

That the interests of that portion of our Territory being on the North Shore of Lake Superior, would be materially advanced by the construction of a Light House on the Island at the mouth of the Two Island River.

The dangers incident to navigation on a rock bound coast, and the fact of this point being situated about midway between Pigeon River and the head of the Lake, and directly opposite the Apostle Islands, renders the construction of a Light House at such point highly necessary to the Lake. Therefore your memorialists respectfully pray your honorable body that an appropriation may be speedily granted for this purpose.
