 34.3 **REPLACEMENT.**

34.4 (a) Except as provided in sections 103G.221 to 103G.235, public waters may not be
 34.5 drained, and a permit authorizing drainage of public waters may not be issued, unless the
 34.6 public waters to be drained are replaced by public waters that will have equal or greater
 34.7 public value.

34.8 (b) Nothing in this section shall be construed to prevent the commissioner from issuing
 34.9 or amending a water-use permit for appropriation from groundwater where:

34.10 (1) the application is for a new groundwater well or to increase appropriation amounts
 34.11 under an existing permit;

34.12 (2) the applicant is a municipality wholly or partially located within a five-mile radius
 34.13 of White Bear Lake; and

34.14 (3) the amount of water to be appropriated under the proposal is consistent with the
 34.15 amount anticipated to be needed by the applicant each year according to a water supply
 34.16 plan approved by the commissioner under section 103G.291 before 2021.

34.17 (c) Paragraph (b) and this paragraph expire January 1, 2041.

34.18 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 34.19 applies to applications for new or modified permits filed on or after that date.

34.20 Sec. 33. Minnesota Statutes 2020, section 103G.223, is amended to read:

34.21 **103G.223 CALCAREOUS FENS.**

34.22 (a) Calcareous fens, as identified by the commissioner by written order published in the
 34.23 State Register, may not be filled, drained, or otherwise degraded, wholly or partially, by
 34.24 any activity, unless the commissioner, under an approved management plan, decides some
 34.25 alteration is necessary or as provided in paragraph (b). Identifications made by the
 34.26 commissioner are not subject to the rulemaking provisions of chapter 14 and section 14.386
 34.27 does not apply.

34.28 (b) The commissioner may allow water appropriations that result in temporary reductions
 34.29 in groundwater resources on a seasonal basis under an approved calcareous fen management
 34.30 plan.

35.1 (c) If the commissioner determines that a water appropriation permit cannot be issued
35.2 or renewed because of this section, the commissioner must, within one year of the date of
35.3 denial and at no cost to the applicant, provide the applicant with a groundwater and surface
35.4 water hydrologic evaluation that demonstrates by a preponderance of the evidence the basis
35.5 for that conclusion.

35.6 (d) An applicant whose permit is denied under this section may file a written request
35.7 with the commissioner to designate a mutually agreed upon third-party expert to review the
35.8 evaluation provided under paragraph (c) at no cost to the applicant and to make
35.9 recommendations to the commissioner about whether the permit should be issued. The third
35.10 party expert must agree to provide the commissioner and applicant with the expert's
35.11 recommendations within 90 days of agreeing to review the evaluation.

35.12 (e) A permit applicant may file for a contested case hearing under chapter 14 within 30
35.13 days of the later of the following:

35.14 (1) the date by which the hydrologic evaluation was required to have been provided to
35.15 the applicant under paragraph (c);

35.16 (2) receiving the recommendations of the third party who is reviewing the evaluation
35.17 under paragraph (d); or

35.18 (3) determining that no mutually agreed upon third-party expert can be found.

35.19 (f) Any permit applicant who has had a water appropriation permit previously denied
35.20 under this section may resubmit a permit application under this section and is entitled to all
35.21 rights and reviews available under this section.

35.22 Sec. 34. Minnesota Statutes 2021 Supplement, section 103G.271, subdivision 4a, is
35.23 amended to read:

35.24 Subd. 4a. **Mt. Simon-Hinckley aquifer.** The commissioner may not issue new water-use
35.25 permits that will appropriate water from the Mt. Simon-Hinckley aquifer unless:

35.26 (1) the appropriation is for potable water use, there are no feasible or practical alternatives
35.27 to this source, and a water conservation plan is incorporated with the permit; or

35.28 (2) the appropriation is for less than 4,000,000 gallons per year and is to facilitate the
35.29 growth of trees.

36.1 Sec. 35. Minnesota Statutes 2020, section 103G.271, subdivision 7, is amended to read:

36.2 Subd. 7. **Transferring permit.** (a) A water-use permit may be transferred to a successive
36.3 owner of real property if the permittee conveys the real property where the source of water
36.4 is located. The new owner must notify the commissioner immediately after the conveyance
36.5 and request transfer of the permit. The commissioner must not deny the transfer of a permit
36.6 if the permittee is in compliance with all permit conditions and the permit meets the
36.7 requirements of sections 103G.255 to 103G.301.

36.8 (b) When transferring a permit, the commissioner must not require additional conditions
36.9 on the permit, reduce the appropriation, reduce the term, or require any testing.

36.10 Sec. 36. Minnesota Statutes 2020, section 103G.271, is amended by adding a subdivision
36.11 to read:

36.12 Subd. 8. **Management plans; effect on land values.** Before a management plan for
36.13 appropriating water is prepared, the commissioner must provide estimates of the impact of
36.14 any new restriction or policy on land values in the affected area. Strategies to address adverse
36.15 impacts to land values must be included in the plan.

36.16 Sec. 37. Minnesota Statutes 2020, section 103G.285, is amended by adding a subdivision
36.17 to read:

36.18 Subd. 7. **Application.** (a) Nothing in this section shall be construed to prevent the
36.19 commissioner from issuing or amending a water-use permit for appropriation from
36.20 groundwater where:

36.21 (1) the application is for a new groundwater well or to increase appropriation amounts
36.22 under an existing permit;

36.23 (2) the applicant is a municipality wholly or partially located within a five-mile radius
36.24 of White Bear Lake; and

36.25 (3) the amount of water to be appropriated under the proposal is consistent with the
36.26 amount anticipated to be needed by the applicant each year according to a water supply
36.27 plan approved by the commissioner under section 103G.291 before 2021.

36.28 (b) This subdivision expires January 1, 2041.

36.29 **EFFECTIVE DATE.** This section is effective the day following final enactment and
36.30 applies to applications for new or modified permits filed on or after that date.

37.1 Sec. 38. Minnesota Statutes 2020, section 103G.287, subdivision 4, is amended to read:

37.2 Subd. 4. **Groundwater management areas.** (a) The commissioner may designate
37.3 groundwater management areas and limit total annual water appropriations and uses within
37.4 a designated area to ensure sustainable use of groundwater that protects ecosystems, water
37.5 quality, and the ability of future generations to meet their own needs. Water appropriations
37.6 and uses within a designated management area must be consistent with a groundwater
37.7 management area plan approved by the commissioner that addresses water conservation
37.8 requirements and water allocation priorities established in section 103G.261. During
37.9 development of a groundwater management area plan, the commissioner and employees
37.10 and agents of the department may disseminate information related to the timing, location,
37.11 and agendas of meetings related to the plan, but must otherwise limit public information
37.12 related to the groundwater management area plan to direct factual responses to public and
37.13 media inquiries. At least 30 days prior to implementing or modifying a groundwater
37.14 management area plan under this subdivision, the commissioner shall consult with the
37.15 advisory team established in paragraph (c).

37.16 (b) Notwithstanding section 103G.271, subdivision 1, paragraph (b), and Minnesota
37.17 Rules, within designated groundwater management areas, the commissioner may require
37.18 general permits as specified in section 103G.271, subdivision 1, paragraph (c), for water
37.19 users using less than 10,000 gallons per day or 1,000,000 gallons per year and water suppliers
37.20 serving less than 25 persons for domestic purposes. The commissioner may waive the
37.21 requirements under section 103G.281 for general permits issued under this paragraph, and
37.22 the fee specified in section 103G.301, subdivision 2, paragraph (c), does not apply to general
37.23 permits issued under this paragraph.

37.24 (c) When designating a groundwater management area, the commissioner shall assemble
37.25 an advisory team to assist in developing a groundwater management area plan for the area.
37.26 The advisory team members shall be selected from public and private entities that have an
37.27 interest in the water resources affected by the groundwater management area. A majority
37.28 of the advisory team members shall be public and private entities that currently hold water-use
37.29 permits for water appropriations from the affected water resources. The commissioner shall
37.30 consult with the League of Minnesota Cities, the Association of Minnesota Counties, the
37.31 Minnesota Association of Watershed Districts, and the Minnesota Association of Townships
37.32 in appointing the local government representatives to the advisory team. The advisory team
37.33 may also include representatives from the University of Minnesota, the Minnesota State
37.34 Colleges and Universities, other institutions of higher learning in Minnesota, political

38.1 subdivisions with jurisdiction over water issues, nonprofits with expertise in water, and
38.2 federal agencies.

38.3 (d) Before designating a groundwater management area, the commissioner must provide
38.4 estimates of the impact of any new restriction or policy on land values in the affected area.
38.5 Strategies to address adverse impacts to land values must be included in any plan.

38.6 Sec. 39. Minnesota Statutes 2020, section 103G.287, subdivision 5, is amended to read:

38.7 Subd. 5. **Sustainability standard.** (a) The commissioner may issue water-use permits
38.8 for appropriation from groundwater only if the commissioner determines that the groundwater
38.9 use is sustainable to supply the needs of future generations and the proposed use will not
38.10 harm ecosystems, degrade water, or reduce water levels beyond the reach of public water
38.11 supply and private domestic wells constructed according to Minnesota Rules, chapter 4725.

38.12 (b) For the purposes of this subdivision and subdivision 4, "sustainable" means a change
38.13 in hydrologic regime of 20 percent or less relative to the August median stream flow.

38.14 Sec. 40. Minnesota Statutes 2020, section 103G.287, is amended by adding a subdivision
38.15 to read:

38.16 Subd. 6. **Application.** (a) Nothing in this section shall be construed to prevent the
38.17 commissioner from issuing or amending a water-use permit for appropriation from
38.18 groundwater where:

38.19 (1) the application is for a new groundwater well or to increase appropriation amounts
38.20 under an existing permit;

38.21 (2) the applicant is a municipality wholly or partially located within a five-mile radius
38.22 of White Bear Lake; and

38.23 (3) the amount of water to be appropriated under the proposal is consistent with the
38.24 amount anticipated to be needed by the applicant each year according to a water supply
38.25 plan approved by the commissioner under section 103G.291 before 2021.

38.26 (b) This subdivision expires January 1, 2041.

38.27 **EFFECTIVE DATE.** This section is effective the day following final enactment and
38.28 applies to applications for new or modified permits filed on or after that date.

39.1 Sec. 41. Minnesota Statutes 2020, section 103G.287, is amended by adding a subdivision
39.2 to read:

39.3 Subd. 7. **Issuance of certain permits.** (a) Notwithstanding any other provision of law,
39.4 the commissioner must issue a water-use permit for appropriation from groundwater that
39.5 meets the criteria of subdivision 6. Nothing in this subdivision shall be construed to prohibit
39.6 the commissioner from imposing conditions on the permit so long as the conditions do not
39.7 prevent the applicant from appropriating the amount of groundwater applied for.

39.8 (b) This subdivision expires January 1, 2041.

39.9 **EFFECTIVE DATE.** This section is effective the day following final enactment and
39.10 applies to applications for new or modified permits filed on or after that date.

39.11 Sec. 42. Minnesota Statutes 2020, section 103G.289, is amended to read:

39.12 **103G.289 WELL INTERFERENCE; ~~WELL SEALING VALIDATION;~~**
39.13 **CONTESTED CASE.**

39.14 (a) The commissioner shall not validate a claim for well interference claim if the affected
39.15 well has been sealed prior to the completion of the commissioner's investigation of the
39.16 complaint. If the well is sealed prior to completion of the investigation, the commissioner
39.17 must dismiss the complaint.

39.18 (b) When validating a claim for well interference, the commissioner must take into
39.19 account the condition of the affected well.

39.20 (c) Within 30 days after the commissioner's decision on a claim for well interference, a
39.21 party ordered by the commissioner to contribute to an affected well owner may petition for
39.22 a contested case hearing under sections 14.57 to 14.62. The commissioner must grant the
39.23 petitioner a contested case hearing on the commissioner's decision.

39.24 Sec. 43. Minnesota Statutes 2020, section 115.03, subdivision 1, is amended to read:

39.25 Subdivision 1. **Generally.** (a) The agency is hereby given and charged with the following
39.26 powers and duties:

39.27 ~~(a)~~ (1) to administer and enforce all laws relating to the pollution of any of the waters
39.28 of the state;

39.29 ~~(b)~~ (2) to investigate the extent, character, and effect of the pollution of the waters of
39.30 this state and to gather data and information necessary or desirable in the administration or

40.1 enforcement of pollution laws, and to make such classification of the waters of the state as
40.2 it may deem advisable;

40.3 ~~(e)~~ (3) to establish and alter such reasonable pollution standards for any waters of the
40.4 state in relation to the public use to which they are or may be put as it ~~shall~~ must deem
40.5 necessary for the purposes of this chapter and, with respect to the pollution of waters of the
40.6 state, chapter 116;

40.7 ~~(d)~~ (4) to encourage waste treatment, including advanced waste treatment, instead of
40.8 stream low-flow augmentation for dilution purposes to control and prevent pollution;

40.9 ~~(e)~~ (5) to adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable
40.10 orders, permits, variances, standards, rules, schedules of compliance, and stipulation
40.11 agreements, under such conditions as it may prescribe, in order to prevent, control or abate
40.12 water pollution, or for the installation or operation of disposal systems or parts thereof, or
40.13 for other equipment and facilities:

40.14 ~~(1)~~ (i) requiring the discontinuance of the discharge of sewage, industrial waste or other
40.15 wastes into any waters of the state resulting in pollution in excess of the applicable pollution
40.16 standard established under this chapter;

40.17 ~~(2)~~ (ii) prohibiting or directing the abatement of any discharge of sewage, industrial
40.18 waste, or other wastes, into any waters of the state or the deposit thereof or the discharge
40.19 into any municipal disposal system where the same is likely to get into any waters of the
40.20 state in violation of this chapter and, with respect to the pollution of waters of the state,
40.21 chapter 116, or standards or rules promulgated or permits issued pursuant thereto, and
40.22 specifying the schedule of compliance within which such prohibition or abatement must be
40.23 accomplished;

40.24 ~~(3)~~ (iii) prohibiting the storage of any liquid or solid substance or other pollutant in a
40.25 manner which does not reasonably assure proper retention against entry into any waters of
40.26 the state that would be likely to pollute any waters of the state;

40.27 ~~(4)~~ (iv) requiring the construction, installation, maintenance, and operation by any person
40.28 of any disposal system or any part thereof, or other equipment and facilities, or the
40.29 reconstruction, alteration, or enlargement of its existing disposal system or any part thereof,
40.30 or the adoption of other remedial measures to prevent, control or abate any discharge or
40.31 deposit of sewage, industrial waste or other wastes by any person;

40.32 ~~(5)~~ (v) establishing, and from time to time revising, standards of performance for new
40.33 sources taking into consideration, among other things, classes, types, sizes, and categories

41.1 of sources, processes, pollution control technology, cost of achieving such effluent reduction,
41.2 and any nonwater quality environmental impact and energy requirements. Said standards
41.3 of performance for new sources ~~shall~~ must encompass those standards for the control of the
41.4 discharge of pollutants which reflect the greatest degree of effluent reduction which the
41.5 agency determines to be achievable through application of the best available demonstrated
41.6 control technology, processes, operating methods, or other alternatives, including, where
41.7 practicable, a standard permitting no discharge of pollutants. New sources ~~shall~~ must
41.8 encompass buildings, structures, facilities, or installations from which there is or may be
41.9 the discharge of pollutants, the construction of which is commenced after the publication
41.10 by the agency of proposed rules prescribing a standard of performance which will be
41.11 applicable to such source. Notwithstanding any other provision of the law of this state, any
41.12 point source the construction of which is commenced after May 20, 1973, and which is so
41.13 constructed as to meet all applicable standards of performance for new sources ~~shall~~ must,
41.14 consistent with and subject to the provisions of section 306(d) of the Amendments of 1972
41.15 to the Federal Water Pollution Control Act, not be subject to any more stringent standard
41.16 of performance for new sources during a ten-year period beginning on the date of completion
41.17 of such construction or during the period of depreciation or amortization of such facility
41.18 for the purposes of section 167 or 169, or both, of the Federal Internal Revenue Code of
41.19 1954, whichever period ends first. Construction ~~shall~~ must encompass any placement,
41.20 assembly, or installation of facilities or equipment, including contractual obligations to
41.21 purchase such facilities or equipment, at the premises where such equipment will be used,
41.22 including preparation work at such premises;

41.23 ~~(6)~~ (vi) establishing and revising pretreatment standards to prevent or abate the discharge
41.24 of any pollutant into any publicly owned disposal system, which pollutant interferes with,
41.25 passes through, or otherwise is incompatible with such disposal system;

41.26 ~~(7)~~ (vii) requiring the owner or operator of any disposal system or any point source to
41.27 establish and maintain such records, make such reports, install, use, and maintain such
41.28 monitoring equipment or methods, including where appropriate biological monitoring
41.29 methods, sample such effluents in accordance with such methods, at such locations, at such
41.30 intervals, and in such a manner as the agency ~~shall~~ must prescribe, and providing such other
41.31 information as the agency may reasonably require;

41.32 ~~(8)~~ (viii) notwithstanding any other provision of this chapter, and with respect to the
41.33 pollution of waters of the state, chapter 116, requiring the achievement of more stringent
41.34 limitations than otherwise imposed by effluent limitations in order to meet any applicable
41.35 water quality standard by establishing new effluent limitations, based upon section 115.01,

42.1 subdivision 13, clause (b), including alternative effluent control strategies for any point
 42.2 source or group of point sources to insure the integrity of water quality classifications,
 42.3 whenever the agency determines that discharges of pollutants from such point source or
 42.4 sources, with the application of effluent limitations required to comply with any standard
 42.5 of best available technology, would interfere with the attainment or maintenance of the
 42.6 water quality classification in a specific portion of the waters of the state. Prior to
 42.7 establishment of any such effluent limitation, the agency ~~shall~~ must hold a public hearing
 42.8 to determine the relationship of the economic and social costs of achieving such limitation
 42.9 or limitations, including any economic or social dislocation in the affected community or
 42.10 communities, to the social and economic benefits to be obtained and to determine whether
 42.11 or not such effluent limitation can be implemented with available technology or other
 42.12 alternative control strategies. If a person affected by such limitation demonstrates at such
 42.13 hearing that, whether or not such technology or other alternative control strategies are
 42.14 available, there is no reasonable relationship between the economic and social costs and
 42.15 the benefits to be obtained, such limitation ~~shall~~ must not become effective and ~~shall~~ must
 42.16 be adjusted as it applies to such person;

42.17 ~~(9)~~ (ix) modifying, in its discretion, any requirement or limitation based upon best
 42.18 available technology with respect to any point source for which a permit application is filed
 42.19 after July 1, 1977, upon a showing by the owner or operator of such point source satisfactory
 42.20 to the agency that such modified requirements will represent the maximum use of technology
 42.21 within the economic capability of the owner or operator and will result in reasonable further
 42.22 progress toward the elimination of the discharge of pollutants; and

42.23 ~~(10)~~ (x) requiring that applicants for wastewater discharge permits evaluate in their
 42.24 applications the potential reuses of the discharged wastewater;

42.25 ~~(f)~~ (6) to require to be submitted and to approve plans and specifications for disposal
 42.26 systems or point sources, or any part thereof and to inspect the construction thereof for
 42.27 compliance with the approved plans and specifications thereof;

42.28 ~~(g)~~ (7) to prescribe and alter rules, not inconsistent with law, for the conduct of the
 42.29 agency and other matters within the scope of the powers granted to and imposed upon it by
 42.30 this chapter and, with respect to pollution of waters of the state, in chapter 116, provided
 42.31 that every rule affecting any other department or agency of the state or any person other
 42.32 than a member or employee of the agency ~~shall~~ must be filed with the secretary of state;

42.33 ~~(h)~~ (8) to conduct such investigations, issue such notices, public and otherwise, and hold
 42.34 such hearings as are necessary or which it may deem advisable for the discharge of its duties

43.1 under this chapter and, with respect to the pollution of waters of the state, under chapter
 43.2 116, including, but not limited to, the issuance of permits, and to authorize any member,
 43.3 employee, or agent appointed by it to conduct such investigations or, issue such notices and
 43.4 hold such hearings;

43.5 ~~(9)~~ (9) for the purpose of water pollution control planning by the state and pursuant to
 43.6 the Federal Water Pollution Control Act, as amended, to establish and revise planning areas,
 43.7 adopt plans and programs and continuing planning processes, including, but not limited to,
 43.8 basin plans and areawide waste treatment management plans, and to provide for the
 43.9 implementation of any such plans by means of, including, but not limited to, standards, plan
 43.10 elements, procedures for revision, intergovernmental cooperation, residual treatment process
 43.11 waste controls, and needs inventory and ranking for construction of disposal systems;

43.12 ~~(10)~~ (10) to train water pollution control personnel; and charge such fees ~~therefor as are~~
 43.13 for the training as necessary to cover the agency's costs. The fees under this clause are
 43.14 subject to legislative approval under section 16A.1283. All such fees received shall must
 43.15 be paid into the state treasury and credited to the Pollution Control Agency training account;

43.16 ~~(11)~~ (11) to impose as additional conditions in permits to publicly owned disposal systems
 43.17 appropriate measures to insure compliance by industrial and other users with any pretreatment
 43.18 standard, including, but not limited to, those related to toxic pollutants, and any system of
 43.19 user charges ratably as is hereby required under state law or said Federal Water Pollution
 43.20 Control Act, as amended, or any regulations or guidelines promulgated thereunder;

43.21 ~~(12)~~ (12) to set a period not to exceed five years for the duration of any national pollutant
 43.22 discharge elimination system permit or not to exceed ten years for any permit issued as a
 43.23 state disposal system permit only;

43.24 ~~(13)~~ (13) to require each governmental subdivision identified as a permittee for a
 43.25 wastewater treatment works to evaluate in every odd-numbered year the condition of its
 43.26 existing system and identify future capital improvements that will be needed to attain or
 43.27 maintain compliance with a national pollutant discharge elimination system or state disposal
 43.28 system permit; and

43.29 ~~(14)~~ (14) to train subsurface sewage treatment system personnel, including persons who
 43.30 design, construct, install, inspect, service, and operate subsurface sewage treatment systems,
 43.31 and charge fees for the training as necessary to pay the agency's costs. The fees under this
 43.32 clause are subject to legislative approval under section 16A.1283. All fees received must
 43.33 be paid into the state treasury and credited to the agency's training account. Money in the
 43.34 account is appropriated to the agency to pay expenses related to training.

44.1 (b) The information required in paragraph (a), clause ~~(m)~~ (13), must be submitted in
 44.2 every odd-numbered year to the commissioner on a form provided by the commissioner.
 44.3 The commissioner ~~shall~~ must provide technical assistance if requested by the governmental
 44.4 subdivision.

44.5 (c) The powers and duties given the agency in this subdivision also apply to permits
 44.6 issued under chapter 114C.

44.7 Sec. 44. Minnesota Statutes 2020, section 115.455, is amended to read:

44.8 **115.455 EFFLUENT LIMITATIONS; COMPLIANCE.**

44.9 To the extent allowable under federal law, for a municipality that constructs a publicly
 44.10 owned treatment works or for an industrial national pollutant discharge elimination system
 44.11 and state disposal system permit holder that constructs a treatment works to comply with a
 44.12 new or modified effluent limitation, compliance with any new or modified effluent limitation
 44.13 adopted after construction begins that would require additional capital investment is required
 44.14 no sooner than 16 years after the date the facility begins operating.

44.15 Sec. 45. Minnesota Statutes 2020, section 115.55, is amended by adding a subdivision to
 44.16 read:

44.17 Subd. 3a. **Repaired drainage holes.** A precast reinforced concrete tank that has one or
 44.18 more openings in the exterior walls or tank bottom below the tank liquid level meets
 44.19 minimum standards and criteria for subsurface sewage treatment systems if:

44.20 (1) the openings have been repaired or sealed; and

44.21 (2) all other requirements of the rules adopted under subdivision 3 are met.

44.22 Sec. 46. Minnesota Statutes 2020, section 115.77, subdivision 1, is amended to read:

44.23 Subdivision 1. **Fees.** The agency ~~shall~~ must collect fees in amounts necessary, but no
 44.24 greater than the amounts necessary, to cover the reasonable costs of reviewing applications
 44.25 and issuing certifications. The fees under this subdivision are subject to legislative approval
 44.26 under section 16A.1283.

44.27 Sec. 47. Minnesota Statutes 2020, section 115.84, subdivision 2, is amended to read:

44.28 Subd. 2. **Rules.** The agency may adopt rules to govern certification of laboratories
 44.29 according to this section. ~~Notwithstanding section 16A.1283, the agency may adopt rules~~
 44.30 ~~establishing fees.~~

45.1 Sec. 48. Minnesota Statutes 2020, section 115.84, subdivision 3, is amended to read:

45.2 Subd. 3. **Fees.** (a) Until the agency adopts a rule establishing fees for certification, the
45.3 agency ~~shall~~ must collect fees from laboratories registering with the agency, but not
45.4 accredited by the commissioner of health under sections 144.97 to 144.99, in amounts
45.5 necessary to cover the reasonable costs of the certification program, including reviewing
45.6 applications, issuing certifications, and conducting audits and compliance assistance. The
45.7 fees under this paragraph are subject to legislative approval under section 16A.1283.

45.8 (b) Fees under this section must be based on the number, type, and complexity of
45.9 analytical methods that laboratories are certified to perform.

45.10 (c) Revenue from fees charged by the agency for certification ~~shall~~ must be credited to
45.11 the environmental fund.

45.12 Sec. 49. Minnesota Statutes 2020, section 115A.03, is amended by adding a subdivision
45.13 to read:

45.14 Subd. 3b. **Chemical plastic recycling.** "Chemical plastic recycling" means a
45.15 manufacturing process for converting post-use polymers into products, such as monomers,
45.16 oligomers, plastics, basic and unfinished chemicals, and other raw materials. Chemical
45.17 plastic recycling is not processing, treatment, incineration, disposal, or waste management,
45.18 as those terms are defined or used pursuant to chapters 115, 115A, and 116.

45.19 Sec. 50. Minnesota Statutes 2020, section 115A.03, is amended by adding a subdivision
45.20 to read:

45.21 Subd. 3c. **Chemical plastic recycling facility.** "Chemical plastic recycling facility"
45.22 means a manufacturing facility that receives, stores, and converts post-use polymers it
45.23 receives using chemical plastic recycling. A chemical plastic recycling facility is not a
45.24 disposal facility, resource recovery facility, solid waste facility, or waste facility as those
45.25 terms are defined and regulated pursuant to chapters 115, 115A, and 116.

45.26 Sec. 51. Minnesota Statutes 2020, section 115A.03, is amended by adding a subdivision
45.27 to read:

45.28 Subd. 24c. **Post-use polymers.** "Post-use polymers" means plastic that:

45.29 (1) is derived from any industrial, commercial, agricultural, or domestic activities;

45.30 (2) is used as feedstock for chemical plastic recycling;

46.1 (3) is processed at a chemical plastic recycling facility or held at a chemical plastic
 46.2 recycling facility before processing;

46.3 (4) is not stored at any one location for more than three years without being utilized for
 46.4 chemical plastic recycling; and

46.5 (5) has been sorted from solid waste and regulated waste but may contain residual
 46.6 amounts of solid waste such as organic materials and individual contaminants or impurities,
 46.7 such as paper labels and metal rings.

46.8 Sec. 52. Minnesota Statutes 2020, section 115A.03, subdivision 35, is amended to read:

46.9 Subd. 35. **Waste facility.** "Waste facility" means all property, real or personal, including
 46.10 negative and positive easements and water and air rights, which is or may be needed or
 46.11 useful for the processing or disposal of waste, except property for the collection of the waste
 46.12 and property used primarily for the manufacture of scrap metal or paper, or post-use
 46.13 polymers. Waste facility includes but is not limited to transfer stations, processing facilities,
 46.14 and disposal sites and facilities.

46.15 Sec. 53. **[115A.571] CHEMICAL PLASTIC RECYCLING.**

46.16 Subdivision 1. **Chemical plastic recycling facility.** A chemical plastic recycling facility
 46.17 and chemical plastic recycling are subject to all applicable federal, state, and local laws,
 46.18 except chapters 115, 115A, and 116, and the rules adopted pursuant to those chapters.

46.19 Subd. 2. **Solid waste management exemption requirements.** (a) The solid waste
 46.20 management exemption in subdivision 1 does not apply:

46.21 (1) if any solid waste other than or in addition to a post-use polymer or residual amounts
 46.22 of organic material and incidental contaminants are treated, stored, processed, transferred,
 46.23 or disposed of at a chemical plastic recycling facility; or

46.24 (2) to management of post-use polymers at any location other than a chemical plastic
 46.25 recycling facility.

46.26 (b) To qualify for the solid waste management facility permit exemption in subdivision
 46.27 1, a chemical plastic recycling facility must only treat, store, or process post-use polymers
 46.28 in a fully enclosed building.

46.29 (c) The commissioner may enter and inspect any chemical plastic recycling facility to
 46.30 determine whether the storage of materials prior to chemical plastic recycling is a nuisance
 46.31 or poses a threat to human health or the environment. The commissioner may use the

47.1 enforcement authority under section 116.072 and Minnesota Rules, chapter 7035, to require
 47.2 abatement of the nuisance or threat if found.

47.3 Subd. 3. **Duty to report.** The owner or operator of a chemical plastic recycling facility
 47.4 must submit an annual report to the commissioner in a form and manner prescribed by the
 47.5 commissioner that must include:

47.6 (1) the amount of post-use polymers accepted, stored, and managed at the facility;

47.7 (2) annual chemical plastic recycling throughput at the facility, including beginning and
 47.8 ending volumes stored in a calendar year;

47.9 (3) to the extent known, the source and county of origin of the post-use polymers and
 47.10 the amount and type of material collected from each source; and

47.11 (4) the amount, type, and destination of products and by-products produced through the
 47.12 chemical plastic recycling, such as what weight of post-use polymers received went to an
 47.13 end market, a broker, a processor, or a manufacturer or was managed as a waste.

47.14 Subd. 4. **Duty to provide information.** Any person must furnish to the commissioner
 47.15 any information that the person may have or may reasonably obtain that the commissioner
 47.16 requests for the purposes of determining compliance with statutes or rules pertaining to
 47.17 chemical plastic recycling.

47.18 Sec. 54. Minnesota Statutes 2020, section 115B.52, subdivision 4, is amended to read:

47.19 Subd. 4. **Reporting.** The commissioner of the Pollution Control Agency and the
 47.20 commissioner of natural resources must jointly submit:

47.21 (1) by April 1, 2019, an implementation plan detailing how the commissioners will:

47.22 (i) determine how the priorities in the settlement will be met and how the spending will
 47.23 move from the first priority to the second priority and the second priority to the third priority
 47.24 outlined in the settlement; and

47.25 (ii) evaluate and determine what projects receive funding;

47.26 (2) by ~~February 1 and August~~ October 1 each year, a ~~biannual~~ report to the chairs and
 47.27 ranking minority members of the legislative policy and finance committees with jurisdiction
 47.28 over environment and natural resources on expenditures from the water quality and
 47.29 sustainability account during the previous ~~six months~~ fiscal year; and

47.30 (3) by ~~August 1, 2019, and~~ October 1 each year ~~thereafter~~, a report to the legislature on
 47.31 expenditures from the water quality and sustainability account during the previous fiscal

48.1 year and a spending plan for anticipated expenditures from the account during the current
48.2 fiscal year.

48.3 Sec. 55. Minnesota Statutes 2020, section 116.03, subdivision 2b, is amended to read:

48.4 Subd. 2b. **Permitting efficiency.** (a) It is the goal of the state that environmental and
48.5 resource management permits be issued or denied within 90 days for tier 1 permits or 150
48.6 days for tier 2 permits following submission of a permit application. The commissioner of
48.7 the Pollution Control Agency ~~shall~~ must establish management systems designed to achieve
48.8 the goal. For the purposes of this section, "tier 1 permits" are permits that do not require
48.9 individualized actions or public comment periods, and "tier 2 permits" are permits that
48.10 require individualized actions or public comment periods.

48.11 (b) The commissioner ~~shall~~ must prepare ~~an annual~~ semiannual permitting efficiency
48.12 ~~report~~ reports that ~~includes~~ include statistics on meeting the tier 2 goal in paragraph (a) and
48.13 the criteria for tier 2 by permit categories. ~~The report is~~ reports are due on February 1 and
48.14 August 1 each year. For permit applications that have not met the goal, ~~the~~ each report must
48.15 state the reasons for not meeting the goal. In stating the reasons for not meeting the goal,
48.16 the commissioner ~~shall~~ must separately identify delays caused by the responsiveness of the
48.17 proposer, ~~lack of staff~~, scientific or technical disagreements, or the level of public
48.18 engagement. ~~The~~ Each report must specify the number of days from initial submission of
48.19 the application to the day of determination that the application is complete. ~~The~~ Each report
48.20 must aggregate the data for the year reporting period and assess whether program or system
48.21 changes are necessary to achieve the goal. Whenever a report required by this subdivision
48.22 states the number of permits completed within a particular period, the report must,
48.23 immediately after the number and in parentheses, state the percentage of total applications
48.24 received for that permit category that the number represents. Whenever a report required
48.25 by this subdivision states the number of permits completed within a particular period, the
48.26 report must separately state completion data for industrial and municipal permits. ~~The report~~
48.27 reports must be posted on the agency's website and submitted to the governor and the chairs
48.28 and ranking minority members of the house of representatives and senate committees having
48.29 jurisdiction over environment policy and finance.

48.30 (c) The commissioner ~~shall~~ must allow electronic submission of environmental review
48.31 and permit documents to the agency.

48.32 (d) Within 30 business days of application for a permit subject to paragraph (a), the
48.33 commissioner of the Pollution Control Agency ~~shall~~ must notify the permit applicant, in
48.34 writing, whether the application is complete or incomplete. If the commissioner determines

49.1 that an application is incomplete, the notice to the applicant must enumerate all deficiencies,
 49.2 citing specific provisions of the applicable rules and statutes, and advise the applicant on
 49.3 how the deficiencies can be remedied. If the commissioner determines that the application
 49.4 is complete, the notice must confirm the application's tier 1 or tier 2 permit status. If the
 49.5 commissioner believes that a complete application for a tier 2 construction permit cannot
 49.6 be issued within the 150-day goal, the commissioner must provide notice to the applicant
 49.7 with the commissioner's notice that the application is complete and, upon request of the
 49.8 applicant, provide the permit applicant with a schedule estimating when the agency will
 49.9 begin drafting the permit and issue the public notice of the draft permit. This paragraph
 49.10 does not apply to an application for a permit that is subject to a grant or loan agreement
 49.11 under chapter 446A.

49.12 (e) For purposes of this subdivision, "permit professional" means an individual not
 49.13 employed by the Pollution Control Agency who:

49.14 (1) has a professional license issued by the state of Minnesota in the subject area of the
 49.15 permit;

49.16 (2) has at least ten years of experience in the subject area of the permit; and

49.17 (3) abides by the duty of candor applicable to employees of the Pollution Control Agency
 49.18 under agency rules and complies with all applicable requirements under chapter 326.

49.19 (f) Upon the agency's request, an applicant relying on a permit professional must
 49.20 participate in a meeting with the agency before submitting an application:

49.21 (1) at least two weeks prior to the preapplication meeting, the applicant must submit at
 49.22 least the following:

49.23 (i) project description, including, but not limited to, scope of work, primary emissions
 49.24 points, discharge outfalls, and water intake points;

49.25 (ii) location of the project, including county, municipality, and location on the site;

49.26 (iii) business schedule for project completion; and

49.27 (iv) other information requested by the agency at least four weeks prior to the scheduled
 49.28 meeting; and

49.29 (2) during the preapplication meeting, the agency ~~shall~~ must provide for the applicant
 49.30 at least the following:

49.31 (i) an overview of the permit review program;

50.1 (ii) a determination of which specific application or applications will be necessary to
 50.2 complete the project;

50.3 (iii) a statement notifying the applicant if the specific permit being sought requires a
 50.4 mandatory public hearing or comment period;

50.5 (iv) a review of the timetable established in the permit review program for the specific
 50.6 permit being sought; and

50.7 (v) a determination of what information must be included in the application, including
 50.8 a description of any required modeling or testing.

50.9 (g) The applicant may select a permit professional to undertake the preparation of the
 50.10 permit application and draft permit.

50.11 (h) If a preapplication meeting was held, the agency ~~shall~~ must, within seven business
 50.12 days of receipt of an application, notify the applicant and submitting permit professional
 50.13 that the application is complete or is denied, specifying the deficiencies of the application.

50.14 (i) Upon receipt of notice that the application is complete, the permit professional ~~shall~~
 50.15 must submit to the agency a timetable for submitting a draft permit. The permit professional
 50.16 ~~shall~~ must submit a draft permit on or before the date provided in the timetable. Within 60
 50.17 days after the close of the public comment period, the commissioner ~~shall~~ must notify the
 50.18 applicant whether the permit can be issued.

50.19 (j) Nothing in this section ~~shall~~ must be construed to modify:

50.20 (1) any requirement of law that is necessary to retain federal delegation to or assumption
 50.21 by the state; or

50.22 (2) the authority to implement a federal law or program.

50.23 (k) The permit application and draft permit ~~shall~~ must identify or include as an appendix
 50.24 all studies and other sources of information used to substantiate the analysis contained in
 50.25 the permit application and draft permit. The commissioner ~~shall~~ must request additional
 50.26 studies, if needed, and the permit applicant ~~shall~~ must submit all additional studies and
 50.27 information necessary for the commissioner to perform the commissioner's responsibility
 50.28 to review, modify, and determine the completeness of the application and approve the draft
 50.29 permit.

50.30 Sec. 56. Minnesota Statutes 2020, section 116.07, subdivision 4d, is amended to read:

50.31 Subd. 4d. **Permit fees.** (a) The agency may collect permit fees in amounts not greater
 50.32 than those necessary to cover the reasonable costs of developing, reviewing, and acting

51.1 upon applications for agency permits and implementing and enforcing the conditions of the
51.2 permits pursuant to agency rules. Permit fees ~~shall~~ must not include the costs of litigation.
51.3 The fee schedule must reflect reasonable and routine direct and indirect costs associated
51.4 with permitting, implementation, and enforcement. The agency may impose an additional
51.5 enforcement fee to be collected for ~~a period of~~ up to two years to cover the reasonable costs
51.6 of implementing and enforcing the conditions of a permit under the rules of the agency.
51.7 Water fees under this paragraph are subject to legislative approval under section 16A.1283.
51.8 Any money collected under this paragraph ~~shall~~ must be deposited in the environmental
51.9 fund.

51.10 (b) Notwithstanding paragraph (a), the agency ~~shall~~ must collect an annual fee from the
51.11 owner or operator of all stationary sources, emission facilities, emissions units, air
51.12 contaminant treatment facilities, treatment facilities, potential air contaminant storage
51.13 facilities, or storage facilities subject to a notification, permit, or license requirement under
51.14 this chapter, subchapters I and V of the federal Clean Air Act, United States Code, title 42,
51.15 section 7401 et seq., or rules adopted thereunder. The annual fee ~~shall~~ must be used to pay
51.16 for all direct and indirect reasonable costs, including legal costs, required to develop and
51.17 administer the notification, permit, or license program requirements of this chapter,
51.18 subchapters I and V of the federal Clean Air Act, United States Code, title 42, section 7401
51.19 et seq., or rules adopted thereunder. Those costs include the reasonable costs of reviewing
51.20 and acting upon an application for a permit; implementing and enforcing statutes, rules, and
51.21 the terms and conditions of a permit; emissions, ambient, and deposition monitoring;
51.22 preparing generally applicable regulations; responding to federal guidance; modeling,
51.23 analyses, and demonstrations; preparing inventories and tracking emissions; and providing
51.24 information to the public about these activities.

51.25 (c) The agency ~~shall~~ must set fees that:

51.26 (1) will result in the collection, in the aggregate, from the sources listed in paragraph
51.27 (b), of an amount not less than \$25 per ton of each volatile organic compound; pollutant
51.28 regulated under United States Code, title 42, section 7411 or 7412 (section 111 or 112 of
51.29 the federal Clean Air Act); and each pollutant, except carbon monoxide, for which a national
51.30 primary ambient air quality standard has been promulgated;

51.31 (2) may result in the collection, in the aggregate, from the sources listed in paragraph
51.32 (b), of an amount not less than \$25 per ton of each pollutant not listed in clause (1) that is
51.33 regulated under this chapter or air quality rules adopted under this chapter; and

52.1 (3) ~~shall~~ must collect, in the aggregate, from the sources listed in paragraph (b), the
52.2 amount needed to match grant funds received by the state under United States Code, title
52.3 42, section 7405 (section 105 of the federal Clean Air Act).

52.4 The agency must not include in the calculation of the aggregate amount to be collected
52.5 under clauses (1) and (2) any amount in excess of 4,000 tons per year of each air pollutant
52.6 from a source. The increase in air permit fees to match federal grant funds ~~shall be~~ is a
52.7 surcharge on existing fees. The commissioner may not collect the surcharge after the grant
52.8 funds become unavailable. In addition, the commissioner ~~shall~~ must use nonfee funds to
52.9 the extent practical to match the grant funds so that the fee surcharge is minimized.

52.10 (d) To cover the reasonable costs described in paragraph (b), the agency ~~shall~~ must
52.11 provide in the rules promulgated under paragraph (c) for an increase in the fee collected in
52.12 each year by the percentage, if any, by which the Consumer Price Index for the most recent
52.13 calendar year ending before the beginning of the year the fee is collected exceeds the
52.14 Consumer Price Index for the calendar year 1989. For purposes of this paragraph, the
52.15 Consumer Price Index for any calendar year is the average of the Consumer Price Index for
52.16 all-urban consumers published by the United States Department of Labor, as of the close
52.17 of the 12-month period ending on August 31 of each calendar year. The revision of the
52.18 Consumer Price Index that is most consistent with the Consumer Price Index for calendar
52.19 year 1989 ~~shall~~ must be used.

52.20 (e) Any money collected under paragraphs (b) to (d) must be deposited in the
52.21 environmental fund and must be used solely for the activities listed in paragraph (b).

52.22 (f) Permit applicants who wish to construct, reconstruct, or modify a project may offer
52.23 to reimburse the agency for the costs of staff time or consultant services needed to expedite
52.24 the preapplication process and permit development process through the final decision on
52.25 the permit, including the analysis of environmental review documents. The reimbursement
52.26 ~~shall be~~ is in addition to permit application fees imposed by law. When the agency determines
52.27 that it needs additional resources to develop the permit application in an expedited manner,
52.28 and that expediting the development is consistent with permitting program priorities, the
52.29 agency may accept the reimbursement. The commissioner must give the applicant an estimate
52.30 of costs to be incurred by the commissioner. The estimate must include a brief description
52.31 of the tasks to be performed, a schedule for completing the tasks, and the estimated cost for
52.32 each task. The applicant and the commissioner must enter into a written agreement detailing
52.33 the estimated costs for the expedited permit decision-making process to be incurred by the
52.34 agency. The agreement must also identify staff anticipated to be assigned to the project.
52.35 The commissioner must not issue a permit until the applicant has paid all fees in full. The

53.1 commissioner must refund any unobligated balance of fees paid. Reimbursements accepted
 53.2 by the agency are appropriated to the agency for the purpose of developing the permit or
 53.3 analyzing environmental review documents. Reimbursement by a permit applicant ~~shall~~
 53.4 must precede and not be contingent upon issuance of a permit; ~~shall~~ must not affect the
 53.5 agency's decision on whether to issue or deny a permit, what conditions are included in a
 53.6 permit, or the application of state and federal statutes and rules governing permit
 53.7 determinations; and ~~shall~~ must not affect final decisions regarding environmental review.

53.8 (g) The fees under this subdivision are exempt from section 16A.1285.

53.9 Sec. 57. Minnesota Statutes 2020, section 116.07, is amended by adding a subdivision to
 53.10 read:

53.11 Subd. 13. **Unadopted rules.** The commissioner of the Pollution Control Agency must
 53.12 not enforce or attempt to enforce an unadopted rule. For purposes of this subdivision,
 53.13 "unadopted rule" means a guideline, bulletin, criterion, manual standard, interpretive
 53.14 statement, policy plan, or similar pronouncement if the guideline, bulletin, criterion, manual
 53.15 standard, interpretive statement, policy plan, or similar pronouncement has not been adopted
 53.16 according to the rulemaking process provided under chapter 14. If an unadopted rule is
 53.17 challenged under section 14.381, the commissioner must cease enforcement of the unadopted
 53.18 rule and overcome a presumption that the unadopted rule must be adopted according to the
 53.19 rulemaking process provided under chapter 14.

53.20 Sec. 58. Minnesota Statutes 2020, section 116B.03, subdivision 1, is amended to read:

53.21 Subdivision 1. **Parties.** Any person residing within the state; the attorney general; any
 53.22 political subdivision of the state; any instrumentality or agency of the state or of a political
 53.23 subdivision thereof; or any partnership, corporation, association, organization, or other
 53.24 entity having shareholders, members, partners or employees residing within the state may
 53.25 maintain a civil action in the district court for declaratory or equitable relief in the name of
 53.26 the state of Minnesota against any person, for the protection of the air, water, land, or other
 53.27 natural resources located within the state, whether publicly or privately owned, from
 53.28 pollution, impairment, or destruction; provided, however, that no action ~~shall be~~ is allowable
 53.29 ~~hereunder~~ under this section for:

53.30 (1) acts taken by a person on land leased or owned by said person pursuant to a permit
 53.31 or license issued by the owner of the land to said person which do not and can not reasonably
 53.32 be expected to pollute, impair, or destroy any other air, water, land, or other natural resources

54.1 located within the state; ~~provided further that no action shall be allowable under this section~~
 54.2 ~~for~~

54.3 (2) conduct taken by a person pursuant to any environmental quality standard, limitation,
 54.4 rule, order, license, stipulation agreement or permit issued by the Pollution Control Agency,
 54.5 Department of Natural Resources, Department of Health or Department of Agriculture; or

54.6 (3) issuance of a groundwater appropriation permit that meets the criteria under section
 54.7 103G.287, subdivision 6, by the Department of Natural Resources. This clause expires
 54.8 January 1, 2041.

54.9 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 54.10 applies to applications for new or modified permits filed on or after that date.

54.11 Sec. 59. Minnesota Statutes 2020, section 116B.10, is amended by adding a subdivision
 54.12 to read:

54.13 Subd. 6. **Application.** No action is allowable under this section for issuance of a
 54.14 groundwater appropriation permit that meets the criteria under section 103G.287, subdivision
 54.15 6, by the Department of Natural Resources. This subdivision expires January 1, 2041.

54.16 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 54.17 applies to applications for new or modified permits filed on or after that date.

54.18 Sec. 60. Minnesota Statutes 2020, section 116D.04, subdivision 2a, is amended to read:

54.19 Subd. 2a. **When prepared.** (a) Where there is potential for significant environmental
 54.20 effects resulting from any major governmental action, the action must be preceded by a
 54.21 detailed environmental impact statement prepared by the responsible governmental unit.
 54.22 The environmental impact statement must be an analytical rather than an encyclopedic
 54.23 document that describes the proposed action in detail, analyzes its significant environmental
 54.24 impacts, discusses appropriate alternatives to the proposed action and their impacts, and
 54.25 explores methods by which adverse environmental impacts of an action could be mitigated.
 54.26 The environmental impact statement must also analyze those economic, employment, and
 54.27 sociological effects that cannot be avoided should the action be implemented. To ensure its
 54.28 use in the decision-making process, the environmental impact statement must be prepared
 54.29 as early as practical in the formulation of an action.

54.30 (b) The board ~~shall~~ must by rule establish categories of actions for which environmental
 54.31 impact statements and for which environmental assessment worksheets must be prepared
 54.32 as well as categories of actions for which no environmental review is required under this

55.1 section. A mandatory environmental assessment worksheet is not required for the expansion
55.2 of an ethanol plant, as defined in section 41A.09, subdivision 2a, paragraph (b), or the
55.3 conversion of an ethanol plant to a biobutanol facility or the expansion of a biobutanol
55.4 facility as defined in section 41A.15, subdivision 2d, based on the capacity of the expanded
55.5 or converted facility to produce alcohol fuel, but must be required if the ethanol plant or
55.6 biobutanol facility meets or exceeds thresholds of other categories of actions for which
55.7 environmental assessment worksheets must be prepared. The responsible governmental unit
55.8 for an ethanol plant or biobutanol facility project for which an environmental assessment
55.9 worksheet is prepared is the state agency with the greatest responsibility for supervising or
55.10 approving the project as a whole.

55.11 (c) A mandatory environmental impact statement is not required for a facility or plant
55.12 located outside the seven-county metropolitan area that produces less than 125,000,000
55.13 gallons of ethanol, biobutanol, or cellulosic biofuel annually, or produces less than 400,000
55.14 tons of chemicals annually, if the facility or plant is: an ethanol plant, as defined in section
55.15 41A.09, subdivision 2a, paragraph (b); a biobutanol facility, as defined in section 41A.15,
55.16 subdivision 2d; or a cellulosic biofuel facility. A facility or plant that only uses a cellulosic
55.17 feedstock to produce chemical products for use by another facility as a feedstock is not
55.18 considered a fuel conversion facility as used in rules adopted under this chapter.

55.19 (d) The responsible governmental unit ~~shall~~ must promptly publish notice of the
55.20 completion of an environmental assessment worksheet by publishing the notice in at least
55.21 one newspaper of general circulation in the geographic area where the project is proposed,
55.22 by posting the notice on a website that has been designated as the official publication site
55.23 for publication of proceedings, public notices, and summaries of a political subdivision in
55.24 which the project is proposed, or in any other manner determined by the board and ~~shall~~
55.25 must provide copies of the environmental assessment worksheet to the board and its member
55.26 agencies. Comments on the need for an environmental impact statement may be submitted
55.27 to the responsible governmental unit during a 30-day period following publication of the
55.28 notice that an environmental assessment worksheet has been completed. The responsible
55.29 governmental unit may extend the 30-day comment period for an additional 30 days one
55.30 time. Further extensions of the comment period may not be made unless approved by the
55.31 project's proposer. The responsible governmental unit's decision on the need for an
55.32 environmental impact statement must be based on the environmental assessment worksheet
55.33 and the comments received during the comment period, and must be made within 15 days
55.34 after the close of the comment period. The board's chair may extend the 15-day period by
55.35 not more than 15 additional days upon the request of the responsible governmental unit.

56.1 (e) An environmental assessment worksheet must also be prepared for a proposed action
56.2 whenever material evidence accompanying a petition by not less than 100 individuals who
56.3 reside or own property in ~~the state~~ a county where the proposed action will be undertaken
56.4 or in one or more adjoining counties, submitted before the proposed project has received
56.5 final approval by the appropriate governmental units, demonstrates that, because of the
56.6 nature or location of a proposed action, there may be potential for significant environmental
56.7 effects. Petitions requesting the preparation of an environmental assessment worksheet must
56.8 be submitted to the board. The chair of the board ~~shall~~ must determine the appropriate
56.9 responsible governmental unit and forward the petition to it. A decision on the need for an
56.10 environmental assessment worksheet must be made by the responsible governmental unit
56.11 within 15 days after the petition is received by the responsible governmental unit. The
56.12 board's chair may extend the 15-day period by not more than 15 additional days upon request
56.13 of the responsible governmental unit.

56.14 (f) Except in an environmentally sensitive location where Minnesota Rules, part
56.15 4410.4300, subpart 29, item B, applies, the proposed action is exempt from environmental
56.16 review under this chapter and rules of the board, if:

56.17 (1) the proposed action is:

56.18 (i) an animal feedlot facility with a capacity of less than 1,000 animal units; or

56.19 (ii) an expansion of an existing animal feedlot facility with a total cumulative capacity
56.20 of less than 1,000 animal units;

56.21 (2) the application for the animal feedlot facility includes a written commitment by the
56.22 proposer to design, construct, and operate the facility in full compliance with Pollution
56.23 Control Agency feedlot rules; and

56.24 (3) the county board holds a public meeting for citizen input at least ten business days
56.25 before the Pollution Control Agency or county issuing a feedlot permit for the animal feedlot
56.26 facility unless another public meeting for citizen input has been held with regard to the
56.27 feedlot facility to be permitted. The exemption in this paragraph is in addition to other
56.28 exemptions provided under other law and rules of the board.

56.29 (g) The board may, before final approval of a proposed project, require preparation of
56.30 an environmental assessment worksheet by a responsible governmental unit selected by the
56.31 board for any action where environmental review under this section has not been specifically
56.32 provided for by rule or otherwise initiated.

57.1 (h) An early and open process must be used to limit the scope of the environmental
57.2 impact statement to a discussion of those impacts that, because of the nature or location of
57.3 the project, have the potential for significant environmental effects. The same process must
57.4 be used to determine the form, content, and level of detail of the statement as well as the
57.5 alternatives that are appropriate for consideration in the statement. In addition, the permits
57.6 that will be required for the proposed action must be identified during the scoping process.
57.7 Further, the process must identify those permits for which information will be developed
57.8 concurrently with the environmental impact statement. The board ~~shall~~ must provide in its
57.9 rules for the expeditious completion of the scoping process. The determinations reached in
57.10 the process must be incorporated into the order requiring the preparation of an environmental
57.11 impact statement.

57.12 (i) The responsible governmental unit ~~shall~~ must, to the extent practicable, avoid
57.13 duplication and ensure coordination between state and federal environmental review and
57.14 between environmental review and environmental permitting. Whenever practical,
57.15 information needed by a governmental unit for making final decisions on permits or other
57.16 actions required for a proposed project must be developed in conjunction with the preparation
57.17 of an environmental impact statement. When an environmental impact statement is prepared
57.18 for a project requiring multiple permits for which two or more agencies' decision processes
57.19 include either mandatory or discretionary hearings before a hearing officer before the
57.20 agencies' decision on the permit, the agencies may, notwithstanding any law or rule to the
57.21 contrary, conduct the hearings in a single consolidated hearing process if requested by the
57.22 proposer. All agencies having jurisdiction over a permit that is included in the consolidated
57.23 hearing ~~shall~~ must participate. The responsible governmental unit ~~shall~~ must establish
57.24 appropriate procedures for the consolidated hearing process, including procedures to ensure
57.25 that the consolidated hearing process is consistent with the applicable requirements for each
57.26 permit regarding the rights and duties of parties to the hearing, and ~~shall~~ must use the earliest
57.27 applicable hearing procedure to initiate the hearing. All agencies having jurisdiction over
57.28 a permit identified in the draft environmental assessment worksheet scoping document must
57.29 begin reviewing any permit application upon publication of the notice of preparation of the
57.30 environmental impact statement.

57.31 (j) An environmental impact statement must be prepared and its adequacy determined
57.32 within 280 days after notice of its preparation unless the time is extended by consent of the
57.33 parties or by the governor for good cause. The responsible governmental unit ~~shall~~ must
57.34 determine the adequacy of an environmental impact statement, unless within 60 days after
57.35 notice is published that an environmental impact statement will be prepared, the board

58.1 chooses to determine the adequacy of an environmental impact statement. If an environmental
 58.2 impact statement is found to be inadequate, the responsible governmental unit has 60 days
 58.3 to prepare an adequate environmental impact statement.

58.4 (k) The proposer of a specific action may include in the information submitted to the
 58.5 responsible governmental unit a preliminary draft environmental impact statement under
 58.6 this section on that action for review, modification, and determination of completeness and
 58.7 adequacy by the responsible governmental unit. A preliminary draft environmental impact
 58.8 statement prepared by the project proposer and submitted to the responsible governmental
 58.9 unit must identify or include as an appendix all studies and other sources of information
 58.10 used to substantiate the analysis contained in the preliminary draft environmental impact
 58.11 statement. The responsible governmental unit ~~shall~~ must require additional studies, if needed,
 58.12 and obtain from the project proposer all additional studies and information necessary for
 58.13 the responsible governmental unit to perform its responsibility to review, modify, and
 58.14 determine the completeness and adequacy of the environmental impact statement.

58.15 (l) A mandatory environmental assessment worksheet is not required for a project that
 58.16 will diminish the course, current, or cross-section of one acre or more of any water unless
 58.17 the affected water is on the public waters inventory described in section 103G.201.

58.18 Sec. 61. Minnesota Statutes 2020, section 116U.55, is amended by adding a subdivision
 58.19 to read:

58.20 Subd. 3. **Events promotion account.** The events promotion account is established as a
 58.21 separate account in the natural resources fund. Money received under section 297A.94,
 58.22 paragraph (l), must be deposited into the events promotion account for promoting special
 58.23 events in the state. At least 50 percent of the money appropriated under this subdivision
 58.24 must be for promoting special events outside of the metropolitan area.

58.25 Sec. 62. Minnesota Statutes 2020, section 127A.353, subdivision 2, is amended to read:

61.8 districts interested in the land, as follows:

61.9 (1) the portion required to pay any amounts included in the appraised value under section
61.10 282.01, subdivision 3, as representing increased value due to any public improvement made

 62.21 construction and operation of an agricultural resource project; and

62.22 (2) the purchase was made on or after the date on which a conditional commitment was
 62.23 made for a loan guaranty for the project under section 41A.04, subdivision 3.

62.24 The commissioner of management and budget shall certify to the commissioner the date on
 62.25 which the project received the conditional commitment. The amount deposited in the loan

63.12 subdivision 5, for the previous calendar year.

63.13 (f) Beginning with sales taxes remitted after July 1, 2017, in conjunction with the deposit
63.14 of revenues under paragraph (d), the commissioner shall deposit into the state treasury and
63.15 credit to the highway user tax distribution fund an amount equal to the estimated revenues
63.16 derived from the tax rate imposed under section 297A.62, subdivision 1, on the lease or
63.17 rental for not more than 28 days of rental motor vehicles subject to section 297A.64. The

63.20 (g) Starting after July 1, 2017, the commissioner shall deposit an amount of the
63.21 remittances monthly into the state treasury and credit them to the highway user tax
63.22 distribution fund as a portion of the estimated amount of taxes collected from the sale and
63.23 purchase of motor vehicle repair parts in that month. For the remittances between July 1,
63.24 2017, and June 30, 2019, the monthly deposit amount is \$2,628,000. For remittances in
63.25 each subsequent fiscal year, the monthly deposit amount is \$12,137,000. For purposes of

64.2 commissioner under section 297A.65, must be deposited by the commissioner in the state
64.3 treasury as follows:

64.18 traditional sources of funding for the purposes specified, but the dedicated revenue shall
64.19 supplement traditional sources of funding for those purposes. Land acquired with money
64.20 deposited in the game and fish fund under paragraph (h) must be open to public hunting
64.21 and fishing during the open season, except that in aquatic management areas or on lands
64.22 where angling easements have been acquired, fishing may be prohibited during certain times
64.23 of the year and hunting may be prohibited. At least 87 percent of the money deposited in

64.27 any refunds, derived from the sale of items regulated under section 624.20, subdivision 1,
64.28 that may be sold to persons 18 years old or older and that are not prohibited from use by
64.29 the general public under section 624.21, in the state treasury and credit:

65.4 sold to persons 18 years old or older and are not prohibited from use by the general public
65.5 under section 624.21, is a set percentage of the total sales and use tax revenues collected in
65.6 the state, with the percentage determined under Laws 2017, First Special Session chapter
65.7 1, article 3, section 39.

65.8 (k) The revenues deposited under paragraphs (a) to (j) do not include the revenues,
65.9 including interest and penalties, generated by the sales tax imposed under section 297A.62,
65.10 subdivision 1a, which must be deposited as provided under the Minnesota Constitution,
65.11 article XI, section 15.

65.16 by Laws 2017, chapter 93, article 2, section 149, is amended to read:

65.17 Sec. 136. **WILD RICE WATER QUALITY STANDARDS.**

65.18 (a) Until the commissioner of the Pollution Control Agency amends rules refining the
65.19 wild rice water quality standard in Minnesota Rules, part 7050.0224, subpart 2, to consider
65.20 all independent research and publicly funded research and to include criteria for identifying
65.21 waters and a list of waters subject to the standard, implementation of the wild rice water
65.22 quality standard in Minnesota Rules, part 7050.0224, subpart 2, shall be limited to the
65.23 following, unless the permittee requests additional conditions:

65.24 (1) when issuing, modifying, or renewing national pollutant discharge elimination system
65.25 (NPDES) or state disposal system (SDS) permits, the agency shall endeavor to protect wild
65.26 rice, and in doing so shall be limited by the following conditions:

65.27 (i) the agency shall not require permittees to expend money for design or implementation
65.28 of sulfate treatment technologies or other forms of sulfate mitigation; and

66.4 (c) The commissioner shall complete the rulemaking described in paragraph (a) by
 66.5 January 15, ~~2019~~ 2025.

66.6 **Sec. 67. CONTINUATION OF OTHER WATER APPROPRIATION PERMITS.**

66.7 Prior to additional rulemaking or legislative action in response to the findings and
 66.8 recommendations submitted pursuant to section 69, the commissioner of natural resources
 66.9 shall not reduce appropriations under a groundwater appropriations permit, terminate
 66.10 groundwater appropriations authorized by a permit, or decline to renew a groundwater
 66.11 appropriations permit where:

66.12 (1) the permit was in effect as of December 31, 2021;

66.13 (2) the permit authorized appropriation of groundwater from a site located wholly or
 66.14 partially within a five-mile radius of White Bear Lake;

66.15 (3) the permittee is in compliance with applicable permit terms; and

66.16 (4) the permittee is not a municipality.

66.17 **Sec. 68. DEPARTMENT OF NATURAL RESOURCES REGISTRATION SYSTEM.**

66.18 Subdivision 1. Definitions. (a) For purposes of this section, the following terms have
 66.19 the meanings given.

66.20 (b) "Commissioner" means the commissioner of natural resources.

66.21 (c) "DNR" means the Department of Natural Resources.

66.22 (d) "DNR registration system" means the current Department of Natural Resources
 66.23 system for boat, all-terrain vehicle, and snowmobile registrations.

66.24 Subd. 2. Request for proposals; scoring preference. When the commissioner issues
 66.25 a request for proposals to replace the DNR registration system and scores the responses to
 66.26 the request for proposals, the commissioner may give a preference to a software vendor that
 66.27 currently provides vehicle registration software to the state in an amount commensurate
 66.28 with the commissioner's assessments of the benefits of using an existing software vendor.

66.29 Subd. 3. Report to legislature. Within 45 days after a vendor has been selected to
 66.30 provide software to replace the DNR registration system, the commissioner must report to

67.1 the chairs and ranking minority members of the legislative committees with jurisdiction
 67.2 over transportation policy and finance and natural resources policy and finance. At a
 67.3 minimum, the commissioner must include in the report:

67.4 (1) the names of all vendors who submitted a proposal;

67.5 (2) which vendor was selected;

67.6 (3) the estimated timeline for implementing the new registration system;

67.7 (4) if a preference was given as described in subdivision 2, what the preference was and
 67.8 how the commissioner arrived at that number; and

67.9 (5) if a software vendor that currently provides vehicle registration software to the state
 67.10 submitted a proposal and that vendor was not selected, an explanation of why that vendor
 67.11 was not selected.

67.12 **EFFECTIVE DATE.** This section is effective the day following final enactment.

67.13 Sec. 69. **ENSURING SUSTAINABLE GROUNDWATER LEVELS IN WHITE**
 67.14 **BEAR LAKE AND RELATED AQUIFERS.**

67.15 The commissioner of natural resources, in cooperation with the Minnesota Department
 67.16 of Health, the Metropolitan Council, and representatives of east metropolitan area
 67.17 municipalities, must explore available options for supplying east metropolitan area
 67.18 communities with safe drinking water in a manner that allows municipal growth while
 67.19 simultaneously ensuring the sustainability and quality of the state's water resources in and
 67.20 around White Bear Lake and neighboring aquifers. By October 1, 2023, the commissioner
 67.21 must report findings and recommendations to the chairs and ranking minority members of
 67.22 the legislative committees and divisions with jurisdiction over environment and natural
 67.23 resources.

67.24 Sec. 70. **FACILITATING SAFE TRAVEL ON COUNTY STATE-AID HIGHWAY**
 67.25 **13 IN MURRAY COUNTY.**

67.26 Subdivision 1. **Requirements.** Notwithstanding any other provision of law, the
 67.27 commissioner of natural resources must do all of the following to ensure that the portion
 67.28 of County State-Aid Highway 13 in Murray County that extends over Lake Shetek between
 67.29 170th Avenue and Lakeview Drive can be widened to a sufficient width to ensure traveler
 67.30 safety:

68.1 (1) issue any permits applied for by the county as part of a project to widen the highway;
 68.2 and

68.3 (2) convey to the county any right-of-way, easement, or other interest in real property
 68.4 administered by the Department of Natural Resources that is necessary to facilitate the
 68.5 widening.

68.6 Subd. 2. **Sufficient width.** For purposes of subdivision 1, "sufficient width to ensure
 68.7 traveler safety" means a width of at least 70 feet, including room for two lanes of vehicular
 68.8 traffic, a shoulder on each side, and a shared-use path on each side to safely accommodate
 68.9 bicycle and pedestrian transportation. Any riprap needed to ensure the structural integrity
 68.10 of the widened highway must be in addition to the 70-foot width required by this subdivision.

68.11 Subd. 3. **Reporting.** The commissioner of natural resources must immediately report
 68.12 to the chairs and ranking minority members of the house of representatives and senate
 68.13 committees and divisions with jurisdiction over environment and natural resources if the
 68.14 commissioner denies any permit or other request made by Murray County in connection
 68.15 with the widening described in this section. A report under this subdivision must explain
 68.16 the reason for the denial, including the statute or rule that prohibits the commissioner from
 68.17 granting the permit or other request. A policy decision by the Department of Natural
 68.18 Resources that the lake is more important than protecting the lives of travelers on the highway
 68.19 does not constitute a sufficient explanation for a decision to deny a permit under this
 68.20 subdivision.

68.21 **EFFECTIVE DATE.** This section is effective the day after the governing body of
 68.22 Murray County and its chief clerical officer comply with the requirements of Minnesota
 68.23 Statutes, section 645.021, subdivisions 2 and 3.

68.24 Sec. 71. **FILLING OF CERTAIN POLLUTION CONTROL AGENCY AIR PERMIT**
 68.25 **PROGRAM VACANCIES.**

68.26 Subdivision 1. **Duty to fill certain positions.** The commissioner of the Pollution Control
 68.27 Agency must do the following for each position in the agency's air permit program that has
 68.28 been open for at least one year as of the effective date of this section:

68.29 (1) within 60 days of the effective date of this section, post job opening information for
 68.30 each position in the manner normally used by the commissioner to post job openings;

68.31 (2) within 90 days of the effective date of this section, conduct interviews to fill each
 68.32 position; and

69.1 (3) within 120 days of the effective date of this section, complete hiring to fill each
69.2 position.

69.3 Subd. 2. **Report.** By January 15, 2024, the commissioner must submit a report to the
69.4 chairs and ranking minority members of the house of representatives and senate committees
69.5 and divisions with jurisdiction over environment and natural resources on efforts to comply
69.6 with this section. The report must include the following:

69.7 (1) a summary of the commissioner's efforts to comply with each clause in subdivision
69.8 1; and

69.9 (2) for any position that receives less than five applicants, an explanation of the need
69.10 for each of the job requirements included in the job posting.

69.11 **EFFECTIVE DATE.** This section is effective the day following final enactment.

69.12 Sec. 72. **INTERIM PROVISIONS.**

69.13 (a) From the effective date of this section until the rules under section 77 are adopted,
69.14 to the extent allowable under the federal Clean Water Act or other federal laws, this section
69.15 applies to discharges from facilities that process sugar beets outside the Lake Superior basin.

69.16 (b) If a whole effluent toxicity test, as defined under Minnesota Rules, part 7050.0218,
69.17 subpart 3, item AAA, is performed on the effluent of a point source discharger that is a
69.18 facility that processes sugar beets and results in less than 50 percent mortality of the test
69.19 organisms or if a demonstration is provided under Minnesota Rules, part 7052.0210, subpart
69.20 1, that 0.3 acute toxic units can be met at the edge of an approved acute mixing zone, the
69.21 effluent must not be considered acutely toxic or lethal to aquatic organisms unless the
69.22 commissioner of the Pollution Control Agency finds that the test species do not represent
69.23 sensitive organisms in the affected surface water body or the whole effluent toxicity test
69.24 was performed on a sample not representative of the effluent quality.

69.25 (c) The commissioner of the Pollution Control Agency must establish whole effluent
69.26 toxicity mixing zones and whole effluent toxicity water-quality-based effluent limitations
69.27 and permit conditions for facilities that process sugar beets according to Minnesota Rules,
69.28 parts 7052.0210, subparts 1 and 2, and 7052.0240.

69.29 (d) The antibacksliding provisions of Minnesota Rules, part 7001.1080, subpart 9, do
69.30 not apply to new or revised permit conditions established under paragraph (c).

69.31 **EFFECTIVE DATE.** This section is effective the day following final enactment.

70.1 **Sec. 73. REGISTRATION DECAL FORMAT TRANSITION.**

70.2 Separately displaying registration numbers is not required when a larger-format
70.3 registration decal as provided under Minnesota Statutes, section 84.82, subdivision 2, is
70.4 displayed according to Minnesota Statutes, section 84.82, subdivision 3b. Snowmobiles
70.5 displaying valid but older smaller-format registration decals must display the separate
70.6 registration numbers. Persons may obtain duplicate registration decals in the new, larger
70.7 format, when available, without being required to display the separate registration numbers.

70.8 **Sec. 74. REQUIRED RULEMAKING.**

70.9 (a) The commissioner of natural resources must amend Minnesota Rules as follows:

70.10 (1) part 6100.5000, subpart 1, by striking the last sentence and inserting "The registration
70.11 number remains the same if renewed by July 1 following the expiration date.";

70.12 (2) part 6100.5700, subpart 1, item C, by striking the reference to registration numbers;
70.13 and

70.14 (3) part 6230.0250, subpart 10, item A, subitem (2), by changing the word "hunter" to
70.15 "person".

70.16 (b) The commissioner may use the good-cause exemption under Minnesota Statutes,
70.17 section 14.388, subdivision 1, clause (3), to adopt rules under this section, and Minnesota
70.18 Statutes, section 14.386, does not apply except as provided under Minnesota Statutes, section
70.19 14.388.

70.20 **Sec. 75. STATE IMPLEMENTATION PLAN REVISIONS.**

70.21 (a) The commissioner of the Pollution Control Agency must seek approval from the
70.22 federal Environmental Protection Agency for revisions to the state's federal Clean Air Act
70.23 state implementation plan so that under the revised plan, the Pollution Control Agency is
70.24 prohibited from applying a national or state ambient air quality standard in a permit issued
70.25 solely to authorize operations to continue at an existing facility with unmodified emissions
70.26 levels. Nothing in this section must be construed to require the commissioner to apply for
70.27 a revision that would prohibit the agency from applying a national or state ambient air
70.28 quality standard in a permit that authorizes an increase in emissions due to construction of
70.29 a new facility or in a permit that authorizes changes to existing facilities that result in a
70.30 significant net emissions increase of a regulated NSR pollutant, as defined in Code of Federal
70.31 Regulations, title 40, section 52.21(b)(50).

71.1 (b) The commissioner of the Pollution Control Agency must report quarterly to the chairs
 71.2 and ranking minority members of the house of representatives and senate committees and
 71.3 divisions with jurisdiction over environment and natural resources policy on the status of
 71.4 efforts to implement paragraph (a) until the revisions required by paragraph (a) have been
 71.5 either approved or denied.

71.6 **Sec. 76. WHOLE EFFLUENT TOXICITY RULEMAKING FOR FACILITIES**
 71.7 **THAT PROCESS SUGAR BEETS.**

71.8 (a) By January 31, 2023, the commissioner of the Pollution Control Agency must adopt
 71.9 rules on:

71.10 (1) evaluating and applying whole effluent toxicity (WET) as water-quality-based effluent
 71.11 limitations and permit conditions for discharges from facilities that process sugar beets that
 71.12 are located outside the Lake Superior basin; and

71.13 (2) the applicability and standards for acute and chronic mixing zones at those facilities.

71.14 (b) Rules adopted under this section must be substantially identical to Minnesota Rules,
 71.15 parts 7052.0210, subparts 1 and 2, and 7052.0240, so that, to the greatest extent possible,
 71.16 facilities that process sugar beets in all parts of the state are subject to the same mixing
 71.17 zones requirements and acute and chronic WET requirements for establishing permit
 71.18 conditions.

71.19 **EFFECTIVE DATE.** This section is effective the day following final enactment.

71.20 **Sec. 77. PFAS MONITORING PLAN EXPENSES.**

71.21 Notwithstanding any other provision of law, the commissioner of the Pollution Control
 71.22 Agency shall not require a person, facility, or other entity to monitor PFAS as part of its
 71.23 March 2022 PFAS monitoring plan unless the monitoring can be done at no cost to the
 71.24 person, facility, or other entity or unless the commissioner agrees to reimburse the person,
 71.25 facility, or other entity for all costs of the monitoring. Nothing in this section shall be
 71.26 construed to prohibit:

71.27 (1) voluntary compliance with an agency request to monitor PFAS;

71.28 (2) compliance with a PFAS monitoring requirement that is not part of the March 2022
 71.29 PFAS monitoring plan; or

71.30 (3) a PFAS monitoring requirement imposed as a result of a known release or threatened
 71.31 release of PFAS from a facility.

72.1 **EFFECTIVE DATE.** This section is effective the day following final enactment.

72.2 Sec. 78. **RED RIVER OF THE NORTH; ADAPTIVE PHOSPHORUS**
 72.3 **MANAGEMENT FEASIBILITY ASSESSMENT.**

72.4 Subdivision 1. **Assessment contents.** The Red River Basin Commission must facilitate
 72.5 the development of a feasibility assessment of adaptive phosphorus management for the
 72.6 Red River of the North. The commission may contract with outside experts or academic
 72.7 institutions in developing the assessment. The assessment:

- 72.8 (1) must address applicable water quality targets for phosphorous loading;
 72.9 (2) must include an allocation of phosphorus between point and nonpoint sources;
 72.10 (3) must identify cost-effective nutrient reduction implementation strategies; and
 72.11 (4) may include other state water quality goals and objectives.

72.12 Subd. 2. **Advisory group.** In developing the assessment, the Red River Basin Commission
 72.13 shall work in cooperation with an advisory group consisting of representatives from the
 72.14 Minnesota Agricultural Water Resource Center, the Red River Watershed Management
 72.15 Board, other agricultural groups, soil and water conservation districts, watershed districts,
 72.16 cities, and other Minnesota organizations represented on the board of directors of the Red
 72.17 River Basin Commission. The Red River Basin Commission may also work with
 72.18 representatives from similar organizations from North Dakota, South Dakota, and Manitoba.

72.19 Subd. 3. **Reporting.** By June 30, 2024, the Red River Basin Commission must submit
 72.20 the final assessment to the chairs and ranking minority members of the house of
 72.21 representatives and senate committees with jurisdiction over agriculture policy and finance.
 72.22 By December 31 of each year prior to the submission of the final assessment, the commission
 72.23 must submit a progress report on the assessment's development to these same recipients.

72.24 Sec. 79. **WEST NEWTON SPECIAL USE DISTRICT; WABASHA COUNTY.**

72.25 Notwithstanding Minnesota Statutes, section 394.36, subdivision 4; Minnesota Rules,
 72.26 part 6120.5800, subpart 3; or any other law to the contrary, an existing structure in the West
 72.27 Newton Special Use District may be expanded. The expansion must follow the requirements
 72.28 for expansions of structures in the West Newton Special Use District as provided in the
 72.29 Wabasha County floodplain management ordinance in effect on January 1, 2022.

73.1 **EFFECTIVE DATE.** This section is effective the day after the governing body of
 73.2 Wabasha County and its chief clerical officer timely complete their compliance with
 73.3 Minnesota Statutes, section 645.021, subdivisions 2 and 3.

73.4 Sec. 80. **REPEALER.**

73.5 (a) Minnesota Statutes 2020, section 97C.515, subdivisions 4 and 5, are repealed.

73.6 (b) Minnesota Rules, parts 6100.5000, subparts 3, 4, and 5; 6100.5700, subpart 4; and
 73.7 6232.0350, are repealed.

73.8 (c) Laws 2013, chapter 121, section 53, is repealed.

73.9 **ARTICLE 3**
 73.10 **STATE LANDS**

73.11 Section 1. Minnesota Statutes 2021 Supplement, section 84.63, is amended to read:

73.12 **84.63 CONVEYING INTERESTS IN LANDS TO STATE, FEDERAL, AND**
 73.13 **TRIBAL GOVERNMENTS.**

73.14 (a) Notwithstanding any existing law to the contrary, the commissioner of natural
 73.15 resources is hereby authorized on behalf of the state to convey to the United States, to a
 73.16 federally recognized Indian Tribe, or to the state of Minnesota or any of its subdivisions,
 73.17 upon state-owned lands under the administration of the commissioner of natural resources,
 73.18 permanent or temporary easements for specified periods or otherwise for trails, highways,
 73.19 roads including limitation of right of access from the lands to adjacent highways and roads,
 73.20 flowage for development of fish and game resources, stream protection, flood control, and
 73.21 necessary appurtenances thereto, such conveyances to be made upon such terms and
 73.22 conditions including provision for reversion in the event of non-user as the commissioner
 73.23 of natural resources may determine.

73.24 (b) In addition to the fee for the market value of the easement, the commissioner of
 73.25 natural resources shall assess the applicant the following fees:

73.26 (1) an application fee of \$2,000 to cover reasonable costs for reviewing the application
 73.27 and preparing the easement; and

73.28 (2) a monitoring fee to cover the projected reasonable costs for monitoring the
 73.29 construction of the improvement for which the easement was conveyed and preparing special
 73.30 terms and conditions for the easement. The commissioner must give the applicant an estimate
 73.31 of the monitoring fee before the applicant submits the fee.

74.1 (c) The applicant shall pay these fees to the commissioner of natural resources. The
 74.2 commissioner shall not issue the easement until the applicant has paid in full the application
 74.3 fee, the monitoring fee, and the market value payment for the easement.

74.4 (d) Upon completion of construction of the improvement for which the easement was
 74.5 conveyed, the commissioner shall refund the unobligated balance from the monitoring fee
 74.6 revenue. The commissioner shall not return the application fee, even if the application is
 74.7 withdrawn or denied.

74.8 (e) Money received under paragraph (b) must be deposited in the land management
 74.9 account in the natural resources fund and is appropriated to the commissioner of natural
 74.10 resources to cover the reasonable costs incurred for issuing and monitoring easements.

74.11 (f) A county or joint county regional railroad authority is exempt from all fees specified
 74.12 under this section for trail easements on state-owned land.

74.13 (g) In addition to fees specified in this section, the applicant must reimburse the state
 74.14 for costs incurred for cultural resources review, monitoring, or other services provided by
 74.15 the Minnesota Historical Society under contract with the commissioner of natural resources
 74.16 or the State Historic Preservation Office of the Department of Administration in connection
 74.17 with the easement application, preparing the easement terms, or constructing the trail,
 74.18 highway, road, or other improvements.

74.19 (h) Notwithstanding paragraphs (a) to (g), the commissioner of natural resources may
 74.20 elect to assume the application fee under paragraph (b), clause (1), and waive or assume
 74.21 some or all of the remaining fees and costs imposed under this section if the commissioner
 74.22 determines that issuing the easement will benefit the state's land management interests.

74.23 Sec. 2. Minnesota Statutes 2021 Supplement, section 84.631, is amended to read:

74.24 **84.631 ROAD EASEMENTS ACROSS STATE LANDS.**

74.25 (a) Except as provided in section 85.015, subdivision 1b, the commissioner of natural
 74.26 resources, on behalf of the state, may convey a road easement across state land under the
 74.27 commissioner's jurisdiction to a private person requesting an easement for access to property
 74.28 owned by the person only if the following requirements are met: (1) there are no reasonable
 74.29 alternatives to obtain access to the property; and (2) the exercise of the easement will not
 74.30 cause significant adverse environmental or natural resource management impacts.

74.31 (b) The commissioner shall:

74.32 (1) require the applicant to pay the market value of the easement;

- 75.1 (2) limit the easement term to 50 years if the road easement is across school trust land;
- 75.2 (3) provide that the easement reverts to the state in the event of nonuse; and
- 75.3 (4) impose other terms and conditions of use as necessary and appropriate under the
- 75.4 circumstances.
- 75.5 (c) An applicant shall submit an application fee of \$2,000 with each application for a
- 75.6 road easement across state land. The application fee is nonrefundable, even if the application
- 75.7 is withdrawn or denied.
- 75.8 (d) In addition to the payment for the market value of the easement and the application
- 75.9 fee, the commissioner of natural resources shall assess the applicant a monitoring fee to
- 75.10 cover the projected reasonable costs for monitoring the construction of the road and preparing
- 75.11 special terms and conditions for the easement. The commissioner must give the applicant
- 75.12 an estimate of the monitoring fee before the applicant submits the fee. The applicant shall
- 75.13 pay the application and monitoring fees to the commissioner of natural resources. The
- 75.14 commissioner shall not issue the easement until the applicant has paid in full the application
- 75.15 fee, the monitoring fee, and the market value payment for the easement.
- 75.16 (e) Upon completion of construction of the road, the commissioner shall refund the
- 75.17 unobligated balance from the monitoring fee revenue.
- 75.18 (f) Fees collected under paragraphs (c) and (d) must be credited to the land management
- 75.19 account in the natural resources fund and are appropriated to the commissioner of natural
- 75.20 resources to cover the reasonable costs incurred under this section.
- 75.21 (g) In addition to fees specified in this section, the applicant must reimburse the state
- 75.22 for costs incurred for cultural resources review, monitoring, or other services provided by
- 75.23 the Minnesota Historical Society under contract with the commissioner of natural resources
- 75.24 or the State Historic Preservation Office of the Department of Administration in connection
- 75.25 with the easement application, preparing the easement terms, or constructing the road.
- 75.26 (h) Notwithstanding paragraphs (a) to (g), the commissioner of natural resources may
- 75.27 elect to assume the application fee under paragraph (c) and waive or assume some or all of
- 75.28 the remaining fees and costs imposed under this section if the commissioner determines
- 75.29 that issuing the easement will benefit the state's land management interests.

76.1 Sec. 3. Minnesota Statutes 2020, section 84.632, is amended to read:

76.2 **84.632 CONVEYANCE OF UNNEEDED STATE EASEMENTS.**

76.3 (a) Notwithstanding section 92.45, the commissioner of natural resources may, in the
76.4 name of the state, release all or part of an easement acquired by the state upon application
76.5 of a landowner whose property is burdened with the easement if the easement is not needed
76.6 for state purposes.

76.7 (b) All or part of an easement may be released by payment of the market value of the
76.8 easement. The release must be in a form approved by the attorney general.

76.9 (c) Money received under paragraph (b) must be credited to the account from which
76.10 money was expended for purchase of the easement. If there is no specific account, the money
76.11 must be credited to the land acquisition account established in section 94.165.

76.12 (d) In addition to payment under paragraph (b), the commissioner of natural resources
76.13 shall assess a landowner who applies for a release under this section an application fee of
76.14 \$2,000 for reviewing the application and preparing the release of easement. The applicant
76.15 shall pay the application fee to the commissioner of natural resources. The commissioner
76.16 shall not issue the release of easement until the applicant has paid the application fee in full.
76.17 The commissioner shall not return the application fee, even if the application is withdrawn
76.18 or denied.

76.19 (e) Money received under paragraph (d) must be credited to the land management account
76.20 in the natural resources fund and is appropriated to the commissioner of natural resources
76.21 to cover the reasonable costs incurred under this section.

76.22 (f) Notwithstanding paragraphs (a) to (e), the commissioner of natural resources may
76.23 elect to assume the application fee under paragraph (d) and waive or assume some or all of
76.24 the remaining fees and costs imposed under this section if the commissioner determines
76.25 that issuing the easement release will benefit the state's land management interests.

76.26 Sec. 4. Minnesota Statutes 2021 Supplement, section 92.502, is amended to read:

76.27 **92.502 LEASING TAX-FORFEITED AND STATE LANDS.**

76.28 (a) Notwithstanding section 282.04 or other law to the contrary, St. Louis County may
76.29 enter a 30-year lease of tax-forfeited land for a wind energy project.

76.30 (b) The commissioner of natural resources may enter a 30-year lease of land administered
76.31 by the commissioner for a wind energy project.

77.1 (c) The commissioner of natural resources may enter a 30-year lease of land administered
77.2 by the commissioner for recreational trails ~~and~~ or facilities. The commissioner may assess
77.3 the lease applicant a monitoring fee to cover the projected reasonable costs of monitoring
77.4 construction of the recreational trail or facility and preparing special terms and conditions
77.5 of the license to ensure proper construction. The commissioner must give the applicant an
77.6 estimate of the monitoring fee before the applicant is required to submit the fee. Upon
77.7 completion of construction of the trail or facility, the commissioner must refund the
77.8 unobligated balance from the monitoring fee revenue.

77.9 (d) Notwithstanding section 282.04 or other law to the contrary, Lake and St. Louis
77.10 Counties may enter into 30-year leases of tax-forfeited land for recreational trails and
77.11 facilities.

77.12 Sec. 5. Minnesota Statutes 2020, section 282.04, subdivision 1, is amended to read:

77.13 Subdivision 1. **Timber sales; land leases and uses.** (a) The county auditor, with terms
77.14 and conditions set by the county board, may sell timber upon any tract that may be approved
77.15 by the natural resources commissioner. The sale of timber shall be made for cash at not less
77.16 than the appraised value determined by the county board to the highest bidder after not less
77.17 than one week's published notice in an official paper within the county. Any timber offered
77.18 at the public sale and not sold may thereafter be sold at private sale by the county auditor
77.19 at not less than the appraised value thereof, until the time as the county board may withdraw
77.20 the timber from sale. The appraised value of the timber and the forestry practices to be
77.21 followed in the cutting of said timber shall be approved by the commissioner of natural
77.22 resources.

77.23 (b) Payment of the full sale price of all timber sold on tax-forfeited lands shall be made
77.24 in cash at the time of the timber sale, except in the case of oral or sealed bid auction sales,
77.25 the down payment shall be no less than 15 percent of the appraised value, and the balance
77.26 shall be paid prior to entry. In the case of auction sales that are partitioned and sold as a
77.27 single sale with predetermined cutting blocks, the down payment shall be no less than 15
77.28 percent of the appraised price of the entire timber sale which may be held until the satisfactory
77.29 completion of the sale or applied in whole or in part to the final cutting block. The value of
77.30 each separate block must be paid in full before any cutting may begin in that block. With
77.31 the permission of the county contract administrator the purchaser may enter unpaid blocks
77.32 and cut necessary timber incidental to developing logging roads as may be needed to log
77.33 other blocks provided that no timber may be removed from an unpaid block until separately
77.34 scaled and paid for. If payment is provided as specified in this paragraph as security under

78.1 paragraph (a) and no cutting has taken place on the contract, the county auditor may credit
78.2 the security provided, less any down payment required for an auction sale under this
78.3 paragraph, to any other contract issued to the contract holder by the county under this chapter
78.4 to which the contract holder requests in writing that it be credited, provided the request and
78.5 transfer is made within the same calendar year as the security was received.

78.6 (c) The county board may sell any timber, including biomass, as appraised or scaled.
78.7 Any parcels of land from which timber is to be sold by scale of cut products shall be so
78.8 designated in the published notice of sale under paragraph (a), in which case the notice shall
78.9 contain a description of the parcels, a statement of the estimated quantity of each species
78.10 of timber, and the appraised price of each species of timber for 1,000 feet, per cord or per
78.11 piece, as the case may be. In those cases any bids offered over and above the appraised
78.12 prices shall be by percentage, the percent bid to be added to the appraised price of each of
78.13 the different species of timber advertised on the land. The purchaser of timber from the
78.14 parcels shall pay in cash at the time of sale at the rate bid for all of the timber shown in the
78.15 notice of sale as estimated to be standing on the land, and in addition shall pay at the same
78.16 rate for any additional amounts which the final scale shows to have been cut or was available
78.17 for cutting on the land at the time of sale under the terms of the sale. Where the final scale
78.18 of cut products shows that less timber was cut or was available for cutting under terms of
78.19 the sale than was originally paid for, the excess payment shall be refunded from the forfeited
78.20 tax sale fund upon the claim of the purchaser, to be audited and allowed by the county board
78.21 as in case of other claims against the county. No timber, except hardwood pulpwood, may
78.22 be removed from the parcels of land or other designated landings until scaled by a person
78.23 or persons designated by the county board and approved by the commissioner of natural
78.24 resources. Landings other than the parcel of land from which timber is cut may be designated
78.25 for scaling by the county board by written agreement with the purchaser of the timber. The
78.26 county board may, by written agreement with the purchaser and with a consumer designated
78.27 by the purchaser when the timber is sold by the county auditor, and with the approval of
78.28 the commissioner of natural resources, accept the consumer's scale of cut products delivered
78.29 at the consumer's landing. No timber shall be removed until fully paid for in cash. Small
78.30 amounts of timber not exceeding 500 cords in appraised volume may be sold for not less
78.31 than the full appraised value at private sale to individual persons without first publishing
78.32 notice of sale or calling for bids, provided that in case of a sale involving a total appraised
78.33 value of more than \$200 the sale shall be made subject to final settlement on the basis of a
78.34 scale of cut products in the manner above provided and not more than two of the sales,
78.35 directly or indirectly to any individual shall be in effect at one time.

79.1 (d) As directed by the county board, the county auditor may lease tax-forfeited land to
79.2 individuals, corporations or organized subdivisions of the state at public or private sale, and
79.3 at the prices and under the terms as the county board may prescribe, for use as cottage and
79.4 camp sites and for agricultural purposes and for the purpose of taking and removing of hay,
79.5 stumpage, sand, gravel, clay, rock, marl, and black dirt from the land, and for garden sites
79.6 and other temporary uses provided that no leases shall be for a period to exceed ~~ten~~ 25 years;
79.7 provided, further that any leases involving a consideration of more than ~~\$12,000~~ \$50,000
79.8 per year, except to an organized subdivision of the state shall first be offered at public sale
79.9 in the manner provided herein for sale of timber. Upon the sale of any leased land, it shall
79.10 remain subject to the lease for not to exceed one year from the beginning of the term of the
79.11 lease. Any rent paid by the lessee for the portion of the term cut off by the cancellation shall
79.12 be refunded from the forfeited tax sale fund upon the claim of the lessee, to be audited and
79.13 allowed by the county board as in case of other claims against the county.

79.14 (e) As directed by the county board, the county auditor may lease tax-forfeited land to
79.15 individuals, corporations, or organized subdivisions of the state at public or private sale, at
79.16 the prices and under the terms as the county board may prescribe, for the purpose of taking
79.17 and removing for use for road construction and other purposes tax-forfeited stockpiled
79.18 iron-bearing material. The county auditor must determine that the material is needed and
79.19 suitable for use in the construction or maintenance of a road, tailings basin, settling basin,
79.20 dike, dam, bank fill, or other works on public or private property, and that the use would
79.21 be in the best interests of the public. No lease shall exceed ten years. The use of a stockpile
79.22 for these purposes must first be approved by the commissioner of natural resources. The
79.23 request shall be deemed approved unless the requesting county is notified to the contrary
79.24 by the commissioner of natural resources within six months after receipt of a request for
79.25 approval for use of a stockpile. Once use of a stockpile has been approved, the county may
79.26 continue to lease it for these purposes until approval is withdrawn by the commissioner of
79.27 natural resources.

79.28 (f) The county auditor, with the approval of the county board is authorized to grant
79.29 permits, licenses, and leases to tax-forfeited lands for the depositing of stripping, lean ores,
79.30 tailings, or waste products from mines or ore milling plants, or to use for facilities needed
79.31 to recover iron-bearing oxides from tailings basins or stockpiles, or for a buffer area needed
79.32 for a mining operation, upon the conditions and for the consideration and for the period of
79.33 time, not exceeding 25 years, as the county board may determine. The permits, licenses, or
79.34 leases are subject to approval by the commissioner of natural resources.

80.1 (g) Any person who removes any timber from tax-forfeited land before said timber has
80.2 been scaled and fully paid for as provided in this subdivision is guilty of a misdemeanor.

80.3 (h) The county auditor may, with the approval of the county board, and without first
80.4 offering at public sale, grant leases, for a term not exceeding 25 years, for the removal of
80.5 peat and for the production or removal of farm-grown closed-loop biomass as defined in
80.6 section 216B.2424, subdivision 1, or short-rotation woody crops from tax-forfeited lands
80.7 upon the terms and conditions as the county board may prescribe. Any lease for the removal
80.8 of peat, farm-grown closed-loop biomass, or short-rotation woody crops from tax-forfeited
80.9 lands must first be reviewed and approved by the commissioner of natural resources if the
80.10 lease covers 320 or more acres. No lease for the removal of peat, farm-grown closed-loop
80.11 biomass, or short-rotation woody crops shall be made by the county auditor pursuant to this
80.12 section without first holding a public hearing on the auditor's intention to lease. One printed
80.13 notice in a legal newspaper in the county at least ten days before the hearing, and posted
80.14 notice in the courthouse at least 20 days before the hearing shall be given of the hearing.

80.15 (i) Notwithstanding any provision of paragraph (c) to the contrary, the St. Louis County
80.16 auditor may, at the discretion of the county board, sell timber to the party who bids the
80.17 highest price for all the several kinds of timber, as provided for sales by the commissioner
80.18 of natural resources under section 90.14. Bids offered over and above the appraised price
80.19 need not be applied proportionately to the appraised price of each of the different species
80.20 of timber.

80.21 (j) In lieu of any payment or deposit required in paragraph (b), as directed by the county
80.22 board and under terms set by the county board, the county auditor may accept an irrevocable
80.23 bank letter of credit in the amount equal to the amount otherwise determined in paragraph
80.24 (b). If an irrevocable bank letter of credit is provided under this paragraph, at the written
80.25 request of the purchaser, the county may periodically allow the bank letter of credit to be
80.26 reduced by an amount proportionate to the value of timber that has been harvested and for
80.27 which the county has received payment. The remaining amount of the bank letter of credit
80.28 after a reduction under this paragraph must not be less than 20 percent of the value of the
80.29 timber purchased. If an irrevocable bank letter of credit or cash deposit is provided for the
80.30 down payment required in paragraph (b), and no cutting of timber has taken place on the
80.31 contract for which a letter of credit has been provided, the county may allow the transfer
80.32 of the letter of credit to any other contract issued to the contract holder by the county under
80.33 this chapter to which the contract holder requests in writing that it be credited.

80.34 (k) As directed by the county board, the county auditor may lease tax-forfeited land
80.35 under the terms and conditions prescribed by the county board for the purposes of

81.1 investigating, analyzing, and developing conservation easements that provide ecosystem
 81.2 services.

81.3 Sec. 6. Minnesota Statutes 2020, section 282.04, is amended by adding a subdivision to
 81.4 read:

81.5 Subd. 4b. **Conservation easements.** The county auditor, with prior review and
 81.6 consultation with the commissioner of natural resources and under the terms and conditions
 81.7 prescribed by the county board, including reversion in the event of nonuse, may convey
 81.8 conservation easements as defined in section 84C.01 on tax-forfeited land.

86.4 resources may sell by public sale the surplus land bordering public water that is described
86.5 in paragraph (c).

86.10 Township 135 North, Range 29 West, Cass County, Minnesota, EXCEPT therefrom a
86.11 rectangular piece in the southeast corner thereof 370 feet North and South by 420 feet East
86.12 and West; and

86.13 (2) that part of Government Lot 6 of said Section 32, described as follows: beginning
86.14 at the northwest corner of said Government Lot 6; thence East along the north line of said
