of the state road and bridge fund; or now seeks to turn roads back to the townships, having within its boundaries organized town governments may, by resolution, allocate to the towns within its boundaries so much of the money apportioned to it under the provisions of sections 162.01 to 162.19, that it deems necessary to aid the townships in the construction of town roads. The resolution shall set forth the amount of money or the percentage of its apportionment that the county has allocated to the towns. A certified copy of the resolution shall be forwarded to the commissioner on or before the second Tuesday of January of each year. Upon receipt of such resolution and as soon as he has determined the amount of money to be apportioned to the county, the commissioner shall certify to the state auditor the amount of money, as set forth in the resolution, that is to be paid out of the county's apportionment for distribution to the towns. The state auditor shall thereupon issue a warrant in that amount payable to the county treasurer, and the proceeds thereof shall be distributed by the county to the towns. All money so allocated and distributed shall be used by the towns solely for the construction of town roads in accordance with standards approved by the county board. *Each county board so allocating such funds may devise a formula taking into account each town's levy for road and bridge purposes, its mileage of town roads and population outside the corporate limits of all villages within the township, and such other factors as the county board shall deem advisable as a means of dividing the allocation among the several towns in order that such division among the towns be as equitable as possible.* No part of the money allocated for expenditure solely within cities, villages and boroughs having a population of less than 5,000 shall be allocated or distributed to the towns. The commissioner of highways shall maintain a permanent record of the allocations of county state-aid highway funds to the townships in each county. In making the annual apportionments of county state-aid highway funds, he shall reduce the money needs of said counties in the amounts necessary to equalize their status with those counties not making such township allotments.
