(b) If a child becomes eligible for retirement survivor's disability insurance, veteran's benefits, railroad retirement benefits, or black lung benefits, after the initial amount of the payment under Northstar Care for Children is finalized, the permanent caregiver shall contact the commissioner to redetermine the payment under Northstar Care for Children. If the monthly payment changes by \$75 or more, even if the change occurs incrementally over the duration of the term of the adoption assistance or Northstar kinship assistance agreement, the monthly payment under Northstar Care for Children must be adjusted without further consent to reflect the amount of the increase or decrease in the offset amount. Any subsequent change to the payment must be reported and handled in the same manner. A change of monthly payments of less than \$75 is not a permissible reason to renegotiate the adoption assistance or Northstar kinship assistance agreement under section 256N.25, subdivision 3. The commissioner shall review and revise the limit at which the adoption assistance or Northstar kinship assistance agreement must be renegotiated in accordance with subdivision 9.

The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. The determination by the commissioner is final and not subject to appeal. Exceptions to the moratorium include:

home. For purposes of this clause, there is a presumption that a foster care or community residential setting license is required for services provided to three or more people in a dwelling unit when the setting is controlled by the provider. A license holder subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2018. This exception is available when:

- (i) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and
- (ii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the unlicensed setting as determined by the lead agency-; or
- (6) new foster care licenses or community residential setting licenses for people receiving customized living or 24-hour customized living services under the brain injury or community access for disability inclusion waiver plans under section 256B.49 and residing in the customized living setting before July 1, 2022, for which a license is required. A customized living service provider subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2023. This exception is available when:
- (i) the person's customized living services are provided in a customized living service setting serving four or fewer people under the brain injury or community access for disability inclusion waiver plans under section 256B.49 in a single-family home operational on or before June 30, 2021. Operational is defined in section 256B.49, subdivision 28;
- (ii) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and
- (iii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the customized living setting as determined by the lead agency.

- (c) When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to section 256B.49, subdivision 15, paragraph (f), or the adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for adult foster care settings.

- (e) A resource need determination process, managed at the state level, using the available reports required by section 144A.351, and other data and information shall be used to determine where the reduced capacity determined under section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity, or location to improve services, increase the independence of residents, and better meet needs identified by the long-term services and supports reports and statewide data and information.
- (f) At the time of application and reapplication for licensure, the applicant and the license holder that are subject to the moratorium or an exclusion established in paragraph (a) are required to inform the commissioner whether the physical location where the foster care will be provided is or will be the primary residence of the license holder for the entire period of licensure. If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

that are covered by a federally approved home and community-based services waiver, as authorized under chapter 256S or section 256B.092 or 256B.49, must inform the human services licensing division that the license holder provides or intends to provide these waiver-funded services.

- (h) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. The license holder's request for reconsideration must be in writing. If mailed, the request for reconsideration must be postmarked and sent to the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds. If a request for reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

Facilities that serve only private pay clients are exempt from the moratorium described in this paragraph. The commissioner has the authority to manage existing statewide capacity for children's residential treatment services subject to the moratorium under this paragraph and may issue an initial license for such facilities if the initial license would not increase the statewide capacity for children's residential treatment services subject to the moratorium under this paragraph.

- (e) Payment for mental health case management provided by Indian health services or by agencies operated by Indian tribes may be made according to this section or other relevant federally approved rate setting methodology.
- (f) Payment for mental health case management provided by vendors who contract with a county or Indian tribe shall be based on a monthly rate negotiated by the host county or tribe must be calculated in accordance with section 256B.076, subdivision 2. Payment for mental health case management provided by vendors who contract with a tribe must be based on a monthly rate negotiated by the tribe. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county or tribe may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county or tribe, except to reimburse the county or tribe for advance funding provided by the county or tribe to the vendor.
- (g) If the service is provided by a team which includes contracted vendors, tribal staff, and county or state staff, the costs for county or state staff participation in the team shall be included in the rate for county-provided services. In this case, the contracted vendor, the tribal agency, and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, each entity must document, in the recipient's file, the need for team case management and a description of the roles of the team members.
- (h) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for mental health case management shall be provided by the recipient's county of responsibility, as defined in sections 256G.01 to 256G.12, from sources other than federal funds or funds used to match other federal funds. If the service is provided by a tribal agency, the nonfederal share, if any, shall be provided by the recipient's tribe. When this service is paid by the state without a federal share through fee-for-service, 50 percent of the cost shall be provided by the recipient's county of responsibility.
- (i) Notwithstanding any administrative rule to the contrary, prepaid medical assistance and MinnesotaCare include mental health case management. When the service is provided through prepaid capitation, the nonfederal share is paid by the state and the county pays no share.
- (j) The commissioner may suspend, reduce, or terminate the reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of

Sec. 11. [256B.076] CASE MANAGEMENT SERVICES.

- Subdivision 1. Generally. (a) It is the policy of this state to ensure that individuals on medical assistance receive cost-effective and coordinated care, including efforts to address the profound effects of housing instability, food insecurity, and other social determinants of health. Therefore, subject to federal approval, medical assistance covers targeted case management services as described in this section.
- (b) The commissioner, in collaboration with tribes, counties, providers, and individuals served, must propose further modifications to targeted case management services to ensure a program that complies with all federal requirements, delivers services in a cost-effective

and efficient manner, creates uniform expectations for targeted case management services, 48.1 addresses health disparities, and promotes person- and family-centered services. 48.2 48.3 Subd. 2. Rate setting. (a) The commissioner must develop and implement a statewide rate methodology for any county that subcontracts targeted case management services to a 48.4 48.5 vendor. On January 1, 2022, or upon federal approval, whichever is later, a county must 48.6 use this methodology for any targeted case management services paid by medical assistance and delivered through a subcontractor. 48.7 (b) In setting this rate, the commissioner must include the following: 48.8 (1) prevailing wages; 48.9 (2) employee-related expense factor; 48.10 (3) paid time off and training factors; 48.11 (4) supervision and span of control; 48.12 48.13 (5) distribution of time factor; (6) administrative factor; 48.14 (7) absence factor; 48.15 (8) program support factor; and 48.16 (9) caseload sizes as described in subdivision 3. 48.17 (c) A county may request that the commissioner authorize a rate based on a lower caseload 48.18 size when a subcontractor is assigned to serve individuals with needs, such as homelessness 48.19 or specific linguistic or cultural needs, that significantly exceed other eligible populations. 48.20 A county must include the following in the request: 48.21 48.22 (1) the number of clients to be served by a full-time equivalent staffer; (2) the specific factors that require a case manager to provide significantly more hours 48.23 of reimbursable services to a client; and 48.24 48.25 (3) how the county intends to monitor case size and outcomes. (d) The commissioner must adjust only the factor for caseload in paragraph (b), clause 48.26 (9), in response to a request under paragraph (c). 48.27 Subd. 3. Caseload sizes. section 256B.076, subdivision 2. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county, except to reimburse the county for advance funding provided by the county to the vendor.

- (d) If the service is provided by a team that includes contracted vendors and county staff, the costs for county staff participation on the team shall be included in the rate for county-provided services. In this case, the contracted vendor and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, the county must document, in the recipient's file, the need for team targeted case management and a description of the different roles of the team members.
- (e) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for targeted case management shall be provided by the recipient's county of responsibility, as defined in sections 256G.01 to 256G.12, from sources other than federal funds or funds used to match other federal funds.
- (f) The commissioner may suspend, reduce, or terminate reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, is responsible for any federal disallowances. The county may share this responsibility with its contracted vendors.
- (g) The commissioner shall set aside five percent of the federal funds received under this section for use in reimbursing the state for costs of developing and implementing this section.
- (h) Payments to counties for targeted case management expenditures under this section shall only be made from federal earnings from services provided under this section. Payments to contracted vendors shall include both the federal earnings and the county share.

(d) Payment for case management provided by county or tribal social services contracted vendors shall be based on a monthly rate negotiated by the host county or tribal social services must be calculated in accordance with section 256B.076, subdivision 2. Payment for case management provided by vendors who contract with a tribe must be based on a monthly rate negotiated by the tribe. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county or tribal social services may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county or tribal social services, except to reimburse the county or tribal social services for advance funding provided by the county or tribal social services to the vendor.

(e) If the service is provided by a team that includes contracted vendors and county or tribal social services staff, the costs for county or tribal social services staff participation in the team shall be included in the rate for county or tribal social services provided services. In this case, the contracted vendor and the county or tribal social services may each receive separate payment for services provided by each entity in the same month. To prevent duplication of services, each entity must document, in the recipient's file, the need for team case management and a description of the roles and services of the team members.

Separate payment rates may be established for different groups of providers to maximize reimbursement as determined by the commissioner. The payment rate will be reviewed annually and revised periodically to be consistent with the most recent time study and other data. Payment for services will be made upon submission of a valid claim and verification of proper documentation described in subdivision 7. Federal administrative revenue earned through the time study, or under paragraph (c), shall be distributed according to earnings, to counties, reservations, or groups of counties or reservations which have the same payment rate under this subdivision, and to the group of counties or reservations which are not certified providers under section 256F.10. The commissioner shall modify the requirements set out in Minnesota Rules, parts 9550.0300 to 9550.0370, as necessary to accomplish this.

Sec. 17. Minnesota Statutes 2020, section 256B.0949, is amended by adding a subdivision to read:

Subd. 16a. **Background studies.** The requirements for background studies under this section shall be met by an early intensive developmental and behavioral intervention services agency through the commissioner's NETStudy system as provided under sections 245C.03, subdivision 15, and 245C.10, subdivision 17.

The amount of payment basis must be reduced to reflect all discount amounts applied to the charge by any third-party provider/insurer agreement or contract for submitted charges to medical assistance programs. The net submitted charge may not be greater than the patient liability for the service. The professional dispensing fee shall be \$10.48 \$9.91 for prescriptions filled with legend drugs meeting the definition of "covered outpatient drugs" according to United States Code, title 42, section 1396r-8(k)(2). The professional dispensing fee for prescriptions filled with over-the-counter drugs meeting the definition of covered outpatient drugs shall be \$10.48 \$9.91 for dispensed quantities equal to or greater than the number of units contained in the manufacturer's original package. The professional dispensing fee shall be prorated based on the percentage of the package dispensed when the pharmacy dispenses a quantity less than the number of units contained in the manufacturer's original package. The pharmacy dispensing fee for prescribed over-the-counter drugs not meeting the definition of covered outpatient drugs shall be \$3.65 for quantities equal to or greater than the number of units contained in the manufacturer's original package and shall be prorated based on the percentage of the package dispensed when the pharmacy dispenses a quantity less than the number of units contained in the manufacturer's original package. The National Average Drug Acquisition Cost (NADAC) shall be used to determine the ingredient cost of a drug. For drugs for which a NADAC is not reported, the commissioner shall estimate the ingredient cost at the wholesale acquisition cost minus two percent. The ingredient cost of a drug for a provider participating in the federal 340B Drug Pricing Program shall be either the 340B Drug Pricing Program ceiling price established by the Health Resources and Services Administration or NADAC, whichever is lower. Wholesale acquisition cost is defined as the manufacturer's list price for a drug or biological to wholesalers or direct purchasers in

- (b) Pharmacies dispensing prescriptions to residents of long-term care facilities using an automated drug distribution system meeting the requirements of section 151.58, or a packaging system meeting the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return of unused drugs to the pharmacy for reuse, may employ retrospective billing for prescription drugs dispensed to long-term care facility residents. A retrospectively billing pharmacy must submit a claim only for the quantity of medication used by the enrolled recipient during the defined billing period. A retrospectively billing pharmacy must use a billing period not less than one calendar month or 30 days.
- (c) A pharmacy provider using packaging that meets the standards set forth in Minnesota Rules, part 6800.2700, is required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective billing. The commissioner may permit the drug clozapine to be dispensed in a quantity that is less than a 30-day supply.
- (d) If a pharmacy dispenses a multisource drug, the ingredient cost shall be the NADAC of the generic product or the maximum allowable cost established by the commissioner unless prior authorization for the brand name product has been granted according to the criteria established by the Drug Formulary Committee as required by subdivision 13f, paragraph (a), and the prescriber has indicated "dispense as written" on the prescription in a manner consistent with section 151.21, subdivision 2.
- (e) The basis for determining the amount of payment for drugs administered in an outpatient setting shall be the lower of the usual and customary cost submitted by the provider, 106 percent of the average sales price as determined by the United States Department of Health and Human Services pursuant to title XVIII, section 1847a of the federal Social Security Act, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. If average sales price is unavailable, the amount of payment must be lower of the usual and customary cost submitted by the provider, the wholesale acquisition cost, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. 340B Drug Pricing Program by 28.6 percent. The payment for drugs administered in an outpatient setting shall be made to the administering facility or practitioner. A retail or specialty pharmacy dispensing a drug for administration in an outpatient setting is not eligible for direct reimbursement.

- (f) The commissioner may establish maximum allowable cost rates for specialty pharmacy products that are lower than the ingredient cost formulas specified in paragraph (a). The commissioner may require individuals enrolled in the health care programs administered by the department to obtain specialty pharmacy products from providers with whom the commissioner has negotiated lower reimbursement rates. Specialty pharmacy products are defined as those used by a small number of recipients or recipients with complex and chronic diseases that require expensive and challenging drug regimens. Examples of these conditions include, but are not limited to: multiple sclerosis, HIV/AIDS, transplantation, hepatitis C, growth hormone deficiency, Crohn's Disease, rheumatoid arthritis, and certain forms of cancer. Specialty pharmaceutical products include injectable and infusion therapies, biotechnology drugs, antihemophilic factor products, high-cost therapies, and therapies that require complex care. The commissioner shall consult with the Formulary Committee to develop a list of specialty pharmacy products subject to maximum allowable cost reimbursement. In consulting with the Formulary Committee in developing this list, the commissioner shall take into consideration the population served by specialty pharmacy products, the current delivery system and standard of care in the state, and access to care issues. The commissioner shall have the discretion to adjust the maximum allowable cost to prevent access to care issues.
- (g) Home infusion therapy services provided by home infusion therapy pharmacies must be paid at rates according to subdivision 8d.
- (h) The commissioner shall contract with a vendor to conduct a cost of dispensing survey for all pharmacies that are physically located in the state of Minnesota that dispense outpatient drugs under medical assistance. The commissioner shall ensure that the vendor has prior experience in conducting cost of dispensing surveys. Each pharmacy enrolled with the department to dispense outpatient prescription drugs to fee-for-service members must respond to the cost of dispensing survey. The commissioner may sanction a pharmacy under section 256B.064 for failure to respond. The commissioner shall require the vendor to measure a single statewide cost of dispensing for all responding pharmacies to measure the mean, mean weighted by total prescription volume, mean weighted by medical assistance prescription volume, median, median weighted by total prescription volume, and median weighted by total medical assistance prescription volume. The commissioner shall post a

The commissioner shall provide a summary of the results of each cost of dispensing survey and provide recommendations for any changes to the dispensing fee to the chairs and ranking members of the legislative committees with jurisdiction over medical assistance pharmacy reimbursement.

- Sec. 7. Minnesota Statutes 2020, section 256B.0625, subdivision 18, is amended to read:
 - Subd. 18. Bus Public transit or taxicab transportation. (a) To the extent authorized by rule of the state agency, medical assistance covers the most appropriate and cost-effective form of transportation incurred by any ambulatory eligible person for obtaining nonemergency medical care.
 - (b) The commissioner may provide a monthly public transit pass to recipients who are well-served by public transit for the recipient's nonemergency medical transportation needs. Any recipient who is eligible for one public transit trip for a medically necessary covered service may select to receive a transit pass for that month. Recipients who do not have any transportation needs for a medically necessary service in any given month are not eligible for a transit pass that month. The commissioner shall not require recipients to select a monthly transit pass if the recipient's transportation needs cannot be served by public transit systems. Recipients who receive a monthly transit pass are not eligible for other modes of transportation, unless an unexpected need arises that cannot be accessed through public transit.

Services for which there is a federal maximum allowable payment shall be paid at the lower of (1) submitted charge, or (2) the federal maximum allowable payment. Total aggregate payment for outpatient hospital facility fee services shall not exceed the Medicare upper limit. If it is determined that a provision of this section conflicts with existing or future requirements of the United States government with respect to federal financial participation in medical assistance, the federal requirements prevail. The commissioner may, in the aggregate, prospectively reduce payment rates to avoid reduced federal financial participation resulting from rates that are in excess of the Medicare upper limitations.

Effective for services provided on or after July 1, 2015, rates established for critical access hospitals under this paragraph for the applicable payment year shall be the final payment and shall not be settled to actual costs. Effective for services delivered on or after the first day of the hospital's fiscal year ending in 2017, the rate for outpatient hospital services shall be computed using information from each hospital's Medicare cost report as filed with Medicare for the year that is two years before the year that the rate is being computed. Rates shall be computed using information from Worksheet C series until the department finalizes the medical assistance cost reporting process for critical access hospitals. After the cost reporting process is finalized, rates shall be computed using information from Title XIX Worksheet D series. The outpatient rate shall be equal to ancillary cost plus outpatient cost, excluding costs related to rural health clinics and federally qualified health clinics, divided by ancillary charges plus outpatient charges, excluding charges related to rural health clinics and federally qualified health clinics.
- (c) Effective for services provided on or after July 1, 2003, rates that are based on the Medicare outpatient prospective payment system shall be replaced by a budget neutral prospective payment system that is derived using medical assistance data. The commissioner shall provide a proposal to the 2003 legislature to define and implement this provision.

 When implementing prospective payment methodologies, the commissioner shall use general methods and rate calculation parameters similar to the applicable Medicare prospective payment systems for services delivered in outpatient hospital and ambulatory surgical center settings unless other payment methodologies for these services are specified in this chapter.

Subd. 3. Other standards; wheelchair securement; protected transport. (a) A special transportation service that transports individuals occupying wheelchairs is subject to the provisions of sections 299A.11 to 299A.17 concerning wheelchair securement devices. The commissioners of transportation and public safety shall cooperate in the enforcement of this section and sections 299A.11 to 299A.17 so that a single inspection is sufficient to ascertain compliance with sections 299A.11 to 299A.17 and with the standards adopted under this section. Representatives of the Department of Transportation may inspect wheelchair securement devices in vehicles operated by special transportation service providers to determine compliance with sections 299A.11 to 299A.17 and to issue certificates under section 299A.14, subdivision 4.

- (b) In place of a certificate issued under section 299A.14, the commissioner may issue a decal under subdivision 4 for a vehicle equipped with a wheelchair securement device if the device complies with sections 299A.11 to 299A.17 and the decal displays the information in section 299A.14, subdivision 4.
- (c) For vehicles designated as protected transport under section 256B.0625, subdivision 136.22 17, paragraph (h) (g), the commissioner of transportation, during the commissioner's inspection, shall check to ensure the safety provisions contained in that paragraph are in working order.

the commissioner has the final authority in decisions regarding the creation and realignment of individual county, tribal agency, or regional operations.

Subd. 2. **County** <u>and tribal agency</u> <u>proposals.</u> Each participating county <u>and tribal</u> agency shall develop and submit an annual staffing and funding proposal to the commissioner no later than April 30 of each year. Each proposal shall include, but not be limited to, the staffing and funding of the fraud prevention investigation program, a job description for investigators involved in the fraud prevention investigation program, and the organizational structure of the county <u>or tribal</u> agency unit, training programs for case workers, and the operational requirements which may be directed by the commissioner. The proposal shall be approved, to include any changes directed or negotiated by the commissioner, no later than June 30 of each year.

Subd. 3. **Department responsibilities.** The commissioner shall establish training programs which shall be attended by all investigative and supervisory staff of the involved county and tribal agencies. The commissioner shall also develop the necessary operational guidelines, forms, and reporting mechanisms, which shall be used by the involved county or tribal agencies. An individual's application or redetermination form for public assistance benefits, including child care assistance programs and medical care programs, must include an authorization for release by the individual to obtain documentation for any information on that form which is involved in a fraud prevention investigation. The authorization for release is effective for six months after public assistance benefits have ceased.

Subd. 4. **Funding.** (a) County <u>and tribal</u> agency reimbursement shall be made through the settlement provisions applicable to the Supplemental Nutrition Assistance Program (SNAP), MFIP, child care assistance programs, the medical assistance program, and other federal and state-funded programs.

(b) The commissioner will maintain program compliance if for any three consecutive month period, a county or tribal agency fails to comply with fraud prevention investigation program guidelines, or fails to meet the cost-effectiveness standards developed by the commissioner. This result is contingent on the commissioner providing written notice, including an offer of technical assistance, within 30 days of the end of the third or subsequent month of noncompliance. The county or tribal agency shall be required to submit a corrective action plan to the commissioner within 30 days of receipt of a notice of noncompliance. Failure to submit a corrective action plan or, continued deviation from standards of more than ten percent after submission of a corrective action plan, will result in denial of funding for each subsequent month, or billing the county or tribal agency for fraud prevention investigation (FPI) service provided by the commissioner, or reallocation of program grant

- Subd. 5. Child care providers; financial misconduct. (a) A county or tribal agency may conduct investigations of financial misconduct by child care providers as described in chapter 245E. Prior to opening an investigation, a county or tribal agency must contact the commissioner to determine whether an investigation under this chapter may compromise an ongoing investigation.
- (b) If, upon investigation, a preponderance of evidence shows a provider committed an 138.9 intentional program violation, intentionally gave the county or tribe materially false information on the provider's billing forms, provided false attendance records to a county, 138.11 tribe, or the commissioner, or committed financial misconduct as described in section 138 12 245E.01, subdivision 8, the county or tribal agency may suspend a provider's payment 138.13 pursuant to chapter 245E, or deny or revoke a provider's authorization pursuant to section 138.14 119B.13, subdivision 6, paragraph (d), clause (2), prior to pursuing other available remedies. 138.15 The county or tribe must send notice in accordance with the requirements of section 119B.161, subdivision 2. If a provider's payment is suspended under this section, the payment 138.17 suspension shall remain in effect until: (1) the commissioner, county, tribe, or a law 138.18 enforcement authority determines that there is insufficient evidence warranting the action 138.19 and a county, tribe, or the commissioner does not pursue an additional administrative remedy 138.20 under chapter 119B or 245E, or section 256.046 or 256.98; or (2) all criminal, civil, and 138.21 administrative proceedings related to the provider's alleged misconduct conclude and any 138.22 appeal rights are exhausted. 138.23
 - (c) For the purposes of this section, an intentional program violation includes intentionally making false or misleading statements; intentionally misrepresenting, concealing, or withholding facts; and repeatedly and intentionally violating program regulations under chapters 119B and 245E.
- (d) A provider has the right to administrative review under section 119B.161 if: (1) payment is suspended under chapter 245E; or (2) the provider's authorization was denied or revoked under section 119B.13, subdivision 6, paragraph (d), clause (2).

REVISOR

Nonemergency medical transportation providers must take clients to the health care provider using the most direct route, and must not exceed 30 miles for a trip to a primary care provider or 60 miles for a trip to a specialty care provider, unless the client receives authorization from the local agency administrator.

Nonemergency medical transportation providers may not bill for separate base rates for the continuation of a trip beyond the original destination. Nonemergency medical transportation providers must maintain trip logs, which include pickup and drop-off times, signed by the medical provider or client, whichever is deemed most appropriate, attesting to mileage traveled to obtain covered medical services. Clients requesting client mileage reimbursement must sign the trip log attesting mileage traveled to obtain covered medical services.

- (h) (g) The administrative agency shall use the level of service process established by the commissioner in consultation with the Nonemergency Medical Transportation Advisory Committee to determine the client's most appropriate mode of transportation. If public transit or a certified transportation provider is not available to provide the appropriate service mode for the client, the client may receive a onetime service upgrade.
 - (i) (h) The covered modes of transportation are:
- (1) client reimbursement, which includes client mileage reimbursement provided to clients who have their own transportation, or to family or an acquaintance who provides transportation to the client;
- 145.21 (2) volunteer transport, which includes transportation by volunteers using their own vehicle;
- 145.23 (3) unassisted transport, which includes transportation provided to a client by a taxicab 145.24 or public transit. If a taxicab or public transit is not available, the client can receive 145.25 transportation from another nonemergency medical transportation provider;
- 145.26 (4) assisted transport, which includes transport provided to clients who require assistance 145.27 by a nonemergency medical transportation provider;
 - (5) lift-equipped/ramp transport, which includes transport provided to a client who is dependent on a device and requires a nonemergency medical transportation provider with a vehicle containing a lift or ramp;
- 145.31 (6) protected transport, which includes transport provided to a client who has received 145.32 a prescreening that has deemed other forms of transportation inappropriate and who requires 145.33 a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety

146.4	and requires a nonemergency medical transportation provider with a vehicle that can transport
146.5	a client in a prone or supine position.
146.6	(j) The local agency shall be the single administrative agency and shall administer and

different providers within two consecutive quarters for services that are not paid 100 times
in a calendar month.

- (2) The alternate payment methodology rate is the mean of the payment per unit of the claim lines, with the top and bottom ten percent of claim lines, by payment per unit, excluded from the calculation of the mean.
- (3) The alternate payment methodology rate for the rate period will be added to the fee schedule on the first day of a calendar month or the first day of a calendar quarter if claims from more than one month were used to determine the rate. The alternate payment methodology rates will be subject to Medicare's inflation or deflation factor on January 1 of each year unless the rate was calculated and posted to the fee schedule after July 1 of the previous year.
- (4) Not more than once every three years, the alternate payment methodology rates must be evaluated by the commissioner for reasonableness by reviewing invoices from at least 20 paid claim lines and five different providers for claims paid during one calendar month or one quarter if necessary to obtain the required sample. - (p) Notwithstanding paragraph (n), durable medical equipment and supplies billed using 166.30 miscellaneous codes, and for which no Medicare rate is available, shall be paid the provider's 166.31 actual acquisition cost plus ten percent. 166.32

195.25	the client to complete the client's standard diagnostic assessment if the number of sessions
195.26	will exceed the coverage limits in subdivision 2.
195.27	Subd. 6. Standard diagnostic assessment; required elements. (a) Only a mental health
195.28	professional or a clinical trainee may complete a standard diagnostic assessment of a client.
195.29	A standard diagnostic assessment of a client must include a face-to-face interview with a
195.30	client and a written evaluation of the client. The assessor must complete a client's standard
195.31	diagnostic assessment within the client's cultural context.

196.9	(5) the client's current medications;
196.10	(6) any immediate risks to the client's health and safety;
196.11	(7) the client's perceptions of the client's condition;
196.12	(8) the client's description of the client's symptoms, including the reason for the client's
196.13	referral;
196.14	(9) the client's history of mental health treatment; and
196.15	(10) cultural influences on the client.
196.16	(c) If the assessor cannot obtain the information that this subdivision requires without
196.17	retraumatizing the client or harming the client's willingness to engage in treatment, the
196.18	assessor must identify which topics will require further assessment during the course of the
196.19	client's treatment. The assessor must gather and document information related to the following
196.20	topics:
196.21	(1) the client's relationship with the client's family and other significant personal
196.22	relationships, including the client's evaluation of the quality of each relationship;
196.23	(2) the client's strengths and resources, including the extent and quality of the client's
196.24	social networks;
196.25	(3) important developmental incidents in the client's life;
196.26	(4) maltreatment, trauma, potential brain injuries, and abuse that the client has suffered;

197.6	published by Zero to Three.
197.7	(2) When completing a standard diagnostic assessment of a client who is six years of
197.8	age or older, the assessor must use the current edition of the Diagnostic and Statistical
197.9	Manual of Mental Disorders published by the American Psychiatric Association.
197.10	(3) When completing a standard diagnostic assessment of a client who is five years of
197.11	age or younger, an assessor must administer the Early Childhood Service Intensity Instrument
197.12	(ECSII) to the client and include the results in the client's assessment.
197.13	(4) When completing a standard diagnostic assessment of a client who is six to 17 years
197.14	of age, an assessor must administer the Child and Adolescent Service Intensity Instrument
197.15	(CASII) to the client and include the results in the client's assessment.
197.16	(5) When completing a standard diagnostic assessment of a client who is 18 years of
197.17	age or older, an assessor must use either (i) the CAGE-AID Questionnaire or (ii) the criteria
197.18	in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders

197.21	(e) When completing a standard diagnostic assessment of a client, the assessor must
197.22	include and document the following components of the assessment:
197.23	(1) the client's mental status examination;
197.24	(2) the client's baseline measurements; symptoms; behavior; skills; abilities; resources;
197.25	vulnerabilities; safety needs, including client information that supports the assessor's findings
197.26	after applying a recognized diagnostic framework from paragraph (d); and any differential
197.27	diagnosis of the client;
197.28	(3) an explanation of: (i) how the assessor diagnosed the client using the information
197.29	from the client's interview, assessment, psychological testing, and collateral information
197.30	about the client; (ii) the client's needs; (iii) the client's risk factors; (iv) the client's strengths;
197.31	and (v) the client's responsivity factors.
197.32	(f) When completing a standard diagnostic assessment of a client, the assessor must
197.33	consult the client and the client's family about which services that the client and the family

198.1	prefer to treat the client. The assessor must make referrals for the client as to services required
198.2	by law.
198.3	Subd. 7. Individual treatment plan. A license holder must follow each client's written
198.4	individual treatment plan when providing services to the client with the following exceptions:
198.5	(1) services that do not require that a license holder completes a standard diagnostic
198.6	assessment of a client before providing services to the client;
198.7	(2) when developing a service plan; and
198.8	(3) when a client re-engages in services under subdivision 8, clause (8).
198.9	Subd. 8. Individual treatment plan; required elements. After completing a client's
198.10	diagnostic assessment and before providing services to the client, the license holder must
198.11	complete the client's individual treatment plan. The license holder must:
198.12	(1) base the client's individual treatment plan on the client's diagnostic assessment and
198.13	baseline measurements;
198.14	(2) for a child client, use a child-centered, family-driven, and culturally appropriate
198.15	planning process that allows the child's parents and guardians to observe and participate in
198.16	the child's individual and family treatment services, assessments, and treatment planning;
198.17	(3) for an adult client, use a person-centered, culturally appropriate planning process
198.18	that allows the client's family and other natural supports to observe and participate in the
198.19	client's treatment services, assessments, and treatment planning;
198.20	(4) identify the client's treatment goals, measureable treatment objectives, a schedule
198.21	for accomplishing the client's treatment goals and objectives, a treatment strategy, and the
198.22	individuals responsible for providing treatment services and supports to the client. The
198.23	license holder must have a treatment strategy to engage the client in treatment if the client:
198.24	(i) has a history of not engaging in treatment; and
198.25	(ii) is ordered by a court to participate in treatment services or to take neuroleptic
198.26	medications;
198.27	(5) identify the participants involved in the client's treatment planning. The client must
198.28	be a participant in the client's treatment planning. If applicable, the license holder must
198.29	document the reasons that the license holder did not involve the client's family or other
198.30	natural supports in the client's treatment planning;
198.31	(6) review the client's individual treatment plan every 180 days and update the client's
108 32	individual treatment plan with the client's treatment progress, new treatment objectives and

goals or, if the client has not made treatment progress, changes in the license holder's 199.1 199.2 approach to treatment; and 199.3 (7) ensure that the client approves of the client's individual treatment plan unless a court orders the client's treatment plan under chapter 253B. 199.4 199.5 If the client disagrees with the client's treatment plan, the license holder must document the client file with the reasons why the client does not agree with the treatment plan. If the 199.6 license holder cannot obtain the client's approval of the treatment plan, a mental health 199.7 professional must make efforts to obtain approval from a person who is authorized to consent 199.8 on the client's behalf within 30 days after the client's previous individual treatment plan 199.9 199.10 expired. A license holder may not deny a client service during this time period solely because the license holder could not obtain the client's approval of the client's individual treatment 199.11 plan. A license holder may continue to bill for the client's otherwise eligible services when 199.12 the client re-engages in services. 199.13 Subd. 9. Functional assessment; required elements. When a license holder is 199.14 completing a functional assessment for an adult client, the license holder must: 199.15 (1) complete a functional assessment of the client after completing the client's diagnostic 199.16 199.17 assessment; (2) use a collaborative process that allows the client and the client's family and other 199.18 natural supports, the client's referral sources, and the client's providers to provide information 199.19 about how the client's symptoms of mental illness impact the client's functioning; 199.20 (3) if applicable, document the reasons that the license holder did not contact the client's 199.21 family and other natural supports; 199.22 (4) assess and document how the client's symptoms of mental illness impact the client's 199.23 functioning in the following areas: 199.24 (i) the client's mental health symptoms; 199.25 (ii) the client's mental health service needs; 199.26 (iii) the client's substance use; 199.27 (iv) the client's vocational and educational functioning; 199.28 (v) the client's social functioning, including the use of leisure time; 199.29 (vi) the client's interpersonal functioning, including relationships with the client's family 199.30 and other natural supports; 199.31

a client and the process for obtaining medical care for a client.

201.1	Subd. 3. Storing and accounting for medications. (a) If a license holder stores client
201.2	medications, the license holder must:
201.3	(1) store client medications in original containers in a locked location;
201.4	(2) store refrigerated client medications in special trays or containers that are separate
201.5	from food;
201.6	(3) store client medications marked "for external use only" in a compartment that is
201.7	separate from other client medications;
201.8	(4) store Schedule II to IV drugs listed in section 152.02, subdivisions 3 to 5, in a
201.9	compartment that is locked separately from other medications;
201.10	(5) ensure that only authorized staff persons have access to stored client medications;
201.11	(6) follow a documentation procedure on each shift to account for all scheduled drugs;
201.12	and
201.13	(7) record each incident when a staff person accepts a supply of client medications and
201.14	destroy discontinued, outdated, or deteriorated client medications.
201.15	(b) If a license holder is licensed as a residential program, the license holder must allow
201.16	clients who self-administer medications to keep a private medication supply. The license
201.17	holder must ensure that the client stores all private medication in a locked container in the
201.18	client's private living area, unless the private medication supply poses a health and safety
201.19	risk to any clients. A client must not maintain a private medication supply of a prescription
201.20	medication without a written medication order from a licensed prescriber and a prescription
201.21	label that includes the client's name.
201.22	Subd. 4. Medication orders. (a) If a license holder stores, prescribes, or administers
201.23	medications or observes a client self-administer medications, the license holder must:
201.24	(1) ensure that a licensed prescriber writes all orders to accept, administer, or discontinue
201.25	client medications;
201.26	(2) accept nonwritten orders to administer client medications in emergency circumstances
201.27	only;
201.28	(3) establish a timeline and process for obtaining a written order with the licensed
201.29	prescriber's signature when the license holder accepts a nonwritten order to administer client
201.30	medications;
201.31	(4) obtain prescription medication renewals from a licensed prescriber for each client
201.32	every 90 days for psychotropic medications and annually for all other medications; and

202.1	(5) maintain the client's right to privacy and dignity.
202.2	(b) If a license holder employs a licensed prescriber, the license holder must inform the
202.3	client about potential medication effects and side effects and obtain and document the client's
202.4	informed consent before the licensed prescriber prescribes a medication.
202.5	Subd. 5. Medication administration. If a license holder is licensed as a residential
202.6	program, the license holder must:
202.7	(1) assess and document each client's ability to self-administer medication. In the
202.8	assessment, the license holder must evaluate the client's ability to: (i) comply with prescribed
202.9	medication regimens; and (ii) store the client's medications safely and in a manner that
202.10	protects other individuals in the facility. Through the assessment process, the license holder
202.11	must assist the client in developing the skills necessary to safely self-administer medication;
202.12	(2) monitor the effectiveness of medications, side effects of medications, and adverse
202.13	reactions to medications for each client. The license holder must promptly address and
202.14	document any concerns about a client's medications;
202.15	(3) ensure that no staff person or client gives a legend drug supply for one client to
202.16	another client;
202.17	(4) have policies and procedures for: (i) keeping a record of each client's medication
202.18	orders; (ii) keeping a record of any incident of deferring a client's medications; (iii)
202.19	documenting any incident when a client's medication is omitted; and (iv) documenting when
202.20	a client refuses to take medications as prescribed; and
202.21	(5) document and track medication errors, document whether the license holder notified
202.22	anyone about the medication error, determine if the license holder must take any follow-up
202.23	actions, and identify the staff persons who are responsible for taking follow-up actions.
202.24	Sec. 13. [2451.12] CLIENT RIGHTS AND PROTECTIONS.
202.25	Subdivision 1. Client rights. A license holder must ensure that all clients have the
202.26	following rights:
202.27	(1) the rights listed in the health care bill of rights in section 144.651;
202.28	(2) the right to be free from discrimination based on age, race, color, creed, religion,
202.29	national origin, gender, marital status, disability, sexual orientation, and status with regard
202.30	to public assistance. The license holder must follow all applicable state and federal laws
202.31	including the Minnesota Human Rights Act, chapter 363A; and

203.1	(3) the right to be informed prior to a photograph or audio or video recording being made
203.2	of the client. The client has the right to refuse to allow any recording or photograph of the
203.3	client that is not for the purposes of identification or supervision by the license holder.
203.4	Subd. 2. Restrictions to client rights. If the license holder restricts a client's right, the
203.5	license holder must document in the client file a mental health professional's approval of
203.6	the restriction and the reasons for the restriction.
203.7	Subd. 3. Notice of rights. The license holder must give a copy of the client's rights
203.8	according to this section to each client on the day of the client's admission. The license
203.9	holder must document that the license holder gave a copy of the client's rights to each client
203.10	on the day of the client's admission according to this section. The license holder must post
203.11	a copy of the client rights in an area visible or accessible to all clients. The license holder
203.12	must include the client rights in Minnesota Rules, chapter 9544, for applicable clients.
203.13	Subd. 4. Client property. (a) The license holder must meet the requirements of section
203.14	245A.04, subdivision 13.
203.15	(b) If the license holder is unable to obtain a client's signature acknowledging the receipt
203.16	of the client's funds or property required by section 245A.04, subdivision 13, paragraph (c),
203.17	clause (1), two staff persons must sign documentation acknowledging that the staff persons
203.18	witnessed the client's receipt of the client's funds or property.
203.19	(c) The license holder must return all of the client's funds and other property to the client
203.20	except for the following items:
203.21	(1) illicit drugs, drug paraphernalia, and drug containers that are subject to forfeiture
203.22	under section 609.5316. The license holder must give illicit drugs, drug paraphernalia, and
203.23	drug containers to a local law enforcement agency or destroy the items; and
203.24	(2) weapons, explosives, and other property that may cause serious harm to the client
203.25	or others. The license holder may give a client's weapons and explosives to a local law
203.26	enforcement agency. The license holder must notify the client that a local law enforcement
203.27	agency has the client's property and that the client has the right to reclaim the property if
203.28	the client has a legal right to possess the item.
203.29	(d) If a client leaves the license holder's program but abandons the client's funds or
203.30	property, the license holder must retain and store the client's funds or property, including
203.31	medications, for a minimum of 30 days after the client's discharge from the program.
203.32	Subd. 5. Client grievances. (a) The license holder must have a grievance procedure
203.33	that:

204.1	(1) describes to clients how the license holder will meet the requirements in this
204.2	subdivision; and

204.16	by which the license holder will respond to the client's grievance. If applicable, the license
204.17	holder must include a notice of the client's separate appeal rights for a managed care
204.18	organization's reduction, termination, or denial of a covered service;
204.19	(4) within 15 business days of receiving a client's grievance, provide a written final
204.20	response to the client's grievance containing the license holder's official response to the
204.21	grievance; and

204.28	in a central location that is readily accessible to the commissioner for review upon the
204.20	commissioner's request for a minimum of two licensing periods

Sec. 15. [245I.20] MENTAL HEALTH CLINIC.

Subdivision 1. Purpose. Certified mental health clinics provide clinical services for the treatment of mental illnesses with a treatment team that reflects multiple disciplines and areas of expertise.

- Subd. 2. **Definitions.** (a) "Clinical services" means services provided to a client to diagnose, describe, predict, and explain the client's status relative to a condition or problem as described in the: (1) current edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association; or (2) current edition of the DC: 0-5 Diagnostic Classification of Mental Health and Development Disorders of Infancy and Early Childhood published by Zero to Three. Where necessary, clinical services includes services to treat a client to reduce the client's impairment due to the client's condition.

 Clinical services also includes individual treatment planning, case review, record-keeping required for a client's treatment, and treatment supervision. For the purposes of this section, clinical services excludes services delivered to a client under a separate license and services certified by the commissioner.
- 205.16 (b) "Competent" means having professional education, training, continuing education,
 205.17 consultation, supervision, experience, or a combination thereof necessary to demonstrate
 205.18 sufficient knowledge of and proficiency in a specific clinical service.
- (c) "Discipline" means a branch of professional knowledge or skill acquired through a specific course of study, training, and supervised practice. Discipline is usually documented by a specific educational degree, licensure, or certification of proficiency. Examples of the mental health disciplines include but are not limited to psychiatry, psychology, clinical social work, marriage and family therapy, clinical counseling, and psychiatric nursing.
- 205.24 (d) "Treatment team" means the mental health professionals, mental health practitioners, 205.25 and clinical trainees who provide clinical services to clients.
- Subd. 3. Organizational structure. (a) A mental health clinic location must be an entire facility or a clearly identified unit within a facility that is administratively and clinically separate from the rest of the facility. The mental health clinic location may provide services other than clinical services to clients, including medical services, substance use disorder services, social services, training, and education.
- 205.31 (b) The certification holder must notify the commissioner of all mental health clinic
 205.32 locations. If there is more than one mental health clinic location, the certification holder
 205.33 must designate one location as the main location and all of the other locations as satellite

206.1	locations. The main location as a unit and the clinic as a whole must comply with the
206.2	minimum staffing standards in subdivision 4.
206.3	(c) The certification holder must ensure that each satellite location:
206.4	(1) adheres to the same policies and procedures as the main location;
206.5	(2) provides clients with face-to-face or telephone access to a mental health professional
206.6	whenever the satellite location is open. The certification holder must maintain a schedule
206.7	of the mental health professionals who will be available and the contact information for
206.8	each available mental health professional. The schedule must be current and readily available
206.9	to treatment team members; and
206.10	(3) enables clients to access all of the mental health clinic's clinical services and treatment
206.11	team members, as needed.
206.12	Subd. 4. Minimum staffing standards. (a) A certification holder's treatment team must
206.13	consist of at least four mental health professionals. At least two of the mental health
206.14	professionals must be employed by or under contract with the mental health clinic for a
206.15	minimum of 35 hours per week. Each of the two mental health professionals must specialize
206.16	in a different mental health discipline.
206.17	(b) The treatment team must include:
206.18	(1) a physician qualified as a mental health professional according to section 245I.04,
206.19	subdivision 2, clause (4), or a nurse qualified as a mental health professional according to
206.20	section 245I.04, subdivision 2, clause (1); and
206.21	(2) a psychologist qualified as a mental health professional according to section 245I.04,
206.22	subdivision 2, clause (3).
206.23	(c) The staff persons fulfilling the requirement in paragraph (b) must provide clinical
206.24	services at least:
206.25	(1) eight hours every two weeks if the mental health clinic has over 25.0 full-time
206.26	equivalent treatment team members;
206.27	(2) eight hours each month if the mental health clinic has 15.1 to 25.0 full-time equivalent
206.28	treatment team members;
206.29	(3) four hours each month if the mental health clinic has 5.1 to 15.0 full-time equivalent
206.30	treatment team members; or
206.31	(4) two hours each month if the mental health clinic has 2.0 to 5.0 full-time equivalent
206.32	treatment team members or only provides in-home services to clients

207.1	(d) A certification holder may have additional mental health professional staff persons,
207.2	provided that no more than 60 percent of the full-time equivalent mental health professional
207.3	staff specializes in a single mental health discipline. This provision does not apply to a
207.4	certification holder with fewer than six full-time equivalent mental health professional staff.
207.5	(e) The certification holder must maintain a record that demonstrates compliance with
207.6	this subdivision.
207.7	Subd. 5. Treatment supervision specified. (a) A mental health professional must remain
207.8	responsible for each client's case. The certification holder must document the name of the
207.9	mental health professional responsible for each case and the dates that the mental health
207.10	professional is responsible for the client's case from beginning date to end date. The
207.11	certification holder must assign each client's case for assessment, diagnosis, and treatment
207.12	services to a treatment team member who is competent in the assigned clinical service, the
207.13	recommended treatment strategy, and in treating the client's characteristics.
207.14	(b) Treatment supervision of mental health practitioners and clinical trainees required
207.15	by section 245I.06 must include case reviews as described in this paragraph. Every two
207.16	months, a mental health professional must complete a case review of each client assigned
207.17	to the mental health professional when the client is receiving clinical services from a mental
207.18	health practitioner or clinical trainee. The case review must include a consultation process
207.19	that thoroughly examines the client's condition and treatment, including: (1) a review of the
207.20	client's reason for seeking treatment, diagnoses and assessments, and the individual treatment
207.21	plan; (2) a review of the appropriateness, duration, and outcome of treatment provided to
207.22	the client; and (3) treatment recommendations.
207.23	Subd. 6. Additional policy and procedure requirements. (a) In addition to the policies
207.24	and procedures required by section 245I.03, the certification holder must establish, enforce,
207.25	and maintain the policies and procedures required by this subdivision.
207.26	(b) The certification holder must have a clinical evaluation procedure to identify and
207.27	document each treatment team member's areas of competence.
207.28	(c) The certification holder must have policies and procedures for client intake and case
207.29	assignment that:
207.30	(1) outline the client intake process;
207.31	(2) describe how the mental health clinic determines the appropriateness of accepting a
207.32	client into treatment by reviewing the client's condition and need for treatment, the clinical
207.33	services that the mental health clinic offers to clients, and other available resources; and

208.1	(3) contain a process for assigning a client's case to a mental health professional who is
208.2	responsible for the client's case and other treatment team members.
208.3	Subd. 7. Referrals. If necessary treatment for a client or treatment desired by a client
208.4	is not available at the mental health clinic, the certification holder must facilitate appropriate
208.5	referrals for the client. When making a referral for a client, the treatment team member must
208.6	document a discussion with the client that includes: (1) the reason for the client's referral;
208.7	(2) potential treatment resources for the client; and (3) the client's response to receiving a
208.8	referral.
208.9	Subd. 8. Emergency service. For the certification holder's telephone numbers that clients
208.10	regularly access, the certification holder must include the contact information for the area's
208.11	mental health crisis services as part of the certification holder's message when a live operator
208.12	is not available to answer clients' calls.
208.13	Subd. 9. Quality assurance and improvement plan. (a) At a minimum, a certification
208.14	holder must develop a written quality assurance and improvement plan that includes a plan
208.15	<u>for:</u>
208.16	(1) encouraging ongoing consultation among members of the treatment team;
208.17	(2) obtaining and evaluating feedback about services from clients, family and other
208.18	natural supports, referral sources, and staff persons;
208.19	(3) measuring and evaluating client outcomes;
208.20	(4) reviewing client suicide deaths and suicide attempts;
208.21	(5) examining the quality of clinical service delivery to clients;
208.22	(6) examining the efficiency of resource usage; and
208.23	(7) self-monitoring of compliance with this chapter.
208.24	(b) At least annually, the certification holder must review, evaluate, and update the
208.25	quality assurance and improvement plan. The review must: (1) include documentation of
208.26	the actions that the certification holder will take as a result of information obtained from
208.27	monitoring activities in the plan; and (2) establish goals for improved service delivery to
208.28	clients for the next year.
208.29	Subd. 10. Application procedures. (a) The applicant for certification must submit any
208.30	documents that the commissioner requires on forms approved by the commissioner.
208.31	(b) Upon submitting an application for certification, an applicant must pay the application
208.32	fee required by section 245A.10, subdivision 3.

209.1	(c) The commissioner must respond to an application within 90 working days of receiving
209.2	a completed application.
209.3	(d) When the commissioner receives an application for initial certification that is
209.4	incomplete because the applicant failed to submit required documents or is deficient because
209.5	the submitted documents do not meet certification requirements, the commissioner must
209.6	provide the applicant with written notice that the application is incomplete or deficient. In
209.7	the notice, the commissioner must identify the particular documents that are missing or
209.8	deficient and give the applicant 45 days to submit a second application that is complete. An
209.9	applicant's failure to submit a complete application within 45 days after receiving notice
209.10	from the commissioner is a basis for certification denial.
209.11	(e) The commissioner must give notice of a denial to an applicant when the commissioner
209.12	has made the decision to deny the certification application. In the notice of denial, the
209.13	commissioner must state the reasons for the denial in plain language. The commissioner
209.14	must send or deliver the notice of denial to an applicant by certified mail or personal service.
209.15	In the notice of denial, the commissioner must state the reasons that the commissioner denied
209.16	the application and must inform the applicant of the applicant's right to request a contested
209.17	case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The
209.18	applicant may appeal the denial by notifying the commissioner in writing by certified mail
209.19	or personal service. If mailed, the appeal must be postmarked and sent to the commissioner
209.20	within 20 calendar days after the applicant received the notice of denial. If an applicant
209.21	delivers an appeal by personal service, the commissioner must receive the appeal within 20
209.22	calendar days after the applicant received the notice of denial.
209.23	Subd. 11. Commissioner's right of access. (a) When the commissioner is exercising
209.24	the powers conferred to the commissioner by this chapter, if the mental health clinic is in
209.25	operation and the information is relevant to the commissioner's inspection or investigation,
209.26	the mental health clinic must provide the commissioner access to:
209.27	(1) the physical facility and grounds where the program is located;
209.28	(2) documentation and records, including electronically maintained records;
,.20	
209.29	(3) clients served by the mental health clinic;

records, clients, and staff without prior notice and as often as the commissioner considers

(5) personnel records of current and former staff employed by the mental health clinic.

(b) The mental health clinic must provide the commissioner with access to the facility,

(4) staff persons of the mental health clinic; and

210.1	necessary if the commissioner is investigating alleged maltreatment or a violation of a law
210.2	or rule, or conducting an inspection. When conducting an inspection, the commissioner
210.3	may request and must receive assistance from other state, county, and municipal
210.4	governmental agencies and departments. The applicant or certification holder must allow
210.5	the commissioner, at the commissioner's expense, to photocopy, photograph, and make
210.6	audio and video recordings during an inspection.
210.7	Subd. 12. Monitoring and inspections. (a) The commissioner may conduct a certification
210.8	review of the certified mental health clinic every two years to determine the clinic's
210.9	compliance with applicable rules and statutes.
210.10	(b) The commissioner must make the results of certification reviews and investigations
210.11	publicly available on the department's website.
210.12	Subd. 13. Correction orders. (a) If the applicant or certification holder fails to comply
210.13	with a law or rule, the commissioner may issue a correction order. The correction order
210.14	must state:
210.15	(1) the condition that constitutes a violation of the law or rule;
210.16	(2) the specific law or rule that the applicant or certification holder has violated; and
210.17	(3) the time that the applicant or certification holder is allowed to correct each violation.
210.18	(b) If the applicant or certification holder believes that the commissioner's correction
210.19	order is erroneous, the applicant or certification holder may ask the commissioner to
210.20	reconsider the part of the correction order that is allegedly erroneous. An applicant or
210.21	certification holder must make a request for reconsideration in writing. The request must
210.22	be postmarked and sent to the commissioner within 20 calendar days after the applicant or
210.23	certification holder received the correction order; and the request must:
210.24	(1) specify the part of the correction order that is allegedly erroneous;
210.25	(2) explain why the specified part is erroneous; and
210.26	(3) include documentation to support the allegation of error.
210.27	(c) A request for reconsideration does not stay any provision or requirement of the
210.28	correction order. The commissioner's disposition of a request for reconsideration is final
210.29	and not subject to appeal.
210.30	(d) If the commissioner finds that the applicant or certification holder failed to correct
210.31	the violation specified in the correction order, the commissioner may decertify the certified
210.32	mental health clinic according to subdivision 14.

health clinic according to subdivision 14.
Subd. 14. Decertification. (a) The commissioner may decertify a mental health clinic
if a certification holder:
(1) failed to comply with an applicable law or rule; or
(2) knowingly withheld relevant information from or gave false or misleading information
to the commissioner in connection with an application for certification, during an
investigation, or regarding compliance with applicable laws or rules.
(b) When considering decertification of a mental health clinic, the commissioner must
consider the nature, chronicity, or severity of the violation of law or rule and the effect of
the violation on the health, safety, or rights of clients.
(c) If the commissioner decertifies a mental health clinic, the order of decertification
must inform the certification holder of the right to have a contested case hearing under
chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The certification holder
may appeal the decertification. The certification holder must appeal a decertification in
writing and send or deliver the appeal to the commissioner by certified mail or personal
service. If the certification holder mails the appeal, the appeal must be postmarked and sent
to the commissioner within ten calendar days after the certification holder receives the order
of decertification. If the certification holder delivers an appeal by personal service, the
commissioner must receive the appeal within ten calendar days after the certification holder
received the order. If a certification holder submits a timely appeal of an order of
decertification, the certification holder may continue to operate the program until the
commissioner issues a final order on the decertification.
(d) If the commissioner decertifies a mental health clinic pursuant to paragraph (a),
clause (1), based on a determination that the mental health clinic was responsible for
maltreatment, and if the mental health clinic requests reconsideration of the decertification
according to paragraph (c), and appeals the maltreatment determination under section
260E.33, the final decertification determination is stayed until the commissioner issues a
final decision regarding the maltreatment appeal.

216.31	commissioner of the staffing change on a form approved by the commissioner and include
216.32	the name of the staff person now assigned to the key staff position and the staff person's
216.33	qualifications.

217.1	Subd. 10. Minimum treatment team staffing levels and ratios. (a) The license holder

217.5	client's treatment plan;
217.6	(3) implement program requirements; and
217.7	(4) safely monitor and guide the activities of each client, taking into account the client's
217.8	level of behavioral and psychiatric stability, cultural needs, and vulnerabilities.

217.10	(1) remain awake during all work hours; and
217.11	(2) are available to monitor and guide the activities of each client whenever clients are
217.12	present in the program.
217.13	(c) On each shift, the license holder must maintain a treatment team staffing ratio of at

244 32	(3) mental health practitioner:

245.1	(4) mental health certified family peer specialist; or
245.2	(5) mental health certified peer specialist.
245.3	(b) When crisis assessment and intervention services are provided to a recipient in the
245.4	community, a mental health professional, clinical trainee, or mental health practitioner must
245.5	<u>lead the response.</u>
245.6	(c) The 30 hours of ongoing training required by section 245I.05, subdivision 4, paragraph
245.7	(b), must be specific to providing crisis services to a recipient and include training about
245.8	evidence-based practices identified by the commissioner of health to reduce the recipient's
245.9	risk of suicide and self-injurious behavior.
245.10	(d) Team members must be experienced in mental health crisis assessment, crisis
245.11	intervention techniques, treatment engagement strategies, working with families, and clinical
245.12	decision-making under emergency conditions and have knowledge of local services and
245.13	resources. The team must recommend and coordinate the team's services with appropriate
245.14	local resources such as the county social services agency, mental health services, and local
245.15	law enforcement when necessary.
245.16	Subd. 6. Crisis assessment and mobile intervention treatment planning screening. (a)
245.17	Prior to initiating mobile crisis intervention services, a screening of the potential crisis
245.18	situation must be conducted. The <u>crisis</u> screening may use the resources of crisis assistance
245.19	and emergency services as defined in sections 245.462, subdivision 6, and section 245.469
245.20	subdivisions 1 and 2. The <u>crisis</u> screening must gather information, determine whether a
245.21	mental health crisis situation exists, identify parties involved, and determine an appropriate
245.22	response.
245.23	(b) When conducting the crisis screening of a recipient, a provider must:
245.24	(1) employ evidence-based practices to reduce the recipient's risk of suicide and
245.25	self-injurious behavior;
245.26	(2) work with the recipient to establish a plan and time frame for responding to the
245.27	recipient's mental health crisis, including responding to the recipient's immediate need for
245.28	support by telephone or text message until the provider can respond to the recipient
245.29	face-to-face;
245.30	(3) document significant factors in determining whether the recipient is experiencing a
245.31	mental health crisis, including prior requests for crisis services, a recipient's recent
245.32	presentation at an emergency department, known calls to 911 or law enforcement, or
245.33	information from third parties with knowledge of a recipient's history or current needs;

246.1	(4) accept calls from interested third parties and consider the additional needs or potential
246.2	mental health crises that the third parties may be experiencing;
246.3	(5) provide psychoeducation, including means reduction, to relevant third parties
246.4	including family members or other persons living with the recipient; and
246.5	(6) consider other available services to determine which service intervention would best
246.6	address the recipient's needs and circumstances.
246.7	(c) For the purposes of this section, the following situations indicate a positive screen
246.8	for a potential mental health crisis and the provider must prioritize providing a face-to-face
246.9	crisis assessment of the recipient, unless a provider documents specific evidence to show
246.10	why this was not possible, including insufficient staffing resources, concerns for staff or
246.11	recipient safety, or other clinical factors:
246.12	(1) the recipient presents at an emergency department or urgent care setting and the
246.13	health care team at that location requested crisis services; or
246.14	(2) a peace officer requested crisis services for a recipient who is potentially subject to
246.15	transportation under section 253B.051.
246.16	(d) A provider is not required to have direct contact with the recipient to determine that
246.17	the recipient is experiencing a potential mental health crisis. A mobile crisis provider may
246.18	gather relevant information about the recipient from a third party at the scene to establish
246.19	the recipient's need for services and potential safety factors.
246.20	Subd. 6a. Crisis assessment. (b) (a) If a erisis exists recipient screens positive for
246.21	potential mental health crisis, a crisis assessment must be completed. A crisis assessment
246.22	evaluates any immediate needs for which emergency services are needed and, as time
246.23	permits, the recipient's current life situation, health information, including current
246.24	medications, sources of stress, mental health problems and symptoms, strengths, cultural
246.25	considerations, support network, vulnerabilities, current functioning, and the recipient's
246.26	preferences as communicated directly by the recipient, or as communicated in a health care
246.27	directive as described in chapters 145C and 253B, the <u>crisis</u> treatment plan described under
246.28	paragraph (d) subdivision 11, a crisis prevention plan, or a wellness recovery action plan.
246.29	(b) A provider must conduct a crisis assessment at the recipient's location whenever
246.30	possible.

(e) A crisis assessment must include coordinated response with other health care providers if the assessment indicates that a recipient needs detoxification, withdrawal management, or medical stabilization in addition to crisis response services. If the recipient does not need an acute level of care, a team must serve an otherwise eligible recipient who has a co-occurring substance use disorder. (f) If, after completing a crisis assessment of a recipient, a provider refers a recipient to an intensive setting, including an emergency department, inpatient hospitalization, or 247.10 residential crisis stabilization, one of the crisis team members who completed or conferred about the recipient's crisis assessment must immediately contact the referral entity and 247.12 consult with the triage nurse or other staff responsible for intake at the referral entity. During 247.13 the consultation, the crisis team member must convey key findings or concerns that led to 247.14 the recipient's referral. Following the immediate consultation, the provider must also send 247.15 written documentation upon completion. The provider must document if these releases 247.16 occurred with authorization by the recipient, the recipient's legal guardian, or as allowed 247.17 by section 144.293, subdivision 5. 247.18 Subd. 6b. If providing 247.24 on-site crisis intervention services, a clinical trainee or mental health practitioner must seek 247.25 elinical treatment supervision as required in subdivision 9. 247.26 (b) If a provider delivers crisis intervention services while the recipient is absent, the provider must document the reason for delivering services while the recipient is absent. 247.28 (d) (c) The mobile crisis intervention team must develop an initial, brief a crisis treatment plan as soon as appropriate but no later than 24 hours after the initial face-to-face intervention 247.30 according to subdivision 11. The plan must address the needs and problems noted in the 247.31 erisis assessment and include measurable short-term goals, cultural considerations, and 247.32 frequency and type of services to be provided to achieve the goals and reduce or eliminate 247.33 the crisis. The treatment plan must be updated as needed to reflect current goals and services.

248.1	(e) (d) The mobile crisis intervention team must document which short-term goals crisis
248.2	treatment plan goals and objectives have been met and when no further crisis intervention
248.3	services are required.
248.4	(f) (e) If the recipient's mental health crisis is stabilized, but the recipient needs a referral
248.5	to other services, the team must provide referrals to these services. If the recipient has a
248.6	case manager, planning for other services must be coordinated with the case manager. If
248.7	the recipient is unable to follow up on the referral, the team must link the recipient to the
248.8	service and follow up to ensure the recipient is receiving the service.
248.9	(g) (f) If the recipient's mental health crisis is stabilized and the recipient does not have
248.10	an advance directive, the case manager or crisis team shall offer to work with the recipient
248.11	to develop one.
248.12	Subd. 7. Crisis stabilization services. (a) Crisis stabilization services must be provided
248.13	by qualified staff of a crisis stabilization services provider entity and must meet the following

248.22	(4) if a provider delivers crisis stabilization services while the recipient is absent, the
248.23	provider must document the reason for delivering services while the recipient is absent.
248.24	(b) If crisis stabilization services are provided in a supervised, licensed residential setting,

In the event a county or tribal agency spends in excess of the allocation made by the commissioner for a given allocation period, they must submit a corrective action plan to the commissioner for approval. The plan must state the actions the agency will take to correct their overspending for the two years following the period when the overspending occurred. The commissioner shall recoup spending in excess of the allocation only in cases where statewide spending exceeds the appropriation designated for the home and community-based services waivers. Nothing in this subdivision shall be construed as reducing the county's responsibility to offer and make available feasible home and community-based options to eligible waiver recipients within the resources allocated to them for that purpose.
- Subd. 12. Use of waiver allocations. County and tribal agencies are responsible for spending the annual allocation made by the commissioner. In the event a county or tribal agency spends less than 97 percent of the allocation, while maintaining a list of persons waiting for waiver services, the county or tribal agency must submit a corrective action plan to the commissioner for approval. The commissioner may determine a plan is unnecessary given the size of the allocation and capacity for new enrollment. The plan must state the actions the agency will take to assure reasonable and timely access to home and community-based waiver services for persons waiting for services. If a county or tribe does not submit a plan when required or implement the changes required, the commissioner shall assure access to waiver services within the county's or tribe's available allocation and take other actions needed to assure that all waiver participants in that county or tribe are receiving appropriate waiver services to meet their needs.

Subdivision 1. **Definitions.** For purposes of this section, the following terms have the meanings given them.

- (a) "Mental health crisis" means a child's behavioral, emotional, or psychiatric situation that, but for the provision of crisis response services to the child, would likely result in significantly reduced levels of functioning in primary activities of daily living, an emergency situation, or the child's placement in a more restrictive setting, including, but not limited to, inpatient hospitalization.
- (b) "Mental health emergency" means a child's behavioral, emotional, or psychiatric situation that causes an immediate need for mental health services and is consistent with section 62Q.55. A physician, mental health professional, or crisis mental health practitioner determines a mental health crisis or emergency for medical assistance reimbursement with input from the client and the client's family, if possible.
- (c) "Mental health crisis assessment" means an immediate face-to-face assessment by a physician, mental health professional, or mental health practitioner under the clinical supervision of a mental health professional, following a screening that suggests the child may be experiencing a mental health crisis or mental health emergency situation.
- (d) "Mental health mobile crisis intervention services" means face-to-face, short-term intensive mental health services initiated during a mental health crisis or mental health emergency. Mental health mobile crisis services must help the recipient cope with immediate stressors, identify and utilize available resources and strengths, and begin to return to the recipient's baseline level of functioning. Mental health mobile services must be provided on site by a mobile crisis intervention team outside of an inpatient hospital setting.
- (e) "Mental health crisis stabilization services" means individualized mental health services provided to a recipient following crisis intervention services that are designed to restore the recipient to the recipient's prior functional level. The individual treatment plan recommending mental health crisis stabilization must be completed by the intervention team or by staff after an inpatient or urgent care visit. Mental health crisis stabilization services may be provided in the recipient's home, the home of a family member or friend of the recipient, schools, another community setting, or a short-term supervised, licensed residential program if the service is not included in the facility's cost pool or per diem. Mental health crisis stabilization is not reimbursable when provided as part of a partial hospitalization or day treatment program.
- Subd. 2. **Medical assistance coverage.** Medical assistance covers medically necessary children's mental health crisis response services, subject to federal approval, if provided to an eligible recipient under subdivision 3, by a qualified provider entity under subdivision 4 or a qualified individual provider working within the provider's scope of practice, and identified in the recipient's individual crisis treatment plan under subdivision 8.
 - Subd. 3. Eligibility. An eligible recipient is an individual who:
 - (1) is eligible for medical assistance;
 - (2) is under age 18 or between the ages of 18 and 21;
- (3) is screened as possibly experiencing a mental health crisis or mental health emergency where a mental health crisis assessment is needed;
- (4) is assessed as experiencing a mental health crisis or mental health emergency, and mental health mobile crisis intervention or mental health crisis stabilization services are determined to be medically necessary; and
 - (5) meets the criteria for emotional disturbance or mental illness.

- (4) develop and maintain written policies and procedures regarding service provision that include safety of staff and recipients in high-risk situations.
- Subd. 4a. **Alternative provider standards.** If a provider entity demonstrates that, due to geographic or other barriers, it is not feasible to provide mobile crisis intervention services 24 hours a day, seven days a week, according to the standards in subdivision 4, paragraph (b), clause (1), the commissioner may approve a crisis response provider based on an alternative plan proposed by a provider entity. The alternative plan must:
- (1) result in increased access and a reduction in disparities in the availability of crisis services; and
- (2) provide mobile services outside of the usual nine-to-five office hours and on weekends and holidays.
- Subd. 5. **Mobile crisis intervention staff qualifications.** (a) To provide children's mental health mobile crisis intervention services, a mobile crisis intervention team must include:

The review shall address efficiencies and effectiveness of the system.
- (h) The State Quality Council may recommend to the commissioner certain variances from the standards governing licensure of programs for persons with disabilities in order to improve the quality of services so long as the recommended variances do not adversely affect the health or safety of persons being served or compromise the qualifications of staff to provide services.

The plan must state the actions the agency will take to correct its overspending for the two years following the period when the overspending occurred. The commissioner shall recoup funds spent in excess of the allocation only in cases when statewide spending exceeds the appropriation designated for the home and community-based services waivers. Nothing in this subdivision shall be construed as reducing the county or tribe's responsibility to offer and make available feasible home and community-based options to eligible waiver recipients within the resources allocated to it for that purpose.
- Subd. 27. Use of waiver allocations. (a) Effective until June 30, 2018, county and tribal agencies are responsible for authorizing the annual allocation made by the commissioner. In the event a county or tribal agency authorizes less than 97 percent of the allocation, while maintaining a list of persons waiting for waiver services, the county or tribal agency must submit a corrective action plan to the commissioner for approval. The commissioner may determine a plan is unnecessary given the size of the allocation and capacity for new enrollment. The plan must state the actions the agency will take to assure reasonable and timely access to home and community-based waiver services for persons waiting for services.
- (b) Effective July 1, 2018, county and tribal agencies are responsible for spending the annual allocation made by the commissioner. The commissioner may determine a plan is unnecessary given the size of the allocation and capacity for new enrollment. The plan must state the actions the agency will take to assure reasonable and timely access to home and community-based waiver services for persons waiting for services.
- (c) If a county or tribe does not submit a plan when required or implement the changes required, the commissioner shall assure access to waiver services within the county or tribe's available allocation, and take other actions needed to assure that all waiver participants in that county or tribe are receiving appropriate waiver services to meet their needs.

following termination of SNAP benefits in order to complete the provisions of the person's employability development plan.

- Subd. 1a. **Notices and sanctions.** (a) At the time the county agency notifies the household that it is eligible for SNAP benefits, the county agency must inform all mandatory employment and training services participants as identified in subdivision 1 in the household that they must comply with all SNAP employment and training program requirements each month, including the requirement to attend an initial orientation to the SNAP employment and training program and that SNAP eligibility will end unless the participants comply with the requirements specified in the notice.
- (b) A participant who fails without good cause to comply with SNAP employment and training program requirements of this section, including attendance at orientation, will lose SNAP eligibility for the following periods:
- (1) for the first occurrence, for one month or until the person complies with the requirements not previously complied with, whichever is longer;

- (3) for the third and any subsequent occurrence, for six months or until the person complies with the requirements not previously complied with, whichever is longer.

"Good cause" means circumstances beyond the control of the participant, such as illness or injury, illness or injury of another household member requiring the participant's presence, a household emergency, or the inability to obtain child care for children between the ages of six and 12 or to obtain transportation needed in order for the participant to meet the SNAP employment and training program participation requirements.

- (c) The county agency shall mail or hand deliver a notice to the participant not later than five days after determining that the participant has failed without good cause to comply with SNAP employment and training program requirements which specifies the requirements that were not complied with, the factual basis for the determination of noncompliance, and the right to reinstate eligibility upon a showing of good cause for failure to meet the requirements. The notice must ask the reason for the noncompliance and identify the participant's appeal rights. The notice must request that the participant inform the county agency if the participant believes that good cause existed for the failure to comply and must state that the county agency intends to terminate eligibility for SNAP benefits due to failure to comply with SNAP employment and training program requirements.
- (d) If the county agency determines that the participant did not comply during the month with all SNAP employment and training program requirements that were in effect, and if the county agency determines that good cause was not present, the county must provide a ten-day notice of termination of SNAP benefits. The amount of SNAP benefits that are withheld from the household and determination of the impact of the sanction on other household members is governed by Code of Federal Regulations, title 7, section 273.7.
- (e) The participant may appeal the termination of SNAP benefits under the provisions of section 256.045.
- Subd. 2. **County agency duties.** (a) The county agency shall provide to SNAP benefit recipients a SNAP employment and training program. The program must include:

The employability assessment and development plan must be completed in consultation with the participant, must assess the participant's assets, barriers, and strengths, and must identify steps necessary to overcome barriers to employment. A copy of the employability development plan must be provided to the registrant;
- (3) referral to available accredited remedial or skills training programs designed to address participant's barriers to employment;

Repealed Minnesota Statutes: 21-02810

- (6) other activities, to the extent of available resources designed by the county agency to prepare the participant for permanent employment.

In order to allow time for job search, the county agency may not require an individual to participate in the SNAP employment and training program for more than 32 hours a week. The county agency shall require an individual to spend at least eight hours a week in job search or other SNAP employment and training program activities.

- Subd. 3. **Participant duties.** In order to receive SNAP assistance, a registrant shall: (1) cooperate with the county agency in all aspects of the SNAP employment and training program; (2) accept any suitable employment, including employment offered through the Job Training Partnership Act, and other employment and training options; and (3) participate in SNAP employment and training activities assigned by the county agency. The orientation must inform the participant of the requirement to participate in services, the date, time, and address to report to for services, the name and telephone number of the SNAP employment and training service provider, the consequences for failure without good cause to comply, the services and support services available through SNAP employment and training services and other providers of similar services, and must encourage the participant to view the SNAP benefits program as a temporary means of supplementing the family's food needs until the family achieves self-sufficiency through employment. The orientation may be provided through audio-visual methods, but the participant must have the opportunity for face-to-face interaction with county agency staff.
- Subd. 6b. **Federal reimbursement.** (a) Federal financial participation from the United States Department of Agriculture for SNAP employment and training expenditures that are eligible for reimbursement through the SNAP employment and training program are dedicated funds and are annually appropriated to the commissioner of human services for the operation of the SNAP employment and training program.
- (b) The appropriation must be used for skill attainment through employment, training, and support services for SNAP participants.
- (c) Federal financial participation for the nonstate portion of SNAP employment and training costs must be paid to the county agency or service provider that incurred the costs.

The purpose of the work experience component is to enhance the participant's employability, self-sufficiency, and to provide meaningful, productive work activities.
- (b) The commissioner shall assist counties in the design and implementation of these components. Good cause for purposes of this section is defined in subdivision 1a, paragraph (b).
- (j) A recipient who has failed without good cause to participate in or comply with the work experience job placement shall be terminated from participation in work experience job activities. - Subd. 3. **Retrospective eligibility.** After the first two months of MFIP eligibility, a county agency must continue to determine whether an assistance unit is prospectively eligible for the payment month by looking at all factors other than income and then determine whether the assistance unit is retrospectively income eligible by applying the monthly income test to the income from the budget month. When the monthly income test is not satisfied, the assistance payment must be suspended when ineligibility exists for one month or ended when ineligibility exists for more than one month.
- Subd. 4. **Monthly income test.** A county agency must apply the monthly income test retrospectively for each month of MFIP eligibility. An assistance unit is not eligible when the countable income equals or exceeds the MFIP standard of need or the family wage level for the assistance unit. The income applied against the monthly income test must include:
- (1) gross earned income from employment, prior to mandatory payroll deductions, voluntary payroll deductions, wage authorizations, and after the disregards in section 256J.21, subdivision 4, and the allocations in section 256J.36, unless the employment income is specifically excluded under section 256J.21, subdivision 2;

256J.34 CALCULATING ASSISTANCE PAYMENTS.

- Subdivision 1. **Prospective budgeting.** A county agency must use prospective budgeting to calculate the assistance payment amount for the first two months for an applicant who has not received assistance in this state for at least one payment month preceding the first month of payment under a current application. Notwithstanding subdivision 3, paragraph (a), clause (2), a county agency must use prospective budgeting for the first two months for a person who applies to be added to an assistance unit. Prospective budgeting is not subject to overpayments or underpayments unless fraud is determined under section 256.98.
- (a) The county agency must apply the income received or anticipated in the first month of MFIP eligibility against the need of the first month. The county agency must apply the income received or anticipated in the second month against the need of the second month.
- (b) When the assistance payment for any part of the first two months is based on anticipated income, the county agency must base the initial assistance payment amount on the information available at the time the initial assistance payment is made.
- (c) The county agency must determine the assistance payment amount for the first two months of MFIP eligibility by budgeting both recurring and nonrecurring income for those two months.
- Subd. 2. **Retrospective budgeting.** The county agency must use retrospective budgeting to calculate the monthly assistance payment amount after the payment for the first two months has been made under subdivision 1.
- Subd. 3. **Additional uses of retrospective budgeting.** Notwithstanding subdivision 1, the county agency must use retrospective budgeting to calculate the monthly assistance payment amount for the first two months under paragraphs (a) and (b).
- (a) The county agency must use retrospective budgeting to determine the amount of the assistance payment in the first two months of MFIP eligibility:
- (1) when an assistance unit applies for assistance for the same month for which assistance has been interrupted, the interruption in eligibility is less than one payment month, the assistance payment for the preceding month was issued in this state, and the assistance payment for the immediately preceding month was determined retrospectively; or
- (2) when a person applies in order to be added to an assistance unit, that assistance unit has received assistance in this state for at least the two preceding months, and that person has been living with and has been financially responsible for one or more members of that assistance unit for at least the two preceding months.
- (b) Except as provided in clauses (1) to (4), the county agency must use retrospective budgeting and apply income received in the budget month by an assistance unit and by a financially responsible household member who is not included in the assistance unit against the MFIP standard of need or family wage level to determine the assistance payment to be issued for the payment month.
- (1) When a source of income ends prior to the third payment month, that income is not considered in calculating the assistance payment for that month. When a source of income ends prior to the fourth payment month, that income is not considered when determining the assistance payment for that month.
- (2) When a member of an assistance unit or a financially responsible household member leaves the household of the assistance unit, the income of that departed household member is not budgeted retrospectively for any full payment month in which that household member does not live with that household and is not included in the assistance unit.
- (3) When an individual is removed from an assistance unit because the individual is no longer a minor child, the income of that individual is not budgeted retrospectively for payment months in

Repealed Minnesota Statutes: 21-02810

which that individual is not a member of the assistance unit, except that income of an ineligible child in the household must continue to be budgeted retrospectively against the child's needs when the parent or parents of that child request allocation of their income against any unmet needs of that ineligible child.

- (4) When a person ceases to have financial responsibility for one or more members of an assistance unit, the income of that person is not budgeted retrospectively for the payment months which follow the month in which financial responsibility ends.
- Subd. 4. **Significant change in gross income.** The county agency must recalculate the assistance payment when an assistance unit experiences a significant change, as defined in section 256J.08, resulting in a reduction in the gross income received in the payment month from the gross income received in the budget month. The county agency must issue a supplemental assistance payment based on the county agency's best estimate of the assistance unit's income and circumstances for the payment month. Supplemental assistance payments that result from significant changes are limited to two in a 12-month period regardless of the reason for the change. Notwithstanding any other statute or rule of law, supplementary assistance payments shall not be made when the significant change in income is the result of receipt of a lump sum, receipt of an extra paycheck, business fluctuation in self-employment income, or an assistance unit member's participation in a strike or other labor action.

256J.37 TREATMENT OF INCOME AND LUMP SUMS.

- Subd. 10. **Treatment of lump sums.** (a) The agency must treat lump-sum payments as earned or unearned income. If the lump-sum payment is included in the category of income identified in subdivision 9, it must be treated as unearned income. A lump sum is counted as income in the month received and budgeted either prospectively or retrospectively depending on the budget cycle at the time of receipt. When an individual receives a lump-sum payment, that lump sum must be combined with all other earned and unearned income received in the same budget month, and it must be applied according to paragraphs (a) to (c). A lump sum may not be carried over into subsequent months. Any funds that remain in the third month after the month of receipt are counted in the asset limit.
- (b) For a lump sum received by an applicant during the first two months, prospective budgeting is used to determine the payment and the lump sum must be combined with other earned or unearned income received and budgeted in that prospective month.
- (c) For a lump sum received by a participant after the first two months of MFIP eligibility, the lump sum must be combined with other income received in that budget month, and the combined amount must be applied retrospectively against the applicable payment month.
- (d) When a lump sum, combined with other income under paragraphs (b) and (c), is less than the MFIP transitional standard for the appropriate payment month, the assistance payment must be reduced according to the amount of the countable income. When the countable income is greater than the MFIP standard or family wage level, the assistance payment must be suspended for the payment month.

The client must be involved in the development, review, and revision of the client's ITP. For all mental health services, except

as provided in subpart 2, item A, subitem (1), and medication management, the ITP and subsequent revisions of the ITP must be signed by the client before treatment begins. The mental health professional or practitioner shall request the client, or other person authorized by statute to consent to mental health services for the client, to sign the client's ITP or revision of the ITP. In the case of a child, the child's parent, primary caregiver, or other person authorized by statute to consent to mental health services for the child shall be asked to sign the child's ITP and revisions of the ITP. If the client or authorized person refuses to sign the plan or a revision of the plan, the mental health professional or mental health practitioner shall note on the plan the refusal to sign the plan and the reason or reasons for the refusal. A client's individual treatment plan must be:

- A. based on the client's current diagnostic assessment;
- B. developed by identifying the client's service needs and considering relevant cultural influences to identify planned interventions that contain specific treatment goals and measurable objectives for the client; and
- C. reviewed at least once every 90 days, and revised as necessary. Revisions to the initial individual treatment plan do not require a new diagnostic assessment unless the client's mental health status has changed markedly as provided in subpart 2.
- Subp. 8. **Documentation.** To obtain medical assistance payment for an outpatient mental health service, a mental health professional or a mental health practitioner must promptly document:
 - A. in the client's mental health record:
- (1) each occurrence of service to the client including the date, type of service, start and stop time, scope of the mental health service, name and title of the person who gave the service, and date of documentation; and
- (2) all diagnostic assessments and other assessments, psychological test results, treatment plans, and treatment plan reviews;
- B. the provider's contact with persons interested in the client such as representatives of the courts, corrections systems, or schools, or the client's other mental health providers, case manager, family, primary caregiver, legal representative, including the name and date of the contact or, if applicable, the reason the client's family, primary caregiver, or legal representative was not contacted; and
- C. dates that treatment begins and ends and reason for the discontinuation of the mental health service.
- Subp. 9. **Service coordination.** The provider must coordinate client services as authorized by the client as follows:
- A. When a recipient receives mental health services from more than one mental health provider, each provider must coordinate mental health services they provide to the client with other mental health service providers to ensure services are provided in the most efficient manner to achieve maximum benefit for the client.
- B. The mental health provider must coordinate mental health care with the client's physical health provider.
- Subp. 10. **Telemedicine services.** Mental health services in part 9505.0372 covered as direct face-to-face services may be provided via two-way interactive video if it is medically appropriate to the client's condition and needs. The interactive video equipment and connection must comply with Medicare standards that are in effect at the time of service. The commissioner may specify parameters within which mental health services can be provided via telemedicine.

9505.0372 COVERED SERVICES.

- Subpart 1. **Diagnostic assessment.** Medical assistance covers four types of diagnostic assessments when they are provided in accordance with the requirements in this subpart.
 - A. To be eligible for medical assistance payment, a diagnostic assessment must:
- (1) identify a mental health diagnosis and recommended mental health services, which are the factual basis to develop the recipient's mental health services and treatment plan; or
- (2) include a finding that the client does not meet the criteria for a mental health disorder.
- B. A standard diagnostic assessment must include a face-to-face interview with the client and contain a written evaluation of a client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The standard diagnostic assessment must be done within the cultural context of the client and must include relevant information about:
 - (1) the client's current life situation, including the client's:
 - (a) age;
- (b) current living situation, including household membership and housing status;
 - (c) basic needs status including economic status;
 - (d) education level and employment status;
- (e) significant personal relationships, including the client's evaluation of relationship quality;
- (f) strengths and resources, including the extent and quality of social networks;
 - (g) belief systems;
- (h) contextual nonpersonal factors contributing to the client's presenting concerns;
 - (i) general physical health and relationship to client's culture; and
 - (i) current medications;
 - (2) the reason for the assessment, including the client's:
 - (a) perceptions of the client's condition;
 - (b) description of symptoms, including reason for referral;
 - (c) history of mental health treatment, including review of the client's
- records;
- (d) important developmental incidents;
- (e) maltreatment, trauma, or abuse issues;
- (f) history of alcohol and drug usage and treatment;
- (g) health history and family health history, including physical, chemical, and mental health history; and
 - (h) cultural influences and their impact on the client;
 - (3) the client's mental status examination;

- (4) the assessment of client's needs based on the client's baseline measurements, symptoms, behavior, skills, abilities, resources, vulnerabilities, and safety needs;
- (5) the screenings used to determine the client's substance use, abuse, or dependency and other standardized screening instruments determined by the commissioner;
- (6) assessment methods and use of standardized assessment tools by the provider as determined and periodically updated by the commissioner;
- (7) the client's clinical summary, recommendations, and prioritization of needed mental health, ancillary or other services, client and family participation in assessment and service preferences, and referrals to services required by statute or rule; and
- (8) the client data that is adequate to support the findings on all axes of the current edition of the Diagnostic and Statistical Manual of Mental Disorders, published by the American Psychiatric Association; and any differential diagnosis.
- C. An extended diagnostic assessment must include a face-to-face interview with the client and contain a written evaluation of a client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The face-to-face interview is conducted over three or more assessment appointments because the client's complex needs necessitate significant additional assessment time. Complex needs are those caused by acuity of psychotic disorder; cognitive or neurocognitive impairment; need to consider past diagnoses and determine their current applicability; co-occurring substance abuse use disorder; or disruptive or changing environments, communication barriers, or cultural considerations as documented in the assessment. For child clients, the appointments may be conducted outside the diagnostician's office for face-to-face consultation and information gathering with family members, doctors, caregivers, teachers, and other providers, with or without the child present, and may involve directly observing the child in various settings that the child frequents such as home, school, or care settings. To complete the diagnostic assessment with adult clients, the appointments may be conducted outside of the diagnostician's office for face-to-face assessment with the adult client. The appointment may involve directly observing the adult client in various settings that the adult frequents, such as home, school, job, service settings, or community settings. The appointments may include face-to-face meetings with the adult client and the client's family members, doctors, caregivers, teachers, social support network members, recovery support resource representatives, and other providers for consultation and information gathering for the diagnostic assessment. The components of an extended diagnostic assessment include the following relevant information:
 - (1) for children under age 5:
 - (a) utilization of the DC:0-3R diagnostic system for young children;
- (b) an early childhood mental status exam that assesses the client's developmental, social, and emotional functioning and style both within the family and with the examiner and includes:
 - i. physical appearance including dysmorphic features;
 - ii. reaction to new setting and people and adaptation during

evaluation;

- iii. self-regulation, including sensory regulation, unusual behaviors, activity level, attention span, and frustration tolerance;
- iv. physical aspects, including motor function, muscle tone, coordination, tics, abnormal movements, and seizure activity;
- v. vocalization and speech production, including expressive and receptive language;

- vi. thought, including fears, nightmares, dissociative states, and hallucinations;
- vii. affect and mood, including modes of expression, range, responsiveness, duration, and intensity;
- viii. play, including structure, content, symbolic functioning, and modulation of aggression;
 - ix. cognitive functioning; and
 - x. relatedness to parents, other caregivers, and examiner; and
- (c) other assessment tools as determined and periodically revised by the commissioner;
- (2) for children ages 5 to 18, completion of other assessment standards for children as determined and periodically revised by the commissioner; and
- (3) for adults, completion of other assessment standards for adults as determined and periodically revised by the commissioner.
- D. A brief diagnostic assessment must include a face-to-face interview with the client and a written evaluation of the client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The professional or practitioner must gather initial background information using the components of a standard diagnostic assessment in item B, subitems (1), (2), unit (b), (3), and (5), and draw a provisional clinical hypothesis. The clinical hypothesis may be used to address the client's immediate needs or presenting problem. Treatment sessions conducted under authorization of a brief assessment may be used to gather additional information necessary to complete a standard diagnostic assessment or an extended diagnostic assessment.
- E. Adult diagnostic assessment update includes a face-to-face interview with the client, and contains a written evaluation of the client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C, who reviews a standard or extended diagnostic assessment. The adult diagnostic assessment update must update the most recent assessment document in writing in the following areas:
- (1) review of the client's life situation, including an interview with the client about the client's current life situation, and a written update of those parts where significant new or changed information exists, and documentation where there has not been significant change;
- (2) review of the client's presenting problems, including an interview with the client about current presenting problems and a written update of those parts where there is significant new or changed information, and note parts where there has not been significant change;
- (3) screenings for substance use, abuse, or dependency and other screenings as determined by the commissioner;
 - (4) the client's mental health status examination;
- (5) assessment of client's needs based on the client's baseline measurements, symptoms, behavior, skills, abilities, resources, vulnerabilities, and safety needs;
- (6) the client's clinical summary, recommendations, and prioritization of needed mental health, ancillary, or other services, client and family participation in assessment and service preferences, and referrals to services required by statute or rule; and
- (7) the client's diagnosis on all axes of the current edition of the Diagnostic and Statistical Manual and any differential diagnosis.

- Subp. 2. **Neuropsychological assessment.** A neuropsychological assessment must include a face-to-face interview with the client, the interpretation of the test results, and preparation and completion of a report. A client is eligible for a neuropsychological assessment if at least one of the following criteria is met:
- A. There is a known or strongly suspected brain disorder based on medical history or neurological evaluation such as a history of significant head trauma, brain tumor, stroke, seizure disorder, multiple sclerosis, neurodegenerative disorders, significant exposure to neurotoxins, central nervous system infections, metabolic or toxic encephalopathy, fetal alcohol syndrome, or congenital malformations of the brain; or
- B. In the absence of a medically verified brain disorder based on medical history or neurological evaluation, there are cognitive or behavioral symptoms that suggest that the client has an organic condition that cannot be readily attributed to functional psychopathology, or suspected neuropsychological impairment in addition to functional psychopathology. Examples include:
 - (1) poor memory or impaired problem solving;
 - (2) change in mental status evidenced by lethargy, confusion, or disorientation;
 - (3) deterioration in level of functioning;
 - (4) marked behavioral or personality change;
- (5) in children or adolescents, significant delays in academic skill acquisition or poor attention relative to peers;
- (6) in children or adolescents, significant plateau in expected development of cognitive, social, emotional, or physical function, relative to peers; and
- (7) in children or adolescents, significant inability to develop expected knowledge, skills, or abilities as required to adapt to new or changing cognitive, social, emotional, or physical demands.
- C. If neither criterion in item A nor B is fulfilled, neuropsychological evaluation is not indicated.
- D. The neuropsychological assessment must be conducted by a neuropsychologist with competence in the area of neuropsychological assessment as stated to the Minnesota Board of Psychology who:
- (1) was awarded a diploma by the American Board of Clinical Neuropsychology, the American Board of Professional Neuropsychology, or the American Board of Pediatric Neuropsychology;
- (2) earned a doctoral degree in psychology from an accredited university training program:
- (a) completed an internship, or its equivalent, in a clinically relevant area of professional psychology;
- (b) completed the equivalent of two full-time years of experience and specialized training, at least one which is at the postdoctoral level, in the study and practices of clinical neuropsychology and related neurosciences supervised by a clinical neuropsychologist; and
- (c) holds a current license to practice psychology independently in accordance with Minnesota Statutes, sections 148.88 to 148.98;
- (3) is licensed or credentialed by another state's board of psychology examiners in the specialty of neuropsychology using requirements equivalent to requirements specified by one of the boards named in subitem (1); or

(4) was approved by the commissioner as an eligible provider of neuropsychological assessment prior to December 31, 2010.

Subp. 3. Neuropsychological testing.

- A. Medical assistance covers neuropsychological testing when the client has either:
- (1) a significant mental status change that is not a result of a metabolic disorder that has failed to respond to treatment;
- (2) in children or adolescents, a significant plateau in expected development of cognitive, social, emotional, or physical function, relative to peers;
- (3) in children or adolescents, significant inability to develop expected knowledge, skills, or abilities, as required to adapt to new or changing cognitive, social, physical, or emotional demands; or
- (4) a significant behavioral change, memory loss, or suspected neuropsychological impairment in addition to functional psychopathology, or other organic brain injury or one of the following:
 - (a) traumatic brain injury;
 - (b) stroke;
 - (c) brain tumor;
 - (d) substance abuse or dependence;
 - (e) cerebral anoxic or hypoxic episode;
 - (f) central nervous system infection or other infectious disease;
 - (g) neoplasms or vascular injury of the central nervous system;
 - (h) neurodegenerative disorders;
 - (i) demyelinating disease;
 - (i) extrapyramidal disease;
- (k) exposure to systemic or intrathecal agents or cranial radiation known to be associated with cerebral dysfunction;
- (l) systemic medical conditions known to be associated with cerebral dysfunction, including renal disease, hepatic encephalopathy, cardiac anomaly, sickle cell disease, and related hematologic anomalies, and autoimmune disorders such as lupus, erythematosis, or celiac disease;
- (m) congenital genetic or metabolic disorders known to be associated with cerebral dysfunction, such as phenylketonuria, craniofacial syndromes, or congenital hydrocephalus;
 - (n) severe or prolonged nutrition or malabsorption syndromes; or
- (o) a condition presenting in a manner making it difficult for a clinician to distinguish between:
- i. the neurocognitive effects of a neurogenic syndrome such as dementia or encephalopathy; and
- ii. a major depressive disorder when adequate treatment for major depressive disorder has not resulted in improvement in neurocognitive function, or another disorder such as autism, selective mutism, anxiety disorder, or reactive attachment disorder.
- B. Neuropsychological testing must be administered or clinically supervised by a neuropsychologist qualified as defined in subpart 2, item D.

- C. Neuropsychological testing is not covered when performed:
 - (1) primarily for educational purposes;
 - (2) primarily for vocational counseling or training;
 - (3) for personnel or employment testing;
- (4) as a routine battery of psychological tests given at inpatient admission or continued stay; or
 - (5) for legal or forensic purposes.
- Subp. 4. **Psychological testing.** Psychological testing must meet the following requirements:
 - A. The psychological testing must:
- (1) be administered or clinically supervised by a licensed psychologist with competence in the area of psychological testing as stated to the Minnesota Board of Psychology; and
- (2) be validated in a face-to-face interview between the client and a licensed psychologist or a mental health practitioner working as a clinical psychology trainee as required by part 9505.0371, subpart 5, item C, under the clinical supervision of a licensed psychologist according to part 9505.0371, subpart 5, item A, subitem (2).
- B. The administration, scoring, and interpretation of the psychological tests must be done under the clinical supervision of a licensed psychologist when performed by a technician, psychometrist, or psychological assistant or as part of a computer-assisted psychological testing program.
 - C. The report resulting from the psychological testing must be:
 - (1) signed by the psychologist conducting the face-to-face interview;
 - (2) placed in the client's record; and
 - (3) released to each person authorized by the client.
- Subp. 5. **Explanations of findings.** To be eligible for medical assistance payment, the mental health professional providing the explanation of findings must obtain the authorization of the client or the client's representative to release the information as required in part 9505.0371, subpart 6. Explanation of findings is provided to the client, client's family, and caregivers, or to other providers to help them understand the results of the testing or diagnostic assessment, better understand the client's illness, and provide professional insight needed to carry out a plan of treatment. An explanation of findings is not paid separately when the results of psychological testing or a diagnostic assessment are explained to the client or the client's representative as part of the psychological testing or a diagnostic assessment.
- Subp. 6. **Psychotherapy.** Medical assistance covers psychotherapy as conducted by a mental health professional or a mental health practitioner as defined in part 9505.0371, subpart 5, item C, as provided in this subpart.
 - A. Individual psychotherapy is psychotherapy designed for one client.
- B. Family psychotherapy is designed for the client and one or more family members or the client's primary caregiver whose participation is necessary to accomplish the client's treatment goals. Family members or primary caregivers participating in a therapy session do not need to be eligible for medical assistance. For purposes of this subpart, the phrase "whose participation is necessary to accomplish the client's treatment goals" does not include shift or facility staff members at the client's residence. Medical assistance payment for family psychotherapy is limited to face-to-face sessions at which the client is present throughout the family psychotherapy session unless the mental health professional believes

the client's absence from the family psychotherapy session is necessary to carry out the client's individual treatment plan. If the client is excluded, the mental health professional must document the reason for and the length of time of the exclusion. The mental health professional must also document the reason or reasons why a member of the client's family is excluded.

- C. Group psychotherapy is appropriate for individuals who because of the nature of their emotional, behavioral, or social dysfunctions can derive mutual benefit from treatment in a group setting. For a group of three to eight persons, one mental health professional or practitioner is required to conduct the group. For a group of nine to 12 persons, a team of at least two mental health professionals or two mental health practitioners or one mental health professional and one mental health practitioner is required to co-conduct the group. Medical assistance payment is limited to a group of no more than 12 persons.
- D. A multiple-family group psychotherapy session is eligible for medical assistance payment if the psychotherapy session is designed for at least two but not more than five families. Multiple-family group psychotherapy is clearly directed toward meeting the identified treatment needs of each client as indicated in client's treatment plan. If the client is excluded, the mental health professional or practitioner must document the reason for and the length of the time of the exclusion. The mental health professional or practitioner must document the reasons why a member of the client's family is excluded.
- Subp. 7. **Medication management.** The determination or evaluation of the effectiveness of a client's prescribed drug must be carried out by a physician or by an advanced practice registered nurse, as defined in Minnesota Statutes, sections 148.171 to 148.285, who is qualified in psychiatric nursing.
- Subp. 8. **Adult day treatment.** Adult day treatment payment limitations include the following conditions.
- A. Adult day treatment must consist of at least one hour of group psychotherapy, and must include group time focused on rehabilitative interventions, or other therapeutic services that are provided by a multidisciplinary staff. Adult day treatment is an intensive psychotherapeutic treatment. The services must stabilize the client's mental health status, and develop and improve the client's independent living and socialization skills. The goal of adult day treatment is to reduce or relieve the effects of mental illness so that an individual is able to benefit from a lower level of care and to enable the client to live and function more independently in the community. Day treatment services are not a part of inpatient or residential treatment services.
 - B. To be eligible for medical assistance payment, a day treatment program must:
 - (1) be reviewed by and approved by the commissioner;
- (2) be provided to a group of clients by a multidisciplinary staff under the clinical supervision of a mental health professional;
- (3) be available to the client at least two days a week for at least three consecutive hours per day. The day treatment may be longer than three hours per day, but medical assistance must not reimburse a provider for more than 15 hours per week;
- (4) include group psychotherapy done by a mental health professional, or mental health practitioner qualified according to part 9505.0371, subpart 5, item C, and rehabilitative interventions done by a mental health professional or mental health practitioner daily;
- (5) be included in the client's individual treatment plan as necessary and appropriate. The individual treatment plan must include attainable, measurable goals as they relate to services and must be completed before the first day treatment session. The vendor must review the recipient's progress and update the treatment plan at least every 30 days until the client is discharged and include an available discharge plan for the client in the treatment plan; and

- (6) document the interventions provided and the client's response daily.
- C. To be eligible for adult day treatment, a recipient must:
 - (1) be 18 years of age or older;
- (2) not be residing in a nursing facility, hospital, institute of mental disease, or regional treatment center, unless the recipient has an active discharge plan that indicates a move to an independent living arrangement within 180 days;
- (3) have a diagnosis of mental illness as determined by a diagnostic assessment;
- (4) have the capacity to engage in the rehabilitative nature, the structured setting, and the therapeutic parts of psychotherapy and skills activities of a day treatment program and demonstrate measurable improvements in the recipient's functioning related to the recipient's mental illness that would result from participating in the day treatment program;
- (5) have at least three areas of functional impairment as determined by a functional assessment with the domains prescribed by Minnesota Statutes, section 245.462, subdivision 11a;
- (6) have a level of care determination that supports the need for the level of intensity and duration of a day treatment program; and
- (7) be determined to need day treatment by a mental health professional who must deem the day treatment services medically necessary.
- D. The following services are not covered by medical assistance if they are provided by a day treatment program:
- (1) a service that is primarily recreation-oriented or that is provided in a setting that is not medically supervised. This includes: sports activities, exercise groups, craft hours, leisure time, social hours, meal or snack time, trips to community activities, and tours;
- (2) a social or educational service that does not have or cannot reasonably be expected to have a therapeutic outcome related to the client's mental illness;
- (3) consultation with other providers or service agency staff about the care or progress of a client;
 - (4) prevention or education programs provided to the community;
- (5) day treatment for recipients with primary diagnoses of alcohol or other drug abuse;
 - (6) day treatment provided in the client's home;
 - (7) psychotherapy for more than two hours daily; and
- (8) participation in meal preparation and eating that is not part of a clinical treatment plan to address the client's eating disorder.
- Subp. 9. **Partial hospitalization.** Partial hospitalization is a covered service when it is an appropriate alternative to inpatient hospitalization for a client who is experiencing an acute episode of mental illness that meets the criteria for an inpatient hospital admission as specified in part 9505.0520, subpart 1, and who has the family and community resources necessary and appropriate to support the client's residence in the community. Partial hospitalization consists of multiple intensive short-term therapeutic services provided by a multidisciplinary staff to treat the client's mental illness.
- Subp. 10. **Dialectical behavior therapy (DBT).** Dialectical behavior therapy (DBT) treatment services must meet the following criteria:

- A. DBT must be provided according to this subpart and Minnesota Statutes, section 256B.0625, subdivision 51.
- B. - Subp. 2. **Intake and case assignment.** The center shall establish an intake or admission procedure which outlines the intake process, including the determination of the appropriateness of accepting a person as a client by reviewing the client's condition and need for treatment, the clinical services offered by the center, and other available resources. The center shall document that case assignment for assessment, diagnosis, and treatment is made to a multidisciplinary staff person who is competent in the service, in the recommended treatment strategy and in treating the individual client characteristics. Responsibility for each case shall remain with a mental health professional.

The multidisciplinary staff shall attend staff meetings at least twice monthly for a minimum of four hours per month, or a minimum of two hours per month if the multidisciplinary staff person provides clinical services in the treatment of mental illness less than 15 hours per week. The purpose of these meetings shall be case review and consultation. Written minutes of the meeting shall be maintained at the center for at least three years after the meeting.
