Section 1. Minnesota Statutes 1961, Section 106.021, Subdivision 3, is amended to read:

Subd. 3. **Flood control.** When deemed necessary to control flood waters therein, the board or court is authorized to raise, lower, or establish the height of water in any lake, body of water, or watercourse and cause to be constructed all necessary structures and improvements to maintain the same for flood control or other public purposes. Where only a part of a lake is to be drained, it may cause to be constructed dikes or dams for the purpose of holding the water at the height designated by the board or court in that part of the lake not to be drained; provided, no dam affecting public waters shall be constructed, removed or altered, nor shall the level of any public waters be established, raised or lowered, nor shall any public waters be drained in whole or in part without the authority of the commissioner of conservation of the state of Minnesota.

Whenever deemed necessary to control flood waters with or without the construction of a ditch or ditch system, the county board or the court is authorized to cause to be constructed all necessary dams, structures, and improvements and to maintain the same for the purpose of impounding and releasing such waters so as to prevent damages to lands and properties.

Approved May 25, 1965.
