Subdivision 1. The additional aids payable for any fiscal year ending June 30, to districts meeting the requirements of section 124.801, subdivision 2 shall be computed as follows:

(a) For each year in which the auditor's assessed value declined more than eight percent during the previous year a "controlled assessed valuation" shall be computed by reducing the auditor's assessed value for such previous year by eight percent. In determining the amount of the decline and for the purposes of calculating aids payable, the auditor's assessed valuations in 1972 and subsequent years shall be divided by three and the local mill rates established shall be multiplied by three.

(b) If the decrease in auditor's assessed value exceeded an average of eight percent per year between the years 1962 and the current year a "controlled assessed valuation" shall be computed by reducing the 1962 auditor's assessed valuation by eight percent and decreasing this result by successive reductions of eight percent for each subsequent year until the "controlled assessed valuation" thus established and the current auditor's assessed valuation shall be equalized.
