APPENDIX—CONSISTING OF JOINT RESOLUTIONS AND
THE ANNUAL REPORT OF THE TREASURER OF STATE.

JOINT RESOLUTIONS

PASSED AND APPROVED AT THE FOURTEENTH SESSION OF THE STATE LEGISLATURE, COMMENCING JANUARY SECOND, ONE THOUSAND EIGHT HUNDRED AND SEVENTY-TWO, AND TERMINATING MARCH FIRST, ONE THOUSAND EIGHT HUNDRED AND SEVENTY-TWO.

NUMBER I.

A Joint Resolution to Congress asking an Appropriation for the Construction of a Ship Canal around the Falls of Niagara, on the American side.

February 26,
1872.

WHEREAS, The agricultural products of this state—indeed of the entire west—will be increased in value in our own markets in proportion to the reduction of their cost of transportation to the eastern and European markets; and

WHEREAS, That cost can only be reduced by the opening up of new and competing water and other routes between the valley of the Mississippi and the Atlantic Ocean through the great water channels of the continent; and

WHEREAS, The obstruction between lakes Erie and Ontario is the most formidable—indeed the only formidable barrier to continuous navigation on the northern or lake route; and

WHEREAS, That route has always been regarded, both by

our own Government, as also by France and England in colonial times, as a public national highway, by water, to the interior of the continent; therefore,

Be it resolved by the Legislature of the State of Minnesota:

Relating to the construction of a ship canal around Niagara Falls.

That Congress be requested to make an appropriation at its present session, adequate to work, for the construction of a canal of the maximum capacity of the lakes, around the Falls of Niagara on the American side, and that such works may be completed as speedily as can be done consistent with the best interests of the whole country.

Resolved further, That the governor of this state be requested to forward copies of these resolutions to our senators and representatives in congress at as early a day as practicable.

Approved February 26, 1872.

NUMBER II.

February 26,
1872.

A Joint Resolution to Congress asking the Completion of the Water Route from the Mississippi Valley by the way of the Wisconsin and Fox Rivers, to Lake Michigan, and another by the way of Lake Superior, by the Enlargement and Deepening of the Canal at the Outlet of that Lake.

WHEREAS, To ensure the continued development and consequent prosperity of this state as also of the entire north-west, a system of cheaper transportation than now or ever can exist with the present means and facilities furnished by railroads and the limited and imperfect system of water transit must be opened up between her vast and fer-

tile grain fields and the eastern and European markets ;
and

WHEREAS, It is a maxim in political economy, as well as in commercial law and practice, that to cheapen the cost of transport of the heavy, and bulky products of an agricultural country, (such as ours) on any part of the route over long distances, operates to reduce the cost thereof, on the entire route, whereby the remotest portions of the country as well as the nearest are equally benefitted thereby ; and

Preamble.

WHEREAS, Congress acting upon this correct and highly important principle has inaugurated a system of cheap transportation by taking measures to open up a water route from the Mississippi valley by the way of the Wisconsin and Fox rivers to Lake Michigan, and another by the way of Lake Superior, by the enlargement and deepening of the canal at the outlet of that lake, whereby the advantages of cheap and continuous water transportation for our cereals and other agricultural products to the markets of the world is intended to be brought the nearest possible to our borders, whereby, also, wheat especially can be raised with a fair margin of profit to the producer upon the unbounded and almost unbroken plains and valleys of our own state and the region beyond ; therefore,

Be it resolved by the Legislature of the State of Minnesota:

That congress be requested to complete the improvements which it has already commenced as speedily as can possibly be done consistent with the best interests of the whole country.

Relating to a water communication between Lake Michigan and the Mississippi river.

Resolved further, That the governor of this state be requested to forward copies of these resolutions to our senators and representatives in congress at as early a day as practicable.

Approved February 26, 1872.

NUMBER III.

March 1, 1872. *A Joint Resolution relating to Securities in which the Trust Funds of this State may be invested.*

Be it resolved by the Legislature of the State of Minnesota:

Missouri state bonds included among the securities in which trust funds may be invested.

That the six per cent. state bonds of the state of Missouri are hereby added to the securities in which the trust funds of this state are authorized to be invested.

Approved March 1, 1872.

NUMBER IV.

March 1, 1872. *A Joint Resolution to secure the Cession of the Chippewa Reservation at the Mouth of Pigeon River on the Northern Boundary of the State to the United States, and the Opening up of the same for Occupancy and Settlement.*

WHEREAS, The Indian reservation near the mouth of the Pigeon river, on the northern boundary of this state, reserved to the Chippewa Indians, by treaty with said Indians, contains the best and only safe and natural harbors on Lake Superior, near the northern boundary of our state; and

WHEREAS, Such harbors are absolutely required by the developing commerce and mineral interests of that section of our state; and

WHEREAS, But few Indians are residing upon or can be induced to reside upon said reservation; therefore,

Be it resolved by the Legislature of the State of Minnesota:

That our senators and representatives in congress, be requested to use all honorable means in their power, with the executive of the United States, and the several departments thereof having the same in charge, to cause said reservation to be surrendered and the Indians removed therefrom to some more proper and equally suitable reservation elsewhere.

Application to have Indians removed from Pigeon river reservation.

Resolved, That the secretary of state forward a copy of the foregoing "Joint Resolution," and of a memorial on that subject to each of our senators and representatives in congress.

Approved March 1, 1872.

NUMBER V.

A Joint Resolution asking the State of Wisconsin to indemnify the State of Minnesota for moneys appropriated in aid of Floyd Smith.

March 2, 1872.

WHEREAS, On the fifth day of January 1871, a requisition was issued by the governor of the state of Wisconsin upon the governor of the state of Minnesota, for the arrest and extradition of Floyd Smith, of Faribault county, Minnesota, upon the charge of stealing a horse from one Moses Clemens, of Oconomowoc, in the state of Wisconsin, in December, 1869; and

[WHEREAS, Said Smith was arrested and conveyed to the State of Wisconsin for trial, pursuant to said requisition, was tried, indicted, convicted of the alleged offence by reason of false or mistaken evidence produced against him by the prosecution, and was sentenced to the Wisconsin state prison for two years, and was taken to said prison and there confined as a common felon for several weeks; and]

Preamble.

WHEREAS, an application was then made to the governor of Wisconsin for the pardon of said Smith and an investigation ordered by him into the merits of the case, which investigation resulted in proving conclusively and beyond all doubt that the said Smith was innocent of the offence charged or of any offence or color of criminality in the premises, and was immediately and unconditionally pardoned by said governor; and

WHEREAS, The said arrest, trial and conviction of said Smith resulted in a loss to him of about three thousand dollars, which has left him with no property—involvement in debt to the extent of several hundred dollars, and with the support of a large family to provide for, (he being a poor man at the time of his arrest); and

WHEREAS, The legislature of the state of Minnesota, in view of the foregoing facts, has appropriated the said sum of sixteen hundred dollars (\$1,600) to indemnify the said Smith for his losses incurred in the case; now therefore,

Be it resolved by the Legislature of the State of Minnesota:

Application to
the state of
Wisconsin for
reimbursement
of moneys paid
to Floyd Smith

That the legislature of the state of Wisconsin be and they are hereby petitioned and invited, as a matter of manifest justice, to make provision by law to indemnify the state of Minnesota in the sum so appropriated to said Floyd Smith, and that the governor of Minnesota be requested to present these resolutions to the governor of Wisconsin and ask him to lay them before the legislature of that state and invite their attention thereto.

Approved March 2, 1872.

NUMBER VI.

A Joint Resolution Requesting the Congress of the United States to Vacate that Portion of the Military Reservation at Fort Ripley, Minnesota, which lies East of the Mississippi River, and to open the same to Settlement and Occupation under the Homestead and Pre-emption Laws.

February 3,
1872.

WHEREAS, That portion of the Fort Ripley military reservation in the state of Minnesota, lying east of the Mississippi river, is not needed for military purposes, and contains an extensive tract of good farming lands, which if opened to settlement, would be soon taken up by actual settlers; and

WHEREAS, The extension of the branch line of the St. Paul and Pacific railroad to a junction with the Northern Pacific railroad at Brainard is already nearly graded across said reservation; and

WHEREAS, The officer of the United States army, in command at Fort Ripley, denies the right of way to said railroad across said reservation, and has of late issued an order forbidding contractors delivering ties, piling and bridge timber along the line of said railroad, and forbidding building the camps necessary for the convenience of their workmen, thereby subjecting said contractors to great damage by compelling them to suspend their work; and

WHEREAS, This order if not reversed, will defeat the building of said railroad, and greatly retard the settlement of that section of country. Now, therefore,

Be it resolved by the Legislature of the State of Minnesota:

That our senators and representatives in congress be requested to use their efforts in behalf of legislation which will restore so much of the military reservation at Fort Ripley as is situated on the east side of the Mississippi river to the body of public lands for settlement like other public lands of the United States, and to secure an equitable adjustment of all rights and claims growing out of the sale of said lands by the war department in 1857.

To vacate military reservation at Fort Ripley, east of the Mississippi river.

Approved February 3, 1872.

NUMBER VII.

February 10,
1872.

A *Joint Resolution Asking a Modification of the Law Granting Bounties under the U. S. Supreme Court Decision of March 14, 1870.*

WHEREAS, Under the decision of the supreme court of the United States of March 14, 1870, soldiers who enlisted for three years under the first call of the President, and honorably discharged prior to the expiration of their term of enlistment, are declared entitled to one hundred dollars bounty, the same as though said term of enlistment had been completed; and

WHEREAS, The accounting officers of the general government being unable to determine to what regiments said decision applied, eighty-two regiments having been accepted, instead of forty, the number authorized by the President; and

WHEREAS, The government having accepted and mustered said eighty-two regiments into the service with the implied understanding that the benefits of the law authorizing their acceptance was applicable alike to all; and

WHEREAS, Additional legislation on the part of congress is deemed necessary by the proper accounting officers of the government, to enable a compliance on their part with the terms of the decision aforesaid; therefore,

Be it resolved by the Legislature of the State of Minnesota:

Asking modification of law granting bounties.

That our senators and representatives in congress be respectfully requested to use all honorable means to secure such legislation as will obviate the difficulties heretofore mentioned.

Approved Feb. 10, 1872.

As no collections can probably be expected for this fund before April 1st, 1872, and the current expenses of the State Government for the four months intervening, together with the expenditures for the Legislature, may be safely estimated at one hundred thousand dollars, it will be seen that the above small balance will be totally inadequate to meet the obligations necessarily to be incurred by the State during that period for the purposes mentioned. I would therefore recommend that a temporary loan from the sinking fund, and other funds, be authorized, to bridge over the prospective deficiency.

The Sinking Fund holds twenty-five thousand dollars U. S. six per cent. currency bonds, and fifteen thousand dollars Minnesota Railroad bonds.

The above amount, together with the collections for the next year, and the amount to be realized from the sale of the twenty-five thousand currency bonds, ought to be sufficient to cancel the Minnesota war loan maturing in 1872, amounting to one hundred thousand dollars. The bonds of this loan are now held by the Permanent School Fund, and I would respectfully suggest that the School Fund commissioners be authorized, whenever the state of the treasury will permit, from time, to time, to transfer the accumulations of the Sinking Fund to the Permanent School Fund, as far as may be necessary, and to cancel therefor an equal amount of the Minnesota war loan bonds until all are canceled.

Upon a similar recommendation, a bill to that effect passed the House of Representatives last winter, but failed to become a law, not having reached the Senate in time, and no such disposition could be made during the year.

It will be observed by comparing the above with my last year's report, that the apportionment this year was \$163,555.35 against \$176,806.85 apportioned last year, an apparent falling off this year of \$13,251.50 from the amount apportioned last year, when in fact there is and should be an increase. It should be remembered in making this comparison, that previous to last year, the time fixed by law for making the two annual school apportionments was on the first Monday of February and August, while during the session of 1870 it was changed to the first Monday of March and October. In that way the heavy returns from counties in August and September were added to the apportionment of last year, or in other words, that year counted from August, 1869, to October, 1870, while the returns for this year included only the returns from October, 1870, to October, 1871. The amount received during these two months in 1870, was \$23,286.15, over ten thousand dollars more than the above difference.

Paid for \$50,000 Missouri State bonds,	\$47,500 00
Leaving balance in Treasury. Dec. 1st, 1871,	\$58,962 75

As no satisfactory investment could be made in 1870, in any of the State bonds then authorized by law, the School Fund Commissioners in their last annual report, asked for authority to invest the accumulations and the proceeds to arise from the proposed sale of the U. S. 5-20 bonds held by the School Fund, in Missouri State bonds. A bill to that effect was prepared and passed the House of Representatives, but failed to become a law, not having reached the Senate in time. The commissioners then deemed best to await the result of the election in regard to the adoption of the constitutional amendment authorizing an additional issue of Minnesota State bonds, such investment being considered the safest and most profitable for the Fund. That amendment failing to meet popular support, the commissioners then decided, notwithstanding no full authority was given to that effect by law, to invest at least a portion of the fund in Missouri State bonds, and to await the action of the legislature in regard to future investment, and the sale of the \$77,800 U. S. 5-20 bonds. The above \$50,000 was then invested,

A large amount of premiums could have been saved to the fund, had that authority been given at the last session, and I would therefore again recommend that a resolution be promptly passed, authorizing such sale and investment, and sanctioning the above action of the commissioners.

I deem it my duty to call the attention of the legislature to the loose and somewhat defective manner in which the accounts with the Railroad Companies are kept. Under the present laws the companies report once a year to the State Treasurer the amount of their gross earnings, upon which report the amount of tax is based. The Treasurer has no authority to examine into the correctness of such reports. I would therefore again repeat my recommendation of last and previous years to this effect, viz: that means be devised by which this large and steadily growing source of revenue be better guarded and controlled, and a more satisfactory system of accounts with the various Railroad Companies be secured. The statements required to be made of their gross earnings should be monthly or quarterly, and made to the State Auditor, on whose drafts the tax should be collected. The State Auditor, as the accounting officer of the State, should have the power to examine the correctness of such statements rendered, leaving to the Treasurer the collection and safe custody of the funds. It is easy to estimate, that, when our projected railroad system is once completed and the companies required to pay the full rate of taxation, three per cent. on their gross earnings, this item of revenue will nearly suffice for all current expenses of the State government.

A similar system of accounts should be required from telegraph and express companies.

Taxes collected in 1870, - - - -	336 460 83
Taxes collected in 1871, - - - -	410,069 66

For the year 1872 the tax is estimated at \$425,000, based on a tax duplicate of \$90,000,000. The amount of the tax duplicate, if full money values were taken as a basis in the assessment, would be nearer \$300,000,000. In this connection I would suggest the propriety of requiring assessors and county and state boards of equalization to conform to a stricter compliance with the law in regard to returning the assessment of all taxable property, at the full value in money. The result would certainly be beneficial to the State. It is an acknowledged fact that, under the present mode of assessment, no property is intended to be rated at more than half its real value, in many cases even far below that rate. The effect of this low valuation is that taxes in many counties are carried to the seemingly enormous rate of four or five per cent., which, however, is merely fictitious, and with a proper assessment would not be over perhaps one per cent. Under the present mode, the common wealth is shown a great deal lower, and the taxes a great deal higher, than the facts warrant.

The estimated resources for the current year ending Nov. 30th, 1872, are as follows, viz :

From tax duplicate, - - - -	\$425,000 00	
From miscellaneous sources, - - - -	80,000 00	
Balance Interest Fund, - - - -	6,673 28	
Balance State Institution Fund, - - - -	32,858 54	
Balance Sinking Fund, - - - -	59,497 64	
Total, - - - -	\$618,061 49	\$618,061 49

The estimated expenses for the same period are as follows, viz :

For current expenses of the State Government, - - - -	\$161,000 00
For current expenses State Institutions, - - - -	175,000 00
For Interest on Loans, - - - -	21,3000 00
For investments for Sinking Fund, - - - -	72,719 00
For warrants outstanding Dec. 1st, 1871, - - - -	3,667 00
For payment of deficiencies, - - - -	30,000 00

For unexpended appropriations, -	57,500 00	
For miscellaneous appropriations,	30,000 00	Insurance de- partment.
Total, - - -	\$551,186 00	\$551,186 00
Leaving a balance Nov. 30th, 1872,		\$66,875 49

Divided among the several funds as follows, viz :

Revenue Fund, - - -	37,000 000
State Institutions Fund,	16,000 00
Interest Fund,	6,500 000
Sinking Fund, - - -	6,500 000

From the above exhibit it will be seen that the finances of the State are in a healthy condition, which should not be endangered by allowing appropriations to go beyond the limits indicated in the above estimates. It should be remembered that from the close of the fiscal year until about the middle of March hardly any collections can be expected; the balance left over should therefore be sufficient to meet the necessary expenditures during that period.

The proposed amendment to the constitution authorizing an additional loan of the State for the purpose of providing the necessary funds for the completion of the buildings for our State institutions failing to meet the required popular support, nothing can probably be expended for such buildings until the state of the general revenue shall warrant such expenditure.

THE INSURANCE DEPARTMENT.

Under the law regulating foreign and domestic insurance companies, eighty-six companies rendered their statements, a schedule of which is hereunto annexed. Since the great Chicago disaster, many fire insurance companies have become insolvent and a general feeling of insecurity in regard to insurance matters prevails in consequence thereof. It will therefore be necessary to insist on a strict compliance with the law and to refuse admittance into the state to doubtful companies. If any change in the insurance law is attempted at all, it should be to make its provisions more stringent. Information in regard to the reinsurance fund of each company should be required in addition to the statements rendered, to enable the public to judge of the financial soundness of the same.

The amount of tax received from insurance companies, being two per cent. of their gross receipts in Minnesota during the preceding year, was \$17,112 14.
