

Subd. 6. "Minimum 911 service" means a telephone service meeting the design standards established pursuant to section 403.07, which automatically connects a person dialing the digits 911 to an established public safety answering point. Minimum 911 service includes (1) equipment for connecting and out-switching 911 calls within a telephone central office, trunking facilities from the central office to a public safety answering point; and; (2) equipment, as appropriate, for automatically selectively routing 911 calls in situations where one telephone central office serves more than one public safety answering point; and (3) provision of automatic location identification if the public safety answering point has the capability of providing that service.

Sec. 2. Minnesota Statutes 1986, section 403.02, is amended by adding a subdivision to read:

Subd. 7. AUTOMATIC LOCATION IDENTIFICATION. "Automatic location identification" means the process of electronically identifying and displaying on a special viewing screen the name of the subscriber and the address of the calling telephone number to a person answering a 911 emergency call.
