15.17	Subdivision 1. Establishment. The Minnesota Health Board is established to
15.18	promote the delivery of high quality, coordinated health care services that enhance health;
15.19	prevent illness, disease, and disability; slow the progression of chronic diseases; and
15.20	improve personal health management. The board shall administer the Minnesota Health
15.21	Plan. The board shall oversee:
15.22	(1) the Office of Health Quality and Planning under section 62V.09; and
15.23	(2) the Minnesota Health Fund under section 62V.19.
15.24	Subd. 2. Board composition. The board shall consist of 15 members, including
15.25	a representative selected by each of the five rural regional health planning boards under
15.26	section 62V.08 and three representatives selected by the metropolitan regional health
15.27	planning board under section 62V.08. These members shall select the following:
15.28	(1) one patient member and one employer member appointed by the board members;
15.29	and
15.30	(2) five providers appointed by the board members that include one physician, one
15.31	registered nurse, one mental health provider, one dentist, and one facility director.
15.32	Subd. 3. Term and compensation; selection of chair. Board members shall
15.33	serve four years. Board members shall set the board's compensation not to exceed the

16.7	(5) provide technical assistance to the regional boards established under section
16.8	<u>62V.08;</u>
16.9	(6) conduct necessary investigations and inquiries and require the submission of
16.10	information, documents, and records the board considers necessary to carry out the
16.11	purposes of this chapter;
16.12	(7) establish a process for the board to receive the concerns, opinions, ideas, and
16.13	recommendations of the public regarding all aspects of the Minnesota Health Plan and
16.14	the means of addressing those concerns;
16.15	(8) conduct other activities the board considers necessary to carry out the purposes
16.16	of this chapter;
16.17	(9) collaborate with the agencies that license health facilities to ensure that facility
16.18	performance is monitored and that deficient practices are recognized and corrected in a

16.22	benefit from their medical decisions outside of board reimbursement;
16.23	(12) establish conflict of interest standards related to pharmaceutical marketing to
16.24	providers; and
16.25	(13) provide financial help and assistance in retraining and job placement to
16.26	Minnesota workers who may be displaced because of the administrative efficiencies of the
16.27	Minnesota Health Plan.
16.28	There is currently a serious shortage of providers in many health care professions,
16.29	from medical technologists to registered nurses, and many potentially displaced health
16.30	administrative workers already have training in some medical field. To alleviate these
16.31	shortages, the dislocated worker support program should emphasize retraining and
