Subd. 2. **Authorization to issue appropriation bonds.** (a) Subject to the limitations of this subdivision, the commissioner may sell and issue appropriation bonds of the state under this section for public purposes as provided by law, including for the purposes of financing the cost of acquiring and installing electric vehicle charging infrastructure on publicly owned property. Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money to the commissioner of the Pollution Control Agency and the commissioner of administration under subdivision 7, not to exceed \$14,000,000 net of costs of issuance, for the purposes as provided under this subdivision, and to pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under paragraph (d).

(b) Proceeds of the appropriation bonds must be credited to a special appropriation electric vehicle infrastructure bond proceeds fund in the state treasury. All income from investment of the bond proceeds, as estimated by the commissioner, is appropriated to the commissioner for the payment of principal and interest on the appropriation bonds.

(c) Appropriation bonds may be issued in one or more issues or series on the terms and conditions the commissioner determines to be in the best interests of the state, but the term on any series of appropriation bonds may not exceed 21 years. The appropriation bonds of each issue and series thereof shall be dated and bear interest, and may be includable in or excludable from the gross income of the owners for federal income tax purposes.

(d) At the time of, or in anticipation of, issuing the appropriation bonds, and at any time thereafter, so long as the appropriation bonds are outstanding, the commissioner may enter into agreements and ancillary arrangements relating to the appropriation bonds, including but not limited to trust indentures, grant agreements, lease or use agreements, operating agreements, management agreements, liquidity facilities, remarketing or dealer agreements, letter of credit agreements, insurance policies, guaranty agreements, reimbursement agreements, indexing agreements, or interest exchange agreements. Any payments made or received according to the agreement or ancillary arrangement shall be made from or deposited as provided in the agreement or ancillary arrangement. The determination of the commissioner, included in an interest exchange agreement, that the agreement relates to an appropriation bond, shall be conclusive.

(e) The commissioner may enter into written agreements or contracts relating to the continuing disclosure of information necessary to comply with or facilitate the issuance of appropriation bonds in accordance with federal securities laws, rules, and regulations, including Securities and Exchange Commission rules and regulations in Code of Federal Regulations, title 17, section 240.15c 2-12. An agreement may be in the form of covenants with purchasers and holders of appropriation bonds set forth in the order or resolution authorizing the issuance of the appropriation bonds, or a separate document authorized by the order or resolution.

(f) The appropriation bonds are not subject to chapter 16C.

Subd. 3. **Form; procedure.** (a) Appropriation bonds may be issued in the form of bonds, notes, or other similar instruments, and in the manner provided in section 16A.672. In the event that any provision of section 16A.672 conflicts with this section, this section shall control.

(b) Every appropriation bond shall include a conspicuous statement of the limitation established in subdivision 6.

(c) Appropriation bonds may be sold at either public or private sale upon such terms as the commissioner shall determine are not inconsistent with this section and may be sold at any price or percentage of par value. Any bid received may be rejected.

The proceeds of any refunding bonds may, at the discretion of the commissioner, be applied to the purchase or payment at maturity of the appropriation bonds to be refunded, to the redemption of the outstanding appropriation bonds on any redemption date, or to pay interest on the refunding bonds and may, pending application, be placed in escrow to be applied to the purchase, payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under section 11A.24. The income earned or realized on the investment may also be applied to the payment of the appropriation bonds to be refunded or interest or premiums on the refunded appropriation bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been

89.2 the general fund or, if applicable, the special appropriation electric vehicle infrastructure  
89.3 bond proceeds fund for use in any lawful manner. All refunding bonds issued under this

89.22 for any fiscal year, provided that nothing in this section shall be construed to require the

93.20 appropriation bonds are not public debt of the state, and the full faith, credit, and taxing  
93.21 powers of the state are not pledged to the payment of the appropriation bonds or to any  
93.22 payment that the state agrees to make under this section. Appropriation bonds shall not be

108.20 analyzed according to appropriate space needs standards and also consider the following  
108.21 criteria in determining whether to make a positive review and comment.

108.22 (a) To grant a positive review and comment the commissioner shall determine that all  
108.23 of the following conditions are met:

108.24 (1) the facilities are needed for pupils for whom no adequate facilities exist or will exist;

108.25 (2) there is evidence to indicate that the facilities will have a useful public purpose for  
108.26 at least the term of the bonds;

108.27 (3) no form of cooperation with another district would provide the necessary facilities;

108.28 (4) the facilities are comparable in size and quality to facilities recently constructed in  
108.29 other districts that have similar enrollments;

108.30 (5) the facilities are comparable in size and quality to facilities recently constructed in  
108.31 other districts that are financed without a capital loan;

108.32 (6) the district is projected to have adequate funds in its general operating budget to  
108.33 support a quality education for its students for at least the next five years;

109.1 (7) the current facility poses a threat to the life, health, and safety of pupils, and cannot  
109.2 reasonably be brought into compliance with fire, health, or life safety codes;

109.3 (8) the district has made a good faith effort, as evidenced by its maintenance expenditures,  
109.4 to adequately maintain the existing facility during the previous ten years and to comply  
109.5 with fire, health, and life safety codes and state and federal requirements for accessibility  
109.6 for people with disabilities;

109.7 (9) the district has made a good faith effort to encourage integration of social service  
109.8 programs within the new facility;

109.9 (10) evaluations by boards of adjacent districts have been received; and

109.10 (11) the proposal includes a comprehensive technology plan that assures information  
109.11 access for the students, parents, and community.

109.12 (b) The commissioner may grant a negative review and comment if:

109.13 (1) the state demographer has examined the population of the communities to be served  
109.14 by the facility and determined that the communities have not grown during the previous  
109.15 five years;

109.16 (2) the state demographer determines that the economic and population bases of the  
109.17 communities to be served by the facility are not likely to grow or to remain at a level  
109.18 sufficient, during the next ten years, to ensure use of the entire facility;

109.19 (3) the need for facilities could be met within the district or adjacent districts at a  
109.20 comparable cost by leasing, repairing, remodeling, or sharing existing facilities or by using  
109.21 temporary facilities;

109.22 (4) the district plans do not include cooperation and collaboration with health and human  
109.23 services agencies and other political subdivisions; or

109.24 (5) if the application is for new construction, an existing facility that would meet the  
109.25 district's needs could be purchased at a comparable cost from any other source within the  
109.26 area.

109.27 Subd. 4. **Multiple district proposals; review and comment.** In addition to the  
109.28 requirements of subdivision 3, the commissioner may use additional requirements to  
109.29 determine a positive review and comment on projects that are designed to serve more than  
109.30 one district. These requirements may include:

109.31 (1) reducing or increasing the number of districts that plan to use the facility;

109.32 (2) location of the facility; and

(3) formation of a joint powers agreement among the participating districts.

Subd. 5. **Adjacent district comments.** The district must present the proposed project to the board of each adjacent district at a public meeting of that district. The board of an adjacent district must make a written evaluation of how the project will affect the future education and building needs of the adjacent district. The board must submit the evaluation to the applying district within 30 days of the meeting.

Subd. 6. **District application for capital grant and loan.** The school board of a district desiring a capital grant and loan shall adopt a resolution stating the amount proposed to be ~~borrowed~~ funded, the purpose for which the ~~debt is to be incurred~~ funding is requested, and an estimate of the dates when the facilities for which the ~~loan~~ funding is requested will be contracted for and completed. Applications for grants and loans must be accompanied by a copy of the adopted board resolution and copies of the adjacent district evaluations. The commissioner shall retain the evaluation as part of a permanent record of the district submitting the evaluation.

Applications must be in the form and accompanied by the additional data required by the commissioner. Applications must be received by the commissioner by September 1 of an odd-numbered year. A district must resubmit an application each odd-numbered year. Capital grant and loan applications that do not receive voter approval or are not approved in law cancel July 1 of the year following application. When an application is received, the commissioner shall obtain from the commissioner of revenue the information in the Revenue Department's official records that is required to be used in computing the debt limit of the district under section 475.53, subdivision 4.

Subd. 7. **Commissioner review; district proposals.** By November 1 of each odd-numbered year, the commissioner must review all applications for capital grants and loans that have received a positive review and comment. When reviewing applications, the commissioner must consider whether the criteria in subdivision 3 have been met. The commissioner may not approve an application if all of the required deadlines have not been met. The commissioner may either approve or reject an application for a capital grant and loan.

Subd. 8. **Commissioner recommendations.** The commissioner shall examine and consider applications for capital grants and loans that have been approved and promptly notify any district rejected of the decision.

The commissioner shall report each capital grant and loan that has been approved by the commissioner and that has received voter approval to the education committees of the

legislature by January 1 of each even-numbered year. The commissioner must not report a capital grant and loan that has not received voter approval. The commissioner shall also report on the money remaining in the capital loan account and, if necessary, request that another bond issue be authorized.

Subd. 9. **Grant and loan amount limits.** (a) A grant and loan must not be recommended for approval for a district exceeding an amount computed as follows:

(1) the amount requested by the district under subdivision 6;

(2) plus the aggregate principal amount of general obligation bonds of the district outstanding on June 30 of the year following the year the application was received, not exceeding the limitation on net debt of the district in section 475.53, subdivision 4, or 637 percent of its adjusted net tax capacity as most recently determined, whichever is less;

(3) less the maximum net debt permissible for the district on December 1 of the year the application is received, under the limitation in section 475.53, subdivision 4, or 637 percent of its adjusted net tax capacity as most recently determined, whichever is less;

(4) less any amount by which the amount voted exceeds the total cost of the facilities for which the grant and loan is ~~granted~~ approved.

(b) The grant and loan may be approved in an amount computed as provided in paragraph (a), clauses (1) to (3), subject to later reduction according to paragraph (a), clause (4).

(c) The loan amount equals the lesser of the total grant and loan approved or:

(i) the product of the maximum effort tax rate times 50 times the district's most recent adjusted net tax capacity at the time the capital grant and loan is approved under subdivision 10, minus

(ii) the district's capital loan balance outstanding at the time the capital grant and loan is approved under subdivision 10, minus

(iii) the district's principal and interest balance outstanding for eligible bonds issued for prior capital projects at the time the capital loan and grant is approved.

(d) The grant amount equals the difference between the total grant and loan approved and the loan amount under paragraph (c).

Subd. 10. **Legislative action.** Each capital grant and loan must be approved in a law.

If the aggregate amount of the capital grants and loans exceeds the amount that is or can be made available, the commissioner shall allot the available amount among any number

112.1 of qualified applicant districts, according to the commissioner's judgment and discretion,  
112.2 based upon the districts' respective needs.

112.3 Subd. 11. **District referendum.** After receipt of the review and comment on the project  
112.4 and before January 1 of the even-numbered year, the question authorizing the borrowing  
112.5 of money for the facilities must be submitted by the school board to the voters of the district  
112.6 at a regular or special election. The question submitted must state the total amount to be  
112.7 borrowed from all sources. Approval of a majority of those voting on the question is sufficient  
112.8 to authorize the issuance of the obligations on public sale in accordance with chapter 475.  
112.9 The face of the ballot must include the following statement: "APPROVAL OF THIS  
112.10 QUESTION DOES NOT GUARANTEE THAT THE SCHOOL DISTRICT WILL  
112.11 RECEIVE A CAPITAL GRANT AND LOAN FROM THE STATE. THE GRANT AND  
112.12 LOAN MUST BE APPROVED BY THE STATE LEGISLATURE AND IS DEPENDENT  
112.13 ON AVAILABLE FUNDING." The district must mail to the commissioner a certificate by  
112.14 the clerk showing the vote at the election.

112.15 Subd. 12. **Contract.** (a) Each capital grant and loan must be evidenced by a contract  
112.16 between the district and the state acting through the commissioner. The contract must  
112.17 obligate the state to reimburse the district, from the maximum effort school loan fund, for  
112.18 eligible capital expenses for construction of the facility for which the grant and loan is  
112.19 ~~granted approved~~, an amount computed as provided in subdivision 9. The commissioner  
112.20 must receive from the district a certified resolution of the board estimating the costs of  
112.21 construction and reciting that contracts for construction of the facilities for which the grant  
112.22 and loan is ~~granted approved~~ have been awarded, that bonds of the district have been issued  
112.23 and sold or that other district funds have been set aside in the amount necessary to pay all  
112.24 estimated costs of construction in excess of the amount of the grant and loan, and that all  
112.25 work, when completed, meets or exceeds standards established in the State Building Code.  
112.26 The contract must obligate the district to repay the loan out of the excesses of its maximum  
112.27 effort debt service levy over its required debt service levy, ~~including interest at a rate equal~~  
112.28 ~~to the weighted average annual rate payable on Minnesota state school loan bonds issued~~  
112.29 ~~or reissued for the project.~~ Beginning July 1, 2020, no interest assessments shall be made  
112.30 on capital loan balances.

112.31 (b) The district must each year, as long as it is indebted to the state, levy for debt service  
112.32 (i) the amount of its maximum effort debt service levy or (ii) the amount of its required debt  
112.33 service levy, whichever is greater, ~~except as the required debt service levy may be reduced~~  
112.34 ~~by a loan under section 126C.68.~~ The district shall remit payments to the commissioner

113.1 according to section 126C.71. The actual debt service levy shall be adjusted under section  
113.2 477A.09.

113.3 (c) The commissioner shall supervise the collection of outstanding accounts due the  
113.4 fund and may, by notice to the proper county auditor, require the maximum levy to be made  
113.5 as required in this subdivision. ~~Interest on capital loans must be paid on December 15 of~~  
113.6 ~~the year after the year the loan is granted and annually in later years.~~ By September 30, the  
113.7 commissioner shall notify the county auditor of each county containing taxable property  
113.8 situated within the district of the amount of the maximum effort debt service levy of the  
113.9 district for that year. The county auditor or auditors shall extend upon the tax rolls an ad  
113.10 valorem tax upon all taxable property within the district in the aggregate amount so certified.

113.11 Subd. 13. **Loan forgiveness.** If any capital loan is not paid within 50 years after it is  
113.12 granted from maximum effort debt service levies in excess of required debt service levies,  
113.13 the liability of the district on the loan is satisfied and discharged and interest on the loan  
113.14 ceases.

113.15 Subd. 14. **Participation by county auditor; record of contract; payment of loan.** The  
113.16 district must file a copy of the capital loan contract with the county auditor of each county  
113.17 in which any part of the district is situated. The county auditor shall enter the capital loan,  
113.18 evidenced by the contract, in the auditor's bond register. The commissioner shall keep a  
113.19 record of each capital grant and loan ~~and~~ contract showing the name and address of the  
113.20 district, the date of the contract, and the amount of the grant and loan initially approved.  
113.21 On receipt of the resolution required in subdivision 12 and documentation of expenditures  
113.22 under the contract, the commissioner shall issue payments, ~~which may be dispersed in~~  
113.23 ~~accordance with the schedule in the contract~~, on the capital grant and loan account for the  
113.24 amount that may be disbursed under subdivision 1. ~~Interest on each disbursement of the~~  
113.25 ~~capital loan amount accrues from the date on which the commissioner of management and~~  
113.26 ~~budget issues the payment.~~

113.27 Subd. 15. **Bond sale limitations.** (a) A district having an outstanding state loan must  
113.28 not issue and sell any bonds on the public market, except to refund state loans, unless it  
113.29 agrees to make the maximum effort debt service levy in each later year at the higher rate  
113.30 provided in section 126C.63, subdivision 8, and unless it schedules the maturities of the  
113.31 bonds according to section 475.54, subdivision 2. A district that refunds bonds at a lower  
113.32 interest rate may continue to make the maximum effort debt service levy in each later year  
113.33 at the current rate provided in section 126C.63, subdivision 8, if the district can demonstrate  
113.34 to the commissioner's satisfaction that the district's repayments of the state loan will not be

114.1 reduced below the previous year's level. The district must report each sale to the  
114.2 commissioner.

114.3 (b) For a capital loan issued prior to July 1, 2001, after the district's capital loan has been  
114.4 outstanding for 30 years, the district must not issue bonds on the public market except to  
114.5 refund the loan.

114.6 (c) For a capital loan issued on or after July 1, 2001, after the district's capital loan has  
114.7 been outstanding for 20 years, the district must not issue bonds on the public market except  
114.8 to refund the loan.

114.9 Sec. 13. Minnesota Statutes 2018, section 126C.71, is amended to read:

114.10 **126C.71 PAYMENT AND APPLICATIONS OF PAYMENT.**

114.11 Subdivision 1. **Payment.** (a) On November 20 of each year, each district having an  
114.12 outstanding capital loan or debt service loan shall compute the excess amount in the debt  
114.13 redemption fund. The commissioner shall prescribe the form and calculation to be used in  
114.14 computing the excess amount. A completed copy of this form shall be sent to the  
114.15 commissioner before December 1 of each year. The commissioner may recompute the  
114.16 excess amount and shall promptly notify the district of the recomputed amount.

114.17 ~~(b)~~ On December 15 of each year, the district shall remit to the commissioner, at a  
114.18 minimum, an amount equal to the greater of:

114.19 (i) the excess amount in the debt redemption fund; or

114.20 (ii) the amount by which the maximum effort debt service levy exceeds the required  
114.21 debt service levy for that calendar year.

114.22 ~~Any late payments shall be assessed an interest charge using the interest rates specified for~~  
114.23 ~~the debt service notes and capital loan contracts.~~

114.24 ~~(e)~~ (b) If a payment required under ~~the Maximum Effort School Aid Law~~ paragraph (a)  
114.25 is not made within 30 days, the commissioner may reduce any subsequent payments due  
114.26 the district under this chapter and chapters 120B, 122A, 123A, 123B, 124D, 125A, and  
114.27 127A by the amount due, after providing written notice to the district.

114.28 Subd. 2. **Application of payments.** The commissioner shall apply payments received  
114.29 under ~~the Maximum Effort School Aid Law and aids withheld according to subdivision 1;~~  
114.30 ~~paragraph (b), as follows: First, to payment of interest accrued on its notes, if any; second,~~  
114.31 ~~to interest on its contracts, if any; third, toward principal of its notes, if any; and last, toward~~  
114.32 the principal of its contracts, if any. While more than ~~one note or more than one~~ contract is

held, priority of payment of interest must be given to the one of earliest date, and after interest accrued on all notes is paid, similar priority shall be given in the application of any remaining amount to the payment of principal. In any year when the receipts from a district are not sufficient to pay the interest accrued on any of its notes or contracts, the deficiency must be added to the principal, and the commissioner shall notify the district and each county auditor concerned of the new amount of principal of the note or contract.

Sec. 14. **[174.13] TRANSPORTATION FACILITIES CAPITAL PROGRAM.**

Subdivision 1. Establishment; accounts. (a) A transportation facilities capital program is established to prioritize among eligible projects that:

(1) support the programmatic mission of the department;

(2) extend the useful life of existing buildings; or

(3) renovate or construct facilities to meet the department's current and future operational needs. Projects under the transportation facilities capital program are funded by proceeds from the sale of trunk highway bonds or from other funds appropriated for the purposes of this section.

(b) A transportation facilities capital account is established in the trunk highway fund. The account consists of all money appropriated from the trunk highway fund for the purposes of this section and any other money donated, allotted, transferred, or otherwise provided to the account by law. Money in the account is appropriated to the commissioner for the purposes specified and consistent with the standards and criteria set forth in this section.

(c) A transportation facilities capital account is established in the bond proceeds account of the trunk highway fund. The account consists of trunk highway bond proceeds appropriated to the commissioner. Money in the account may only be expended on trunk highway purposes, which includes the purposes in this section.

Subd. 2. Standards. (a) Minnesota Constitution, article XIV, section 11, states that trunk highway bonds may be issued to finance the construction, improvement, and maintenance of the public highway system in the state. The legislature assumes that many projects for preservation and replacement of portions of existing capital assets will constitute the construction, improvement, and maintenance of the public highway system within the meaning of the constitution and capital expenditures under generally accepted accounting principles, and will be financed more efficiently and economically under the program than by direct appropriations for specific projects.

(b) When allocating funding under this section, the commissioner must review the projects deemed eligible under subdivision 3 and prioritize allocations using the criteria in subdivision 4. Money allocated to a specific project in an appropriation or other law must be allocated as provided by the law.

Subd. 3. **Eligible expenditures; limitations.** (a) A project is eligible under this section only if it is a capital expenditure on a capital building asset owned or to be owned by the state within the meaning of accepted accounting principles as applied to public expenditures.

(b) Capital budget expenditures that are eligible under this section include but are not limited to: acquisition of land and buildings and the predesign, engineering, construction, furnishing, and equipping of district headquarter buildings, truck stations, salt storage or other unheated storage buildings, deicing and anti-icing facilities, fuel-dispensing facilities, highway rest areas, and vehicle weigh and inspection stations.

Subd. 4. **Criteria for priorities.** When prioritizing funding allocation among projects eligible under subdivision 3, the commissioner must consider:

(1) whether a project ensures the effective and efficient condition and operation of the facility;

(2) the urgency in ensuring the safe use of existing buildings;

(3) the project's total life-cycle cost;

(4) additional criteria for priorities otherwise specified in law, statute, or rule that applies to a category listed in the act making an appropriation for the program; and

(5) any other criteria the commissioner deems necessary.

**Sec. 15. [240A.20] PROMOTING CONSTRUCTION AND RENOVATION OF PUBLIC SKATE PARKS THROUGHOUT THE STATE.**

Subdivision 1. **Definition.** For purposes of this section, "skate" means wheeled, nonmotorized recreation, including skateboarding, roller blading, and roller skating, and not including cycling or biking.

Subd. 2. **Promotion of public skate parks.** The Minnesota Amateur Sports Commission shall:

(1) develop new statewide public skate parks; and

(2) provide matching grants to local units of government for public skate parks based on the criteria in this section.

117.1 Subd. 3. **Criteria for grants to local units of government for public skate parks.** (a)

117.2 The commission shall administer a site selection process for the skate parks. The commission  
117.3 shall invite proposals from cities or counties or consortia of cities. A proposal for a skate  
117.4 park must include matching contributions including in-kind contributions of land, access  
117.5 roadways and access roadway improvements, and necessary utility services, landscaping,  
117.6 and parking.

117.7 (b) The location for all proposed facilities must be in areas of maximum demonstrated  
117.8 interest and must maximize accessibility to an arterial highway, transit, or pedestrian or  
117.9 bike path.

117.10 (c) To the extent possible, all proposed facilities must be dispersed equitably, must be  
117.11 located to maximize potential for full utilization, must accommodate noncompetitive family  
117.12 and community skating for all ages, and must encourage use of skate parks by a diverse  
117.13 population.

117.14 (d) The commission will give priority to proposals that come from more than one local  
117.15 government unit.

117.16 (e) The commission may also use the money to upgrade, rehabilitate, or renovate current  
117.17 facilities.

117.18 (f) To the extent possible, 50 percent of all grants must be awarded to communities in  
117.19 greater Minnesota.

117.20 (g) A grant for a new facility may not exceed \$250,000 unless the grantee demonstrates  
117.21 that the facility will have a regional or statewide draw.

117.22 (h) Grant money may be used to upgrade existing facilities to comply with the bleacher  
117.23 safety requirements of section 326B.112.

117.24 Subd. 4. **Technical assistance.** To the extent possible, the commission shall provide  
117.25 technical assistance on skate park planning, design, and operation to communities.

117.26 Subd. 5. **Agreements with local governments and cooperative purchasing**  
117.27 **agreements.** (a) The Minnesota Amateur Sports Commission may enter into agreements  
117.28 with local units of government and provide financial assistance in the form of grants for the  
117.29 construction of skate parks that, in the determination of the commission, conform to its  
117.30 criteria.

117.31 (b) The commission may enter into cooperative purchasing agreements under section  
117.32 471.59 with local governments to purchase skate park equipment and services through state  
117.33 contracts. The cooperative skate park equipment purchasing revolving fund is a separate

account in the state treasury. The commission may charge a fee to cover the commission's administrative expenses to government units that have joint or cooperative purchasing agreements with the state under section 471.59. The fees collected must be deposited in the revolving fund established by this subdivision. Money in the fund is appropriated to the commission to administer the programs and services covered by this subdivision.

Subd. 6. **General obligation special tax bonds for skate parks.** State general obligation bonds issued to finance the construction of the skate parks provided for in this section may be general obligation special tax bonds under section 16A.661 and debt service on the bonds may be paid from sports and health club sales tax revenue as provided in section 16A.661, subdivision 3, paragraph (b).

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 16. Minnesota Statutes 2018, section 363A.36, is amended by adding a subdivision to read:

Subd. 1a. **Scope of application; state capital funding.** (a) An agency or political subdivision that uses state money to pay for part or all of a capital project is subject to and must comply with the restrictions in subdivision 1, for contracts exceeding \$100,000.

Subdivision 1. **Qualification; application; award; interest.** Any district in which the required levy for debt service in any year will exceed its maximum effort debt service levy by ten percent or by \$5,000, whichever is less, is qualified for a debt service loan hereunder in an amount not exceeding the amount applied for, and not exceeding one percent of the net debt of the district, and not exceeding the difference between the required and the maximum effort debt service levy in that year. Applications must be filed with the commissioner in each calendar year up to and including July 1. The commissioner shall determine whether the applicant is entitled to a loan and the amount thereof, and on or before October 1 shall certify to each applicant district the amount granted and its due date. The commissioner shall notify the county auditor of each county in which the district is located that the amount certified is available and appropriated for payment of principal and interest on its outstanding bonds. The auditors shall reduce by that amount the taxes otherwise leviable as the district's debt service levy on the tax rolls for that year. Each debt service loan shall bear interest from its date at a rate equal to the average annual rate payable on Minnesota state school loan bonds most recently issued prior to the disbursement of the loan to the district, but in no event less than 3-1/2 percent per annum on the principal amount from time to time remaining unpaid. Interest is payable on December 15 of the year following that in which the loan is received and annually thereafter.

The note must have printed thereon, or the commissioner shall attach thereto, a grill for entry of the date and amount of each payment and allocations of each payment to accrued interest or principal. The note must also include a certificate to be executed by the county auditor of each county in which any portion of the district is situated, prior to the delivery of the note, stating that the county auditor has entered the debt service loan evidenced thereby in the auditor's bond register. The notes must be delivered to the commissioner not later than November 15 of the year in which executed. The commissioner shall cause a record to be made and preserved showing the obligor district and the date and principal amount of each note.

Subd. 3. **Warrant.** The commissioner shall issue to each district whose note has been so received a warrant on the debt service loan account of the maximum effort school loan fund, payable on presentation to the commissioner of management and budget out of any money in such account. The warrant shall be issued by the commissioner in sufficient time to coincide with the next date on which the district is obligated to make principal or interest payments on its bonded debt in the ensuing year. Interest must accrue from the date such warrant is issued. The proceeds thereof must be used by the district to pay principal or interest on its bonded debt falling due in the ensuing year.

Subd. 4. **Levy.** Each district receiving a debt service loan shall levy for debt service in that year and each year thereafter, until all its debts to the fund are paid, (a) the amount of its maximum effort debt service levy, or (b) the amount of its required debt service levy less the amount of any debt service loan in that year, whichever is greater. The district shall remit payments to the commissioner according to section 126C.71. By September 30, the commissioner shall notify the county auditor of each county containing taxable property situated within the school district of the amount of the maximum effort debt service levy of the district for that year, and said county auditor or auditors shall extend upon the tax rolls an ad valorem tax upon all taxable property within the district in the aggregate amount so certified.
