

districts, in state university laboratory school or in the university laboratory school, at least a minimum term as defined by the state board. The normal school year when school is in session shall be not less than 175 days, or their equivalent in a district operating a flexible school year program. A district which holds school for that period and is otherwise qualified is entitled to special state aid as by law provided. If school is held a less period such special state aid shall be reduced by the ratio that the difference between 175 days and the number of days school is held bears to 175 days, multiplied by 60 percent of the product of the district's foundation aid formula allowance times its pupil units for that year; but districts maintaining less than the required minimum number of days of school in session do not lose special state aid if the circumstances causing such loss of school time below the required minimum number of days were beyond the control of the board and provided proper evidence has been submitted and a good faith attempt made to make up time lost on account of these circumstances. Days devoted to teachers' institutes or other meetings authorized or called by the commissioner may not be included as part of the required minimum number of days of school in session. Effective the ~~1977-1978~~ 1979-1980 school year, not more than five days may be devoted to parent-teacher conferences or teachers' workshops as part of the required minimum number of days school is in session, except that for kindergarten classes not more than ten days may be devoted to parent-teacher conferences or teachers' workshops as part of the required minimum number of days school is in session.
