53.1 Subd. 7. **District action.** A district may enter into a guaranteed energy-savings
 53.2 contract with a qualified provider if, after review of the report and the commissioner's
 53.3 evaluation if requested, or if required under section 216C.372, the board finds that the
 53.4 amount it would spend on the energy conservation measures recommended in the report is
 53.5 not likely to exceed the amount to be saved in energy and operation costs over ~~15~~ 20 years
 53.6 from the date of installation if the recommendations in the report were followed, and the
 53.7 qualified provider provides a written guarantee that the energy or operating cost savings
 53.8 will meet or exceed the costs of the system. The guaranteed energy-savings contract may
 53.9 provide for payments over a period of time, not to exceed ~~15~~ 20 years. Notwithstanding
 53.10 section 123B.79, a district annually may transfer from the general fund to the reserve for
 53.11 operating capital account an amount up to the amount saved in energy and operation costs
 53.12 as a result of guaranteed energy-savings contracts.

53.13 Sec. 37. Minnesota Statutes 2012, section 174.50, subdivision 6b, is amended to read:

54.1 (b) The maximum use of standardized bridges is encouraged. Regardless of the size
54.2 of the existing bridge, a bridge or replacement bridge is eligible for assistance from the

54.5 (c) As part of the standards or rules, the commissioner shall, in consultation with
54.6 local road authorities, establish a minimum distance between any two bridges that cross
54.7 over the same river, stream, or waterway, so that only one of the bridges is eligible for a

54.9 the minimum distance requirement or procedures for obtaining a variance.

54.10 (d) Political subdivisions may use grants made under this section to construct or
54.11 reconstruct bridges, including but not limited to:

54.12 (1) matching federal aid grants to construct or reconstruct key bridges;

54.13 (2) paying the costs to abandon an existing bridge that is deficient and in need of
54.14 replacement, but where no replacement will be made; and

54.15 (3) paying the costs to construct a road or street to facilitate the abandonment of
54.16 an existing bridge, if the commissioner determines that the bridge is deficient, and that
54.17 construction of the road or street is more economical than replacement of the existing
54.18 bridge.

54.19 (e) Funds appropriated to the commissioner from the Minnesota state transportation
54.20 fund shall be segregated from the highway tax user distribution fund and other funds
54.21 created by article XIV of the Minnesota Constitution.

**116J.433 BUSINESS DEVELOPMENT THROUGH CAPITAL PROJECTS
GRANT PROGRAM.**

Subdivision 1. **Creation of account.** A business development through capital projects account is created in the bond proceeds fund. Money in the account may only be used for capital costs for eligible projects and public infrastructure.

Subd. 2. **Definitions.** For purposes of this section:

(1) "local government unit" means a county, city, town, special district, public higher education institution, or other political subdivision or public corporation;

(2) "governing body" means the city council, board of county commissioners, town board of supervisors, board of trustees, board of regents, or other body charged with governing a political subdivision of the state;

(3) "public infrastructure" means publicly owned physical infrastructure in this state, including, but not limited to, wastewater collection and treatment systems, drinking water systems, storm sewers, utility extensions, telecommunications infrastructure, streets, roads, bridges, and parking ramps; and

(4) "eligible project" means any project for which general obligation bonds of the state may be issued. Eligible projects must be capital projects for acquisition or improvement of publicly owned fixed assets having a useful life of at least ten years.

Subd. 3. **Grant program established.** The commissioner shall make competitive grants to local government units for eligible projects and public infrastructure required to support an eligible project, which may include: predesign, design, acquisition of land or buildings, construction, furnishing, and equipping a new or renovated building. The local government unit may employ or contract with persons, firms, or corporations to perform one or more or all of the functions of architect, engineer, or construction manager with respect to all or any part of an eligible project and related public infrastructure. The local government unit may deliver the eligible project and related public infrastructure through either a design-build or construction manager at-risk method. To the extent practicable and at the discretion of the local government unit, the local government unit may have rights and exercise powers with respect to the acquisition, construction, use, and operation of an eligible project, as are granted under section 473.756. No consent or approval of another political subdivision is required for the effectiveness or the exercise by a local government unit of the rights or powers.

Subd. 4. **Application.** (a) A local government unit must apply to the commissioner for a grant under this section. At a minimum, a local government unit must include the following information in its application:

(1) a resolution of its governing body certifying that the money required to be supplied by the local government unit to complete the project is available and committed;

(2) a detailed estimate, along with necessary supporting evidence, of the total costs of the eligible project;

(3) an assessment of the potential or likely use of the site for innovative business activities after completion of the eligible project;

(4) a timeline indicating the major milestones for the eligible project, including anticipated completion dates;

(5) an estimate of the operating costs for the project for ten years following completion; and

(6) any additional information or material the commissioner prescribes.

(b) The determination of whether to make a grant under subdivision 3 is within the discretion of the commissioner, subject to this section.

Subd. 5. **Match.** An amount granted under this program must be matched with at least an equal amount from nonstate sources. Any contribution to a project from nonstate sources made before a grant award is made under this section shall count towards the match requirement.

Subd. 6. **Priorities.** (a) If applications for grants exceed the available appropriation, grants must be made for projects that, in the commissioner's judgment, provide the highest return in public benefits for the public costs incurred. In making this judgment, the commissioner shall evaluate and prioritize eligible projects on the following characteristics:

(1) creation of new jobs, retention of existing jobs, or improvements in the quality of existing jobs as measured by the wages, skills, or education associated with those jobs;

(2) improvement in the quality of existing jobs, based on increases in wages or improvements in the job duties, training, or education associated with those jobs;

(3) increase in the local tax base, based on demonstrated measurable outcomes;

(4) demonstration that investment of public dollars in the project will induce private investment;

(b) The factors in paragraph (a) are not listed in a rank order of priority; rather, the commissioner may weigh each factor, depending upon the facts and circumstances, as the commissioner considers appropriate. In prioritizing projects, the commissioner shall make an appropriate balance between the metropolitan area and greater Minnesota.
