

(3) When two teams in the same sport are in fact separated or substantially separated according to sex, the two teams shall be provided with substantially equal budgets per participant, exclusive of gate receipts and other revenues generated by that sport, and in all other respects shall be treated in a substantially equal manner. However, nothing in this section shall be construed to require the two teams to conduct combined practice sessions or any other combined activities related to athletics.

(4) If two teams are provided in the same sport, one of these teams may be restricted to members of a sex whose overall athletic opportunities have previously been limited, and members of either sex shall be permitted to try out for the other team.

(5) Notwithstanding the provisions of clauses (1), (2) and (4), any wrestling team may be restricted to members of one sex whether or not the overall athletic opportunities of that sex have previously been limited, provided that programs or events are provided for each sex to the extent the educational institution or public service determines that these programs or events are necessary to accommodate the demonstrated interest of each sex to participate in wrestling.

CHAPTER 340 — H.F.No. 826

An act relating to health; proposing a population-based, statewide cancer and birth defects surveillance system; designing a system and pilot test.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. SURVEILLANCE SYSTEM PILOT PROJECT.

A pilot project involving a population-based, statewide cancer and birth defects surveillance system shall be established by the commissioner of health by January 1, 1983, for the purposes of:

(1) obtaining information on patterns of cancer and birth defects in the state, in order to identify, evaluate, control, and target prevention efforts to factors such as personal lifestyle risks, military history, smoking, alcohol and drug usage, diet, radiation, genetics, medication, environmental, and occupational hazards that increase the incidence of cancer;

(2) facilitating cancer and birth defect research;

(3) providing an informational base on statewide cancer rates and birth defect rates for use in comparative studies of occupational and environmental exposures; and

Changes or additions are indicated by underline, deletions by ~~strikeout~~.

(4) providing a framework for coordination of and state participation in a cancer and birth defects surveillance system.

For purposes of this section, "birth defects" means congenital malformations or anomalies identified at birth.

Sec. 2. REPORT BY COMMISSIONER.

The commissioner shall prepare an interim report to the legislature on or before January 1, 1982 defining the timetable and cost of designing and pilot testing the surveillance system. A final report and recommendations to the legislature shall be made on or before January 1, 1984, contingent on the performance of a pilot project as specified in section 1. The final report shall address, but not be limited to, the issues of cost and effectiveness of a full scale surveillance system, the methods needed to achieve the cooperation of the provider community and existing registries, the protection of confidential information, how the system will facilitate research efforts for special populations identified to be at risk, how prevention efforts can be targeted to these special populations, the results of the pilot project and recommendations for or against implementation of a full scale surveillance program. The commissioner shall consult with representatives of the provider community, the existing registries, public health professionals, labor representatives, environmental protection groups, veterans groups and other interested consumers before preparing the report.
