

The proceeds from the sale of all such bonds shall be credited to the drainage proceedings in which they were issued.

The county board shall provide moneys for the payment of the principal and interest of the bonds as they severally mature. The board may pay drainage bonds issued under the provisions of this chapter out of any available funds in the county treasury when the moneys on hand in the ditch fund on account of which bonds were issued are insufficient therefor; but the funds from which said moneys have been taken shall be replenished with interest for the time actually needed at the rate of six per cent per annum from assessments on such ditch or from the sale of funding bonds as hereinafter provided.

The county board may provide in the contract for the sale of bonds, for the delivery of the bonds as the work proceeds and the funds are needed, and for the payment of interest only from the date of delivery.

The board may empower the county treasurer to accept in payment of liens under the provisions of this chapter, any outstanding bond or bonds issued on account of the ditch lien to be paid thereby which are legal obligations of the county under the provisions of this chapter. Such bonds shall be so accepted at the par value thereof plus accrued interest.
