B. provide documentation of the qualifications of assessors according to the standards established under part 9530.6615, subpart 2.

Subp. 3. **County designee.** The county may designate public, nonprofit, or proprietary agencies or individuals to provide assessments according to part 9530.6615 by a qualified assessor. An assessor designated by the county shall have no direct shared financial interest or referral relationship resulting in shared financial gain with a treatment provider, unless the county documents that either of the exceptions in item A or B exists:

A. the treatment provider is a culturally specific service provider or a service provider with a program designed to treat persons of a specific age, sex, or sexual orientation and is available in the county and the service provider employs a qualified assessor;

B. the county does not employ a sufficient number of qualified assessors and the only qualified assessors available in the county have a direct shared financial interest or a referral relationship resulting in shared financial gain with a treatment provider; or

C. the county social service agency has an existing relationship with an assessor or service provider and elects to enter into a contract with that assessor to provide both assessment and treatment under the circumstances specified in the county contract and the county retains responsibility for making placement decisions.

Documentation of the exceptions in items A and B must be maintained at the county's office and be current within the last two years. The placing authority's assessment designee shall provide assessments and required documentation to the placing authority according to parts 9530.6600 to 9530.6660.

The placing authority is responsible for and cannot delegate making appropriate treatment planning decisions and placement authorizations.

Subp. 5. **Information release.** The placing authority shall, with proper releases of information, provide a copy of the assessment to the treatment provider who is authorized to provide services to the client. The placing authority shall provide the assessment to the treatment provider within seven days of the date of placement determination.

9530.6615 CHEMICAL USE ASSESSMENTS.

Subpart 1. Assessment mandate; timelines. The placing authority shall provide a chemical use assessment for each client seeking treatment or for whom treatment is sought for substance use disorder before the client is placed in a treatment program. The assessment must be done in a language the client understands and must be completed within the time limits specified. The placing authority shall provide interpreters for people who are deaf, deafblind, and hard-of-hearing and foreign language interpretive services when necessary.

A. The placing authority must provide an assessment interview for the client within 20 calendar days from the date an appointment was requested for the client. The placing authority must interview clients who miss an appointment within 20 days of a subsequent request for an appointment.

B. Within ten calendar days after the initial assessment interview, the placing authority must complete the assessment, make determinations, and authorize services.

C. If the client is in jail or prison, the placing authority according to part 9530.6610, subpart 1, must complete the assessment and placement authorization. If the placing authority does not assess the client, the county where the client is held must assess the client and resolve disputes according to Minnesota Statutes, section 256G.09. The update in item D is not required if the client has been in jail or prison continuously from the time of the assessment interview until the initiation of service.

D. If 45 calendar days have elapsed between the interview and initiation of services, the placing authority must update the assessment to determine whether the risk description has changed and whether the change in risk description results in a change in planned services. An update does not require a face-to-face contact and may be based on information from the client, collateral source, or treatment provider.

E. The placing authority must provide a new assessment if six months have passed since the most recent assessment or assessment update.

F. A placing authority may accept an assessment completed according to parts 9530.6600 to 9530.6655 from any other placing authority or designee in order to meet the requirements of this part.

Subp. 2. **Staff performing assessment.** Chemical use assessments must be conducted by qualified staff. An individual is qualified to perform chemical use assessments if the individual meets the criteria in item A, B, or C:

A. The individual meets the exception in Minnesota Statutes, section 148C.11, and has successfully completed 30 hours of classroom instruction on chemical use assessments and has 2,000 hours of work experience in chemical use assessments, either as an intern or as an employee.

An individual qualified under this item must also annually complete a minimum of eight hours of in-service training or continuing education related to providing chemical use assessments.

B. The individual is:

(1) licensed under Minnesota Statutes, chapter 148C, and not excluded under Minnesota Statutes, section 148C.11;

(2) certified by the Upper Midwest Indian Council on Addictive Disorders;

or

(3) designated by a federally recognized Indian tribe and provides assessments under the jurisdiction of that tribe.

C. The individual meets the exception in Minnesota Statutes, section 148C.11, has completed 30 hours of classroom instruction on chemical use assessment, and is receiving clinical supervision from an individual who meets the requirements in item A or B.

Subp. 3. **Method of assessment.** The assessor must gather the information necessary to determine the application of the criteria in parts 9530.6600 to 9530.6655 and record the information in a format prescribed by the commissioner. The assessor must complete an assessment summary as prescribed by the commissioner for each client assessed for treatment services. The assessment summary and information gathered shall be maintained in the client's case record and submitted to the department using procedures specified by the commissioner. At a minimum, the assessment must include:

A. a personal face-to-face interview with the client;

B. a review of relevant records or reports regarding the client consistent with subpart 6; and

C. contacts with two sources of collateral information that have relevant information and are reliable in the judgment of the assessor or documentation that the sources were not available. The following requirements apply to the gathering of collateral information:

(1) before the assessor determines that a collateral source is not available, the assessor must make at least two attempts to contact that source, one of which must be by mail;

(2) one source must be the individual or agency that referred the client;

(3) the assessor must get signed information releases from the client that allow the assessor to contact the collateral sources;

(4) if the client refuses to sign the information releases, and the refusal results in the assessor not having enough information to complete the determinations required by part 9530.6620, the assessor shall not authorize services for the client; and

(5) if the assessor has gathered sufficient information from the referral source and the client to apply the criteria in parts 9530.6620 and 9530.6622, it is not necessary to complete the second collateral contact.

Subp. 4. **Required documentation of assessment.** The client's record shall contain the following:

A. applicable placement information gathered in compliance with part 9530.6620, subpart 1;

B. the client's risk description in each dimension in part 9530.6622 and the reasons the specific risk description was assigned;

C. information gathered about the client from collateral contacts, or documentation of why collateral contacts were not made;

D. a copy of the forms completed by the assessor under subpart 3; and

E. a record of referrals, if other than a placement under part 9530.6622.

Subp. 5. **Information provided.** The information gathered and assessment summary must be provided to the authorized treatment program.

Subp. 6. **Confidentiality requirements.** Placing authorities must meet the following confidentiality requirements:

A. confidentiality of records as required under Minnesota Statutes, chapter 13, and section 254A.09;

B. federal regulations for the privacy of substance abuse patient information, Code of Federal Regulations, title 42, parts 2.1 to 2.67; and

C. federal privacy regulations under the Health Insurance Portability and Accountability Act, Code of Federal Regulations, title 45, parts 160.101 to 164.534.

9530.6620 PLACEMENT INFORMATION.

Subpart 1. **Placing authority determination of appropriate services.** Using the dimensions in part 9530.6622, the placing authority must determine appropriate services for clients. The placing authority must gather information about the client's age, sex, race, ethnicity, culture, religious preference, sexual orientation, disability, current pregnancy status, and home address. The placing authority must consider the risk descriptions in items A to F.

A. Using the risk description in part 9530.6622, subpart 1, referred to as Dimension 1, the placing authority must determine the client's acute intoxication/withdrawal potential. The placing authority must consider information about the client's amount and frequency

of use, duration of use, date and time of last use, ability to cope with withdrawal symptoms, previous experience with withdrawal, and current state of intoxication, and determine whether the client meets the DSM criteria for a person with substance use disorder.

B. Using the risk description in part 9530.6622, subpart 2, referred to as Dimension 2, the placing authority must determine the client's biomedical conditions and complications. The placing authority must consider the presence of physical disorders, severity of the disorder and degree to which the disorder would interfere with treatment and whether physical disorders are addressed by a health care professional, and the client's ability to tolerate the related discomfort.

C. Using the risk description in part 9530.6622, subpart 3, referred to as Dimension 3, the placing authority must determine the client's emotional, behavioral, or cognitive condition. The placing authority must consider the severity of client's problems and degree to which they are likely to interfere with treatment or with functioning in significant life areas and the likelihood of risk of harm to self or others.

D. Using the risk description in part 9530.6622, subpart 4, referred to as Dimension 4, the placing authority must determine the client's readiness for change. The placing authority must consider the degree to which the client is aware of the client's addictive or mental health issues or the need to make changes in substance use and the degree to which the client is cooperative and compliant with treatment recommendations. The placing authority must also consider the amount of support and encouragement necessary to keep the client involved in treatment.

E. Using the risk description in part 9530.6622, subpart 5, referred to as Dimension 5, the placing authority must determine the client's relapse, continued use, and continued problem potential. The placing authority must consider the degree to which the client recognizes relapse issues and has the skills to prevent relapse of either substance use or mental health problems.

F. Using the risk description in part 9530.6622, subpart 6, referred to as Dimension 6, the placing authority must determine the client's recovery environment. The placing authority must consider the degree to which key areas of the client's life are supportive of or antagonistic to treatment participation and recovery. Key areas include the client's work, school and home environment, significant others, friends, involvement in criminal activity, and whether there is a serious threat to the client's safety.

Subp. 2. **Immediate needs.** At the earliest opportunity during an assessment interview, the assessor shall determine if any of the conditions in items A to C exist. The client:

A. is in severe withdrawal and likely to be a danger to self or others;

B. has severe medical problems that require immediate attention; or

C. has severe emotional or behavioral symptoms that place the client or others at risk of harm.

If one of the conditions in item A, B, or C is present, the assessor will end the assessment interview and help the client obtain appropriate services. The assessment interview may resume when the conditions in item A, B, or C are resolved.

Subp. 3. **DSM criteria.** The placing authority must determine whether the client meets the criteria for substance use disorder in the current DSM publication during the most recent 12-month period, exclusive of periods of involuntary abstinence.

Subp. 4. **Risk description and treatment planning decision.** The placing authority must determine appropriate services for clients according to the dimensions in part 9530.6622, subparts 1 to 6. In each dimension the risk description corresponds to a similarly numbered treatment planning decision. The placing authority must arrange services according to the treatment planning decision which corresponds to the client's risk description.

Subp. 5. **Treatment service authorization.** The placing authority must authorize treatment services for clients who meet the criteria for substance use disorder according to the current DSM publication, and have a risk description of 2, 3, or 4 under part 9530.6622, subpart 4, 5, or 6.

Subp. 6. **Other services.** The placing authority must authorize appropriate services in part 9530.6622, subpart 1, 2, or 3, only in conjunction with treatment services in part 9530.6622, subpart 4, 5, or 6.

Subp. 7. **Highest risk.** The placing authority must coordinate, provide, or ensure services that first address the client's highest risk and then must authorize additional treatment services to the degree that other dimensions can be addressed simultaneously with services that address the client's highest risk.

Subp. 8. Service coordination. The placing authority must either provide or authorize coordination services for clients who have a risk description of 3 or 4 under part 9530.6622, subpart 4, 5, or 6, or a risk description of 3 in part 9530.6622, subpart 3. The coordination must be sufficient to help the client access each needed service. The placing authority must not duplicate service coordination activity that is already in place for the client.

Subp. 9. **Client choice.** The placing authority must authorize chemical dependency treatment services that are appropriate to the client's age, gender, culture, religious preference, race, ethnicity, sexual orientation, or disability according to the client's preference. The placing authority maintains the responsibility and right to choose the specific provider. The provider must meet the criteria in Minnesota Statutes, section 254B.05, and apply under part 9505.0195 to participate in the medical assistance program. The placing authority may deviate from the treatment planning decisions in part 9530.6622 if necessary to authorize appropriate services according to this subpart.

Subp. 10. **Distance exceptions.** The placing authority may authorize residential service although residential service is not indicated according to part 9530.6622, if the placing authority determines that a nonresidential service is not available within 30 miles of the client's home and the client accepts residential service.

Subp. 11. **Faith-based provider referral.** When the placing authority recommends services from a faith-based provider, the client must be allowed to object to the placement on the basis of the client's religious choice. If the client objects, the client must be given an alternate referral.

Subp. 12. Adolescent exceptions. An adolescent client assessed as having a substance use disorder may be placed in a program offering room and board when one of the criteria in item A or B can be documented.

A. The adolescent client has participated in a nonresidential treatment program within the past year, and nonresidential treatment proved to be insufficient to meet the client's needs.

B. The adolescent client has a mental disorder documented by a mental health professional as defined in Minnesota Statutes, sections 245.462, subdivision 18, and 245.4871, subdivision 27, that in combination with a substance use disorder present a serious health risk to the client.

Subp. 13. Additional information. If a treatment provider identifies additional information about a client that indicates that the placing authority has not authorized the most appropriate array of services, the provider must provide the placing authority the additional information to consider in determining whether a different authorization must be made. The treatment provider must comply with confidentiality and data privacy provisions in part 9530.6615, subpart 6.

Subp. 14. **Client request for a provider.** The placing authority must consider a client's request for a specific provider. If the placing authority does not place the client according to the client's request, the placing authority must provide written documentation that explains

the reason for the deviation from the client's request, including but not limited to treatment cost, provider location, or the absence of client services that are identified as needed by the client according to part 9530.6622.

9530.6655 APPEALS.

Subpart 1. Client's right to a second assessment. A client who has been assessed under part 9530.6615, and who disagrees with the treatment planning decision proposed by the assessor, shall have the right to request a second chemical use assessment. The placing authority shall inform the client in writing of the right to request a second assessment at the time the client is assessed. The placing authority shall also inform the client that the client's request must be in writing or on a form approved by the commissioner, and must be received by the placing authority within five working days of completion of the original assessment or before the client enters treatment, whichever occurs first.

The placing authority must authorize a second chemical use assessment by a different qualified assessor within five working days of receipt of a request for reassessment. If the client agrees with the outcome of the second assessment, the placing authority shall place the client in accordance with part 9530.6622 and the second assessment. If the client disagrees

with the outcome of the second assessment, the placing authority must place the client according to the assessment that is most consistent with the client's collateral information.

Subp. 2. Client's right to appeal. A client has the right to a fair hearing under Minnesota Statutes, section 256.045, if the client:

A. is denied an initial assessment or denied an initial assessment within the timelines in part 9530.6615, subpart 1;

B. is denied a second assessment under subpart 1 or denied a second assessment within the timelines in part 9530.6655, subpart 1;

1;

l; D. disagrees before services begin with the services or the length of services that

C. is denied placement or a placement within timelines in part 9530.6615, subpart

the placing authority proposes to authorize;

E. is receiving authorized services and is denied additional services that would extend the length of the current services beyond the end date specified in the service authorization;

F. is denied a placement that is appropriate to the client's race, color, creed, disability, national origin, religious preference, marital status, sexual orientation, or sex; or

G. objects under part 9530.6622, subpart 11, and is not given an alternate referral.

The placing authority must inform the client of the right to appeal under Minnesota Statutes, section 256.045. The placing authority must notify the client of these rights at the first in-person contact with the client. The notice must include a list of the issues in this part that entitle the client to a fair hearing. Clients who are enrolled in a prepaid health plan and clients who are not enrolled in a prepaid health plan have the same appeal rights.

Subp. 3. Services during appeal of additional services. Exercising the right to appeal under subpart 2, item E, does not entitle a client to continue receiving services beyond the end date specified in the service authorization while the appeal is being decided. A provider may continue services to the client beyond the end date specified in the service authorization pending a final commissioner's decision, but the conditions in items A and B govern payment for the continued services.

A. The provider shall be financially responsible for all hours or days of service in excess of the amount of service to which the final commissioner's decision finds the client is entitled.

B. The provider shall not charge the client for any services provided beyond the end date specified in the placement authorization.

Subp. 4. Considerations in granting or denying additional services. The placing authority shall take into consideration the following factors in determining whether to grant or deny additional services:

A. whether the client has achieved the objectives stated in the client's individual treatment plan;

B. whether the client is making satisfactory progress toward achieving the objectives stated in the client's individual treatment plan;

C. whether there is a plan that reasonably addresses the client's needs for continued service; and

D. whether the client's risk description in the dimensions being addressed by the service provider is 2 or greater according to part 9530.6622, subpart 4, 5, or 6.
