural or super rural areas is:

206.8 (1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage
206.9 rate in paragraph (m), clauses (1) to (7); and

206.10 (2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage
206.11 rate in paragraph (m), clauses (1) to (7).

206.12 (o) For purposes of reimbursement rates for nonemergency medical transportation
206.13 services under paragraphs (m) and (n), the zip code of the recipient's place of residence
206.14 shall determine whether the urban, rural, or super rural reimbursement rate applies.

206.15 (p) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means
206.16 a census-tract based classification system under which a geographical area is determined
206.17 to be urban, rural, or super rural.

206.18 (q) The commissioner, when determining reimbursement rates for nonemergency medical
206.19 transportation under paragraphs (m) and (n), shall exempt all modes of transportation listed
206.20 under paragraph (i) from Minnesota Rules, part 9505.0445, item R, subitem (2).

206.21 (r) Effective for the first day of each calendar quarter in which the price of gasoline as
206.22 posted publicly by the United States Energy Information Administration exceeds \$3.00 per
206.23 gallon, the commissioner shall adjust the rate paid per mile in paragraph (m) by one percent
206.24 up or down for every increase or decrease of ten cents for the price of gasoline. The increase
206.25 or decrease must be calculated using a base gasoline price of \$3.00. The percentage increase
206.26 or decrease must be calculated using the average of the most recently available price of all
206.27 grades of gasoline for Minnesota as posted publicly by the United States Energy Information
206.28 Administration.

206.29 **EFFECTIVE DATE.** This section is effective July 1, 2022.

207.11 Capitation payments made to managed care plans and county-based purchasing plans for
207.12 ambulance services provided on or after January 1, 2017, shall be increased to reflect this
207.13 rate increase. The increased rate described in this paragraph applies to ambulance service
207.14 providers whose base of operations as defined in section 144E.10 is located:

207.15 (1) outside the metropolitan counties listed in section 473.121, subdivision 4, and outside
207.16 the cities of Duluth, Mankato, Moorhead, St. Cloud, and Rochester; or

207.17 (2) within a municipality with a population of less than 1,000.

207.18 (c) Effective for the first day of each calendar quarter in which the price of gasoline as

207.20 gallon, the commissioner shall adjust the rate paid per mile in paragraphs (a) and (b) by one

207.22 increase or decrease must be calculated using a base gasoline price of \$3.00. The percentage
207.23 increase or decrease must be calculated using the average of the most recently available
207.24 price of all grades of gasoline for Minnesota as posted publicly by the United States Energy
207.25 Information Administration.

210.8 six-month time prescribed, medical assistance payments will continue to be made according
210.9 to paragraphs (a) and (b) for the first three years after application. For FQHCs and rural

210.25 methodology shall be 100 percent of cost as determined according to Medicare cost
210.26 principles.

210.28 of clinic services provided by FQHCs and rural health clinics shall be paid by the
210.29 commissioner, according to an annual election by the FQHC or rural health clinic, under

211.16 managed care or county-based purchasing plan to the plan, on a regular basis; or
- 211.17 (2) FQHCs and rural health clinics submit claims for recipients enrolled in a managed

211.30 arbitration process under section 14.57.
- 211.31 (k) The commissioner shall seek a federal waiver, authorized under section 1115 of the

212.26 (ix) contributions and donations;

212.27 (x) bad debts or losses on awards or contracts;

212.28 (xi) fines, penalties, damages, or other settlements;

212.29 (xii) fund-raising, investment management, and associated administrative costs;

212.30 (xiii) research and associated administrative costs;

213.1 (xiv) nonpaid workers;

213.2 (xv) lobbying;

213.3 (xvi) scholarships and student aid; and

213.4 (xvii) nonmedical assistance covered services;

213.5 (4) the commissioner shall review the list of nonallowable costs in the years between
213.6 the rebasing process established in clause (5), in consultation with the Minnesota Association
213.7 of Community Health Centers, FQHCs, and rural health clinics. The commissioner shall
213.8 publish the list and any updates in the Minnesota health care programs provider manual;

213.9 (5) the initial applicable base year organization encounter rates for FQHCs and rural
213.10 health clinics shall be computed for services delivered on or after January 1, 2021, and:

213.11 (i) must be determined using each FQHC's and rural health clinic's Medicare cost reports
213.12 from 2017 and 2018;

213.13 (ii) must be according to current applicable Medicare cost principles as applicable to
213.14 FQHCs and rural health clinics without the application of productivity screens and upper
213.15 payment limits or the Medicare prospective payment system FQHC aggregate mean upper
213.16 payment limit;

213.17 (iii) must be subsequently rebased every two years thereafter using the Medicare cost
213.18 reports that are three and four years prior to the rebasing year. Years in which organizational
213.19 cost or claims volume is reduced or altered due to a pandemic, disease, or other public health
213.20 emergency shall not be used as part of a base year when the base year includes more than
213.21 one year. The commissioner may use the Medicare cost reports of a year unaffected by a
213.22 pandemic, disease, or other public health emergency, or previous two consecutive years,
213.23 inflated to the base year as established under item (iv);

213.24 (iv) must be inflated to the base year using the inflation factor described in clause (6);
213.25 and

213.26 (v) the commissioner must provide for a 60-day appeals process under section 14.57;

213.27 (6) the commissioner shall annually inflate the applicable organization encounter rates
213.28 for FQHCs and rural health clinics from the base year payment rate to the effective date by
213.29 using the CMS FQHC Market Basket inflator established under United States Code, title
213.30 42, section 1395m(o), less productivity;

213.31 (7) FQHCs and rural health clinics that have elected the alternative payment methodology
213.32 under this paragraph shall submit all necessary documentation required by the commissioner

214.1 to compute the rebased organization encounter rates no later than six months following the
214.2 date the applicable Medicare cost reports are due to the Centers for Medicare and Medicaid
214.3 Services;

214.4 (8) the commissioner shall reimburse FQHCs and rural health clinics an additional
214.5 amount relative to their medical and dental organization encounter rates that is attributable
214.6 to the tax required to be paid according to section 295.52, if applicable;

214.7 (9) FQHCs and rural health clinics may submit change of scope requests to the
214.8 commissioner if the change of scope would result in an increase or decrease of 2.5 percent
214.9 or higher in the medical or dental organization encounter rate currently received by the
214.10 FQHC or rural health clinic;

214.11 (10) for FQHCs and rural health clinics seeking a change in scope with the commissioner
214.12 under clause (9) that requires the approval of the scope change by the federal Health
214.13 Resources Services Administration:

214.14 (i) FQHCs and rural health clinics shall submit the change of scope request, including
214.15 the start date of services, to the commissioner within seven business days of submission of
214.16 the scope change to the federal Health Resources Services Administration;

214.17 (ii) the commissioner shall establish the effective date of the payment change as the
214.18 federal Health Resources Services Administration date of approval of the FQHC's or rural
214.19 health clinic's scope change request, or the effective start date of services, whichever is
214.20 later; and

214.21 (iii) within 45 days of one year after the effective date established in item (ii), the
214.22 commissioner shall conduct a retroactive review to determine if the actual costs established
214.23 under clause (3) or encounters result in an increase or decrease of 2.5 percent or higher in
214.24 the medical or dental organization encounter rate, and if this is the case, the commissioner
214.25 shall revise the rate accordingly and shall adjust payments retrospectively to the effective
214.26 date established in item (ii);

214.27 (11) for change of scope requests that do not require federal Health Resources Services
214.28 Administration approval, the FQHC and rural health clinic shall submit the request to the
214.29 commissioner before implementing the change, and the effective date of the change is the
214.30 date the commissioner received the FQHC's or rural health clinic's request, or the effective
214.31 start date of the service, whichever is later. The commissioner shall provide a response to
214.32 the FQHC's or rural health clinic's request within 45 days of submission and provide a final
214.33 approval within 120 days of submission. This timeline may be waived at the mutual

215.1 agreement of the commissioner and the FQHC or rural health clinic if more information is
215.2 needed to evaluate the request;

215.3 (12) the commissioner, when establishing organization encounter rates for new FQHCs
215.4 and rural health clinics, shall consider the patient caseload of existing FQHCs and rural
215.5 health clinics in a 60-mile radius for organizations established outside of the seven-county
215.6 metropolitan area, and in a 30-mile radius for organizations in the seven-county metropolitan
215.7 area. If this information is not available, the commissioner may use Medicare cost reports
215.8 or audited financial statements to establish base rates;

215.9 (13) the commissioner shall establish a quality measures workgroup that includes
215.10 representatives from the Minnesota Association of Community Health Centers, FQHCs,
215.11 and rural health clinics, to evaluate clinical and nonclinical measures; and

215.12 (14) the commissioner shall not disallow or reduce costs that are related to an FQHC's
215.13 or rural health clinic's participation in health care educational programs to the extent that
215.14 the costs are not accounted for in the alternative payment methodology encounter rate
215.15 established in this paragraph.

215.16 (m) Effective July 1, 2022, an enrolled Indian Health Service facility or a Tribal health
215.17 center operating under a 638 contract or compact may elect to also enroll as a Tribal FQHC.
215.18 No requirements that otherwise apply to FQHCs covered in this subdivision apply to Tribal
215.19 FQHCs enrolled under this paragraph, except those necessary to comply with federal
215.20 regulations. The commissioner shall establish an alternative payment method for Tribal
215.21 FQHCs enrolled under this paragraph that uses the same method and rates applicable to a
215.22 Tribal facility or health center that does not enroll as a Tribal FQHC.

215.23 Sec. 27. Minnesota Statutes 2021 Supplement, section 256B.0625, subdivision 31, is
215.24 amended to read:

215.25 Subd. 31. **Medical supplies and equipment.** (a) Medical assistance covers medical
215.26 supplies and equipment. Separate payment outside of the facility's payment rate shall be
215.27 made for wheelchairs and wheelchair accessories for recipients who are residents of
215.28 intermediate care facilities for the developmentally disabled. Reimbursement for wheelchairs
215.29 and wheelchair accessories for ICF/DD recipients shall be subject to the same conditions
215.30 and limitations as coverage for recipients who do not reside in institutions. A wheelchair
215.31 purchased outside of the facility's payment rate is the property of the recipient.

215.32 (b) Vendors of durable medical equipment, prosthetics, orthotics, or medical supplies
215.33 must enroll as a Medicare provider.

216.1 (c) When necessary to ensure access to durable medical equipment, prosthetics, orthotics,
216.2 or medical supplies, the commissioner may exempt a vendor from the Medicare enrollment
216.3 requirement if:

216.4 (1) the vendor supplies only one type of durable medical equipment, prosthetic, orthotic,
216.5 or medical supply;

216.6 (2) the vendor serves ten or fewer medical assistance recipients per year;

216.7 (3) the commissioner finds that other vendors are not available to provide same or similar
216.8 durable medical equipment, prosthetics, orthotics, or medical supplies; and

216.9 (4) the vendor complies with all screening requirements in this chapter and Code of
216.10 Federal Regulations, title 42, part 455. The commissioner may also exempt a vendor from
216.11 the Medicare enrollment requirement if the vendor is accredited by a Centers for Medicare
216.12 and Medicaid Services approved national accreditation organization as complying with the
216.13 Medicare program's supplier and quality standards and the vendor serves primarily pediatric
216.14 patients.

216.15 (d) "Durable medical equipment" means a device or equipment that:

216.16 (1) can withstand repeated use;

216.17 (2) is generally not useful in the absence of an illness, injury, or disability; and

216.18 (3) is provided to correct or accommodate a physiological disorder or physical condition
216.19 or is generally used primarily for a medical purpose.

216.20 (e) Electronic tablets may be considered durable medical equipment if the electronic
216.21 tablet will be used as an augmentative and alternative communication system as defined
216.22 under subdivision 31a, paragraph (a). To be covered by medical assistance, the device must
216.23 be locked in order to prevent use not related to communication.

216.24 (f) Notwithstanding the requirement in paragraph (e) that an electronic tablet must be
216.25 locked to prevent use not as an augmentative communication device, a recipient of waiver
216.26 services may use an electronic tablet for a use not related to communication when the
216.27 recipient has been authorized under the waiver to receive one or more additional applications
216.28 that can be loaded onto the electronic tablet, such that allowing the additional use prevents
216.29 the purchase of a separate electronic tablet with waiver funds.

216.30 (g) An order or prescription for medical supplies, equipment, or appliances must meet
216.31 the requirements in Code of Federal Regulations, title 42, part 440.70.

217.1 (h) Allergen-reducing products provided according to subdivision 67, paragraph (c) or
217.2 (d), shall be considered durable medical equipment.

217.3 (i) Seizure detection devices are covered as durable medical equipment under this
217.4 subdivision if:

217.5 (1) the seizure detection device is medically appropriate based on the recipient's medical
217.6 condition or status; and

217.7 (2) the recipient's health care provider has identified that a seizure detection device
217.8 would:

217.9 (i) likely assist in reducing bodily harm to or death of the recipient as a result of the
217.10 recipient experiencing a seizure; or

217.11 (ii) provide data to the health care provider necessary to appropriately diagnose or treat
217.12 the recipient's health condition that causes the seizure activity.

217.13 (j) For purposes of paragraph (i), "seizure detection device" means a United States Food
217.14 and Drug Administration approved monitoring device and any related service or subscription
217.15 supporting the prescribed use of the device, including technology that:

217.16 (1) provides ongoing patient monitoring and alert services that detects nocturnal seizure
217.17 activity and transmits notification of the seizure activity to a caregiver for appropriate
217.18 medical response; or

217.19 (2) collects data of the seizure activity of the recipient that can be used by a health care
217.20 provider to diagnose or appropriately treat a health care condition that causes the seizure
217.21 activity.

217.22 **EFFECTIVE DATE.** This section is effective January 1, 2023, or upon federal approval,
217.23 whichever is later. The commissioner of human services shall notify the revisor of statutes
217.24 when federal approval is obtained.

217.25 Sec. 28. Minnesota Statutes 2020, section 256B.0625, is amended by adding a subdivision
217.26 to read:

217.31 evidence-based or evidence-informed best practices.

218.1 (b) Medical assistance must cover in-person individual and group tobacco and nicotine
218.2 cessation education and counseling services if provided by a health care practitioner whose

218.21 (d) Medical assistance must cover all prescription and over-the-counter pharmacotherapy

218.22 drugs approved by the United States Food and Drug Administration for cessation of tobacco

218.23 and nicotine use or treatment of tobacco and nicotine dependence, and that are subject to a

218.24 Medicaid drug rebate agreement.

218.25 (e) Services covered under this subdivision may be provided by telemedicine.

218.26 (f) The commissioner must not:

218.27 (1) restrict or limit the type, duration, or frequency of tobacco and nicotine cessation

218.28 services;

218.29 (2) prohibit the simultaneous use of multiple cessation services, including but not limited

218.30 to simultaneous use of counseling and drugs;

- 219.8 (7) require or utilize prior authorization or require a co-payment or deductible for any
- 219.9 tobacco and nicotine cessation services and drugs covered under this subdivision.
- 219.10 (g) The commissioner must require all participating entities under contract with the

- 219.13 subdivision, "participating entity" means any of the following:

- 219.17 partnership under section 256B.0755;

- 219.19 authorized under section 256B.0756;
- 219.20 (5) a network of health care providers established to offer services under medical
- 219.21 assistance or MinnesotaCare; or
- 219.22 (6) any other entity that has a contract with the commissioner to cover, provide, or
- 219.23 manage health care services provided to medical assistance or MinnesotaCare enrollees on
- 219.24 a capitated or risk-based payment arrangement or under a reimbursement methodology with
- 219.25 substantial financial incentives to reduce the total cost of health care for a population of
- 219.26 patients that is enrolled with or assigned or attributed to the entity.
- 219.27 **EFFECTIVE DATE.** This section is effective January 1, 2023, or upon federal approval,
- 219.28 whichever is later. The commissioner of human services shall notify the revisor of statutes
- 219.29 when federal approval is obtained.

220.1 Sec. 29. Minnesota Statutes 2020, section 256B.0631, as amended by Laws 2021, First
220.2 Special Session chapter 7, article 1, section 17, is amended to read:

220.3 **256B.0631 MEDICAL ASSISTANCE CO-PAYMENTS.**

220.4 Subdivision 1. **Cost-sharing.** (a) Except as provided in subdivision 2, the medical
220.5 assistance benefit plan shall include the following cost-sharing for all recipients, effective
220.6 for services provided on or after September 1, 2011, through December 31, 2022:

220.7 (1) \$3 per nonpreventive visit, except as provided in paragraph (b). For purposes of this
220.8 subdivision, a visit means an episode of service which is required because of a recipient's
220.9 symptoms, diagnosis, or established illness, and which is delivered in an ambulatory setting
220.10 by a physician or physician assistant, chiropractor, podiatrist, nurse midwife, advanced
220.11 practice nurse, audiologist, optician, or optometrist;

220.12 (2) \$3.50 for nonemergency visits to a hospital-based emergency room, except that this
220.13 co-payment shall be increased to \$20 upon federal approval;

220.14 (3) \$3 per brand-name drug prescription, \$1 per generic drug prescription, and \$1 per
220.15 prescription for a brand-name multisource drug listed in preferred status on the preferred
220.16 drug list, subject to a \$12 per month maximum for prescription drug co-payments. No
220.17 co-payments shall apply to antipsychotic drugs when used for the treatment of mental illness;

220.18 (4) a family deductible equal to \$2.75 per month per family and adjusted annually by
220.19 the percentage increase in the medical care component of the CPI-U for the period of
220.20 September to September of the preceding calendar year, rounded to the next higher five-cent
220.21 increment; and

220.22 (5) total monthly cost-sharing must not exceed five percent of family income. For
220.23 purposes of this paragraph, family income is the total earned and unearned income of the
220.24 individual and the individual's spouse, if the spouse is enrolled in medical assistance and
220.25 also subject to the five percent limit on cost-sharing. This paragraph does not apply to
220.26 premiums charged to individuals described under section 256B.057, subdivision 9.

220.27 (b) Recipients of medical assistance are responsible for all co-payments and deductibles
220.28 in this subdivision.

220.29 (c) Notwithstanding paragraph (b), the commissioner, through the contracting process
220.30 under sections 256B.69 and 256B.692, may allow managed care plans and county-based
220.31 purchasing plans to waive the family deductible under paragraph (a), clause (4). The value
220.32 of the family deductible shall not be included in the capitation payment to managed care

221.1 plans and county-based purchasing plans. Managed care plans and county-based purchasing
221.2 plans shall certify annually to the commissioner the dollar value of the family deductible.

221.3 (d) Notwithstanding paragraph (b), the commissioner may waive the collection of the
221.4 family deductible described under paragraph (a), clause (4), from individuals and allow
221.5 long-term care and waived service providers to assume responsibility for payment.

221.6 (e) Notwithstanding paragraph (b), the commissioner, through the contracting process
221.7 under section 256B.0756 shall allow the pilot program in Hennepin County to waive
221.8 co-payments. The value of the co-payments shall not be included in the capitation payment
221.9 amount to the integrated health care delivery networks under the pilot program.

221.10 (f) Paragraphs (a) to (e) apply only for services provided through December 31, 2022.
221.11 Effective for services provided on or after January 1, 2023, the medical assistance program
221.12 shall not require deductibles, co-payments, coinsurance, or any other form of enrollee
221.13 cost-sharing.

221.14 Subd. 2. **Exceptions.** Co-payments and deductibles shall be subject, through December
221.15 31, 2022, to the following exceptions:

221.16 (1) children under the age of 21;

221.17 (2) pregnant women for services that relate to the pregnancy or any other medical
221.18 condition that may complicate the pregnancy;

221.26 for the coinsurance and deductible;

221.27 (9) co-payments that exceed one per day per provider for nonpreventive visits, eyeglasses,
221.28 and nonemergency visits to a hospital-based emergency room;

221.29 (10) services, fee-for-service payments subject to volume purchase through competitive
221.30 bidding;

222.10 Subd. 3. **Collection.** (a) The medical assistance reimbursement to the provider shall be
222.11 reduced by the amount of the co-payment or deductible, except that reimbursements shall
222.12 not be reduced:

222.13 (1) once a recipient has reached the \$12 per month maximum for prescription drug
222.14 co-payments; or

222.15 (2) for a recipient who has met their monthly five percent cost-sharing limit.

222.16 (b) The provider collects the co-payment or deductible from the recipient. Providers

222.18 (c) Medical assistance reimbursement to fee-for-service providers and payments to
222.19 managed care plans shall not be increased as a result of the removal of co-payments or
222.20 deductibles effective on or after January 1, 2009.

222.21 (d) Paragraphs (a) to (c) apply only for services provided through December 31, 2022.

222.22 Sec. 30. Minnesota Statutes 2020, section 256B.69, subdivision 4, is amended to read:

222.23 Subd. 4. **Limitation of choice; opportunity to opt out.** (a) The commissioner shall
222.24 develop criteria to determine when limitation of choice may be implemented in the
222.25 experimental counties, but shall provide all eligible individuals the opportunity to opt out
222.26 of enrollment in managed care under this section. The criteria shall ensure that all eligible
222.27 individuals in the county have continuing access to the full range of medical assistance
222.28 services as specified in subdivision 6.

222.29 (b) The commissioner shall exempt the following persons from participation in the
222.30 project, in addition to those who do not meet the criteria for limitation of choice:

224.32 rate prior to plan specific adjustments is reduced 6.3 percent for Hennepin County, two

225.12 specified under paragraph (a), clauses (1) to (4), shall not exceed the total amount transferred
225.13 for fiscal year 2009. Any excess shall first reduce the amounts specified under paragraph
225.14 (a), clauses (2) to (4). Any excess following this reduction shall proportionally reduce the
225.15 amount specified under paragraph (a), clause (1).

225.16 (c) Beginning September 1, 2011, of the amount in paragraph (a), the commissioner
225.17 shall transfer \$21,714,000 each fiscal year to the medical education and research fund.

230.28 (1) identify and develop base utilization and price data, including validated encounter

231.1 (2) develop and apply reasonable trend factors, including cost and utilization, to base

231.26 explanation of why that specific data is used must be provided in the rate certification. If
231.27 the commissioner is unable to base the rates on data that are within the three most recent

231.29 from the Centers for Medicare and Medicaid Services for an exception. The request must
231.30 describe why an exception is necessary and describe the actions that the commissioner

256.21 256B.0595, before turning to Minnesota health care program funds, and that trust instruments
256.22 should not be permitted to shield available resources of an individual or an individual's
256.23 spouse from such use.

256.24 ~~(a)~~ (b) A "medical assistance qualifying trust" is a revocable or irrevocable trust, or
256.25 similar legal device, established on or before August 10, 1993, by a person or the person's
256.26 spouse under the terms of which the person receives or could receive payments from the
256.27 trust principal or income and the trustee has discretion in making payments to the person
256.28 from the trust principal or income. Notwithstanding that definition, a medical assistance
256.29 qualifying trust does not include: (1) a trust set up by will; (2) a trust set up before April 7,
256.30 1986, solely to benefit a person with a developmental disability living in an intermediate
256.31 care facility for persons with developmental disabilities; or (3) a trust set up by a person

257.1 with payments made by the Social Security Administration pursuant to the United States
257.2 Supreme Court decision in *Sullivan v. Zebley*, 110 S. Ct. 885 (1990). The maximum amount
257.3 of payments that a trustee of a medical assistance qualifying trust may make to a person
257.4 under the terms of the trust is considered to be available assets to the person, without regard
257.5 to whether the trustee actually makes the maximum payments to the person and without
257.6 regard to the purpose for which the medical assistance qualifying trust was established.

257.7 ~~(b)~~ (c) Trusts established after August 10, 1993, are treated according to United States
257.8 Code, title 42, section 1396p(d).

257.9 ~~(e)~~ (d) For purposes of paragraph ~~(d)~~ (e), a pooled trust means a trust established under
257.10 United States Code, title 42, section 1396p(d)(4)(C).

257.11 ~~(d)~~ (e) A beneficiary's interest in a pooled trust is considered an available asset unless
257.12 the trust provides that upon the death of the beneficiary or termination of the trust during
257.13 the beneficiary's lifetime, whichever is sooner, the department receives any amount, up to
257.14 the amount of medical assistance benefits paid on behalf of the beneficiary, remaining in
257.15 the beneficiary's trust account after a deduction for reasonable administrative fees and
257.16 expenses, and an additional remainder amount. The retained remainder amount of the
257.17 subaccount must not exceed ten percent of the account value at the time of the beneficiary's
257.18 death or termination of the trust, and must only be used for the benefit of disabled individuals
257.19 who have a beneficiary interest in the pooled trust.

257.20 ~~(e)~~ (f) Trusts may be established on or after December 12, 2016, by a person who has
257.21 been determined to be disabled, according to United States Code, title 42, section
257.22 1396p(d)(4)(A), as amended by section 5007 of the 21st Century Cures Act, Public Law
257.23 114-255.

257.24 **EFFECTIVE DATE.** This section is effective the day following final enactment.

257.25 Sec. 4. Minnesota Statutes 2020, section 256B.056, subdivision 3c, is amended to read:

257.26 Subd. 3c. **Asset limitations for families and children.** (a) A household of two or more
257.27 persons must not own more than \$20,000 in total net assets, and a household of one person
257.28 must not own more than \$10,000 in total net assets. In addition to these maximum amounts,
257.29 an eligible individual or family may accrue interest on these amounts, but they must be
257.30 reduced to the maximum at the time of an eligibility redetermination. The value of assets
257.31 that are not considered in determining eligibility for medical assistance for families and
257.32 children is the value of those assets excluded under the AFDC state plan as of July 16, 1996,

258.1 as required by the Personal Responsibility and Work Opportunity Reconciliation Act of
258.2 1996 (PRWORA), Public Law 104-193, with the following exceptions:

258.3 (1) household goods and personal effects are not considered;

258.4 (2) capital and operating assets of a trade or business up to \$200,000 are not considered;

258.5 (3) one motor vehicle is excluded for each person of legal driving age who is employed
258.6 or seeking employment;

258.7 (4) assets designated as burial expenses are excluded to the same extent they are excluded
258.8 by the Supplemental Security Income program;

258.9 (5) court-ordered settlements up to \$10,000 are not considered;

258.10 (6) individual retirement accounts and funds are not considered;

258.11 (7) assets owned by children are not considered; and

258.12 (8) ~~effective July 1, 2009,~~ certain assets owned by American Indians are excluded as
258.13 required by section 5006 of the American Recovery and Reinvestment Act of 2009, Public
258.14 Law 111-5. For purposes of this clause, an American Indian is any person who meets the
258.15 definition of Indian according to Code of Federal Regulations, title 42, section 447.50.

258.16 (b) ~~Beginning January 1, 2014, this subdivision~~ Paragraph (a) applies only to parents
258.17 and caretaker relatives who qualify for medical assistance under subdivision 5.

258.18 (c) Eligibility for children under age 21 must be determined without regard to the asset
258.19 limitations described in paragraphs (a) and (b) and subdivision 3.

258.20 Sec. 5. Minnesota Statutes 2020, section 256B.056, subdivision 11, is amended to read:

258.21 Subd. 11. **Treatment of annuities.** (a) Any person requesting medical assistance payment
258.22 of long-term care services shall provide a complete description of any interest either the
258.23 person or the person's spouse has in annuities on a form designated by the department. The
258.24 form shall include a statement that the state becomes a preferred remainder beneficiary of
258.25 annuities or similar financial instruments by virtue of the receipt of medical assistance
258.26 payment of long-term care services. The person and the person's spouse shall furnish the
258.27 agency responsible for determining eligibility with complete current copies of their annuities
258.28 and related documents and complete the form designating the state as the preferred remainder
258.29 beneficiary for each annuity in which the person or the person's spouse has an interest.

258.30 (b) The department shall provide notice to the issuer of the department's right under this
258.31 section as a preferred remainder beneficiary under the annuity or similar financial instrument

259.1 for medical assistance furnished to the person or the person's spouse, and provide notice of
259.2 the issuer's responsibilities as provided in paragraph (c).

259.3 (c) An issuer of an annuity or similar financial instrument who receives notice of the
259.4 state's right to be named a preferred remainder beneficiary as described in paragraph (b)
259.5 shall provide confirmation to the requesting agency that the state has been made a preferred
259.6 remainder beneficiary. The issuer shall also notify the county agency when a change in the
259.7 amount of income or principal being withdrawn from the annuity or other similar financial
259.8 instrument or a change in the state's preferred remainder beneficiary designation under the
259.9 annuity or other similar financial instrument occurs. The county agency shall provide the
259.10 issuer with the name, address, and telephone number of a unit within the department that
259.11 the issuer can contact to comply with this paragraph.

259.12 (d) "Preferred remainder beneficiary" for purposes of this subdivision and sections
259.13 256B.0594 and 256B.0595 means the state is a remainder beneficiary in the first position
259.14 in an amount equal to the amount of medical assistance paid on behalf of the institutionalized
259.15 person, or is a remainder beneficiary in the second position if the institutionalized person
259.16 designates and is survived by a remainder beneficiary who is (1) a spouse who does not
259.17 reside in a medical institution, (2) a minor child, or (3) a child of any age who is blind or
259.18 permanently and totally disabled as defined in the Supplemental Security Income program.
259.19 Notwithstanding this paragraph, the state is the remainder beneficiary in the first position
259.20 if the spouse or child disposes of the remainder for less than fair market value.

259.21 (e) For purposes of this subdivision, "institutionalized person" and "long-term care
259.22 services" have the meanings given in section 256B.0595, subdivision 1, paragraph ~~(g)~~ (f).

259.23 (f) For purposes of this subdivision, "medical institution" means a skilled nursing facility,
259.24 intermediate care facility, intermediate care facility for persons with developmental
259.25 disabilities, nursing facility, or inpatient hospital.

259.26 Sec. 6. Minnesota Statutes 2020, section 256B.0595, subdivision 1, is amended to read:

259.27 Subdivision 1. **Prohibited transfers.** (a) Effective for transfers made after August 10,
259.28 1993, an institutionalized person, an institutionalized person's spouse, or any person, court,
259.29 or administrative body with legal authority to act in place of, on behalf of, at the direction
259.30 of, or upon the request of the institutionalized person or institutionalized person's spouse,
259.31 may not give away, sell, or dispose of, for less than fair market value, any asset or interest
259.32 therein, except assets other than the homestead that are excluded under the Supplemental
259.33 Security Income program, for the purpose of establishing or maintaining medical assistance
259.34 eligibility. This applies to all transfers, including those made by a community spouse after

260.1 the month in which the institutionalized spouse is determined eligible for medical assistance.
260.2 For purposes of determining eligibility for long-term care services, any transfer of such
260.3 assets within 36 months before or any time after an institutionalized person requests medical
260.4 assistance payment of long-term care services, or 36 months before or any time after a
260.5 medical assistance recipient becomes an institutionalized person, for less than fair market
260.6 value may be considered. Any such transfer is presumed to have been made for the purpose
260.7 of establishing or maintaining medical assistance eligibility and the institutionalized person
260.8 is ineligible for long-term care services for the period of time determined under subdivision
260.9 2, unless the institutionalized person furnishes convincing evidence to establish that the
260.10 transaction was exclusively for another purpose, or unless the transfer is permitted under
260.11 subdivision 3 or 4. In the case of payments from a trust or portions of a trust that are
260.12 considered transfers of assets under federal law, or in the case of any other disposal of assets
260.13 made on or after February 8, 2006, any transfers made within 60 months before or any time
260.14 after an institutionalized person requests medical assistance payment of long-term care
260.15 services and within 60 months before or any time after a medical assistance recipient becomes
260.16 an institutionalized person, may be considered.

260.17 (b) This section applies to transfers, for less than fair market value, of income or assets,
260.18 including assets that are considered income in the month received, such as inheritances,
260.19 court settlements, and retroactive benefit payments or income to which the institutionalized
260.20 person or the institutionalized person's spouse is entitled but does not receive due to action
260.21 by the institutionalized person, the institutionalized person's spouse, or any person, court,
260.22 or administrative body with legal authority to act in place of, on behalf of, at the direction
260.23 of, or upon the request of the institutionalized person or the institutionalized person's spouse.

260.24 (c) This section applies to payments for care or personal services provided by a relative,
260.25 unless the compensation was stipulated in a notarized, written agreement ~~which~~ that was
260.26 in existence when the service was performed, the care or services directly benefited the
260.27 person, and the payments made represented reasonable compensation for the care or services
260.28 provided. A notarized written agreement is not required if payment for the services was
260.29 made within 60 days after the service was provided.

260.30 ~~(d) This section applies to the portion of any asset or interest that an institutionalized~~
260.31 ~~person, an institutionalized person's spouse, or any person, court, or administrative body~~
260.32 ~~with legal authority to act in place of, on behalf of, at the direction of, or upon the request~~
260.33 ~~of the institutionalized person or the institutionalized person's spouse, transfers to any~~
260.34 ~~annuity that exceeds the value of the benefit likely to be returned to the institutionalized~~
260.35 ~~person or institutionalized person's spouse while alive, based on estimated life expectancy~~

261.1 ~~as determined according to the current actuarial tables published by the Office of the Chief~~
261.2 ~~Actuary of the Social Security Administration. The commissioner may adopt rules reducing~~
261.3 ~~life expectancies based on the need for long-term care. This section applies to an annuity~~
261.4 ~~purchased on or after March 1, 2002, that:~~

261.5 ~~(1) is not purchased from an insurance company or financial institution that is subject~~
261.6 ~~to licensing or regulation by the Minnesota Department of Commerce or a similar regulatory~~
261.7 ~~agency of another state;~~

261.8 ~~(2) does not pay out principal and interest in equal monthly installments; or~~

261.9 ~~(3) does not begin payment at the earliest possible date after annuitization.~~

261.10 ~~(e)~~ (d) Effective for transactions, including the purchase of an annuity, occurring on or
261.11 after February 8, 2006, by or on behalf of an institutionalized person who has applied for
261.12 or is receiving long-term care services or the institutionalized person's spouse shall be treated
261.13 as the disposal of an asset for less than fair market value unless the department is named a
261.14 preferred remainder beneficiary as described in section 256B.056, subdivision 11. Any
261.15 subsequent change to the designation of the department as a preferred remainder beneficiary
261.16 shall result in the annuity being treated as a disposal of assets for less than fair market value.
261.17 The amount of such transfer shall be the maximum amount the institutionalized person or
261.18 the institutionalized person's spouse could receive from the annuity or similar financial
261.19 instrument. Any change in the amount of the income or principal being withdrawn from the
261.20 annuity or other similar financial instrument at the time of the most recent disclosure shall
261.21 be deemed to be a transfer of assets for less than fair market value unless the institutionalized
261.22 person or the institutionalized person's spouse demonstrates that the transaction was for fair
261.23 market value. In the event a distribution of income or principal has been improperly
261.24 distributed or disbursed from an annuity or other retirement planning instrument of an
261.25 institutionalized person or the institutionalized person's spouse, a cause of action exists
261.26 against the individual receiving the improper distribution for the cost of medical assistance
261.27 services provided or the amount of the improper distribution, whichever is less.

261.28 ~~(f)~~ (e) Effective for transactions, including the purchase of an annuity, occurring on or
261.29 after February 8, 2006, by or on behalf of an institutionalized person applying for or receiving
261.30 long-term care services shall be treated as a disposal of assets for less than fair market value
261.31 unless it is:

261.32 (1) an annuity described in subsection (b) or (q) of section 408 of the Internal Revenue
261.33 Code of 1986; or

261.34 (2) purchased with proceeds from:

262.1 (i) an account or trust described in subsection (a), (c), or (p) of section 408 of the Internal
262.2 Revenue Code;

262.3 (ii) a simplified employee pension within the meaning of section 408(k) of the Internal
262.4 Revenue Code; or

262.5 (iii) a Roth IRA described in section 408A of the Internal Revenue Code; or

262.6 (3) an annuity that is irrevocable and nonassignable; is actuarially sound as determined
262.7 in accordance with actuarial publications of the Office of the Chief Actuary of the Social
262.8 Security Administration; and provides for payments in equal amounts during the term of
262.9 the annuity, with no deferral and no balloon payments made.

262.10 ~~(g)~~ (f) For purposes of this section, long-term care services include services in a nursing
262.11 facility, services that are eligible for payment according to section 256B.0625, subdivision
262.12 2, because they are provided in a swing bed, intermediate care facility for persons with
262.13 developmental disabilities, and home and community-based services provided pursuant to
262.14 chapter 256S and sections 256B.092 and 256B.49. For purposes of this subdivision and
262.15 subdivisions 2, 3, and 4, "institutionalized person" includes a person who is an inpatient in
262.16 a nursing facility or in a swing bed, or intermediate care facility for persons with
262.17 developmental disabilities or who is receiving home and community-based services under
262.18 chapter 256S and sections 256B.092 and 256B.49.

262.19 ~~(h)~~ (g) This section applies to funds used to purchase a promissory note, loan, or mortgage
262.20 unless the note, loan, or mortgage:

262.21 (1) has a repayment term that is actuarially sound;

262.22 (2) provides for payments to be made in equal amounts during the term of the loan, with
262.23 no deferral and no balloon payments made; and

262.24 (3) prohibits the cancellation of the balance upon the death of the lender.

262.25 (h) In the case of a promissory note, loan, or mortgage that does not meet an exception
262.26 in paragraph (g), clauses (1) to (3), the value of such note, loan, or mortgage shall be the
262.27 outstanding balance due as of the date of the institutionalized person's request for medical
262.28 assistance payment of long-term care services.

262.29 (i) This section applies to the purchase of a life estate interest in another person's home
262.30 unless the purchaser resides in the home for a period of at least one year after the date of
262.31 purchase.

263.1 (j) This section applies to transfers into a pooled trust that qualifies under United States
263.2 Code, title 42, section 1396p(d)(4)(C), by:

263.3 (1) a person age 65 or older or the person's spouse; or

263.4 (2) any person, court, or administrative body with legal authority to act in place of, on
263.5 behalf of, at the direction of, or upon the request of a person age 65 or older or the person's
263.6 spouse.

263.7 **EFFECTIVE DATE.** This section is effective the day following final enactment.

263.8 Sec. 7. Minnesota Statutes 2021 Supplement, section 256B.0625, subdivision 3b, is
263.9 amended to read:

263.10 Subd. 3b. **Telehealth services.** (a) Medical assistance covers medically necessary services
263.11 and consultations delivered by a health care provider through telehealth in the same manner
263.12 as if the service or consultation was delivered through in-person contact. Services or
263.13 consultations delivered through telehealth shall be paid at the full allowable rate.

263.14 (b) The commissioner may establish criteria that a health care provider must attest to in
263.15 order to demonstrate the safety or efficacy of delivering a particular service through
263.16 telehealth. The attestation may include that the health care provider:

263.17 (1) has identified the categories or types of services the health care provider will provide
263.18 through telehealth;

- 264.20 on an individual treatment plan, the provider may document the client's verbal approval or
- 264.21 electronic written approval of the treatment plan or change in the treatment plan in lieu of
- 264.22 the client's signature in accordance with Minnesota Rules, part 9505.0371.
- 264.23 (f) For purposes of this subdivision, unless otherwise covered under this chapter:
- 264.24 (1) "telehealth" means the delivery of health care services or consultations ~~through the~~

321.19 expire.

321.20 Sec. 33. **[62J.89] CONFLICTS OF INTEREST.**

321.21 Subdivision 1. **Definition.** (a) For purposes of this section, "conflict of interest" means
321.22 a financial or personal association that has the potential to bias or have the appearance of
321.23 biasing a person's decisions in matters related to the board or the advisory council, or in the
321.24 conduct of the board's or council's activities.

321.25 (b) A conflict of interest includes any instance in which a person or a person's immediate
321.26 family member has received or could receive a direct or indirect financial benefit of any
321.27 amount deriving from the result or findings of a decision or determination of the board.

321.28 (c) For purposes of this section, a person's immediate family member includes a spouse,
321.29 parent, child, or other legal dependent, or an in-law of any of the preceding individuals.

322.1 (d) For purposes of this section, a financial benefit includes honoraria, fees, stock, the

322.3 conducted under sections 62J.85 to 62J.95.

322.4 (e) Ownership of securities is not a conflict of interest if the securities are: (1) part of a
322.5 diversified mutual or exchange traded fund; or (2) in a tax-deferred or tax-exempt retirement
322.6 account that is administered by an independent trustee.

322.7 Subd. 2. **General.** (a) A board or advisory council member, board staff member, or
322.8 third-party contractor must disclose any conflicts of interest to the appointing authority or
322.9 the board prior to the acceptance of an appointment, an offer of employment, or a contractual
322.10 agreement. The information disclosed must include the type, nature, and magnitude of the
322.11 interests involved.

322.12 (b) A board member, board staff member, or third-party contractor with a conflict of
322.13 interest relating to any prescription drug product under review must recuse themselves from
322.14 any discussion, review, decision, or determination made by the board relating to the
322.15 prescription drug product.

322.16 (c) Any conflict of interest must be disclosed in advance of the first meeting after the
322.17 conflict is identified or within five days after the conflict is identified, whichever is earlier.

322.18 Subd. 3. **Prohibitions.** Board members, board staff, or third-party contractors are
322.19 prohibited from accepting gifts, bequeaths, or donations of services or property that raise
322.20 the specter of a conflict of interest or have the appearance of injecting bias into the activities
322.21 of the board.

322.22 Sec. 34. **[62J.90] PRESCRIPTION DRUG PRICE INFORMATION; DECISION**
322.23 **TO CONDUCT COST REVIEW.**

322.24 Subdivision 1. **Drug price information from the commissioner of health and other**
322.25 **sources.** (a) The commissioner of health shall provide to the board the information reported
322.26 to the commissioner by drug manufacturers under section 62J.84, subdivisions 3, 4, and 5.
322.27 The commissioner shall provide this information to the board within 30 days of the date the
322.28 information is received from drug manufacturers.

322.29 (b) The board shall subscribe to one or more prescription drug pricing files, such as
322.30 Medispan or FirstDatabank, or as otherwise determined by the board.

322.31 Subd. 2. **Identification of certain prescription drug products.** (a) The board, in
322.32 consultation with the advisory council, shall identify the following prescription drug products:

323.1 (1) brand name drugs or biologics for which the WAC increases by more than ten percent
323.2 or by more than \$10,000 during any 12-month period or course of treatment if less than 12
323.3 months, after adjusting for changes in the consumer price index (CPI);

323.4 (2) brand name drugs or biologics introduced at a WAC of \$30,000 or more per calendar
323.5 year or per course of treatment;

323.6 (3) biosimilar drugs introduced at a WAC that is not at least 15 percent lower than the
323.7 referenced brand name biologic at the time the biosimilar is introduced; and

323.8 (4) generic drugs for which the WAC:

323.9 (i) is \$100 or more, after adjusting for changes in the CPI, for:

323.10 (A) a 30-day supply lasting a patient for a period of 30 consecutive days based on the
323.11 recommended dosage approved for labeling by the United States Food and Drug
323.12 Administration (FDA);

323.13 (B) a supply lasting a patient for fewer than 30 days based on recommended dosage
323.14 approved for labeling by the FDA; or

323.15 (C) one unit of the drug if the labeling approved by the FDA does not recommend a
323.16 finite dosage; and

323.17 (ii) has increased by 200 percent or more during the immediate preceding 12-month
323.18 period, as determined by the difference between the resulting WAC and the average of the
323.19 WAC reported over the preceding 12 months, after adjusting for changes in the CPI.

323.20 (b) The board, in consultation with the advisory council, shall identify prescription drug
323.21 products not described in paragraph (a) that may impose costs that create significant
323.22 affordability challenges for the state health care system or for patients, including but not
323.23 limited to drugs to address public health emergencies.

323.24 (c) The board shall make available to the public the names and related price information
323.25 of the prescription drug products identified under this subdivision, with the exception of
323.26 information determined by the board to be proprietary under the standards developed by
323.27 the board under section 62J.91, subdivision 4.

323.28 **Subd. 3. Determination to proceed with review.** (a) The board may initiate a cost
323.29 review of a prescription drug product identified by the board under this section.

323.30 (b) The board shall consider requests by the public for the board to proceed with a cost
323.31 review of any prescription drug product identified under this section.

324.1 (c) If there is no consensus among the members of the board on whether or not to initiate
324.2 a cost review of a prescription drug product, any member of the board may request a vote
324.3 to determine whether or not to review the cost of the prescription drug product.

324.4 **Sec. 35. [62J.91] PRESCRIPTION DRUG PRODUCT REVIEWS.**

324.5 Subdivision 1. **General.** Once the board decides to proceed with a cost review of a
324.6 prescription drug product, the board shall conduct the review and make a determination as
324.7 to whether appropriate utilization of the prescription drug under review, based on utilization
324.8 that is consistent with the United States Food and Drug Administration (FDA) label or
324.9 standard medical practice, has led or will lead to affordability challenges for the state health
324.10 care system or for patients.

324.11 Subd. 2. **Review considerations.** In reviewing the cost of a prescription drug product,
324.12 the board may consider the following factors:

324.13 (1) the price at which the prescription drug product has been and will be sold in the state;

324.14 (2) the average monetary price concession, discount, or rebate the manufacturer provides
324.15 to a group purchaser in this state as reported by the manufacturer and the group purchaser,
324.16 expressed as a percent of the WAC for the prescription drug product under review;

324.17 (3) the price at which therapeutic alternatives have been or will be sold in the state;

324.18 (4) the average monetary price concession, discount, or rebate the manufacturer provides
324.19 or is expected to provide to a group purchaser or group purchasers in the state for therapeutic
324.20 alternatives;

324.21 (5) the cost to group purchasers based on patient access consistent with the FDA-labeled
324.22 indications;

324.23 (6) the impact on patient access resulting from the cost of the prescription drug product
324.24 relative to insurance benefit design;

324.25 (7) the current or expected dollar value of drug-specific patient access programs supported
324.26 by manufacturers;

324.27 (8) the relative financial impacts to health, medical, or other social services costs that
324.28 can be quantified and compared to baseline effects of existing therapeutic alternatives;

324.29 (9) the average patient co-pay or other cost-sharing for the prescription drug product in
324.30 the state;

324.31 (10) any information a manufacturer chooses to provide; and

325.1 (11) any other factors as determined by the board.

325.2 Subd. 3. **Further review factors.** If, after considering the factors described in subdivision
325.3 2, the board is unable to determine whether a prescription drug product will produce or has
325.4 produced an affordability challenge, the board may consider:

325.5 (1) manufacturer research and development costs, as indicated on the manufacturer's
325.6 federal tax filing for the most recent tax year, in proportion to the manufacturer's sales in
325.7 the state;

325.8 (2) the portion of direct-to-consumer marketing costs eligible for favorable federal tax
325.9 treatment in the most recent tax year that is specific to the prescription drug product under
325.10 review, multiplied by the ratio of total manufacturer in-state sales to total manufacturer
325.11 sales in the United States for the product under review;

325.12 (3) gross and net manufacturer revenues for the most recent tax year;

325.13 (4) any information and research related to the manufacturer's selection of the introductory
325.14 price or price increase, including but not limited to:

325.15 (i) life cycle management;

325.16 (ii) market competition and context; and

325.17 (iii) projected revenue; and

325.18 (5) any additional factors determined by the board to be relevant.

325.19 Subd. 4. **Public data; proprietary information.** (a) Any submission made to the board
325.20 related to a drug cost review must be made available to the public with the exception of
325.21 information determined by the board to be proprietary.

325.22 (b) The board shall establish the standards for the information to be considered proprietary
325.23 under paragraph (a) and section 62J.90, subdivision 2, including standards for heightened
325.24 consideration of proprietary information for submissions for a cost review of a drug that is
325.25 not yet approved by the FDA.

325.26 (c) Prior to the board establishing the standards under paragraph (b), the public must be
325.27 provided notice and the opportunity to submit comments.

325.28 Sec. 36. **[62J.92] DETERMINATIONS; COMPLIANCE; REMEDIES.**

325.29 Subdivision 1. **Upper payment limit.** (a) In the event the board finds that the spending
325.30 on a prescription drug product reviewed under section 62J.91 creates an affordability

326.1 challenge for the state health care system or for patients, the board shall establish an upper
326.2 payment limit after considering:

326.3 (1) the cost of administering the drug;

326.4 (2) the cost of delivering the drug to consumers;

326.5 (3) the range of prices at which the drug is sold in the United States according to one or
326.6 more pricing files accessed under section 62J.90, subdivision 1, and the range at which
326.7 pharmacies are reimbursed in Canada; and

326.8 (4) any other relevant pricing and administrative cost information for the drug.

326.9 (b) The upper payment limit must apply to all public and private purchases, payments,
326.10 and payer reimbursements for the prescription drug products received by an individual in
326.11 the state in person, by mail, or by other means.

326.12 Subd. 2. **Noncompliance.** (a) The failure of an entity to comply with an upper payment
326.13 limit established by the board under this section shall be referred to the Office of the Attorney
326.14 General.

326.15 (b) If the Office of the Attorney General finds that an entity was noncompliant with the
326.16 upper payment limit requirements, the attorney general may pursue remedies consistent
326.17 with chapter 8 or appropriate criminal charges if there is evidence of intentional profiteering.

326.18 (c) An entity that obtains price concessions from a drug manufacturer that result in a
326.19 lower net cost to the stakeholder than the upper payment limit established by the board must
326.20 not be considered to be in noncompliance.

326.21 (d) The Office of the Attorney General may provide guidance to stakeholders concerning
326.22 activities that could be considered noncompliant.

326.23 Subd. 3. **Appeals.** (a) Persons affected by a decision of the board may request an appeal
326.24 of the board's decision within 30 days of the date of the decision. The board shall hear the
326.25 appeal and render a decision within 60 days of the hearing.

326.26 (b) All appeal decisions are subject to judicial review in accordance with chapter 14.

326.27 Sec. 37. **[62J.93] REPORTS.**

326.28 Beginning March 1, 2023, and each March 1 thereafter, the board shall submit a report
326.29 to the governor and legislature on general price trends for prescription drug products and
326.30 the number of prescription drug products that were subject to the board's cost review and

327.1 analysis, including the result of any analysis and the number and disposition of appeals and
327.2 judicial reviews.

327.3 **Sec. 38. [62J.94] ERISA PLANS AND MEDICARE DRUG PLANS.**

327.4 (a) Nothing in sections 62J.85 to 62J.95 shall be construed to require ERISA plans or
327.5 Medicare Part D plans to comply with decisions of the board. ERISA plans or Medicare
327.6 Part D plans may choose to exceed the upper payment limit established by the board under
327.7 section 62J.92.

327.8 (b) Providers who dispense and administer drugs in the state must bill all payers no more
327.9 than the upper payment limit without regard to whether or not an ERISA plan or Medicare
327.10 Part D plan chooses to reimburse the provider in an amount greater than the upper payment
327.11 limit established by the board.

327.12 (c) For purposes of this section, an ERISA plan or group health plan is an employee
327.13 welfare benefit plan established or maintained by an employer or an employee organization,
327.14 or both, that provides employer sponsored health coverage to employees and the employee's
327.15 dependents and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

327.16 **Sec. 39. [62J.95] SEVERABILITY.**

327.17 If any provision of sections 62J.85 to 62J.94 or the application thereof to any person or
327.18 circumstance is held invalid for any reason in a court of competent jurisdiction, the invalidity
327.19 does not affect other provisions or any other application of sections 62J.85 to 62J.94 that
327.20 can be given effect without the invalid provision or application.

327.21 **Sec. 40. [62Q.1842] PROHIBITION ON USE OF STEP THERAPY FOR**
327.22 **ANTIRETROVIRAL DRUGS.**

327.23 Subdivision 1. **Definitions.** (a) For purposes of this section, the following definitions
327.24 apply.

327.25 (b) "Health plan" has the meaning given in section 62Q.01, subdivision 3, and includes
327.26 health coverage provided by a managed care plan or a county-based purchasing plan
327.27 participating in a public program under chapter 256B or 256L or an integrated health
327.28 partnership under section 256B.0755.

327.29 (c) "Step therapy protocol" has the meaning given in section 62Q.184.

327.30 Subd. 2. **Prohibition on use of step therapy protocols.** A health plan that covers
327.31 antiretroviral drugs that are medically necessary for the prevention of HIV/AIDS, including

328.1 preexposure prophylaxis and postexposure prophylaxis, must not limit or exclude coverage
328.2 for the antiretroviral drugs by requiring prior authorization or by requiring an enrollee to
328.3 follow a step therapy protocol.

328.4 Sec. 41. [62Q.481] COST-SHARING FOR PRESCRIPTION DRUGS AND RELATED
328.5 MEDICAL SUPPLIES TO TREAT CHRONIC DISEASE.

328.6 Subdivision 1. Cost-sharing limits. (a) A health plan must limit the amount of any
328.7 enrollee cost-sharing for prescription drugs prescribed to treat a chronic disease to no more
328.8 than \$25 per one-month supply for each prescription drug and to no more than \$50 per
328.9 month in total for all related medical supplies. Coverage under this section must not be
328.10 subject to any deductible.

328.11 (b) If application of this section before an enrollee has met their plan's deductible would
328.12 result in health savings account ineligibility under United States Code, title 26, section 223,
328.13 then this section must apply to that specific prescription drug or related medical supply only
328.14 after the enrollee has met their plan's deductible.

328.15 Subd. 2. Definitions. (a) For purposes of this section, the following terms have the
328.16 meanings given.

328.17 (b) "Chronic disease" means diabetes, asthma, and allergies requiring the use of
328.18 epinephrine auto-injectors.

328.19 (c) "Cost-sharing" means co-payments and coinsurance.

328.20 (d) "Related medical supplies" means syringes, insulin pens, insulin pumps, epinephrine
328.21 auto-injectors, test strips, glucometers, continuous glucose monitors, and other medical
328.22 supply items necessary to effectively and appropriately administer a prescription drug
328.23 prescribed to treat a chronic disease.

328.24 EFFECTIVE DATE. This section is effective January 1, 2023, and applies to health
328.25 plans offered, issued, or renewed on or after that date.

328.26 Sec. 42. [62Q.524] COVERAGE FOR DRUGS TO PREVENT THE ACQUISITION
328.27 OF HUMAN IMMUNODEFICIENCY VIRUS.

328.28 (a) A health plan that provides prescription drug coverage must provide coverage in
328.29 accordance with this section for:

328.30 (1) any antiretroviral drug approved by the United States Food and Drug Administration
328.31 (FDA) for preventing the acquisition of human immunodeficiency virus (HIV) that is

329.1 prescribed, dispensed, or administered by a pharmacist who meets the requirements described
329.2 in section 151.37, subdivision 17; and

329.3 (2) any laboratory testing necessary for therapy that uses the drugs described in clause
329.4 (1) that is ordered, performed, and interpreted by a pharmacist who meets the requirements
329.5 described in section 151.37, subdivision 17.

329.6 (b) A health plan must provide the same terms of prescription drug coverage for drugs
329.7 to prevent the acquisition of HIV that are prescribed or administered by a pharmacist if the
329.8 pharmacist meets the requirements described in section 151.37, subdivision 17, as would
329.9 apply had the drug been prescribed or administered by a physician, physician assistant, or
329.10 advanced practice registered nurse. The health plan may require pharmacists or pharmacies
329.11 to meet reasonable medical management requirements when providing the services described
329.12 in paragraph (a) if other providers are required to meet the same requirements.

329.13 (c) A health plan must reimburse an in-network pharmacist or pharmacy for the drugs
329.14 and testing described in paragraph (a) at a rate equal to the rate of reimbursement provided
329.15 to a physician, physician assistant, or advanced practice registered nurse if providing similar
329.16 services.

329.17 (d) A health plan is not required to cover the drugs and testing described in paragraph
329.18 (a) if provided by a pharmacist or pharmacy that is out-of-network unless the health plan
329.19 covers similar services provided by out-of-network providers. A health plan must ensure
329.20 that the health plan's provider network includes in-network pharmacies that provide the
329.21 services described in paragraph (a).

329.22 **Sec. 43. [62Q.83] PRESCRIPTION DRUG BENEFIT TRANSPARENCY AND**
329.23 **MANAGEMENT.**

329.24 Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have
329.25 the meanings given.

329.26 (b) "Drug" has the meaning given in section 151.01, subdivision 5.

329.27 (c) "Enrollee contract term" means the 12-month term during which benefits associated
329.28 with health plan company products are in effect. For managed care plans and county-based
329.29 purchasing plans under section 256B.69 and chapter 256L, enrollee contract term means a
329.30 single calendar quarter.

329.31 (d) "Formulary" means a list of prescription drugs developed by clinical and pharmacy
329.32 experts that represents the health plan company's medically appropriate and cost-effective
329.33 prescription drugs approved for use.

330.1 (e) "Health plan company" has the meaning given in section 62Q.01, subdivision 4, and
330.2 includes an entity that performs pharmacy benefits management for the health plan company.
330.3 For purposes of this paragraph, "pharmacy benefits management" means the administration
330.4 or management of prescription drug benefits provided by the health plan company for the
330.5 benefit of the plan's enrollees and may include but is not limited to procurement of
330.6 prescription drugs, clinical formulary development and management services, claims
330.7 processing, and rebate contracting and administration.

330.8 (f) "Prescription" has the meaning given in section 151.01, subdivision 16a.

330.9 Subd. 2. **Prescription drug benefit disclosure.** (a) A health plan company that provides
330.10 prescription drug benefit coverage and uses a formulary must make the plan's formulary
330.11 and related benefit information available by electronic means and, upon request, in writing
330.12 at least 30 days before annual renewal dates.

330.13 (b) Formularies must be organized and disclosed consistent with the most recent version
330.14 of the United States Pharmacopeia's (USP) Model Guidelines.

330.15 (c) For each item or category of items on the formulary, the specific enrollee benefit
330.16 terms must be identified, including enrollee cost-sharing and expected out-of-pocket costs.

330.17 Subd. 3. **Formulary changes.** (a) Once a formulary has been established, a health plan
330.18 company may, at any time during the enrollee's contract term:

330.19 (1) expand its formulary by adding drugs to the formulary;

330.20 (2) reduce co-payments or coinsurance; or

330.21 (3) move a drug to a benefit category that reduces an enrollee's cost.

330.22 (b) A health plan company may remove a brand name drug from the plan's formulary
330.23 or place a brand name drug in a benefit category that increases an enrollee's cost only upon
330.24 the addition to the formulary of a generic or multisource brand name drug rated as
330.25 therapeutically equivalent according to the FDA Orange Book or a biologic drug rated as
330.26 interchangeable according to the FDA Purple Book at a lower cost to the enrollee, and upon
330.27 at least a 60-day notice to prescribers, pharmacists, and affected enrollees.

330.28 (c) A health plan company may change utilization review requirements or move drugs

351.21 with all applicable federal and state statutes, rules, and regulations.

351.22 (c) The central repository shall be subject to inspection by the board pursuant to section

352.10 that the health care facility meets the eligibility requirements under this section and agrees
352.11 to comply with this section.

352.12 (c) Participation in the ~~drug~~ medication repository program is voluntary. A local
352.13 repository may withdraw from participation in the ~~drug~~ medication repository program at
352.14 any time by providing written notice to the central repository on a form developed by the
352.15 board and made available on the board's website. The central repository shall provide the
352.16 board with a copy of the withdrawal notice within ten business days from the date of receipt
352.17 of the withdrawal notice.

352.18 Subd. 5. **Individual eligibility and application requirements.** (a) To be eligible for
352.19 the ~~drug~~ medication repository program, an individual must submit to a local repository an
352.20 intake application form that is signed by the individual and attests that the individual:

352.21 (1) is a resident of Minnesota;

352.30 shall furnish the individual with an identification card. The card shall be valid for one year
352.31 from the date of issuance and may be used at any local repository. A new identification card
352.32 may be issued upon expiration once the individual submits a new application form.

353.1 (c) The local repository shall send a copy of the intake application form to the central
353.2 repository by regular mail, facsimile, or secured e-mail within ten days from the date the
353.3 application is approved by the local repository.

353.4 (d) The board shall develop and make available on the board's website an application
353.5 form and the format for the identification card.

353.6 **Subd. 6. Standards and procedures for accepting donations of drugs and supplies. (a)**

353.7 A donor may donate ~~prescription~~ drugs or medical supplies to the central repository or a
353.8 local repository if the drug or supply meets the requirements of this section as determined
353.9 by a pharmacist or practitioner who is employed by or under contract with the central
353.10 repository or a local repository.

353.11 (b) A ~~prescription~~ drug is eligible for donation under the drug medication repository
353.12 program if the following requirements are met:

353.13 (1) the donation is accompanied by a drug medication repository donor form described
353.14 under paragraph (d) that is signed by an individual who is authorized by the donor to attest
353.15 to the donor's knowledge in accordance with paragraph (d);

353.16 (2) the drug's expiration date is at least six months after the date the drug was donated.
353.17 If a donated drug bears an expiration date that is less than six months from the donation
353.18 date, the drug may be accepted and distributed if the drug is in high demand and can be
353.19 dispensed for use by a patient before the drug's expiration date;

353.20 (3) the drug is in its original, sealed, unopened, tamper-evident packaging that includes
353.21 the expiration date. Single-unit-dose drugs may be accepted if the single-unit-dose packaging
353.22 is unopened;

353.23 (4) the drug or the packaging does not have any physical signs of tampering, misbranding,
353.24 deterioration, compromised integrity, or adulteration;

353.25 (5) the drug does not require storage temperatures other than normal room temperature
353.26 as specified by the manufacturer or United States Pharmacopoeia, unless the drug is being
353.27 donated directly by its manufacturer, a wholesale drug distributor, or a pharmacy located
353.28 in Minnesota; and

353.29 (6) the ~~prescription~~ drug is not a controlled substance.

353.30 (c) A medical supply is eligible for donation under the drug medication repository
353.31 program if the following requirements are met:

354.1 (1) the supply has no physical signs of tampering, misbranding, or alteration and there
354.2 is no reason to believe it has been adulterated, tampered with, or misbranded;

354.3 (2) the supply is in its original, unopened, sealed packaging;

354.4 (3) the donation is accompanied by a ~~drug~~ medication repository donor form described
354.5 under paragraph (d) that is signed by an individual who is authorized by the donor to attest
354.6 to the donor's knowledge in accordance with paragraph (d); and

354.7 (4) if the supply bears an expiration date, the date is at least six months later than the
354.8 date the supply was donated. If the donated supply bears an expiration date that is less than
354.9 six months from the date the supply was donated, the supply may be accepted and distributed
354.10 if the supply is in high demand and can be dispensed for use by a patient before the supply's
354.11 expiration date.

354.12 (d) The board shall develop the ~~drug~~ medication repository donor form and make it
354.13 available on the board's website. The form must state that to the best of the donor's knowledge
354.14 the donated drug or supply has been properly stored under appropriate temperature and
354.15 humidity conditions and that the drug or supply has never been opened, used, tampered
354.16 with, adulterated, or misbranded.

354.17 (e) Donated drugs and supplies may be shipped or delivered to the premises of the central
354.18 repository or a local repository, and shall be inspected by a pharmacist or an authorized
354.19 practitioner who is employed by or under contract with the repository and who has been
354.20 designated by the repository to accept donations. A drop box must not be used to deliver
354.21 or accept donations.

354.22 (f) The central repository and local repository shall inventory all drugs and supplies
354.23 donated to the repository. For each drug, the inventory must include the drug's name, strength,
354.24 quantity, manufacturer, expiration date, and the date the drug was donated. For each medical
354.25 supply, the inventory must include a description of the supply, its manufacturer, the date
354.26 the supply was donated, and, if applicable, the supply's brand name and expiration date.

354.27 **Subd. 7. Standards and procedures for inspecting and storing donated ~~prescription~~**
354.28 **drugs and supplies.** (a) A pharmacist or authorized practitioner who is employed by or
354.29 under contract with the central repository or a local repository shall inspect all donated
354.30 ~~prescription~~ drugs and supplies before the drug or supply is dispensed to determine, to the
354.31 extent reasonably possible in the professional judgment of the pharmacist or practitioner,
354.32 that the drug or supply is not adulterated or misbranded, has not been tampered with, is safe
354.33 and suitable for dispensing, has not been subject to a recall, and meets the requirements for
354.34 donation. The pharmacist or practitioner who inspects the drugs or supplies shall sign an

355.1 inspection record stating that the requirements for donation have been met. If a local
355.2 repository receives drugs and supplies from the central repository, the local repository does
355.3 not need to reinspect the drugs and supplies.

355.4 (b) The central repository and local repositories shall store donated drugs and supplies
355.5 in a secure storage area under environmental conditions appropriate for the drug or supply
355.6 being stored. Donated drugs and supplies may not be stored with nondonated inventory.

355.7 (c) The central repository and local repositories shall dispose of all ~~prescription~~ drugs
355.8 and medical supplies that are not suitable for donation in compliance with applicable federal
355.9 and state statutes, regulations, and rules concerning hazardous waste.

355.10 (d) In the event that controlled substances or ~~prescription~~ drugs that can only be dispensed
355.11 to a patient registered with the drug's manufacturer are shipped or delivered to a central or
355.12 local repository for donation, the shipment delivery must be documented by the repository
355.13 and returned immediately to the donor or the donor's representative that provided the drugs.

355.14 (e) Each repository must develop drug and medical supply recall policies and procedures.
355.15 If a repository receives a recall notification, the repository shall destroy all of the drug or
355.16 medical supply in its inventory that is the subject of the recall and complete a record of
355.17 destruction form in accordance with paragraph (f). If a drug or medical supply that is the
355.18 subject of a Class I or Class II recall has been dispensed, the repository shall immediately
355.19 notify the recipient of the recalled drug or medical supply. A drug that potentially is subject
355.20 to a recall need not be destroyed if its packaging bears a lot number and that lot of the drug
355.21 is not subject to the recall. If no lot number is on the drug's packaging, it must be destroyed.

355.22 (f) A record of destruction of donated drugs and supplies that are not dispensed under
355.23 subdivision 8, are subject to a recall under paragraph (e), or are not suitable for donation
355.24 shall be maintained by the repository for at least two years. For each drug or supply destroyed,
355.25 the record shall include the following information:

355.26 (1) the date of destruction;

355.27 (2) the name, strength, and quantity of the drug destroyed; and

355.28 (3) the name of the person or firm that destroyed the drug.

355.29 Subd. 8. **Dispensing requirements.** (a) Donated drugs and supplies may be dispensed
355.30 if the drugs or supplies are prescribed by a practitioner for use by an eligible individual and
355.31 are dispensed by a pharmacist or practitioner. A repository shall dispense drugs and supplies
355.32 to eligible individuals in the following priority order: (1) individuals who are uninsured;
355.33 (2) individuals with no prescription drug coverage; and (3) individuals who are underinsured.

356.1 A repository shall dispense donated ~~prescription~~ drugs in compliance with applicable federal
356.2 and state laws and regulations for dispensing ~~prescription~~ drugs, including all requirements
356.3 relating to packaging, labeling, record keeping, drug utilization review, and patient
356.4 counseling.

356.5 (b) Before dispensing or administering a drug or supply, the pharmacist or practitioner
356.6 shall visually inspect the drug or supply for adulteration, misbranding, tampering, and date
356.7 of expiration. Drugs or supplies that have expired or appear upon visual inspection to be
356.8 adulterated, misbranded, or tampered with in any way must not be dispensed or administered.

356.9 (c) Before a drug or supply is dispensed or administered to an individual, the individual
356.10 must sign a drug repository recipient form acknowledging that the individual understands
356.11 the information stated on the form. The board shall develop the form and make it available
356.12 on the board's website. The form must include the following information:

356.13 (1) that the drug or supply being dispensed or administered has been donated and may
356.14 have been previously dispensed;

356.15 (2) that a visual inspection has been conducted by the pharmacist or practitioner to ensure
356.16 that the drug or supply has not expired, has not been adulterated or misbranded, and is in
356.17 its original, unopened packaging; and

356.18 (3) that the dispensing pharmacist, the dispensing or administering practitioner, the
356.19 central repository or local repository, the Board of Pharmacy, and any other participant of
356.20 the ~~drug~~ medication repository program cannot guarantee the safety of the drug or medical
356.21 supply being dispensed or administered and that the pharmacist or practitioner has determined
356.22 that the drug or supply is safe to dispense or administer based on the accuracy of the donor's
356.23 form submitted with the donated drug or medical supply and the visual inspection required
356.24 to be performed by the pharmacist or practitioner before dispensing or administering.

356.25 Subd. 9. **Handling fees.** (a) The central or local repository may charge the individual
356.26 receiving a drug or supply a handling fee of no more than 250 percent of the medical
356.27 assistance program dispensing fee for each drug or medical supply dispensed or administered
356.28 by that repository.

356.29 (b) A repository that dispenses or administers a drug or medical supply through the drug
356.30 repository program shall not receive reimbursement under the medical assistance program
356.31 or the MinnesotaCare program for that dispensed or administered drug or supply.

357.1 Subd. 10. **Distribution of donated drugs and supplies.** (a) The central repository and
357.2 local repositories may distribute drugs and supplies donated under the drug repository
357.3 program to other participating repositories for use pursuant to this program.

357.4 (b) A local repository that elects not to dispense donated drugs or supplies must transfer
357.5 all donated drugs and supplies to the central repository. A copy of the donor form that was
357.6 completed by the original donor under subdivision 6 must be provided to the central
357.7 repository at the time of transfer.

357.8 Subd. 11. **Forms and record-keeping requirements.** (a) The following forms developed
357.9 for the administration of this program shall be utilized by the participants of the program
357.10 and shall be available on the board's website:

357.11 (1) intake application form described under subdivision 5;

357.12 (2) local repository participation form described under subdivision 4;

357.13 (3) local repository withdrawal form described under subdivision 4;

357.14 (4) ~~drug~~ medication repository donor form described under subdivision 6;

357.15 (5) record of destruction form described under subdivision 7; and

357.16 (6) ~~drug~~ medication repository recipient form described under subdivision 8.

357.17 (b) All records, including drug inventory, inspection, and disposal of donated ~~prescription~~
357.18 drugs and medical supplies, must be maintained by a repository for a minimum of two years.
357.19 Records required as part of this program must be maintained pursuant to all applicable
357.20 practice acts.

357.21 (c) Data collected by the ~~drug~~ medication repository program from all local repositories
357.22 shall be submitted quarterly or upon request to the central repository. Data collected may
357.23 consist of the information, records, and forms required to be collected under this section.

357.24 (d) The central repository shall submit reports to the board as required by the contract
357.25 or upon request of the board.

357.26 Subd. 12. **Liability.** (a) The manufacturer of a drug or supply is not subject to criminal
357.27 or civil liability for injury, death, or loss to a person or to property for causes of action
357.28 described in clauses (1) and (2). A manufacturer is not liable for:

357.29 (1) the intentional or unintentional alteration of the drug or supply by a party not under
357.30 the control of the manufacturer; or

358.1 (2) the failure of a party not under the control of the manufacturer to transfer or
358.2 communicate product or consumer information or the expiration date of the donated drug
358.3 or supply.

358.4 (b) A health care facility participating in the program, a pharmacist dispensing a drug
358.5 or supply pursuant to the program, a practitioner dispensing or administering a drug or
358.6 supply pursuant to the program, or a donor of a drug or medical supply is immune from
358.7 civil liability for an act or omission that causes injury to or the death of an individual to
358.8 whom the drug or supply is dispensed and no disciplinary action by a health-related licensing
358.9 board shall be taken against a pharmacist or practitioner so long as the drug or supply is
358.10 donated, accepted, distributed, and dispensed according to the requirements of this section.
358.11 This immunity does not apply if the act or omission involves reckless, wanton, or intentional
358.12 misconduct, or malpractice unrelated to the quality of the drug or medical supply.

358.13 Subd. 13. **Drug returned for credit.** Nothing in this section allows a long-term care
358.14 facility to donate a drug to a central or local repository when federal or state law requires
358.15 the drug to be returned to the pharmacy that initially dispensed it, so that the pharmacy can
358.16 credit the payer for the amount of the drug returned.

358.17 Subd. 14. **Cooperation.** The central repository, as approved by the Board of Pharmacy,
358.18 may enter into an agreement with another state that has an established drug repository or
358.19 drug donation program if the other state's program includes regulations to ensure the purity,
358.20 integrity, and safety of the drugs and supplies donated, to permit the central repository to
358.21 offer to another state program inventory that is not needed by a Minnesota resident and to
358.22 accept inventory from another state program to be distributed to local repositories and
358.23 dispensed to Minnesota residents in accordance with this program.

358.24 Subd. 15. **Funding.** The central repository may seek grants and other funds from nonprofit
358.25 charitable organizations, the federal government, and other sources to fund the ongoing
358.26 operations of the medication repository program.

358.27 Sec. 56. Minnesota Statutes 2020, section 152.125, is amended to read:

358.28 **152.125 INTRACTABLE PAIN.**

358.29 Subdivision 1. ~~Definition~~ **Definitions.** (a) For purposes of this section, the terms in this
358.30 subdivision have the meanings given.

358.31 (b) "Drug diversion" means the unlawful transfer of prescription drugs from their licit
358.32 medical purpose to the illicit marketplace.

359.1 (c) "Intractable pain" means a pain state in which the cause of the pain cannot be removed
359.2 or otherwise treated with the consent of the patient and in which, in the generally accepted
359.3 course of medical practice, no relief or cure of the cause of the pain is possible, or none has
359.4 been found after reasonable efforts. Examples of conditions associated with intractable pain
359.5 sometimes but do not always include cancer and the recovery period, sickle cell disease,
359.6 noncancer pain, rare diseases, orphan diseases, severe injuries, and health conditions requiring
359.7 the provision of palliative care or hospice care. Reasonable efforts for relieving or curing
359.8 the cause of the pain may be determined on the basis of, but are not limited to, the following:

359.9 (1) when treating a nonterminally ill patient for intractable pain, an evaluation conducted
359.10 by the attending physician and one or more physicians specializing in pain medicine or the
359.11 treatment of the area, system, or organ of the body confirmed or perceived as the source of
359.12 the intractable pain; or

359.13 (2) when treating a terminally ill patient, an evaluation conducted by the attending
359.14 physician who does so in accordance with the standard of care and the level of care, skill,
359.15 and treatment that would be recognized by a reasonably prudent physician under similar
359.16 conditions and circumstances.

359.17 (d) "Palliative care" has the meaning provided in section 144A.75, subdivision 12.

359.18 (e) "Rare disease" means a disease, disorder, or condition that affects fewer than 200,000
359.19 individuals in the United States and is chronic, serious, life altering, or life threatening.

359.20 **Subd. 1a. Criteria for the evaluation and treatment of intractable pain.** The evaluation
359.21 and treatment of intractable pain when treating a nonterminally ill patient is governed by
359.22 the following criteria:

359.23 (1) a diagnosis of intractable pain by the treating physician and either by a physician
359.24 specializing in pain medicine or a physician treating the area, system, or organ of the body
359.25 that is the source of the pain is sufficient to meet the definition of intractable pain; and

359.26 (2) the cause of the diagnosis of intractable pain must not interfere with medically
359.27 necessary treatment including but not limited to prescribing or administering a controlled
359.28 substance in Schedules II to V of section 152.02.

359.29 **Subd. 2. Prescription and administration of controlled substances for intractable**
359.30 **pain.** (a) Notwithstanding any other provision of this chapter, a physician, advanced practice
359.31 registered nurse, or physician assistant may prescribe or administer a controlled substance

359.33 physician's, advanced practice registered nurse's, or physician assistant's treatment of the

360.1 ~~individual~~ patient for a diagnosed condition causing intractable pain. No physician, advanced
360.2 practice registered nurse, or physician assistant shall be subject to disciplinary action by
360.3 the Board of Medical Practice or Board of Nursing for appropriately prescribing or
360.4 administering a controlled substance in Schedules II to V of section 152.02 in the course
360.5 of treatment of ~~an individual~~ a patient for intractable pain, provided the physician, advanced
360.6 practice registered nurse, or physician assistant:

360.7 (1) keeps accurate records of the purpose, use, prescription, and disposal of controlled
360.8 substances, writes accurate prescriptions, and prescribes medications in conformance with
360.9 chapter 147- or 148 or in accordance with the current standard of care; and

360.10 (2) enters into a patient-provider agreement that meets the criteria in subdivision 5.

360.11 (b) No physician, advanced practice registered nurse, or physician assistant, acting in
360.12 good faith and based on the needs of the patient, shall be subject to any civil or criminal
360.13 action or investigation, disenrollment, or termination by the commissioner of health or
360.14 human services solely for prescribing a dosage that equates to an upward deviation from
360.15 morphine milligram equivalent dosage recommendations or thresholds specified in state or
360.16 federal opioid prescribing guidelines or policies, including but not limited to the Guideline
360.17 for Prescribing Opioids for Chronic Pain issued by the Centers for Disease Control and
360.18 Prevention, Minnesota opioid prescribing guidelines, the Minnesota opioid prescribing
360.19 improvement program, and the Minnesota quality improvement program established under
360.20 section 256B.0638.

360.22 intractable pain by prescribing, dispensing, or administering a controlled substance in
360.23 Schedules II to V of section 152.02 that includes but is not opioid analgesics must not taper
360.24 a patient's medication dosage solely to meet a predetermined morphine milligram equivalent
360.25 dosage recommendation or threshold if the patient is stable and compliant with the treatment
360.26 plan, is experiencing no serious harm from the level of medication currently being prescribed
360.27 or previously prescribed, and is in compliance with the patient-provider agreement as
360.28 described in subdivision 5.

360.29 (d) A physician's, advanced practice registered nurse's, or physician assistant's decision
360.30 to taper a patient's medication dosage must be based on factors other than a morphine
360.31 milligram equivalent recommendation or threshold.

360.32 (e) No pharmacist, health plan company, or pharmacy benefit manager shall refuse to
360.33 fill a prescription for an opiate issued by a licensed practitioner with the authority to prescribe

361.1 opiates solely based on the prescription exceeding a predetermined morphine milligram
361.2 equivalent dosage recommendation or threshold.

361.3 Subd. 3. **Limits on applicability.** This section does not apply to:

361.16 Drug Administration for pain relief.

361.17 Subd. 4. **Notice of risks.** Prior to treating an individual a patient for intractable pain in
361.18 accordance with subdivision 2, a physician, advanced practice registered nurse, or physician
361.19 assistant shall discuss with the individual patient or the patient's legal guardian, if applicable,
361.20 the risks associated with the controlled substances in Schedules II to V of section 152.02
361.21 to be prescribed or administered in the course of the physician's, advanced practice registered
361.22 nurse's, or physician assistant's treatment of an individual a patient, and document the
361.23 discussion in the individual's patient's record as required in the patient-provider agreement

362.9 setting.

362.10 Sec. 57. Minnesota Statutes 2021 Supplement, section 256B.0625, subdivision 13, is
362.11 amended to read:

362.12 Subd. 13. **Drugs.** (a) Medical assistance covers drugs, except for fertility drugs when
362.13 specifically used to enhance fertility, if prescribed by a licensed practitioner and dispensed
362.14 by a licensed pharmacist, by a physician enrolled in the medical assistance program as a
362.15 dispensing physician, or by a physician, a physician assistant, or an advanced practice
362.16 registered nurse employed by or under contract with a community health board as defined
362.17 in section 145A.02, subdivision 5, for the purposes of communicable disease control.

362.18 (b) The dispensed quantity of a prescription drug must not exceed a 34-day supply,
362.19 unless authorized by the commissioner or the drug appears on the 90-day supply list published
362.20 by the commissioner. The 90-day supply list shall be published by the commissioner on the
362.21 department's website. The commissioner may add to, delete from, and otherwise modify
362.22 the 90-day supply list after providing public notice and the opportunity for a 15-day public
362.23 comment period. The 90-day supply list may include cost-effective generic drugs and shall
362.24 not include controlled substances.

362.25 (c) For the purpose of this subdivision and subdivision 13d, an "active pharmaceutical
362.26 ingredient" is defined as a substance that is represented for use in a drug and when used in
362.27 the manufacturing, processing, or packaging of a drug becomes an active ingredient of the
362.28 drug product. An "excipient" is defined as an inert substance used as a diluent or vehicle
362.29 for a drug. The commissioner shall establish a list of active pharmaceutical ingredients and
362.30 excipients which are included in the medical assistance formulary. Medical assistance covers
362.31 selected active pharmaceutical ingredients and excipients used in compounded prescriptions
362.32 when the compounded combination is specifically approved by the commissioner or when
362.33 a commercially available product:

363.1 (1) is not a therapeutic option for the patient;

363.2 (2) does not exist in the same combination of active ingredients in the same strengths
363.3 as the compounded prescription; and

363.4 (3) cannot be used in place of the active pharmaceutical ingredient in the compounded
363.5 prescription.

363.6 (d) Medical assistance covers the following over-the-counter drugs when prescribed by
363.7 a licensed practitioner or by a licensed pharmacist who meets standards established by the

363.12 commissioner, in consultation with the Formulary Committee, as necessary, appropriate,
363.13 and cost-effective for the treatment of certain specified chronic diseases, conditions, or
363.14 disorders, and this determination shall not be subject to the requirements of chapter 14. A
363.15 pharmacist may prescribe over-the-counter medications as provided under this paragraph
363.16 for purposes of receiving reimbursement under Medicaid. When prescribing over-the-counter
363.17 drugs under this paragraph, licensed pharmacists must consult with the recipient to determine
363.18 necessity, provide drug counseling, review drug therapy for potential adverse interactions,
363.19 and make referrals as needed to other health care professionals.

363.20 (e) Effective January 1, 2006, medical assistance shall not cover drugs that are coverable
363.21 under Medicare Part D as defined in the Medicare Prescription Drug, Improvement, and
363.22 Modernization Act of 2003, Public Law 108-173, section 1860D-2(e), for individuals eligible
363.23 for drug coverage as defined in the Medicare Prescription Drug, Improvement, and
363.24 Modernization Act of 2003, Public Law 108-173, section 1860D-1(a)(3)(A). For these
363.25 individuals, medical assistance may cover drugs from the drug classes listed in United States
363.26 Code, title 42, section 1396r-8(d)(2), subject to this subdivision and subdivisions 13a to
363.27 13g, except that drugs listed in United States Code, title 42, section 1396r-8(d)(2)(E), shall
363.28 not be covered.

363.30 Program and dispensed by 340B covered entities and ambulatory pharmacies under common
363.31 ownership of the 340B covered entity. Medical assistance does not cover drugs acquired
363.32 through the federal 340B Drug Pricing Program and dispensed by 340B contract pharmacies.

363.33 (g) Notwithstanding paragraph (a), medical assistance covers self-administered hormonal
363.34 contraceptives prescribed and dispensed by a licensed pharmacist in accordance with section

364.1 151.37, subdivision 14; nicotine replacement medications prescribed and dispensed by a
364.2 licensed pharmacist in accordance with section 151.37, subdivision 15; and opiate antagonists
364.3 used for the treatment of an acute opiate overdose prescribed and dispensed by a licensed
364.4 pharmacist in accordance with section 151.37, subdivision 16.

364.5 (h) Medical assistance coverage of, and reimbursement for, antiretroviral drugs to prevent
364.6 the acquisition of human immunodeficiency virus (HIV) and any laboratory testing necessary
364.7 for therapy that uses these drugs must meet the requirements that would otherwise apply to
364.8 a health plan under section 62Q.524.

364.9 Sec. 58. Minnesota Statutes 2020, section 256B.0625, subdivision 13f, is amended to read:

364.10 Subd. 13f. **Prior authorization.** (a) The Formulary Committee shall review and
364.11 recommend drugs which require prior authorization. The Formulary Committee shall
364.12 establish general criteria to be used for the prior authorization of brand-name drugs for
364.13 which generically equivalent drugs are available, but the committee is not required to review
364.14 each brand-name drug for which a generically equivalent drug is available.

364.15 (b) Prior authorization may be required by the commissioner before certain formulary
364.16 drugs are eligible for payment. The Formulary Committee may recommend drugs for prior
364.17 authorization directly to the commissioner. The commissioner may also request that the
364.18 Formulary Committee review a drug for prior authorization. Before the commissioner may
364.19 require prior authorization for a drug:

364.20 (1) the commissioner must provide information to the Formulary Committee on the
364.21 impact that placing the drug on prior authorization may have on the quality of patient care
364.22 and on program costs, information regarding whether the drug is subject to clinical abuse
364.23 or misuse, and relevant data from the state Medicaid program if such data is available;

364.24 (2) the Formulary Committee must review the drug, taking into account medical and
364.25 clinical data and the information provided by the commissioner; and

364.26 (3) the Formulary Committee must hold a public forum and receive public comment for
364.27 an additional 15 days.

364.28 The commissioner must provide a 15-day notice period before implementing the prior
364.29 authorization.

364.30 (c) Except as provided in subdivision 13j, prior authorization shall not be required or
364.31 utilized for any atypical antipsychotic drug prescribed for the treatment of mental illness
364.32 if:

365.1 (1) there is no generically equivalent drug available; and

365.2 (2) the drug was initially prescribed for the recipient prior to July 1, 2003; or

365.3 (3) the drug is part of the recipient's current course of treatment.

365.4 This paragraph applies to any multistate preferred drug list or supplemental drug rebate
365.5 program established or administered by the commissioner. Prior authorization shall
365.6 automatically be granted for 60 days for brand name drugs prescribed for treatment of mental
365.7 illness within 60 days of when a generically equivalent drug becomes available, provided
365.8 that the brand name drug was part of the recipient's course of treatment at the time the
365.9 generically equivalent drug became available.

365.10 (d) The commissioner may require prior authorization for brand name drugs whenever
365.11 a generically equivalent product is available, even if the prescriber specifically indicates
365.12 "dispense as written-brand necessary" on the prescription as required by section 151.21,
365.13 subdivision 2.

365.14 (e) Notwithstanding this subdivision, the commissioner may automatically require prior
365.15 authorization, for a period not to exceed 180 days, for any drug that is approved by the
365.16 United States Food and Drug Administration on or after July 1, 2005. The 180-day period
365.17 begins no later than the first day that a drug is available for shipment to pharmacies within
365.18 the state. The Formulary Committee shall recommend to the commissioner general criteria
365.19 to be used for the prior authorization of the drugs, but the committee is not required to
365.20 review each individual drug. In order to continue prior authorizations for a drug after the
365.21 180-day period has expired, the commissioner must follow the provisions of this subdivision.

365.22 (f) Prior authorization under this subdivision shall comply with ~~section~~ sections 62Q.184
365.23 and 62Q.1842.

365.24 (g) Any step therapy protocol requirements established by the commissioner must comply
365.25 with ~~section~~ sections 62Q.1841 and 62Q.1842.

365.26 **Sec. 59. STUDY OF PHARMACY AND PROVIDER CHOICE OF BIOLOGICAL**
365.27 **PRODUCTS.**

365.28 The commissioner of health, within the limits of existing resources, shall analyze the
365.29 effect of Minnesota Statutes, section 62W.0751, on the net price for different payors of
365.30 biological products, interchangeable biological products, and biosimilar products. The
365.31 commissioner of health shall report findings to the chairs and ranking minority members
365.32 of the legislative committees with jurisdiction over health and human services finance and
365.33 policy and insurance by December 15, 2024.

366.4 Subd. 2. **Required coverage.** (a) Every policy, plan, certificate or contract to which this
366.5 section applies shall provide benefits for reconstructive surgery when such service is
366.6 incidental to or follows surgery resulting from injury, sickness or other diseases of the
366.7 involved part or when such service is performed on a covered dependent child because of
366.8 congenital disease or anomaly which has resulted in a functional defect as determined by
366.9 the attending physician.

366.10 (b) The coverage limitations on reconstructive surgery in paragraph (a) do not apply to
366.11 reconstructive breast surgery: (1) following mastectomies; or (2) if the patient has been
366.12 diagnosed with ectodermal dysplasia and has congenitally absent breast tissue or nipples.
366.13 ~~In these cases, Coverage for reconstructive surgery must be provided if the mastectomy is~~
366.14 ~~medically necessary as determined by the attending physician.~~

366.19 with the attending physician and patient. Coverage may be subject to annual deductible,
366.20 co-payment, and coinsurance provisions as may be deemed appropriate and as are consistent
366.21 with those established for other benefits under the plan or coverage. Coverage may not:

366.22 (1) deny to a patient eligibility, or continued eligibility, to enroll or to renew coverage
366.23 under the terms of the plan, solely for the purpose of avoiding the requirements of this
366.24 section; and

366.25 (2) penalize or otherwise reduce or limit the reimbursement of an attending provider, or
366.26 provide monetary or other incentives to an attending provider to induce the provider to
366.27 provide care to an individual participant or beneficiary in a manner inconsistent with this
366.28 section.

366.29 Written notice of the availability of the coverage must be delivered to the participant upon
366.30 enrollment and annually thereafter.

367.14 (c) A health plan must not apply any cost-sharing requirements, benefit limitations, or
367.15 service limitations for lymphedema treatment and compression treatment items that place

367.17 requirements or limitations applied by the health plan to other similar services or benefits.

367.18 EFFECTIVE DATE. This section is effective January 1, 2023, and applies to any health
367.19 plan issued, sold, or renewed on or after that date.

379.13 services are provided.

379.14 (b) If a certified CCBHC is unable to provide one or more of the services listed in
379.15 paragraph (a), clauses (6) to (17), the CCBHC may contract with another entity that has the
379.16 required authority to provide that service and that meets the following criteria as a designated
379.17 collaborating organization:

379.18 (1) the entity has a formal agreement with the CCBHC to furnish one or more of the

379.27 approval for certain services listed in paragraph (a), clause (6), a clinic that otherwise meets
379.28 CCBHC requirements may receive the prospective payment under section 256B.0625,
379.29 subdivision 5m, for those services without a county contract or county approval. As part of
379.30 the certification process in paragraph (a), the commissioner shall require a letter of support
379.31 from the CCBHC's host county confirming that the CCBHC and the county or counties it

380.1 serves have an ongoing relationship to facilitate access and continuity of care, especially
380.2 for individuals who are uninsured or who may go on and off medical assistance.

380.3 (d) When the standards listed in paragraph (a) or other applicable standards conflict or
380.4 address similar issues in duplicative or incompatible ways, the commissioner may grant
380.5 variances to state requirements if the variances do not conflict with federal requirements
380.6 for services reimbursed under medical assistance. If standards overlap, the commissioner
380.7 may substitute all or a part of a licensure or certification that is substantially the same as
380.8 another licensure or certification. The commissioner shall consult with stakeholders, as
380.9 described in subdivision 4, before granting variances under this provision. For the CCBHC
380.10 that is certified but not approved for prospective payment under section 256B.0625,
380.11 subdivision 5m, the commissioner may grant a variance under this paragraph if the variance
380.12 does not increase the state share of costs.

380.13 (e) The commissioner shall issue a list of required evidence-based practices to be
380.14 delivered by CCBHCs, and may also provide a list of recommended evidence-based practices.
380.15 The commissioner may update the list to reflect advances in outcomes research and medical
380.16 services for persons living with mental illnesses or substance use disorders. The commissioner
380.17 shall take into consideration the adequacy of evidence to support the efficacy of the practice,
380.18 the quality of workforce available, and the current availability of the practice in the state.
380.19 At least 30 days before issuing the initial list and any revisions, the commissioner shall
380.20 provide stakeholders with an opportunity to comment.

380.21 (f) The commissioner shall recertify CCBHCs at least every three years. The
380.22 commissioner shall establish a process for decertification and shall require corrective action,
380.23 medical assistance repayment, or decertification of a CCBHC that no longer meets the
380.24 requirements in this section or that fails to meet the standards provided by the commissioner
380.25 in the application and certification process.

380.26 **EFFECTIVE DATE.** This section is effective July 1, 2022, or upon federal approval,
380.27 whichever is later. The commissioner of human services shall notify the revisor of statutes
380.28 when federal approval is obtained.

380.29 Sec. 10. Minnesota Statutes 2021 Supplement, section 245A.03, subdivision 7, is amended
380.30 to read:

380.31 Subd. 7. **Licensing moratorium.** (a) The commissioner shall not issue an initial license
380.32 for child foster care licensed under Minnesota Rules, parts 2960.3000 to 2960.3340, or adult
380.33 foster care licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, under this chapter
380.34 for a physical location that will not be the primary residence of the license holder for the

381.1 entire period of licensure. If a family child foster care home or family adult foster care home
381.2 license is issued during this moratorium, and the license holder changes the license holder's
381.3 primary residence away from the physical location of the foster care license, the
381.4 commissioner shall revoke the license according to section 245A.07. The commissioner
381.5 shall not issue an initial license for a community residential setting licensed under chapter
381.6 245D. When approving an exception under this paragraph, the commissioner shall consider
381.7 the resource need determination process in paragraph (h), the availability of foster care
381.8 licensed beds in the geographic area in which the licensee seeks to operate, the results of a
381.9 person's choices during their annual assessment and service plan review, and the
381.10 recommendation of the local county board. The determination by the commissioner is final
381.11 and not subject to appeal. Exceptions to the moratorium include:

381.12 (1) foster care settings where at least 80 percent of the residents are 55 years of age or
381.13 older;

381.14 (2) foster care licenses replacing foster care licenses in existence on May 15, 2009, or
381.15 community residential setting licenses replacing adult foster care licenses in existence on
381.16 December 31, 2013, and determined to be needed by the commissioner under paragraph
381.17 (b);

381.18 (3) new foster care licenses or community residential setting licenses determined to be
381.19 needed by the commissioner under paragraph (b) for the closure of a nursing facility, ICF/DD,
381.20 or regional treatment center; restructuring of state-operated services that limits the capacity
381.21 of state-operated facilities; or allowing movement to the community for people who no
381.22 longer require the level of care provided in state-operated facilities as provided under section
381.23 256B.092, subdivision 13, or 256B.49, subdivision 24;

381.24 (4) new foster care licenses or community residential setting licenses determined to be
381.25 needed by the commissioner under paragraph (b) for persons requiring hospital level care;
381.26 or

381.27 ~~(5) new foster care licenses or community residential setting licenses for people receiving~~
381.28 ~~services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and~~
381.29 ~~for which a license is required. This exception does not apply to people living in their own~~
381.30 ~~home. For purposes of this clause, there is a presumption that a foster care or community~~
381.31 ~~residential setting license is required for services provided to three or more people in a~~
381.32 ~~dwelling unit when the setting is controlled by the provider. A license holder subject to this~~
381.33 ~~exception may rebut the presumption that a license is required by seeking a reconsideration~~
381.34 ~~of the commissioner's determination. The commissioner's disposition of a request for~~

382.1 ~~reconsideration is final and not subject to appeal under chapter 14. The exception is available~~
382.2 ~~until June 30, 2018. This exception is available when:~~

382.3 ~~(i) the person's case manager provided the person with information about the choice of~~
382.4 ~~service, service provider, and location of service, including in the person's home, to help~~
382.5 ~~the person make an informed choice; and~~

382.6 ~~(ii) the person's services provided in the licensed foster care or community residential~~
382.7 ~~setting are less than or equal to the cost of the person's services delivered in the unlicensed~~
382.8 ~~setting as determined by the lead agency; or~~

382.9 ~~(6) (5) new foster care licenses or community residential setting licenses for people~~
382.10 ~~receiving customized living or 24-hour customized living services under the brain injury~~
382.11 ~~or community access for disability inclusion waiver plans under section 256B.49 and residing~~
382.12 ~~in the customized living setting before July 1, 2022, for which a license is required. A~~
382.13 ~~customized living service provider subject to this exception may rebut the presumption that~~
382.14 ~~a license is required by seeking a reconsideration of the commissioner's determination. The~~
382.15 ~~commissioner's disposition of a request for reconsideration is final and not subject to appeal~~
382.16 ~~under chapter 14. The exception is available until June 30, 2023. This exception is available~~
382.17 ~~when:~~

382.18 ~~(i) the person's customized living services are provided in a customized living service~~
382.19 ~~setting serving four or fewer people under the brain injury or community access for disability~~
382.20 ~~inclusion waiver plans under section 256B.49 in a single-family home operational on or~~

406.13 Sec. 28. Minnesota Statutes 2021 Supplement, section 256B.0911, subdivision 3a, is
406.14 amended to read:

406.15 Subd. 3a. **Assessment and support planning.** (a) Persons requesting assessment, services
406.16 planning, or other assistance intended to support community-based living, including persons
406.17 who need assessment ~~in order~~ to determine waiver or alternative care program eligibility,
406.18 must be visited by a long-term care consultation team within 20 calendar days after the date
406.19 on which an assessment was requested or recommended. Upon statewide implementation
406.20 of subdivisions 2b, 2c, and 5, this requirement also applies to an assessment of a person
406.21 requesting personal care assistance services. The commissioner shall provide at least a
406.22 90-day notice to lead agencies prior to the effective date of this requirement. Assessments
406.23 must be conducted according to paragraphs (b) to (r).

406.24 (b) Upon implementation of subdivisions 2b, 2c, and 5, lead agencies shall use certified
406.25 assessors to conduct the assessment. For a person with complex health care needs, a public
406.26 health or registered nurse from the team must be consulted.

406.27 (c) The MnCHOICES assessment provided by the commissioner to lead agencies must

406.29 The assessment must include the health, psychological, functional, environmental, and
406.30 social needs of the individual necessary to develop a person-centered community support
406.31 plan that meets the individual's needs and preferences.

407.1 (d) Except as provided in paragraph (r), the assessment must be conducted by a certified
407.2 assessor in a face-to-face conversational interview with the person being assessed. The

407.4 so remotely if requested. At the request of the person, other individuals may participate in
407.5 the assessment to provide information on the needs, strengths, and preferences of the person
407.6 necessary to develop a community support plan that ensures the person's health and safety.
407.7 Except for legal representatives or family members invited by the person, persons
407.8 participating in the assessment may not be a provider of service or have any financial interest
407.9 in the provision of services. For persons who are to be assessed for elderly waiver customized
407.10 living or adult day services under chapter 256S, with the permission of the person being
407.11 assessed or the person's designated or legal representative, the client's current or proposed
407.12 provider of services may submit a copy of the provider's nursing assessment or written
407.13 report outlining its recommendations regarding the client's care needs. The person conducting
407.14 the assessment must notify the provider of the date by which this information is to be
407.15 submitted. This information shall be provided to the person conducting the assessment prior
407.16 to the assessment. For a person who is to be assessed for waiver services under section
407.17 256B.092 or 256B.49, with the permission of the person being assessed or the person's
407.18 designated legal representative, the person's current provider of services may submit a
407.19 written report outlining recommendations regarding the person's care needs the person
407.20 completed in consultation with someone who is known to the person and has interaction
407.21 with the person on a regular basis. The provider must submit the report at least 60 days
407.22 before the end of the person's current service agreement. The certified assessor must consider
407.23 the content of the submitted report prior to finalizing the person's assessment or reassessment.

407.24 (e) The certified assessor and the individual responsible for developing the coordinated
407.25 service and support plan must complete the community support plan and the coordinated
407.26 service and support plan no more than 60 calendar days from the assessment visit. The
407.27 person or the person's legal representative must be provided with a written community
407.28 support plan within the timelines established by the commissioner, regardless of whether
407.29 the person is eligible for Minnesota health care programs.

407.30 (f) For a person being assessed for elderly waiver services under chapter 256S, a provider
407.31 who submitted information under paragraph (d) shall receive the final written community
407.32 support plan when available and the Residential Services Workbook.

407.33 (g) The written community support plan must include:

407.34 (1) a summary of assessed needs as defined in paragraphs (c) and (d);

- 408.1 (2) the individual's options and choices to meet identified needs, including:

- 408.3 (ii) all available options for employment services, settings, and providers;
- 408.4 (iii) all available options for living arrangements;
- 408.5 (iv) all available options for self-directed services and supports, including self-directed
- 408.6 budget options; and
- 408.7 (v) service provided in a non-disability-specific setting;
- 408.8 (3) identification of health and safety risks and how those risks will be addressed,
- 408.9 including personal risk management strategies;
- 408.10 (4) referral information; and
- 408.11 (5) informal caregiver supports, if applicable.
- 408.12 For a person determined eligible for state plan home care under subdivision 1a, paragraph
- 408.13 (b), clause (1), the person or person's representative must also receive a copy of the home
- 408.14 care service plan developed by the certified assessor.
- 408.15 (h) A person may request assistance in identifying community supports without
- 408.16 participating in a complete assessment. Upon a request for assistance identifying community
- 408.17 support, the person must be transferred or referred to long-term care options counseling
- 408.18 services available under sections 256.975, subdivision 7, and 256.01, subdivision 24, for
- 408.19 telephone assistance and follow up.
- 408.20 (i) The person has the right to make the final decision:
- 408.21 (1) between institutional placement and community placement after the recommendations
- 408.22 have been provided, except as provided in section 256.975, subdivision 7a, paragraph (d);
- 408.23 (2) between community placement in a setting controlled by a provider and living
- 408.24 independently in a setting not controlled by a provider;
- 408.25 (3) between day services and employment services; and
- 408.26 (4) regarding available options for self-directed services and supports, including
- 408.27 self-directed funding options.
- 408.28 (j) The lead agency must give the person receiving long-term care consultation services
- 408.29 or the person's legal representative, materials, and forms supplied by the commissioner
- 408.30 containing the following information:

409.1 (1) written recommendations for community-based services and consumer-directed
409.2 options;

409.3 (2) documentation that the most cost-effective alternatives available were offered to the
409.4 individual. For purposes of this clause, "cost-effective" means community services and
409.5 living arrangements that cost the same as or less than institutional care. For an individual
409.6 found to meet eligibility criteria for home and community-based service programs under
409.7 chapter 256S or section 256B.49, "cost-effectiveness" has the meaning found in the federally
409.8 approved waiver plan for each program;

409.9 (3) the need for and purpose of preadmission screening conducted by long-term care
409.10 options counselors according to section 256.975, subdivisions 7a to 7c, if the person selects
409.11 nursing facility placement. If the individual selects nursing facility placement, the lead
409.12 agency shall forward information needed to complete the level of care determinations and
409.13 screening for developmental disability and mental illness collected during the assessment
409.14 to the long-term care options counselor using forms provided by the commissioner;

409.15 (4) the role of long-term care consultation assessment and support planning in eligibility
409.16 determination for waiver and alternative care programs, and state plan home care, case
409.17 management, and other services as defined in subdivision 1a, paragraphs (a), clause (6),
409.18 and (b);

409.19 (5) information about Minnesota health care programs;

409.20 (6) the person's freedom to accept or reject the recommendations of the team;

409.21 (7) the person's right to confidentiality under the Minnesota Government Data Practices
409.22 Act, chapter 13;

409.23 (8) the certified assessor's decision regarding the person's need for institutional level of
409.24 care as determined under criteria established in subdivision 4e and the certified assessor's
409.25 decision regarding eligibility for all services and programs as defined in subdivision 1a,
409.26 paragraphs (a), clause (6), and (b);

409.27 (9) the person's right to appeal the certified assessor's decision regarding eligibility for
409.28 all services and programs as defined in subdivision 1a, paragraphs (a), clauses (6), (7), and
409.29 (8), and (b), and incorporating the decision regarding the need for institutional level of care
409.30 or the lead agency's final decisions regarding public programs eligibility according to section
409.31 256.045, subdivision 3. The certified assessor must verbally communicate this appeal right
409.32 to the person and must visually point out where in the document the right to appeal is stated;
409.33 and

410.1 (10) documentation that available options for employment services, independent living,
410.2 and self-directed services and supports were described to the individual.

410.3 (k) An assessment that is completed as part of an eligibility determination for multiple
410.4 programs for the alternative care, elderly waiver, developmental disabilities, community
410.5 access for disability inclusion, community alternative care, and brain injury waiver programs
410.6 under chapter 256S and sections 256B.0913, 256B.092, and 256B.49 is valid to establish
410.7 service eligibility for no more than 60 calendar days after the date of the assessment.

410.8 (l) The effective eligibility start date for programs in paragraph (k) can never be prior
410.9 to the date of assessment. If an assessment was completed more than 60 days before the
410.10 effective waiver or alternative care program eligibility start date, assessment and support
410.11 plan information must be updated and documented in the department's Medicaid Management
410.12 Information System (MMIS). Notwithstanding retroactive medical assistance coverage of
410.13 state plan services, the effective date of eligibility for programs included in paragraph (k)
410.14 cannot be prior to the date the most recent updated assessment is completed.

410.15 (m) If an eligibility update is completed within 90 days of the previous assessment and
410.16 documented in the department's Medicaid Management Information System (MMIS), the
410.17 effective date of eligibility for programs included in paragraph (k) is the date of the previous
410.18 face-to-face assessment when all other eligibility requirements are met.

410.19 (n) If a person who receives home and community-based waiver services under section
410.20 256B.0913, 256B.092, or 256B.49 or chapter 256S temporarily enters for 121 days or fewer
410.21 a hospital, institution of mental disease, nursing facility, intensive residential treatment
410.22 services program, transitional care unit, or inpatient substance use disorder treatment setting,
410.23 the person may return to the community with home and community-based waiver services
410.24 under the same waiver, without requiring an assessment or reassessment under this section,
410.25 unless the person's annual reassessment is otherwise due. Nothing in this paragraph shall
410.26 change annual long-term care consultation reassessment requirements, payment for
410.27 institutional or treatment services, medical assistance financial eligibility, or any other law.

410.28 (o) At the time of reassessment, the certified assessor shall assess each person receiving
410.29 waiver residential supports and services currently residing in a community residential setting,
410.30 licensed adult foster care home that is either not the primary residence of the license holder
410.31 or in which the license holder is not the primary caregiver, family adult foster care residence,
410.32 customized living setting, or supervised living facility to determine if that person would
410.33 prefer to be served in a community-living setting as defined in section 256B.49, subdivision
410.34 23, in a setting not controlled by a provider, or to receive integrated community supports

411.1 as described in section 245D.03, subdivision 1, paragraph (c), clause (8). The certified
411.2 assessor shall offer the person, through a person-centered planning process, the option to
411.3 receive alternative housing and service options.

411.4 (p) At the time of reassessment, the certified assessor shall assess each person receiving
411.5 waiver day services to determine if that person would prefer to receive employment services
411.6 as described in section 245D.03, subdivision 1, paragraph (c), clauses (5) to (7). The certified
411.7 assessor shall describe to the person through a person-centered planning process the option
411.8 to receive employment services.

411.9 (q) At the time of reassessment, the certified assessor shall assess each person receiving
411.10 non-self-directed waiver services to determine if that person would prefer an available
411.11 service and setting option that would permit self-directed services and supports. The certified
411.12 assessor shall describe to the person through a person-centered planning process the option
411.13 to receive self-directed services and supports.

411.14 (r) All assessments performed according to this subdivision must be face-to-face unless
411.15 the assessment is a reassessment meeting the requirements of this paragraph. Remote
411.16 reassessments conducted by interactive video or telephone may substitute for face-to-face
411.17 reassessments. For services provided by the developmental disabilities waiver under section
411.18 256B.092, and the community access for disability inclusion, community alternative care,
411.19 and brain injury waiver programs under section 256B.49, remote reassessments may be
411.20 substituted for two consecutive reassessments if followed by a face-to-face reassessment.
411.21 For services provided by alternative care under section 256B.0913, essential community
411.22 supports under section 256B.0922, and the elderly waiver under chapter 256S, remote
411.23 reassessments may be substituted for one reassessment if followed by a face-to-face
411.24 reassessment. A remote reassessment is permitted only if the person being reassessed, ~~or~~
411.25 ~~the person's legal representative, and the lead agency case manager both agree that there is~~
411.26 ~~no change in the person's condition, there is no need for a change in service, and that a~~
411.27 ~~remote reassessment is appropriate~~ or the person's legal representative provide informed
411.28 choice for a remote assessment. The person being reassessed, or the person's legal
411.29 representative, has the right to refuse a remote reassessment at any time. During a remote
411.30 reassessment, if the certified assessor determines a face-to-face reassessment is necessary
411.31 ~~in order~~ to complete the assessment, the lead agency shall schedule a face-to-face
411.32 reassessment. All other requirements of a face-to-face reassessment shall apply to a remote
411.33 reassessment, including updates to a person's support plan.

412.1 Sec. 29. Minnesota Statutes 2021 Supplement, section 256B.0946, subdivision 1, is
412.2 amended to read:

425.7 (2) the safety of the person ~~or~~ others in the program, or staff is endangered and positive
425.8 support strategies were attempted and have not achieved and effectively maintained safety
425.9 for the person or others;

425.10 (3) the health of the person ~~or~~ others in the program, or staff would otherwise be
425.11 endangered;

425.12 (4) the ~~program~~ license holder has not been paid for services;

425.13 (5) the program or license holder ceases to operate;

425.14 (6) the person has been terminated by the lead agency from waiver eligibility; or

425.15 (7) for state-operated community-based services, the person no longer demonstrates
425.16 complex behavioral needs that cannot be met by private community-based providers
425.17 identified in section 252.50, subdivision 5, paragraph (a), clause (1).

425.18 (c) Prior to giving notice of service termination, the license holder must document actions
425.19 taken to minimize or eliminate the need for termination. Action taken by the license holder
425.20 must include, at a minimum:

425.21 (1) consultation with the person's support team or expanded support team to identify
425.22 and resolve issues leading to issuance of the termination notice;

425.23 (2) a request to the case manager for intervention services identified in section 245D.03,
425.24 subdivision 1, paragraph (c), clause (1), or other professional consultation or intervention

425.27 (3) for state-operated community-based services terminating services under paragraph
425.28 (b), clause (7), the state-operated community-based services must engage in consultation
425.29 with the person's support team or expanded support team to:

425.30 (i) identify that the person no longer demonstrates complex behavioral needs that cannot

426.6 plan to a private community-based provider to ensure continuity of care; and

426.7 (iv) coordinate with the lead agency to ensure the private community-based service
426.8 provider is able to meet the person's needs and criteria established in a person's
426.9 person-centered transition plan.

426.10 If, based on the best interests of the person, the circumstances at the time of the notice were
426.11 such that the license holder was unable to take the action specified in clauses (1) and (2),
426.12 the license holder must document the specific circumstances and the reason for being unable
426.13 to do so.

426.14 (d) The notice of service termination must meet the following requirements:

426.15 (1) the license holder must notify the person or the person's legal representative and the
426.16 case manager in writing of the intended service termination. If the service termination is
426.17 from residential supports and services as defined in section 245D.03, subdivision 1, paragraph
426.18 (c), clause (3), the license holder must also notify the commissioner in writing; and

426.19 (2) the notice must include:

426.20 (i) the reason for the action;

426.21 (ii) except for a service termination under paragraph (b), clause (5), a summary of actions
426.22 taken to minimize or eliminate the need for service termination or temporary service
426.23 suspension as required under paragraph (c), and why these measures failed to prevent the
426.24 termination or suspension;

426.25 (iii) the person's right to appeal the termination of services under section 256.045,
426.26 subdivision 3, paragraph (a); and

426.27 (iv) the person's right to seek a temporary order staying the termination of services
426.28 according to the procedures in section 256.045, subdivision 4a or 6, paragraph (c).

426.29 (e) Notice of the proposed termination of service, including those situations that began
426.30 with a temporary service suspension, must be given at least 90 days prior to termination of
426.31 services under paragraph (b), clause (7), 60 days prior to termination when a license holder
426.32 is providing intensive supports and services identified in section 245D.03, subdivision 1,

427.1 paragraph (c), and 30 days prior to termination for all other services licensed under this
427.2 chapter. This notice may be given in conjunction with a notice of temporary service
427.3 suspension under subdivision 3.

427.4 (f) During the service termination notice period, the license holder must:

427.5 (1) work with the support team or expanded support team to develop reasonable
427.6 alternatives to protect the person and others and to support continuity of care;

427.7 (2) provide information requested by the person or case manager; and

427.8 (3) maintain information about the service termination, including the written notice of
427.9 intended service termination, in the service recipient record.

427.10 (g) For notices issued under paragraph (b), clause (7), the lead agency shall provide
427.11 notice to the commissioner and state-operated services at least 30 days before the conclusion
427.12 of the 90-day termination period, if an appropriate alternative provider cannot be secured.
427.13 Upon receipt of this notice, the commissioner and state-operated services shall reassess
427.14 whether a private community-based service can meet the person's needs. If the commissioner
427.15 determines that a private provider can meet the person's needs, state-operated services shall,
427.16 if necessary, extend notice of service termination until placement can be made. If the
427.17 commissioner determines that a private provider cannot meet the person's needs,
427.18 state-operated services shall rescind the notice of service termination and re-engage with
427.19 the lead agency in service planning for the person.

427.20 (h) For state-operated community-based services, the license holder shall prioritize the
427.21 capacity created within the existing service site by the termination of services under paragraph
427.22 (b), clause (7), to serve persons described in section 252.50, subdivision 5, paragraph (a),
427.23 clause (1).

427.24 Sec. 3. Minnesota Statutes 2020, section 256.01, is amended by adding a subdivision to
427.25 read:

427.26 **Subd. 12b. Department of Human Services systemic critical incident review team. (a)**
427.27 **The commissioner may establish a Department of Human Services systemic critical incident**
427.28 **review team to review required critical incident reports under section 626.557 for which**
427.29 **the Department of Human Services is responsible under section 626.5572, subdivision 13;**
427.30 **chapter 245D; or Minnesota Rules, chapter 9544. When reviewing a critical incident, the**
427.31 **systemic critical incident review team must identify systemic influences to the incident**
427.32 **rather than determining the culpability of any actors involved in the incident. The systemic**
427.33 **critical incident review may assess the entire critical incident process from the point of an**

428.1 entity reporting the critical incident through the ongoing case management process.
428.2 Department staff must lead and conduct the reviews and may utilize county staff as reviewers.
428.3 The systemic critical incident review process may include but is not limited to:
428.4 (1) data collection about the incident and actors involved. Data may include the critical
428.5 incident report under review; previous incident reports pertaining to the person receiving
428.6 services; the service provider's policies and procedures applicable to the incident; the
428.7 coordinated service and support plan as defined in section 245D.02, subdivision 4b, for the
428.8 person receiving services; or an interview of an actor involved in the critical incident or the
428.9 review of the critical incident. Actors may include:
428.10 (i) staff of the provider agency;
428.11 (ii) lead agency staff administering home and community-based services delivered by
428.12 the provider;
428.13 (iii) Department of Human Services staff with oversight of home and community-based
428.14 services;
428.15 (iv) Department of Health staff with oversight of home and community-based services;
428.16 (v) members of the community including advocates, legal representatives, health care
428.17 providers, pharmacy staff, or others with knowledge of the incident or the actors in the
428.18 incident; and
428.19 (vi) staff from the Office of the Ombudsman for Mental Health and Developmental
428.20 Disabilities;
428.21 (2) systemic mapping of the critical incident. The team conducting the systemic mapping
428.22 of the incident may include any actors identified in clause (1), designated representatives
428.23 of other provider agencies, regional teams, and representatives of the local regional quality
428.24 council identified in section 256B.097; and
428.25 (3) analysis of the case for systemic influences.
428.26 (b) The critical incident review team must aggregate data collected and provide the
428.27 aggregated data to regional teams, participating regional quality councils, and the
428.28 commissioner. The regional teams and quality councils must analyze the data and make
428.29 recommendations to the commissioner regarding systemic changes that would decrease the
428.30 number and severity of critical incidents in the future or improve the quality of the home
428.31 and community-based service system.

429.1 (c) A selection committee must select cases for the systemic critical incident review
429.2 process from among the following critical incident categories:

429.3 (1) cases of caregiver neglect identified in section 626.5572, subdivision 17;

429.4 (2) cases involving financial exploitation identified in section 626.5572, subdivision 9;

429.5 (3) incidents identified in section 245D.02, subdivision 11;

429.6 (4) incidents identified in Minnesota Rules, part 9544.0110; and

429.7 (5) service terminations reported to the department in accordance with section 245D.10,
429.8 subdivision 3a.

429.9 (d) The systemic critical incident review under this section must not replace the process
429.10 for screening or investigating cases of alleged maltreatment of an adult under section 626.557.
429.11 The department, under the jurisdiction of the commissioner, may select for systemic critical
429.12 incident review cases reported for suspected maltreatment and closed following initial or
429.13 final disposition.

429.14 (e) The proceedings and records of the review team are confidential data on individuals
429.15 or protected nonpublic data as defined in section 13.02, subdivisions 3 and 13. Data that
429.16 document a person's opinions formed as a result of the review are not subject to discovery
429.17 or introduction into evidence in a civil or criminal action against a professional, the state,
429.18 or a county agency arising out of the matters that the team is reviewing. Information,
429.19 documents, and records otherwise available from other sources are not immune from
429.20 discovery or use in a civil or criminal action solely because the information, documents,
429.21 and records were assessed or presented during review team proceedings. A person who
429.22 presented information before the systemic critical incident review team or who is a member
429.23 of the team must not be prevented from testifying about matters within the person's
429.24 knowledge. In a civil or criminal proceeding, a person must not be questioned about opinions
429.25 formed by the person as a result of the review.

429.26 (f) By October 1 of each year, the commissioner shall prepare an annual public report
429.27 containing the following information:

429.28 (1) the number of cases reviewed under each critical incident category identified in
429.29 paragraph (b) and a geographical description of where cases under each category originated;

429.30 (2) an aggregate summary of the systemic themes from the critical incidents examined
429.31 by the critical incident review team during the previous year;

430.1 (3) a synopsis of the conclusions, incident analyses, or exploratory activities taken in
430.2 regard to the critical incidents examined by the critical incident review team; and

430.3 (4) recommendations made to the commissioner regarding systemic changes that could
430.4 decrease the number and severity of critical incidents in the future or improve the quality
430.5 of the home and community-based service system.

430.6 Sec. 4. Minnesota Statutes 2020, section 256.045, subdivision 3, is amended to read:

430.7 Subd. 3. **State agency hearings.** (a) State agency hearings are available for the following:

430.8 (1) any person applying for, receiving or having received public assistance, medical
430.9 care, or a program of social services granted by the state agency or a county agency or the
430.10 federal Food and Nutrition Act whose application for assistance is denied, not acted upon
430.11 with reasonable promptness, or whose assistance is suspended, reduced, terminated, or
430.12 claimed to have been incorrectly paid;

430.13 (2) any patient or relative aggrieved by an order of the commissioner under section
430.14 252.27;

430.15 (3) a party aggrieved by a ruling of a prepaid health plan;

430.16 (4) except as provided under chapter 245C, any individual or facility determined by a
430.17 lead investigative agency to have maltreated a vulnerable adult under section 626.557 after
430.18 they have exercised their right to administrative reconsideration under section 626.557;

430.19 (5) any person whose claim for foster care payment according to a placement of the
430.20 child resulting from a child protection assessment under chapter 260E is denied or not acted
430.21 upon with reasonable promptness, regardless of funding source;

430.22 (6) any person to whom a right of appeal according to this section is given by other
430.23 provision of law;

430.24 (7) an applicant aggrieved by an adverse decision to an application for a hardship waiver
430.25 under section 256B.15;

430.26 (8) an applicant aggrieved by an adverse decision to an application or redetermination
430.27 for a Medicare Part D prescription drug subsidy under section 256B.04, subdivision 4a;

430.28 (9) except as provided under chapter 245A, an individual or facility determined to have
430.29 maltreated a minor under chapter 260E, after the individual or facility has exercised the
430.30 right to administrative reconsideration under chapter 260E;

431.1 (10) except as provided under chapter 245C, an individual disqualified under sections
431.2 245C.14 and 245C.15, following a reconsideration decision issued under section 245C.23,
431.3 on the basis of serious or recurring maltreatment; a preponderance of the evidence that the
431.4 individual has committed an act or acts that meet the definition of any of the crimes listed
431.5 in section 245C.15, subdivisions 1 to 4; or for failing to make reports required under section
431.6 260E.06, subdivision 1, or 626.557, subdivision 3. Hearings regarding a maltreatment
431.7 determination under clause (4) or (9) and a disqualification under this clause in which the
431.8 basis for a disqualification is serious or recurring maltreatment, shall be consolidated into
431.9 a single fair hearing. In such cases, the scope of review by the human services judge shall
431.10 include both the maltreatment determination and the disqualification. The failure to exercise
431.11 the right to an administrative reconsideration shall not be a bar to a hearing under this section
431.12 if federal law provides an individual the right to a hearing to dispute a finding of
431.13 maltreatment;

431.14 (11) any person with an outstanding debt resulting from receipt of public assistance,
431.15 medical care, or the federal Food and Nutrition Act who is contesting a setoff claim by the
431.16 Department of Human Services or a county agency. The scope of the appeal is the validity
431.17 of the claimant agency's intention to request a setoff of a refund under chapter 270A against
431.18 the debt;

431.19 (12) a person issued a notice of service termination under section 245D.10, subdivision
431.20 3a, ~~from~~ by a licensed provider of any residential supports and or services as defined listed
431.21 in section 245D.03, subdivision 1, paragraph paragraphs (b) and (c), clause (3), that is not
431.22 otherwise subject to appeal under subdivision 4a;

431.23 (13) an individual disability waiver recipient based on a denial of a request for a rate
431.24 exception under section 256B.4914; or

431.25 (14) a person issued a notice of service termination under section 245A.11, subdivision
431.26 11, that is not otherwise subject to appeal under subdivision 4a.

431.27 (b) The hearing for an individual or facility under paragraph (a), clause (4), (9), or (10),
431.28 is the only administrative appeal to the final agency determination specifically, including
431.29 a challenge to the accuracy and completeness of data under section 13.04. Hearings requested
431.30 under paragraph (a), clause (4), apply only to incidents of maltreatment that occur on or
431.31 after October 1, 1995. Hearings requested by nursing assistants in nursing homes alleged
431.32 to have maltreated a resident prior to October 1, 1995, shall be held as a contested case
431.33 proceeding under the provisions of chapter 14. Hearings requested under paragraph (a),
431.34 clause (9), apply only to incidents of maltreatment that occur on or after July 1, 1997. A

432.1 hearing for an individual or facility under paragraph (a), clauses (4), (9), and (10), is only
432.2 available when there is no district court action pending. If such action is filed in district
432.3 court while an administrative review is pending that arises out of some or all of the events
432.4 or circumstances on which the appeal is based, the administrative review must be suspended
432.5 until the judicial actions are completed. If the district court proceedings are completed,
432.6 dismissed, or overturned, the matter may be considered in an administrative hearing.

432.7 (c) For purposes of this section, bargaining unit grievance procedures are not an
432.8 administrative appeal.

432.9 (d) The scope of hearings involving claims to foster care payments under paragraph (a),
432.10 clause (5), shall be limited to the issue of whether the county is legally responsible for a
432.11 child's placement under court order or voluntary placement agreement and, if so, the correct
432.12 amount of foster care payment to be made on the child's behalf and shall not include review
432.13 of the propriety of the county's child protection determination or child placement decision.

432.14 (e) The scope of hearings under paragraph (a), clauses (12) and (14), shall be limited to
432.15 whether the proposed termination of services is authorized under section 245D.10,
432.16 subdivision 3a, paragraph (b), or 245A.11, subdivision 11, and whether the requirements
432.17 of section 245D.10, subdivision 3a, paragraphs (c) to (e), or 245A.11, subdivision 2a,
432.18 paragraphs (d) to (f), were met. If the appeal includes a request for a temporary stay of
432.19 termination of services, the scope of the hearing shall also include whether the case
432.20 management provider has finalized arrangements for a residential facility, a program, or
432.21 services that will meet the assessed needs of the recipient by the effective date of the service
432.22 termination.

432.23 (f) A vendor of medical care as defined in section 256B.02, subdivision 7, or a vendor
432.24 under contract with a county agency to provide social services is not a party and may not
432.25 request a hearing under this section, except if assisting a recipient as provided in subdivision
432.26 4.

432.27 (g) An applicant or recipient is not entitled to receive social services beyond the services
432.28 prescribed under chapter 256M or other social services the person is eligible for under state
432.29 law.

432.30 (h) The commissioner may summarily affirm the county or state agency's proposed
432.31 action without a hearing when the sole issue is an automatic change due to a change in state
432.32 or federal law.

432.33 (i) Unless federal or Minnesota law specifies a different time frame in which to file an
432.34 appeal, an individual or organization specified in this section may contest the specified

433.1 action, decision, or final disposition before the state agency by submitting a written request
433.2 for a hearing to the state agency within 30 days after receiving written notice of the action,
433.3 decision, or final disposition, or within 90 days of such written notice if the applicant,
433.4 recipient, patient, or relative shows good cause, as defined in section 256.0451, subdivision
433.5 13, why the request was not submitted within the 30-day time limit. The individual filing
433.6 the appeal has the burden of proving good cause by a preponderance of the evidence.

446.18 supervision provided to an individual outside of any service plan for a day program or
446.19 residential support service. Unit-based services without programming do not include respite.

446.20 (b) Component values for unit-based services without programming are:

446.21 (1) competitive workforce factor: 4.7 percent;

446.22 (2) supervisory span of control ratio: 11 percent;

446.23 (3) employee vacation, sick, and training allowance ratio: 8.71 percent;

446.24 (4) employee-related cost ratio: 23.6 percent;

446.25 (5) program plan support ratio: 7.0 percent;

446.26 (6) client programming and support ratio: 2.3 percent, updated as specified in subdivision
446.27 5b;

446.28 (7) general administrative support ratio: 13.25 percent;

446.29 (8) program-related expense ratio: 2.9 percent; and

446.30 (9) absence and utilization factor ratio: 3.9 percent.

447.1 (c) A unit of service for unit-based services without programming is 15 minutes.

447.2 (d) Payments for unit-based services without programming must be calculated as follows
447.3 unless the services are reimbursed separately as part of a residential support services or day
447.4 program payment rate:

447.5 (1) determine the number of units of service to meet a recipient's needs;

447.6 (2) determine the appropriate hourly staff wage rates derived by the commissioner as
447.7 provided in subdivisions 5 to 5a;

447.8 (3) except for subdivision 5a, clauses (1) to (4), multiply the result of clause (2) by the
447.9 product of one plus the competitive workforce factor;

447.10 (4) for a recipient requiring customization for deaf and hard-of-hearing language
447.11 accessibility under subdivision 12, add the customization rate provided in subdivision 12
447.12 to the result of clause (3);

447.13 (5) multiply the number of direct staffing hours by the appropriate staff wage;

447.14 (6) multiply the number of direct staffing hours by the product of the supervisory span
447.15 of control ratio and the appropriate supervisory staff wage in subdivision 5a, clause (1);

447.16 (7) combine the results of clauses (5) and (6), and multiply the result by one plus the
447.17 employee vacation, sick, and training allowance ratio. This is defined as the direct staffing
447.18 rate;

447.19 (8) for program plan support, multiply the result of clause (7) by one plus the program
447.20 plan support ratio;

447.21 (9) for employee-related expenses, multiply the result of clause (8) by one plus the
447.22 employee-related cost ratio;

447.23 (10) for client programming and supports, multiply the result of clause (9) by one plus
447.24 the client programming and support ratio;

447.25 (11) this is the subtotal rate;

447.26 (12) sum the standard general administrative support ratio, the program-related expense
447.27 ratio, and the absence and utilization factor ratio;

447.28 (13) divide the result of clause (11) by one minus the result of clause (12). This is the
447.29 total payment amount;

448.1 (14) for individualized home supports without training provided in a shared manner,
448.2 divide the total payment amount in clause (13) by the number of service recipients, not to
448.3 exceed ~~two~~ three; and

448.4 (15) adjust the result of clause (14) by a factor to be determined by the commissioner
448.5 to adjust for regional differences in the cost of providing services.

459.17 For the purposes of this section, respite services include respite services provided to an
459.18 individual outside of any service plan for a day program or residential support service.

459.19 (b) Component values for respite services are:

459.20 (1) competitive workforce factor: 4.7 percent;

459.21 (2) supervisory span of control ratio: 11 percent;

459.22 (3) employee vacation, sick, and training allowance ratio: 8.71 percent;

459.23 (4) employee-related cost ratio: 23.6 percent;

459.24 (5) general administrative support ratio: 13.25 percent;

459.25 (6) program-related expense ratio: 2.9 percent; and

459.26 (7) absence and utilization factor ratio: 3.9 percent.

459.27 (c) A unit of service for respite services is 15 minutes.

459.28 (d) Payments for respite services must be calculated as follows unless the service is

459.30 (1) determine the number of units of service to meet an individual's needs;

460.1 (2) determine the appropriate hourly staff wage rates derived by the commissioner as
460.2 provided in subdivisions 5 and 5a;

460.3 (3) except for subdivision 5a, clauses (1) to (4), multiply the result of clause (2) by the
460.4 product of one plus the competitive workforce factor;

460.9 of control ratio and the appropriate supervisory staff wage in subdivision 5a, clause (1);

460.10 (7) combine the results of clauses (5) and (6), and multiply the result by one plus the
460.11 employee vacation, sick, and training allowance ratio. This is defined as the direct staffing
460.12 rate;

460.13 (8) for employee-related expenses, multiply the result of clause (7) by one plus the
460.14 employee-related cost ratio;

460.15 (9) this is the subtotal rate;

460.16 (10) sum the standard general administrative support ratio, the program-related expense
460.17 ratio, and the absence and utilization factor ratio;

460.18 (11) divide the result of clause (9) by one minus the result of clause (10). This is the
460.19 total payment amount;

460.20 (12) for respite services provided in a shared manner, divide the total payment amount
460.21 in clause (11) by the number of service recipients, not to exceed three; ~~and~~

460.22 (13) for night supervision provided in a shared manner, divide the total payment amount
460.23 in clause (11) by the number of service recipients, not to exceed two; and

460.24 ~~(13)~~ (14) adjust the result of ~~clause~~ clauses (12) and (13) by a factor to be determined
460.25 by the commissioner to adjust for regional differences in the cost of providing services.

479.21 256B.0624, subdivision 5.

479.22 (b) A provider making a referral under paragraph (a) must conduct an assessment of the
479.23 child's mental health needs and make a determination that the child is experiencing a mental
479.24 health crisis and is in need of residential treatment services under this section.

479.25 (c) A child may receive services under this subdivision for up to 30 days and must be
479.26 subject to the screening and admissions criteria and processes under section 245.4885
479.27 thereafter.

479.28 Sec. 9. Minnesota Statutes 2021 Supplement, section 245.4885, subdivision 1, is amended
479.29 to read:

479.30 Subdivision 1. **Admission criteria.** (a) Prior to admission or placement, except in the
479.31 case of an emergency, all children referred for treatment of severe emotional disturbance

480.1 in a treatment foster care setting, residential treatment facility, or informally admitted to a
480.2 regional treatment center shall undergo an assessment to determine the appropriate level of
480.3 care if county funds are used to pay for the child's services. An emergency includes when
480.4 a child is in need of and has been referred for crisis stabilization services under section
480.5 245.4882, subdivision 6. A child who has been referred to residential treatment for crisis
480.6 stabilization services in a residential treatment center is not required to undergo an assessment
480.7 under this section.

480.8 (b) The county board shall determine the appropriate level of care for a child when
480.9 county-controlled funds are used to pay for the child's residential treatment under this
480.10 chapter, including residential treatment provided in a qualified residential treatment program
480.11 as defined in section 260C.007, subdivision 26d. When a county board does not have
480.12 responsibility for a child's placement and the child is enrolled in a prepaid health program
480.13 under section 256B.69, the enrolled child's contracted health plan must determine the
480.14 appropriate level of care for the child. When Indian Health Services funds or funds of a
480.15 tribally owned facility funded under the Indian Self-Determination and Education Assistance
480.16 Act, Public Law 93-638, are used for the child, the Indian Health Services or 638 tribal
480.17 health facility must determine the appropriate level of care for the child. When more than
480.18 one entity bears responsibility for a child's coverage, the entities shall coordinate level of
480.19 care determination activities for the child to the extent possible.

480.20 (c) The child's level of care determination shall determine whether the proposed treatment:

480.21 (1) is necessary;

480.22 (2) is appropriate to the child's individual treatment needs;

480.23 (3) cannot be effectively provided in the child's home; and

480.24 (4) provides a length of stay as short as possible consistent with the individual child's
480.25 needs.

480.26 (d) When a level of care determination is conducted, the county board or other entity
480.27 may not determine that a screening of a child, referral, or admission to a residential treatment
480.28 facility is not appropriate solely because services were not first provided to the child in a
480.29 less restrictive setting and the child failed to make progress toward or meet treatment goals
480.30 in the less restrictive setting. The level of care determination must be based on a diagnostic
480.31 assessment of a child that evaluates the child's family, school, and community living
480.32 situations; and an assessment of the child's need for care out of the home using a validated
480.33 tool which assesses a child's functional status and assigns an appropriate level of care to the
480.34 child. The validated tool must be approved by the commissioner of human services and

481.1 may be the validated tool approved for the child's assessment under section 260C.704 if the
481.2 juvenile treatment screening team recommended placement of the child in a qualified
481.3 residential treatment program. If a diagnostic assessment has been completed by a mental
481.4 health professional within the past 180 days, a new diagnostic assessment need not be
481.5 completed unless in the opinion of the current treating mental health professional the child's
481.6 mental health status has changed markedly since the assessment was completed. The child's
481.7 parent shall be notified if an assessment will not be completed and of the reasons. A copy
481.8 of the notice shall be placed in the child's file. Recommendations developed as part of the
481.9 level of care determination process shall include specific community services needed by
481.10 the child and, if appropriate, the child's family, and shall indicate whether these services
481.11 are available and accessible to the child and the child's family. The child and the child's
481.12 family must be invited to any meeting where the level of care determination is discussed
481.13 and decisions regarding residential treatment are made. The child and the child's family
481.14 may invite other relatives, friends, or advocates to attend these meetings.

481.15 (e) During the level of care determination process, the child, child's family, or child's
481.16 legal representative, as appropriate, must be informed of the child's eligibility for case
481.17 management services and family community support services and that an individual family
481.18 community support plan is being developed by the case manager, if assigned.

481.19 (f) The level of care determination, placement decision, and recommendations for mental
481.20 health services must be documented in the child's record and made available to the child's
481.21 family, as appropriate.

481.22 Sec. 10. Minnesota Statutes 2021 Supplement, section 245.4889, subdivision 1, is amended
481.23 to read:

553.8 developmental disability, or related condition in a residential treatment facility licensed by
553.9 the commissioner of human services under chapter 245A, or licensed or approved by a

553.15 (4) a licensed residential family-based treatment facility for substance abuse consistent with
553.16 section 260C.190. Screenings are also not required when a child must be placed in a facility
553.17 due to an emotional crisis or other mental health emergency.

553.18 (b) The responsible social services agency shall conduct screenings within 15 days of a
553.19 request for a screening, unless the screening is for the purpose of residential treatment and
553.20 the child is enrolled in a prepaid health program under section 256B.69, in which case the
553.21 agency shall conduct the screening within ten working days of a request. The responsible
553.22 social services agency shall convene the juvenile treatment screening team, which may be
553.23 constituted under section 245.4885 ~~or~~, 254B.05, or 256B.092 ~~or Minnesota Rules, parts~~

553.27 The team may include the child's relatives as defined in section 260C.007, subdivisions 26b
553.28 and 27, the child's foster care provider, and professionals who are a resource to the child's
553.29 family such as teachers, medical or mental health providers, and clergy, as appropriate,
553.30 consistent with the family and permanency team as defined in section 260C.007, subdivision

553.32 child's parents, the child if the child is age 14 or older, and, if applicable, the child's Tribe
553.33 to obtain recommendations regarding which individuals to include on the team and to ensure
553.34 that the team is family-centered and will act in the child's best interests. If the child, child's

554.1 parents, or legal guardians raise concerns about specific relatives or professionals, the team
554.2 should not include those individuals. This provision does not apply to paragraph (c).

554.3 (c) If the agency provides notice to Tribes under section 260.761, and the child screened
554.4 is an Indian child, the responsible social services agency must make a rigorous and concerted
554.5 effort to include a designated representative of the Indian child's Tribe on the juvenile
554.6 treatment screening team, unless the child's Tribal authority declines to appoint a
554.7 representative. The Indian child's Tribe may delegate its authority to represent the child to
554.8 any other federally recognized Indian Tribe, as defined in section 260.755, subdivision 12.

554.11 260.835, apply to this section.

554.12 (d) If the court, prior to, or as part of, a final disposition or other court order, proposes
554.13 to place a child with an emotional disturbance or developmental disability or related condition
554.14 in residential treatment, the responsible social services agency must conduct a screening.
554.15 If the team recommends treating the child in a qualified residential treatment program, the
554.16 agency must follow the requirements of sections 260C.70 to 260C.714.

554.17 The court shall ascertain whether the child is an Indian child and shall notify the
554.18 responsible social services agency and, if the child is an Indian child, shall notify the Indian
554.19 child's Tribe as paragraph (c) requires.

554.20 (e) When the responsible social services agency is responsible for placing and caring
554.21 for the child and the screening team recommends placing a child in a qualified residential

554.23 begin the assessment and processes required in section 260C.704 without delay; and (2)
554.24 conduct a relative search according to section 260C.221 to assemble the child's family and
554.25 permanency team under section 260C.706. Prior to notifying relatives regarding the family
554.26 and permanency team, the responsible social services agency must consult with the child's
554.27 parent or legal guardian, the child if the child is age 14 or older, and, if applicable, the child's
554.28 Tribe to ensure that the agency is providing notice to individuals who will act in the child's
554.29 best interests. The child and the child's parents may identify a culturally competent qualified
554.30 individual to complete the child's assessment. The agency shall make efforts to refer the
554.31 assessment to the identified qualified individual. The assessment may not be delayed for
554.32 the purpose of having the assessment completed by a specific qualified individual.

554.33 (f) When a screening team determines that a child does not need treatment in a qualified
554.34 residential treatment program, the screening team must:

555.1 (1) document the services and supports that will prevent the child's foster care placement
555.2 and will support the child remaining at home;

555.3 (2) document the services and supports that the agency will arrange to place the child
555.4 in a family foster home; or

555.5 (3) document the services and supports that the agency has provided in any other setting.

555.6 (g) When the Indian child's Tribe or Tribal health care services provider or Indian Health
555.7 Services provider proposes to place a child for the primary purpose of treatment for an
555.8 emotional disturbance, a developmental disability, or co-occurring emotional disturbance
555.9 and chemical dependency, the Indian child's Tribe or the Tribe delegated by the child's Tribe
555.10 shall submit necessary documentation to the county juvenile treatment screening team,
555.11 which must invite the Indian child's Tribe to designate a representative to the screening
555.12 team.

555.13 (h) The responsible social services agency must conduct and document the screening in

556.10 to be safe, the agency shall consult with the county attorney to determine the appropriateness
556.11 of filing a petition alleging the child is in need of protection or services under section
556.12 260C.007, subdivision 6, clause (16), in order to deliver needed services. If the child is

572.23 ~~per week at the facility except the administrator, and to reimburse student loan expenses~~
572.24 ~~for newly hired registered nurses and licensed practical nurses, and training expenses for~~
572.25 ~~nursing assistants as specified in section 144A.611, subdivisions 2 and 4, who are newly~~
572.26 ~~hired; and~~

572.27 ~~(ii) the course of study is expected to lead to career advancement with the facility or in~~
572.28 ~~long-term care, including medical care interpreter services and social work; and~~

572.29 ~~(2) to provide job-related training in English as a second language.~~

572.30 ~~(b) All facilities may annually request a rate adjustment under this section by submitting~~
572.31 ~~information to the commissioner on a schedule and in a form supplied by the commissioner.~~

573.1 ~~The commissioner shall allow a scholarship payment rate equal to the reported and allowable~~
573.2 ~~costs divided by resident days.~~

573.3 ~~(c) In calculating the per diem under paragraph (b), the commissioner shall allow costs~~
573.4 ~~related to tuition, direct educational expenses, and reasonable costs as defined by the~~
573.5 ~~commissioner for child care costs and transportation expenses related to direct educational~~
573.6 ~~expenses.~~

573.7 ~~(d) The rate increase under this section is an optional rate add-on that the facility must~~
573.8 ~~request from the commissioner in a manner prescribed by the commissioner. The rate~~
573.9 ~~increase must be used for scholarships as specified in this section.~~

573.10 ~~(e) For instances in which a rate adjustment will be 15 cents or greater, nursing facilities~~
573.11 ~~that close beds during a rate year may request to have their scholarship adjustment under~~
573.12 ~~paragraph (b) recalculated by the commissioner for the remainder of the rate year to reflect~~
573.13 ~~the reduction in resident days compared to the cost report year.~~

573.14 (a) The commissioner shall provide a scholarship per diem rate calculated using the
573.15 criteria in paragraphs (b) to (d). The per diem rate must be based on the allowable costs the
573.16 facility paid for employee scholarships for any eligible employee, except the facility
573.17 administrator, who works an average of at least ten hours per week in the licensed nursing
573.18 facility building when the facility has paid expenses related to:

573.19 (1) an employee's course of study that is expected to lead to career advancement with
573.20 the facility or in the field of long-term care;

573.21 (2) an employee's job-related training in English as a second language;

573.22 (3) the reimbursement of student loan expenses for newly hired registered nurses and
573.23 licensed practical nurses; and

573.24 (4) the reimbursement of training, testing, and associated expenses for newly hired
573.25 nursing assistants as specified in section 144A.611, subdivisions 2 and 4. The reimbursement
573.26 of nursing assistant expenses under this clause is not subject to the ten-hour minimum work
573.27 requirement under this paragraph.

573.28 (b) Allowable scholarship costs include: tuition, student loan reimbursement, other direct
573.29 educational expenses, and reasonable costs for child care and transportation expenses directly
573.30 related to education, as defined by the commissioner.

573.31 (c) The commissioner shall provide a scholarship per diem rate equal to the allowable
573.32 scholarship costs divided by resident days. The commissioner shall compute the scholarship

574.1 per diem rate annually and include the scholarship per diem rate in the external fixed costs
574.2 payment rate.

574.3 (d) When the resulting scholarship per diem rate is 15 cents or more, nursing facilities
574.4 that close beds during a rate year may request to have the scholarship rate recalculated. This
574.5 recalculation is effective from the date of the bed closure through the remainder of the rate
574.6 year and reflects the estimated reduction in resident days compared to the previous cost
574.7 report year.

574.8 (e) Facilities seeking to have the facility's scholarship expenses recognized for the
574.9 payment rate computation in section 256R.25 may apply annually by submitting information
574.10 to the commissioner on a schedule and in a form supplied by the commissioner.

574.11 Sec. 30. Minnesota Statutes 2020, section 256R.39, is amended to read:

574.20 ~~2016, rate adjustments provided under this section shall be effective for 15 months. Beginning~~
574.21 ~~January 1, 2017, An~~ annual rate adjustments adjustment provided under this section ~~shall~~

574.25 256R.49, and Minnesota Rules, part 9555.6255, are repealed.

574.26 **ARTICLE 12**

574.27 **CONTINUING CARE FOR OLDER ADULTS**

574.28 Section 1. Minnesota Statutes 2020, section 177.27, subdivision 4, is amended to read:

574.29 Subd. 4. **Compliance orders.** The commissioner may issue an order requiring an
574.30 employer to comply with sections 177.21 to 177.435, 181.02, 181.03, 181.031, 181.032,
574.31 181.101, 181.11, 181.13, 181.14, 181.145, 181.15, 181.172, paragraph (a) or (d), 181.214

575.1 to 181.217, 181.275, subdivision 2a, 181.722, 181.79, and 181.939 to 181.943, or with any
575.2 rule promulgated under section 177.28 or 181.213. The commissioner shall issue an order
575.3 requiring an employer to comply with sections 177.41 to 177.435 if the violation is repeated.
575.4 For purposes of this subdivision only, a violation is repeated if at any time during the two
575.5 years that preceded the date of violation, the commissioner issued an order to the employer
575.6 for violation of sections 177.41 to 177.435 and the order is final or the commissioner and
575.7 the employer have entered into a settlement agreement that required the employer to pay
575.8 back wages that were required by sections 177.41 to 177.435. The department shall serve
575.9 the order upon the employer or the employer's authorized representative in person or by
575.10 certified mail at the employer's place of business. An employer who wishes to contest the
575.11 order must file written notice of objection to the order with the commissioner within 15
575.12 calendar days after being served with the order. A contested case proceeding must then be
575.13 held in accordance with sections 14.57 to 14.69. If, within 15 calendar days after being
575.14 served with the order, the employer fails to file a written notice of objection with the
575.15 commissioner, the order becomes a final order of the commissioner.

575.16 Sec. 2. Minnesota Statutes 2020, section 177.27, subdivision 7, is amended to read:

575.17 Subd. 7. **Employer liability.** If an employer is found by the commissioner to have
575.18 violated a section identified in subdivision 4, or any rule adopted under section 177.28 or
575.19 181.213, and the commissioner issues an order to comply, the commissioner shall order the
575.20 employer to cease and desist from engaging in the violative practice and to take such
575.21 affirmative steps that in the judgment of the commissioner will effectuate the purposes of
575.22 the section or rule violated. The commissioner shall order the employer to pay to the
575.23 aggrieved parties back pay, gratuities, and compensatory damages, less any amount actually
575.24 paid to the employee by the employer, and for an additional equal amount as liquidated
575.25 damages. Any employer who is found by the commissioner to have repeatedly or willfully
575.26 violated a section or sections identified in subdivision 4 shall be subject to a civil penalty
575.27 of up to \$1,000 for each violation for each employee. In determining the amount of a civil
575.28 penalty under this subdivision, the appropriateness of such penalty to the size of the
575.29 employer's business and the gravity of the violation shall be considered. In addition, the
575.30 commissioner may order the employer to reimburse the department and the attorney general
575.31 for all appropriate litigation and hearing costs expended in preparation for and in conducting
575.32 the contested case proceeding, unless payment of costs would impose extreme financial
575.33 hardship on the employer. If the employer is able to establish extreme financial hardship,
575.34 then the commissioner may order the employer to pay a percentage of the total costs that
575.35 will not cause extreme financial hardship. Costs include but are not limited to the costs of

576.1 services rendered by the attorney general, private attorneys if engaged by the department,
576.2 administrative law judges, court reporters, and expert witnesses as well as the cost of
576.3 transcripts. Interest shall accrue on, and be added to, the unpaid balance of a commissioner's
576.4 order from the date the order is signed by the commissioner until it is paid, at an annual rate
576.5 provided in section 549.09, subdivision 1, paragraph (c). The commissioner may establish
576.6 escrow accounts for purposes of distributing damages.

578.20 **EMPLOYMENT STANDARDS.**

578.21 Subdivision 1. **Authority to establish minimum nursing home employment**
578.22 **standards.** (a) The board must adopt rules establishing minimum nursing home employment
578.23 standards that are reasonably necessary and appropriate to protect the health and welfare
578.24 of nursing home workers, to ensure that nursing home workers are properly trained and
578.25 fully informed of their rights under sections 181.211 to 181.217, and to otherwise satisfy
578.26 the purposes of sections 181.211 to 181.217. Standards established by the board must
578.27 include, as appropriate, standards on compensation, working hours, and other working
578.28 conditions for nursing home workers. Any standards established by the board under this
578.29 section must be at least as protective of or beneficial to nursing home workers as any other
578.30 applicable statute or rule or any standard previously established by the board. In establishing
578.31 standards under this section, the board may establish statewide standards, standards that
578.32 apply to specific nursing home occupations, standards that apply to specific geographic
578.33 areas within the state, or any combination thereof.

579.1 (b) The board must adopt rules establishing initial standards for wages and working
579.2 hours for nursing home workers no later than August 1, 2023. The board may use the
579.3 authority in section 14.389 to adopt rules under this paragraph.

579.4 (c) To the extent that any minimum standards that the board finds are reasonably
579.5 necessary and appropriate to protect the health and welfare of nursing home workers fall
579.6 within the jurisdiction of chapter 182, the board shall not adopt rules establishing the
579.7 standards but shall instead recommend the standards to the commissioner of labor and
579.8 industry. The commissioner of labor and industry shall adopt nursing home health and safety
579.9 standards under section 182.655 as recommended by the board, unless the commissioner
579.10 determines that the recommended standard is outside the statutory authority of the
579.11 commissioner or is otherwise unlawful and issues a written explanation of this determination.

579.12 Subd. 2. **Investigation of market conditions.** The board must investigate market
579.13 conditions and the existing wages, benefits, and working conditions of nursing home workers
579.14 for specific geographic areas of the state and specific nursing home occupations. Based on
579.15 this information, the board must seek to adopt minimum nursing home employment standards
579.16 that meet or exceed existing industry conditions for a majority of nursing home workers in
579.17 the relevant geographic area and nursing home occupation. The board must consider the
579.18 following types of information in making wage rate determinations that are reasonably
579.19 necessary to protect the health and welfare of nursing home workers:

579.20 (1) wage rate and benefit data collected by or submitted to the board for nursing home
579.21 workers in the relevant geographic area and nursing home occupations;

579.22 (2) statements showing wage rates and benefits paid to nursing home workers in the
579.23 relevant geographic area and nursing home occupations;

579.24 (3) signed collective bargaining agreements applicable to nursing home workers in the
579.25 relevant geographic area and nursing home occupations;

579.26 (4) testimony and information from current and former nursing home workers, worker
579.27 organizations, nursing home employers, and employer organizations;

579.28 (5) local minimum nursing home employment standards;

579.29 (6) information submitted by or obtained from state and local government entities; and

579.30 (7) any other information pertinent to establishing minimum nursing home employment
579.31 standards.

579.32 Subd. 3. **Review of standards.** At least once every two years, the board shall:

580.1 (1) conduct a full review of the adequacy of the minimum nursing home employment
580.2 standards previously established by the board; and

580.3 (2) following that review, adopt new rules, amend or repeal existing rules, or make
580.4 recommendations to adopt new rules or amend or repeal existing rules, as appropriate to
580.5 meet the purposes of sections 181.211 to 181.217.

580.6 Subd. 4. **Conflict.** In the event of a conflict between a standard established by the board
580.7 in rule and a rule adopted by another state agency, the rule adopted by the board shall apply
580.8 to nursing home workers and nursing home employers, except where the conflicting rule
580.9 is issued after the board's standard, and the rule issued by the other state agency is more
580.10 protective or more beneficial, then the subsequent more protective or more beneficial rule
580.11 must apply to nursing home workers and nursing home employers.

580.12 Subd. 5. **Effect on other agreements.** Nothing in sections 181.211 to 181.217 shall be
580.13 construed to:

580.14 (1) limit the rights of parties to a collective bargaining agreement to bargain and agree
580.15 with respect to nursing home employment standards; or

580.16 (2) diminish the obligation of a nursing home employer to comply with any contract,
580.17 collective bargaining agreement, or employment benefit program or plan that meets or
580.18 exceeds, and does not conflict with, the minimum standards and requirements in sections
580.19 181.211 to 181.217 or established by the board.

580.20 Sec. 6. **[181.214] DUTIES OF THE BOARD; TRAINING FOR NURSING HOME**
580.21 **WORKERS.**

580.22 Subdivision 1. **Certification of worker organizations.** The board shall certify worker
580.23 organizations that it finds are qualified to provide training to nursing home workers according
580.24 to this section. The board shall by rule establish certification criteria that a worker
580.25 organization must meet in order to be certified. In adopting rules to establish initial
580.26 certification criteria under this subdivision, the board may use the authority in section 14.389.
580.27 The criteria must ensure that a worker organization, if certified, is able to provide:

580.28 (1) effective, interactive training on the information required by this section; and

580.29 (2) follow-up written materials and responses to inquiries from nursing home workers
580.30 in the languages in which nursing home workers are proficient.

581.1 Subd. 2. **Curriculum.** (a) The board shall establish requirements for the curriculum for
581.2 the nursing home worker training required by this section. A curriculum must at least provide
581.3 the following information to nursing home workers:

581.4 (1) the applicable compensation, working hours, and working conditions in the minimum
581.5 standards or local minimum standards established by the board;

581.6 (2) the antiretaliation protections established in section 181.216;

581.7 (3) information on how to enforce sections 181.211 to 181.217 and on how to report
581.8 violations of sections 181.211 to 181.217 or of standards established by the board, including
581.9 contact information for the Department of Labor and Industry, the board, and any local
581.10 enforcement agencies, and information on the remedies available for violations;

581.11 (4) the purposes and functions of the board and information on upcoming hearings,
581.12 investigations, or other opportunities for nursing home workers to become involved in board
581.13 proceedings;

581.14 (5) other rights, duties, and obligations under sections 181.211 to 181.217;

581.15 (6) any updates or changes to the information provided according to clauses (1) to (5)
581.16 since the most recent training session;

581.17 (7) any other information the board deems appropriate to facilitate compliance with
581.18 sections 181.211 to 181.217; and

581.19 (8) information on other applicable local, state, and federal laws, rules, and ordinances
581.20 regarding nursing home working conditions or nursing home worker health and safety.

581.21 (b) Before establishing initial curriculum requirements, the board must hold at least one
581.22 public hearing to solicit input on the requirements.

581.23 Subd. 3. **Topics covered in training session.** A certified worker organization is not
581.24 required to cover all of the topics listed in subdivision 2 in a single training session. A
581.25 curriculum used by a certified worker organization may provide instruction on each topic
581.26 listed in subdivision 2 over the course of up to three training sessions.

581.27 Subd. 4. **Annual review of curriculum requirements.** The board must review the
581.28 adequacy of its curriculum requirements at least annually and must revise the requirements
581.29 as appropriate to meet the purposes of sections 181.211 to 181.217. As part of each annual
581.30 review of the curriculum requirements, the board must hold at least one public hearing to
581.31 solicit input on the requirements.

581.32 Subd. 5. **Duties of certified worker organizations.** A certified worker organization:

582.1 (1) must use a curriculum for its training sessions that meets requirements established
582.2 by the board;

582.3 (2) must provide trainings that are interactive and conducted in the languages in which
582.4 the attending nursing home workers are proficient;

582.5 (3) must, at the end of each training session, provide attending nursing home workers
582.6 with follow-up written or electronic materials on the topics covered in the training session,
582.7 in order to fully inform nursing home workers of their rights and opportunities under sections
582.8 181.211 to 181.217 and other applicable laws, rules, and ordinances governing nursing
582.9 home working conditions or worker health and safety;

582.10 (4) must make itself reasonably available to respond to inquiries from nursing home
582.11 workers during and after training sessions; and

582.12 (5) may conduct surveys of nursing home workers who attend a training session to assess
582.13 the effectiveness of the training session and industry compliance with sections 181.211 to
582.14 181.217 and other applicable laws, rules, and ordinances governing nursing home working
582.15 conditions or worker health and safety.

582.16 **Subd. 6. Nursing home employer duties regarding training.** (a) A nursing home
582.17 employer must ensure, and must provide proof to the commissioner of labor and industry,
582.18 that every six months each of its nursing home workers completes one hour of training that
582.19 meets the requirements of this section and is provided by a certified worker organization.
582.20 A nursing home employer may, but is not required to, host training sessions on the premises
582.21 of the nursing home.

582.22 (b) If requested by a certified worker organization, a nursing home employer must, after
582.23 a training session provided by the certified worker organization, provide the certified worker
582.24 organization with the names and contact information of the nursing home workers who

583.12 working at the site; or

583.13 (2) providing a paper or electronic copy of the notice to all nursing home workers and
583.14 applicants for employment as a nursing home worker.

583.15 (b) The notice required by this subdivision must include text provided by the board that
583.16 informs nursing home workers that they may request the notice to be provided in a particular
583.17 language. The nursing home employer must provide the notice in the language requested
583.18 by the nursing home worker. The board must assist nursing home employers in translating
583.19 the notice in the languages requested by their nursing home workers.

583.20 Subd. 2. **Minimum content and posting requirements.** The board must adopt rules
583.21 specifying the minimum content and posting requirements for the notices required in
583.22 subdivision 1. The board must make available to nursing home employers a template or

584.3 maximum hours of work, and other working conditions established by the board in rule as
584.4 minimum nursing home employment standards shall be the minimum wages, maximum
584.5 hours of work, and standard conditions of labor for nursing home workers or a subgroup
584.6 of nursing home workers as a matter of state law. It shall be unlawful for a nursing home
584.7 employer to employ a nursing home worker for lower wages or for longer hours than those
584.8 established as the minimum nursing home employment standards or under any other working
584.9 conditions that violate the minimum nursing home employment standards.

584.10 Subd. 2. **Investigations.** The commissioner may investigate possible violations of sections
584.11 181.214 to 181.217 or of the minimum nursing home employment standards established by
584.12 the board whenever it has cause to believe that a violation has occurred, either on the basis

584.14 violations found during the course of an investigation.

584.15 Subd. 3. **Enforcement authority.** The Department of Labor and Industry shall enforce

584.20 may bring a civil action in district court seeking redress for violations of sections 181.211
584.21 to 181.217 or of any applicable minimum nursing home employment standards or local
584.22 minimum nursing home employment standards. Such an action may be filed in the district
584.23 court of the county where a violation or violations are alleged to have been committed or
584.24 where the nursing home employer resides, or in any other court of competent jurisdiction,
584.25 and may represent a class of similarly situated nursing home workers.

584.26 (b) Upon a finding of one or more violations, a nursing home employer shall be liable
584.27 to each nursing home worker for the full amount of the wages, benefits, and overtime
584.28 compensation, less any amount the nursing home employer is able to establish was actually
584.29 paid to each nursing home worker and for an additional equal amount as liquidated damages.
584.30 In an action under this subdivision, nursing home workers may seek damages and other
584.31 appropriate relief provided by section 177.27, subdivision 7, or otherwise provided by law,
584.32 including reasonable costs, disbursements, witness fees, and attorney fees. A court may also
584.33 issue an order requiring compliance with sections 181.211 to 181.217 or with the applicable
584.34 minimum nursing home employment standards or local minimum nursing home employment

585.1 standards. A nursing home worker found to have experienced a retaliatory personnel action
585.2 in violation of section 181.216 shall be entitled to reinstatement to the worker's previous
585.3 position, wages, benefits, hours, and other conditions of employment.

585.4 (c) An agreement between a nursing home employer and nursing home worker or labor
585.5 union that fails to meet the minimum standards and requirements in sections 181.211 to
585.6 181.217 or established by the board is not a defense to an action brought under this
585.7 subdivision.

585.8 Sec. 10. Minnesota Statutes 2020, section 256B.0913, subdivision 4, is amended to read:

585.9 Subd. 4. **Eligibility for funding for services for nonmedical assistance recipients.** (a)
585.10 Funding for services under the alternative care program is available to persons who meet
585.11 the following criteria:

585.12 (1) the person is a citizen of the United States or a United States national;

585.13 (2) the person has been determined by a community assessment under section 256B.0911
585.14 to be a person who would require the level of care provided in a nursing facility, as
585.15 determined under section 256B.0911, subdivision 4e, but for the provision of services under
585.16 the alternative care program;

585.17 (3) the person is age 65 or older;

585.18 (4) the person would be eligible for medical assistance within 135 days of admission to
585.19 a nursing facility;

585.20 (5) the person is not ineligible for the payment of long-term care services by the medical
585.21 assistance program due to an asset transfer penalty under section 256B.0595 or equity
585.22 interest in the home exceeding \$500,000 as stated in section 256B.056;

585.23 (6) the person needs long-term care services that are not funded through other state or
585.24 federal funding, or other health insurance or other third-party insurance such as long-term
585.25 care insurance;

585.26 (7) except for individuals described in clause (8), the monthly cost of the alternative
585.27 care services funded by the program for this person does not exceed 75 percent of the
585.28 monthly limit described under section 256S.18. This monthly limit does not prohibit the
585.29 alternative care client from payment for additional services, but in no case may the cost of
585.30 additional services purchased under this section exceed the difference between the client's
585.31 monthly service limit defined under section 256S.04, and the alternative care program
585.32 monthly service limit defined in this paragraph. If care-related supplies and equipment or

586.1 environmental modifications and adaptations are or will be purchased for an alternative
586.2 care services recipient, the costs may be prorated on a monthly basis for up to 12 consecutive
586.3 months beginning with the month of purchase. If the monthly cost of a recipient's other
586.4 alternative care services exceeds the monthly limit established in this paragraph, the annual
586.5 cost of the alternative care services ~~shall~~ must be determined. In this event, the annual cost
586.6 of alternative care services ~~shall~~ must not exceed 12 times the monthly limit described in
586.7 this paragraph;

586.8 (8) for individuals assigned a case mix classification A as described under section
586.9 256S.18, with (i) no dependencies in activities of daily living, or (ii) up to two dependencies
586.10 in bathing, dressing, grooming, walking, and eating when the dependency score in eating
586.11 is three or greater as determined by an assessment performed under section 256B.0911, the
586.12 monthly cost of alternative care services funded by the program cannot exceed \$593 per
586.13 month for all new participants enrolled in the program on or after July 1, 2011. This monthly
586.14 limit shall be applied to all other participants who meet this criteria at reassessment. This
586.15 monthly limit ~~shall~~ must be increased annually as described in section 256S.18. This monthly
586.16 limit does not prohibit the alternative care client from payment for additional services, but
586.17 in no case may the cost of additional services purchased exceed the difference between the
586.18 client's monthly service limit defined in this clause and the limit described in clause (7) for
586.19 case mix classification A; ~~and~~

586.20 (9) the person is making timely payments of the assessed monthly fee; and

586.21 (10) for a person participating in consumer-directed community supports, the person's
586.22 monthly service limit must be equal to the monthly service limits in clause (7), except that
586.23 a person assigned a case mix classification L must receive the monthly service limit for
586.24 case mix classification A.

586.25 A person is ineligible if payment of the fee is over 60 days past due, unless the person agrees
586.26 to:

586.27 (i) the appointment of a representative payee;

586.28 (ii) automatic payment from a financial account;

586.29 (iii) the establishment of greater family involvement in the financial management of
586.30 payments; or

586.31 (iv) another method acceptable to the lead agency to ensure prompt fee payments.

586.32 The lead agency may extend the client's eligibility as necessary while making
586.33 arrangements to facilitate payment of past-due amounts and future premium payments.

587.1 Following disenrollment due to nonpayment of a monthly fee, eligibility ~~shall~~ must not be
587.2 reinstated for a period of 30 days.

587.3 (b) Alternative care funding under this subdivision is not available for a person who is
587.4 a medical assistance recipient or who would be eligible for medical assistance without a
587.5 spenddown or waiver obligation. A person whose initial application for medical assistance
587.6 and the elderly waiver program is being processed may be served under the alternative care
587.7 program for a period up to 60 days. If the individual is found to be eligible for medical
587.8 assistance, medical assistance must be billed for services payable under the federally
587.9 approved elderly waiver plan and delivered from the date the individual was found eligible
587.10 for the federally approved elderly waiver plan. Notwithstanding this provision, alternative
587.11 care funds may not be used to pay for any service the cost of which: (i) is payable by medical
587.12 assistance; (ii) is used by a recipient to meet a waiver obligation; or (iii) is used to pay a
587.13 medical assistance income spenddown for a person who is eligible to participate in the
587.14 federally approved elderly waiver program under the special income standard provision.

587.15 (c) Alternative care funding is not available for a person who resides in a licensed nursing
587.16 home, certified boarding care home, hospital, or intermediate care facility, except for case
587.17 management services which are provided in support of the discharge planning process for
587.18 a nursing home resident or certified boarding care home resident to assist with a relocation
587.19 process to a community-based setting.

587.20 (d) Alternative care funding is not available for a person whose income is greater than
587.21 the maintenance needs allowance under section 256S.05, but equal to or less than 120 percent
587.22 of the federal poverty guideline effective July 1 in the fiscal year for which alternative care
587.23 eligibility is determined, who would be eligible for the elderly waiver with a waiver
587.24 obligation.

587.25 **EFFECTIVE DATE.** This section is effective January 1, 2023.

587.26 Sec. 11. Minnesota Statutes 2020, section 256B.0913, subdivision 5, is amended to read:

603.12 (4) the parent's custodial rights to another child have been involuntarily transferred to a
603.13 relative under Minnesota Statutes 2010, section 260C.201, subdivision 11, paragraph (d),
603.14 clause (1), section 260C.515, subdivision 4, or a similar law of another jurisdiction;

603.15 (5) the parent has committed sexual abuse as defined in section 260E.03, against the
603.16 child or another child of the parent;

603.17 (6) the parent has committed an offense that requires registration as a predatory offender
603.18 under section 243.166, subdivision 1b, paragraph (a) or (b); or

603.19 (7) the provision of services or further services for the purpose of reunification is futile
603.20 and therefore unreasonable under the circumstances.

603.21 (b) When the court makes one of the prima facie determinations under paragraph (a),
603.22 either permanency pleadings under section 260C.505, or a termination of parental rights
603.23 petition under sections 260C.141 and 260C.301 must be filed. A permanency hearing under
603.24 sections 260C.503 to 260C.521 must be held within 30 days of this determination.

603.25 (c) In the case of an Indian child, in proceedings under sections 260B.178, 260C.178,
603.26 260C.201, 260C.202, 260C.204, 260C.301, or 260C.503 to 260C.521, the juvenile court
603.27 must make findings and conclusions consistent with the Indian Child Welfare Act of 1978,
603.28 United States Code, title 25, section 1901 et seq., as to the provision of active efforts. In
603.29 cases governed by the Indian Child Welfare Act of 1978, United States Code, title 25, section
603.30 1901, the responsible social services agency must provide active efforts as required under
603.31 United States Code, title 25, section 1911(d).

603.32 (d) "Reasonable efforts to prevent placement" means:

604.1 (1) the agency has made reasonable efforts to prevent the placement of the child in foster
604.2 care by working with the family to develop and implement a safety plan that is individualized
604.3 to the needs of the child and the child's family and may include support persons from the
604.4 child's extended family, kin network, and community; or

604.5 (2) the agency has demonstrated to the court that, given the particular circumstances of
604.6 the child and family at the time of the child's removal, there are no services or efforts
604.7 available ~~which~~ that could allow the child to safely remain in the home.

604.8 (e) "Reasonable efforts to finalize a permanent plan for the child" means due diligence
604.9 by the responsible social services agency to:

604.10 (1) reunify the child with the parent or guardian from whom the child was removed;

604.11 (2) assess a noncustodial parent's ability to provide day-to-day care for the child and,
604.12 where appropriate, provide services necessary to enable the noncustodial parent to safely
604.13 provide the care, as required by section 260C.219;

604.14 (3) conduct a relative search to identify and provide notice to adult relatives, and engage
604.15 relatives in case planning and permanency planning, as required under section 260C.221;

604.16 (4) consider placing the child with relatives in the order specified in section 260C.212,
604.17 subdivision 2, paragraph (a);

604.18 ~~(4)~~ (5) place siblings removed from their home in the same home for foster care or
604.19 adoption, or transfer permanent legal and physical custody to a relative. Visitation between
604.20 siblings who are not in the same foster care, adoption, or custodial placement or facility
604.21 shall be consistent with section 260C.212, subdivision 2; and

604.22 ~~(5)~~ (6) when the child cannot return to the parent or guardian from whom the child was
604.23 removed, to plan for and finalize a safe and legally permanent alternative home for the child,
604.24 and considers permanent alternative homes for the child inside or outside of the state,
604.25 preferably with a relative in the order specified in section 260C.212, subdivision 2, paragraph
604.26 (a), through adoption or transfer of permanent legal and physical custody of the child.

604.27 (f) Reasonable efforts are made upon the exercise of due diligence by the responsible
604.28 social services agency to use culturally appropriate and available services to meet the
604.29 individualized needs of the child and the child's family. Services may include those provided
604.30 by the responsible social services agency and other culturally appropriate services available
604.31 in the community. The responsible social services agency must select services for a child
604.32 and the child's family by collaborating with the child's family and, if appropriate, the child.
604.33 At each stage of the proceedings ~~where~~ when the court is required to review the

605.1 appropriateness of the responsible social services agency's reasonable efforts as described
605.2 in paragraphs (a), (d), and (e), the social services agency has the burden of demonstrating
605.3 that:

605.4 (1) ~~the agency~~ has made reasonable efforts to prevent placement of the child in foster
605.5 care, including that the agency considered or established a safety plan according to paragraph
605.6 (d), clause (1);

605.7 (2) ~~the agency~~ has made reasonable efforts to eliminate the need for removal of the
605.8 child from the child's home and to reunify the child with the child's family at the earliest
605.9 possible time;

605.10 (3) the agency has made reasonable efforts to finalize a permanent plan for the child
605.11 pursuant to paragraph (e);

605.12 ~~(3) (4)~~ the agency has made reasonable efforts to finalize an alternative permanent
605.13 home for the child, and ~~considers~~ considered permanent alternative homes for the child
605.14 ~~inside or outside~~ in or out of the state, preferably with a relative in the order specified in
605.15 section 260C.212, subdivision 2, paragraph (a); or

605.16 ~~(4)~~ (5) reasonable efforts to prevent placement and to reunify the child with the parent
605.17 or guardian are not required. The agency may meet this burden by stating facts in a sworn
605.18 petition filed under section 260C.141, by filing an affidavit summarizing the agency's
605.19 reasonable efforts or facts that the agency believes demonstrate that there is no need for
605.20 reasonable efforts to reunify the parent and child, or through testimony or a certified report
605.21 required under juvenile court rules.

605.22 (g) Once the court determines that reasonable efforts for reunification are not required
605.23 because the court has made one of the prima facie determinations under paragraph (a), the
605.24 court may only require the agency to make reasonable efforts for reunification after a hearing
605.25 according to section 260C.163, ~~where~~ if the court finds that there is not clear and convincing
605.26 evidence of the facts upon which the court based ~~its~~ the court's prima facie determination.
605.27 ~~In this case when~~ If there is clear and convincing evidence that the child is in need of
605.28 protection or services, the court may find the child in need of protection or services and
605.29 order any of the dispositions available under section 260C.201, subdivision 1. Reunification
605.30 of a child with a parent is not required if the parent has been convicted of:

605.31 (1) a violation of, or an attempt or conspiracy to commit a violation of, sections 609.185
605.32 to 609.20; 609.222, subdivision 2; or 609.223 in regard to another child of the parent;

605.33 (2) a violation of section 609.222, subdivision 2; or 609.223, in regard to the child;

606.1 (3) a violation of, or an attempt or conspiracy to commit a violation of, United States
606.2 Code, title 18, section 1111(a) or 1112(a), in regard to another child of the parent;

606.3 (4) committing sexual abuse as defined in section 260E.03, against the child or another
606.4 child of the parent; or

606.5 (5) an offense that requires registration as a predatory offender under section 243.166,
606.6 subdivision 1b, paragraph (a) or (b).

606.7 (h) The juvenile court, in proceedings under sections 260B.178, 260C.178, 260C.201,
606.8 260C.202, 260C.204, 260C.301, or 260C.503 to 260C.521, shall make findings and
606.9 conclusions as to the provision of reasonable efforts. When determining whether reasonable
606.10 efforts have been made by the agency, the court shall consider whether services to the child
606.11 and family were:

606.12 (1) selected in collaboration with the child's family and, if appropriate, the child;

606.13 (2) tailored to the individualized needs of the child and child's family;

606.14 ~~(1)~~ (3) relevant to the safety and, protection, and well-being of the child;

606.15 ~~(2)~~ (4) adequate to meet the individualized needs of the child and family;

606.16 ~~(3)~~ (5) culturally appropriate;

606.17 ~~(4)~~ (6) available and accessible;

606.18 ~~(5)~~ (7) consistent and timely; and

606.19 ~~(6)~~ (8) realistic under the circumstances.

606.20 In the alternative, the court may determine that the provision of services or further services
606.21 for the purpose of rehabilitation is futile and therefore unreasonable under the circumstances
606.22 or that reasonable efforts are not required as provided in paragraph (a).

606.23 (i) This section does not prevent out-of-home placement for the treatment of a child with
606.24 a mental disability when it is determined to be medically necessary as a result of the child's
606.25 diagnostic assessment or the child's individual treatment plan indicates that appropriate and
606.26 necessary treatment cannot be effectively provided outside of a residential or inpatient
606.27 treatment program and the level or intensity of supervision and treatment cannot be
606.28 effectively and safely provided in the child's home or community and it is determined that
606.29 a residential treatment setting is the least restrictive setting that is appropriate to the needs
606.30 of the child.

607.1 (j) If continuation of reasonable efforts to prevent placement or reunify the child with
607.2 the parent or guardian from whom the child was removed is determined by the court to be
607.3 inconsistent with the permanent plan for the child or upon the court making one of the prima
607.4 facie determinations under paragraph (a), reasonable efforts must be made to place the child
607.5 in a timely manner in a safe and permanent home and to complete whatever steps are
607.6 necessary to legally finalize the permanent placement of the child.

607.7 (k) Reasonable efforts to place a child for adoption or in another permanent placement
607.8 may be made concurrently with reasonable efforts to prevent placement or to reunify the
607.9 child with the parent or guardian from whom the child was removed. When the responsible
607.10 social services agency decides to concurrently make reasonable efforts for both reunification
607.11 and permanent placement away from the parent under paragraph (a), the agency shall disclose
607.12 ~~its~~ the agency's decision and both plans for concurrent reasonable efforts to all parties and
607.13 the court. When the agency discloses ~~its~~ the agency's decision to proceed ~~on~~ with both plans
607.14 for reunification and permanent placement away from the parent, the court's review of the
607.15 agency's reasonable efforts shall include the agency's efforts under both plans.

607.16 Sec. 2. Minnesota Statutes 2020, section 260C.001, subdivision 3, is amended to read:

607.17 Subd. 3. **Permanency, termination of parental rights, and adoption.** The purpose of
607.18 the laws relating to permanency, termination of parental rights, and children who come
607.19 under the guardianship of the commissioner of human services is to ensure that:

607.20 (1) when required and appropriate, reasonable efforts have been made by the social
607.21 services agency to reunite the child with the child's parents in a home that is safe and
607.22 permanent;

607.23 (2) if placement with the parents is not reasonably foreseeable, to secure for the child a
607.24 safe and permanent placement according to the requirements of section 260C.212, subdivision
607.25 2, preferably ~~with adoptive parents~~ with a relative through an adoption or a transfer of
607.26 permanent legal and physical custody or, if that is not possible or in the best interests of the
607.27 child, ~~a fit and willing relative through transfer of permanent legal and physical custody to~~
607.28 ~~that relative~~ with a nonrelative caregiver through adoption; and

607.29 (3) when a child is under the guardianship of the commissioner of human services,
607.30 reasonable efforts are made to finalize an adoptive home for the child in a timely manner.

607.31 Nothing in this section requires reasonable efforts to prevent placement or to reunify
607.32 the child with the parent or guardian to be made in circumstances where the court has
607.33 determined that the child has been subjected to egregious harm, when the child is an

608.1 abandoned infant, the parent has involuntarily lost custody of another child through a
608.2 proceeding under section 260C.515, subdivision 4, or similar law of another state, the
608.3 parental rights of the parent to a sibling have been involuntarily terminated, or the court has
608.4 determined that reasonable efforts or further reasonable efforts to reunify the child with the
608.5 parent or guardian would be futile.

608.6 The paramount consideration in all proceedings for permanent placement of the child
608.7 under sections 260C.503 to 260C.521, or the termination of parental rights is the best interests
608.8 of the child. In proceedings involving an American Indian child, as defined in section
608.9 260.755, subdivision 8, the best interests of the child must be determined consistent with
608.10 the Indian Child Welfare Act of 1978, United States Code, title 25, section 1901, et seq.

608.11 Sec. 3. Minnesota Statutes 2020, section 260C.007, subdivision 27, is amended to read:

608.12 Subd. 27. **Relative.** "Relative" means a person related to the child by blood, marriage,
608.13 or adoption; the legal parent, guardian, or custodian of the child's siblings; or an individual
608.14 who is an important friend of the child or of the child's parent or custodian, including an
608.15 individual with whom the child has resided or had significant contact or who has a significant
608.16 relationship to the child or the child's parent or custodian.

608.17 Sec. 4. Minnesota Statutes 2020, section 260C.151, subdivision 6, is amended to read:

608.18 Subd. 6. **Immediate custody.** If the court makes individualized, explicit findings, based
608.19 on the notarized petition or sworn affidavit, that there are reasonable grounds to believe
608.20 that the child is in surroundings or conditions which that endanger the child's health, safety,
608.21 or welfare that require that responsibility for the child's care and custody be immediately
608.22 assumed by the responsible social services agency and that continuation of the child in the
608.23 custody of the parent or guardian is contrary to the child's welfare, the court may order that
608.24 the officer serving the summons take the child into immediate custody for placement of the
608.25 child in foster care, preferably with a relative. In ordering that responsibility for the care,
608.26 custody, and control of the child be assumed by the responsible social services agency, the
608.27 court is ordering emergency protective care as that term is defined in the juvenile court
608.28 rules.

608.29 Sec. 5. Minnesota Statutes 2020, section 260C.152, subdivision 5, is amended to read:

608.30 Subd. 5. **Notice to foster parents and preadoptive parents and relatives.** The foster
608.31 parents, if any, of a child and any preadoptive parent or relative providing care for the child
608.32 must be provided notice of and a right to be heard in any review or hearing to be held with

609.1 respect to the child. Any other relative may also request, and must be granted, a notice and
609.2 the ~~opportunity right~~ to be heard under this section. This subdivision does not require that
609.3 a foster parent, preadoptive parent, or any relative providing care for the child be made a
609.4 party to a review or hearing solely on the basis of the notice and right to be heard.

609.5 Sec. 6. Minnesota Statutes 2020, section 260C.175, subdivision 2, is amended to read:

609.6 Subd. 2. **Notice to parent or custodian and child; emergency placement with**
609.7 **relative.** Whenever (a) At the time that a peace officer takes a child into custody for relative
609.8 placement or shelter care or relative placement pursuant to subdivision 1, section 260C.151,
609.9 subdivision 5, or section 260C.154, the officer shall notify the child's parent or custodian
609.10 and the child, if the child is ten years of age or older, that under section 260C.181, subdivision
609.11 2, the parent or custodian or the child may request that to place the child be placed with a
609.12 relative or a designated caregiver under as defined in section 260C.007, subdivision 27,
609.13 chapter 257A instead of in a shelter care facility. When a child who is not alleged to be
609.14 delinquent is taken into custody pursuant to subdivision 1, clause (1) or (2), item (ii), and
609.15 placement with an identified relative is requested, the peace officer shall coordinate with
609.16 the responsible social services agency to ensure the child's safety and well-being, and comply
609.17 with section 260C.181, subdivision 2.

609.18 (c) The officer also shall give the parent or custodian of the child a list of names,
609.19 addresses, and telephone numbers of social services agencies that offer child welfare services.
609.20 If the parent or custodian was not present when the child was removed from the residence,
609.21 the list shall be left with an adult on the premises or left in a conspicuous place on the
609.22 premises if no adult is present. If the officer has reason to believe the parent or custodian
609.23 is not able to read and understand English, the officer must provide a list that is written in
609.24 the language of the parent or custodian. The list shall be prepared by the commissioner of
609.25 human services. The commissioner shall prepare lists for each county and provide each
609.26 county with copies of the list without charge. The list shall be reviewed annually by the
609.27 commissioner and updated if it is no longer accurate. Neither the commissioner nor any
609.28 peace officer or the officer's employer shall be liable to any person for mistakes or omissions
609.29 in the list. The list does not constitute a promise that any agency listed will in fact assist the
609.30 parent or custodian.

610.1 Sec. 7. Minnesota Statutes 2020, section 260C.176, subdivision 2, is amended to read:

610.2 Subd. 2. **Reasons for detention.** (a) If the child is not released as provided in subdivision
610.3 1, the person taking the child into custody shall notify the court as soon as possible of the
610.4 detention of the child and the reasons for detention.

610.5 (b) No child taken into custody and placed in a relative's home or shelter care facility
610.6 ~~or relative's home~~ by a peace officer pursuant to section 260C.175, subdivision 1, clause
610.7 (1) or (2), item (ii), may be held in custody longer than 72 hours, excluding Saturdays,
610.8 Sundays and holidays, unless a petition has been filed and the judge or referee determines
610.9 pursuant to section 260C.178 that the child shall remain in custody or unless the court has
610.10 made a finding of domestic abuse perpetrated by a minor after a hearing under Laws 1997,
610.11 chapter 239, article 10, sections 2 to 26, in which case the court may extend the period of
610.12 detention for an additional seven days, within which time the social services agency shall
610.13 conduct an assessment and shall provide recommendations to the court regarding voluntary
610.14 services or file a child in need of protection or services petition.

610.15 Sec. 8. Minnesota Statutes 2020, section 260C.178, subdivision 1, is amended to read:

610.16 Subdivision 1. **Hearing and release requirements.** (a) If a child was taken into custody
610.17 under section 260C.175, subdivision 1, clause (1) or (2), item (ii), the court shall hold a
610.18 hearing within 72 hours of the time that the child was taken into custody, excluding
610.19 Saturdays, Sundays, and holidays, to determine whether the child should continue to be in
610.20 custody.

610.21 (b) Unless there is reason to believe that the child would endanger self or others or not
610.22 return for a court hearing, or that the child's health or welfare would be immediately
610.23 endangered, the child shall be released to the custody of a parent, guardian, custodian, or
610.24 other suitable person, subject to reasonable conditions of release including, but not limited
610.25 to, a requirement that the child undergo a chemical use assessment as provided in section
610.26 260C.157, subdivision 1.

610.27 (c) If the court determines that there is reason to believe that the child would endanger
610.28 self or others or not return for a court hearing, or that the child's health or welfare would be
610.29 immediately endangered if returned to the care of the parent or guardian who has custody
610.30 and from whom the child was removed, the court shall order the child:

610.31 (1) into the care of the child's noncustodial parent and order the noncustodial parent to
610.32 comply with any conditions that the court determines appropriate to ensure the safety and
610.33 care of the child, including requiring the noncustodial parent to cooperate with paternity

611.1 establishment proceedings if the noncustodial parent has not been adjudicated the child's
611.2 father; or

611.3 (2) into foster care as defined in section 260C.007, subdivision 18, under the legal
611.4 responsibility of the responsible social services agency or responsible probation or corrections
611.5 agency for the purposes of protective care as that term is used in the juvenile court rules or
611.6 into the home of a noncustodial parent and order the noncustodial parent to comply with
611.7 any conditions the court determines to be appropriate to the safety and care of the child,
611.8 including cooperating with paternity establishment proceedings in the case of a man who
611.9 has not been adjudicated the child's father. The court shall not give the responsible social
611.10 services legal custody and order a trial home visit at any time prior to adjudication and
611.11 disposition under section 260C.201, subdivision 1, paragraph (a), clause (3), but may order
611.12 the child returned to the care of the parent or guardian who has custody and from whom the
611.13 child was removed and order the parent or guardian to comply with any conditions the court
611.14 determines to be appropriate to meet the safety, health, and welfare of the child.

611.15 (d) In determining whether the child's health or welfare would be immediately
611.16 endangered, the court shall consider whether the child would reside with a perpetrator of
611.17 domestic child abuse.

611.18 (e) The court, before determining whether a child should be placed in or continue in
611.19 foster care under the protective care of the responsible agency, shall also make a
611.20 determination, consistent with section 260.012 as to whether reasonable efforts were made
611.21 to prevent placement or whether reasonable efforts to prevent placement are not required.
611.22 In the case of an Indian child, the court shall determine whether active efforts, according
611.23 to section 260.762 and the Indian Child Welfare Act of 1978, United States Code, title 25,
611.24 section 1912(d), were made to prevent placement. The court shall enter a finding that the
611.25 responsible social services agency has made reasonable efforts to prevent placement when
611.26 the agency establishes either:

611.27 (1) that ~~the~~ the agency has actually provided services or made efforts in an attempt to
611.28 prevent the child's removal but that such services or efforts have not proven sufficient to
611.29 permit the child to safely remain in the home; or

611.30 (2) that there are no services or other efforts that could be made at the time of the hearing
611.31 that could safely permit the child to remain home or to return home. The court shall not
611.32 make a reasonable efforts determination under this clause unless the court is satisfied that
611.33 the agency has sufficiently demonstrated to the court that there were no services or other
611.34 efforts that the agency was able to provide at the time of the hearing enabling the child to

612.1 safely remain home or to safely return home. When reasonable efforts to prevent placement
612.2 are required and there are services or other efforts that could be ordered ~~which~~ that would
612.3 permit the child to safely return home, the court shall order the child returned to the care of
612.4 the parent or guardian and the services or efforts put in place to ensure the child's safety.
612.5 When the court makes a prima facie determination that one of the circumstances under
612.6 paragraph (g) exists, the court shall determine that reasonable efforts to prevent placement
612.7 and to return the child to the care of the parent or guardian are not required.

612.8 (f) If the court finds the social services agency's preventive or reunification efforts have
612.9 not been reasonable but further preventive or reunification efforts could not permit the child
612.10 to safely remain at home, the court may nevertheless authorize or continue the removal of
612.11 the child.

612.12 ~~(f)~~ (g) The court may not order or continue the foster care placement of the child unless
612.13 the court makes explicit, individualized findings that continued custody of the child by the
612.14 parent or guardian would be contrary to the welfare of the child and that placement is in the
612.15 best interest of the child.

612.16 ~~(g)~~ (h) At the emergency removal hearing, or at any time during the course of the
612.17 proceeding, and upon notice and request of the county attorney, the court shall determine
612.18 whether a petition has been filed stating a prima facie case that:

612.19 (1) the parent has subjected a child to egregious harm as defined in section 260C.007,
612.20 subdivision 14;

612.21 (2) the parental rights of the parent to another child have been involuntarily terminated;

612.22 (3) the child is an abandoned infant under section 260C.301, subdivision 2, paragraph
612.23 (a), clause (2);

612.24 (4) the parents' custodial rights to another child have been involuntarily transferred to a
612.25 relative under Minnesota Statutes 2010, section 260C.201, subdivision 11, paragraph (e),
612.26 clause (1); section 260C.515, subdivision 4; or a similar law of another jurisdiction;

612.27 (5) the parent has committed sexual abuse as defined in section 260E.03, against the
612.28 child or another child of the parent;

612.29 (6) the parent has committed an offense that requires registration as a predatory offender
612.30 under section 243.166, subdivision 1b, paragraph (a) or (b); or

612.31 (7) the provision of services or further services for the purpose of reunification is futile
612.32 and therefore unreasonable.

613.1 ~~(h)~~ (i) When a petition to terminate parental rights is required under section 260C.301,
613.2 subdivision 4, or 260C.503, subdivision 2, but the county attorney has determined not to
613.3 proceed with a termination of parental rights petition, and has instead filed a petition to
613.4 transfer permanent legal and physical custody to a relative under section 260C.507, the
613.5 court shall schedule a permanency hearing within 30 days of the filing of the petition.

613.6 ~~(i)~~ (j) If the county attorney has filed a petition under section 260C.307, the court shall
613.7 schedule a trial under section 260C.163 within 90 days of the filing of the petition except
613.8 when the county attorney determines that the criminal case shall proceed to trial first under
613.9 section 260C.503, subdivision 2, paragraph (c).

613.10 ~~(j)~~ (k) If the court determines the child should be ordered into foster care and the child's
613.11 parent refuses to give information to the responsible social services agency regarding the
613.12 child's father or relatives of the child, the court may order the parent to disclose the names,
613.13 addresses, telephone numbers, and other identifying information to the responsible social
613.14 services agency for the purpose of complying with sections 260C.150, 260C.151, 260C.212,
613.15 260C.215, 260C.219, and 260C.221.

613.16 ~~(k)~~ (l) If a child ordered into foster care has siblings, whether full, half, or step, who are
613.17 also ordered into foster care, the court shall inquire of the responsible social services agency
613.18 of the efforts to place the children together as required by section 260C.212, subdivision 2,
613.19 paragraph (d), if placement together is in each child's best interests, unless a child is in
613.20 placement for treatment or a child is placed with a previously noncustodial parent who is
613.21 not a parent to all siblings. If the children are not placed together at the time of the hearing,
613.22 the court shall inquire at each subsequent hearing of the agency's reasonable efforts to place
613.23 the siblings together, as required under section 260.012. If any sibling is not placed with
613.24 another sibling or siblings, the agency must develop a plan to facilitate visitation or ongoing
613.25 contact among the siblings as required under section 260C.212, subdivision 1, unless it is
613.26 contrary to the safety or well-being of any of the siblings to do so.

613.27 ~~(l)~~ (m) When the court has ordered the child into the care of a noncustodial parent or in
613.28 ~~foster care or into the home of a noncustodial parent~~, the court may order a chemical
613.29 dependency evaluation, mental health evaluation, medical examination, and parenting
613.30 assessment for the parent as necessary to support the development of a plan for reunification
613.31 required under subdivision 7 and section 260C.212, subdivision 1, or the child protective
613.32 services plan under section 260E.26, and Minnesota Rules, part 9560.0228.

614.1 Sec. 9. Minnesota Statutes 2020, section 260C.181, subdivision 2, is amended to read:

614.2 Subd. 2. **Least restrictive setting.** Notwithstanding the provisions of subdivision 1, if
614.3 the child had been taken into custody pursuant to section 260C.175, subdivision 1, clause
614.4 (1) or (2), item (ii), and is not alleged to be delinquent, the child shall be detained in the
614.5 least restrictive setting consistent with the child's health and welfare and in closest proximity
614.6 to the child's family as possible. Placement may be with a child's relative, ~~a designated~~
614.7 ~~caregiver under chapter 257A,~~ or, if no placement is available with a relative, in a shelter
614.8 care facility. The placing officer shall comply with this section and shall document why a
614.9 less restrictive setting will or will not be in the best interests of the child for placement
614.10 purposes.

614.11 Sec. 10. Minnesota Statutes 2020, section 260C.193, subdivision 3, is amended to read:

614.12 Subd. 3. **Best interests of the child.** (a) The policy of the state is to ensure that the best
614.13 interests of children in foster care, who experience a transfer of permanent legal and physical
614.14 custody to a relative under section 260C.515, subdivision 4, or adoption under this chapter,
614.15 are met by:

614.16 (1) considering placement of a child with relatives in the order specified in section
614.17 260C.212, subdivision 2, paragraph (a); and

614.18 (2) requiring individualized determinations under section 260C.212, subdivision 2,
614.19 paragraph (b), of the needs of the child and of how the selected home will serve the needs
614.20 of the child.

614.21 (b) No later than three months after a child is ordered to be removed from the care of a
614.22 parent in the hearing required under section 260C.202, the court shall review and enter
614.23 findings regarding whether the responsible social services agency ~~made~~:

614.24 (1) diligent efforts exercised due diligence to identify and, search for, notify, and engage
614.25 relatives as required under section 260C.221; and

614.26 (2) made a placement consistent with section 260C.212, subdivision 2, that is based on
614.27 an individualized determination as required under section 260C.212, subdivision 2, of the
614.28 child's needs to select a home that meets the needs of the child.

614.29 (c) If the court finds that the agency has not ~~made efforts~~ exercised due diligence as
614.30 required under section 260C.221, ~~and~~ the court shall order the agency to make reasonable
614.31 efforts. If there is a relative who qualifies to be licensed to provide family foster care under
614.32 chapter 245A, the court may order the child to be placed with the relative consistent with
614.33 the child's best interests.

615.1 (d) If the agency's efforts under section 260C.221 are found by the court to be sufficient,
615.2 the court shall order the agency to continue to appropriately engage relatives who responded
615.3 to the notice under section 260C.221 in placement and case planning decisions and to
615.4 appropriately engage relatives who subsequently come to the agency's attention. A court's
615.5 finding that the agency has made reasonable efforts under this paragraph does not relieve
615.6 the agency of the duty to continue notifying relatives who come to the agency's attention
615.7 and engaging and considering relatives who respond to the notice under section 260C.221
615.8 in child placement and case planning decisions.

615.9 (e) If the child's birth parent ~~or parents~~ explicitly ~~request~~ requests that a specific relative
615.10 ~~or important friend~~ not be considered for placement of the child, the court shall honor that
615.11 request if it is consistent with the best interests of the child and consistent with the
615.12 requirements of section 260C.221. The court shall not waive relative search, notice, and
615.13 consideration requirements, unless section 260C.139 applies. If the child's birth parent ~~or~~
615.14 ~~parents express~~ expresses a preference for placing the child in a foster or adoptive home of
615.15 the same or a similar religious background ~~to~~ as that of the birth parent or parents, the court
615.16 shall order placement of the child with an individual who meets the birth parent's religious
615.17 preference.

615.18 (f) Placement of a child ~~cannot~~ must not be delayed or denied based on race, color, or
615.19 national origin of the foster parent or the child.

615.20 (g) Whenever possible, siblings requiring foster care placement ~~should~~ shall be placed
615.21 together unless it is determined not to be in the best interests of one or more of the siblings
615.22 after weighing the benefits of separate placement against the benefits of sibling connections
615.23 for each sibling. The agency shall consider section 260C.008 when making this determination.
615.24 If siblings were not placed together according to section 260C.212, subdivision 2, paragraph
615.25 (d), the responsible social services agency shall report to the court the efforts made to place
615.26 the siblings together and why the efforts were not successful. If the court is not satisfied
615.27 that the agency has made reasonable efforts to place siblings together, the court must order
615.28 the agency to make further reasonable efforts. If siblings are not placed together, the court
615.29 shall order the responsible social services agency to implement the plan for visitation among
615.30 siblings required as part of the out-of-home placement plan under section 260C.212.

615.31 (h) This subdivision does not affect the Indian Child Welfare Act, United States Code,
615.32 title 25, sections 1901 to 1923, and the Minnesota Indian Family Preservation Act, sections
615.33 260.751 to 260.835.

616.1 Sec. 11. Minnesota Statutes 2020, section 260C.201, subdivision 1, is amended to read:

616.2 Subdivision 1. **Dispositions.** (a) If the court finds that the child is in need of protection
616.3 or services or neglected and in foster care, ~~the court~~ shall enter an order making any of
616.4 the following dispositions of the case:

616.5 (1) place the child under the protective supervision of the responsible social services
616.6 agency or child-placing agency in the home of a parent of the child under conditions
616.7 prescribed by the court directed to the correction of the child's need for protection or services:

616.8 (i) the court may order the child into the home of a parent who does not otherwise have
616.9 legal custody of the child, however, an order under this section does not confer legal custody
616.10 on that parent;

616.11 (ii) if the court orders the child into the home of a father who is not adjudicated, the
616.12 father must cooperate with paternity establishment proceedings regarding the child in the
616.13 appropriate jurisdiction as one of the conditions prescribed by the court for the child to
616.14 continue in the father's home; and

616.15 (iii) the court may order the child into the home of a noncustodial parent with conditions
616.16 and may also order both the noncustodial and the custodial parent to comply with the
616.17 requirements of a case plan under subdivision 2; or

616.18 (2) transfer legal custody to one of the following:

616.19 (i) a child-placing agency; or

616.20 (ii) the responsible social services agency. In making a foster care placement ~~for~~ of a
616.21 child whose custody has been transferred under this subdivision, the agency shall make an
616.22 individualized determination of how the placement is in the child's best interests using the
616.23 placement consideration order for relatives, and the best interest factors in section 260C.212,
616.24 subdivision 2, ~~paragraph (b)~~, and may include a child colocated with a parent in a licensed
616.25 residential family-based substance use disorder treatment program under section 260C.190;
616.26 or

616.27 (3) order a trial home visit without modifying the transfer of legal custody to the
616.28 responsible social services agency under clause (2). Trial home visit means the child is
616.29 returned to the care of the parent or guardian from whom the child was removed for a period
616.30 not to exceed six months. During the period of the trial home visit, the responsible social
616.31 services agency:

617.1 (i) shall continue to have legal custody of the child, which means that the agency may
617.2 see the child in the parent's home, at school, in a child care facility, or other setting as the
617.3 agency deems necessary and appropriate;

617.4 (ii) shall continue to have the ability to access information under section 260C.208;

617.5 (iii) shall continue to provide appropriate services to both the parent and the child during
617.6 the period of the trial home visit;

617.7 (iv) without previous court order or authorization, may terminate the trial home visit in
617.8 order to protect the child's health, safety, or welfare and may remove the child to foster care;

617.9 (v) shall advise the court and parties within three days of the termination of the trial
617.10 home visit when a visit is terminated by the responsible social services agency without a
617.11 court order; and

617.12 (vi) shall prepare a report for the court when the trial home visit is terminated whether
617.13 by the agency or court order ~~which~~ that describes the child's circumstances during the trial
617.14 home visit and recommends appropriate orders, if any, for the court to enter to provide for
617.15 the child's safety and stability. In the event a trial home visit is terminated by the agency
617.16 by removing the child to foster care without prior court order or authorization, the court
617.17 shall conduct a hearing within ten days of receiving notice of the termination of the trial
617.18 home visit by the agency and shall order disposition under this subdivision or commence
617.19 permanency proceedings under sections 260C.503 to 260C.515. The time period for the
617.20 hearing may be extended by the court for good cause shown and if it is in the best interests
617.21 of the child as long as the total time the child spends in foster care without a permanency
617.22 hearing does not exceed 12 months;

617.23 (4) if the child has been adjudicated as a child in need of protection or services because
617.24 the child is in need of special services or care to treat or ameliorate a physical or mental
617.25 disability or emotional disturbance as defined in section 245.4871, subdivision 15, the court
617.26 may order the child's parent, guardian, or custodian to provide it. The court may order the
617.27 child's health plan company to provide mental health services to the child. Section 62Q.535
617.28 applies to an order for mental health services directed to the child's health plan company.
617.29 If the health plan, parent, guardian, or custodian fails or is unable to provide this treatment
617.30 or care, the court may order it provided. Absent specific written findings by the court that
617.31 the child's disability is the result of abuse or neglect by the child's parent or guardian, the
617.32 court shall not transfer legal custody of the child for the purpose of obtaining special
617.33 treatment or care solely because the parent is unable to provide the treatment or care. If the
617.34 court's order for mental health treatment is based on a diagnosis made by a treatment

618.1 professional, the court may order that the diagnosing professional not provide the treatment
618.2 to the child if it finds that such an order is in the child's best interests; or

618.3 (5) if the court believes that the child has sufficient maturity and judgment and that it is
618.4 in the best interests of the child, the court may order a child 16 years old or older to be
618.5 allowed to live independently, either alone or with others as approved by the court under
618.6 supervision the court considers appropriate, if the county board, after consultation with the
618.7 court, has specifically authorized this dispositional alternative for a child.

618.8 (b) If the child was adjudicated in need of protection or services because the child is a
618.9 runaway or habitual truant, the court may order any of the following dispositions in addition
618.10 to or as alternatives to the dispositions authorized under paragraph (a):

618.11 (1) counsel the child or the child's parents, guardian, or custodian;

618.12 (2) place the child under the supervision of a probation officer or other suitable person
618.13 in the child's own home under conditions prescribed by the court, including reasonable rules
618.14 for the child's conduct and the conduct of the parents, guardian, or custodian, designed for
618.15 the physical, mental, and moral well-being and behavior of the child;

618.16 (3) subject to the court's supervision, transfer legal custody of the child to one of the
618.17 following:

618.18 (i) a reputable person of good moral character. No person may receive custody of two
618.19 or more unrelated children unless licensed to operate a residential program under sections
618.20 245A.01 to 245A.16; or

618.21 (ii) a county probation officer for placement in a group foster home established under
618.22 the direction of the juvenile court and licensed pursuant to section 241.021;

618.23 (4) require the child to pay a fine of up to \$100. The court shall order payment of the
618.24 fine in a manner that will not impose undue financial hardship upon the child;

618.25 (5) require the child to participate in a community service project;

618.26 (6) order the child to undergo a chemical dependency evaluation and, if warranted by
618.27 the evaluation, order participation by the child in a drug awareness program or an inpatient
618.28 or outpatient chemical dependency treatment program;

618.29 (7) if the court believes that it is in the best interests of the child or of public safety that
618.30 the child's driver's license or instruction permit be canceled, the court may order the
618.31 commissioner of public safety to cancel the child's license or permit for any period up to
618.32 the child's 18th birthday. If the child does not have a driver's license or permit, the court

619.1 may order a denial of driving privileges for any period up to the child's 18th birthday. The
619.2 court shall forward an order issued under this clause to the commissioner, who shall cancel
619.3 the license or permit or deny driving privileges without a hearing for the period specified
619.4 by the court. At any time before the expiration of the period of cancellation or denial, the
619.5 court may, for good cause, order the commissioner of public safety to allow the child to
619.6 apply for a license or permit, and the commissioner shall so authorize;

619.7 (8) order that the child's parent or legal guardian deliver the child to school at the
619.8 beginning of each school day for a period of time specified by the court; or

619.9 (9) require the child to perform any other activities or participate in any other treatment
619.10 programs deemed appropriate by the court.

619.11 To the extent practicable, the court shall enter a disposition order the same day it makes
619.12 a finding that a child is in need of protection or services or neglected and in foster care, but
619.13 in no event more than 15 days after the finding unless the court finds that the best interests
619.14 of the child will be served by granting a delay. If the child was under eight years of age at
619.15 the time the petition was filed, the disposition order must be entered within ten days of the
619.16 finding and the court may not grant a delay unless good cause is shown and the court finds
619.17 the best interests of the child will be served by the delay.

619.18 (c) If a child who is 14 years of age or older is adjudicated in need of protection or
619.19 services because the child is a habitual truant and truancy procedures involving the child
619.20 were previously dealt with by a school attendance review board or county attorney mediation
619.21 program under section 260A.06 or 260A.07, the court shall order a cancellation or denial
619.22 of driving privileges under paragraph (b), clause (7), for any period up to the child's 18th
619.23 birthday.

619.24 (d) In the case of a child adjudicated in need of protection or services because the child
619.25 has committed domestic abuse and been ordered excluded from the child's parent's home,
619.26 the court shall dismiss jurisdiction if the court, at any time, finds the parent is able or willing
619.27 to provide an alternative safe living arrangement for the child, as defined in Laws 1997,
619.28 chapter 239, article 10, section 2.

619.29 (e) When a parent has complied with a case plan ordered under subdivision 6 and the
619.30 child is in the care of the parent, the court may order the responsible social services agency
619.31 to monitor the parent's continued ability to maintain the child safely in the home under such
619.32 terms and conditions as the court determines appropriate under the circumstances.

620.1 Sec. 12. Minnesota Statutes 2020, section 260C.201, subdivision 2, is amended to read:

620.2 Subd. 2. **Written findings.** (a) Any order for a disposition authorized under this section
620.3 shall contain written findings of fact to support the disposition and case plan ordered and
620.4 shall also set forth in writing the following information:

620.5 (1) why the best interests and safety of the child are served by the disposition and case
620.6 plan ordered;

620.7 (2) what alternative dispositions or services under the case plan were considered by the
620.8 court and why such dispositions or services were not appropriate in the instant case;

620.9 (3) when legal custody of the child is transferred, the appropriateness of the particular
620.10 placement made or to be made by the placing agency using the relative and sibling placement
620.11 considerations and best interest factors in section 260C.212, subdivision 2, ~~paragraph (b)~~,
620.12 or the appropriateness of a child colocated with a parent in a licensed residential family-based
620.13 substance use disorder treatment program under section 260C.190;

620.14 (4) whether reasonable efforts to finalize the permanent plan for the child consistent
620.15 with section 260.012 were made including reasonable efforts:

620.16 (i) to prevent the child's placement and to reunify the child with the parent or guardian
620.17 from whom the child was removed at the earliest time consistent with the child's safety.
620.18 The court's findings must include a brief description of what preventive and reunification
620.19 efforts were made and why further efforts could not have prevented or eliminated the
620.20 necessity of removal or that reasonable efforts were not required under section 260.012 or
620.21 260C.178, subdivision 1;

620.22 (ii) to identify and locate any noncustodial or nonresident parent of the child and to
620.23 assess such parent's ability to provide day-to-day care of the child, and, where appropriate,
620.24 provide services necessary to enable the noncustodial or nonresident parent to safely provide
620.25 day-to-day care of the child as required under section 260C.219, unless such services are
620.26 not required under section 260.012 or 260C.178, subdivision 1; The court's findings must
620.27 include a description of the agency's efforts to:

620.28 (A) identify and locate the child's noncustodial or nonresident parent;

620.29 (B) assess the noncustodial or nonresident parent's ability to provide day-to-day care of
620.30 the child; and

620.31 (C) if appropriate, provide services necessary to enable the noncustodial or nonresident
620.32 parent to safely provide the child's day-to-day care, including efforts to engage the
620.33 noncustodial or nonresident parent in assuming care and responsibility of the child;

621.1 (iii) to make the diligent search for relatives and provide the notices required under
621.2 section 260C.221; a finding made pursuant to a hearing under section 260C.202 that the
621.3 agency has made diligent efforts to conduct a relative search and has appropriately engaged
621.4 relatives who responded to the notice under section 260C.221 and other relatives, who came
621.5 to the attention of the agency after notice under section 260C.221 was sent, in placement
621.6 and case planning decisions fulfills the requirement of this item;

621.7 (iv) to identify and make a foster care placement of the child, considering the order in
621.8 section 260C.212, subdivision 2, paragraph (a), in the home of an unlicensed relative,
621.9 according to the requirements of section 245A.035, a licensed relative, or other licensed
621.10 foster care provider, who will commit to being the permanent legal parent or custodian for
621.11 the child in the event reunification cannot occur, but who will actively support the
621.12 reunification plan for the child. If the court finds that the agency has not appropriately
621.13 considered relatives for placement of the child, the court shall order the agency to comply
621.14 with section 260C.212, subdivision 2, paragraph (a). The court may order the agency to
621.15 continue considering relatives for placement of the child regardless of the child's current
621.16 placement setting; and

621.17 (v) to place siblings together in the same home or to ensure visitation is occurring when
621.18 siblings are separated in foster care placement and visitation is in the siblings' best interests
621.19 under section 260C.212, subdivision 2, paragraph (d); and

621.20 (5) if the child has been adjudicated as a child in need of protection or services because
621.21 the child is in need of special services or care to treat or ameliorate a mental disability or
621.22 emotional disturbance as defined in section 245.4871, subdivision 15, the written findings
621.23 shall also set forth:

621.24 (i) whether the child has mental health needs that must be addressed by the case plan;

621.25 (ii) what consideration was given to the diagnostic and functional assessments performed
621.26 by the child's mental health professional and to health and mental health care professionals'
621.27 treatment recommendations;

621.28 (iii) what consideration was given to the requests or preferences of the child's parent or
621.29 guardian with regard to the child's interventions, services, or treatment; and

621.30 (iv) what consideration was given to the cultural appropriateness of the child's treatment
621.31 or services.

621.32 (b) If the court finds that the social services agency's preventive or reunification efforts
621.33 have not been reasonable but that further preventive or reunification efforts could not permit

622.13 rules to determine whether continued out-of-home placement is necessary and appropriate
622.14 or whether the child should be returned home. This review is not required if the court has
622.15 returned the child home, ordered the child permanently placed away from the parent under
622.16 sections 260C.503 to 260C.521, or terminated rights under section 260C.301. Court review
622.17 for a child permanently placed away from a parent, including where the child is under

622.26 order the agency to continue to appropriately engage relatives who responded to the notice
622.27 under section 260C.221 in placement and case planning decisions and to consider relatives
622.28 for foster care placement consistent with section 260C.221. Notwithstanding a court's finding
622.29 that the agency has made reasonable efforts to search for and notify relatives under section
622.30 260C.221, the court may order the agency to continue making reasonable efforts to search
622.31 for, notify, engage other, and consider relatives who came to the agency's attention after
622.32 sending the initial notice under section 260C.221 ~~was sent~~.

622.33 (c) The court shall review the out-of-home placement plan and may modify the plan as

623.1 (d) When the court ~~orders transfer of~~ transfers the custody of a child to a responsible
623.2 social services agency resulting in foster care or protective supervision with a noncustodial
623.3 parent under subdivision 1, the court shall notify the parents of the provisions of sections
623.4 260C.204 and 260C.503 to 260C.521, as required under juvenile court rules.

623.5 (e) When a child remains in or returns to foster care pursuant to section 260C.451 and

623.9 **260C.203 ADMINISTRATIVE OR COURT REVIEW OF PLACEMENTS.**

627.6 for transfer of permanent legal and physical custody or adoption of the child; and

627.7 (iii) to file a petition to support an order for the legally permanent placement plan.

- 631.24 (iii) transportation including, where appropriate, assisting the child in obtaining a driver's
631.25 license;
- 631.26 (iv) money management, including the responsibility of the responsible social services
631.27 agency to ensure that the child annually receives, at no cost to the child, a consumer report
631.28 as defined under section 13C.001 and assistance in interpreting and resolving any inaccuracies
631.29 in the report;
- 631.30 (v) planning for housing;
- 631.31 (vi) social and recreational skills;

632.1 (vii) establishing and maintaining connections with the child's family and community;

632.2 and

632.3 (viii) regular opportunities to engage in age-appropriate or developmentally appropriate
632.4 activities typical for the child's age group, taking into consideration the capacities of the
632.5 individual child;

632.6 (13) for a child in voluntary foster care for treatment under chapter 260D, diagnostic
632.7 and assessment information, specific services relating to meeting the mental health care
632.8 needs of the child, and treatment outcomes;

632.9 (14) for a child 14 years of age or older, a signed acknowledgment that describes the
632.10 child's rights regarding education, health care, visitation, safety and protection from
632.11 exploitation, and court participation; receipt of the documents identified in section 260C.452;
632.12 and receipt of an annual credit report. The acknowledgment shall state that the rights were
632.13 explained in an age-appropriate manner to the child; and

632.14 (15) for a child placed in a qualified residential treatment program, the plan must include
632.15 the requirements in section 260C.708.

632.16 (d) The parent or parents or guardian and the child each shall have the right to legal
632.17 counsel in the preparation of the case plan and shall be informed of the right at the time of
632.18 placement of the child. The child shall also have the right to a guardian ad litem. If unable
632.19 to employ counsel from their own resources, the court shall appoint counsel upon the request
632.20 of the parent or parents or the child or the child's legal guardian. The parent or parents may
632.21 also receive assistance from any person or social services agency in preparation of the case
632.22 plan.

632.23 (e) After the plan has been agreed upon by the parties involved or approved or ordered
632.24 by the court, the foster parents shall be fully informed of the provisions of the case plan and
632.25 shall be provided a copy of the plan.

632.26 (f) Upon the child's discharge from foster care, the responsible social services agency
632.27 must provide the child's parent, adoptive parent, or permanent legal and physical custodian,
632.28 and the child, if the child is 14 years of age or older, with a current copy of the child's health
632.29 and education record. If a child meets the conditions in subdivision 15, paragraph (b), the
632.30 agency must also provide the child with the child's social and medical history. The responsible
632.31 social services agency may give a copy of the child's health and education record and social
632.32 and medical history to a child who is younger than 14 years of age, if it is appropriate and
632.33 if subdivision 15, paragraph (b), applies.

633.1 Sec. 17. Minnesota Statutes 2021 Supplement, section 260C.212, subdivision 2, is amended
633.2 to read:

633.3 Subd. 2. **Placement decisions based on best interests of the child.** (a) The policy of
633.4 the state of Minnesota is to ensure that the child's best interests are met by requiring an
633.5 individualized determination of the needs of the child in consideration of paragraphs (a) to
633.6 (f), and of how the selected placement will serve the current and future needs of the child
633.7 being placed. The authorized child-placing agency shall place a child, released by court
633.8 order or by voluntary release by the parent or parents, in a family foster home selected by
633.9 considering placement with relatives ~~and important friends~~ in the following order:

633.10 (1) with an individual who is related to the child by blood, marriage, or adoption,
633.11 including the legal parent, guardian, or custodian of the child's ~~siblings~~ sibling; or

633.12 (2) with an individual who is an important friend of the child or of the child's parent or
633.13 custodian, including an individual with whom the child has resided or had significant contact
633.14 or who has a significant relationship to the child or the child's parent or custodian.

633.15 ~~(2) with an individual who is an important friend with whom the child has resided or~~
633.16 ~~had significant contact.~~

633.17 For an Indian child, the agency shall follow the order of placement preferences in the Indian
633.18 Child Welfare Act of 1978, United States Code, title 25, section 1915.

633.19 (b) Among the factors the agency shall consider in determining the current and future
633.20 needs of the child are the following:

633.21 (1) the child's current functioning and behaviors;

633.22 (2) the medical needs of the child;

633.23 (3) the educational needs of the child;

633.24 (4) the developmental needs of the child;

633.25 (5) the child's history and past experience;

633.26 (6) the child's religious and cultural needs;

633.27 (7) the child's connection with a community, school, and faith community;

633.28 (8) the child's interests and talents;

633.29 (9) the child's ~~relationship to current caretakers,~~ current and long-term needs regarding
633.30 relationships with parents, siblings, and relatives, and other caretakers;

634.1 (10) the reasonable preference of the child, if the court, or the child-placing agency in
634.2 the case of a voluntary placement, deems the child to be of sufficient age to express
634.3 preferences; and

634.4 (11) for an Indian child, the best interests of an Indian child as defined in section 260.755,
634.5 subdivision 2a.

634.6 When placing a child in foster care or in a permanent placement based on an individualized
634.7 determination of the child's needs, the agency must not use one factor in this paragraph to
634.8 the exclusion of all others, and the agency shall consider that the factors in paragraph (b)
634.9 may be interrelated.

634.10 (c) Placement of a child cannot be delayed or denied based on race, color, or national
634.11 origin of the foster parent or the child.

634.12 (d) Siblings should be placed together for foster care and adoption at the earliest possible
634.13 time unless it is documented that a joint placement would be contrary to the safety or
634.14 well-being of any of the siblings or unless it is not possible after reasonable efforts by the
634.15 responsible social services agency. In cases where siblings cannot be placed together, the
634.16 agency is required to provide frequent visitation or other ongoing interaction between
634.17 siblings unless the agency documents that the interaction would be contrary to the safety
634.18 or well-being of any of the siblings.

634.19 (e) Except for emergency placement as provided for in section 245A.035, the following
634.20 requirements must be satisfied before the approval of a foster or adoptive placement in a
634.21 related or unrelated home: (1) a completed background study under section 245C.08; and
634.22 (2) a completed review of the written home study required under section 260C.215,
634.23 subdivision 4, clause (5), or 260C.611, to assess the capacity of the prospective foster or
634.24 adoptive parent to ensure the placement will meet the needs of the individual child.

634.25 (f) The agency must determine whether colocation with a parent who is receiving services
634.26 in a licensed residential family-based substance use disorder treatment program is in the
634.27 child's best interests according to paragraph (b) and include that determination in the child's
634.28 case plan under subdivision 1. The agency may consider additional factors not identified
634.29 in paragraph (b). The agency's determination must be documented in the child's case plan
634.30 before the child is colocated with a parent.

634.31 (g) The agency must establish a juvenile treatment screening team under section 260C.157
634.32 to determine whether it is necessary and appropriate to recommend placing a child in a
634.33 qualified residential treatment program, as defined in section 260C.007, subdivision 26d.

635.1 Sec. 18. Minnesota Statutes 2020, section 260C.221, is amended to read:

635.2 **260C.221 RELATIVE SEARCH AND ENGAGEMENT; PLACEMENT**
635.3 **CONSIDERATION.**

635.4 **Subdivision 1. Relative search requirements.** (a) The responsible social services agency
635.5 shall exercise due diligence to identify and notify adult relatives and current caregivers of
635.6 a child's sibling, prior to placement or within 30 days after the child's removal from the
635.7 parent, regardless of whether a child is placed in a relative's home, as required under
635.8 subdivision 2. ~~The county agency shall consider placement with a relative under this section~~
635.9 ~~without delay and whenever the child must move from or be returned to foster care.~~ The
635.10 relative search required by this section shall be comprehensive in scope. ~~After a finding~~
635.11 ~~that the agency has made reasonable efforts to conduct the relative search under this~~
635.12 ~~paragraph, the agency has the continuing responsibility to appropriately involve relatives,~~
635.13 ~~who have responded to the notice required under this paragraph, in planning for the child~~
635.14 ~~and to continue to consider relatives according to the requirements of section 260C.212,~~
635.15 ~~subdivision 2.~~ At any time during the course of juvenile protection proceedings, the court
635.16 may order the agency to reopen its search for relatives when it is in the child's best interest
635.17 ~~to do so.~~

635.18 (b) The relative search required by this section shall include both maternal and paternal
635.19 adult relatives of the child; all adult grandparents; all legal parents, guardians, or custodians
635.20 of the child's siblings; and any other adult relatives suggested by the child's parents, subject
635.21 to the exceptions due to family violence in subdivision 5, paragraph (e) (b). The search shall
635.22 also include getting information from the child in an age-appropriate manner about who the
635.23 child considers to be family members and important friends with whom the child has resided
635.24 or had significant contact. The relative search required under this section must fulfill the
635.25 agency's duties under the Indian Child Welfare Act regarding active efforts to prevent the
635.26 breakup of the Indian family under United States Code, title 25, section 1912(d), and to
635.27 meet placement preferences under United States Code, title 25, section 1915.

635.28 (c) The responsible social services agency has a continuing responsibility to search for
635.29 and identify relatives of a child and send the notice to relatives that is required under
635.30 subdivision 2, unless the court has relieved the agency of this duty under subdivision 5,
635.31 paragraph (e).

635.32 **Subd. 2. Relative notice requirements.** (a) The agency may provide oral or written
635.33 notice to a child's relatives. In the child's case record, the agency must document providing

636.1 the required notice to each of the child's relatives. The responsible social services agency
636.2 must notify relatives ~~must be notified:~~

636.3 (1) of the need for a foster home for the child, the option to become a placement resource
636.4 for the child, the order of placement that the agency will consider under section 260C.212,
636.5 subdivision 2, paragraph (a), and the possibility of the need for a permanent placement for
636.6 the child;

636.7 (2) of their responsibility to keep the responsible social services agency and the court
636.8 informed of their current address in order to receive notice in the event that a permanent
636.9 placement is sought for the child and to receive notice of the permanency progress review
636.10 hearing under section 260C.204. A relative who fails to provide a current address to the
636.11 responsible social services agency and the court forfeits the right to receive notice of the
636.12 possibility of permanent placement and of the permanency progress review hearing under
636.13 section 260C.204, until the relative provides a current address to the responsible social
636.14 services agency and the court. A decision by a relative not to be identified as a potential
636.15 permanent placement resource or participate in planning for the child ~~at the beginning of~~
636.16 ~~the case~~ shall not affect whether the relative is considered for placement of, or as a
636.17 permanency resource for, the child with that relative later at any time in the case, and shall
636.18 not be the sole basis for the court to rule out the relative as the child's placement or
636.19 permanency resource;

636.20 (3) that the relative may participate in the care and planning for the child, as specified
636.21 in subdivision 3, including that the opportunity for such participation may be lost by failing
636.22 to respond to the notice sent under this subdivision. ~~"Participate in the care and planning"~~
636.23 ~~includes, but is not limited to, participation in case planning for the parent and child,~~
636.24 ~~identifying the strengths and needs of the parent and child, supervising visits, providing~~
636.25 ~~respite and vacation visits for the child, providing transportation to appointments, suggesting~~
636.26 ~~other relatives who might be able to help support the case plan, and to the extent possible,~~
636.27 ~~helping to maintain the child's familiar and regular activities and contact with friends and~~
636.28 ~~relatives;~~

636.29 (4) of the family foster care licensing and adoption home study requirements, including
636.30 how to complete an application and how to request a variance from licensing standards that
636.31 do not present a safety or health risk to the child in the home under section 245A.04 and
636.32 supports that are available for relatives and children who reside in a family foster home;
636.33 ~~and~~

637.1 (5) of the relatives' right to ask to be notified of any court proceedings regarding the
637.2 child, to attend the hearings, and of a relative's right ~~or opportunity~~ to be heard by the court
637.3 as required under section 260C.152, subdivision 5;

637.4 (6) that regardless of the relative's response to the notice sent under this subdivision, the
637.5 agency is required to establish permanency for a child, including planning for alternative
637.6 permanency options if the agency's reunification efforts fail or are not required; and

637.7 (7) that by responding to the notice, a relative may receive information about participating
637.8 in a child's family and permanency team if the child is placed in a qualified residential
637.9 treatment program as defined in section 260C.007, subdivision 26d.

637.10 (b) The responsible social services agency shall send the notice required under paragraph
637.11 (a) to relatives who become known to the responsible social services agency, except for
637.12 relatives that the agency does not contact due to safety reasons under subdivision 5, paragraph
637.13 (b). The responsible social services agency shall continue to send notice to relatives
637.14 notwithstanding a court's finding that the agency has made reasonable efforts to conduct a
637.15 relative search.

637.16 (c) The responsible social services agency is not required to send the notice under
637.17 paragraph (a) to a relative who becomes known to the agency after an adoption placement
637.18 agreement has been fully executed under section 260C.613, subdivision 1. If the relative
637.19 wishes to be considered for adoptive placement of the child, the agency shall inform the
637.20 relative of the relative's ability to file a motion for an order for adoptive placement under
637.21 section 260C.607, subdivision 6.

637.22 **Subd. 3. Relative engagement requirements.** (a) A relative who responds to the notice
637.23 under subdivision 2 has the opportunity to participate in care and planning for a child, which
637.24 must not be limited based solely on the relative's prior inconsistent participation or
637.25 nonparticipation in care and planning for the child. Care and planning for a child may include
637.26 but is not limited to:

637.27 (1) participating in case planning for the child and child's parent, including identifying
637.28 services and resources that meet the individualized needs of the child and child's parent. A
637.29 relative's participation in case planning may be in person, via phone call, or by electronic
637.30 means;

637.31 (2) identifying the strengths and needs of the child and child's parent;

637.32 (3) asking the responsible social services agency to consider the relative for placement
637.33 of the child according to subdivision 4;

- 638.1 (4) acting as a support person for the child, the child's parents, and the child's current
638.2 caregiver;
- 638.3 (5) supervising visits;
- 638.4 (6) providing respite care for the child and having vacation visits with the child;
- 638.5 (7) providing transportation;
- 638.6 (8) suggesting other relatives who may be able to participate in the case plan or that the
638.7 agency may consider for placement of the child. The agency shall send a notice to each
638.8 relative identified by other relatives according to subdivision 2, paragraph (b), unless a
638.9 relative received this notice earlier in the case;
- 638.10 (9) helping to maintain the child's familiar and regular activities and contact with the
638.11 child's friends and relatives, including providing supervision of the child at family gatherings
638.12 and events; and
- 638.13 (10) participating in the child's family and permanency team if the child is placed in a
638.14 qualified residential treatment program as defined in section 260C.007, subdivision 26d.
- 638.15 (b) The responsible social services agency shall make reasonable efforts to contact and
638.16 engage relatives who respond to the notice required under this section. Upon a request by
638.17 a relative or party to the proceeding, the court may conduct a review of the agency's
638.18 reasonable efforts to contact and engage relatives who respond to the notice. If the court
638.19 finds that the agency did not make reasonable efforts to contact and engage relatives who
638.20 respond to the notice, the court may order the agency to make reasonable efforts to contact
638.21 and engage relatives who respond to the notice in care and planning for the child.
- 638.22 Subd. 4. **Placement considerations.** (a) The responsible social services agency shall
638.23 consider placing a child with a relative under this section without delay and when the child:
- 638.24 (1) enters foster care;
- 638.25 (2) must be moved from the child's current foster setting;
- 638.26 (3) must be permanently placed away from the child's parent; or
- 638.27 (4) returns to foster care after permanency has been achieved for the child.
- 638.28 (b) The agency shall consider placing a child with relatives:
- 638.29 (1) in the order specified in section 260C.212, subdivision 2, paragraph (a); and
- 638.30 (2) based on the child's best interests using the factors in section 260C.212, subdivision
638.31 2.

639.1 (c) The agency shall document how the agency considered relatives in the child's case
639.2 record.

639.3 (d) Any relative who requests to be a placement option for a child in foster care has the
639.4 right to be considered for placement of the child according to section 260C.212, subdivision
639.5 2, paragraph (a), unless the court finds that placing the child with a specific relative would
639.6 endanger the child, sibling, parent, guardian, or any other family member under subdivision
639.7 5, paragraph (b).

639.8 (e) When adoption is the responsible social services agency's permanency goal for the
639.9 child, the agency shall consider adoptive placement of the child with a relative in the order
639.10 specified under section 260C.212, subdivision 2, paragraph (a).

639.11 Subd. 5. Data disclosure; court review. ~~(e)~~ (a) A responsible social services agency
639.12 may disclose private data, as defined in section 13.02 and chapter 260E, to relatives of the
639.13 child for the purpose of locating and assessing a suitable placement and may use any
639.14 reasonable means of identifying and locating relatives including the Internet or other
639.15 electronic means of conducting a search. The agency shall disclose data that is necessary
639.16 to facilitate possible placement with relatives and to ensure that the relative is informed of
639.17 the needs of the child so the relative can participate in planning for the child and be supportive
639.18 of services to the child and family.

639.19 (b) If the child's parent refuses to give the responsible social services agency information
639.20 sufficient to identify the maternal and paternal relatives of the child, the agency shall ask
639.21 the juvenile court to order the parent to provide the necessary information and shall use
639.22 other resources to identify the child's maternal and paternal relatives. If a parent makes an
639.23 explicit request that a specific relative not be contacted or considered for placement due to
639.24 safety reasons, including past family or domestic violence, the agency shall bring the parent's
639.25 request to the attention of the court to determine whether the parent's request is consistent
639.26 with the best interests of the child ~~and~~. The agency shall not contact the specific relative
639.27 when the juvenile court finds that contacting or placing the child with the specific relative
639.28 would endanger the parent, guardian, child, sibling, or any family member. Unless section
639.29 260C.139 applies to the child's case, a court shall not waive or relieve the responsible social
639.30 services agency of reasonable efforts to:

639.31 (1) conduct a relative search;

639.32 (2) notify relatives;

639.33 (3) contact and engage relatives in case planning; and

640.1 (4) consider relatives for placement of the child.

640.2 (c) Notwithstanding chapter 13, the agency shall disclose data to the court about particular
640.3 relatives that the agency has identified, contacted, or considered for the child's placement
640.4 for the court to review the agency's due diligence.

640.5 (d) At a regularly scheduled hearing not later than three months after the child's placement
640.6 in foster care and as required in ~~section~~ sections 260C.193 and 260C.202, the agency shall
640.7 report to the court:

640.8 (1) ~~its~~ the agency's efforts to identify maternal and paternal relatives of the child and to
640.9 engage the relatives in providing support for the child and family, and document that the
640.10 relatives have been provided the notice required under ~~paragraph (a)~~ subdivision 2; and

640.11 (2) ~~its~~ the agency's decision regarding placing the child with a relative as required under
640.12 section 260C.212, subdivision 2, ~~and to ask~~. If the responsible social services agency decides
640.13 that relative placement is not in the child's best interests at the time of the hearing, the agency
640.14 shall inform the court of the agency's decision, including:

640.15 (i) why the agency decided against relative placement of the child; and

640.16 (ii) the agency's efforts to engage relatives to visit or maintain contact with the child in
640.17 order as required under subdivision 3 to support family connections for the child, when
640.18 placement with a relative is not possible or appropriate.

640.19 ~~(e) Notwithstanding chapter 13, the agency shall disclose data about particular relatives~~
640.20 ~~identified, searched for, and contacted for the purposes of the court's review of the agency's~~
640.21 ~~due diligence.~~

640.22 ~~(f)~~ (e) When the court is satisfied that the agency has exercised due diligence to identify
640.23 relatives and provide the notice required in ~~paragraph (a)~~ subdivision 2, the court may find
640.24 that the agency made reasonable efforts ~~have been made~~ to conduct a relative search to
640.25 identify and provide notice to adult relatives as required under section 260.012, paragraph
640.26 (e), clause (3). A finding under this paragraph does not relieve the responsible social services
640.27 agency of the ongoing duty to contact, engage, and consider relatives under this section nor
640.28 is it a basis for the court to rule out any relative from being a foster care or permanent
640.29 placement option for the child. The agency has the continuing responsibility to:

640.30 (1) involve relatives who respond to the notice in planning for the child; and

640.31 (2) continue considering relatives for the child's placement while taking the child's short-
640.32 and long-term permanency goals into consideration, according to the requirements of section
640.33 260C.212, subdivision 2.

641.1 (f) At any time during the course of juvenile protection proceedings, the court may order
641.2 the agency to reopen the search for relatives when it is in the child's best interests.

641.3 (g) If the court is not satisfied that the agency has exercised due diligence to identify
641.4 relatives and provide the notice required in ~~paragraph (a)~~ subdivision 2, the court may order
641.5 the agency to continue its search and notice efforts and to report back to the court.

641.6 ~~(g) When the placing agency determines that permanent placement proceedings are~~
641.7 ~~necessary because there is a likelihood that the child will not return to a parent's care, the~~
641.8 ~~agency must send the notice provided in paragraph (h), may ask the court to modify the~~
641.9 ~~duty of the agency to send the notice required in paragraph (h), or may ask the court to~~
641.10 ~~completely relieve the agency of the requirements of paragraph (h). The relative notification~~
641.11 ~~requirements of paragraph (h) do not apply when the child is placed with an appropriate~~
641.12 ~~relative or a foster home that has committed to adopting the child or taking permanent legal~~
641.13 ~~and physical custody of the child and the agency approves of that foster home for permanent~~
641.14 ~~placement of the child. The actions ordered by the court under this section must be consistent~~
641.15 ~~with the best interests, safety, permanency, and welfare of the child.~~

641.16 ~~(h) Unless required under the Indian Child Welfare Act or relieved of this duty by the~~
641.17 ~~court under paragraph (f),~~ When the agency determines that it is necessary to prepare for
641.18 permanent placement determination proceedings, or in anticipation of filing a termination
641.19 of parental rights petition, the agency shall send notice to ~~the~~ relatives who responded to a
641.20 notice under this section sent at any time during the case, any adult with whom the child is
641.21 currently residing, any adult with whom the child has resided for one year or longer in the
641.22 past, and any adults who have maintained a relationship or exercised visitation with the
641.23 child as identified in the agency case plan. The notice must state that a permanent home is
641.24 sought for the child and that the individuals receiving the notice may indicate to the agency
641.25 their interest in providing a permanent home. The notice must state that within 30 days of
641.26 receipt of the notice an individual receiving the notice must indicate to the agency the
641.27 individual's interest in providing a permanent home for the child or that the individual may
641.28 lose the opportunity to be considered for a permanent placement. A relative's failure to
641.29 respond or timely respond to the notice is not a basis for ruling out the relative from being
641.30 a permanent placement option for the child, should the relative request to be considered for
641.31 permanent placement at a later date.

642.1 Sec. 19. Minnesota Statutes 2020, section 260C.513, is amended to read:

642.2 **260C.513 PERMANENCY DISPOSITIONS WHEN CHILD CANNOT RETURN**
642.3 **HOME.**

642.4 (a) ~~Termination of parental rights and adoption, or guardianship to the commissioner of~~
642.5 ~~human services through a consent to adopt, are preferred permanency options for a child~~
642.6 ~~who cannot return home. If the court finds that termination of parental rights and guardianship~~
642.7 ~~to the commissioner is not in the child's best interests, the court may transfer permanent~~
642.8 ~~legal and physical custody of the child to a relative when that order is in the child's best~~
642.9 ~~interests. For a child who cannot return home, a permanency placement with a relative is~~
642.10 ~~preferred. A permanency placement with a relative includes termination of parental rights~~
642.11 ~~and adoption by a relative, guardianship to the commissioner of human services through a~~
642.12 ~~consent to adopt with a relative, or a transfer of permanent legal and physical custody to a~~
642.13 ~~relative. The court must consider the best interests of the child and section 260C.212,~~
642.14 ~~subdivision 2, paragraph (a), when making a permanency determination.~~

642.15 (b) When the court has determined that permanent placement of the child away from
642.16 the parent is necessary, the court shall consider permanent alternative homes that are available
642.17 both inside and outside the state.

642.18 Sec. 20. Minnesota Statutes 2021 Supplement, section 260C.605, subdivision 1, is amended
642.19 to read:

642.20 Subdivision 1. **Requirements.** (a) Reasonable efforts to finalize the adoption of a child
642.21 under the guardianship of the commissioner shall be made by the responsible social services
642.22 agency responsible for permanency planning for the child.

642.23 (b) Reasonable efforts to make a placement in a home according to the placement
642.24 considerations under section 260C.212, subdivision 2, with a relative or foster parent who
642.25 will commit to being the permanent resource for the child in the event the child cannot be
642.26 reunified with a parent are required under section 260.012 and may be made concurrently
642.27 with reasonable, or if the child is an Indian child, active efforts to reunify the child with the
642.28 parent.

642.29 (c) Reasonable efforts under paragraph (b) must begin as soon as possible when the
642.30 child is in foster care under this chapter, but not later than the hearing required under section
642.31 260C.204.

642.32 (d) Reasonable efforts to finalize the adoption of the child include:

642.33 (1) considering the child's preference for an adoptive family;

- 643.1 ~~(1)~~ (2) using age-appropriate engagement strategies to plan for adoption with the child;
- 643.2 ~~(2)~~ (3) identifying an appropriate prospective adoptive parent for the child by updating
- 643.3 the child's identified needs using the factors in section 260C.212, subdivision 2;
- 643.4 ~~(3)~~ (4) making an adoptive placement that meets the child's needs by:
- 643.5 (i) completing or updating the relative search required under section 260C.221 and giving
- 643.6 notice of the need for an adoptive home for the child to:
- 643.7 (A) relatives who have kept the agency or the court apprised of their whereabouts ~~and~~
- 643.8 ~~who have indicated an interest in adopting the child~~; or
- 643.9 (B) relatives of the child who are located in an updated search;
- 643.10 (ii) an updated search is required whenever:
- 643.11 (A) there is no identified prospective adoptive placement for the child notwithstanding
- 643.12 a finding by the court that the agency made diligent efforts under section 260C.221, in a
- 643.13 hearing required under section 260C.202;
- 643.14 (B) the child is removed from the home of an adopting parent; or
- 643.15 (C) the court determines that a relative search by the agency is in the best interests of
- 643.16 the child;
- 643.17 (iii) engaging the child's relatives or current or former foster parent and the child's
- 643.18 ~~relatives identified as an adoptive resource during the search conducted under section~~
- 643.19 ~~260C.221~~, parents to commit to being the prospective adoptive parent of the child, and
- 643.20 considering the child's relatives for adoptive placement of the child in the order specified
- 643.21 under section 260C.212, subdivision 2, paragraph (a); or
- 643.22 (iv) when there is no identified prospective adoptive parent:
- 643.23 (A) registering the child on the state adoption exchange as required in section 259.75
- 643.24 unless the agency documents to the court an exception to placing the child on the state
- 643.25 adoption exchange reported to the commissioner;
- 643.26 (B) reviewing all families with approved adoption home studies associated with the
- 643.27 responsible social services agency;
- 643.28 (C) presenting the child to adoption agencies and adoption personnel who may assist
- 643.29 with finding an adoptive home for the child;
- 643.30 (D) using newspapers and other media to promote the particular child;

644.1 (E) using a private agency under grant contract with the commissioner to provide adoption
644.2 services for intensive child-specific recruitment efforts; and

644.3 (F) making any other efforts or using any other resources reasonably calculated to identify
644.4 a prospective adoption parent for the child;

644.5 ~~(4)~~ (5) updating and completing the social and medical history required under sections
644.6 260C.212, subdivision 15, and 260C.609;

644.7 ~~(5)~~ (6) making, and keeping updated, appropriate referrals required by section 260.851,
644.8 the Interstate Compact on the Placement of Children;

644.9 ~~(6)~~ (7) giving notice regarding the responsibilities of an adoptive parent to any prospective
644.10 adoptive parent as required under section 259.35;

644.11 ~~(7)~~ (8) offering the adopting parent the opportunity to apply for or decline adoption
644.12 assistance under chapter 256N;

644.13 ~~(8)~~ (9) certifying the child for adoption assistance, assessing the amount of adoption
644.14 assistance, and ascertaining the status of the commissioner's decision on the level of payment
644.15 if the adopting parent has applied for adoption assistance;

644.16 ~~(9)~~ (10) placing the child with siblings. If the child is not placed with siblings, the agency
644.17 must document reasonable efforts to place the siblings together, as well as the reason for
644.18 separation. The agency may not cease reasonable efforts to place siblings together for final
644.19 adoption until the court finds further reasonable efforts would be futile or that placement
644.20 together for purposes of adoption is not in the best interests of one of the siblings; and

644.21 ~~(10)~~ (11) working with the adopting parent to file a petition to adopt the child and with
644.22 the court administrator to obtain a timely hearing to finalize the adoption.

644.23 Sec. 21. Minnesota Statutes 2020, section 260C.607, subdivision 2, is amended to read:

644.24 Subd. 2. **Notice.** Notice of review hearings shall be given by the court to:

644.25 (1) the responsible social services agency;

644.26 (2) the child, if the child is age ten and older;

644.27 (3) the child's guardian ad litem;

644.28 (4) counsel appointed for the child pursuant to section 260C.163, subdivision 3;

644.29 (5) relatives of the child who have kept the court informed of their whereabouts as
644.30 required in section 260C.221 and who have responded to the agency's notice under section
644.31 260C.221, ~~indicating a willingness to provide an adoptive home for the child unless the~~

645.1 relative has been previously ruled out by the court as a suitable foster parent or permanency
645.2 resource for the child;

645.3 (6) the current foster or adopting parent of the child;

645.4 (7) any foster or adopting parents of siblings of the child; and

645.5 (8) the Indian child's tribe.

645.6 Sec. 22. Minnesota Statutes 2020, section 260C.607, subdivision 5, is amended to read:

645.7 Subd. 5. **Required placement by responsible social services agency.** (a) No petition
645.8 for adoption shall be filed for a child under the guardianship of the commissioner unless
645.9 the child sought to be adopted has been placed for adoption with the adopting parent by the
645.10 responsible social services agency as required under section 260C.613, subdivision 1. The
645.11 court may order the agency to make an adoptive placement using standards and procedures
645.12 under subdivision 6.

645.13 (b) Any relative or the child's foster parent who believes the responsible agency has not
645.14 reasonably considered the relative's or foster parent's request to be considered for adoptive
645.15 placement as required under section 260C.212, subdivision 2, and who wants to be considered
645.16 for adoptive placement of the child shall bring a request for consideration to the attention
645.17 of the court during a review required under this section. The child's guardian ad litem and
645.18 the child may also bring a request for a relative or the child's foster parent to be considered
645.19 for adoptive placement. After hearing from the agency, the court may order the agency to
645.20 take appropriate action regarding the relative's or foster parent's request for consideration
645.21 under section 260C.212, subdivision 2, paragraph (b).

645.22 Sec. 23. Minnesota Statutes 2021 Supplement, section 260C.607, subdivision 6, is amended
645.23 to read:

645.24 Subd. 6. **Motion and hearing to order adoptive placement.** (a) At any time after the
645.25 district court orders the child under the guardianship of the commissioner of human services,
645.26 but not later than 30 days after receiving notice required under section 260C.613, subdivision
645.27 1, paragraph (c), that the agency has made an adoptive placement, a relative or the child's
645.28 foster parent may file a motion for an order for adoptive placement of a child who is under
645.29 the guardianship of the commissioner if the relative or the child's foster parent:

645.30 (1) has an adoption home study under section 259.41 approving the relative or foster
645.31 parent for adoption ~~and has~~. If the relative or foster parent does not have an adoption home
645.32 study, an affidavit attesting to efforts to complete an adoption home study may be filed with

646.1 the motion instead. The affidavit must be signed by the relative or foster parent and the
646.2 responsible social services agency or licensed child-placing agency completing the adoption
646.3 home study. The relative or foster parent must also have been a resident of Minnesota for
646.4 at least six months before filing the motion; the court may waive the residency requirement
646.5 for the moving party if there is a reasonable basis to do so; or

646.6 (2) is not a resident of Minnesota, but has an approved adoption home study by an agency
646.7 licensed or approved to complete an adoption home study in the state of the individual's
646.8 residence and the study is filed with the motion for adoptive placement. If the relative or
646.9 foster parent does not have an adoption home study in the relative's or foster parent's state
646.10 of residence, an affidavit attesting to efforts to complete an adoption home study may be
646.11 filed with the motion instead. The affidavit must be signed by the relative or foster parent
646.12 and the agency completing the adoption home study.

646.13 (b) The motion shall be filed with the court conducting reviews of the child's progress
646.14 toward adoption under this section. The motion and supporting documents must make a
646.15 prima facie showing that the agency has been unreasonable in failing to make the requested
646.16 adoptive placement. The motion must be served according to the requirements for motions
646.17 under the Minnesota Rules of Juvenile Protection Procedure and shall be made on all
646.18 individuals and entities listed in subdivision 2.

646.19 (c) If the motion and supporting documents do not make a prima facie showing for the
646.20 court to determine whether the agency has been unreasonable in failing to make the requested
646.21 adoptive placement, the court shall dismiss the motion. If the court determines a prima facie
646.22 basis is made, the court shall set the matter for evidentiary hearing.

646.23 (d) At the evidentiary hearing, the responsible social services agency shall proceed first
646.24 with evidence about the reason for not making the adoptive placement proposed by the
646.25 moving party. When the agency presents evidence regarding the child's current relationship
646.26 with the identified adoptive placement resource, the court must consider the agency's efforts
646.27 to support the child's relationship with the moving party consistent with section 260C.221.
646.28 The moving party then has the burden of proving by a preponderance of the evidence that
646.29 the agency has been unreasonable in failing to make the adoptive placement.

646.30 (e) The court shall review and enter findings regarding whether, in making an adoptive
646.31 placement decision for the child, the agency:

646.32 (1) considered relatives for adoptive placement in the order specified under section
646.33 260C.212, subdivision 2, paragraph (a); and

647.1 (2) assessed how the identified adoptive placement resource and the moving party are
647.2 each able to meet the child's current and future needs based on an individualized
647.3 determination of the child's needs, as required under sections 260C.612, subdivision 2, and
647.4 260C.613, subdivision 1, paragraph (b).

647.5 ~~(e)~~ (f) At the conclusion of the evidentiary hearing, if the court finds that the agency has
647.6 been unreasonable in failing to make the adoptive placement and that the ~~relative or the~~
647.7 ~~child's foster parent~~ moving party is the most suitable adoptive home to meet the child's
647.8 needs using the factors in section 260C.212, subdivision 2, paragraph (b), the court may:

647.9 (1) order the responsible social services agency to make an adoptive placement in the
647.10 home of the ~~relative or the child's foster parent.~~ moving party if the moving party has an
647.11 approved adoption home study; or

647.12 (2) order the responsible social services agency to place the child in the home of the
647.13 moving party upon approval of an adoption home study. The agency must promote and
647.14 support the child's ongoing visitation and contact with the moving party until the child is
647.15 placed in the moving party's home. The agency must provide an update to the court after
647.16 90 days, including progress and any barriers encountered. If the moving party does not have
647.17 an approved adoption home study within 180 days, the moving party and the agency must
647.18 inform the court of any barriers to obtaining the approved adoption home study during a
647.19 review hearing under this section. If the court finds that the moving party is unable to obtain
647.20 an approved adoption home study, the court must dismiss the order for adoptive placement
647.21 under this subdivision and order the agency to continue making reasonable efforts to finalize
647.22 the adoption of the child as required under section 260C.605.

647.23 ~~(f)~~ (g) If, in order to ensure that a timely adoption may occur, the court orders the
647.24 responsible social services agency to make an adoptive placement under this subdivision,
647.25 the agency shall:

647.26 (1) make reasonable efforts to obtain a fully executed adoption placement agreement,
647.27 including assisting the moving party with the adoption home study process;

647.28 (2) work with the moving party regarding eligibility for adoption assistance as required
647.29 under chapter 256N; and

647.30 (3) if the moving party is not a resident of Minnesota, timely refer the matter for approval
647.31 of the adoptive placement through the Interstate Compact on the Placement of Children.

647.32 ~~(g)~~ (h) Denial or granting of a motion for an order for adoptive placement after an
647.33 evidentiary hearing is an order which may be appealed by the responsible social services

648.1 agency, the moving party, the child, when age ten or over, the child's guardian ad litem,
648.2 and any individual who had a fully executed adoption placement agreement regarding the
648.3 child at the time the motion was filed if the court's order has the effect of terminating the
648.4 adoption placement agreement. An appeal shall be conducted according to the requirements
648.5 of the Rules of Juvenile Protection Procedure.

648.6 Sec. 24. Minnesota Statutes 2020, section 260C.613, subdivision 1, is amended to read:

648.7 Subdivision 1. **Adoptive placement decisions.** (a) The responsible social services agency
648.8 has exclusive authority to make an adoptive placement of a child under the guardianship of
648.9 the commissioner. The child shall be considered placed for adoption when the adopting
648.10 parent, the agency, and the commissioner have fully executed an adoption placement
648.11 agreement on the form prescribed by the commissioner.

648.12 (b) The responsible social services agency shall use an individualized determination of
648.13 the child's current and future needs, pursuant to section 260C.212, subdivision 2, paragraph
648.14 (b), to determine the most suitable adopting parent for the child in the child's best interests.
648.15 The responsible social services agency must consider adoptive placement of the child with
648.16 relatives in the order specified in section 260C.212, subdivision 2, paragraph (a).

648.17 (c) The responsible social services agency shall notify the court and parties entitled to
648.18 notice under section 260C.607, subdivision 2, when there is a fully executed adoption
648.19 placement agreement for the child.

648.20 (d) In the event an adoption placement agreement terminates, the responsible social
648.21 services agency shall notify the court, the parties entitled to notice under section 260C.607,
648.22 subdivision 2, and the commissioner that the agreement and the adoptive placement have
648.23 terminated.

648.24 Sec. 25. Minnesota Statutes 2020, section 260C.613, subdivision 5, is amended to read:

648.25 Subd. 5. **Required record keeping.** The responsible social services agency shall
648.26 document, in the records required to be kept under section 259.79, the reasons for the
648.27 adoptive placement decision regarding the child, including the individualized determination
648.28 of the child's needs based on the factors in section 260C.212, subdivision 2, paragraph (b);
648.29 the agency's consideration of relatives in the order specified in section 260C.212, subdivision
648.30 2, paragraph (a); and the assessment of how the selected adoptive placement meets the
648.31 identified needs of the child. The responsible social services agency shall retain in the
648.32 records required to be kept under section 259.79, copies of all out-of-home placement plans

649.1 made since the child was ordered under guardianship of the commissioner and all court
649.2 orders from reviews conducted pursuant to section 260C.607.

649.3 Sec. 26. Minnesota Statutes 2021 Supplement, section 260E.20, subdivision 2, is amended
649.4 to read:

649.5 Subd. 2. **Face-to-face contact.** (a) Upon receipt of a screened in report, the local welfare
649.6 agency shall conduct a face-to-face contact with the child reported to be maltreated and
649.7 with the child's primary caregiver sufficient to complete a safety assessment and ensure the
649.8 immediate safety of the child. If the report alleges substantial child endangerment or sexual
649.9 abuse, the local welfare agency or agency responsible for assessing or investigating the
649.10 report is not required to provide notice before conducting the initial face-to-face contact
649.11 with the child and the child's primary caregiver.

649.12 (b) The face-to-face contact with the child and primary caregiver shall occur immediately
649.13 if sexual abuse or substantial child endangerment is alleged and within five calendar days
649.14 for all other reports. If the alleged offender was not already interviewed as the primary
649.15 caregiver, the local welfare agency shall also conduct a face-to-face interview with the
649.16 alleged offender in the early stages of the assessment or investigation. Face-to-face contact
649.17 with the child and primary caregiver in response to a report alleging sexual abuse or
649.18 substantial child endangerment may be postponed for no more than five calendar days if
649.19 the child is residing in a location that is confirmed to restrict contact with the alleged offender
649.20 as established in guidelines issued by the commissioner, or if the local welfare agency is
649.21 pursuing a court order for the child's caregiver to produce the child for questioning under
649.22 section 260E.22, subdivision 5.

649.23 (c) At the initial contact with the alleged offender, the local welfare agency or the agency
649.24 responsible for assessing or investigating the report must inform the alleged offender of the
649.25 complaints or allegations made against the individual in a manner consistent with laws
649.26 protecting the rights of the person who made the report. The interview with the alleged
649.27 offender may be postponed if it would jeopardize an active law enforcement investigation.

649.28 (d) The local welfare agency or the agency responsible for assessing or investigating
649.29 the report must provide the alleged offender with an opportunity to make a statement. The
649.30 alleged offender may submit supporting documentation relevant to the assessment or
649.31 investigation.

650.1 Sec. 27. Minnesota Statutes 2020, section 260E.22, subdivision 2, is amended to read:

650.2 Subd. 2. **Child interview procedure.** (a) The interview may take place at school or at
650.3 any facility or other place where the alleged victim or other children might be found or the
650.4 child may be transported to, and the interview may be conducted at a place appropriate for
650.5 the interview of a child designated by the local welfare agency or law enforcement agency.

650.6 (b) When appropriate, the interview ~~may~~ must take place outside the presence of the
650.7 alleged offender or parent, legal custodian, guardian, or school official- and may take place
650.8 prior to any interviews of the alleged offender or parent, legal custodian, guardian, foster
650.9 parent, or school official.

650.10 ~~(c) For a family assessment, it is the preferred practice to request a parent or guardian's~~
650.11 ~~permission to interview the child before conducting the child interview, unless doing so~~
650.12 ~~would compromise the safety assessment.~~

650.13 Sec. 28. Minnesota Statutes 2020, section 260E.24, subdivision 2, is amended to read:

650.14 Subd. 2. **Determination after family assessment.** After conducting a family assessment,
650.15 the local welfare agency shall determine whether child protective services are needed to
650.16 address the safety of the child and other family members and the risk of subsequent
650.17 maltreatment. The local welfare agency must document the information collected under
650.18 section 260E.20, subdivision 3, related to the completed family assessment in the child's or
650.19 family's case notes.

650.20 Sec. 29. Minnesota Statutes 2020, section 260E.34, is amended to read:

650.21 **260E.34 IMMUNITY.**

650.22 (a) The following persons, including persons under the age of 18, are immune from any
650.23 civil or criminal liability that otherwise might result from the person's actions if the person
650.24 is acting in good faith:

650.26 assessment under this chapter;

650.27 (2) a person with responsibility for performing duties under this section or supervisor
650.28 employed by a local welfare agency, the commissioner of an agency responsible for operating

650.31 144.50 to 144.58; 241.021; 245A.01 to 245A.16; or chapter 245B or 245H; or a school as

651.3 (3) a public or private school, facility as defined in section 260E.03, or the employee of

651.6 or assessment pursuant to this chapter.

651.7 (b) A person who is a supervisor or person with responsibility for performing duties
651.8 under this chapter employed by a local welfare agency, the commissioner of human services,

651.10 of law is immune from any civil or criminal liability that might otherwise result from the
651.11 person's actions if the person is (1) acting in good faith and exercising due care, or (2) acting
651.12 in good faith and following the information collection procedures established under section
651.13 260E.20, subdivision 3.

651.14 (c) Any physician or other medical personnel administering a toxicology test under
651.15 section 260E.32 to determine the presence of a controlled substance in a pregnant woman,
651.16 in a woman within eight hours after delivery, or in a child at birth or during the first month
651.17 of life is immune from civil or criminal liability arising from administration of the test if
651.18 the physician ordering the test believes in good faith that the test is required under this
651.19 section and the test is administered in accordance with an established protocol and reasonable
651.20 medical practice.

651.21 (d) This section does not provide immunity to any person for failure to make a required
651.22 report or for committing maltreatment.

651.23 (e) If a person who makes a voluntary or mandatory report under section 260E.06 prevails
651.24 in a civil action from which the person has been granted immunity under this section, the
651.25 court may award the person attorney fees and costs.

651.26 Sec. 30. Minnesota Statutes 2020, section 626.557, subdivision 4, is amended to read:

651.27 Subd. 4. **Reporting.** (a) Except as provided in paragraph (b), a mandated reporter shall
651.28 immediately make ~~an oral~~ a report to the common entry point. ~~The common entry point~~
651.29 ~~may accept electronic reports submitted through a web-based reporting system established~~
651.30 ~~by the commissioner. Use of a telecommunications device for the deaf or other similar~~
651.31 ~~device shall be considered an oral report. The common entry point may not require written~~
651.32 ~~reports.~~ To the extent possible, the report must be of sufficient content to identify the
651.33 vulnerable adult, the caregiver, the nature and extent of the suspected maltreatment, any

652.1 evidence of previous maltreatment, the name and address of the reporter, the time, date,
652.2 and location of the incident, and any other information that the reporter believes might be
652.3 helpful in investigating the suspected maltreatment. A mandated reporter may disclose not
652.4 public data, as defined in section 13.02, and medical records under sections 144.291 to
652.5 144.298, to the extent necessary to comply with this subdivision.

652.6 (b) A boarding care home that is licensed under sections 144.50 to 144.58 and certified
652.7 under Title 19 of the Social Security Act, a nursing home that is licensed under section
652.8 144A.02 and certified under Title 18 or Title 19 of the Social Security Act, or a hospital
652.9 that is licensed under sections 144.50 to 144.58 and has swing beds certified under Code
652.10 of Federal Regulations, title 42, section 482.66, may submit a report electronically to the
652.11 common entry point instead of submitting an oral report. The report may be a duplicate of
652.12 the initial report the facility submits electronically to the commissioner of health to comply
652.13 with the reporting requirements under Code of Federal Regulations, title 42, section 483.12.
652.14 The commissioner of health may modify these reporting requirements to include items
652.15 required under paragraph (a) that are not currently included in the electronic reporting form.

652.16 Sec. 31. Minnesota Statutes 2020, section 626.557, subdivision 9, is amended to read:

652.17 Subd. 9. **Common entry point designation.** ~~(a) Each county board shall designate a~~
652.18 ~~common entry point for reports of suspected maltreatment, for use until the commissioner~~
652.19 ~~of human services establishes a common entry point. Two or more county boards may~~
652.20 ~~jointly designate a single common entry point.~~ The commissioner of human services shall
652.21 establish a common entry point ~~effective July 1, 2015.~~ The common entry point is the unit
652.22 responsible for receiving the report of suspected maltreatment under this section.

652.23 (b) The common entry point must be available 24 hours per day to take calls from
652.24 reporters of suspected maltreatment. The common entry point shall use a standard intake
652.25 form that includes:

652.26 (1) the time and date of the report;

652.27 (2) the name, relationship, and identifying and contact information for the person believed
652.28 to be a vulnerable adult and the individual or facility alleged responsible for maltreatment;

652.29 (3) the name, address, and telephone number of the person reporting; relationship, and
652.30 contact information for the:

652.31 (i) reporter;

652.32 (ii) initial reporter, witnesses, and persons who may have knowledge about the
652.33 maltreatment; and

- 653.1 (iii) legal surrogate and persons who may provide support to the vulnerable adult;
- 653.2 (4) the basis of vulnerability for the vulnerable adult;
- 653.3 ~~(3)~~ (5) the time, date, and location of the incident;
- 653.4 ~~(4) the names of the persons involved, including but not limited to, perpetrators, alleged~~
- 653.5 ~~victims, and witnesses;~~
- 653.6 ~~(5) whether there was a risk of imminent danger to the alleged victim;~~
- 653.7 (6) the immediate safety risk to the vulnerable adult;
- 653.8 ~~(6)~~ (7) a description of the suspected maltreatment;
- 653.9 ~~(7) the disability, if any, of the alleged victim;~~
- 653.10 ~~(8) the relationship of the alleged perpetrator to the alleged victim;~~
- 653.11 (8) the impact of the suspected maltreatment on the vulnerable adult;
- 653.12 (9) whether a facility was involved and, if so, which agency licenses the facility;
- 653.13 ~~(10) any action taken by the common entry point;~~
- 653.14 ~~(11) whether law enforcement has been notified;~~
- 653.15 (10) the actions taken to protect the vulnerable adult;
- 653.16 (11) the required notifications and referrals made by the common entry point; and
- 653.17 (12) whether the reporter wishes to receive notification of the ~~initial and final reports;~~
- 653.18 ~~and~~ disposition.
- 653.19 ~~(13) if the report is from a facility with an internal reporting procedure, the name, mailing~~
- 653.20 ~~address, and telephone number of the person who initiated the report internally.~~
- 653.21 (c) The common entry point is not required to complete each item on the form prior to
- 653.22 dispatching the report to the appropriate lead investigative agency.
- 653.23 (d) The common entry point shall immediately report to a law enforcement agency any
- 653.24 incident in which there is reason to believe a crime has been committed.
- 653.25 (e) If a report is initially made to a law enforcement agency or a lead investigative agency,
- 653.26 those agencies shall take the report on the appropriate common entry point intake forms
- 653.27 and immediately forward a copy to the common entry point.
- 653.28 (f) The common entry point staff must receive training on how to screen and dispatch
- 653.29 reports efficiently and in accordance with this section.

654.1 (g) The commissioner of human services shall maintain a centralized database for the
654.2 collection of common entry point data, lead investigative agency data including maltreatment
654.3 report disposition, and appeals data. The common entry point shall have access to the
654.4 centralized database and must log the reports into the database ~~and immediately identify~~
654.5 ~~and locate prior reports of abuse, neglect, or exploitation.~~

654.6 (h) When appropriate, the common entry point staff must refer calls that do not allege
654.7 the abuse, neglect, or exploitation of a vulnerable adult to other organizations that might
654.8 resolve the reporter's concerns.

654.9 (i) A common entry point must be operated in a manner that enables the commissioner
654.10 of human services to:

654.11 (1) track critical steps in the reporting, evaluation, referral, response, disposition, and
654.12 investigative process to ensure compliance with all requirements for all reports;

654.13 (2) maintain data to facilitate the production of aggregate statistical reports for monitoring
654.14 patterns of abuse, neglect, or exploitation;

654.15 (3) serve as a resource for the evaluation, management, and planning of preventative
654.16 and remedial services for vulnerable adults who have been subject to abuse, neglect, or
654.17 exploitation;

654.18 (4) set standards, priorities, and policies to maximize the efficiency and effectiveness
654.19 of the common entry point; and

654.20 (5) track and manage consumer complaints related to the common entry point.

654.21 (j) The commissioners of human services and health shall collaborate on the creation of
654.22 a system for referring reports to the lead investigative agencies. This system shall enable
654.23 the commissioner of human services to track critical steps in the reporting, evaluation,
654.24 referral, response, disposition, investigation, notification, determination, and appeal processes.

654.25 Sec. 32. Minnesota Statutes 2020, section 626.557, subdivision 9b, is amended to read:

654.26 Subd. 9b. **Response to reports.** Law enforcement is the primary agency to conduct
654.27 investigations of any incident in which there is reason to believe a crime has been committed.
654.28 Law enforcement shall initiate a response immediately. If the common entry point notified
654.29 a county agency for emergency adult protective services, law enforcement shall cooperate
654.30 with that county agency when both agencies are involved and shall exchange data to the
654.31 extent authorized in subdivision 12b, paragraph (g). County adult protection shall initiate
654.32 a response immediately. Each lead investigative agency shall complete the investigative

655.1 process for reports within its jurisdiction. A lead investigative agency, county, adult protective
655.2 agency, licensed facility, or law enforcement agency shall cooperate with other agencies in
655.3 the provision of protective services, coordinating its investigations, and assisting another
655.4 agency within the limits of its resources and expertise and shall exchange data to the extent
655.5 authorized in subdivision 12b, paragraph (g). The lead investigative agency shall obtain the
655.6 results of any investigation conducted by law enforcement officials. The lead investigative
655.7 agency has the right to enter facilities and inspect and copy records as part of investigations.
655.8 The lead investigative agency has access to not public data, as defined in section 13.02, and
655.9 medical records under sections 144.291 to 144.298, that are maintained by facilities to the
655.10 extent necessary to conduct its investigation. Each lead investigative agency shall develop
655.11 guidelines for prioritizing reports for investigation. When a county acts as a lead investigative
655.12 agency, the county shall make guidelines available to the public regarding which reports
655.13 the county prioritizes for investigation and adult protective services.

655.14 Sec. 33. Minnesota Statutes 2020, section 626.557, subdivision 9c, is amended to read:

655.15 Subd. 9c. **Lead investigative agency; notifications, dispositions, determinations.** (a)
655.16 Upon request of the reporter, the lead investigative agency shall notify the reporter that it
655.17 has received the report, and provide information on the initial disposition of the report within
655.18 five business days of receipt of the report, provided that the notification will not endanger
655.19 the vulnerable adult or hamper the investigation.

655.20 (b) In making the initial disposition of a report alleging maltreatment of a vulnerable
655.21 adult, the lead investigative agency may consider previous reports of suspected maltreatment
655.22 and may request and consider public information, records maintained by a lead investigative
655.23 agency or licensed providers, and information from any person who may have knowledge
655.24 regarding the alleged maltreatment and the basis for the adult's vulnerability.

655.25 (c) Unless the lead investigative agency believes that: (1) the information would endanger
655.26 the well-being of the vulnerable adult; or (2) it would not be in the best interests of the
655.27 vulnerable adult, the lead investigative agency shall inform the vulnerable adult, or vulnerable
655.28 adult's guardian or health care agent, if known and when applicable to the authority of the
655.29 vulnerable adult's guardian or health care agent, of all reports accepted by the agency for
655.30 investigation, including the maltreatment allegation, investigation guidelines, time frame,
655.31 and evidence standards that the agency uses for determinations. If the allegation is applicable
655.32 to the guardian or health care agent, the lead investigative agency must also inform the
655.33 vulnerable adult's guardian or health care agent of all reports accepted for investigation by

656.1 the agency, including the maltreatment allegation, investigation guidelines, time frame, and
656.2 evidence standards that the agency uses for determinations.

656.3 (d) When the county social service agency does not accept a report for adult protective
656.4 services or investigation, the agency may offer assistance to the reporter or the person who
656.5 was the subject of the report.

656.6 (e) When the county is the lead investigative agency or the agency responsible for adult
656.7 protective services, the agency may coordinate and share data with the Native American
656.8 Tribes and case management agencies as allowed under chapter 13 to support a vulnerable
656.9 adult's health, safety, or comfort or to prevent, stop, or remediate maltreatment. The identity
656.10 of the reporter shall not be disclosed, except as provided in subdivision 12b.

656.11 (f) While investigating reports and providing adult protective services, the lead
656.12 investigative agency may coordinate with entities identified under subdivision 12b, paragraph
656.13 (g), and may coordinate with support persons to safeguard the welfare of the vulnerable
656.14 adult and prevent further maltreatment of the vulnerable adult.

656.15 ~~(b)~~ (g) Upon conclusion of every investigation it conducts, the lead investigative agency
656.16 shall make a final disposition as defined in section 626.5572, subdivision 8.

656.17 ~~(e)~~ (h) When determining whether the facility or individual is the responsible party for
656.18 substantiated maltreatment or whether both the facility and the individual are responsible
656.19 for substantiated maltreatment, the lead investigative agency shall consider at least the
656.20 following mitigating factors:

656.21 (1) whether the actions of the facility or the individual caregivers were in accordance
656.22 with, and followed the terms of, an erroneous physician order, prescription, resident care
656.23 plan, or directive. This is not a mitigating factor when the facility or caregiver is responsible
656.24 for the issuance of the erroneous order, prescription, plan, or directive or knows or should
656.25 have known of the errors and took no reasonable measures to correct the defect before
656.26 administering care;

656.27 (2) the comparative responsibility between the facility, other caregivers, and requirements
656.28 placed upon the employee, including but not limited to, the facility's compliance with related
656.29 regulatory standards and factors such as the adequacy of facility policies and procedures,
656.30 the adequacy of facility training, the adequacy of an individual's participation in the training,
656.31 the adequacy of caregiver supervision, the adequacy of facility staffing levels, and a
656.32 consideration of the scope of the individual employee's authority; and

657.1 (3) whether the facility or individual followed professional standards in exercising
657.2 professional judgment.

657.3 ~~(d)~~ (i) When substantiated maltreatment is determined to have been committed by an
657.4 individual who is also the facility license holder, both the individual and the facility must
657.5 be determined responsible for the maltreatment, and both the background study
657.6 disqualification standards under section 245C.15, subdivision 4, and the licensing actions
657.7 under section 245A.06 or 245A.07 apply.

657.8 ~~(e)~~ (j) The lead investigative agency shall complete its final disposition within 60 calendar
657.9 days. If the lead investigative agency is unable to complete its final disposition within 60
657.10 calendar days, the lead investigative agency shall notify the following persons provided
657.11 that the notification will not endanger the vulnerable adult or hamper the investigation: (1)
657.12 the vulnerable adult or the vulnerable adult's guardian or health care agent, when known,
657.13 if the lead investigative agency knows them to be aware of the investigation; and (2) the
657.14 facility, where applicable. The notice shall contain the reason for the delay and the projected
657.15 completion date. If the lead investigative agency is unable to complete its final disposition
657.16 by a subsequent projected completion date, the lead investigative agency shall again notify
657.17 the vulnerable adult or the vulnerable adult's guardian or health care agent, when known if
657.18 the lead investigative agency knows them to be aware of the investigation, and the facility,
657.19 where applicable, of the reason for the delay and the revised projected completion date
657.20 provided that the notification will not endanger the vulnerable adult or hamper the
657.21 investigation. The lead investigative agency must notify the health care agent of the
657.22 vulnerable adult only if the health care agent's authority to make health care decisions for
657.23 the vulnerable adult is currently effective under section 145C.06 and not suspended under
657.24 section 524.5-310 and the investigation relates to a duty assigned to the health care agent
657.25 by the principal. A lead investigative agency's inability to complete the final disposition
657.26 within 60 calendar days or by any projected completion date does not invalidate the final
657.27 disposition.

657.28 ~~(f) Within ten calendar days of completing the final disposition~~ (k) When the lead
657.29 investigative agency is the Department of Health or the Department of Human Services,
657.30 the lead investigative agency shall provide a copy of the public investigation memorandum
657.31 under subdivision 12b, paragraph (b), clause (1), ~~when required to be completed under this~~
657.32 ~~section,~~ within ten calendar days of completing the final disposition to the following persons:

657.33 (1) the vulnerable adult, or the vulnerable adult's guardian or health care agent, if known,
657.34 unless the lead investigative agency knows that the notification would endanger the
657.35 well-being of the vulnerable adult;

658.1 (2) the reporter, if the reporter requested notification when making the report, provided
658.2 this notification would not endanger the well-being of the vulnerable adult;

658.3 (3) the ~~alleged perpetrator~~ person or facility alleged responsible for maltreatment, if
658.4 known;

658.5 (4) the facility; and

658.6 (5) the ombudsman for long-term care, or the ombudsman for mental health and
658.7 developmental disabilities, as appropriate.

658.8 (l) When the lead investigative agency is a county agency, within ten calendar days of
658.9 completing the final disposition, the lead investigative agency shall provide notification of
658.10 the final disposition to the following persons:

658.11 (1) the vulnerable adult, or the vulnerable adult's guardian or health care agent, if known,
658.12 when the allegation is applicable to the authority of the vulnerable adult's guardian or health
658.13 care agent, unless the agency knows that the notification would endanger the well-being of
658.14 the vulnerable adult;

658.15 (2) the individual determined responsible for maltreatment, if known; and

658.16 (3) when the alleged incident involves a personal care assistant or provider agency, the
658.17 personal care provider organization under section 256B.0659. Upon implementation of
658.18 Community First Services and Supports (CFSS), this notification requirement applies to
658.19 the CFSS support worker or CFSS agency under section 256B.85.

658.20 ~~(g)~~ (m) If, as a result of a reconsideration, review, or hearing, the lead investigative
658.21 agency changes the final disposition, or if a final disposition is changed on appeal, the lead
658.22 investigative agency shall notify the parties specified in paragraph ~~(f)~~ (k).

658.23 ~~(h)~~ (n) The lead investigative agency shall notify the vulnerable adult who is the subject
658.24 of the report or the vulnerable adult's guardian or health care agent, if known, and any person
658.25 or facility determined to have maltreated a vulnerable adult, of their appeal or review rights
658.26 under this section or section 256.021.

658.27 ~~(i)~~ (o) The lead investigative agency shall routinely provide investigation memoranda
658.28 for substantiated reports to the appropriate licensing boards. These reports must include the
658.29 names of substantiated perpetrators. The lead investigative agency may not provide
658.30 investigative memoranda for inconclusive or false reports to the appropriate licensing boards
658.31 unless the lead investigative agency's investigation gives reason to believe that there may
658.32 have been a violation of the applicable professional practice laws. If the investigation

659.1 memorandum is provided to a licensing board, the subject of the investigation memorandum
659.2 shall be notified and receive a summary of the investigative findings.

659.3 ~~(j)~~ (p) In order to avoid duplication, licensing boards shall consider the findings of the
659.4 lead investigative agency in their investigations if they choose to investigate. This does not
659.5 preclude licensing boards from considering other information.

659.6 ~~(k)~~ (q) The lead investigative agency must provide to the commissioner of human services
659.7 its final dispositions, including the names of all substantiated perpetrators. The commissioner
659.8 of human services shall establish records to retain the names of substantiated perpetrators.

659.9 Sec. 34. Minnesota Statutes 2020, section 626.557, subdivision 9d, is amended to read:

659.10 Subd. 9d. **Administrative reconsideration; review panel.** (a) Except as provided under
659.11 paragraph (e), any individual or facility which a lead investigative agency determines has
659.12 maltreated a vulnerable adult, or the vulnerable adult or an interested person acting on behalf
659.13 of the vulnerable adult, regardless of the lead investigative agency's determination, who
659.14 contests the lead investigative agency's final disposition of an allegation of maltreatment,
659.15 may request the lead investigative agency to reconsider its final disposition. The request
659.16 for reconsideration must be submitted in writing to the lead investigative agency within 15
659.17 calendar days after receipt of notice of final disposition or, if the request is made by an
659.18 interested person who is not entitled to notice, within 15 days after receipt of the notice by
659.19 the vulnerable adult or the vulnerable adult's guardian or health care agent. If mailed, the
659.20 request for reconsideration must be postmarked and sent to the lead investigative agency
659.21 within 15 calendar days of the individual's or facility's receipt of the final disposition. If the
659.22 request for reconsideration is made by personal service, it must be received by the lead
659.23 investigative agency within 15 calendar days of the individual's or facility's receipt of the
659.24 final disposition. An individual who was determined to have maltreated a vulnerable adult
659.25 under this section and who was disqualified on the basis of serious or recurring maltreatment
659.26 under sections 245C.14 and 245C.15, may request reconsideration of the maltreatment
659.27 determination and the disqualification. The request for reconsideration of the maltreatment
659.28 determination and the disqualification must be submitted in writing within 30 calendar days
659.29 of the individual's receipt of the notice of disqualification under sections 245C.16 and
659.30 245C.17. If mailed, the request for reconsideration of the maltreatment determination and
659.31 the disqualification must be postmarked and sent to the lead investigative agency within 30
659.32 calendar days of the individual's receipt of the notice of disqualification. If the request for
659.33 reconsideration is made by personal service, it must be received by the lead investigative
659.34 agency within 30 calendar days after the individual's receipt of the notice of disqualification.

660.1 (b) Except as provided under paragraphs (e) and (f), if the lead investigative agency
660.2 denies the request or fails to act upon the request within 15 working days after receiving
660.3 the request for reconsideration, the person or facility entitled to a fair hearing under section
660.4 256.045, may submit to the commissioner of human services a written request for a hearing
660.5 under that statute. The vulnerable adult, or an interested person acting on behalf of the
660.6 vulnerable adult, may request a review by the Vulnerable Adult Maltreatment Review Panel
660.7 under section 256.021 if the lead investigative agency denies the request or fails to act upon
660.8 the request, or if the vulnerable adult or interested person contests a reconsidered disposition.
660.9 The Vulnerable Adult Maltreatment Review Panel shall not conduct a review if the interested
660.10 person making the request on behalf of the vulnerable adult is also the individual or facility
660.11 alleged responsible for the maltreatment of the vulnerable adult. The lead investigative
660.12 agency shall notify persons who request reconsideration of their rights under this paragraph.
660.13 The request must be submitted in writing to the review panel and a copy sent to the lead
660.14 investigative agency within 30 calendar days of receipt of notice of a denial of a request for
660.15 reconsideration or of a reconsidered disposition. The request must specifically identify the
660.16 aspects of the lead investigative agency determination with which the person is dissatisfied.

660.17 (c) If, as a result of a reconsideration or review, the lead investigative agency changes
660.18 the final disposition, it shall notify the parties specified in subdivision 9c, paragraph ~~(f)~~ (i).

660.19 (d) For purposes of this subdivision, "interested person acting on behalf of the vulnerable
660.20 adult" means a person designated in writing by the vulnerable adult to act on behalf of the
660.21 vulnerable adult, or a legal guardian or conservator or other legal representative, a proxy
660.22 or health care agent appointed under chapter 145B or 145C, or an individual who is related
660.23 to the vulnerable adult, as defined in section 245A.02, subdivision 13.

660.24 (e) If an individual was disqualified under sections 245C.14 and 245C.15, on the basis
660.25 of a determination of maltreatment, which was serious or recurring, and the individual has
660.26 requested reconsideration of the maltreatment determination under paragraph (a) and
660.27 reconsideration of the disqualification under sections 245C.21 to 245C.27, reconsideration
660.28 of the maltreatment determination and requested reconsideration of the disqualification
660.29 shall be consolidated into a single reconsideration. If reconsideration of the maltreatment
660.30 determination is denied and the individual remains disqualified following a reconsideration
660.31 decision, the individual may request a fair hearing under section 256.045. If an individual
660.32 requests a fair hearing on the maltreatment determination and the disqualification, the scope
660.33 of the fair hearing shall include both the maltreatment determination and the disqualification.

660.34 (f) If a maltreatment determination or a disqualification based on serious or recurring
660.35 maltreatment is the basis for a denial of a license under section 245A.05 or a licensing

661.1 sanction under section 245A.07, the license holder has the right to a contested case hearing
661.2 under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. As provided for
661.3 under section 245A.08, the scope of the contested case hearing must include the maltreatment
661.4 determination, disqualification, and licensing sanction or denial of a license. In such cases,
661.5 a fair hearing must not be conducted under section 256.045. Except for family child care
661.6 and child foster care, reconsideration of a maltreatment determination under this subdivision,
661.7 and reconsideration of a disqualification under section 245C.22, must not be conducted
661.8 when:

661.9 (1) a denial of a license under section 245A.05, or a licensing sanction under section
661.10 245A.07, is based on a determination that the license holder is responsible for maltreatment
661.11 or the disqualification of a license holder based on serious or recurring maltreatment;

661.12 (2) the denial of a license or licensing sanction is issued at the same time as the
661.13 maltreatment determination or disqualification; and

662.2 is the final agency action.

662.3 (1) For purposes of compliance with the data destruction schedule under subdivision
662.4 12b, paragraph (d), when a finding of substantiated maltreatment has been changed as a
662.5 result of a reconsideration under this paragraph, the date of the original finding of a
662.6 substantiated maltreatment must be used to calculate the destruction date.

662.7 (2) For purposes of any background studies under chapter 245C, when a determination
662.8 of substantiated maltreatment has been changed as a result of a reconsideration under this
662.9 paragraph, any prior disqualification of the individual under chapter 245C that was based
662.10 on this determination of maltreatment shall be rescinded, and for future background studies
662.11 under chapter 245C the commissioner must not use the previous determination of
662.12 substantiated maltreatment as a basis for disqualification or as a basis for referring the

662.14 Sec. 35. Minnesota Statutes 2020, section 626.557, subdivision 10, is amended to read:

662.29 occurred. The county social service agency may also investigate to determine whether the
662.30 conditions which resulted in the reported maltreatment place other vulnerable adults in
662.31 jeopardy of being maltreated and offer protective social services that are called for by its
662.32 determination.

662.33 (b) Within five business days of receipt of a report screened in by the county social

663.8 against a caregiver under chapter 256B.

663.9 (d) An investigating county social service agency must make a final disposition for any
663.10 allegation when the county social service agency determines that a final disposition may
663.11 safeguard a vulnerable adult or may prevent further maltreatment.

663.12 (e) If the county social service agency learns of an allegation listed in paragraph (c) after
663.13 the determination in paragraph (a), the county social service agency must change the initial

671.22 (b) ~~The absence or likelihood of absence of care or services, including but not limited~~
671.23 ~~to, food, clothing, shelter, health care, or supervision necessary to maintain the physical~~
671.24 ~~and mental health of the vulnerable adult~~ "Self-neglect" means neglect by a vulnerable adult
671.25 of the vulnerable adult's own food, clothing, shelter, health care, or other services that are
671.26 not the responsibility of a caregiver which a reasonable person would deem essential to
671.27 obtain or maintain the vulnerable adult's health, safety, or comfort ~~considering the physical~~
671.28 ~~or mental capacity or dysfunction of the vulnerable adult.~~

671.29 (c) For purposes of this section, a vulnerable adult is not neglected for the sole reason
671.30 that:

672.1 (1) the vulnerable adult or a person with authority to make health care decisions for the
672.2 vulnerable adult under sections 144.651, 144A.44, chapter 145B, 145C, or 252A, or sections
672.3 253B.03 or 524.5-101 to 524.5-502, refuses consent or withdraws consent, consistent with
672.4 that authority and within the boundary of reasonable medical practice, to any therapeutic
672.5 conduct, including any care, service, or procedure to diagnose, maintain, or treat the physical
672.6 or mental condition of the vulnerable adult, or, where permitted under law, to provide
672.7 nutrition and hydration parenterally or through intubation; this paragraph does not enlarge
672.8 or diminish rights otherwise held under law by:

672.9 (i) a vulnerable adult or a person acting on behalf of a vulnerable adult, including an
672.10 involved family member, to consent to or refuse consent for therapeutic conduct; or

672.11 (ii) a caregiver to offer or provide or refuse to offer or provide therapeutic conduct; or

672.12 (2) the vulnerable adult, a person with authority to make health care decisions for the
672.13 vulnerable adult, or a caregiver in good faith selects and depends upon spiritual means or
672.14 prayer for treatment or care of disease or remedial care of the vulnerable adult in lieu of
672.15 medical care, provided that this is consistent with the prior practice or belief of the vulnerable
672.16 adult or with the expressed intentions of the vulnerable adult;

672.17 (3) the vulnerable adult, who is not impaired in judgment or capacity by mental or
672.18 emotional dysfunction or undue influence, engages in consensual sexual contact with:

672.19 (i) a person including a facility staff person when a consensual sexual personal
672.20 relationship existed prior to the caregiving relationship; or

672.21 (ii) a personal care attendant, regardless of whether the consensual sexual personal
672.22 relationship existed prior to the caregiving relationship; or

672.23 (4) an individual makes an error in the provision of therapeutic conduct to a vulnerable
672.24 adult which does not result in injury or harm which reasonably requires medical or mental
672.25 health care; or

672.26 (5) an individual makes an error in the provision of therapeutic conduct to a vulnerable
672.27 adult that results in injury or harm, which reasonably requires the care of a physician, and:

672.28 (i) the necessary care is provided in a timely fashion as dictated by the condition of the
672.29 vulnerable adult;

672.30 (ii) if after receiving care, the health status of the vulnerable adult can be reasonably
672.31 expected, as determined by the attending physician, to be restored to the vulnerable adult's
672.32 preexisting condition;

- 673.1 (iii) the error is not part of a pattern of errors by the individual;
- 673.2 (iv) if in a facility, the error is immediately reported as required under section 626.557,
673.3 and recorded internally in the facility;
- 673.4 (v) if in a facility, the facility identifies and takes corrective action and implements
673.5 measures designed to reduce the risk of further occurrence of this error and similar errors;
673.6 and
- 673.7 (vi) if in a facility, the actions required under items (iv) and (v) are sufficiently
673.8 documented for review and evaluation by the facility and any applicable licensing,
673.9 certification, and ombudsman agency.
- 673.10 (d) Nothing in this definition requires a caregiver, if regulated, to provide services in
673.11 excess of those required by the caregiver's license, certification, registration, or other
673.12 regulation.
- 673.13 (e) If the findings of an investigation by a lead investigative agency result in a
673.14 determination of substantiated maltreatment for the sole reason that the actions required of
673.15 a facility under paragraph (c), clause (5), item (iv), (v), or (vi), were not taken, then the
673.16 facility is subject to a correction order. An individual will not be found to have neglected
673.17 or maltreated the vulnerable adult based solely on the facility's not having taken the actions
673.18 required under paragraph (c), clause (5), item (iv), (v), or (vi). This must not alter the lead
673.19 investigative agency's determination of mitigating factors under section 626.557, subdivision
673.20 9c, paragraph ~~(e)~~ (f).

673.21 **ARTICLE 14**

673.22 **CHILD PROTECTION**

673.23 Section 1. Minnesota Statutes 2020, section 242.19, subdivision 2, is amended to read:

673.24 Subd. 2. **Dispositions.** When a child has been committed to the commissioner of
673.25 corrections by a juvenile court, upon a finding of delinquency, the commissioner may for
673.26 the purposes of treatment and rehabilitation:

673.27 (1) order the child's confinement to the Minnesota Correctional Facility-Red Wing,
673.28 which shall accept the child, or to a group foster home under the control of the commissioner
673.29 of corrections, or to private facilities or facilities established by law or incorporated under
673.30 the laws of this state that may care for delinquent children;

673.31 (2) order the child's release on parole under such supervisions and conditions as the
673.32 commissioner believes conducive to law-abiding conduct, treatment and rehabilitation;

674.1 (3) order reconfinement or renewed parole as often as the commissioner believes to be
674.2 desirable;

674.3 (4) revoke or modify any order, except an order of discharge, as often as the commissioner
674.4 believes to be desirable;

674.5 (5) discharge the child when the commissioner is satisfied that the child has been
674.6 rehabilitated and that such discharge is consistent with the protection of the public;

674.7 (6) if the commissioner finds that the child is eligible for probation or parole and it
674.8 appears from the commissioner's investigation that conditions in the child's or the guardian's
674.9 home are not conducive to the child's treatment, rehabilitation, or law-abiding conduct, refer
674.10 the child, together with the commissioner's findings, to a local social services agency or a
674.11 licensed child-placing agency for placement in a foster care or, when appropriate, for
674.12 initiation of child in need of protection or services proceedings as provided in sections
674.13 260C.001 to 260C.421. The commissioner of corrections shall reimburse local social services
674.14 agencies for foster care costs they incur for the child while on probation or parole to the
674.15 extent that funds for this purpose are made available to the commissioner by the legislature.
674.16 The juvenile court ~~shall~~ may order the parents of a child on probation or parole to pay the
674.17 costs of foster care under section 260B.331, subdivision 1, if the local social services agency
674.18 has determined that requiring reimbursement is in the child's best interests, according to
674.19 their ability to pay, and to the extent that the commissioner of corrections has not reimbursed
674.20 the local social services agency.

674.21 Sec. 2. Minnesota Statutes 2020, section 260.761, subdivision 2, is amended to read:

674.22 Subd. 2. **Agency and court notice to tribes.** (a) When a local social services agency
674.23 has information that a family assessment ~~or~~ investigation, or noncaregiver sex trafficking
674.24 assessment being conducted may involve an Indian child, the local social services agency
674.25 shall notify the Indian child's tribe of the family assessment ~~or~~ investigation, or noncaregiver
674.26 sex trafficking assessment according to section 260E.18. The local social services agency
674.27 shall provide initial notice ~~shall be provided~~ by telephone and by e-mail or facsimile. The
674.28 local social services agency shall request that the tribe or a designated tribal representative
674.29 participate in evaluating the family circumstances, identifying family and tribal community
674.30 resources, and developing case plans.

674.31 (b) When a local social services agency has information that a child receiving services
674.32 may be an Indian child, the local social services agency shall notify the tribe by telephone
674.33 and by e-mail or facsimile of the child's full name and date of birth, the full names and dates
674.34 of birth of the child's biological parents, and, if known, the full names and dates of birth of

675.1 the child's grandparents and of the child's Indian custodian. This notification must be provided
675.2 ~~so~~ for the tribe ~~can~~ to determine if the child is enrolled in the tribe or eligible for tribal
675.3 membership, and ~~must be provided~~ the agency must provide this notification to the tribe
675.4 within seven days of receiving information that the child may be an Indian child. If
675.5 information regarding the child's grandparents or Indian custodian is not available within
675.6 the seven-day period, the local social services agency shall continue to request this
675.7 information and shall notify the tribe when it is received. Notice shall be provided to all
675.8 tribes to which the child may have any tribal lineage. If the identity or location of the child's
675.9 parent or Indian custodian and tribe cannot be determined, the local social services agency
675.10 shall provide the notice required in this paragraph to the United States secretary of the
675.11 interior.

675.12 (c) In accordance with sections 260C.151 and 260C.152, when a court has reason to
675.13 believe that a child placed in emergency protective care is an Indian child, the court
675.14 administrator or a designee shall, as soon as possible and before a hearing takes place, notify
675.15 the tribal social services agency by telephone and by e-mail or facsimile of the date, time,
675.16 and location of the emergency protective case hearing. The court shall make efforts to allow
675.17 appearances by telephone for tribal representatives, parents, and Indian custodians.

675.18 (d) A local social services agency must provide the notices required under this subdivision
675.19 at the earliest possible time to facilitate involvement of the Indian child's tribe. Nothing in
675.20 this subdivision is intended to hinder the ability of the local social services agency and the
675.21 court to respond to an emergency situation. Lack of participation by a tribe shall not prevent
675.22 the tribe from intervening in services and proceedings at a later date. A tribe may participate
675.23 in a case at any time. At any stage of the local social services agency's involvement with
675.24 an Indian child, the agency shall provide full cooperation to the tribal social services agency,
675.25 including disclosure of all data concerning the Indian child. Nothing in this subdivision
675.26 relieves the local social services agency of satisfying the notice requirements in the Indian
675.27 Child Welfare Act.

675.28 Sec. 3. Minnesota Statutes 2020, section 260B.331, subdivision 1, is amended to read:

675.29 Subdivision 1. **Care, examination, or treatment.** (a)(1) Whenever legal custody of a
675.30 child is transferred by the court to a local social services agency, or

675.31 (2) whenever legal custody is transferred to a person other than the local social services
675.32 agency, but under the supervision of the local social services agency, and

675.33 (3) whenever a child is given physical or mental examinations or treatment under order
675.34 of the court, and no provision is otherwise made by law for payment for the care,

676.1 examination, or treatment of the child, these costs are a charge upon the welfare funds of
676.2 the county in which proceedings are held upon certification of the judge of juvenile court.

676.3 (b) The court ~~shall~~ may order, and the local social services agency ~~shall~~ may require,
676.4 the parents or custodian of a child, while the child is under the age of 18, to use ~~the total~~
676.5 income and resources attributable to the child for the period of care, examination, or
676.6 treatment, except for clothing and personal needs allowance as provided in section 256B.35,
676.7 to reimburse the county for the cost of care, examination, or treatment. Income and resources
676.8 attributable to the child include, but are not limited to, Social Security benefits, Supplemental
676.9 Security Income (SSI), veterans benefits, railroad retirement benefits and child support.
676.10 When the child is over the age of 18, and continues to receive care, examination, or treatment,
676.11 the court ~~shall~~ may order, and the local social services agency ~~shall~~ may require,
676.12 reimbursement from the child for the cost of care, examination, or treatment from the income
676.13 and resources attributable to the child less the clothing and personal needs allowance. The
676.14 local social services agency shall determine whether requiring reimbursement, either through
676.15 child support or parental fees, for the cost of care, examination, or treatment from income
676.16 and resources attributable to the child is in the child's best interests. In determining whether
676.17 to require reimbursement, the local social services agency shall consider:

676.18 (1) whether requiring reimbursement would compromise a parent's ability to meet the
676.19 child's treatment and rehabilitation needs before the child returns to the parent's home;

676.20 (2) whether requiring reimbursement would compromise the parent's ability to meet the
676.21 child's needs after the child returns home; and

676.22 (3) whether redirecting existing child support payments or changing the representative
676.23 payee of social security benefits to the local social services agency would limit the parent's
676.24 ability to maintain financial stability for the child upon the child's return home.

676.25 (c) If the income and resources attributable to the child are not enough to reimburse the
676.26 county for the full cost of the care, examination, or treatment, the court ~~shall~~ may inquire
676.27 into the ability of the parents to ~~support the child~~ reimburse the county for the cost of care,
676.28 examination, or treatment and, after giving the parents a reasonable opportunity to be heard,
676.29 the court ~~shall~~ may order, and the local social services agency ~~shall~~ may require, the parents
676.30 to contribute to the cost of care, examination, or treatment of the child. ~~Except in delinquency~~
676.31 ~~cases where the victim is a member of the child's immediate family,~~ When determining the
676.32 amount to be contributed by the parents, the court shall use a fee schedule based upon ability
676.33 to pay that is established by the local social services agency and approved by the
676.34 commissioner of human services. ~~In delinquency cases where the victim is a member of the~~

677.1 ~~child's immediate family~~, The court shall use the fee schedule but may also take into account
677.2 ~~the seriousness of the offense and any expenses which the parents have incurred as a result~~
677.3 ~~of the offense~~ any expenses that the parents may have incurred as a result of the offense,
677.4 including but not limited to co-payments for mental health treatment and attorney fees. The
677.5 income of a stepparent who has not adopted a child shall be excluded in calculating the
677.6 parental contribution under this section. The local social services agency shall determine
677.7 whether requiring reimbursement from the parents, either through child support or parental
677.8 fees, for the cost of care, examination, or treatment from income and resources attributable
677.9 to the child is in the child's best interests. In determining whether to require reimbursement,
677.10 the local social services agency shall consider:

677.11 (1) whether requiring reimbursement would compromise a parent's ability to meet the
677.12 child's treatment and rehabilitation needs before the child returns to the parent's home;

677.13 (2) whether requiring reimbursement would compromise the parent's ability to meet the
677.14 child's needs after the child returns home; and

677.15 (3) whether requiring reimbursement would compromise the parent's ability to meet the
677.16 needs of the family.

677.17 (d) If the local social services agency determines that requiring reimbursement is in the
677.18 child's best interests, the court shall order the amount of reimbursement attributable to the
677.19 parents or custodian, or attributable to the child, or attributable to both sources, withheld
677.20 under chapter 518A from the income of the parents or the custodian of the child. A parent
677.21 or custodian who fails to pay without good reason may be proceeded against for contempt,
677.22 or the court may inform the county attorney, who shall proceed to collect the unpaid sums,
677.23 or both procedures may be used.

677.24 (e) If the court orders a physical or mental examination for a child, the examination is
677.25 a medically necessary service for purposes of determining whether the service is covered
677.26 by a health insurance policy, health maintenance contract, or other health coverage plan.
677.27 Court-ordered treatment shall be subject to policy, contract, or plan requirements for medical
677.28 necessity. Nothing in this paragraph changes or eliminates benefit limits, conditions of
677.29 coverage, co-payments or deductibles, provider restrictions, or other requirements in the
677.30 policy, contract, or plan that relate to coverage of other medically necessary services.

678.1 Sec. 4. Minnesota Statutes 2021 Supplement, section 260C.007, subdivision 14, is amended
678.2 to read:

678.3 Subd. 14. **Egregious harm.** "Egregious harm" means the infliction of bodily harm to a
678.4 child or neglect of a child which demonstrates a grossly inadequate ability to provide
678.5 minimally adequate parental care. ~~The egregious harm need not have occurred in the state~~
678.6 ~~or in the county where a termination of parental rights action is otherwise properly venued.~~
678.7 A district court may still have proper venue over an action to terminate parental rights when
678.8 the egregious harm did not occur in the state or county where the district court is located.

678.9 Egregious harm includes, but is not limited to:

678.10 (1) conduct ~~towards~~ toward a child that constitutes a violation of sections 609.185 to
678.11 609.2114, 609.222, subdivision 2, 609.223, or any other similar law of any other state;

678.12 (2) the infliction of "substantial bodily harm" to a child, as defined in section 609.02,
678.13 subdivision 7a;

678.14 (3) conduct ~~towards~~ toward a child that constitutes felony malicious punishment of a
678.15 child under section 609.377;

678.16 (4) conduct ~~towards~~ toward a child that constitutes felony unreasonable restraint of a
678.17 child under section 609.255, subdivision 3;

678.18 (5) conduct ~~towards~~ toward a child that constitutes felony neglect or endangerment of
678.19 a child under section 609.378;

678.20 (6) conduct ~~towards~~ toward a child that constitutes assault under section 609.221, 609.222,
678.21 or 609.223;

678.22 (7) conduct ~~towards~~ toward a child that constitutes sex trafficking, solicitation,
678.23 inducement, ~~or~~ promotion of, or receiving profit derived from prostitution under section
678.24 609.322;

678.25 (8) conduct ~~towards~~ toward a child that constitutes murder or voluntary manslaughter
678.26 as defined by United States Code, title 18, section 1111(a) or 1112(a);

678.27 (9) conduct ~~towards~~ toward a child that constitutes aiding or abetting, attempting,
678.28 conspiring, or soliciting to commit a murder or voluntary manslaughter that constitutes a
678.29 violation of United States Code, title 18, section 1111(a) or 1112(a); or

678.30 (10) conduct toward a child that constitutes criminal sexual conduct under sections
678.31 609.342 to 609.345 or sexual extortion under section 609.3458.

679.1 Sec. 5. Minnesota Statutes 2020, section 260C.331, subdivision 1, is amended to read:

679.2 Subdivision 1. **Care, examination, or treatment.** (a) Except where parental rights are
679.3 terminated,

679.4 (1) whenever legal custody of a child is transferred by the court to a responsible social
679.5 services agency,

679.6 (2) whenever legal custody is transferred to a person other than the responsible social
679.7 services agency, but under the supervision of the responsible social services agency, or

679.8 (3) whenever a child is given physical or mental examinations or treatment under order
679.9 of the court, and no provision is otherwise made by law for payment for the care,
679.10 examination, or treatment of the child, these costs are a charge upon the welfare funds of
679.11 the county in which proceedings are held upon certification of the judge of juvenile court.

679.12 (b) The court ~~shall~~ may order, and the responsible social services agency ~~shall~~ may
679.13 require, the parents or custodian of a child, while the child is under the age of 18, to use ~~the~~
679.14 ~~total~~ income and resources attributable to the child for the period of care, examination, or
679.15 treatment, except for clothing and personal needs allowance as provided in section 256B.35,
679.16 to reimburse the county for the cost of care, examination, or treatment. Income and resources
679.17 attributable to the child include, but are not limited to, Social Security benefits, Supplemental
679.18 Security Income (SSI), veterans benefits, railroad retirement benefits and child support.
679.19 When the child is over the age of 18, and continues to receive care, examination, or treatment,
679.20 the court ~~shall~~ may order, and the responsible social services agency ~~shall~~ may require,
679.21 reimbursement from the child for the cost of care, examination, or treatment from the income
679.22 and resources attributable to the child less the clothing and personal needs allowance. Income
679.23 does not include earnings from a child over the age of 18 who is working as part of a plan
679.24 under section 260C.212, subdivision 1, paragraph (c), clause (12), to transition from foster
679.25 care, or the income and resources ~~from sources other than Supplemental Security Income~~
679.26 ~~and child support~~ that are needed to complete the requirements listed in section 260C.203.
679.27 The responsible social services agency shall determine whether requiring reimbursement,
679.28 either through child support or parental fees, for the cost of care, examination, or treatment
679.29 from the parents or custodian of a child is in the child's best interests. In determining whether
679.30 to require reimbursement, the responsible social services agency shall consider:

679.31 (1) whether requiring reimbursement would compromise the parent's ability to meet the
679.32 requirements of the reunification plan;

679.33 (2) whether requiring reimbursement would compromise the parent's ability to meet the
679.34 child's needs after reunification; and

680.1 (3) whether redirecting existing child support payments or changing the representative
680.2 payee of social security benefits to the responsible social services agency would limit the
680.3 parent's ability to maintain financial stability for the child.

680.4 (c) If the income and resources attributable to the child are not enough to reimburse the
680.5 county for the full cost of the care, examination, or treatment, the court ~~shall~~ may inquire
680.6 into the ability of the parents to ~~support the child~~ reimburse the county for the cost of care,
680.7 examination, or treatment and, after giving the parents a reasonable opportunity to be heard,
680.8 the court ~~shall~~ may order, and the responsible social services agency ~~shall~~ may require, the
680.9 parents to contribute to the cost of care, examination, or treatment of the child. When
680.10 determining the amount to be contributed by the parents, the court shall use a fee schedule
680.11 based upon ability to pay that is established by the responsible social services agency and
680.12 approved by the commissioner of human services. The income of a stepparent who has not
680.13 adopted a child shall be excluded in calculating the parental contribution under this section.
680.14 In determining whether to require reimbursement, the responsible social services agency
680.15 shall consider:

680.16 (1) whether requiring reimbursement would compromise the parent's ability to meet the
680.17 requirements of the reunification plan;

680.18 (2) whether requiring reimbursement would compromise the parent's ability to meet the
680.19 child's needs after reunification; and

680.20 (3) whether requiring reimbursement would compromise the parent's ability to meet the
680.21 needs of the family.

680.22 (d) If the responsible social services agency determines that reimbursement is in the
680.23 child's best interest, the court shall order the amount of reimbursement attributable to the
680.24 parents or custodian, or attributable to the child, or attributable to both sources, withheld
680.25 under chapter 518A from the income of the parents or the custodian of the child. A parent
680.26 or custodian who fails to pay without good reason may be proceeded against for contempt,
680.27 or the court may inform the county attorney, who shall proceed to collect the unpaid sums,
680.28 or both procedures may be used.

680.29 (e) If the court orders a physical or mental examination for a child, the examination is
680.30 a medically necessary service for purposes of determining whether the service is covered
680.31 by a health insurance policy, health maintenance contract, or other health coverage plan.
680.32 Court-ordered treatment shall be subject to policy, contract, or plan requirements for medical
680.33 necessity. Nothing in this paragraph changes or eliminates benefit limits, conditions of

681.1 coverage, co-payments or deductibles, provider restrictions, or other requirements in the
681.2 policy, contract, or plan that relate to coverage of other medically necessary services.

681.3 (f) Notwithstanding paragraph (b), (c), or (d), a parent, custodian, or guardian of the
681.4 child is not required to use income and resources attributable to the child to reimburse the
681.5 county for costs of care and is not required to contribute to the cost of care of the child
681.6 during any period of time when the child is returned to the home of that parent, custodian,
681.7 or guardian pursuant to a trial home visit under section 260C.201, subdivision 1, paragraph
681.8 (a).

681.9 Sec. 6. Minnesota Statutes 2020, section 260C.451, subdivision 8, is amended to read:

681.10 Subd. 8. **Notice of termination of foster care.** When a child in foster care between the
681.11 ages of 18 and 21 ceases to meet one of the eligibility criteria of subdivision 3a, the
681.12 responsible social services agency shall give the child written notice that foster care will
681.13 terminate 30 days from the date the notice is sent. The child or the child's guardian ad litem
681.14 may file a motion asking the court to review the agency's determination within 15 days of
681.15 receiving the notice. The child ~~shall~~ must not be discharged from foster care until the motion

681.22 the reviews required under section 260C.203, 260C.317, or 260C.515, subdivision 5 or 6.
681.23 A copy of the termination notice shall be sent to the child and the child's attorney, if any,

682.16 **260E.01 POLICY.**

682.17 (a) The legislature hereby declares that the public policy of this state is to protect children
682.18 whose health or welfare may be jeopardized through maltreatment. While it is recognized
682.19 that most parents want to keep their children safe, sometimes circumstances or conditions
682.20 interfere with their ability to do so. When this occurs, the health and safety of the children
682.21 must be of paramount concern. Intervention and prevention efforts must address immediate
682.22 concerns for child safety and the ongoing risk of maltreatment and should engage the
682.23 protective capacities of families. In furtherance of this public policy, it is the intent of the
682.24 legislature under this chapter to:

682.25 (1) protect children and promote child safety;

682.26 (2) strengthen the family;

682.27 (3) make the home, school, and community safe for children by promoting responsible
682.28 child care in all settings; and

682.29 (4) provide, when necessary, a safe temporary or permanent home environment for
682.30 maltreated children.

682.31 (b) In addition, it is the policy of this state to:

683.1 (1) require the reporting of maltreatment of children in the home, school, and community
683.2 settings;

683.3 (2) provide for ~~the~~ voluntary reporting of maltreatment of children;

683.4 (3) require an investigation when the report alleges sexual abuse or substantial child
683.5 endangerment, except when the report alleges sex trafficking by a noncaregiver sex trafficker;

683.6 (4) provide a family assessment, if appropriate, when the report does not allege sexual
683.7 abuse or substantial child endangerment; ~~and~~

683.8 (5) provide a noncaregiver sex trafficking assessment when the report alleges sex
683.9 trafficking by a noncaregiver sex trafficker; and

683.10 (6) provide protective, family support, and family preservation services when needed
683.11 in appropriate cases.

683.12 Sec. 10. Minnesota Statutes 2020, section 260E.02, subdivision 1, is amended to read:

683.13 Subdivision 1. **Establishment of team.** A county shall establish a multidisciplinary
683.14 child protection team that may include, but is not be limited to, the director of the local
683.15 welfare agency or designees, the county attorney or designees, the county sheriff or designees,
683.16 representatives of health and education, representatives of mental health, representatives of
683.17 agencies providing specialized services or responding to youth who experience or are at
683.18 risk of experiencing sex trafficking or sexual exploitation, or other appropriate human
683.19 services or community-based agencies, and parent groups. As used in this section, a
683.20 "community-based agency" may include, but is not limited to, schools, social services
683.21 agencies, family service and mental health collaboratives, children's advocacy centers, early

683.25 battered women's and domestic abuse programs and services.

683.26 Sec. 11. Minnesota Statutes 2020, section 260E.03, is amended by adding a subdivision
683.27 to read:

683.28 Subd. 15a. **Noncaregiver sex trafficker.** "Noncaregiver sex trafficker" means an
683.29 individual who is alleged to have engaged in the act of sex trafficking a child and who is
683.30 not a person responsible for the child's care, who does not have a significant relationship

684.8 sex trafficking assessment does not include a determination of whether child maltreatment
684.9 occurred. A noncaregiver sex trafficking assessment includes a determination of a family's
684.10 need for services to address the safety of a child or children, the safety of family members,

685.9 investigating an allegation of sexual abuse if the alleged offender is the parent, guardian,

685.23 in the child's household and who has a significant relationship to the child, in a setting other
685.24 than a facility as defined in section 260E.03; or (2) a report alleges sex trafficking of a child.

685.25 Sec. 16. Minnesota Statutes 2020, section 260E.17, subdivision 1, is amended to read:

685.31 sexual abuse, except as indicated in paragraph (f), or substantial child endangerment.

686.1 (c) The local welfare agency shall begin an immediate investigation ~~if~~, at any time when
686.2 the local welfare agency is ~~using~~ responding with a family assessment response, and the

686.4 child endangerment, or a serious threat to the child's safety exists.

686.5 (d) The local welfare agency may conduct a family assessment for reports that do not
686.6 allege sexual abuse, except as indicated in paragraph (f), or substantial child endangerment.
686.7 In determining that a family assessment is appropriate, the local welfare agency may consider
686.8 issues of child safety, parental cooperation, and the need for an immediate response.

686.9 (e) The local welfare agency may conduct a family assessment ~~on~~ for a report that was
686.10 initially screened and assigned for an investigation. In determining that a complete
686.11 investigation is not required, the local welfare agency must document the reason for
686.12 terminating the investigation and notify the local law enforcement agency if the local law
686.13 enforcement agency is conducting a joint investigation.

686.14 (f) The local welfare agency shall conduct a noncaregiver sex trafficking assessment
686.15 when a maltreatment report alleges sex trafficking of a child and the alleged offender is a
686.16 noncaregiver sex trafficker as defined by section 260E.03, subdivision 15a.

686.17 (g) During a noncaregiver sex trafficking assessment, the local welfare agency shall

686.19 or household member allegedly engaged in the act of sex trafficking a child or is alleged to
686.20 have engaged in any conduct requiring the agency to conduct an investigation.

686.21 Sec. 17. Minnesota Statutes 2020, section 260E.18, is amended to read:

687.23 (d) The local welfare agency or the agency responsible for assessing or investigating

688.14 Subd. 6. **Data retention.** (a) Notwithstanding sections 138.163 and 138.17, a record

688.22 child protective services, the record must be maintained for a period of five years after the
688.23 date that the report was not accepted for assessment or investigation or the date of the final
688.24 entry in the case record. A record of a report that was not accepted must contain sufficient
688.25 information to identify the subjects of the report, the nature of the alleged maltreatment,
688.26 and the reasons ~~as to~~ why the report was not accepted. Records under this paragraph may

689.12 Subdivision 1. **General factors.** Among other reasons, deviation from the presumptive
689.13 child support obligation computed under section 518A.34 is intended to encourage prompt
689.14 and regular payments of child support and to prevent either parent or the joint children from
689.15 living in poverty. In addition to the child support guidelines and other factors used to calculate
689.16 the child support obligation under section 518A.34, the court must take into consideration
689.17 the following factors in setting or modifying child support or in determining whether to
689.18 deviate upward or downward from the presumptive child support obligation:

689.22 (2) the extraordinary financial needs and resources, physical and emotional condition,
689.23 and educational needs of the child to be supported;

689.29 benefit the parent receives from it;

689.30 (6) the parents' debts as provided in subdivision 2; ~~and~~

689.32 set forth in section 571.922; and

690.1 (8) in cases involving court-ordered out-of-home placement, whether ordering and
690.2 redirecting a child support obligation to reimburse the county for the cost of care,
690.3 examination, or treatment would compromise the parent's ability to meet the requirements
690.4 of a reunification plan or the parent's ability to meet the child's needs after reunification.

690.22 (c) When developing the plan under this section, the commissioner shall consult or
690.23 engage with:

690.24 (1) individuals or entities with experience managing trusts and investment;

703.2 was a resident or temporarily absent under section 256I.05, subdivision 2a.

703.3 (b) For an individual with earned income under paragraph (a), prospective budgeting
703.4 under section 256P.09 must be used ~~to determine the amount of the individual's payment~~

704.8 Subd. 3. **Initial income test.** (a) The agency shall determine initial eligibility by
704.9 considering all earned and unearned income as defined in section 256P.06. To be eligible
704.10 for MFIP, the assistance unit's countable income minus the earned income disregards in
704.11 paragraph (a) and section 256P.03 must be below the family wage level according to section
704.12 256J.24, subdivision 7, for that size assistance unit.

704.13 ~~(a)~~ (b) The initial eligibility determination must disregard the following items:

704.14 (1) the earned income disregard as determined in section 256P.03;

704.15 (2) dependent care costs must be deducted from gross earned income for the actual

704.22 the age of 21 for whom the caregiver is financially responsible and who lives with the
704.23 caregiver according to section 256J.36.

704.24 ~~(b) After initial eligibility is established,~~ (c) The income test is for a six-month period.
704.25 The assistance payment calculation is based on ~~the monthly income test~~ prospective budgeting
704.26 according to section 256P.09.

704.28 Sec. 18. Minnesota Statutes 2020, section 256J.21, subdivision 4, is amended to read:

704.29 Subd. 4. **Monthly Income test and determination of assistance payment.** ~~The county~~
704.30 ~~agency shall determine ongoing eligibility and the assistance payment amount according~~

705.1 ~~to the monthly income test.~~ To be eligible for MFIP, the result of the computations in
705.2 paragraphs (a) to (e) applied to prospective budgeting must be at least \$1.

705.3 (a) Apply an income disregard as defined in section 256P.03, to gross earnings and
705.4 subtract this amount from the family wage level. If the difference is equal to or greater than
705.5 the MFIP transitional standard, the assistance payment is equal to the MFIP transitional
705.6 standard. If the difference is less than the MFIP transitional standard, the assistance payment
705.7 is equal to the difference. The earned income disregard in this paragraph must be deducted
705.8 every month there is earned income.

705.10 children not living in the assistance unit's household must be disregarded from the income
705.11 of the person with the legal obligation to pay support.

705.12 (c) An allocation for the unmet need of an ineligible spouse or an ineligible child under
705.13 the age of 21 for whom the caregiver is financially responsible and who lives with the
705.14 caregiver must be made according to section 256J.36.

705.15 (d) Subtract unearned income dollar for dollar from the MFIP transitional standard to
705.16 determine the assistance payment amount.

705.17 (e) When income is both earned and unearned, the amount of the assistance payment
705.18 must be determined by first treating gross earned income as specified in paragraph (a). After
705.19 determining the amount of the assistance payment under paragraph (a), unearned income
705.20 must be subtracted from that amount dollar for dollar to determine the assistance payment
705.21 amount.

705.22 ~~(f) When the monthly income is greater than the MFIP transitional standard after~~
705.23 ~~deductions and the income will only exceed the standard for one month, the county agency~~

706.1 (b) ~~Except as described in section 256J.34, subdivision 1, when prospective eligibility~~
706.2 ~~exists,~~ A county agency must calculate the amount of the assistance payment using
706.3 ~~retrospective~~ prospective budgeting. To determine MFIP eligibility and the assistance

721.14 Subd. 6. **Transfer.** (a) A patient who is a person who has a mental illness and is
721.15 dangerous to the public shall not be transferred out of a secure treatment facility unless it
721.16 appears to the satisfaction of the commissioner, after a hearing and favorable recommendation
721.17 by a majority of the special review board, that the transfer is appropriate. Transfer may be
721.18 to another state-operated treatment program. In those instances where a commitment also
721.19 exists to the Department of Corrections, transfer may be to a facility designated by the
721.20 commissioner of corrections.

721.21 (b) The following factors must be considered in determining whether a transfer is
721.22 appropriate:

721.23 (1) the person's clinical progress and present treatment needs;

721.24 (2) the need for security to accomplish continuing treatment;

721.25 (3) the need for continued institutionalization;

721.26 (4) which facility can best meet the person's needs; and

721.27 (5) whether transfer can be accomplished with a reasonable degree of safety for the
721.28 public.

721.29 (c) If a committed person has been transferred out of a secure treatment facility pursuant
721.30 to this subdivision, that committed person may voluntarily return to a secure treatment
721.31 facility for a period of up to 60 days with the consent of the head of the treatment facility.

722.1 (d) If the committed person is not returned to the original, nonsecure transfer facility
722.2 within 60 days of being readmitted to a secure treatment facility, the transfer is revoked and
722.3 the committed person shall remain in a secure treatment facility. The committed person
722.4 shall immediately be notified in writing of the revocation.

722.5 (e) Within 15 days of receiving notice of the revocation, the committed person may
722.6 petition the special review board for a review of the revocation. The special review board
722.7 shall review the circumstances of the revocation and shall recommend to the commissioner
722.8 whether or not the revocation shall be upheld. The special review board may also recommend
722.9 a new transfer at the time of the revocation hearing.

722.10 (f) No action by the special review board is required if the transfer has not been revoked
722.11 and the committed person is returned to the original, nonsecure transfer facility with no
722.12 substantive change to the conditions of the transfer ordered under this subdivision.

722.13 (g) The head of the treatment facility may revoke a transfer made under this subdivision
722.14 and require a committed person to return to a secure treatment facility if:

722.15 (1) remaining in a nonsecure setting does not provide a reasonable degree of safety to
722.16 the committed person or others; or

722.17 (2) the committed person has regressed clinically and the facility to which the committed
722.18 person was transferred does not meet the committed person's needs.

722.19 (h) Upon the revocation of the transfer, the committed person shall be immediately
722.20 returned to a secure treatment facility. A report documenting the reasons for revocation
722.21 shall be issued by the head of the treatment facility within seven days after the committed
722.22 person is returned to the secure treatment facility. Advance notice to the committed person
722.23 of the revocation is not required.

722.24 (i) The committed person must be provided a copy of the revocation report and informed,
722.25 orally and in writing, of the rights of a committed person under this section. The revocation
722.26 report shall be served upon the committed person, the committed person's counsel, and the
722.27 designated agency. The report shall outline the specific reasons for the revocation, including
722.28 but not limited to the specific facts upon which the revocation is based.

722.29 (j) If a committed person's transfer is revoked, the committed person may re-petition for
722.30 transfer according to subdivision 5.

722.31 (k) A committed person aggrieved by a transfer revocation decision may petition the
722.32 special review board within seven business days after receipt of the revocation report for a
722.33 review of the revocation. The matter shall be scheduled within 30 days. The special review

723.1 board shall review the circumstances leading to the revocation and, after considering the
723.2 factors in paragraph (b), shall recommend to the commissioner whether or not the revocation
723.3 shall be upheld. The special review board may also recommend a new transfer out of a
723.4 secure facility at the time of the revocation hearing.

726.18 culturally inclusive services for sexually exploited youth or youth at risk of sexual
726.19 exploitation under this section.

726.20 Sec. 2. Minnesota Statutes 2020, section 256E.33, subdivision 1, is amended to read:

726.23 to a homeless person or family at a rental rate of at least 25 percent of the family income
726.24 for a period of up to ~~24~~ 36 months. If a transitional housing program is associated with a
726.25 licensed facility or shelter, it must be located in a separate facility or a specified section of

726.27 needs.

726.28 (c) "Support services" means an assessment service that identifies the needs of individuals
726.29 for independent living and arranges or provides for the appropriate educational, social, legal,

734.7 risk of harm during the investigation period or proceedings. If so, the commissioner shall
734.8 issue a suspension in accordance with subdivision 3.

734.9 (c) When the final order under paragraph (b) affirms an immediate suspension or the
734.10 license holder does not submit a timely appeal of the immediate suspension, and a final
734.11 licensing sanction is issued under subdivision 3 and the license holder appeals that sanction,
734.12 the license holder continues to be prohibited from operation of the program pending a final
734.13 commissioner's order under section 245A.08, subdivision 5, regarding the final licensing
734.14 sanction.

734.15 (d) The license holder shall continue to be prohibited from operation of the program
734.16 while a suspension order issued under paragraph (b), clause (2), remains in effect.

734.17 ~~(d)~~ (e) For suspensions under subdivision 2, paragraph (a), clause (3), the burden of
734.18 proof in expedited hearings under this subdivision shall be limited to the commissioner's
734.19 demonstration by a preponderance of the evidence that a criminal complaint and warrant
734.20 or summons was issued for the license holder that was not dismissed, and that the criminal
734.21 charge is an offense that involves fraud or theft against a program administered by the
734.22 commissioner.

734.23 Sec. 4. Minnesota Statutes 2020, section 245A.07, subdivision 3, is amended to read:

734.24 **Subd. 3. License suspension, revocation, or fine.** (a) The commissioner may suspend
734.25 or revoke a license, or impose a fine if:

734.26 (1) a license holder fails to comply fully with applicable laws or rules including but not
734.27 limited to the requirements of this chapter and chapter 245C;

734.28 (2) a license holder, a controlling individual, or an individual living in the household
734.29 where the licensed services are provided or is otherwise subject to a background study has
734.30 been disqualified and the disqualification was not set aside and no variance has been granted;

734.31 (3) a license holder knowingly withholds relevant information from or gives false or
734.32 misleading information to the commissioner in connection with an application for a license,

735.1 in connection with the background study status of an individual, during an investigation,
735.2 or regarding compliance with applicable laws or rules;

735.3 (4) a license holder is excluded from any program administered by the commissioner
735.4 under section 245.095; ~~or~~

735.5 (5) revocation is required under section 245A.04, subdivision 7, paragraph (d); or

735.6 (6) suspension is necessary under subdivision 2a, paragraph (b), clause (2).

735.7 A license holder who has had a license issued under this chapter suspended, revoked,
735.8 or has been ordered to pay a fine must be given notice of the action by certified mail or
735.9 personal service. If mailed, the notice must be mailed to the address shown on the application
735.10 or the last known address of the license holder. The notice must state in plain language the
735.11 reasons the license was suspended or revoked, or a fine was ordered.

735.12 (b) If the license was suspended or revoked, the notice must inform the license holder
735.13 of the right to a contested case hearing under chapter 14 and Minnesota Rules, parts
735.14 1400.8505 to 1400.8612. The license holder may appeal an order suspending or revoking
735.15 a license. The appeal of an order suspending or revoking a license must be made in writing
735.16 by certified mail or personal service. If mailed, the appeal must be postmarked and sent to
735.17 the commissioner within ten calendar days after the license holder receives notice that the
735.18 license has been suspended or revoked. If a request is made by personal service, it must be
735.19 received by the commissioner within ten calendar days after the license holder received the
735.20 order. Except as provided in subdivision 2a, paragraph (c), if a license holder submits a
735.21 timely appeal of an order suspending or revoking a license, the license holder may continue
735.22 to operate the program as provided in section 245A.04, subdivision 7, paragraphs (f) and
735.23 (g), until the commissioner issues a final order on the suspension or revocation.

735.24 (c)(1) If the license holder was ordered to pay a fine, the notice must inform the license
735.25 holder of the responsibility for payment of fines and the right to a contested case hearing
735.26 under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The appeal of an
735.27 order to pay a fine must be made in writing by certified mail or personal service. If mailed,
735.28 the appeal must be postmarked and sent to the commissioner within ten calendar days after
735.29 the license holder receives notice that the fine has been ordered. If a request is made by
735.30 personal service, it must be received by the commissioner within ten calendar days after
735.31 the license holder received the order.

735.32 (2) The license holder shall pay the fines assessed on or before the payment date specified.
735.33 If the license holder fails to fully comply with the order, the commissioner may issue a
735.34 second fine or suspend the license until the license holder complies. If the license holder

736.1 receives state funds, the state, county, or municipal agencies or departments responsible for
736.2 administering the funds shall withhold payments and recover any payments made while the
736.3 license is suspended for failure to pay a fine. A timely appeal shall stay payment of the fine
736.4 until the commissioner issues a final order.

736.5 (3) A license holder shall promptly notify the commissioner of human services, in writing,
736.6 when a violation specified in the order to forfeit a fine is corrected. If upon reinspection the
736.7 commissioner determines that a violation has not been corrected as indicated by the order
736.8 to forfeit a fine, the commissioner may issue a second fine. The commissioner shall notify
736.9 the license holder by certified mail or personal service that a second fine has been assessed.
736.10 The license holder may appeal the second fine as provided under this subdivision.

736.11 (4) Fines shall be assessed as follows:

736.12 (i) the license holder shall forfeit \$1,000 for each determination of maltreatment of a
736.13 child under chapter 260E or the maltreatment of a vulnerable adult under section 626.557
736.14 for which the license holder is determined responsible for the maltreatment under section
736.15 260E.30, subdivision 4, paragraphs (a) and (b), or 626.557, subdivision 9c, paragraph (c);

736.16 (ii) if the commissioner determines that a determination of maltreatment for which the
736.17 license holder is responsible is the result of maltreatment that meets the definition of serious
736.18 maltreatment as defined in section 245C.02, subdivision 18, the license holder shall forfeit
736.19 \$5,000;

736.20 (iii) for a program that operates out of the license holder's home and a program licensed
736.21 under Minnesota Rules, parts 9502.0300 to 9502.0445, the fine assessed against the license
736.22 holder shall not exceed \$1,000 for each determination of maltreatment;

736.23 (iv) the license holder shall forfeit \$200 for each occurrence of a violation of law or rule
736.24 governing matters of health, safety, or supervision, including but not limited to the provision
736.25 of adequate staff-to-child or adult ratios, and failure to comply with background study
736.26 requirements under chapter 245C; and

736.27 (v) the license holder shall forfeit \$100 for each occurrence of a violation of law or rule
736.28 other than those subject to a \$5,000, \$1,000, or \$200 fine in items (i) to (iv).

736.29 For purposes of this section, "occurrence" means each violation identified in the
736.30 commissioner's fine order. Fines assessed against a license holder that holds a license to
736.31 provide home and community-based services, as identified in section 245D.03, subdivision
736.32 1, and a community residential setting or day services facility license under chapter 245D
736.33 where the services are provided, may be assessed against both licenses for the same

737.1 occurrence, but the combined amount of the fines shall not exceed the amount specified in
737.2 this clause for that occurrence.

737.3 (5) When a fine has been assessed, the license holder may not avoid payment by closing,
737.4 selling, or otherwise transferring the licensed program to a third party. In such an event, the
737.5 license holder will be personally liable for payment. In the case of a corporation, each
737.6 controlling individual is personally and jointly liable for payment.

737.7 (d) Except for background study violations involving the failure to comply with an order
737.8 to immediately remove an individual or an order to provide continuous, direct supervision,
737.9 the commissioner shall not issue a fine under paragraph (c) relating to a background study
737.10 violation to a license holder who self-corrects a background study violation before the
737.11 commissioner discovers the violation. A license holder who has previously exercised the
737.12 provisions of this paragraph to avoid a fine for a background study violation may not avoid
737.13 a fine for a subsequent background study violation unless at least 365 days have passed
737.14 since the license holder self-corrected the earlier background study violation.

737.15 Sec. 5. Minnesota Statutes 2021 Supplement, section 245A.14, subdivision 4, is amended
737.16 to read:

737.17 Subd. 4. **Special family child care homes.** Nonresidential child care programs serving
737.18 14 or fewer children that are conducted at a location other than the license holder's own
737.19 residence shall be licensed under this section and the rules governing family child care or
737.20 group family child care if:

737.21 (a) the license holder is the primary provider of care and the nonresidential child care
737.22 program is conducted in a dwelling that is located on a residential lot;

737.23 (b) the license holder is an employer who may or may not be the primary provider of
737.24 care, and the purpose for the child care program is to provide child care services to children
737.25 of the license holder's employees;

737.26 (c) the license holder is a church or religious organization;

737.27 (d) the license holder is a community collaborative child care provider. For purposes of
737.28 this subdivision, a community collaborative child care provider is a provider participating
737.29 in a cooperative agreement with a community action agency as defined in section 256E.31;

737.30 (e) the license holder is a not-for-profit agency that provides child care in a dwelling
737.31 located on a residential lot and the license holder maintains two or more contracts with
737.32 community employers or other community organizations to provide child care services.
737.33 The county licensing agency may grant a capacity variance to a license holder licensed

738.1 under this paragraph to exceed the licensed capacity of 14 children by no more than five
738.2 children during transition periods related to the work schedules of parents, if the license
738.3 holder meets the following requirements:

738.4 (1) the program does not exceed a capacity of 14 children more than a cumulative total
738.5 of four hours per day;

738.6 (2) the program meets a one to seven staff-to-child ratio during the variance period;

738.7 (3) all employees receive at least an extra four hours of training per year than required
738.8 in the rules governing family child care each year;

738.9 (4) the facility has square footage required per child under Minnesota Rules, part
738.10 9502.0425;

738.11 (5) the program is in compliance with local zoning regulations;

738.12 (6) the program is in compliance with the applicable fire code as follows:

738.13 (i) if the program serves more than five children older than 2-1/2 years of age, but no
738.14 more than five children 2-1/2 years of age or less, the applicable fire code is educational
738.15 occupancy, as provided in Group E Occupancy under the Minnesota State Fire Code 2015,
738.16 Section 202; or

738.17 (ii) if the program serves more than five children 2-1/2 years of age or less, the applicable
738.18 fire code is Group I-4 Occupancies, as provided in the Minnesota State Fire Code 2015,
738.19 Section 202, unless the rooms in which the children are cared for are located on a level of
738.20 exit discharge and each of these child care rooms has an exit door directly to the exterior,
738.21 then the applicable fire code is Group E occupancies, as provided in the Minnesota State
738.22 Fire Code 2015, Section 202; and

738.23 (7) any age and capacity limitations required by the fire code inspection and square
738.24 footage determinations shall be printed on the license; or

738.25 (f) the license holder is the primary provider of care and has located the licensed child
738.26 care program in a commercial space, if the license holder meets the following requirements:

738.27 (1) the program is in compliance with local zoning regulations;

738.28 (2) the program is in compliance with the applicable fire code as follows:

738.29 (i) if the program serves more than five children older than 2-1/2 years of age, but no
738.30 more than five children 2-1/2 years of age or less, the applicable fire code is educational
738.31 occupancy, as provided in Group E Occupancy under the Minnesota State Fire Code 2015,
738.32 Section 202; or

739.1 (ii) if the program serves more than five children 2-1/2 years of age or less, the applicable
739.2 fire code is Group I-4 Occupancies, as provided under the Minnesota State Fire Code 2015,
739.3 Section 202;

739.4 (3) any age and capacity limitations required by the fire code inspection and square
739.5 footage determinations are printed on the license; and

739.6 (4) the license holder prominently displays the license issued by the commissioner which
739.7 contains the statement "This special family child care provider is not licensed as a child
739.8 care center."

739.9 (g) Notwithstanding Minnesota Rules, part 9502.0335, subpart 12, the commissioner
739.10 may issue up to four licenses to an organization licensed under paragraph (b), (c), or (e).
739.11 Each license must have its own primary provider of care as required under paragraph (i).
739.12 Each license must operate as a distinct and separate program in compliance with all applicable
739.13 laws and regulations.

739.14 (h) For licenses issued under paragraph (b), (c), (d), (e), or (f), the commissioner may
739.15 approve up to four licenses at the same location or under one contiguous roof if each license
739.16 holder is able to demonstrate compliance with all applicable rules and laws. Each licensed
739.17 program must operate as a distinct program and within the capacity, age, and ratio
739.18 distributions of each license.

739.19 (i) For a license issued under paragraph (b), (c), or (e), the license holder must designate
739.20 a person to be the primary provider of care at the licensed location on a form and in a manner
739.21 prescribed by the commissioner. The license holder shall notify the commissioner in writing
739.22 before there is a change of the person designated to be the primary provider of care. The
739.23 primary provider of care:

739.24 (1) must be the person who will be the provider of care at the program and present during
739.25 the hours of operation;

739.26 (2) must operate the program in compliance with applicable laws and regulations under
739.27 chapter 245A and Minnesota Rules, chapter 9502;

739.28 (3) is considered a child care background study subject as defined in section 245C.02,
739.29 subdivision 6a, and must comply with background study requirements in chapter 245C; ~~and~~

739.30 (4) must complete the training that is required of license holders in section 245A.50;

739.31 (5) is authorized to communicate with the county licensing agency and the department
739.32 on matters related to licensing; and

740.1 (6) must meet the requirements of Minnesota Rules, part 9502.0355, subpart 3, before
740.2 providing group family child care.

740.3 (j) For any license issued under this subdivision, the license holder must ensure that any
740.4 other caregiver, substitute, or helper who assists in the care of children meets the training
740.5 requirements in section 245A.50 and background study requirements under chapter 245C.

740.6 **EFFECTIVE DATE.** This section is effective July 1, 2022.

740.7 Sec. 6. Minnesota Statutes 2020, section 245A.1435, is amended to read:

740.8 **245A.1435 REDUCTION OF RISK OF SUDDEN UNEXPECTED INFANT DEATH**
740.9 **IN LICENSED PROGRAMS.**

740.10 (a) When a license holder is placing an infant to sleep, the license holder must place the
740.11 infant on the infant's back, unless the license holder has documentation from the infant's
740.12 physician or advanced practice registered nurse directing an alternative sleeping position
740.13 for the infant. The physician or advanced practice registered nurse directive must be on a
740.14 form ~~approved~~ developed by the commissioner and must remain on file at the licensed
740.15 location.

740.16 An infant who independently rolls onto its stomach after being placed to sleep on its
740.17 back may be allowed to remain sleeping on its stomach if the infant is at least six months
740.18 of age or the license holder has a signed statement from the parent indicating that the infant
740.19 regularly rolls over at home.

740.20 (b) The license holder must place the infant in a crib directly on a firm mattress with a
740.21 fitted sheet that is appropriate to the mattress size, that fits tightly on the mattress, and
740.22 overlaps the underside of the mattress so it cannot be dislodged by pulling on the corner of
740.23 the sheet with reasonable effort. The license holder must not place anything in the crib with
740.24 the infant except for the infant's pacifier, as defined in Code of Federal Regulations, title
740.25 16, part 1511. The pacifier must be free from any sort of attachment. The requirements of
740.26 this section apply to license holders serving infants younger than one year of age. Licensed
740.27 child care providers must meet the crib requirements under section 245A.146. A correction
740.28 order shall not be issued under this paragraph unless there is evidence that a violation
740.29 occurred when an infant was present in the license holder's care.

740.30 (c) If an infant falls asleep before being placed in a crib, the license holder must move
740.31 the infant to a crib as soon as practicable, and must keep the infant within sight of the license
740.32 holder until the infant is placed in a crib. When an infant falls asleep while being held, the
740.33 license holder must consider the supervision needs of other children in care when determining

741.1 how long to hold the infant before placing the infant in a crib to sleep. The sleeping infant
741.2 must not be in a position where the airway may be blocked or with anything covering the
741.3 infant's face.

741.4 (d) When a license holder places an infant under one year of age down to sleep, the
741.5 infant's clothing or sleepwear must not have weighted materials, a hood, or a bib.

741.6 (e) A license holder may place an infant under one year of age down to sleep wearing
741.7 a helmet if the license holder has signed documentation by a physician, advanced practice
741.8 registered nurse, licensed occupational therapist, or a licensed physical therapist on a form
741.9 developed by the commissioner.

741.10 ~~(d)~~ (f) Placing a swaddled infant down to sleep in a licensed setting is not recommended
741.11 for an infant of any age and is prohibited for any infant who has begun to roll over
741.12 independently. However, with the written consent of a parent or guardian according to this
741.13 paragraph, a license holder may place the infant who has not yet begun to roll over on its
741.14 own down to sleep in a one-piece sleeper equipped with an attached system that fastens
741.15 securely only across the upper torso, with no constriction of the hips or legs, to create a
741.16 swaddle. A swaddle is defined as one-piece sleepwear that wraps over the infant's arms,
741.17 fastens securely only across the infant's upper torso, and does not constrict the infant's hips
741.18 or legs. If a swaddle is used by a license holder, the license holder must ensure that it meets
741.19 the requirements of paragraph (d) and is not so tight that it restricts the infant's ability to
741.20 breathe or so loose that the fabric could cover the infant's nose and mouth. Prior to any use
741.21 of swaddling for sleep by a provider licensed under this chapter, the license holder must
741.22 obtain informed written consent for the use of swaddling from the parent or guardian of the
741.23 infant on a form provided developed by the commissioner and prepared in partnership with
741.24 the Minnesota Sudden Infant Death Center.

741.25 (g) A license holder may request a variance to this section to permit the use of a
741.26 cradleboard when requested by a parent or guardian for a cultural accommodation. Only
741.27 the commissioner may issue a variance for the use of a cradleboard. The variance request
741.28 must be submitted on a form developed by the commissioner in partnership with Tribal
741.29 welfare agencies and the Department of Health.

741.30 **EFFECTIVE DATE.** This section is effective January 1, 2023.

742.1 Sec. 7. Minnesota Statutes 2020, section 245A.1443, is amended to read:

742.2 **245A.1443 ~~CHEMICAL DEPENDENCY~~ SUBSTANCE USE DISORDER**
742.3 **TREATMENT LICENSED PROGRAMS THAT SERVE PARENTS WITH THEIR**
742.4 **CHILDREN.**

742.5 Subdivision 1. **Application.** This section applies to ~~chemical dependency~~ residential
742.6 substance use disorder treatment facilities that are licensed under this chapter and ~~Minnesota~~
742.7 ~~Rules~~, chapter ~~9530~~, 245G and that provide services in accordance with section 245G.19.

742.8 Subd. 2. **Requirements for providing education.** (a) On or before the date of a child's
742.9 initial physical presence at the facility, the license holder must provide education to the
742.10 child's parent related to safe bathing and reducing the risk of sudden unexpected infant death
742.11 and abusive head trauma from shaking infants and young children. The license holder must
742.12 use the educational material developed by the commissioner to comply with this requirement.
742.13 At a minimum, the education must address:

742.14 (1) instruction that a child or infant should never be left unattended around water, a tub
742.15 should be filled with only two to four inches of water for infants, and an infant should never
742.16 be put into a tub when the water is running; and

742.17 (2) the risk factors related to sudden unexpected infant death and abusive head trauma
742.18 from shaking infants and young children, and means of reducing the risks, including the
742.19 safety precautions identified in section 245A.1435 and the ~~danger~~ risks of co-sleeping.

742.20 (b) The license holder must document the parent's receipt of the education and keep the
742.21 documentation in the parent's file. The documentation must indicate whether the parent
742.22 agrees to comply with the safeguards. If the parent refuses to comply, program staff must
742.23 provide additional education to the parent ~~at appropriate intervals, at least weekly~~ as described
742.24 in the parental supervision plan. The parental supervision plan must include the intervention,
742.25 frequency, and staff responsible for the duration of the parent's participation in the program
742.26 or until the parent agrees to comply with the safeguards.

742.27 Subd. 3. **Parental supervision of children.** (a) On or before the date of a child's initial
742.28 physical presence at the facility, the license holder must ~~complete and document an~~
742.29 ~~assessment of~~ the parent's capacity to meet the health and safety needs of the child while
742.30 on the facility premises, ~~including identifying circumstances when the parent may be unable~~
742.31 ~~to adequately care for their child due to~~ considering the following factors:

742.32 (1) the parent's physical ~~or~~ and mental health;

742.33 (2) the parent being under the influence of drugs, alcohol, medications, or other chemicals;

743.1 ~~(3) the parent being unable to provide appropriate supervision for the child; or~~

743.2 (3) the child's physical and mental health; and

743.3 (4) any other information available to the license holder that indicates the parent may
743.4 not be able to adequately care for the child.

743.5 (b) The license holder must have written procedures specifying the actions to be taken
743.6 by staff if a parent is or becomes unable to adequately care for the parent's child.

743.7 (c) If the parent refuses to comply with the safeguards described in subdivision 2 or is
743.8 unable to adequately care for the child, the license holder must develop a parental supervision
743.9 plan in conjunction with the client. The plan must account for any factors in paragraph (a)
743.10 that contribute to the parent's inability to adequately care for the child. The plan must be
743.11 dated and signed by the staff person who completed the plan.

743.12 Subd. 4. **Alternative supervision arrangements.** The license holder must have written
743.13 procedures addressing whether the program permits a parent to arrange for supervision of
743.14 the parent's child by another client in the program. If permitted, the facility must have a
743.15 procedure that requires staff approval of the supervision arrangement before the supervision
743.16 by the nonparental client occurs. The procedure for approval must include an assessment
743.17 of the nonparental client's capacity to assume the supervisory responsibilities using the
743.18 criteria in subdivision 3. The license holder must document the license holder's approval of
743.19 the supervisory arrangement and the assessment of the nonparental client's capacity to
743.20 supervise the child, and must keep this documentation in the file of the parent of the child
743.21 being supervised.

743.22 **EFFECTIVE DATE.** This section is effective January 1, 2023.

743.23 Sec. 8. Minnesota Statutes 2020, section 245A.146, subdivision 3, is amended to read:

743.24 Subd. 3. **License holder documentation of cribs.** (a) Annually, from the date printed
743.25 on the license, all license holders shall check all their cribs' brand names and model numbers
743.26 against the United States Consumer Product Safety Commission website listing of unsafe
743.27 cribs.

743.28 (b) The license holder shall maintain written documentation to be reviewed on site for
743.29 each crib showing that the review required in paragraph (a) has been completed, and which
743.30 of the following conditions applies:

743.31 (1) the crib was not identified as unsafe on the United States Consumer Product Safety
743.32 Commission website;

744.1 (2) the crib was identified as unsafe on the United States Consumer Product Safety
744.2 Commission website, but the license holder has taken the action directed by the United
744.3 States Consumer Product Safety Commission to make the crib safe; or

815.1 Subd. 2. **Prohibition of discrimination.** (a) A covered entity may not, on the basis of
815.2 a qualified individual's race, ethnicity, mental disability, or physical disability:

815.3 (1) deem an individual ineligible to receive an anatomical gift or organ transplant;

815.4 (2) deny medical or related organ transplantation services, including evaluation, surgery,
815.5 counseling, and postoperative treatment and care;

815.6 (3) refuse to refer the individual to a transplant center or other related specialist for the
815.7 purpose of evaluation or receipt of an anatomical gift or organ transplant;

815.8 (4) refuse to place an individual on an organ transplant waiting list or place the individual
815.9 at a lower-priority position on the list than the position at which the individual would have
815.10 been placed if not for the individual's race, ethnicity, or disability; or

815.11 (5) decline insurance coverage for any procedure associated with the receipt of the
815.12 anatomical gift or organ transplant, including post-transplantation and postinfusion care.

815.13 (b) Notwithstanding paragraph (a), a covered entity may take an individual's disability
815.14 into account when making treatment or coverage recommendations or decisions, solely to
815.15 the extent that the physical or mental disability has been found by a physician, following
815.16 an individualized evaluation of the potential recipient to be medically significant to the
815.17 provision of the anatomical gift or organ transplant. The provisions of this section may not
815.18 be deemed to require referrals or recommendations for, or the performance of, organ
815.19 transplants that are not medically appropriate given the individual's overall health condition.

815.20 (c) If an individual has the necessary support system to assist the individual in complying
815.21 with post-transplant medical requirements, an individual's inability to independently comply
815.22 with those requirements may not be deemed to be medically significant for the purposes of
815.23 paragraph (b).

815.24 (d) A covered entity must make reasonable modifications to policies, practices, or
815.25 procedures, when such modifications are necessary to make services such as
815.26 transplantation-related counseling, information, coverage, or treatment available to qualified
815.27 individuals with disabilities, unless the entity can demonstrate that making such modifications
815.28 would fundamentally alter the nature of such services.

815.29 (e) A covered entity must take such steps as may be necessary to ensure that no qualified
815.30 individual with a disability is denied services such as transplantation-related counseling,
815.31 information, coverage, or treatment because of the absence of auxiliary aids and services,
815.32 unless the entity can demonstrate that taking such steps would fundamentally alter the nature

816.1 of the services being offered or result in an undue burden. A covered entity is not required
816.2 to provide supported decision-making services.

816.3 (f) A covered entity must otherwise comply with the requirements of Titles II and III of
816.4 the Americans with Disabilities Act of 1990, the Americans with Disabilities Act
816.5 Amendments Act of 2008, and the Minnesota Human Rights Act.

816.6 (g) The provisions of this section apply to each part of the organ transplant process.

816.7 Subd. 3. **Remedies.** In addition to all other remedies available under this chapter, any
816.8 individual who has been subjected to discrimination in violation of this section may initiate
816.9 a civil action in a court of competent jurisdiction to enjoin violations of this section.

256J.34 CALCULATING ASSISTANCE PAYMENTS.

Subdivision 1. **Prospective budgeting.** A county agency must use prospective budgeting to calculate the assistance payment amount for the first two months for an applicant who has not received assistance in this state for at least one payment month preceding the first month of payment under a current application. Notwithstanding subdivision 3, paragraph (a), clause (2), a county agency must use prospective budgeting for the first two months for a person who applies to be added to an assistance unit. Prospective budgeting is not subject to overpayments or underpayments unless fraud is determined under section 256.98.

APPENDIX
Repealed Minnesota Statutes: UES4410-1

(a) The county agency must apply the income received or anticipated in the first month of MFIP eligibility against the need of the first month. The county agency must apply the income received or anticipated in the second month against the need of the second month.

(b) When the assistance payment for any part of the first two months is based on anticipated income, the county agency must base the initial assistance payment amount on the information available at the time the initial assistance payment is made.

(c) The county agency must determine the assistance payment amount for the first two months of MFIP eligibility by budgeting both recurring and nonrecurring income for those two months.

Subd. 2. **Retrospective budgeting.** The county agency must use retrospective budgeting to calculate the monthly assistance payment amount after the payment for the first two months has been made under subdivision 1.

Subd. 3. **Additional uses of retrospective budgeting.** Notwithstanding subdivision 1, the county agency must use retrospective budgeting to calculate the monthly assistance payment amount for the first two months under paragraphs (a) and (b).

(a) The county agency must use retrospective budgeting to determine the amount of the assistance payment in the first two months of MFIP eligibility:

(1) when an assistance unit applies for assistance for the same month for which assistance has been interrupted, the interruption in eligibility is less than one payment month, the assistance payment for the preceding month was issued in this state, and the assistance payment for the immediately preceding month was determined retrospectively; or

(2) when a person applies in order to be added to an assistance unit, that assistance unit has received assistance in this state for at least the two preceding months, and that person has been living with and has been financially responsible for one or more members of that assistance unit for at least the two preceding months.

(b) Except as provided in clauses (1) to (4), the county agency must use retrospective budgeting and apply income received in the budget month by an assistance unit and by a financially responsible household member who is not included in the assistance unit against the MFIP standard of need or family wage level to determine the assistance payment to be issued for the payment month.

(1) When a source of income ends prior to the third payment month, that income is not considered in calculating the assistance payment for that month. When a source of income ends prior to the fourth payment month, that income is not considered when determining the assistance payment for that month.

(2) When a member of an assistance unit or a financially responsible household member leaves the household of the assistance unit, the income of that departed household member is not budgeted retrospectively for any full payment month in which that household member does not live with that household and is not included in the assistance unit.

(3) When an individual is removed from an assistance unit because the individual is no longer a minor child, the income of that individual is not budgeted retrospectively for payment months in which that individual is not a member of the assistance unit, except that income of an ineligible child in the household must continue to be budgeted retrospectively against the child's needs when the parent or parents of that child request allocation of their income against any unmet needs of that ineligible child.

(4) When a person ceases to have financial responsibility for one or more members of an assistance unit, the income of that person is not budgeted retrospectively for the payment months which follow the month in which financial responsibility ends.

Subd. 4. **Significant change in gross income.** The county agency must recalculate the assistance payment when an assistance unit experiences a significant change, as defined in section 256J.08, resulting in a reduction in the gross income received in the payment month from the gross income received in the budget month. The county agency must issue a supplemental assistance payment based on the county agency's best estimate of the assistance unit's income and circumstances for the payment month. Supplemental assistance payments that result from significant changes are limited to two in a 12-month period regardless of the reason for the change. Notwithstanding any other statute or rule of law, supplementary assistance payments shall not be made when the significant change in income is the result of receipt of a lump sum, receipt of an extra paycheck, business fluctuation in self-employment income, or an assistance unit member's participation in a strike or other labor action.

256J.37 TREATMENT OF INCOME AND LUMP SUMS.

Subd. 10. **Treatment of lump sums.** (a) The agency must treat lump-sum payments as earned or unearned income. If the lump-sum payment is included in the category of income identified in subdivision 9, it must be treated as unearned income. A lump sum is counted as income in the month received and budgeted either prospectively or retrospectively depending on the budget cycle at the time of receipt. When an individual receives a lump-sum payment, that lump sum must be combined with all other earned and unearned income received in the same budget month, and it must be applied according to paragraphs (a) to (c). A lump sum may not be carried over into subsequent months. Any funds that remain in the third month after the month of receipt are counted in the asset limit.

(b) For a lump sum received by an applicant during the first two months, prospective budgeting is used to determine the payment and the lump sum must be combined with other earned or unearned income received and budgeted in that prospective month.

(c) For a lump sum received by a participant after the first two months of MFIP eligibility, the lump sum must be combined with other income received in that budget month, and the combined amount must be applied retrospectively against the applicable payment month.

(d) When a lump sum, combined with other income under paragraphs (b) and (c), is less than the MFIP transitional standard for the appropriate payment month, the assistance payment must be reduced according to the amount of the countable income. When the countable income is greater than the MFIP standard or family wage level, the assistance payment must be suspended for the payment month.

256R.08 REPORTING OF FINANCIAL STATEMENTS.

Subd. 2. **Extensions.** The commissioner may grant up to a 15-day extension of the reporting deadline to a nursing facility for good cause. To receive such an extension, a nursing facility shall submit a written request by January 1. The commissioner shall notify the nursing facility of the decision by January 15. Between January 1 and February 1, the nursing facility may request a reporting extension for good cause by telephone and followed by a written request.

Subd. 2. **Application process.** To receive a rate adjustment, nursing facilities must submit applications to the commissioner in a form and manner determined by the commissioner. The applications for the rate adjustments shall include specified data, and spending plans that describe how the funds from the rate adjustments will be allocated for compensation to employees paid less than \$14 per hour. The applications must be submitted within three months of the effective date of any operating payment rate adjustment under this section. The commissioner may request any additional information needed to determine the rate adjustment within three weeks of receiving a complete application. The nursing facility must provide any additional information requested by the commissioner within six months of the effective date of any operating payment rate adjustment under this section. The commissioner may waive the deadlines in this section under extraordinary circumstances.

Subd. 3. **Additional application requirements for facilities with employees represented by an exclusive bargaining representative.** For nursing facilities in which employees are represented by an exclusive bargaining representative, the commissioner shall approve the applications submitted under subdivision 2 only upon receipt of a letter or letters of acceptance of the spending plans in regard to members of the bargaining unit, signed by the exclusive bargaining agent and dated after May 31, 2014. Upon receipt of the letter or letters of acceptance, the commissioner shall deem all requirements of this section as having been met in regard to the members of the bargaining unit.

Subd. 4. **Determination of the rate adjustments for compensation-related costs.** Based on the application in subdivision 2, the commissioner shall calculate the allowable annualized compensation costs by adding the totals of clauses (1), (2), and (3). The result must be divided by

Client eligibility must be determined using forms prescribed by the department. To determine a client's eligibility, the local agency must determine the client's income, the size of the client's household, the availability of a third-party payment source, and a responsible relative's ability to pay for the client's chemical dependency treatment, as specified in items A to C.

A. The local agency must determine the client's income. A client who is a minor child shall not be deemed to have income available to pay for chemical dependency treatment, unless the minor child is responsible for payment under Minnesota Statutes, section 144.347, for chemical dependency treatment services sought under Minnesota Statutes, section 144.343, subdivision 1.

B. The local agency must determine the client's household size according to subitems (1), (2), and (3).

C. The local agency must determine the client's current prepaid health plan enrollment, the availability of a third-party payment source, including the availability of total payment, partial payment, and amount of copayment.

D. The local agency must provide the required eligibility information to the department in the manner specified by the department.

E. The local agency shall require the client and policyholder to conditionally assign to the department the client and policyholder's rights and the rights of minor children to benefits or services provided to the client if the department is required to collect from a third-party pay source.

Subp. 1a. **Redetermination of client eligibility.** The local agency shall redetermine a client's eligibility for CCDTF every six months after the initial eligibility determination, if the client has continued to receive uninterrupted chemical dependency treatment services for that six months. Subp. 2. **Client, responsible relative, and policyholder obligation to cooperate.** A client, responsible relative, and policyholder shall provide income or wage verification, household size verification, and shall make an assignment of third-party payment rights under subpart 1, item C. If a client, responsible relative, or policyholder does not comply with the provisions of this subpart, the client shall be deemed to be ineligible to have the behavioral health fund pay for his or her chemical dependency treatment, and the client and responsible relative shall be obligated to pay for the full cost of chemical dependency treatment services provided to the client.

9530.7021 PAYMENT AGREEMENTS.

When the local agency, the client, and the vendor agree that the vendor will accept payment from a third-party payment source for an eligible client's treatment, the local agency, the client, and the vendor shall enter into a third-party payment agreement. The agreement must stipulate that the vendor will accept, as payment in full for services provided to the client, the amount the third-party payor is obligated to pay for services provided to the client. The agreement must be executed in a form prescribed by the commissioner and is not effective unless an authorized representative of each of the three parties has signed it. The local agency shall maintain a record of third-party payment agreements into which the local agency has entered.

The vendor shall notify the local agency as soon as possible and not less than one business day before discharging a client whose treatment is covered by a payment agreement under this part if the discharge is caused by disruption of the third-party payment.

9530.7022 CLIENT FEES.

Subpart 1. **Income and household size criteria.** A client whose household income is within current household size and income guidelines for entitled persons as defined in Minnesota Statutes, section 254B.04, subdivision 1, shall pay no fee.

9530.7025 DENIAL OF PAYMENT.

Subpart 1. **Denial of payment when required assessment not completed.** The department shall deny payments from the behavioral health fund to vendors for chemical dependency treatment services provided to clients who have not been assessed and placed by the county in accordance with parts 9530.6600 to 9530.6655.

Subp. 2. **Denial of state participation in behavioral health fund payments when client found not eligible.** The department shall pay vendors from the behavioral health fund for chemical dependency treatment services provided to clients and shall bill the county for 100 percent of the costs of chemical dependency treatment services as follows:

A. The department shall bill the county for 100 percent of the costs of a client's chemical dependency treatment services when the department determines that the client was not placed in accordance with parts 9530.6600 to 9530.6655.

B. When a county's allocation under Minnesota Statutes, section 254B.02, subdivisions 1 and 2, has been exhausted, and the county's maintenance of effort has been met as required under Minnesota Statutes, section 254B.02, subdivision 3, and the local agency has been notified by the department that the only clients who are eligible to have their treatment paid for from the behavioral health fund are clients who are eligible under part 9530.7015, subpart 1, the department shall bill the county for 100 percent of the costs of a client's chemical dependency treatment services when the department determines that the client was not eligible under part 9530.7015, subpart 1.

9530.7030 VENDOR MUST PARTICIPATE IN DAANES SYSTEM.
