Sec. 11. Minnesota Statutes 2012, section 352.045, is amended by adding a subdivision to read:

Subd. 3a. Contribution rate revision; general state employees retirement plan.

(a) Notwithstanding the contribution rates stated in plan law, the employee and employer contribution rates for the general state employees retirement plan must be adjusted:

- (1) if the regular actuarial valuation of the plan under section 356.215 indicates that there is a contribution sufficiency greater than one percent of covered payroll and that the sufficiency has existed for at least two consecutive years, the employee and employer contribution rates must be decreased as determined under paragraph (b) to a level such that the sufficiency is no greater than one percent of covered payroll based on the most recent actuarial valuation; or
- (2) if the regular actuarial valuation of the plan under section 356.215 indicates that there is a contribution deficiency equal to or greater than 0.5 percent of covered payroll and that the deficiency has existed for at least two consecutive years, the employee and

employer contribution rates must be increased as determined under paragraph (c) to a level such that no deficiency exists based on the most recent actuarial valuation.

- (b) If the actuarially required contribution of the plan is less than the total support provided by the combined employee and employer contribution rates by more than one percent of covered payroll, the plan employee and employer contribution rates must be decreased incrementally over one or more years by no more than 0.25 percent of pay each for employee and employer contribution rates to a level such that there remains a contribution sufficiency of at least one percent of covered payroll. No contribution rate decrease may be made until at least two years have elapsed since any adjustment under this paragraph has been fully implemented.
- (c) If the actuarially required contribution exceeds the total support provided by the employee and employer contribution rates, the employee and employer contribution rates must be increased equally to eliminate that contribution deficiency. If the contribution deficiency is:
- (1) less than two percent, the incremental increase may be up to 0.25 percent each for the employee and employer contribution rates;
- (2) greater than 1.99 percent and less than 4.01 percent, the incremental increase may be up to 0.5 percent each for the employee and employer contribution rates; or
- (3) greater than four percent, the incremental increase may be up to 0.75 percent each for the employee and employer contribution.
- (d) Any recommended adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following receipt of the most recent annual actuarial valuation prepared under section 356.215. The report must include draft legislation to revise the employee and employer contributions stated in plan law. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the recommended adjustment becomes effective on the first day of the first full payroll period in the fiscal year following receipt of the most recent actuarial valuation that gave rise to the adjustment.
- (e) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially required contributions that are more than the total combined employee and employer contributions.
- (f) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be recommended, the executive director must review any need for a change in actuarial assumptions, as recommended by the actuary retained under section 356.214 in the most recent experience study of the general employees retirement

- (e) "Experience study" means a report providing experience data and an actuarial analysis of the adequacy of the actuarial assumptions on which actuarial valuations are based.
 - (f) "Actuarial value of assets" means:
- (1) For the July 1, 2012, actuarial valuation, the market value of all assets as of June 30, 2012, reduced by:
- (i) 20 percent of the difference between the actual net change in the market value of assets other than the Minnesota postretirement investment fund between June 30, 2009, and June 30, 2008, and the computed increase in the market value of assets other than the Minnesota postretirement investment fund over that fiscal year period if the assets had earned a rate of return on assets equal to the annual percentage preretirement interest rate assumption used in the actuarial valuation for July 1, 2008;
- (ii) 40 percent of the difference between the actual net change in the market value of total assets between June 30, 2010, and June 30, 2009, and the computed increase in the market value of total assets over that fiscal year period if the assets had carned a rate of return on assets equal to the annual percentage preretirement interest rate assumption used in the actuarial valuation for July 1, 2009;
- (iii) 60 percent of the difference between the actual net change in the market value of total assets between June 30, 2011, and June 30, 2010, and the computed increase in the market value of total assets over that fiscal year period if the assets had earned a rate of return on assets equal to the annual percentage preretirement interest rate assumption used in the actuarial valuation for July 1, 2010;

- (iv) (4) 80 percent of the difference between the actual net change in the market value of total assets between the most recent June 30 and the June 30 that occurred one year earlier and the computed increase in the market value of total assets over that fiscal year period if the assets had earned a rate of return on assets equal to the annual percentage preretirement interest rate assumption used in the actuarial valuation for the July 1 that occurred one year earlier.
- (g) "Unfunded actuarial accrued liability" means the total current and expected future benefit obligations, reduced by the sum of the actuarial value of assets and the present value of future normal costs.

(h) "Pension benefit obligation" means the actuarial present value of credited projected benefits, determined as the actuarial present value of benefits estimated to be payable in the future as a result of employee service attributing an equal benefit amount, including the effect of projected salary increases and any step rate benefit accrual rate differences, to each year of credited and expected future employee service.

- (6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent a year, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

An employee who has received the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;
- (8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service must be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary, excluding overtime pay, during the purchase period that the member would have received if the member had continued to

be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate, excluding overtime pay, during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at a rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

Sec. 17. Minnesota Statutes 2012, section 353F.025, subdivision 1, is amended to read:

Subdivision 1. **Eligibility determination.** (a) The chief clerical officer of a governmental subdivision may submit a resolution from the governing body to the executive director of the Public Employees Retirement Association which supports providing coverage under this chapter for employees of that governmental subdivision who are privatized, and which states that the governing body will pay for actuarial calculations, as further specified in paragraph (c).

- (b) The governing body must also provide a copy of any applicable purchase or lease agreement and any other information requested by the executive director to allow the executive director to verify that under the proposed employer change, the new employer does not qualify as a governmental subdivision under section 353.01, subdivision 6, making the employees ineligible for continued coverage as active members of the general employees retirement plan of the Public Employees Retirement Association.
- (c) Following receipt of a resolution and a determination by the executive director that the new employer is not a governmental subdivision, the executive director shall direct the consulting actuary retained under section 356.214 to determine whether the general employees retirement plan of the Public Employees Retirement Association, if coverage under this chapter is provided, is expected to receive a net gain or a net loss if privatization occurs. A net gain is expected if the actuarial liability of the special benefit coverage provided under this chapter, if extended to the applicable employees under the privatization, is less than the actuarial gain otherwise to accrue to the plan. A net loss is expected if the actuarial accrued liability of the special benefit coverage provided under this chapter, if extended to the applicable employees under the privatization, is more than the actuarial gain otherwise to accrue to the plan. The date of the actuarial calculations used to make this determination must be within one year of the effective date, as defined in section 353F.02, subdivision 3 of privatization.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 18. Minnesota Statutes 2012, section 353F.025, subdivision 2, is amended to read:

Subd. 2. Recommendation to legislature Reporting privatizations. (a) If the actuarial calculations under subdivision 1, paragraph (c), indicate that privatization can be approved because a net gain to the general employees retirement plan of the Public Employees Retirement Association is expected due to the privatization, or if paragraph (e) (b) applies, the executive director shall, following acceptance of the actuarial calculations

effective date of retirement, the augmentation rate is six percent compounded annually.

2nd Engrossment

- (d) If the effective date of the privatization is after December 31, 2010, the applicable augmentation rate depends on the result of computations specified in section 353F.025, subdivision 1. If those computations indicate no loss or a net gain to the fund of the general employees retirement plan of the Public Employees Retirement Association, the augmentation rate is 2.0 percent compounded annually until the effective date of retirement. - (2) beginning the first of the month after a privatized former public employee terminates service with the successor entity; or
- (2) (3) if the person begins receipt of a retirement annuity while employed by the employer which assumed operations of <u>or purchased</u> the <u>medical facility or other</u> <u>privatized former public employing unit or purchased the medical facility or other public employing unit employer.</u>

(a) Notwithstanding any provisions of the laws governing the retirement plans enumerated in subdivision 3, a person who has met the qualifications of paragraph (b) may elect to receive a retirement annuity from each enumerated retirement plan in which the person has at least one-half year of allowable service, based on the allowable service in each plan, subject to the provisions of paragraph (c).

- (b) A person may receive, upon retirement, a retirement annuity from each enumerated retirement plan in which the person has at least one-half year of allowable service, and augmentation of a deferred annuity calculated at the appropriate rate under the laws governing each public pension plan or fund named in subdivision 3, based on the date of the person's initial entry into public employment from the date the person terminated all public service if:
 - (1) the person has allowable service in any two or more of the enumerated plans;
- (2) the person has sufficient allowable service in total that equals or exceeds the applicable service credit vesting requirement of the retirement plan with the longest applicable service credit vesting requirement; and
- (3) the person has not begun to receive an annuity from any enumerated plan or the person has made application for benefits from each applicable plan and the effective dates of the retirement annuity with each plan under which the person chooses to receive an annuity are within a one-year period.
- (c) The retirement annuity from each plan must be based upon the allowable service, accrual rates, and average salary in the applicable plan except as further specified or modified in the following clauses:
- (1) the laws governing annuities must be the law in effect on the date of termination from the last period of public service under a covered retirement plan with which the person earned a minimum of one-half year of allowable service credit during that employment;
- (2) the "average salary" on which the annuity from each covered plan in which the employee has credit in a formula plan must be based on the employee's highest five successive years of covered salary during the entire service in covered plans;
- (3) the accrual rates to be used by each plan must be those percentages prescribed by each plan's formula as continued for the respective years of allowable service from one plan to the next, recognizing all previous allowable service with the other covered plans;

 - (g) If the period of duplicated service credit is more than one-half year, or the person has credit for more than one-half year, with each of the plans, each plan must apply its formula to a prorated service credit for the period of duplicated service based on a fraction of the salary on which deductions were paid to that fund for the period divided by the total salary on which deductions were paid to all plans for the period.
 - (h) If the period of duplicated service credit is less than one-half year, or when added to other service credit with that plan is less than one-half year, the service credit must be ignored and a refund of contributions made to the person in accord with that plan's refund provisions.

An employee must return to public service and render a minimum of three months of allowable service in order to be eligible to make payment under section 353.0161 for a subsequent authorized leave of absence without pay. - (6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent a year, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

An employee who has received the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;
- (8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service must be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. annual salary rate is the average annual salary, excluding overtime pay, during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate, excluding overtime pay, during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at a rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

The association shall not engage directly or indirectly in any other activity involving the sale or promotion of goods or services, or both, whether to members or nonmembers.
- (d) The board shall establish procedures governing reimbursement of expenses to board members. These procedures must define the types of activities and expenses that qualify for reimbursement, must provide that all out-of-state travel be authorized by the board, and must provide for the independent verification of claims for expense reimbursement. The procedures must comply with the applicable rules and policies of the Department of Management and Budget and the Department of Administration.
- (e) The board may purchase fiduciary liability insurance and official bonds for the officers and members of the board of trustees and employees of the association and may purchase property insurance or may establish a self-insurance risk reserve including, but not limited to, data processing insurance and "extra-expense" coverage.
- Sec. 4. Minnesota Statutes 2012, section 354.07, subdivision 1, is amended to read: Subdivision 1. **General powers of board.** The board has the power to frame bylaws for its own government and for the management of the association not inconsistent with

The retirement allowance is payable monthly to the recipients entitled to those retirement allowances.

69.021 REPORTING PREMIUMS; CALCULATION OF AID.

Subd. 6. Calculation of apportionment of police state aid to counties. The police state aid available must be distributed to the counties in proportion to the relationship that the total number of active peace officers, as defined in section 69.011, subdivision 1, clause (g), in each county who are employed either by municipalities maintaining police departments or by the county, bears to the total number of peace officers employed by all municipalities and counties, subject to any reduction under subdivision 10. Any necessary additional adjustments shall be made to subsequent apportionments.

69.77 BLOOMINGTON FIREFIGHTERS RELIEF ASSOCIATION.

Subd. 3. **Minimum member contribution.** Each active member of the relief association must pay into the special fund of the association during a year of covered service, a contribution for retirement coverage, including survivorship benefits, of not less than eight percent of the maximum rate of salary upon which retirement coverage is credited and service pension and retirement benefit amounts are determined. The member contributions must be made by payroll deduction from the salary of the member by the municipality, and must be transmitted by the municipality to the relief association as soon as practical. The relief association shall deposit the member contribution to the credit of the special fund of the relief association. The member contribution requirement specified in this subdivision does not apply to any members who are volunteer firefighters.

352.955 TRANSFER OF PRIOR MSRS-GENERAL SERVICE CREDIT.

- Subd. 2. Payment of additional equivalent contributions; pre-July 1, 2007, coverage transfers. (a) An eligible employee who was transferred to plan coverage before July 1, 2007, and who elects to transfer past service credit under this section must pay an additional member contribution for that prior service period. The additional member contribution is the difference between the member contribution rate or rates for the general state employees retirement plan of the Minnesota State Retirement System for the period of employment covered by the service credit to be transferred and the member contribution rate or rates for the correctional state employees retirement plan for the period of employment covered by the service credit to be transferred, plus annual compound interest at the rate of 8.5 percent.
- (b) The additional equivalent member contribution under this subdivision must be paid in a lump sum. Payment must accompany the election to transfer the prior service credit. No transfer election or additional equivalent member contribution payment may be made by a person or accepted by the executive director after January 1, 2008, or the date on which the eligible employee terminates state employment, whichever is earlier.
- (c) If an eligible employee elects to transfer past service credit under this section and pays the additional equivalent member contribution amount under paragraphs (a) and (b), the applicable department shall pay an additional equivalent employer contribution amount. The additional employer contribution is the difference between the employer contribution rate or rates for the general state employees retirement plan for the period of employment covered by the service credit to be transferred and the employer contribution rate or rates for the correctional state employees retirement plan for the period of employment covered by the service credit to be transferred, plus annual compound interest at the rate of 8.5 percent.
- (d) The additional equivalent employer contribution under this subdivision must be paid in a lump sum and must be paid within 30 days of the date on which the executive director of the Minnesota State Retirement System certifies to the applicable department that the employee paid the additional equivalent member contribution.

352C.001 RETIREMENT PLAN; APPLICATION.

Repealed Minnesota Statutes: S0489-2

- (a) The retirement plan applicable to a former constitutional officer who was first elected to a constitutional office after July 1, 1967, and before July 1, 1997, is the applicable portions of this chapter and chapter 356 in effect on the date on which the person terminated active service as a constitutional officer.
- (b) Nothing in this section, section 352C.091, subdivision 1, or Laws 2006, chapter 271, article 10, section 33, subdivision 2, is intended to reduce the benefits of former constitutional officers or to adversely modify their eligibility for benefits in effect as of June 30, 2006.

352C.091 ADMINISTRATION.

Subdivision 1. **Administrative agency and standards.** (a) The elected officers retirement plan must be administered by the board of directors and the executive director of the Minnesota State Retirement System.

(b) The elected state officers retirement plan must be administered consistent with the applicable statutory provisions governing the plan and chapters 356 and 356A.

352C.10 BENEFIT ADJUSTMENTS.

Retirement allowances payable to retired constitutional officers and surviving spouse benefits payable must be adjusted under section 356.415.

353.29 RETIREMENT ANNUITY UPON TERMINATION OF MEMBERSHIP.

Subd. 6. Retirement before eligibility for Social Security benefits. A member or former member who retires before becoming eligible for Social Security retirement benefits may elect to receive an optional retirement annuity from the association that provides for different annuity amounts over different periods of retirement. The election of this optional retirement annuity must be exercised by making application to the board of trustees. The optional annuity must take the form of an annuity payable for the period before the annuitant becomes eligible for Social Security old age retirement benefits in a greater amount than the amount of the annuity calculated under subdivisions 2 and 3 on the basis of the age of the annuitant at retirement. The optional annuity must be the actuarial equivalent of the normal retirement annuity computed on the basis of age at retirement. This greater amount must be paid until the annuitant reaches age 62, at which time the payment from the association must be reduced. The board of trustees shall establish the method of computing the optional retirement annuity under this subdivision. In establishing the method of computing the optional retirement annuity, the board of trustees shall obtain the written approval of the actuary retained under section 356.214. The recommendations must be a part of the permanent records of the board of trustees.

353.64 MEMBERSHIP; QUALIFICATIONS; POLICE OFFICER, FIREFIGHTER.

Subd. 3. **Police and fire fund membership; exclusion.** A police officer or firefighter employed by a governmental subdivision who by virtue of that employment is required by law to be a member of and to contribute to any police or firefighter relief association governed by section 69.77 which has not consolidated with the public employees police and fire plan is not eligible to become a member of the public employees police and fire plan.

353.665 MERGER OF CERTAIN CONSOLIDATION ACCOUNTS INTO PERA-P&F.

- Subd. 2. **Transfer of liabilities.** Unless the municipality has elected to retain the consolidation account under subdivision 1, paragraph (b), all current and future liabilities of a former local police or fire consolidation account are the liabilities of the public employees police and fire fund as of July 1, 1999, and the accrued benefits of the members are the obligation of the public employees police and fire fund.
- Subd. 3. **Transfer of assets.** Unless the municipality has elected to retain the consolidation account under subdivision 1, paragraph (b), the assets of the former local police or fire consolidation account must be transferred and upon transfer, the actuarial value of the assets of a former local police or fire consolidation account less an amount equal to the residual assets as determined under subdivision 7, paragraph (f), are the assets of the public employees police and fire fund as of July 1, 1999. The assets, excluding the amounts for distribution under subdivision 7, paragraph (f), become an asset of the public employees police and fire fund. The public

Repealed Minnesota Statutes: S0489-2

employees police and fire fund also must be credited as an asset with the amount of receivable assets under subdivision 7, paragraph (e).

- Subd. 4. **Benefit coverage for active members.** (a) A person who is a police officer or a firefighter who, as such, is an active member of a merging local police or fire consolidation account on June 30, 1999, and who has not previously elected benefit coverage under the relevant provisions of the public employees police and fire fund benefit plan under section 353A.08, subdivision 3, may elect benefit coverage under the relevant provisions of the public employees police and fire fund benefit plan. This election must be made in writing on a form prescribed by the executive director before September 1, 1999, and is irrevocable.
- (b) If an eligible person makes no affirmative election of benefit coverage before September 1, 1999, the person retains the benefit coverage provided by the relief association benefit plan as reflected in the applicable provisions of chapter 353B and may elect benefit coverage under the relevant provisions of the public employees police and fire fund benefit plan when the person terminates active employment for purposes of receiving a service pension, disability benefit, or within 90 days of the date the member terminates active employment and defers receipt of a service pension, whichever applies.
- (c) Notwithstanding any provision of section 353A.083 and any municipal action under authority of that statute to the contrary, the provisions of the public employees police and fire fund benefit plan applicable to active members of the merging local police or fire consolidation accounts who elect the public employees police and fire fund benefit plan under section 353A.08, subdivision 3, or paragraph (a), are the applicable provisions of sections 353.63 to 353.659.
- Subd. 6. **Benefit coverage for deferred members.** A person who terminated before July 1, 1999, active employment as a police officer or a firefighter that gave rise to membership in a local relief association that has consolidated with the public employees police and fire plan under chapter 353A and is merging under this section and who had sufficient service credit to entitle the person to an eventual service pension retains the benefit plan as reflected in the applicable provisions of chapter 353B, except that the deferred member may elect before September 1, 1999, to participate, upon retirement, in the Minnesota postretirement investment fund. Any election to participate in the Minnesota postretirement investment fund is applicable to any survivor benefit attributable to a deferred member covered by this subdivision.
- Subd. 7. **Calculation of final funded status.** (a) As of June 30, 1999, the actuary retained under section 356.214 shall determine the final funded status of local police and fire consolidation accounts under chapter 353A that the applicable municipality has not elected to retain under subdivision 1, paragraph (b), as provided in this subdivision.
- (b) The final funded status calculation must be made using the benefit plan provisions applicable to the consolidation account and the actuarial assumptions used for the June 30, 1998, actuarial valuation of the account.
- (c) The actuary must calculate the total actuarial accrued liability of the consolidation account, which is the sum of the actuarial accrued liability for all consolidation account members who are not included in the participation of the account in the Minnesota postretirement investment fund calculated using the entry age normal actuarial cost method. If local legislation enacted during the 1999 regular session or any special session occurring before October 1, 1999, provides a benefit increase for one consolidation account member or more, whether the applicable municipality has given final approval to the local legislation yet or not, the total actuarial accrued liability calculation must include that benefit increase. The actuary also must calculate any account unfunded accrued liability or any account funding surplus. An account unfunded accrued liability is the actuarial accrued liability reduced by the amount of the current value of assets, if the resulting number is positive. An account funding surplus is the actuarial accrued liability reduced by the amount of the current value of assets, if the resulting number is negative. If a municipality is associated with two consolidation accounts and one has an account funding surplus and one has an account unfunded accrued liability in the preliminary calculation under this paragraph, the actuary must make a second calculation for the account with a preliminary account unfunded accrued liability, after crediting to that account an amount up to 75 percent of the one-half of the market value of the assets of the account with an account funding surplus that are in excess of 100 percent of the account actuarial accrued liability and that are less than that percentage of the total actuarial accrued liability that equals the public employees police and fire fund funded ratio as of June 30, 1999, but not to exceed the account's unfunded actuarial accrued liability.
- (d) The actuary also must calculate the amortizable base for every consolidation account. The amortizable base is the present value of future benefits for all account members who are not included in the participation of the account in the Minnesota postretirement investment fund reduced by the present value of 19 percent of future covered salary and further reduced by the current value of account assets other than its participation in the Minnesota postretirement

Repealed Minnesota Statutes: S0489-2

investment fund, after adjustment for fiscal year 1999 net mortality gains and losses and for the net actuarial affect of the election of postretirement adjustment coverage under subdivision 5.

- (e) If the amortizable base under paragraph (d) is a positive number, the receivable assets are an amount equal to the amortizable base number.
- (f) If the amortizable base under paragraph (d) is a negative number, the actuary must calculate the residual asset amount. The residual asset amount is:
- (1) one-half of the amount by which the current assets of the account exceed 100 percent of the total actuarial accrued liability up to that percentage of the total actuarial accrued liability that equals the public employees police and fire fund funded ratio on June 30, 1999; and
- (2) the amount by which the current assets of the account exceed that percentage of the total actuarial accrued liability that equals the public employees police and fire fund funded ratio on June 30, 1999. Following the calculation of the residual asset amount for each applicable municipality and the verification of the amount by the legislative auditor, the executive director of the public employees retirement association shall pay the applicable residual asset amount with interest equal to the average yield on the invested treasurer's cash fund from July 1, 1999, to the first of the month in which the payment is issued to each qualifying municipality. The residual asset amount must be used by the municipality to defray fire department expenditure items if the residual asset amount was derived from a fire consolidation account or to defray police department expenditure items if the residual asset amount was derived from a police consolidation account. Before the residual asset amount payment is made by the Public Employees Retirement Association, the governing body of the applicable municipality, following a public hearing on the issue, must formulate and adopt a plan for the expenditure of the residual amount and must file that plan in the form of a municipal resolution with the state auditor. The residual asset amount must be deposited in a special fund or account in the municipal treasury established for that purpose. The special fund or account must be invested and any investment return attributable to the residual asset amount must be credited to that special fund or account and its disbursement similarly restricted. The special fund or account must be audited periodically by the state auditor.
- Subd. 9. **Benefit plan coverage.** Unless modified by an election authorized under subdivision 4, 5, or 6, the benefit plan election by any person or on behalf of any person under section 353A.08 remains binding. Merging former consolidation account members who elected the entirety of the public employees police and fire benefit plan are entitled to an applicable annuity or benefit under the provisions of sections 353.63 to 353.68 in effect on the day that the merging former consolidation account member terminated active service as a police officer or firefighter, whichever applies.
- Subd. 10. **Consolidation account termination.** Unless the municipality has elected to retain the consolidation account under subdivision 1, paragraph (b), upon the payment of all residual asset amounts under subdivision 7 and the transfer of all liabilities and remaining assets under subdivisions 2 and 3, the local consolidation accounts under chapter 353A in existence on March 1, 1999, are terminated, and all benefits accrued up to the date of termination are the obligation of the public employees police and fire fund.

353.667 CONSOLIDATION OF THE MINNEAPOLIS FIREFIGHTERS RELIEF ASSOCIATION.

Subdivision 1. **Membership transfer.** On December 30, 2011, the active, inactive, and retired members, including surviving spouses, of the Minneapolis Firefighters Relief Association are transferred to the public employees police and fire retirement plan, are no longer members of the Minneapolis Firefighters Relief Association, and are members of the public employees police and fire retirement plan.

- Subd. 2. Service credit and benefit liability transfer. (a) Allowable service credit and base salary credit of the active members of the Minneapolis Firefighters Relief Association, as contained in the records of the Minneapolis Firefighters Relief Association through December 29, 2011, are transferred to the public employees police and fire retirement plan and are credited as provided in section 353.01, subdivisions 10a and 16, paragraph (c), on December 30, 2011.
- (b) The liability for the payment of retirement annuities, service pensions, and retirement and surviving spouse benefits of the Minneapolis Firefighters Relief Association retired members, service pensioners, disabilitants, surviving spouses, and other retirement benefit recipients as specified in the records of the Minneapolis Firefighters Relief Association is transferred to the public employees police and fire retirement plan on December 30, 2011.
- Subd. 3. **Transfer of records.** On December 30, 2011, the chief administrative officer of the Minneapolis Firefighters Relief Association shall transfer all records and documents relating to the special fund of the Minneapolis Firefighters Relief Association to the executive director

Repealed Minnesota Statutes: S0489-2

of the Public Employees Retirement Association. To the extent possible, original copies of all records and documents must be transferred.

- Subd. 4. Transfer of assets; transfer of title to assets. (a) On December 30, 2011, the chief administrative officer of the Minneapolis Firefighters Relief Association shall transfer the entire assets of the special fund of the Minneapolis Firefighters Relief Association other than the health insurance account to the public employees police and fire retirement fund at market value. Unless ineligible or inappropriate, the transfer must be in the form of investment securities and must include any accounts receivable that are determined by the State Board of Investment as being capable of being collected. An amount, in cash, must be transferred by the city of Minneapolis equal to the market value recognized by the relief association of investment securities that are determined by the executive director of the State Board of Investment not to be in compliance with the requirements and limitations set forth in sections 11A.09, 11A.14, 11A.23, and 11A.24 or not to be appropriate for retention in light of the established investment objectives of the State Board of Investment or of accounts receivable determined as being incapable of being collected by the executive director of the State Board of Investment. Legal and beneficial title to assets that are determined noncompliant or inappropriate securities or that are uncollectible accounts receivable are transferred to the city of Minneapolis on December 30, 2011. Any accounts payable on December 30, 2011, are an obligation of the public employees police and fire retirement fund and reduce the asset value for purposes of subdivision 6. The transferred assets must be deposited in the public employees police and fire retirement fund. The amount of the transferred health insurance account must remain deposited in the financial institution retained by the former Minneapolis Firefighters Relief Association on May 1, 2011, and that financial institution must act as the custodian of the account. The financial institution shall perform all trustee and fiduciary duties with respect to the account as a condition to the retention of the account. The executive director of the Minneapolis Firefighters Relief Association, prior to December 30, 2011, shall estimate three calendar years of the administrative expenses related to the operation of the account and shall prepay those expenses from the account to the financial institution before December 30, 2011. After the three-year prepayment period, the beneficiaries of the account are responsible for the payment of the administrative expenses related to the operation of the account.
- (b) Upon the transfer of assets to the State Board of Investment under paragraph (a), legal title to those transferred assets vests with the State Board of Investment on behalf of the public employees police and fire retirement plan, and beneficial title to the transferred assets remains with the former membership of the former Minneapolis Firefighters Relief Association.
- (c) The public employees police and fire retirement plan and fund is the successor in interest to all claims for or against the Minneapolis Firefighters Relief Association. The public employees police and fire retirement plan and fund is not liable for any claim against the Minneapolis Firefighters Relief Association, its governing board, or its administrative staff acting in a fiduciary capacity, under chapter 356A or common law, which is founded upon a claim of a breach of fiduciary duty if the act or acts constituting the claimed breach were not undertaken in good faith. The public employees police and fire retirement plan may assert any applicable defense to any claim in any judicial or administrative proceeding that the Minneapolis Firefighters Relief Association, its board, or its administrative staff would otherwise have been entitled to assert, and the public employees police and fire retirement plan may assert any applicable defense that it has in its capacity as a statewide agency.
- (d) The Public Employees Retirement Association shall indemnify any former fiduciary of the Minneapolis Firefighters Relief Association consistent with the provisions of section 356A.11. The indemnification may be effected by the purchase by the Public Employees Retirement Association of reasonable fiduciary liability tail insurance for the officers and directors of the former Minneapolis Firefighters Relief Association. Consistent with section 69.80, the relief association may purchase reasonable fiduciary liability tail insurance for its officers and directors prior to December 30, 2011.
- (e) Office equipment and other physical assets of the special fund of the Minneapolis Firefighters Relief Association that are not needed by the Public Employees Retirement Association may be sold by the special fund of the Minneapolis Firefighters Relief Association to the general fund of the Minneapolis Firefighters Relief Association or to any successor fraternal organization of the Minneapolis Firefighters Relief Association at fair market value, with the proceeds of that sale deposited in the public employees police and fire retirement fund and included in the transferred asset value under subdivision 6.
- Subd. 5. **Benefits.** The annuities, service pensions, and other retirement benefits of or attributable to retired, disabled, deferred, surviving spouse, or inactive Minneapolis Firefighters Relief Association members who had that status as of December 29, 2011, continue after consolidation in the same amount and under the same terms as provided in chapter 423C except

Repealed Minnesota Statutes: S0489-2

that the unit value is governed by section 353.01, subdivision 10a, and the postretirement adjustments after December 31, 2015, must be calculated solely under section 353.6511, subdivision 8.

- Subd. 6. Additional employer contributions. (a) As of December 30, 2011, the approved actuary retained by the Public Employees Retirement Association shall calculate the present value of future benefits of the former Minneapolis Firefighters Relief Association, and, after subtracting the market value of the transferred assets of the former Minneapolis Firefighters Relief Association and the present value of the employer contribution under section 353.65, subdivision 3, paragraph (b), shall calculate the remainder present value of future benefits amount. Annually, following December 30, 2011, the city of Minneapolis shall pay an amount sufficient to amortize on a level annual dollar basis the remainder present value of future benefits amount by December 31, 2031. The amortization payment is payable annually on July 15, beginning in 2012. The 2012 payment should be estimated based on the provisions of Laws 2011, First Special Session chapter 8. The July 2013 payment shall be adjusted based on the final actuarial valuation.
- (b) If the postretirement or preretirement interest rate actuarial assumption applicable to the public employees police and fire retirement plan under section 356.215, subdivision 8, is modified from the rates specified in section 356.215, subdivision 8, the remainder present value of future benefits amount calculation under paragraph (a), updated for the passage of time, must be revised and the amortization contribution by the city of Minneapolis for the balance of the amortization period must be redetermined and certified to the city of Minneapolis.
- Subd. 7. **Health and dental insurance program deductions.** The executive director shall withhold any health insurance or dental insurance premiums designated by the annuitant or benefit recipient and shall transfer them to the city of Minneapolis. The Public Employees Retirement Association may charge a necessary and reasonable monthly administrative fee to the city of Minneapolis for this function and bill it in addition to the employer contribution under section 353.65, subdivision 3, paragraph (b). Notwithstanding any provision of chapter 13 to the contrary, the executive director shall provide the city of Minneapolis with the current addresses of former members of the Minneapolis Firefighters Relief Association.
- Subd. 8. **Cooperation with fraternal organization.** (a) This subdivision applies if the membership of the former Minneapolis Firefighters Relief Association approves the continuation of the relief association as a fraternal organization under Laws 2011, First Special Session chapter 8, article 6, section 17.
- (b) The executive director shall cooperate with the Minneapolis firefighters fraternal association to ensure adequate communication with the former members of the former Minneapolis Firefighters Relief Association consistent with Public Employees Retirement Association policy.
- Subd. 9. **Fire insurance surcharge.** Notwithstanding any provision of section 297I.10 to the contrary, the proceeds of the first class city fire insurance premium tax surcharge with respect to Minneapolis must be paid to the city of Minneapolis to defray a portion of the employer retirement cost under section 353.65, subdivision 3, with respect to Minneapolis firefighters.

353.668 CONSOLIDATION OF THE MINNEAPOLIS POLICE RELIEF ASSOCIATION.

Subdivision 1. **Membership transfer.** On December 30, 2011, the active, inactive, and retired members, including surviving spouses, of the Minneapolis Police Relief Association are transferred to the public employees police and fire retirement plan, are no longer members of the Minneapolis Police Relief Association, and are members of the public employees police and fire retirement plan.

- Subd. 2. Service credit and benefit liability transfer. (a) Allowable service credit and base salary credit of the active members of the Minneapolis Police Relief Association, as contained in the records of the Minneapolis Police Relief Association through December 29, 2011, are transferred to the public employees police and fire retirement plan and are credited as provided in section 353.01, subdivisions 10b and 16, paragraph (c), on December 30, 2011.
- (b) The liability for the payment of retirement annuities, service pensions, and retirement and surviving spouse benefits of the Minneapolis Police Relief Association retired members, service pensioners, disabilitants, surviving spouses, and other retirement benefit recipients as specified in the records of the Minneapolis Police Relief Association is transferred to the public employees police and fire retirement plan on December 30, 2011.
- Subd. 3. **Transfer of records.** On December 30, 2011, the chief administrative officer of the Minneapolis Police Relief Association shall transfer all records and documents relating to the special fund of the Minneapolis Police Relief Association to the executive director of the

Repealed Minnesota Statutes: S0489-2

Public Employees Retirement Association. To the extent possible, original copies of all records and documents must be transferred.

- Subd. 4. Transfer of assets; transfer of title to assets. (a) On December 30, 2011, the chief administrative officer of the Minneapolis Police Relief Association shall transfer the entire assets of the special fund of the Minneapolis Police Relief Association other than the health insurance account to the public employees police and fire retirement fund at market value. Unless ineligible or inappropriate, the transfer must be in the form of investment securities and must include any accounts receivable that are determined by the State Board of Investment as being capable of being collected. An amount, in cash, must be transferred by the city of Minneapolis equal to the market value recognized by the relief association of investment securities that are determined by the executive director of the State Board of Investment not to be in compliance with the requirements and limitations set forth in sections 11A.09, 11A.14, 11A.23, and 11A.24 or not to be appropriate for retention in light of the established investment objectives of the State Board of Investment or of accounts receivable determined by the executive director of the State Board of Investment as being incapable of being collected. Legal and beneficial title to assets that are determined noncompliant or inappropriate securities or that are uncollectible accounts receivable are transferred to the city of Minneapolis on December 30, 2011. Any accounts payable on December 30, 2011, are an obligation of the public employees police and fire retirement fund and reduce the asset value for purposes of subdivision 6. The transferred assets must be deposited in the public employees police and fire retirement fund. The amount of the health insurance account as of the date of the consolidation must remain deposited in the financial institution retained by the former Minneapolis Police Relief Association on May 1, 2011, and that financial institution must act as the custodian of the account. The health insurance account may be transferred from the financial institution that holds the account to a successor financial institution on June 30, 2012, under the requirements of this subdivision and the terms of an agreement between the Minneapolis Police Relief Association and the successor financial institution dated December 30, 2011, that provides for the transfer. The financial institution shall perform all trustee and fiduciary duties with respect to the account as a condition to the retention of the account. If the governing body of the municipality upon its final action on the consolidation disapproves the consolidation, or the deadline for the municipality to take final action upon the question of consolidation expires, the approvals by the relief association and the municipality to initiate the consolidation shall no longer be effective.
- Subd. 9. **Division of salaried and volunteer firefighter relief association.** If the relief association includes in its membership both volunteer firefighters and salaried firefighters, the board of trustees of the relief association shall, before the effective date of the consolidation, undertake the necessary steps to separate the volunteer firefighters portion of the relief association and to establish the volunteer firefighters portion of the relief association as a distinct relief association governed by chapter 424A. Any special fund assets of the original relief association shall be valued at their fair market value and divided between the new volunteer firefighters relief association and the existing relief association on the basis of their relative actuarial accrued liabilities as determined by an approved actuary as provided in section 356.215. The municipality shall adopt a resolution specifying how any fire state aid received by the municipality under sections 69.011 to 69.051 shall be allocated between the newly established volunteer firefighters relief association and the existing relief association or the fund, whichever applies, as of the date of allocation.

(b) These actuarial calculations shall include for each active member, each deferred former member, each retired member, and each current beneficiary the computation of the present value of future benefits, the future normal costs, if any, and the actuarial accrued liability on the basis of the existing relief association benefit plan and on the basis of the public employees police and fire fund benefit plan. retired, and benefit recipient membership the sum of the present value of future benefits, the future normal costs, if any, and the actuarial accrued liability on the basis of the existing relief association benefit plan, on the basis of the public employees police and fire fund benefit plan, and on the basis of the benefit plan which produced the largest present value of future benefits for each person. The actuarial calculations shall be prepared using the entry age actuarial cost method for all components of the benefit plan and using the actuarial assumptions applicable to the fund for the most recent actuarial valuation prepared under section 356.215, except that the actuarial calculations on the basis of the existing relief association benefit plan shall be prepared using an interest rate actuarial assumption during the postretirement period which is in the same amount as the interest rate actuarial assumption applicable to the preretirement period. The actuarial calculations shall include the computation of the present value of the initial postretirement adjustment anticipated by the executive director of the state board as payable after the effective date of the consolidation under section 356.415.

- (c) The chief administrative officer of the relief association shall, upon request, provide in a timely manner to the executive director of the commission and to the actuary retained under section 356.214 the most current available information or documents, whichever applies, regarding the demographics of the active, deferred, retired, and benefit recipient membership of the relief association, the financial condition of the relief association, and the existing benefit plan of the relief association.
- (d) Upon completion of the actuarial calculations required by this subdivision, the actuary retained under section 356.214 shall issue a report in the form of an appropriate summary of the actuarial calculations and shall provide a copy of that report to the executive director of the commission, the executive director of the Public Employees Retirement Association, the chief administrative officer of the relief association, the chief administrative officer of the municipality in which the relief association is located, and the state auditor.
- Subd. 2. **State board actions.** (a) Upon approval of consolidation by the membership as provided in section 353A.04, the executive director of the state board shall review the existing investment portfolio of the relief association for compliance with the requirements and limitations set forth in sections 11A.09, 11A.14, 11A.23, and 11A.24 and for appropriateness for retention in the light of the established investment objectives of the state board. The executive director of the state board, using any reporting service retained by the state board, shall determine the approximate market value of the existing assets of the relief association upon the effective date of consolidation and the transfer of assets from the relief association to the individual relief association consolidation accounts at market value.
- (b) The state board may require that the relief association liquidate any investment security or other item of value which is determined to be ineligible or inappropriate for retention by the state board. The liquidation shall occur before the effective date of consolidation and transfer of assets.
- (c) If requested to do so by the chief administrative officer of the relief association or of the municipality, the state board shall provide advice on the means and procedures available to liquidate investment securities and other assets determined to be ineligible or inappropriate.
- Subd. 3. **Association actions.** Upon receipt of the report of actuarial calculations under subdivision 1 and notice from the state board of the completion of the preliminary actions under subdivision 2, the association shall notify the chief administrative officer of the municipality and the chief administrative officer of the relief association of the completion of the preliminary actions.

The board of trustees of the Public Employees Retirement Association, at its next regularly scheduled meeting, shall set the effective date for the consolidation and notify the persons under this subdivision who are to receive notice from the municipality.

Subd. 2. **Information required.** Upon final approval of consolidation by the municipality under section 353A.04, the executive director of the public employees retirement association shall request from the relief association and the municipality the information necessary to allow the association to complete the consolidation. The information, at a minimum, must include all data required to be provided by the executive director of the commission and the actuary retained

The chief administrative officer of the relief association and the chief administrative officer of the municipality shall provide the requested information in a timely manner. The data must be reported on forms or in a manner prescribed by the executive director of the association. The data must be current as of the effective date of the consolidation with the association. The chief administrative officer of the municipality and the chief administrative officer of the relief association shall certify the accuracy of the data reported to the association. The executive director may rely on that data without undertaking any affirmative duty to verify the data.

353A.07 EFFECT ON ADMINISTRATION.

Subdivision 1. **Transfer of administration.** On the effective date of consolidation, the administration of the special fund and the benefit plan of the relief association is transferred to the executive director and the board of trustees of the Public Employees Retirement Association.

- Subd. 2. **Transfer of records.** On the effective date of consolidation, the chief administrative officer of the relief association shall transfer all records and documents relating to the special fund of the relief association to the fund. To the extent possible, original copies of all records and documents shall be transferred. For any records and documents which apply to both the general fund and the special fund of the relief association, the chief administrative officer may transfer a photostatic copy of the applicable original record or document if the copy is accompanied by a certification by the chief administrative officer that the copy is a true and exact copy of the original. Any photostatic copy of any document so certified may be treated by the fund for all purposes as an original copy.
- Subd. 3. **Transfer of assets.** (a) On the effective date of consolidation, the chief administrative officer of the relief association shall transfer the entire assets of the special fund of the relief association to the Public Employees Retirement Association. The transfer must include any investment securities of the consolidation account which are not determined to be ineligible or inappropriate by the executive director of the state board under section 353A.05, subdivision 2, at the market value of the investment security as of the effective date of the consolidation. The transfer must include any accounts receivable determined by the executive director of the state board as capable of being collected. The transfer must also include an amount, in cash, representing any remaining investment security or other asset of the consolidation account which was liquidated, after defraying any accounts payable.
- (b) As of the effective date of consolidation, subject to the authority of the state board, the board of trustees of the Public Employee Retirement Association has legal title to and management responsibility for any transferred assets as trustees for any person having a beneficial interest arising out of benefit coverage provided by the relief association. The Public Employees Retirement Association is the successor in interest for all claims for and against the consolidation account or the municipality with respect to the consolidation account of the relief association, except a claim against the relief association or the municipality or any person connected with the relief association or the municipality in a fiduciary capacity, based on any act or acts by that person which were not done in good faith and which constituted a breach of the obligation of the person as a fiduciary. As a successor in interest, the Public Employees Retirement Association may assert any applicable defense in any judicial proceeding which the board of the relief association or the municipality would have otherwise been entitled to assert.
- Subd. 4. **Termination of special fund.** (a) As of the effective date of consolidation and the transfer of administration, records, assets, and liabilities from the relief association to the separate consolidation fund, the special fund of the relief association shall cease to exist as a legal entity. If the relief association has a general fund as of the effective date of consolidation, the general fund may continue to exist as a legal entity at the discretion of the board of the relief association. If the relief association does not have a general fund as of the effective date of consolidation, the board of the relief association may establish a general fund, which may conduct business on behalf of the relief association as the board of the relief association may direct. Following consolidation, the general fund may retain the name of the relief association, shall be the only fund of the relief association, and shall continue to be governed by any applicable general or special law provision other than any provisions governing the benefits previously payable from the special fund of the relief association. Any relief association continuing in the form of the general fund shall function as a fraternal organization.
- (b) The municipality shall maintain the service previously provided to assist the relief association through making the appropriate payroll deduction of relief association membership dues from relief association members.

Repealed Minnesota Statutes: S0489-2

- Subd. 5. **Costs of consolidation.** The reasonable and necessary costs arising from the actions of the commission, the state board, and the fund preliminary to consolidation as provided in section 353A.05 shall be paid by the relief association from the special fund as those costs are incurred before the effective date of the consolidation and shall be considered to be authorized administrative expenses of the relief association for section 69.80.
- Subd. 6. **Postconsolidation bylaw amendments.** Following the effective date of consolidation, if the relief association continues in the form of the general fund, the board of the relief association shall adopt the appropriate amendments to its bylaws and articles of incorporation to reflect its change in status and operation. The amendments shall be effective upon filing the applicable amendments with the executive director of the commission and with the state auditor and shall not require municipal ratification as provided in section 69.77, subdivision 3.

353A.08 EFFECT ON BENEFIT COVERAGE.

Subdivision 1. **Election of coverage by current retirees.** (a) A person who is receiving a service pension, disability benefit, or survivor benefit is eligible to elect benefit coverage provided under the relevant provisions of the public employees police and fire fund benefit plan or to retain benefit coverage provided under the relief association benefit plan in effect on the effective date of the consolidation. The relevant provisions of the public employees police and fire fund benefit plan for the person electing that benefit coverage are limited to any future postretirement adjustments under section 356.415 based on the amount of the benefit or pension payable on December 31, if December 31 is the effective date of consolidation, or on the December 1 following the effective date of the consolidation, if other than December 31. The survivor benefit payable on behalf of any service pension or disability benefit recipient who elects benefit coverage under the public employees police and fire fund benefit plan must be calculated under the relief association benefit plan and is subject to future postretirement adjustments under section 356.415 based on the amount of the survivor benefit payable.

- (b) A survivor benefit calculated under the relief association benefit plan which is first payable after June 30, 1997, to the surviving spouse of a retired member of a consolidation account who, before July 1, 1997, chose postretirement adjustments as provided under section 356.415 must be increased on the effective date of the survivor benefit on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and tables adopted by the board and approved by the actuary retained under section 356.214.
- (c) By electing the public employees police and fire fund benefit plan, a current service pension or disability benefit recipient who, as of the first January 1 occurring after the effective date of consolidation, has been receiving the pension or benefit for at least seven months, or any survivor benefit recipient who, as of the first January 1 occurring after the effective date of consolidation, has been receiving the benefit on the person's own behalf or in combination with a prior applicable service pension or disability benefit for at least seven months is eligible to receive a partial adjustment payable under section 356.415.
- (d) The election by any pension or benefit recipient must be made on or before the deadline established by the board of the Public Employees Retirement Association in a manner that recognizes the number of persons eligible to make the election and the anticipated time required to conduct any required benefit counseling.
- Subd. 2. **Election of coverage by current deferred retirees.** (a) Any person who has terminated active employment as a police officer or firefighter, whichever applies, with the municipality, has sufficient credit for service to entitle the person to an eventual service pension and has not taken a refund of accumulated member contributions, if applicable, shall have the option to elect to have benefit coverage provided under the relevant provisions of the public employees police and fire fund benefit plan or to retain benefit coverage provided by the relief association benefit plan in effect on the effective date of consolidation. The relevant provisions of the public employees police and fire fund benefit plan for the person electing that benefit coverage shall be the provisions specified in subdivision 1.

The election shall be made when the person files an application for receipt of the deferred service pension and shall accompany that application.

(b) The retirement annuity for a deferred member of a consolidated local relief association which consolidated before July 1, 1997, who elected the relevant provisions of the public employees police and fire fund benefit plan under subdivision 1 must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure

and tables adopted by the board of trustees of the Public Employees Retirement Association and approved by the actuary retained under section 356.214.

- Subd. 3. Election of coverage by active members. (a) A person who is an active member of a police or fire relief association, other than a volunteer firefighter, has the option to elect benefit coverage under the relevant provisions of the public employees police and fire fund or to retain benefit coverage provided by the relief association benefit plan in effect on the effective date of consolidation. The relevant provisions of the public employee police and fire fund benefit plan for the person electing that benefit coverage are the relevant provisions of the public employee police and fire fund benefit plan applicable to retirement annuities, disability benefits, and survivor benefits, including postretirement adjustments under section 356.415, but excluding any provisions governing the purchase of credit for prior service or making payments in lieu of member contribution deductions applicable to any period which occurred before the effective date of consolidation.
 - (b) An active member is eligible to make an election at one of the following times:
 - (1) within six months of the effective date of consolidation;
- (2) between the date on which the active member attains the age of 49 years and six months and the date on which the active member attains the age of 50 years; or
- (3) on the date on which the active member terminates active employment for purposes of receiving a service pension or disability benefits, or within 90 days of the date the member terminates active employment and defers receipt of a service pension, whichever applies.
- Subd. 4. **Irrevocable election.** (a) Any election made under this section shall be irrevocable once it has been filed. Each election shall be made on a form prescribed by the executive director of the public employees retirement association and shall be filed with the executive director. If the current retiree, current benefit recipient, current deferred retiree, or current active member has, as of the effective date of consolidation or the election of benefit coverage, whichever applies, a spouse or other person who has reached the age of majority who under the benefit plan of the relief association would be entitled to receive a survivor benefit upon the death of the person making the election, the election made as provided in this section shall not be considered valid without a statement signed by the potential survivor and accompanying the election form which indicates that the potential survivor has been informed of the election and understands the consequences of the election.
- (b) The election form, if validly executed and accompanied by any required statement or statements, shall be effective on the first day of the month next following its filing with the executive director of the public employees retirement association or the date of retirement, whichever is earlier. If the person making the election becomes disabled or dies before the effective date of the election, any disability or survivor benefits which are payable shall be governed by the existing benefit plan of the relief association.
- (c) If the person entitled to make the election elects to retain coverage by the benefit plan of the relief association or fails to make the election in a timely fashion, the person shall have future pension or benefit payments governed by the provisions of the existing benefit plan of the relief association in effect on the effective date of consolidation.
- Subd. 5. **Returning disabilitants; reemployed annuitants.** (a) A person who is receiving a disability benefit from a consolidating local relief association as of the effective date of the consolidation and who recovers sufficiently from that disability following the effective date of the consolidation to allow for a return to active employment as a police officer or firefighter, whichever applies, with the municipality in which the consolidating relief association was located retains eligibility to the local relief association benefit plan only and is not entitled to elect the public employees police and fire fund benefit plan as an active member, even if the public employees police and fire fund benefit plan was elected as a benefit recipient.
- (b) A person who becomes disabled following the effective date of the consolidation is entitled to make a benefit plan coverage election as an active member upon the termination of active employment and commencement of the disability benefit and, upon any return to active service, retains benefit plan coverage by the previously selected benefit plan coverage election.
- (c) A person who retired from a consolidating local relief association after the effective date of the consolidation, who has elected coverage by the public employees police and fire fund benefit plan and who returns to active employment with an employing unit covered by the public employees retirement association following the effective date of consolidation is subject to the provisions of section 353.37.
- Subd. 6. **Special benefit coverage.** (a) A person who would have otherwise been entitled to special benefit coverage under section 353A.02, subdivision 28, retains entitlement upon consolidation to that special benefit coverage notwithstanding the election which the person makes regarding other aspects of the benefit coverage under subdivision 1, 2, or 3. The special

benefit coverage continues to be provided by the municipality and, if not provided through a contract with an insurance carrier authorized to do business in this state, must be funded on an actuarial basis using the relevant provisions of section 69.77, with the establishment by the municipality of a special account within the general fund of the municipality for this special benefit coverage. The chief administrative officer of the municipality shall manage the special benefit coverage. Disbursements must be limited to payments of the special benefit or benefits based on the relevant portion of the benefit plan of the relief association that existed as of the date on which consolidation is initiated.

- (b) A special account in the general fund of a municipality established to provide special preexisting benefit plan coverage under this subdivision is not a supplemental pension plan under section 356.24 or a local governmental pension plan or fund under section 356.25.
- Subd. 6a. **Military service contribution and refund.** A person who was an active member of a local police or firefighters relief association upon its consolidation with the public employees retirement association, and who was otherwise eligible for automatic service credit for military service under Minnesota Statutes 2000, section 423.57, and who has not elected the type of benefit coverage provided by the public employees police and fire fund at the time of consolidation, must make employee contributions under section 353.01, subdivision 16, paragraph (a), clause (8), to receive allowable service credit from the association for a military service leave after the effective date of the consolidation. A person who later elects, under subdivision 3, to retain benefit coverage under the bylaws of the local relief association is eligible for a refund from the association at the time of retirement. The association shall refund the employee contributions plus interest at the rate of six percent, compounded quarterly, from the date on which contributions were made until the first day of the month in which the refund is paid. The employer shall receive a refund of the employer contributions. The association shall not pay a refund to a person who later elects, under subdivision 3, the type of benefit coverage provided by the public employees police and fire fund or to the person's employer.
- Subd. 7. **Effect of coverage by local plan.** A person who, under this section, elects benefit coverage under the relief association benefit plan, or who fails to make a timely election of coverage under the public employees retirement association police and fire fund benefit plan, is a member of the relief association as administered by the Public Employees Retirement Association and has a right to benefits under the relief association benefit plan in effect on the effective date of the consolidation.
- Subd. 8. **Counseling.** The executive director of the Public Employees Retirement Association shall undertake all reasonable efforts to provide any necessary benefit counseling to persons who are entitled to make or who are affected by an election, if benefit counseling is requested by the person.

If there is no surviving spouse, the legal guardian of the oldest dependent child under the age of 18 is eligible to make an election of coverage under subdivision 2. If there are no surviving dependent children under age 18, then the oldest dependent child who is age 18 to 23 and who is enrolled full time in an accredited postsecondary educational institution is eligible to make the election. A refund may be paid to a designated beneficiary only if:

- (1) there are no survivors entitled to benefits under this subdivision; or

The relevant provisions of the public employee police and fire fund benefit plan for the person electing that benefit coverage are the relevant provisions of the public employee police and fire fund benefit plan applicable to survivor benefits, including postretirement adjustments under section 356.415.
- (b) If the election results in an increased benefit amount to the surviving spouse eligible under subdivision 1, or to eligible children if there is no surviving spouse, the increased

benefit accrues as of the date on which the survivor benefits payable to the survivors from the consolidation account were first paid. The back payment of any increase in prior benefit amounts, plus any postretirement adjustments payable under section 356.415, or any increase payable under the local relief association bylaws is payable as soon as practicable after the effective date of the election.

423A.01 POLICE AND SALARIED FIREFIGHTERS RELIEF ASSOCIATIONS.

Subdivision 1. **Membership of new police and salaried firefighters in the public employees police and fire fund.** Notwithstanding any law to the contrary, all persons first employed by any municipality as police officers or police officer trainees, salaried firefighters or firefighter trainees or public safety officers or public safety officer trainees after June 15, 1980 shall be members of the public employees police and fire fund established by sections 353.63 to 353.68, and shall not be members of any local police or paid firefighters' relief association established or maintained by the municipality, unless the municipality elects to retain the local relief association by the adoption of a municipal resolution approved by a majority of the governing body of the municipality following the holding of a public meeting at which the views of the public are considered and a copy of the municipal resolution is filed with the secretary of state, the commissioner of management and budget, the commissioner of commerce and the executive director of the Legislative Commission on Pensions and Retirement on or before August 15, 1980.

- Subd. 2. Operation of local relief association upon modification of retirement coverage for newly hired police officers and firefighters. (a) The following provisions shall govern the operation of a local relief association upon the modification of retirement coverage for newly hired police officers or firefighters:
- (1) The minimum obligation of a municipality in which the retirement coverage for newly hired police officers or salaried firefighters has been modified pursuant to subdivision 1 with respect to the local relief association shall be determined and governed in accordance with the provisions of sections 69.77, 356.215, and 356.216, except that the normal cost calculation for the relief association shall be computed as a percentage of the compensation paid to the active members of the relief association. The compensation paid to persons with retirement coverage modified pursuant to subdivision 1 shall not be included in any of the computations made in determining the obligation of the municipality with respect to the local relief association.
- (2) The contribution rate of members of the local relief association shall be governed by section 69.77, unless a special law establishing a greater member contribution rate is applicable whereupon it shall continue to govern. The member contribution rate of persons with retirement coverage modified pursuant to subdivision 1 shall be governed by section 353.65.
- (3) Unless otherwise provided for by law, when every active member of the local relief association retires or terminates from active duty, the local relief association shall cease to exist as a legal entity and the assets of the special fund of the relief association shall be transferred to a trust fund to be established by the appropriate municipality for the purpose of paying service pensions and retirement benefits to recipient beneficiaries. Recipient beneficiaries who are competent to act on their own behalf shall be entitled to select the prescribed number of trustees of the trust fund as provided in this clause, subject to the approval of the governing body of the municipality. If there are at least five recipient beneficiaries, the trust fund shall be managed by a board of trustees composed of five persons selected by the recipient beneficiaries of the fund. When there are fewer than five recipient beneficiaries, the number of trustees selected by the recipient beneficiaries shall be equal to the number of the remaining recipient beneficiaries. The governing body of the municipality shall select the additional trustees. The term of the elected members of the board of trustees shall be indefinite and shall continue until a vacancy occurs in one of the board of trustee member positions. Board of trustee members shall not be compensated for their services, but shall be reimbursed for any expenses actually and necessarily incurred as a result of the performance of their duties in their capacity as board of trustee members. The municipality shall perform whatever services are necessary to administer the trust fund. When all obligations of the trust fund are paid, the balance of the assets remaining in the trust fund shall revert to the municipality for expenditure for law enforcement or firefighting purposes, whichever is applicable.
- (4) The financial requirements of the trust fund and the minimum obligation of the municipality with respect to the trust fund shall be determined in accordance with sections 69.77, 356.215, and 356.216 until the unfunded accrued liability of the trust fund is fully amortized in accordance with section 69.77, subdivision 4. The municipality shall provide in its annual budget for at least the aggregate amount of service pensions, disability benefits, survivorship benefits, and refunds which are projected as payable for the following calendar year, as determined by the board of trustees of the trust fund, less the amount of assets in the trust fund as of the end of the

Repealed Minnesota Statutes: S0489-2

most current calendar year for which figures are available, valued pursuant to section 356.20, subdivision 4, if the difference between those two figures is a positive number.

- (5) In calculating the amount of service pensions and other retirement benefits payable from the local relief association and in calculating the amount of any automatic postretirement increases in those service pensions and retirement benefits based on the salary paid or payable to active members or escalated in any fashion, the salary for use as the base for the service pension or retirement benefit calculation and the postretirement increase calculation for the local relief association shall be the salary for the applicable position as specified in the articles of incorporation or bylaws of the relief association as of the date immediately prior to the effective date of the modification of retirement coverage for newly hired personnel pursuant to subdivision 1, as the applicable salary is reset by the municipality periodically, irrespective of whether retirement coverage for persons holding the applicable position used in calculations is provided by the relief association or by the public employees police and fire fund. If for a local salaried firefighters relief association, the specified position no longer exists because of a reorganization of the fire department as a volunteer fire department, the percentage increase in the salary of the position of a top grade patrol officer in the police department of the municipality must be the basis for service pension and retirement benefit postretirement increase calculations.
- (6) If the modification of retirement coverage implemented pursuant to subdivision 1 is applicable to a local police relief association, the police state aid received by the municipality shall be disbursed pursuant to section 69.031, subdivision 5, clause (2)(c). If the modification of retirement coverage implemented pursuant to subdivision 1 is applicable to a local firefighters' relief association, the fire state aid received by the applicable municipality other than a city of the first class with a population of more than 300,000 shall be disbursed as the municipality at its option may elect. The municipality may elect: (a) to transmit the total fire state aid to the treasurer of the local relief association for immediate deposit in the special fund of the relief association; or (b) to apply the total fire state aid toward the employer contribution of the municipality to the public employees police and fire fund pursuant to section 353.65, subdivision 3; or (c) to allocate the total fire state aid proportionately between the special fund of the local relief association and employer contribution of the municipality to the public employees police and fire fund on the basis of the respective number of active full-time salaried firefighters receiving retirement coverage from each.
- (b) For a city of the first class with a population of more than 300,000, in addition, the city may elect to allot the appropriate portion of the total fire state aid to apply toward the employer contribution of the city to the public employees police and fire fund based on the covered salary of firefighters covered by the fund each payroll period and to transmit the balance to the firefighters relief association.
- Subd. 3. **Benefit increase for certain relief association members.** Notwithstanding any law to the contrary, any member of a local police or salaried firefighters relief association located in a municipality which has not adopted a municipal resolution retaining the local relief association under subdivision 1 shall be entitled to receive, after the effective date for the modification of pension coverage for newly employed personnel, a retirement annuity in addition to the service pension to which the member may be eligible upon retirement. The additional retirement annuity is payable for the life of the retired member. The additional retirement annuity is equal to one-half of one percent of the salary upon which the service pension is calculated payable on the date of termination of active service per year of service credit acquired in excess of 25 years of service credit. The retirement annuity under this subdivision is not subject to any postretirement increases granted under increases in the salary payable to a certain employment category or in the salaries payable to active members or be in any other manner escalated or increased after retirement.
- Subd. 4. Automatic postretirement adjustments for certain newly employed, active and retired members. (a) Notwithstanding any provision of law, municipal charter, municipal ordinance or resolution, or relief association articles of incorporation or bylaws to the contrary, any person who meets one of the following requirements for entitlement shall be entitled to an annual automatic postretirement adjustment in the amount of the service pension calculated pursuant to paragraph (b). A person meets the requirements for entitlement if:
- (1) the person is a member of a covered local police or salaried firefighters relief association enumerated in paragraph (c), commences receiving a service pension at an age no earlier than attaining the age of 55 years, and has met all applicable requirements for entitlement to a service pension specified in the applicable laws and relief association articles of incorporation or bylaws governing the local relief association;
- (2) the person is a retired member of a covered local police or salaried firefighters relief association enumerated in paragraph (c), retired on a service pension after June 15, 1980, after

Repealed Minnesota Statutes: S0489-2

attaining the age of at least 50 years but prior to attaining the age of 55 years, and attains the age of 55 years subsequent to retirement; or

- (3) the person was a retired member on June 15, 1980, of a covered local police or salaried firefighters' relief association or retirement trust fund enumerated in paragraph (c), is receiving a service pension, and has attained the age of at least 55 years.
- (b) Any person who meets the requirements specified in paragraph (a), clause (1) or (2), shall be entitled to receive the annual automatic postretirement adjustment on the January 1 next following the date upon which the requirements for entitlement are met but in no event prior to the date upon which the person attains the age of 55 years. Any person who meets the requirements specified in paragraph (a), clause (3), shall be entitled to receive the adjustment on the January 1 next following the date upon which the person attains the age of 55 years. The amount of the adjustment shall be determined by the board of trustees of the local relief association on or before December 1 annually and the adjustment shall accrue each year as of January 1 next following the determination date. The adjustment shall be first payable with the service pension payment made for January. Each adjustment in the amount of the service pension shall be based on the percentage increase in the salary upon which retirement coverage is credited during the prior year subject to the limitation provided for in this paragraph.

The percentage increase in the salary shall be applied to the amount of service pension payable to the person for the month immediately prior to the month in which the determination is made. The maximum percentage increase shall not exceed 3-1/2 percent in any year and any increase in the salary level of the applicable position used to govern the determination of adjustments in excess of 3-1/2 percent in any year shall not carry over to or be used to calculate the rate of salary increase for any succeeding year in which the increase in the salary of the applicable position does not exceed 3-1/2 percent.

- (c) The provisions of this subdivision shall apply to the active members and retired members of a local police or salaried firefighters relief association or to the retired members of a retirement trust fund contained in the following enumeration of covered relief associations:
 - (1) Buhl Police Relief Association;
 - (2) Eveleth joint retired police and firefighters retirement trust fund;
 - (3) Moorhead Firefighters Relief Association;
 - (4) Moorhead Police Relief Association;
 - (5) Thief River Falls police retirement trust fund;
 - (6) Virginia Firefighters Relief Association;
 - (7) West St. Paul Police Relief Association.

423A.02 LOCAL POLICE AND FIREFIGHTERS RELIEF ASSOCIATION AMORTIZATION STATE AID.

Subd. 1a. **Supplementary amortization state aid.** In addition to the amortization state aid under subdivision 1, there is a distribution of supplementary amortization state aid among those municipalities that receive amortization state aid under subdivision 1. The amount of the distribution is that proportion of the appropriation that the unfunded actuarial accrued liability of each relief association bears to the total unfunded actuarial accrued liabilities of all relief associations as reported in the December 31, 1983, actuarial valuations of the relief associations receiving amortization state aid under subdivision 1. Money under this subdivision must be distributed at the same time that fire and police state aid is distributed under section 69.021.

423A.04 ALTERNATIVE BENEFIT INCREASE.

Notwithstanding any provision of law to the contrary, and in lieu of the benefit increase provided for in section 423A.01, subdivision 3, the governing body of a participating municipality, except the city of Minneapolis, is authorized by resolution approved by a majority of the members of the governing body, following consideration of an actuarial analysis of the effect of any change, to increase the service pension or retirement benefits provided by or modify any provision of the benefit plan of either a police relief association or a salaried firefighters' relief association unless the municipality elects to retain the local relief association by the adoption of a municipal resolution pursuant to section 423A.01, subdivision 1. The total cost of any increase or modification, including amortization by December 31, 2010, shall not exceed 1.26 percent of covered payroll.

423A.05 CLARIFICATION OF INTERPRETATION ON AUTHORITY TO APPROVE ALTERNATIVE BENEFIT INCREASE.

Repealed Minnesota Statutes: S0489-2

No provision of section 645.021, or Laws 1980, chapter 607, article XV, section 7 or 25, shall be construed as authorizing any municipality which approved an alternative benefit increase for a local police or salaried firefighters' relief association located in the municipality and which complied with section 645.021, subdivision 3, to amend, modify, or revoke that approval or substitute a different alternative benefit increase for the alternative benefit increase which was previously approved.

423A.07 ADDITIONS TO BOARD.

- (a) Notwithstanding any other law, each local police and salaried firefighters' relief association may amend its bylaws and its articles of incorporation, as necessary, to provide for the inclusion of retirees on its board.
- (b) Upon adoption of the amendments, the relief association must file a copy of the amended bylaws with the executive director of the Legislative Commission on Pensions and Retirement. A relief association amending its articles of incorporation must comply with any statutory requirements pertaining to the filing of amended articles of incorporation.

423A.10 POWERS OF CITY OFFICIALS LIMITED.

When the governing board of a firefighters or police relief association in any city shall determine what is necessary to adequately protect, maintain and administer the firefighters or police relief association, neither the governing body of the city nor any official of the city may thereafter deny adequate representation therefor. Any duties performed by any member of the association pursuant to the determination under this section are deemed to be fire or police duties.

423A.11 RECOMPUTATION OF A DISABILITY BENEFIT AS A SERVICE PENSION.

Subdivision 1. **Termination of disability benefit.** The disability benefit of any disabled member of a local police or salaried firefighters relief association, whichever is applicable, shall terminate when the disabled member attains:

- (1) the minimum age for the receipt of a service pension specified in the articles of incorporation or the bylaws of the relief association, if the disabled member has credit for at least the number of years of service for active duty which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit; or
- (2) the age attained by the disabled member when the total number of years of service credited for active duty and of years of receipt of a disability benefit equals the number of years of service credit which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit, if the disabled member has credit for less than the number of years of service for active duty which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit when the disabled member attains the minimum age for the receipt of a service pension specified in the articles of incorporation or the bylaws of the relief association.
- Subd. 2. Amount of disability benefit recomputed as a service pension. After the disability benefit terminates, the disabled member shall be deemed to be a service pensioner and shall be entitled to receive a service pension in an amount equal to the disability benefit without any benefit offset required pursuant to any applicable provision of law, articles of incorporation or bylaws which was payable by the relief association immediately prior to the date when the disability benefit terminated pursuant to this section or the service pension otherwise payable based on the service credit for active duty of the person, whichever amount is greater. The disability benefit recomputed as a service pension shall be subject to any annual automatic postretirement adjustments or escalation applicable to any other service pension payable by the relief association.
- Subd. 3. **Limitation on disability benefit coverage.** No relief association member who has attained the age and acquired the service credit for termination of a disability benefit specified in subdivision 1 shall be eligible for a disability benefit after that date. If a relief association member who is ineligible for a disability benefit solely pursuant to the limitation set forth in this subdivision becomes permanently unable to perform the duties of a police officer or a firefighter, whichever is applicable, by virtue of a medically determinable illness or injury, the member shall be eligible to a service pension in an amount equal to the amount of the disability benefit which would have

Repealed Minnesota Statutes: S0489-2

been paid had the person been entitled to a disability benefit, or the amount of the service pension otherwise payable based on the service credit for active duty of the person, whichever is greater.

423A.12 SERVICE CREDIT FOR PERIODS OF DISABILITY.

- (a) If the articles of incorporation or bylaws of a local police or salaried firefighters' relief association, whichever is applicable, so provide, any relief association member who received a disability benefit from the relief association on account of a medically determinable illness or injury which was at the time of the determination of the disability expected to be of permanent duration and who returned to active employment as a police officer or firefighter, whichever is applicable, shall be entitled to receive service credit toward the calculation of a service pension for the period or periods of the receipt of a disability benefit.
- (b) The maximum service credit which a relief association member may obtain pursuant to this subdivision shall be that amount of service credit which, when added to the service credit of the member for active duty, equals the amount of service credit which would entitle the member to a service pension in an amount equal to the amount of the disability benefit provided by the relief association.

423A.13 LESS HAZARDOUS DUTY EMPLOYMENT FOR MARGINALLY DISABLED POLICE OFFICERS OR FIREFIGHTERS.

Every city in which a local police or salaried firefighters' relief association is located shall make every reasonable attempt to provide less hazardous duty employment positions for marginally or less severely disabled police officers or firefighters, which is applicable, in the police department or in the fire department, whichever is applicable, with the same compensation, fringe benefits and other terms and conditions of employment as the person would have otherwise received currently as a regularly employed police officer or firefighter, which is applicable, of the same rank and experience.

423A.14 OFFSETS FROM DISABILITY BENEFITS.

Subdivision 1. **Occurrence of offsets.** If a police officer or firefighter, whichever is applicable, who is a member of a local police or salaried firefighters' relief association becomes disabled and is entitled to receive a disability benefit from the relief association and the disabled person is also entitled to receive benefits pursuant to the workers' compensation law by virtue of that disability, and the total of the disability benefit and the workers' compensation benefits exceeds the salary which the disabled person received as of the date of the disability or the salary currently payable to the same employment position or an employment position which is substantially similar to the employment position which the person held as of the date of the disability, whichever is greater, then the disability benefit of that person which is otherwise payable shall be reduced to that amount which, when added to the workers' compensation benefits, after deducting any amounts payable as attorney fees, medical benefits or rehabilitation benefits, does not exceed the salary which the person received as of the date of the disability or the salary currently payable to the same employment position or an employment position which is substantially similar to the employment position which the person held as of the date of the disability, whichever is greater.

- Subd. 2. **Limitation.** In no event shall the reduced disability benefit payable pursuant to the requirements of subdivision 1 exceed the amount of the disability benefit otherwise payable by the relief association without reference to subdivision 1 pursuant to the applicable statutes, special laws, articles of incorporation and bylaws.
- Subd. 3. **No offset for recomputed disability benefit.** No offset pursuant to this section shall be required after a disability benefit is recomputed as a service pension pursuant to section 423 A 11
- Subd. 4. **Reporting requirement.** Monthly, each city in which a local police or salaried firefighters relief association is located shall notify the secretary of the relief association of the amounts payable to disabled police officers or firefighters, whichever is applicable, during the month pursuant to the workers' compensation law.
- Subd. 5. **Offset inapplicable in certain instances.** If any reduction of benefits payable pursuant to the workers' compensation law by virtue of the receipt of a disability benefit from a local police or salaried firefighters relief association is required pursuant to legislation enacted by the 1982 regular session or by a subsequent regular or special session, the provisions of this

Repealed Minnesota Statutes: S0489-2

section shall not be applicable to any disability benefit recipient or any local police or salaried firefighters relief association.

423A.15 EFFECT OF PROVISIONS FOR EXISTING DISABILITY BENEFIT RECIPIENTS.

The provisions of section 423A.06 shall apply to any member of any applicable local relief association in active service on or after March 24, 1982. The provisions of section 423A.11 shall apply to any person receiving a disability benefit from a local relief association on or after March 24, 1982. The provisions of section 423A.12 shall apply to any person who returns to active employment as a police officer or firefighter, whichever is applicable, after receipt of a permanent disability benefit. The provisions of section 423A.14 shall apply to any person who first commences receipt of a disability benefit after March 24, 1982.

423A.16 EXEMPTION FROM ASSIGNMENTS; PROCESS.

Notwithstanding any law to the contrary, none of the money, annuities, or other benefits provided by any police or salaried firefighters relief association shall be assignable in law or in equity, nor be subject to execution, levy, attachment, garnishment, or other legal process, except as provided in section 518.58, 518.581, or 518A.53.

423A.17 CONTINUATION OF SURVIVING SPOUSE BENEFITS UPON REMARRIAGE.

- (a) Notwithstanding a provision of law, article of incorporation, or bylaw governing a local police or salaried firefighters relief association to the contrary, the governing body of a municipality may mandate the applicable local police or salaried firefighters relief association to provide that a surviving spouse benefit is payable for the life of the surviving spouse and remains payable even in the event of the remarriage of the surviving spouse.
- (b) If the surviving spouse benefit change described in paragraph (a) is made, the change applies to a surviving spouse benefit payable on the effective date of the change and to the potential surviving spouses of all active, deferred, or retired members of the relief association who have that status on the effective date of the change.

423A.19 REDUCED VESTING REQUIREMENT.

Subdivision 1. **Reduced vesting.** Notwithstanding any law to the contrary, for a police or salaried firefighters relief association that implements the provision with municipal approval as provided in subdivision 4, a person with at least five years of service credited by the relief association is entitled, upon termination of active service and reaching at least the required normal retirement age, to receive a pro rata monthly service pension. The pro rata monthly service pension must be calculated in the amount and manner specified by the board of trustees, but not to exceed that portion of the service pension payable upon meeting the minimum age and years of service requirements that bears the same relationship that the person's actual years and portions of years of service bear to the minimum service requirement.

- Subd. 2. **Survivor benefit coverage.** A person entitled to or receiving a reduced vesting service pension as provided in subdivision 1 is entitled to surviving spouse benefit coverage, surviving child benefit coverage, or both, if all other qualification requirements are met. The survivor benefit must be calculated in the amount and manner specified by the board of trustees, but not to exceed that portion of survivor benefit payable to a survivor of a deceased retired member who had met the minimum years of service requirement that bears the same relationship that the actual years and portions of years of service of the person bear to the minimum service requirement for a service pension.
- Subd. 3. **Postretirement adjustments.** A reduced vesting service pension as provided in subdivision 1 or a survivor benefit payable on behalf of a deceased person entitled to or receiving a reduced vesting service pension as provided in subdivision 2 is entitled to postretirement adjustments if the comparable pension or benefit payable when the full minimum service requirement has been met is subject to postretirement adjustments. The postretirement adjustment must be the same percentage increase as the postretirement adjustment for the comparable pension or benefit payable when the full minimum service requirement has been met.
- Subd. 4. **Implementation.** The reduced vesting requirement must be implemented by a local relief association through an amendment to the bylaws of the relief association with approval by the governing body of the municipality as required by section 69.77, subdivision 11. The bylaw amendment may not be effective until a certified copy of it and the municipal approval has been filed by the municipal clerk with the executive director of the Legislative Commission on Pensions and Retirement, the state auditor, and the secretary of state.

For purposes of this section, "laid off" means terminated from employment with the fire department because of a shortage of funds or curtailment of service or for any other reason not reflecting discredit on the member beyond the member's control.

Repealed Minnesota Statutes: S0489-2

- (b) The retirement benefit is to commence at the later of either the minimum age for retirement or the date at which the member would have accumulated the minimum number of years of service for retirement if the member had remained on duty.
- (c) The pro rata benefit shall be calculated by multiplying the amount of the benefit payable to a member who met the minimum age and years of service requirements for a normal pension by the ratio of the laid off member's actual years of service to the minimum years of service required for retirement. The initial benefit payable shall be subject to the same postretirement adjustments as other benefits payable from the relief association.

No relief association shall reduce the number of municipal representatives on its board by reason of this subdivision.
- (b) Notwithstanding any law which designates certain officials as ex officio members of a board of trustees, the municipality may appoint the same number of members as it is authorized to have on the board in the laws governing the relief association as of March 20, 1986, but the municipality may appoint to those positions any individuals it so chooses.
- (c) Whenever the board of trustees appoints an investment subcommittee at least one of the municipal representatives must be a member of that investment subcommittee.
- Subd. 3. **Public officers.** The officers and trustees of a local relief association are public officers for purposes of sections 471.87 and 609.43.

- (b) Each member of the board is a fiduciary and shall undertake all fiduciary activities in accordance with the standard of care of section 11A.09, and in a manner consistent with chapter 356A. No fiduciary of a relief association shall cause a relief association to engage in a transaction if the fiduciary knows or should know that a transaction constitutes one of the following direct or indirect transactions:

- (2) lending of money or other extension of credit between the relief association and a board member or member of the relief association;
- (3) furnishing of goods, services, or facilities between the relief association and a board member; or

If an institution with trustee powers is hired to administer the financial affairs of the relief association, an official designated by the municipality must approve the trustee agreement and shall countersign authorizations for disbursements of at least \$5,000.
