69.30 reasonably accommodated within the local governmental unit in which the business is
69.31 currently located, or the business would otherwise relocate to another state or country; and
69.32 (5) the number of jobs that will be created.
69.33 (b) The factors in paragraph (a) are not listed in a rank order of priority; rather, the

70.34 of the existing bridge, a bridge or replacement bridge is eligible for assistance from the
70.35 state transportation fund if a hydrological survey indicates that the bridge or replacement
70.36 bridge must be ten feet or more in length.

70.37 (c) As part of the standards or rules, the commissioner shall, in consultation with
70.38 local road authorities, establish a minimum distance between any two bridges that cross
70.39 the same river, stream, or waterway, so that only one of the bridges is eligible for a
70.40 grant under this section. As appropriate, the commissioner may establish exceptions from
70.41 the minimum distance requirement or procedures for obtaining a variance.

70.42 (d) Funds appropriated to the commissioner from the Minnesota state transportation
70.43 fund shall be segregated from the highway tax user distribution fund and other funds
