Subd. 11. Upon or after the creation of an industrial development district under section 458.191, the auditor of the county in which it is situated shall upon request of the port authority certify the then most recently determined assessed valuation of all or so much of the taxable real property within the district as is identified by legal description in the request, other than that portion of the valuation which is contributed to an area-wide tax base under Minnesota Statutes, Chapter 473F. The auditor shall certify to the authority in each year thereafter the amounts and percentages of subsequent increases or decreases in such valuation other than that portion of such increases or decreases which is contributed to an area-wide tax base under Minnesota Statutes, Chapter 473F. The auditor shall compute the mill rates of taxes against such original valuation but shall extend such rates also against any incremental value and remit the resulting tax increment to the port authority in the same manner as that provided for the computation and remittance of tax increments under section 462.585, subdivisions 2 and 3. The port authority shall segregate tax increments received with respect to any such property district in a special account on its official books and records. Such tax increments shall be remitted to the port authority until the cost of redevelopment of the marginal land within the district, including interest thereon, has been fully reimbursed from the tax increments. When such full reimbursement has been made, it shall be reported by the port authority to the county auditor, who shall thereafter include the entire assessed valuation of the property in the assessed valuations upon which tax mill rates are computed and extended and taxes are remitted to all taxing districts. Any part or all of such tax, if so directed by the city council, shall be pledged and appropriated for the payment of any general obligation bonds of the port authority. Increases in the value of such property, subsequent to certification of the base for computing the tax increment therefrom, shall not be included in the assessed valuation of any taxing district for the purpose of computing any debt or levy limitation or the amount of any state or federal aid to the taxing district, so long as the tax increment therefrom is segregated under the provisions of this section.

Subd. 12. The total acreage of land zoned for industrial use included in any one industrial development district by a port authority shall not exceed three percent of the total acreage of the municipality which is zoned for industrial use at the time of formation of the district. Upon formation of a new industrial development district the total acreage of land zoned for industrial use within the district shall not, when added to the total current acreage of the land zoned for industrial use included by a port authority within all development districts for which unrecovered costs remain, exceed ten percent of the total acreage of the municipality zoned for industrial use.
