2.17 (1) the sum of:

2.18 (i) all expenditures for transportation in the regular category, as defined in paragraph
2.19 (b), clause (1), and the excess category, as defined in paragraph (b), clause (2), plus

2.20 (ii) an amount equal to one year's depreciation on the district's school bus fleet
2.21 and mobile units computed on a straight line basis at the rate of 15 percent per year for
2.22 districts operating a program under section 124D.128 for grades 1 to 12 for all students in
2.23 the district and 12-1/2 percent per year for other districts of the cost of the fleet, plus

2.24 (iii) an amount equal to one year's depreciation on the district's type III vehicles, as
2.25 defined in section 169.011, subdivision 71, which must be used a majority of the time for

8.25 responsive but unsuccessful proposal in response to the reissued request for proposals.
8.26 When the reissued request for proposals specifies a maximum price, the stipend shall
8.27 be awarded if the proposal is responsive in all other aspects but comes in above the
8.28 maximum price.

8.29 Sec. 11. Minnesota Statutes 2008, section 162.02, subdivision 3a, is amended to read:

9.2 complete streets project.

9.3 (b) The commissioner shall publish notice of the request in the State Register and
9.4 give notice to all persons known to the commissioner to have an interest in the matter. The
9.5 commissioner may grant or deny the variance within 30 days of providing notice of the
9.6 request. If a written objection to the request is received within seven days of providing
9.7 notice, the variance shall be granted or denied only after a contested case hearing has been
9.8 held on the request. If no timely objection is received and the variance is denied without
9.9 hearing, the political subdivision may request, within 30 days of receiving notice of denial,
9.10 and shall be granted a contested case hearing.

9.11 (c) For purposes of this subdivision, "political subdivision" includes (1) an agency of
9.12 a political subdivision which has jurisdiction over parks, and (2) a regional park authority.

9.20 (b) The commissioner shall publish notice of the request in the State Register and
9.21 give notice to all persons known to the commissioner to have an interest in the matter. The
9.22 commissioner may grant or deny the variance within 30 days of providing notice of the
9.23 request. If a written objection to the request is received within seven days of providing
9.24 notice, the variance shall be granted or denied only after a contested case hearing has been
9.25 held on the request. If no timely objection is received and the variance is denied without
9.26 hearing, the political subdivision may request, within 30 days of receiving notice of denial,
9.27 and shall be granted a contested case hearing.

9.28 (c) For purposes of this subdivision, "political subdivision" includes (1) an agency of
9.29 a political subdivision which has jurisdiction over parks, and (2) a regional park authority.

9.30 Sec. 13. Minnesota Statutes 2008, section 165.14, subdivision 4, is amended to read:

9.31 Subd. 4. **Prioritization of bridge projects.** (a) The commissioner shall classify all
9.32 bridges in the program into tier 1, 2, or 3 bridges, where tier 1 is the highest tier. Unless
9.33 the commissioner identifies a reason for proceeding otherwise, before commencing bridge
9.34 projects in a lower tier, all bridge projects within a higher tier must to the extent feasible

10.1 be selected and funded in the approved state transportation improvement program, at
10.2 any stage in the project development process, solicited for bids, in contract negotiation,
10.3 under construction, or completed.

10.4 (b) The classification of each tier is as follows:

10.5 (1) tier 1 consists of any bridge in the program that (i) has an average daily traffic
10.6 count that is above 1,000 and has a sufficiency rating that is at or below 50, or (ii) is
10.7 identified by the commissioner as a priority project;

10.8 (2) tier 2 consists of any bridge that is not a tier 1 bridge, and (i) is classified as
10.9 fracture-critical, or (ii) has a sufficiency rating that is at or below 80; and

10.10 (3) tier 3 consists of any other bridge in the program that is not a tier 1 or tier 2 bridge.

10.11 (c) By June 30, 2018, all tier 1 and tier 2 bridges originally included in the program
10.12 must be under contract for repair or replacement with a new bridge that contains a
10.13 load-path-redundant design, except that a specific bridge may remain in continued service
10.14 if the reasons are documented in the report required under subdivision 5.

10.15 (d) All bridge projects funded under this section in fiscal year 2012 or later must
10.16 include bicycle and pedestrian accommodations if both sides of the bridge are located in a
10.17 city or the bridge links a pedestrian way, shared-use path, trail, or scenic bikeway.

10.18 Bicycle and pedestrian accommodations would not be required if:

10.19 (1) a comprehensive assessment demonstrates that there is an absence of need for
10.20 bicycle and pedestrian accommodations for the life of the bridge; or

10.21 (2) there is a reasonable alternative bicycle and pedestrian crossing within
10.22 one-quarter mile of the bridge project.

20.17 **168.1293 CERTAIN SPECIAL PLATES; AUTHORIZATION,**
20.18 **DISCONTINUANCE.**

20.19 Subdivision 1. **Definition.** For purposes of this section ~~and section 168.1297, the~~
20.20 following terms have the meanings given them:

20.21 (1) "new special plate" or "proposed special plate" means a special plate authorized
20.22 by sections 168.12, subdivisions 2b and 2c; 168.1235; and 168.129, to have wording and
20.23 graphics that differ from a Minnesota passenger vehicle plate, that is not authorized under
20.24 this chapter and for which legislation authorizing the plate, including but not limited to a
20.25 bill or amendment, is introduced or presented to the legislature; and

20.26 (2) "proximate special plate" means a special plate (i) authorized under section
20.27 168.12, subdivisions 2b and 2c; 168.1235; or 168.129; or (ii) authorized in law on or
20.28 after August 1, 2010.

20.29 Subd. 1a. **Establishment of plate.** The commissioner may only establish a special
20.30 plate as authorized under this chapter. This requirement does not apply to alternative
20.31 or additional designs for a special plate.

20.32 Subd. 2. **Submissions to commissioner.** (a) A person, legal entity, or other
20.33 requester, however organized, that plans to seek legislation establishing a new special

21.1 plate, or is a proponent of a new special plate, shall submit the following information and
21.2 fee to the commissioner:

21.3 (1) The requester shall submit a request for the special plate being sought, describing
21.4 the ~~proposed~~ special plate in general terms, the purpose of the plate, and the proposed fee
21.5 or minimum contribution required for the plate.

21.6 (2) The requester shall submit the results of a scientific sample survey of Minnesota
21.7 motor vehicle owners that indicates that at least 10,000 motor vehicle owners intend
21.8 to purchase the proposed plate with the proposed fee or minimum contribution. The
21.9 requester's plan to undertake the survey must be reported to the commissioner before the
21.10 survey is undertaken. The survey must be performed independently of the requester by
21.11 another person or legal entity, however organized, that conducts similar sample surveys
21.12 in the normal course of business.

21.13 (3) The requester shall submit an application fee of \$20,000, to cover the cost of
21.14 reviewing the application for a new plate and developing the new special plate if authorized
21.15 by law. State funds may not be used to pay the application fee. This requirement does not
21.16 apply if legislation or a bill introduced to the legislature proposing the new special plate
21.17 contains a mechanism by which all costs incurred by the commissioner for development
21.18 and implementation of the plate are covered, provided that the application fee subsequently
21.19 does apply if such a mechanism is not enacted in the law authorizing the new special plate.

21.20 (4) The requester shall submit a marketing strategy that contains (i) short-term and
21.21 long-term marketing plans for the requested plate, and (ii) a financial analysis showing
21.22 the anticipated revenues and the planned expenditures of any fee or contribution derived
21.23 from the requested plate.

21.24 (b) The requester shall submit the information required under paragraph (a) to the
21.25 commissioner at least 120 days before the convening of the next regular legislative session
21.26 at which the requester will submit the proposal.

21.27 Subd. 2a. **Information for legislature.** (a) Within 15 days of the introduction of a
21.28 bill proposing a new special plate, the commissioner shall submit a briefing to the chairs
21.29 and ranking minority members of the house of representatives and senate committees to
21.30 which the bill was referred. At a minimum, the briefing must:

21.31 (1) summarize the requirements for a special plate under this section; and

21.32 (2) identify which of the requirements have been met for the proposed special plate.

21.33 (b) If a proposed special plate is a topic of discussion at a legislative committee
21.34 hearing, the commissioner shall make every reasonable effort to provide testimony. The
21.35 testimony must include the information required in the briefing under paragraph (a).

22.1 (c) Notwithstanding section 3.195, the commissioner may submit the briefing under
22.2 paragraph (a) by submitting an electronic version rather than a printed version.

22.3 Subd. 3. **Design; redesign.** (a) If the proposed ~~new~~ special plate sought by the
22.4 requester is approved by law, the requester shall submit the proposed design for the plate
22.5 to the commissioner as soon as practicable, but not later than 120 days after the effective
22.6 date of the law authorizing issuance of the plate. The commissioner is responsible for
22.7 selecting the final design for the special plate.

22.8 (b) The requester that originally requested a new special plate subsequently approved
22.9 by law may not submit a new design for the plate within the five years following the date
22.10 of first issuance of the plate unless the inventory of those plates has been exhausted.
22.11 The requester may deplete the remaining inventory of the plates by reimbursing the
22.12 commissioner for the cost of the plates.

22.13 Subd. 4. **Refund of fee.** If the special plate requested is not authorized in the
22.14 legislative session at which authorization was sought, the commissioner shall, if
22.15 applicable, refund \$17,500 of the application fee to the requester.

22.17 issuance or renewal of any proximate special plate ~~authorized by sections 168.12,~~
22.18 ~~subdivisions 2b and 2c; 168.1235; and 168.129;~~ if (1) fewer than 1,000 sets of those
22.19 plates are currently registered at the end of the first six years during which the plates are
22.20 available, or (2) fewer than 1,000 sets of those plates are currently registered at the end of
22.21 any subsequent two-year period following the first six years of availability.

22.30 168.124, 168.125, 168.1251, or 168.1255.

22.31 (d) Upon commencing discontinuance of a proximate special plate under this
22.32 subdivision, the commissioner (1) shall not issue the plate, including as a duplicate; and
22.33 (2) shall allow retention of any existing plate for the regular period. For purposes of this
22.34 paragraph, "regular period" may be, as appropriate, the period specified under section
22.35 168.12, subdivision 1; the time until issuance of a duplicate plate for that vehicle; or as
22.36 otherwise provided by law.

23.2 proximate special plate ~~authorized by sections 168.12, subdivisions 2b and 2c; 168.1235;~~
23.3 ~~and 168.129,~~ and interest earned on the contributions, may not be spent for commercial or

40.31 for financial assistance, an applicant or recipient shall provide to the commissioner
40.32 all financial records and other information and shall permit any inspection reasonably
40.33 necessary to determine total operating cost and correspondingly the amount of assistance
40.34 that may be paid to the applicant or recipient. Where more than one county or municipality

41.1 contributes assistance to the operation of a public transit system, the commissioner shall
41.2 identify one as lead agency for the purpose of receiving money under this section.

41.3 (b) Prior to distributing operating assistance to eligible recipients for any contract
41.4 period, the commissioner shall place all recipients into one of the following classifications:
41.5 urbanized area service, small urban area service, rural area service, and elderly and
41.6 disabled service.

41.7 (c) The commissioner shall distribute funds under this section so that the percentage
41.8 of total contracted operating cost paid by any recipient from local sources will not exceed
41.9 the percentage for that recipient's classification, except as provided in ~~an undue hardship~~

41.11 (1) for urbanized area service and small urban area service, 20 percent;

41.13 (3) for elderly and disabled service, 15 percent.

41.14 Except as provided in a United States Department of Transportation program allowing
41.15 or requiring a lower percentage to be paid from local sources, the remainder of the
41.16 recipient's total contracted operating cost will be paid from state sources of funds less any
41.17 assistance received by the recipient from any federal source the United States Department

41.21 that the commissioner may exclude from the total assistance contract revenues derived
41.22 from operations the cost of which is excluded from the computation of total operating
41.23 cost. ~~Total operating costs of the Duluth Transit Authority or a successor agency does~~
41.24 ~~not include costs related to the Superior, Wisconsin service contract and the Independent~~
41.25 ~~School District No. 709 service contract.~~

41.26 (e) (e) If a recipient informs the commissioner in writing after the establishment of
41.27 these percentages but prior to the distribution of financial assistance for any year that
41.28 paying its designated percentage of total operating cost from local sources will cause
41.29 undue hardship, the commissioner may reduce the percentage to be paid from local
41.30 sources by the recipient and increase the percentage to be paid from local sources by one
41.31 or more other recipients inside or outside the classification. However, the commissioner
41.32 may not reduce or increase any recipient's percentage under this paragraph for more than
41.33 two years successively. If for any year the funds appropriated to the commissioner to carry
41.34 out the purposes of this section are insufficient to allow the commissioner to pay the state
41.35 share of total operating cost as provided in this paragraph, the commissioner shall reduce
41.36 the state share in each classification to the extent necessary.

42.1 Sec. 48. Minnesota Statutes 2009 Supplement, section 174.24, subdivision 5, is
42.2 amended to read:

53.34 (3) "Salvage value" means the probable sale price of the dwelling and other property
53.35 that is severable from the land if offered for sale on the condition that it be removed from
53.36 the land at the buyer's expense, allowing a reasonable time to find a buyer with knowledge

54.1 of the possible uses of the property, including separate use of serviceable components and
54.2 scrap when there is no other reasonable prospect of sale.

54.3 Sec. 61. Minnesota Statutes 2008, section 473.411, subdivision 5, is amended to read:

54.4 Subd. 5. **Use of public roadways and appurtenances.** The council may use for the
54.5 purposes of sections 473.405 to 473.449 upon the conditions stated in this subdivision
54.6 any state highway or other public roadway, parkway, or lane, or any bridge or tunnel or
54.7 other appurtenance of a roadway, without payment of any compensation, provided the
54.8 use does not interfere unreasonably with the public use or maintenance of the roadway or
54.9 appurtenance or entail any substantial additional costs for maintenance. The provisions of
54.10 this subdivision do not apply to the property of any common carrier railroad or common
54.11 carrier railroads. The consent of the public agency in charge of such state highway or other
54.12 public highway or roadway or appurtenance is not required; except that if the council seeks
54.13 to use a designated parkway for regular route service in the city of Minneapolis, it must
54.14 obtain permission from and is subject to reasonable limitations imposed by a joint board
54.15 consisting of two representatives from the council, two members of the board of park
54.16 commissioners, and a fifth member jointly selected by the ~~representatives of the council~~
54.17 ~~and the park~~ other members of the board. If the use is a designated Minneapolis parkway
54.18 for regular route service adjacent to the city of Minneapolis, it must obtain permission
54.19 from and is subject to reasonable limitations imposed by a joint board consisting of two
54.20 representatives from the council, two members of the board of park commissioners, and a
54.21 fifth member jointly selected by other members of the board. The joint board must include
54.22 a nonvoting member appointed by the council of the city in which the parkway is located.

54.23 The board of park commissioners and the council may designate persons to sit on
54.24 the joint board. In considering a request by the council to use designated parkways for
54.25 additional routes or trips, the joint board consisting of the council or their designees,
54.26 the board of park commissioners or their designees, and the fifth member, shall base its
54.27 decision to grant or deny the request based on the criteria to be established by the joint
54.28 board. The decision to grant or deny the request must be made within 45 days of the
54.29 date of the request. The park board must be notified immediately by the council of any
54.30 temporary route detours. If the park board objects to the temporary route detours within
54.31 five days of being notified, the joint board must convene and decide whether to grant the
54.32 request, otherwise the request is deemed granted. If the agency objects to the proposed
54.33 use or claims reimbursement from the council for additional cost of maintenance, it may
54.34 commence an action against the council in the district court of the county wherein the
54.35 highway, roadway, or appurtenance, or major portion thereof, is located. The proceedings

55.1 in the action must conform to the Rules of Civil Procedure applicable to the district courts.
55.2 The court shall sit without jury. If the court determines that the use in question interferes
55.3 unreasonably with the public use or maintenance of the roadway or appurtenance, it shall
55.4 enjoin the use by the council. If the court determines that the use in question does not
55.5 interfere unreasonably with the public use or maintenance of the roadway or appurtenance,
55.6 but that it entails substantial additional maintenance costs, the court shall award judgment
55.7 to the agency for the amount of the additional costs. Otherwise the court shall award
55.8 judgment to the council. An aggrieved party may appeal from the judgment of the district
55.9 court in the same manner as is provided for such appeals in other civil actions. The council
55.10 may also use land within the right-of-way of any state highway or other public roadway
55.11 for the erection of traffic control devices, other signs, and passenger shelters upon the
55.12 conditions stated in this subdivision and subject only to the approval of the commissioner
55.13 of transportation where required by statute, and subject to the express provisions of other
55.14 applicable statutes and to federal requirements where necessary to qualify for federal aid.
