Subdivision 1. Appropriation by Fund
General Fund

This appropriation is added to the appropriation in Laws 1989, chapter 282, article 1, section 2.

Subd. 2. Human Services Administration

Of this appropriation, $200,000 is for distressed county grants. The commissioner shall award grants to counties that received aid under Minnesota Statutes, section 245.775, for state fiscal year 1989. The amount of the grant for each county is 20 percent of the amount received in state fiscal year 1989.

Subd. 3. Legal and Intergovernmental Programs

Copyright © 1990 by the Office of the Revisor of Statutes, State of Minnesota. All Rights Reserved.
Subd. 4. Social Services

Notwithstanding Minnesota Statutes, section 254B.02, money appropriated for the consolidated chemical dependency treatment fund for fiscal year 1990 may be allocated as needed to the reserve accounts created by Minnesota Statutes, sections 254B.02, subdivision 3, and 254B.09, subdivisions 5 and 7.

Of this appropriation, $20,000 is for a pilot project in Stearns county involving court-ordered chemical dependency assessments and treatment for offenders. Under the pilot program, when a court sentences a defendant convicted of a felony and it appears from the presentence investigation that alcohol or controlled substance abuse was a contributing factor to the commission of the crime, the court may order that the defendant be assessed for chemical dependency. In addition, any defendant convicted of a violation of Minnesota Statutes, section 609.21 or a felony violation of Minnesota Statutes, section 169.09 shall be assessed for chemical dependency as part of the presentence investigation. The assessment shall be conducted by a local agency, as defined in Minnesota Statutes, section 254B.01, subdivision 5, or by a court-designated assessor qualified under rules adopted under Minnesota Statutes, section 254B.03, subdivision 3, or credentialed by the Institute for Chemical Dependency Professionals. If the local agency or the court-appointed assessor finds that the defendant is chemically dependent or abusive, the court may order that the defendant be treated for chemical dependency or abuse. In any case, the local agency shall determine the appropriate level of care and authorize payment under Minnesota Statutes, chapter 254B up to the amount of this appropriation without a local match; provid-
ed that if the assessment is conducted by a court-appointed assessor, its findings shall be provided to the local agency and the commissioner of human services before payment under chapter 254B is authorized. The pilot program expires June 30, 1991.

The amount appropriated in fiscal year 1991 to pay for child care subsidy expenses above the amount allowed by the federal government shall not be included as a base adjustment in the fiscal year 1992-1993 biennial budget request. The commissioner shall report to the legislature regarding this provision including its effect on county record keeping practices and federal financial reimbursement. The commissioner may request additional money to continue this activity.

Money appropriated in Laws 1989, chapter 282, article 1, section 2, subdivision 4, for the Joining Forces pilot projects does not cancel, but is available for fiscal year 1991. The amount appropriated for this activity shall not be included as a base adjustment in the fiscal year 1992-1993 biennial budget request.

Subd. 5. Mental Health

Notwithstanding Laws 1989, chapter 282, article 1, section 2, subdivision 5, $102,000 is transferred in fiscal year 1991 from state mental health grants to state mental health administration, and 2.25 positions are authorized to implement federal requirements relating to nursing homes and people with mental illness.

The $10,000 appropriated for camping activities for persons with mental illness by Laws 1989, chapter 282, article 1, section 2, subdivision 5, shall be used for adults with mental illness from across
the state, for a camping program which utilizes the BWCA and is cooperatively sponsored by client advocacy, mental health treatment, and outdoor recreation agencies.

$500,000 may be transferred from the appropriation in Laws 1989, chapter 282, article 1, section 2, subdivision 5, in fiscal year 1990 for state mental health grants to fiscal year 1991 for state mental health special projects. These funds are to be used for alternative placements for people being discharged from the Metro Regional Treatment Center.

Notwithstanding the rider relating to the family-based community support pilot project in Laws 1989, chapter 282, article 1, section 2, subdivision 5, the base funding level for the project for the 1992-1993 biennial budget must be a straight line annualization of the fiscal year 1991 appropriation.

Subd. 6. Family Support Programs
(a) Aid to Families with Dependent Children, General Assistance, Work Readiness, and Minnesota Supplemental Aid
$(2,352,000)  $(1,143,000)
(b) Family Support Programs Administration
$(2,750,000)  $(2,342,000)

During the biennium ending June 30, 1991, the commissioner may request, and providers receiving General Assistance or Minnesota Supplemental Aid negotiated rate payments must provide, information about their operating costs and property costs used in determining their negotiated rates. This information must be provided in a format specified by the commissioner.

The commissioner may transfer money
from other departmental administrative accounts to the child support enforcement and MAXIS information systems account to pay for fiscal year 1991 system costs, if necessary.

Money appropriated in Laws 1989, chapter 282, article 1, section 2, subdivision 6, for assisting in the development of a statewide negotiated rate setting system does not cancel to the general fund but is available in fiscal year 1991.

The commissioner of human services shall postpone the implementation of the establishment of program operating cost payment rates as provided in Minnesota Statutes, section 256B.501, subdivision 3g, until October 1, 1992. Beginning January 1, 1990, each facility's interdisciplinary team shall assess each new admission to the facility. The quality assurance and review teams in the department of health shall continue to assess all residents annually. The quality assurance and review teams and the interdisciplinary team shall assess residents using a uniform assessment instrument developed by the commissioner of human services and the ICF/MR reimbursement and quality assurance and review procedures manual. The commissioner of human services shall annually collect client statistical data based on assessments performed by the quality assurance and review teams and by the interdisciplinary team on the cost reports submitted by the facility and may use this data in the calculation of operating cost payment rates after October 1, 1992.

Federal financial participation received during the biennium ending June 30, 1991, for self-employment investment demonstration project expenditures is appropriated to the commissioner to operate the self-employment investment demonstration project.
Money appropriated in Laws 1989, chapter 282, article 1, section 2, subdivision 6 for administration and maintenance of the child support enforcement information system does not cancel but is available for fiscal year 1991 to finalize development of the system.

$50,000 for fiscal year 1991 is for a study of migration of welfare recipients and for a study of items that should be included in calculating the AFDC standard of need.

Subd. 7. Health Care Programs
(a) Medical Assistance, General Assistance Medical Care, Preadmission Screening and Alternative Care Grants, and Children’s Health Plan
$ 40,708,000 $ 47,120,000

Money appropriated for preadmission screening and alternative care grants for fiscal year 1991 may be used for these purposes in fiscal year 1990.

Payments for obstetrical and pediatric services rendered on or after July 1, 1990, to medical assistance recipients are increased by 15 percent. This increase must be applied to the provider categories under section 6402(b) of the Omnibus Budget Reconciliation Act of 1989, and applicable federal guidelines. For obstetrical services, this increase is in addition to the 10 percent increase effective October 1, 1988.

Of this appropriation, up to $14,000 may be used to reimburse the state share of medical assistance allowable payments to pharmacies providing services to one or more nursing homes during the period of May to December 1987, for claims rejected under Minnesota Rules, part 9505.0450. The reimbursement is available only if the pharmacy demonstrates
to the satisfaction of the commissioner that its computer system failed to recognize a claim for electronic billing because a computer file indicator designated the claim as a manual bill.

Effective for services rendered on or after July 1, 1990, medical assistance payments to ambulance services are increased by 7.5 percent from the lower of: (1) the submitted charges; or (2) the 50th percentile of the prevailing charge for 1982.

Medical assistance and general assistance medical care payments for individual and group psychotherapy rendered on or after July 1, 1990, are reduced by six percent. Effective for services rendered on or after October 1, 1990, the payment rate for masters-prepared social workers and registered nurses providing mental health services is 65 percent of the rate paid to other mental health professionals.

Notwithstanding Laws 1989, chapter 282, article 1, section 2, subdivision 7, clause (a), the 50th percentile of the prevailing charge for 1982 must be estimated by the commissioner in the following situations:

(1) there were less than ten billings in the calendar year specified in legislation governing maximum payment rates;

(2) the service was not available in the calendar year specified in legislation governing maximum payment rates;

(3) the payment amount is the result of a provider appeal;

(4) the procedure code description has changed since the calendar year specified in legislation governing maximum payment rates, and, therefore, the prevail-
ing charge information reflects the same code but a different procedure description; or

(5) the 50th percentile reflects a payment which is grossly inequitable when compared with payment rates for procedures or services which are substantially similar.

When one of the above situations occur, the commissioner will use the following methodology to reconstruct a rate comparable to the 50th percentile of the prevailing rate:

(1) refer to information which exists for the first nine billings in the calendar year specified in legislation governing maximum payment rates; or

(2) refer to surrounding or comparable procedure codes; or

(3) refer to the 50th percentile of years subsequent to the calendar year specified in legislation governing maximum payment rates and back down the amount by applying an appropriate Consumer Price Index formula; or

(4) refer to relative value indexes; or

(5) refer to reimbursement information from other third parties, such as Medicare.

If the federal government approves a client-specific invoice payment system, the nonfederal share of the costs of case management services provided to persons with mental retardation or related conditions receiving home- and community-based services funded through the waiver granted under section 1915(c)(7)(B) of the Social Security Act shall be provided from state-appropriated medical assistance grant funds for the biennium end-
ing June 30, 1991. The division of cost is subject to the provisions of Minnesota Statutes, section 256B.19, and the services are included as covered programs and services under Minnesota Statutes, section 256.025, subdivision 2.

If the federal government does not approve a client-specific invoice payment system for this waiver, state funds currently appropriated to the medical assistance grant fund shall be transferred to a separate nonmedical assistance account. The commissioner shall use this account to establish a pilot program to reimburse counties for case management to persons served under this waiver. To be eligible for payment, counties must submit requests for reimbursement in the form prescribed by the commissioner.

The rate for case management services funded for any person served by this waiver shall not exceed the lesser of the current average rate for case management services provided to all persons served under the home- and community-based waiver for persons with developmental disabilities in the same county or $65 per hour. The amount of case management per person funded in this manner must not exceed 30 hours for a recipient in fiscal year 1991 unless otherwise authorized by the commissioner. Total state money expended under this provision must not exceed $67,000 for the biennium ending June 30, 1991.

Any transfer of money to implement this provision must be made by direction of the governor after consulting with the legislative advisory commission.

The maximum pharmacy dispensing fee under medical assistance and general assistance medical care is $4.10.
If approved by the federal government, medical assistance payments to American Indian health services facilities for outpatient medical services billed after June 30, 1990, must be in accordance with the rate published by the United States Assistant Secretary for Health under the authority of United States Code, title 42, sections 248(a) and 249(b). General assistance medical care payments to American Indian health services facilities for the provision of outpatient medical care services billed after June 30, 1990, must be in accordance with the general assistance medical care rates paid for the same services when provided in a facility other than an American Indian health service facility.

In order to facilitate outreach for prenatal and infant medical care covered under Minnesota Statutes, chapters 265B and 256D, such care is considered part of Minnesota's plan for children's health care and may be referred to as the Children's Health Plan Medical Assistance portion. Eligibility for these services shall be included in descriptions, outreach materials, and other communications about the Children's Health Plan.

(b) Health Care Programs Administration

$0- $1,173,000

For fiscal years 1990 and 1991, federal receipts received for review of medical assistance prepaid health plan activities and for the study of utilization of outpatient mental health services by children enrolled in medical assistance are appropriated to the commissioner for these purposes.

For fiscal years 1990 and 1991, federal money received as a result of state expenditures for the development of an early childhood screening tool to screen for mental health problems in children.
through the early, periodic, screening, diagnosis, and treatment component of the medical assistance program is appropriated to the commissioner for development and training. The state appropriation for this activity shall not be included as a base adjustment in the fiscal year 1992-1993 biennial budget request.

Notwithstanding Laws 1989, chapter 282, article 3, section 62, for the biennium ending June 30, 1991, the commissioner may transfer money from contracts to salaries to hire qualified persons to provide case management to brain-injured persons.

For the biennium ending June 30, 1991, the commissioner may transfer money from contracts to salaries to hire two registered nurses to identify and restrict medical assistance and general assistance medical care recipients who have used services frequently or in an amount that is not medically necessary.

Before collecting the changed parental contribution under article 2, section 56, counties must provide 30 days advance, written notice of the amount of an increased or new parental contribution.

The commissioner of human services, in consultation with the commissioners of revenue and commerce, shall study issues related to prescription drug costs. Issues to be examined must include, but are not limited to, the following: levels of copayments and deductibles for prescription drug coverage, the cost of prescription drugs, the need for prescription drug coverage among the general population, and the feasibility of private and public initiatives to ensure affordable prescription drug coverage. The study must examine the feasibility of a state assist-
ance program for persons with high out-of-pocket expenses for prescription maintenance and life-sustaining medications who are ineligible for medical assistance or general assistance medical care, do not have private or employer-sponsored health insurance coverage for prescription drug expenses, and have family incomes equal to or less than 185 percent of federal poverty guidelines. The study must provide recommendations for setting the level of out-of-pocket expenses for prescription maintenance and life-sustaining medications at which the state would provide assistance; examine the practicality and costs of different methods of providing assistance, including the provision of tax credits and the establishment of a state program to provide direct payment for out-of-pocket expenses for prescription maintenance and life-sustaining medications; and provide estimates of the eligible population and costs of the program for different out-of-pocket expense eligibility levels and methods of providing assistance. The commissioner of human services shall report findings and recommendations to the legislature by February 15, 1991.

Of the appropriation for 1991, $70,000 is for a regional demonstration project under Minnesota Statutes, section 256B.73, to provide health coverage to low-income uninsured persons. Money appropriated in Laws 1988, chapter 689, article 1, section 2, subdivision 5, for the project does not cancel but is available for 1991. These appropriations are available when the planning for the project is complete, sufficient money has been committed from nonstate sources to allow the project to proceed, and the project is prepared to begin accepting and approving applications from uninsured individuals. The commissioner
shall contract with the coalition formed for the nine counties named in Minnesota Statutes, section 256B.73, subdivision 2.

The commissioner of human services shall study the impact the use of nursing and other personnel employed by temporary help employment agencies is having on nursing homes reimbursed by the medical assistance program. The study shall gather information on rates charged by employment agencies compared with wages paid to nursing home employees and shall determine the impact the use of employment agency personnel is having on nursing homes reimbursed by medical assistance, including staff retention problems, staff morale problems, continuity of care concerns, and financial impact. The commissioner shall report the results of the study to the legislature by December 15, 1990, along with recommendations for reducing the need for nursing homes to use employees provided by employment agencies and recommendations regarding the need for further regulation of temporary help employment agencies that supply personnel for nursing homes.

Subd. 8. State Residential Facilities

Notwithstanding Minnesota Statutes sections 94.09 to 94.16, the commissioner of administration may transfer the title of the state-owned electrical substation located at the Brainerd regional human service center to the Brainerd public utilities commission. The transfer may include the substation, allied equipment, and real estate needed for access to the substation.

Notwithstanding Minnesota Statutes, section 245.50, subdivision 3, clause (5), and section 246.23, the commissioner
may enter into interstate contractual agreements to provide chemical dependency services through regional treatment center programs if the contracts provide for full payment for the services from private funds, nongovernmental third-party payments, or a non-Minnesota state governmental entity.

Sec. 3. VETERANS NURSING HOMES BOARD

For the biennium ending June 30, 1991, the board may set "costs of care" at the Silver Bay facility based on costs from average skilled nursing care provided to residents of the Minneapolis Veterans Home.

The amount that may be obligated dur-
ing a fiscal year is limited as required by United States Code, title 42, section 1104(d)(2)(D).

MEED service providers may retain 75 percent of outstanding payback funds they collect to be used for the cost of collection and for program closeout activities without regard to existing cost category requirements. The commissioner of jobs and training may retain the following money, up to a total of $70,000, to be used to close out the MEED program: 25 percent of the outstanding payback funds collected by MEED service providers, 100 percent of payback funds collected by the collection agency under contract with the department, and any remaining unspent payback funds in the special revenue account.

Effective the day following final enactment, the commissioner shall estimate the amount of unobligated funds anticipated by each service provider in the Minnesota employment and economic development program on June 30, 1990, and shall reduce the amount available to each local service unit service provider by the estimated amount. If the total estimated amount is less than $600,000, the commissioner shall reduce each local service unit service provider proportionately to bring the total of unobligated funds to $600,000. This reduction shall not apply to money obligated through existing contracts with employers that are in effect on the day of enactment nor shall the reduction impact negatively on the integrity of the MEED program.

Notwithstanding Laws 1989, chapter 282, article 1, section 5, subdivision 5, any balance remaining in the first year of the appropriation for the Minnesota employment and economic develop-
ment program does not carry forward to the second year.

Any balance remaining in the first year of the appropriation in Laws 1989, chapter 282, article 1, section 5, subdivision 5, for the inventory, referral, and intake system does not cancel but is available for the second year.

The commissioner of finance may include as a budget change request in the fiscal year 1992 and 1993 detailed expenditure budget submitted to the legislature under Minnesota Statutes, section 16A.11, an annual adjustment in the extended employment program grants as of July 1 of each year, beginning July 1, 1991, by a percentage amount equal to the percentage increase, if any, in the consumer price index (CPI-U-U.S.) city average, as published by the Bureau of Labor Statistics, United States Department of Labor, during the preceding calendar year for the biennium ending June 30, 1993.

Any unencumbered balances remaining from fiscal year 1990 shall not cancel, but are available for the second year of the biennium.

Subd. 3. Community Services

$-0- $1,482,000

Whenever offenders are assigned for the purposes of work under agreement with any state department or agency, local unit of government, or any other government subdivision, the state department, agency, local unit of government, or other government subdivision must certify to the appropriate bargaining agent that the work performed by inmates will not result in the displacement of currently employed workers or workers on seasonal layoff or layoff from a substantially equivalent position, including partial displacement such as reduction in hours of nonovertime work, wages, or other employment benefits.

Of the appropriation for the community corrections act for fiscal year 1991, $250,000 must be spent as follows: $125,000 for west central Minnesota and $125,000 for central Minnesota to establish secure juvenile detention centers. The bill shall be based on information contained in the joint report of the departments of health and human services to the legislature prepared in accordance with Laws 1989, chapter 282, article 2, section 213. The proposal for the licensure of residential care homes shall also estimate the fiscal impact associated with implementation of a licensure program on the state, counties, and on providers of these services. The department of human services and the interagency board for quality assur-
ance shall cooperate with the department of health in developing the legislative proposal and fiscal data. $70,000 is appropriated from the general fund to the department of health for the purposes of completing this activity.

Notwithstanding the provisions of Minnesota Statutes, section 245A.03, subdivision 2, board and lodging establishments licensed by the commissioner of health that provide services for five or more persons whose primary diagnosis is mental illness and who have refused an appropriate residential program offered by a county agency shall be exempt from licensure under Minnesota Statutes, sections 245A.01 to 245A.16, until the residential care home license is available. At that time, these establishments shall be licensed under the provisions of Minnesota Statutes, sections 245A.01 to 245A.16, or as a residential care home.

Notwithstanding the provisions of Minnesota Statutes, section 256I.05, subdivision 7, payments to recipients residing in a board and lodging establishment that must meet the special services licensing rules established by the commissioner of health under the provisions of Minnesota Statutes, section 157.031, for which the county has a negotiated rate, shall be increased to cover the necessary additional costs incurred by the establishment to meet the rule requirements. The necessary additional costs shall be determined by the county in which the establishment is located and approved by the commissioner of human services. In order for a recipient to receive the increased payment, a board and lodging establishment must submit information to support the necessary additional costs on forms provided by the commissioner of human services.
The special service licensing rules for board and lodging establishments required under the provisions of Minnesota Statutes, section 157.031, shall be adopted by July 1, 1991.

Notwithstanding the provisions of Minnesota Statutes, section 144A.48, subdivision 2, clause (9), the commissioner of health may issue a hospice license to a free standing residential facility that was registered and was providing hospice services as of March 1, 1990, if such facility is licensed as a board and lodging facility, provides services to no more than six residents, meets Group R, Division 3 occupancy requirements and meets the fire protection provisions of chapter 21 of the 1985 Life Safety Code, NFPA 101, for facilities housing persons with impractical evacuation capabilities. Continued licensure as a hospice shall be contingent on the facility's compliance with the department of health rules for hospices and for board and lodging facilities providing health supervision services upon adoption of those rules. The commissioner of health, in consultation with the interagency board for quality assurance, shall report to the legislature by February 15, 1991, with recommendations regarding the licensure of freestanding residential hospice facilities and any limitations on licensure necessary to maintain the moratorium or nursing home licensure.

Section 1. Minnesota Statutes 1988, section 4.071, is amended to read:

4.071 OIL OVERCHARGE MONEY.

Subdivision 1. APPROPRIATION REQUIRED. "Oil overcharge money" means money received by the state as a result of litigation or settlements of alleged violations of federal petroleum pricing regulations. Oil overcharge money may not be spent until the legislative commission on Minnesota resources has reviewed the proposed projects and the money it is specifically appropriated by law.

Subd. 2. MINNESOTA RESOURCES PROJECTS. The legislature intends to appropriate one-half of the oil overcharge money for projects that have been reviewed and recommended by the legislative commission on Minnesota resources. A work plan must be prepared for each proposed project for review by the commission. The commission must recommend specific projects to the legislature.

Subd. 3. ENERGY CONSERVATION PROJECTS. The oil overcharge money that is not otherwise appropriated by law or dedicated by court order is appropriated to the commissioner of jobs and training for energy conservation projects that directly serve low-income Minnesotans. Sec. 2. Minnesota Statutes 1989 Supplement, section 116.76, subdivision 9, is amended to read:

Subd. 9. GENERATOR. "Generator" means a person whose activities produce infectious waste. "Generator" does not include a person who produces sharps as a result of administering medication to oneself. "Generator" does not include an ambulance service licensed under section 144.802, an eligible board of health, community health board, or public health nursing agency as defined in section 116.78, subdivision 10, or a program providing school health service under section 123.35, subdivision 17.

Sec. 3. Minnesota Statutes 1989 Supplement, section 116.78, is amended by adding a subdivision to read:

Subd. 9. DISPOSAL OF INFECTIOUS WASTE BY AMBULANCE SERVICES. Any infectious waste, as defined in section 116.76, subdivision 12, produced by an ambulance service in the transport or care of a patient must be properly packaged and disposed of at the destination hospital or at the nearest hospital if the patient is not transported. A hospital must accept the infectious waste if it is properly packaged according to the standards the hospital uses for packaging its own infectious wastes. The hospital may charge the ambulance service a reasonable fee for disposal of the infectious waste. Nothing in this subdivision shall require a hospital to accept infectious waste if the waste is of a type not generated by the hospital or if the hospital cannot safely store the waste. A hospital that accepts infectious waste under this subdivision is not subject to those provisions of section 116.79, subdivision 4, paragraph (a), that apply to the storage or decontamination of infectious or pathological waste generated at a site other than the hospital.

Sec. 4. Minnesota Statutes 1989 Supplement, section 116.78, is amended by adding a subdivision to read:

Subd. 10. DISPOSAL OF INFECTIOUS WASTE BY PUBLIC HEALTH AGENCIES AND PROGRAMS PROVIDING SCHOOL HEALTH SERVICES. Any infectious waste, as defined in section 116.76, subdivision 12, produced by an eligible board of health, community health board, or public health nursing agency or a program providing school health services under section 123.35, subdivision 17, must be properly packaged and may be disposed of at a hospital. For purposes of this subdivision, an "eligible board of health, community health board, or public health nursing agency" is defined as a board of health, community health board, or public health nursing agency located in a county with a population of less than 40,000. A hospital must accept the infectious waste if it is properly packaged according to the standards the hospital uses for packaging its own infectious wastes. The hospital may charge an eligible board of health, community health board, or public health nursing agency or a program providing school health services a reasonable fee for disposal of the infectious waste. Nothing in this subdivision shall require a hospital to accept infectious waste if the waste is of a type not generated by the hospital or if the hospital cannot safely store the waste. A hospital that accepts infectious waste under this subdivision is not subject to those provisions of section 116.79, subdivision 4, paragraph (a), that apply to the storage or decontamination of infectious or pathological waste generated at a site other than the hospital.

Sec. 5. [144.062] VACCINE COST REDUCTION PROGRAM.

The commissioner of administration, after consulting with the commissioner of health, shall negotiate discounts or rebates on vaccine or may purchase vaccine at reduced prices. Vaccines may be offered for sale to medical care providers at the department's cost plus a fee for administrative costs. As a condition of receiving the vaccine at reduced cost, a medical care provider must agree to pass on the savings to patients. The commissioner of health may transfer money appropriated for other department of health programs to the commissioner of administration for the initial cost of purchasing vaccine, provided the money is repaid by the end of each state fiscal year and the commissioner of finance approves the transfer. Proceeds from the sale of vaccines to medical care providers, including fees collected for administrative costs, are appropriated to the commissioner of administration. If the commissioner of administration, in consultation with the commissioner of health, determines that a vaccine cost reduction program is not economically feasible or cost effective, the commissioner may elect not to implement the program, but shall provide a report to the legislature that explains the reasons for the decision.

Sec. 6. [144.1465] FINDING AND PURPOSE.

The legislature finds that rural hospitals are an integral part of the health care delivery system and are fundamental to the development of a sound rural economy. The legislature further finds that access to rural health care must be assured to all Minnesota residents. The rural health care system is undergoing a restructuring that threatens to jeopardize access in rural areas to quality health services. To assure continued rural health care access the legislature proposes to establish a grant program to assist rural hospitals and their communities with the development of strategic plans and transition projects, provide subsidies for geographically isolated hospitals facing closure, and examine the problem of recruitment and retention of rural physicians, nurses, and other allied health care professionals.

Sec. 7. [144.147] RURAL HOSPITAL PLANNING AND TRANSITION GRANT PROGRAM.

Subdivision 1. DEFINITION. "Eligible rural hospital" means any non-federal, general acute care hospital that:

(1) is either located in a rural area, as defined in the federal Medicare regulations, Code of Federal Regulations, title 42, section 405.1041, or located in a community with a population of less than 5,000, according to United States Census Bureau statistics, outside the seven-county metropolitan area;

(2) has 100 or fewer beds;

(3) has experienced net income losses in at least two of the three most recent consecutive hospital fiscal years for which audited financial information is available;

New language is indicated by underline, deletions by strikethrough.
(4) is not for profit; and
(5) has not been awarded a grant under the federal rural health transition
grant program.

Subd. 2. GRANTS AUTHORIZED. The commissioner shall establish a
program of grants to assist eligible rural hospitals. The commissioner shall
award grants to hospitals and communities for the purposes set forth in para-
graphs (a) and (b).

(a) Grants may be used by hospitals and their communities to develop
strategic plans for preserving access to health services. At a minimum, a stra-
tegic plan must consist of:

(1) a needs assessment to determine what health services are needed and
desired by the community. The assessment must include interviews with or
surveys of area health professionals, local community leaders, and public hear-
ings;

(2) an assessment of the feasibility of providing needed health services that
identifies priorities and timeliness for potential changes; and

(3) an implementation plan.

The strategic plan must be developed by a committee that includes repre-
sentatives from the hospital, local public health agencies, other health providers,
and consumers from the community.

(b) The grants may also be used by eligible rural hospitals that have devel-
oped strategic plans to implement transition projects to modify the type and
extent of services provided, in order to reflect the needs of that plan. Grants
may be used by hospitals under this paragraph to develop hospital-based physi-
cian practices that integrate hospital and existing medical practice facilities that
agree to transfer their practices, equipment, staffing, and administration to the
hospital. Not more than one-third of any grant shall be used to offset losses
incurred by physicians agreeing to transfer their practices to hospitals.

Subd. 3. CONSIDERATION OF GRANTS. In determining which hospi-
tals will receive grants under this section, the commissioner shall take into
account:

(1) improving community access to hospital or health services;

(2) changes in service populations;

(3) demand for ambulatory and emergency services;

(4) the extent that the health needs of the community are not currently
being met by other providers in the service area;

New language is indicated by underline, deletions by strikeout.
(5) the need to recruit and retain health professionals; and

(6) the involvement and extent of support of the community and local health care providers.

Subd. 4. ALLOCATION OF GRANTS. (a) Eligible hospitals must apply to the commissioner no later than September 1, 1990, for grants awarded in the 1991 state fiscal year, and no later than September 1, 1990, for grants awarded in the 1992 state fiscal year.

(b) The commissioner may award at least two grants for each fiscal year. The commissioner must make a final decision on the funding of each application within 60 days of the deadline for receiving applications.

(c) Each relevant community health board has 30 days in which to review and comment to the commissioner on grant applications from hospitals in their community health service area.

(d) In determining which hospitals will receive grants under this section, the commissioner shall consider the following factors:

(1) Description of the problem, description of the project and the likelihood of successful outcome of the project. The applicant must explain clearly the nature of the health services problems in their service area, how the grant funds will be used, what will be accomplished, and the results expected. The applicant should describe achievable objectives, a timetable, and roles and capabilities of responsible individuals and organizations.

(2) The extent of community support for the hospital and this proposed project. The applicant should demonstrate support for the hospital and for the proposed project from other local health service providers and from local community and government leaders. Evidence of such support may include past commitments of financial support from local individuals, organization or government entities; and commitment of financial support, in-kind services or cash, for this project.

(3) The comments, if any, resulting from a review of the application by the community health board in whose community health service area the hospital is located.

(e) In evaluating applications, the commissioner shall score each application on a 100 point scale, assigning the maximum of 70 points for an applicant's understanding of the problem, description of the project, and likelihood of successful outcome of the project; and a maximum of 30 points for the extent of community support for the hospital and this project. The commissioner may also take into account other relevant factors.

(f) A grant to a hospital, including hospitals that submit applications as consortia, may not exceed $50,000 a year, and may not exceed a term of two

New language is indicated by underline, deletions by strikeout.
years. Prior to the receipt of any grant, the hospital must certify to the commissioner that at least one-half of the amount, which may include in-kind services, is available for the same purposes from nonstate sources. A hospital receiving a grant under this section may use the grant for any expenses incurred in the development of strategic plans or the implementation of transition projects with respect to which the grant is made. Project grants may not be used to retire debt incurred with respect to any capital expenditure made prior to the date on which the project is initiated.

Subd. 5. EVALUATION. The commissioner shall evaluate the overall effectiveness of the grant program. The commissioner may collect, from the hospital, and communities receiving grants, the information necessary to evaluate the grant program. Information related to the financial condition of individual hospitals shall be classified as nonpublic data.

Sec. 8. 1990 S.F. No. 1698, section 1, if enacted, is amended to read:

Section 1. [144.551] HOSPITAL CONSTRUCTION MORATORIUM.

Subdivision 1. RESTRICTED CONSTRUCTION OR MODIFICATION. (a) Until July 1, 1993, the following construction or modification may not be commenced:

(1) any erection, building, alteration, reconstruction, modernization, improvement, extension, lease, or other acquisition by or on behalf of a hospital that increases the bed capacity of a hospital, relocates hospital beds from one physical facility, complex, or site to another, or otherwise results in an increase or redistribution of hospital beds within the state; and

(2) the establishment of a new hospital.

(b) This section does not apply to:

(1) construction or relocation within a county by a hospital, clinic, or other health care facility that is a national referral center engaged in substantial programs of patient care, medical research, and medical education meeting state and national needs that receives more than 40 percent of its patients from outside the state of Minnesota;

(2) a project for construction or modification for which a health care facility held an approved certificate of need on May 1, 1984, regardless of the date of expiration of the certificate;

(3) a project for which a certificate of need was denied before the date of enactment of this section if a timely appeal results in an order reversing the denial;

(4) a project exempted from certificate of need requirements by Laws 1981, chapter 200, section 2;

New language is indicated by underline, deletions by strikeout.
(5) a project involving consolidation of pediatric specialty hospital services within the Minneapolis-St. Paul metropolitan area that would not result in a net increase in the number of pediatric specialty hospital beds among the hospitals being consolidated;

(6) a project involving the temporary relocation of pediatric-orthopedic hospital beds to an existing licensed hospital that will allow for the reconstruction of a new philanthropic, pediatric-orthopedic hospital on an existing site and that will not result in a net increase in the number of hospital beds. Upon completion of the reconstruction, the licenses of both hospitals must be reinstated at the capacity that existed on each site before the relocation;

(7) the relocation or redistribution of hospital beds within a hospital building or identifiable complex of buildings provided the relocation or redistribution does not result in: (i) an increase in the overall bed capacity at that site; (ii) relocation of hospital beds from one physical site or complex to another; or (iii) redistribution of hospital beds within the state or a region of the state;

(8) relocation or redistribution of hospital beds within a hospital corporate system that involves the transfer of beds from a closed facility site or complex to an existing site or complex provided that: (i) no more than 50 percent of the capacity of the closed facility is transferred; (ii) the capacity of the site or complex to which the beds are transferred does not increase by more than 50 percent; (iii) the beds are not transferred outside of a federal health systems agency boundary in place on July 1, 1983; and (iv) the relocation or redistribution does not involve the construction of a new hospital building;

(9) a construction project involving up to 35 new beds in a psychiatric hospital in Rice county that primarily serves adolescents and that receives more than 70 percent of its patients from outside the state of Minnesota;

(10) a project to replace a hospital or hospitals with a combined licensed capacity of 130 beds or less if: (i) the new hospital site is located within five miles of the current site; and (ii) the total licensed capacity of the replacement hospital, either at the time of construction of the initial building or as the result of future expansion, will not exceed 70 licensed hospital beds, or the combined licensed capacity of the hospitals, whichever is less;

(11) the relocation of licensed hospital beds from an existing state facility operated by the commissioner of human services to a new or existing facility, building, or complex operated by the commissioner of human services; or from one regional treatment center site to another; or from one building or site to a new or existing building or site on the same campus; or

(12) the construction or relocation of hospital beds operated by a hospital having a statutory obligation to provide hospital and medical services for the indigent that does not result in a net increase in the number of hospital beds.

New language is indicated by underline, deletions by strikeout.
Subd. 2. EMERGENCY WAIVER. The commissioner shall grant an emergency waiver from the provisions of this section if the need for the project is a result of fire, tornado, flood, storm damage, or other similar disaster, if adequate health care facilities are not available for the people who previously used the applicant facility, and if the request for an emergency waiver is limited in nature and scope only to those repairs necessitated by the natural disaster.

Subd. 3. ENFORCEMENT. The district court in Ramsey county has jurisdiction to enjoin an alleged violation of subdivision 1. At the request of the commissioner of health, the attorney general may bring an action to enjoin an alleged violation. The commissioner of health shall not issue a license for any portion of a hospital in violation of subdivision 1. No hospital in violation of subdivision 1 may apply for or receive public funds under chapters 245 to 256B, or from any other source.

Subd. 4. DEFINITIONS. Except as indicated in this subdivision, the terms used in this section have the meanings given them under Minnesota Statutes 1982, sections 145.832 to 145.845, and the rules adopted under those sections.

The term "hospital" has the meaning given it in section 144.50.

Sec. 9. Minnesota Statutes 1988, section 144.581, subdivision 1, is amended to read:

Subdivision 1. NONPROFIT CORPORATION POWERS. A municipality, political subdivision, state agency, or other governmental entity that owns or operates a hospital authorized, organized, or operated under chapters 158, 250, 376, and 397, or under sections 246A.01 to 246A.27, 412.221, 447.05 to 447.13, 447.31, or 471.59, or under any special law authorizing or establishing a hospital or hospital district shall, relative to the delivery of health care services, have, in addition to any authority vested by law, the authority and legal capacity of a nonprofit corporation under chapter 317, including authority to

In making the recommendations, the administrative law judge shall consider and make written comments as to whether the proposed service, change in base of operations, or expansion in primary service area is needed, based on consideration of the following factors:

1. the relationship of the proposed service, change in base of operations or expansion in primary service area to the current community health plan as approved by the commissioner under section 145.948 145A.12, subdivision 4;

2. the recommendations or comments of the governing bodies of the counties and municipalities in which the service would be provided;

that involuntary receivership is necessary as a means of protecting the health, safety, or rights of persons being served by the residential program, the court shall appoint the commissioner as receiver to operate the residential program. In the event that no receiver can be found who meets the conditions of this section, the commissioner or commissioner's designated representative may serve as the receiver. Within 36 months after the receivership order, the receiver appointed to operate a residential program during a period of involuntary receivership shall provide for the orderly transfer of the persons served by the residential program to other residential programs or make other provisions to protect their health, safety, and rights. The receiver or the managing agent shall correct or eliminate deficiencies in the residential program that the commissioner determines endanger the health, safety, or welfare of the persons being served by the residential program unless the correction or elimination of deficiencies involves major alteration in the structure of the physical plant. If the correction or elimination of the deficiencies requires major alterations in the structure of the physical plant, the receiver shall take actions designed to result in the immediate transfer of persons served by the residential program. During the period of the receivership, the receiver and the managing agent shall operate the residential program in a manner designed to preserve the health, safety, rights, adequate care, and supervision of the persons served by the residential program. The receiver or the managing agent may make contracts and incur lawful expenses. The receiver or the managing agent shall collect incoming payments from all sources and apply them to the cost incurred in the performance of the receiver's functions of the receivership including the receiver's fee set under subdivision 4. No security interest in any real or personal property comprising the residential program or contained within it, or in any fixture of the physical plant, shall be impaired or diminished in priority by the receiver or the managing agent. The receiver shall pay all valid obligations of the residential program and may deduct these expenses, if necessary, from rental payments owed to any controlling individual by virtue of the receivership.

Subd. 3a. LIABILITY. The provisions contained in section 245A.12, subdivision 6, shall also apply to receiverships ordered according to this section.

New language is indicated by underline, deletions by strikeout.
Subd. 3b. LIABILITY FOR FINANCIAL OBLIGATIONS. The provisions contained in section 245A.12, subdivision 7, also apply to receiverships ordered according to this section.

Subd. 3c. PHYSICAL PLANT OF THE RESIDENTIAL PROGRAM. Occupation of the physical plant under an involuntary receivership shall be governed by paragraphs (a) and (b).

(a) The physical plant owned by a controlling individual of the residential program or related party must be made available for the use of the residential program throughout the receivership period. The court shall determine a fair monthly rental for the physical plant, taking into account all relevant factors necessary to meet required arms-length obligations of controlling individuals such as mortgage payments, real estate taxes, special assessments, and the conditions of the physical plant. The rental fee must be paid by the receiver to the appropriate controlling individuals or related parties for each month that the receivership remains in effect. No payment made to a controlling individual or related party by the receiver or the managing agent or any state agency during a period of the receivership shall include any allowance for profit or be based on any formula that includes an allowance for profit.

(b) If the owner of the physical plant of a residential program is not a related party, the court shall order the controlling individual to continue as the lessee of the property during the receivership period. Rental payments during the receivership period shall be made to the owner of the physical plant by the commissioner or the managing agent on behalf of the controlling individual.

Subd. 4. RECEIVER'S FEE; LIABILITY; ASSISTANCE FROM THE COMMISSIONER. A receiver appointed under an involuntary receivership or the managing agent is entitled to a reasonable receiver's fee as determined by the court. The receiver's fee is governed by section 256B.495. The receiver is liable only in an official capacity for injury to person and property by reason of the conditions of the residential program. The receiver is not personally liable, except for gross negligence and intentional acts.

Subd. 5. TERMINATION. An involuntary receivership terminates 36 months after the date on which it was ordered or at any other time designated by the court or when any of the following events occurs:

4) the residential program closes.

New language is indicated by underline, deletions by strikeout.
Subd. 6. EMERGENCY PROCEDURE. If it appears from the petition filed under subdivision 1, from an affidavit or affidavits filed with the petition, or from testimony of witnesses under oath if the court determines it necessary, that there is probable cause to believe that an emergency exists in a residential program, the court shall issue a temporary order for appointment of a receiver within five days after receipt of the petition. Notice of the petition must be served on the residential program administrator and on the persons designated as agents by the controlling individuals to accept service on their behalf. A hearing on the petition must be held within five days after notice is served unless the administrator or designated agent consents to a later date. After the hearing, the court may continue, modify, or terminate the temporary order.

Subd. 7. RATE RECOMMENDATION. The commissioner of human services may review rates of a residential program participating in the medical assistance program which is in involuntary receivership and that has needs or deficiencies documented by the department of health or the department of human services. If the commissioner of human services determines that a review of the rate established under section 256B.501 is needed, the commissioner shall:

(1) review the order or determination that cites the deficiencies or needs; and

(2) determine the need for additional staff, additional annual hours by type of employee, and additional consultants, services, supplies, equipment, repairs, or capital assets necessary to satisfy the needs or deficiencies.

Subd. 8. ADJUSTMENT TO THE RATE. Upon review of rates under subdivision 7, the commissioner may adjust the residential program's payment rate. The commissioner shall review the circumstances, together with the residential program cost report, to determine whether or not the deficiencies or needs can be corrected or met by reallocating residential program staff, costs, revenues, or other resources including any investments, efficiency incentives, or allowances. If the commissioner determines that any deficiency cannot be corrected or the need cannot be met with the payment rate currently being paid, the commissioner shall determine the payment rate adjustment by dividing the additional annual costs established during the commissioner's review by the residential program's actual resident days from the most recent desk-audited cost report or the estimated resident days in the projected receivership period. The payment rate adjustment must meet the conditions in Minnesota Rules, parts 9553.0010 to 9553.0080, and remains in effect during the period of the receivership or until another date set by the commissioner. Upon the subsequent sale or transfer of the residential program, the commissioner may recover amounts that were paid as payment rate adjustments under this subdivision. The buyer or transferee shall repay this amount to the commissioner within 60 days after the commissioner notifies the buyer or transferee of the obligation to repay. This provision does not limit the liability of the seller to the commissioner pursuant to section 256B.0641.

New language is indicated by underline, deletions by strikeout.
Subd. 9. RECEIVERSHIP ACCOUNTING. The commissioner may use the medical assistance account and funds for receivership cash flow and accounting purposes.

Subd. 10. RECEIVERSHIP COSTS. The commissioner may use the accounts and funds that would have been available for the room and board, services, and program costs of persons in the residential program for costs, cash flow, and accounting purposes related to the receivership.

Unless Except as otherwise provided in subdivision 1 or in a town, municipal, or county regulation, a licensed nonresidential program with a licensed capacity of 13 to 16 persons shall be considered a permitted multifamily residential use of property for purposes of zoning. A town, municipal, or county zoning authority may require a conditional use or special use permit in order to assure proper maintenance and operation of the program. Conditions imposed on the nonresidential program must not be more restrictive than those imposed on other conditional uses or special uses of residential property in the same zones unless the additional conditions are necessary to protect the health and safety of the persons being served by the nonresidential program. Nothing in sections 245A.01 to 245A.16 shall be construed to exclude or prohibit nonresidential programs from single-family zones if otherwise permitted by local zoning regulations.

Sec. 52. Minnesota Statutes 1989 Supplement, section 245A.16, subdivision 1, is amended to read:

Subdivision 1. DELEGATION OF AUTHORITY TO AGENCIES. (a) County agencies and private agencies that have been designated or licensed by the commissioner to perform licensing functions and activities under section 245A.04, to recommend denial of applicants under section 245A.05, to recommend issue correction orders and recommend fines under section 245A.06, or to recommend suspending, revoking, and making licenses probationary under section 245A.07, shall comply with rules and directives of the commissioner governing those functions and with this section.

New language is indicated by underline, deletions by strikeout.
(b) By January 1, 1991, the commissioner shall study and make recommendations to the legislature regarding the licensing and provision of support services to child foster homes. In developing the recommendations, the commissioner shall consult licensed private agencies, county agencies, and licensed foster home providers.

Sec. 53. Minnesota Statutes 1988, section 245A.16, subdivision 4, is amended to read:

Subd. 4. ENFORCEMENT OF THE COMMISSIONER'S ORDERS. The county or private agency shall enforce the commissioner's orders under sections 245A.07 and 245A.08, subdivision 5, according to the instructions of the commissioner. The county attorney shall assist the county agency in the enforcement and defense of the commissioner's orders under sections 245A.07 and 245A.08 according to the instructions of the commissioner, unless a conflict of interest exists between the county attorney and the commissioner.

Sec. 54. [245A.18] SEAT BELT USE REQUIRED.

(a) When a nonresidential license holder provides or arranges for transportation for children served by the license holder, children four years old and older must be restrained by a properly adjusted and fastened seat belt and children under age four must be properly fastened in a child passenger restraint system meeting federal motor vehicle safety standards. A child passenger restraint system is not required for a child who, in the judgment of a licensed physician, cannot be safely transported in a child passenger restraint system because of a medical condition, body size, or physical disability, if the license holder possesses a written statement from the physician that satisfies the requirements in section 169.685, subdivision 5, paragraph (b).

(b) Paragraph (a) does not apply to transportation of children in a school bus inspected under section 169.451 that has a gross vehicle weight rating of more than 10,000 pounds, is designed for carrying more than ten persons, and was manufactured after 1977.

Sec. 55. STUDY OF SEAT BELT REQUIREMENTS.

The commissioner of human services with the assistance of the commissioners of education and public safety shall study and make recommendations to the 1991 legislature for standards for the transportation of children by nonresidential programs licensed by the commissioner of human services.

Sec. 56. Minnesota Statutes 1988, section 252.27, as amended by Laws 1989, chapter 282, article 2, section 92, is amended to read:

252.27 COST OF BOARDING CARE OUTSIDE OF HOME OR INSTITUTION PARENTAL CONTRIBUTION FOR THE COST OF CHILDREN'S SERVICES.

New language is indicated by underline, deletions by strikeout.
Subdivision 1. COUNTY RESPONSIBILITY. Whenever any child who has mental retardation or a related condition, or a physical or emotional handicap is in 24-hour care outside the home including respite care, in a facility licensed by the commissioner of human services, the cost of care services shall be paid by the county of financial responsibility determined pursuant to chapter 256G. If the child’s parents or guardians do not reside in this state, the cost shall be paid by the responsible governmental agency in the state from which the child came, by the parents or guardians of the child if they are financially able, or, if no other payment source is available, by the commissioner of human services.

Subd. 1a. DEFINITIONS. A person has a “related condition” if that person has a severe, chronic disability that is (a) attributable to cerebral palsy, epilepsy, autism, Prader-Willi syndrome, or any other condition, other than mental illness, found to be closely related to mental retardation because the condition results in impairment of general intellectual functioning or adaptive behavior similar to that of persons with mental retardation or requires treatment or services similar to those required for persons with mental retardation; (b) is likely to continue indefinitely; and (c) results in substantial functional limitations in three or more of the following areas of major life activity: self-care, understanding and use of language, learning, mobility, self-direction, or capacity for independent living. For the purposes of this section, a child has an “emotional handicap” if the child has a psychiatric or other emotional disorder which substantially impairs the child’s mental health and requires 24-hour treatment or supervision.

Subd. 2. PARENTAL RESPONSIBILITY. Responsibility of the parents for the cost of care services shall be based upon ability to pay. The state agency shall adopt rules to determine responsibility of the parents for the cost of care services when:

(a) Insurance or other health care benefits pay some but not all of the cost of care services; and

(b) No insurance or other health care benefits are available.

Subd. 2a. CONTRIBUTION AMOUNT. (a) The natural or adoptive parents of a minor child, including a child determined eligible for medical assistance without consideration of parental income, must contribute monthly to the cost of services, unless the child is married or has been married, parental rights have been terminated, or the child’s adoption is subsidized according to section 259.40 or through title IV-E of the Social Security Act.

(b) The parental contribution equals the following percentage of that portion of the income of the natural or adoptive parents that exceeds 200 percent of the federal poverty guidelines for the applicable household size:

<table>
<thead>
<tr>
<th>Adjusted Gross Income</th>
<th>Percentage contribution exceeding 200 percent of poverty</th>
</tr>

<tbody>
<tr>
<td>Under $40,000</td>

</table>

New language is indicated by underline, deletions by strikeout.
If the child lives with the parent, the parental contribution is reduced by $200. If the child resides in an institution specified in section 256B.35, the parent is responsible for the personal needs allowance specified under that section in addition to the parental contribution determined under this section. The parental contribution is reduced by any amount required to be paid directly to the child pursuant to a court order, but only if actually paid.

(c) The household size to be used in determining the amount of contribution under paragraph (b) includes natural and adoptive parents and their dependents under age 21, including the child receiving services. Adjustments in the contribution amount due to annual changes in the federal poverty guidelines shall be implemented on the first day of July following publication of the changes.

(d) For purposes of paragraph (b), “income” means the adjusted gross income of the natural or adoptive parents determined according to the previous year’s federal tax form.

(e) The contribution shall be explained in writing to the parents at the time eligibility for services is being determined. The contribution shall be made on a monthly basis effective with the first month in which the child receives services. Annually upon redetermination or at termination of eligibility, if the contribution exceeded the cost of services provided, the local agency or the state shall reimburse that excess amount to the parents, either by direct reimbursement if the parent is no longer required to pay a contribution, or by a reduction in or waiver of parental fees until the excess amount is exhausted.

(f) The monthly contribution amount must be reviewed at least every 12 months; when there is a change in household size; and when there is a loss of or gain in income from one month to another in excess of ten percent. The local agency shall mail a written notice 30 days in advance of the effective date of a change in the contribution amount. A decrease in the contribution amount is effective in the month that the parent verifies a reduction in income or change in household size.

(g) Parents of a minor child who do not live with each other shall each pay the contribution required under paragraph (a), except that a court-ordered child support payment actually paid on behalf of the child receiving services shall be deducted from the contribution of the parent making the payment.

(h) The contribution under paragraph (b) shall be increased by an additional five percent if the local agency determines that insurance coverage is available but not obtained for the child. For purposes of this section, “available” means the insurance is a benefit of employment for a family member at an annual cost

New language is indicated by underline, deletions by strikeout.
of no more than five percent of the family's annual income. For purposes of this section, insurance means health and accident insurance coverage, enrollment in a nonprofit health service plan, health maintenance organization, self-insured plan, or preferred provider organization.

Parents who have more than one child in out-of-home care receiving services shall not be required to pay more than the amount for one the child in out-of-home care. In no event shall the parents be required to pay more than five percent of their income as defined in section 290A.03, subdivision 3 with the highest expenditures. There shall be no resource contribution from the parents. The parent shall not be required to pay a contribution in excess of the cost of the services provided to the child, not counting payments made to school districts for education-related services. Notice of an increase in fee payment must be given at least 30 days before the increased fee is due.

Subd. 2b. CHILD'S RESPONSIBILITY. Responsibility of the child for the cost of care shall be up to the maximum amount of the total income and resources attributed to the child except for the clothing and personal needs allowance as provided in section 256B.35, subdivision 1. Reimbursement by the parents and child shall be made to the county making any payments for care and treatment services. The county board may require payment of the full cost of caring for children whose parents or guardians do not reside in this state.

To the extent that a child described in subdivision 1 is eligible for benefits under chapter 62A, 62C, 62D, 62E, or 64B, the county is not liable for the cost of care services. A parent or legal guardian who discontinues payment of health insurance premiums; subscriber fees or enrollment fees for a child who is otherwise eligible for these benefits is ineligible for payment of the cost of care of that child under this section.

The commissioner's determination shall be conclusive in any action to enforce payment of the cost of care. Any appeals from the commissioner's determination shall be made pursuant to section 256.045, subdivisions 2 and 3.

Subd. 2c. APPEALS. A parent may appeal the determination of an obligation to make a contribution under this section, according to section 256.045.

Subd. 3. CIVIL ACTIONS. If the parent fails to make appropriate reimbursement as required in subdivision 2; the county attorney may initiate a civil action to collect any unpaid reimbursement 2a and 2b, the attorney general, at the request of the commissioner, may institute or direct the appropriate county attorney to institute civil action to recover the required reimbursement.

Subd. 4. ORDER OF PAYMENT. If the parental contribution is for reimbursement for the cost of services to both the local agency and the medical assistance program, the local agency shall be reimbursed for its expenses first and the remainder must be deposited in the medical assistance account.
Sec. 57. [254A.17] PREVENTION AND TREATMENT INITIATIVES.

Subdivision 1. MATERNAL AND CHILD SERVICE PROGRAMS. The commissioner shall fund maternal and child health and social service programs designed to improve the health and functioning of children born to mothers using alcohol and controlled substances. Comprehensive programs shall include immediate and ongoing intervention, treatment, and coordination of medical, educational, and social services through a child’s preschool years. Programs shall also include research and evaluation to identify methods most effective in improving outcomes among this high-risk population.

Subd. 2. CHILD PROTECTION PROGRAMS. The commissioner shall fund innovative child protection programs for children and families at risk due to substance abuse. Funding of a program under this subdivision must result in (1) earlier intervention; (2) the provision of in-home supervision; and (3) case management of all services required. Programs must also include research and evaluation to identify methods most effective in child protection services for this high-risk population.

Subd. 3. STATEWIDE DETOXIFICATION TRANSPORTATION PROGRAM. The commissioner shall provide grants to counties, Indian reservations, other nonprofit agencies, or local detoxification programs for provision of transportation of intoxicated individuals to detoxification programs.

Sec. 58. Minnesota Statutes 1989 Supplement, section 254B.03, subdivision 4, is amended to read:

Subd. 4. DIVISION OF COSTS. Except for services provided by a county under section 254B.09, subdivision 1, or services provided under section 256B.69 or 256D.03, subdivision 4, paragraph (b), the county shall, out of local money, pay the state for 15 percent of the cost of chemical dependency services, including those services provided to persons eligible for medical assistance under chapter 256B and general assistance medical care under chapter 256D. Counties may use the indigent hospitalization levy for treatment and hospital payments made under this section. Fifteen percent of any state collections from private or third-party pay, less 15 percent of the cost of payment and collections, must be distributed to the county that paid for a portion of the treatment under this section. If all funds allocated according to section 254B.02 are exhausted by a county and the county has met or exceeded the base level of expenditures under section 254B.02, subdivision 3, the county shall pay the state for 15 percent of the costs paid by the state under this section. The commissioner may refuse to pay state funds for services to persons not eligible under section 254B.04, subdivision 1, if the county financially responsible for the persons has exhausted its allocation.

254B.04 ELIGIBILITY FOR CHEMICAL DEPENDENCY FUND SERVICES.

Subdivision 1. ELIGIBILITY. (a) Persons eligible for benefits under sections 256D.01 to 256D.21, or for federal benefits under Code of Federal Regulations, title 25, part 20, and persons eligible for federal health care medical assistance benefits under sections 256B.055; and 256B.056; and 256B.06 or who meet the income standards of section 256B.056, subdivision 4, and persons eligible for general assistance medical care under section 256D.03, subdivision 3 are entitled to chemical dependency fund services.

(b) A person not entitled to services under paragraph (a), but with family income that is less than 60 percent of the state median income for a family of like size and composition, shall be eligible to receive chemical dependency fund services within the limit of funds available after persons entitled to services under paragraph (a) have been served. A county may spend money from its own sources to serve persons under this paragraph.

(c) Persons whose income is between 60 percent and 115 percent of the state median income shall be eligible for chemical dependency services on a sliding fee basis, within the limit of funds available, after persons entitled to services under paragraph (a) and persons eligible for services under paragraph (b) have been served. Persons eligible under this paragraph must contribute to the cost of services according to the sliding fee scale established under subdivision 3. A county may spend money from its own sources to provide services to persons under this paragraph.

Subd. 3. AMOUNT OF CONTRIBUTION. The commissioner shall adopt a sliding fee scale to determine the amount of contribution to be required from persons whose income is greater than the standard of assistance under sections 256B.055; 256B.056; 256B.06; and 256D.01 to 256D.21 under this section. The commissioner may adopt rules to amend existing fee scales. The commissioner may establish a separate fee scale for recipients of chemical dependency transitional and extended care rehabilitation services that provides for the collection of fees for board and lodging expenses. The fee schedule shall ensure that employed persons are allowed the income disregards and savings accounts that are allowed residents of community mental illness facilities under section 256D.06, subdivisions 1 and 1b. The fee scale must not provide assistance to persons whose income is more than 115 percent of the state median income. Payments of liabilities under this section are medical expenses for purposes of determining spend-down under sections 256B.055, 256B.056, 256B.06, and 256D.01 to 256D.21. The required amount of contribution established by the fee scale in this subdivision is also the cost of care responsibility subject to collection under section 254B.06, subdivision 1.

Sec. 60. Minnesota Statutes 1988, section 254B.08, is amended to read:

254B.08 FEDERAL WAIVERS.

New language is indicated by underline, deletions by strikeout.
The commissioner shall apply for any federal waivers necessary to secure, to
the extent allowed by law, federal financial participation for the provision of
services to persons who need chemical dependency services. The commissioner
may seek amendments to the waivers or apply for additional waivers to contain
costs. The commissioner shall ensure that payment for the cost of providing
chemical dependency services under the federal waiver plan does not exceed the
cost of chemical dependency services that would have been provided without
the waivered services.

Notwithstanding sections 254B.04 and 256B.02, subdivision 8; clause (18);
and rules adopted under section 254B.03, subdivision 5; persons eligible under
sections 256B.055, 256B.056; and 256B.06 for medical assistance benefits shall
not be eligible for services reimbursed through the consolidated chemical depen-
dency fund, except for transitional rehabilitation; extended care programs; and
culturally specific programs as defined by Minnesota Rules, part 9520.6605,
subpart 13, until the federal Social Security Act, section 2108 (1915B); program
waivers are secured: Until the necessary federal program waivers are secured;
persons eligible for medical assistance benefits under sections 256B.055, 256B.056,
and 256B.06 shall be eligible for chemical dependency treatment services under
sections 256B.02, subdivision 8, and 256B.0625.

Sec. 61. Minnesota Statutes 1989 Supplement, section 256.74, subdivision
1, is amended to read:

Subdivision 1. AMOUNT. The amount of assistance which shall be granted
to or on behalf of any dependent child and mother or other needy eligible
relative caring for the dependent child shall be determined by the county agency
in accordance with rules promulgated by the commissioner and shall be sufficient,
when added to all other income and support available to the child, to provide
the child with a reasonable subsistence compatible with decency and health.
The amount shall be based on the method of budgeting required in Public Law
Number 97-35, section 2315, United States Code, title 42, section 602, as amended
Nonrecurring lump sum income received by an assistance unit must be budgeted
in the normal retrospective cycle. The number of months of ineligibility is
determined by dividing the amount of the lump sum income and all other
income, after application of the applicable disregards, by the standard of need
for the assistance unit. An amount remaining after this calculation is income in
the first month of eligibility. If the total monthly income including the lump
sum income is larger than the standard of need for a single month the first
month of ineligibility is the payment month that corresponds with the budget
month in which the lump sum income was received. In making its determina-
tion the county agency shall disregard the following from family income:

(1) all of the earned income of each dependent child receiving aid to fami-
lies with dependent children who is a full-time student or part-time student, and
not a full-time employee, attending a school, college, or university, or a course of

vocational or technical training designed to fit students for gainful employment as well as all the earned income derived from the job training and partnership act (JTPA) for a dependent child for six calendar months per year, together with unearned income derived from the job training and partnership act;

(2) all educational grants and loans;

(3) the first $90 of each individual’s earned income. For self-employed persons, the expenses directly related to producing goods and services and without which the goods and services could not be produced shall be disregarded pursuant to rules promulgated by the commissioner;

(4) thirty dollars plus one-third of each individual’s earned income for individuals found otherwise eligible to receive aid or who have received aid in one of the four months before the month of application. With respect to any month, the county welfare agency shall not disregard under this clause any earned income of any person who has: (a) reduced earned income without good cause within 30 days preceding any month in which an assistance payment is made; (b) refused without good cause to accept an offer of suitable employment; (c) left employment or reduced earnings without good cause and applied for assistance so as to be able later to return to employment with the advantage of the income disregard; or (d) failed without good cause to make a timely report of earned income in accordance with rules promulgated by the commissioner of human services. Persons who are already employed and who apply for assistance shall have their needs computed with full account taken of their earned and other income. If earned and other income of the family is less than need, as determined on the basis of public assistance standards, the county agency shall determine the amount of the grant by applying the disregard of income provisions. The county agency shall not disregard earned income for persons in a family if the total monthly earned and other income exceeds their needs, unless for any one of the four preceding months their needs were met in whole or in part by a grant payment. The disregard of $30 and one-third of earned income in this clause shall be applied to the individual’s income for a period not to exceed four consecutive months. Any month in which the individual loses this disregard because of the provisions of subclauses (a) to (d) shall be considered as one of the four months. An additional $30 work incentive must be available for an eight-month period beginning in the month following the last month of the combined $30 and one-third work incentive. This period must be in effect whether or not the person has earned income or is eligible for AFDC. To again qualify for the earned income disregards under this clause, the individual must not be a recipient of aid for a period of 12 consecutive months. When an assistance unit becomes ineligible for aid due to the fact that these disregards are no longer applied to income, the assistance unit shall be eligible for medical assistance benefits for a 12-month period beginning with the first month of AFDC ineligibility;

dent child or incapacitated individual living in the same home and receiving aid, not to exceed: (a) $175 for each individual age two and older, and $200 for each individual under the age of two, when the family member whose needs are included in the eligibility determination is employed for 30 or more hours per week; or (b) $174 for each individual age two or older, and $199 for each individual under the age of two, when the family member whose needs are included in the eligibility determination is not employed throughout the month or when employment is less than 30 hours per week. The dependent care disregard must be applied after all other disregards under this subdivision have been applied;

(6) the first $50 per assistance unit of the monthly support obligation collected by the support and recovery (IV-D) unit. The first $50 of periodic support payments collected by the public authority responsible for child support enforcement from a person with a legal obligation to pay support for a member of the assistance unit must be paid to the assistance unit within 15 days after the end of the month in which the collection of the periodic support payments occurred and must be disregarded when determining the amount of assistance. A review of a payment decision under this clause must be requested within 30 days after receiving the notice of collection of assigned support, or within 90 days after receiving the notice if good cause can be shown for not making the request within the 30-day limit;

(7) that portion of an insurance settlement earmarked and used to pay medical expenses, funeral and burial costs, or to repair or replace insured property; and

(8) all earned income tax credit payments received by the family as a refund of federal income taxes or made as advance payments by an employer.

Sec. 62. [256.9791] MEDICAL SUPPORT BONUS INCENTIVES.

Subdivision 1. BONUS INCENTIVE. (a) A bonus incentive program is created to increase the identification and enforcement by county agencies of dependent health insurance coverage for persons who are receiving medical assistance under section 256B.055 and for whom the county agency is providing child support enforcement services.

(b) The bonus shall be awarded to a county child support agency for each person for whom coverage is identified and enforced by the child support enforcement program when the obligor is under a court order to provide dependent health insurance coverage.

Subd. 2. DEFINITIONS. For the purpose of this section, the following definitions apply.

(a) "Case" means a family unit that is receiving medical assistance under section 256B.055 and for whom the county agency is providing child support enforcement services.
(b) "Commissioner" means the commissioner of the department of human services.

(c) "County agency" means the county child support enforcement agency.

(d) "Coverage" means initial dependent health insurance benefits for a case or individual member of a case.

(e) "Enforce" or "enforcement" means obtaining proof of current or future dependent health insurance coverage through an overt act by the county agency.

(g) "Identify" or "identification" means obtaining proof of dependent health insurance coverage through an overt act by the county agency.

Subd. 3. ELIGIBILITY; REPORTING REQUIREMENTS. (a) In order for a county to be eligible to claim a bonus incentive payment, the county agency must report to the commissioner, no later than August 1 of each fiscal year, the number of cases as of June 30 of the preceding fiscal year in which (1) the court has established an obligation for coverage by the obligor and (2) coverage was in effect as of June 30. The ratio resulting when the number of cases reported under (2) is divided by the number of cases reported under (1) shall be used to determine the amount of the bonus incentive according to subdivision 4.

(b) A county that fails to submit the required information by August 1 of each fiscal year is not eligible for any bonus payments under this section for that fiscal year.

Subd. 4. RATE OF BONUS INCENTIVE. The rate of the bonus incentive shall be determined according to paragraphs (a) to (c).

(a) When a county agency has identified or enforced coverage in up to and including 50 percent of its cases, the county shall receive $15 for each additional person for whom coverage is identified or enforced.

(b) When a county agency has identified or enforced coverage in more than 50 percent but less than 80 percent of its cases, the county shall receive $20 for each person for whom coverage is identified or enforced.

(c) When a county agency has identified or enforced coverage in 80 percent or more of its cases, the county shall receive $25 for each person for whom coverage is identified or enforced.

(d) Bonus payments according to paragraphs (a) to (c) are limited to one bonus for each covered person each time the county agency identifies or enforces previously unidentified health insurance coverage and apply only to coverage identified or enforced after the effective date of this section.

New language is indicated by underline, deletions by strikeout.
Subd. 5. CLAIMS FOR BONUS INCENTIVE. (a) Beginning July 1, 1990, county agencies shall file a claim for a medical support bonus payment by reporting to the commissioner the following information for each case where dependent health insurance is identified or enforced as a result of an overt act of the county agency:

1. child support enforcement system case number or county specific case number;
2. names and dates of birth for each person covered; and
3. the effective date of coverage.

(b) The report must be made upon enrollment in coverage but no later than September 30 for coverage identified or established during the preceding fiscal year.

(c) The county agency making the initial contact resulting in the establishment of coverage is the county agency entitled to claim the bonus incentive even if the case is transferred to another county agency prior to the time coverage is established.

(d) Disputed claims must be submitted to the commissioner and the commissioner's decision is final.

Subd. 6. DISTRIBUTION. (a) Bonus incentives must be issued to the county agency quarterly, within 45 days after the last day of each quarter for which a bonus incentive is being claimed, and must be paid up to the limit of the appropriation in the order in which claims are received.

(b) Total bonus incentives must be computed by multiplying the number of persons included in claims submitted in accordance with this section by the applicable bonus payment as determined in subdivision 4.

(c) The county agency must repay any bonus erroneously issued.

(d) A county agency must maintain a record of bonus incentives claimed and received for each quarter.

Sec. 63. Minnesota Statutes 1988, section 256E.06, subdivision 2, is amended to read:

Subd. 2. FORMULA LIMITATION. The amounts computed pursuant to subdivision 1 shall be subject to the following limitations:

(a) No county shall be allocated more than 130 percent of the amount received prior to any penalty imposed under subdivision 7 in the immediately preceding year. If the amount allocated to any county pursuant to subdivision 1 is greater than this amount, the excess shall be reallocated to all counties in direct proportion to their initial allocations.

New language is indicated by underline, deletions by strikeout.
(b) Each county shall be guaranteed a percentage increase over the previous year's allocation equal to 0.2 percent for each percentage increase in the statewide allocation, up to a maximum guaranteed increase of one percent when the statewide allocation increases by five percent or more. If the amount allocated to any county pursuant to subdivision 1 is less than this amount, the shortage shall be recovered from all counties in direct proportion to their initial allocations.

(c) If the amount to be allocated statewide in any year is less than the amount allocated in the previous year, then the provisions of clause (b) shall not apply, and each county's allocation shall be equal to its previous year's allocation reduced by the same percentage that the statewide allocation was reduced.

(d) For the purpose of calculating the 1991 community social services act allocation, the 1990 allocation must be increased by the following amounts: $46,487 for Crow Wing county, $21,995 for Fillmore county, $5,368 for Hubbard county, $24,225 for Lac Qui Parle county, and $4,444 for Red Lake county.

Sec. 64. Minnesota Statutes 1988, section 256E.06, subdivision 7, is amended to read:

Subd. 7. FAILURE TO LEVY. A county which levies less than the levy required in subdivision 5, shall receive a reduction in the aid calculated pursuant to subdivisions 1 and 2. The commissioner shall calculate the reduced aid as follows:

(a) Divide the amount levied by the amount required to be levied in subdivision 5; and

(b) Multiply the ratio derived in clause (a) times the aid calculated under subdivision subdivisions 1 and 2.

The amount of the reduction in aid shall be returned to the general fund. The reduction in aid imposed under this subdivision shall be effective for one year, and aid in the following year shall be calculated under subdivisions 1 and 2 as though the reduction had not occurred. This provision applies to penalties imposed for the year 1989 and all subsequent years.

This includes the authority to represent the legal interests of or execute documents on behalf of the other public authority in connection with the establishment, enforcement, and collection of child support, maintenance, or medical support, and collection on judgments. (a) The petitioner shall notify the public authority of all proceedings for dissolution, legal separation, determination of parentage or for the custody of a child, if either party is receiving aid to families with dependent children or applies for it subsequent to the commencement of the proceeding. After receipt of the notice, the court shall set child support as provided in this subdivision. The court may order either or both parents owing a duty of support to a child of the marriage to pay an amount reasonable or necessary for the child’s support, without regard to marital misconduct. The court shall approve a child support agreement of the parties if each party is represented by independent counsel, unless the agreement is not in the interest of justice. In other cases the court shall determine and order child support in a specific dollar amount in accordance with the guidelines and the other factors set forth in paragraph (b) and any departure therefrom.

The court shall multiply derive a specific dollar amount by multiplying the obligor’s net income by the percentage indicated by the following guidelines:

Guidelines for support for an obligor with a monthly income of $4,001 or more shall be the same dollar amounts as provided for in the guidelines for an obligor with a monthly income of $4,000.

(b) In addition to the child support guidelines, the court shall take into consideration the following factors in setting or modifying child support:

(1) all earnings, income, and resources of the parents, including real and personal property;

New language is indicated by underline, deletions by strikeout.
(2) the financial needs and resources, physical and emotional condition, and educational needs of the child or children to be supported;

(4) the amount of the aid to families with dependent children grant for the child or children;

(5) which parent receives the income taxation dependency exemption and what financial benefit the parent receives from it; and

(6) the parents' debts as provided in paragraph (c).

(c) In establishing or modifying a support obligation, the court may consider debts owed to private creditors, but only if:

(1) the right to support has not been assigned under section 256.74;

(2) the court determines that the debt was reasonably incurred for necessary support of the child or parent or for the necessary generation of income. If the debt was incurred for the necessary generation of income, the court shall consider only the amount of debt that is essential to the continuing generation of income; and

(3) the party requesting a departure produces a sworn schedule of the debts, with supporting documentation, showing goods or services purchased, the recipient of them, the amount of the original debt, the outstanding balance, the monthly payment, and the number of months until the debt will be fully paid.

Any schedule prepared under paragraph (c), clause (3), shall contain a statement that the debt will be fully paid after the number of months shown in the schedule, barring emergencies beyond the party's control.

Any further departure below the guidelines that is based on a consideration of debts owed to private creditors shall not exceed 18 months in duration, after which the support shall increase automatically to the level ordered by the court. Nothing in this section shall be construed to prohibit one or more step increases in support to reflect debt retirement during the 18-month period.

Where payment of debt is ordered pursuant to this section, the payment shall be ordered to be in the nature of child support.

(d) Nothing shall preclude the court from receiving evidence on the above factors to determine if the guidelines should be exceeded or modified in a particular case.

district judge.

For the purpose of this process, all powers, duties, and responsibilities

The administrative law judge shall make findings of fact, conclusions, and a final decision and issue an order. Orders issued by an administrative law judge are enforceable by the contempt powers of the county and district courts.

The decision and order of the administrative law judge shall be a final agency decision for purposes of sections 14.63 to 14.69 is appealable to the court of appeals in the same manner as a decision of the district court.

Whenever an obligation for support of a dependent child or maintenance of a spouse, or both, is determined and ordered by a court of this state, the amount of child support or maintenance as determined by court order must be withheld from the income, regardless of source, of the person obligated to pay the support or maintenance. Every order for maintenance or support must include the obligor's social security number and date of birth and the name and address of the obligor's employer or other payor of funds.

(2) the obligee or the public authority serves written notice of income withholding, showing arrearage, on the obligor at least 15 days before service of the notice of income withholding and a copy of the court's order on the payor of funds;

(3) within the 15-day period, the obligor fails to move the court to deny withholding on the grounds that an arrearage of at least 30 days does not exist as of the date of the notice of income withholding, or on other grounds limited to mistakes of fact, and, ex parte, to stay service on the payor of funds until the motion to deny withholding is heard; and

(b) To pay the arrearage specified in the notice of income withholding, the employer or payor of funds shall withhold from the obligor's income an additional amount equal to 20 percent of the monthly child support or maintenance obligation until the arrearage is paid.

(c) The obligor may, at any time, waive the written notice required by this subdivision.

(d) The obligor may move the court, under section 518.64, to modify the order respecting the amount of maintenance or support.

(e) Every order for support or maintenance shall provide for a conspicuous notice of the provisions of this subdivision. An order without this notice remains subject to this subdivision.

(f) Absent a court order to the contrary, if an arrearage exists at the time an order for ongoing support or maintenance would otherwise terminate, income withholding shall continue in effect in an amount equal to the former support or maintenance obligation plus an additional amount equal to 20 percent of the monthly child support obligation, until all arrears have been paid in full.

Sec. 75. Minnesota Statutes 1988, section 518.611, is amended by adding a subdivision to read:

Subd. 2a. PREAUTHORIZED TRANSFERS FROM OBLIGOR ACCOUNTS. In any case where income withholding is ineffective due to the obligor's method of obtaining income, the court shall order the obligor to identify a child support deposit account owned solely by the obligor, or to establish an account, in a financial institution located in this state for the purpose of depositing court-ordered child support payments. The court shall order the obligor to execute an agreement with the appropriate public authority authorizing preauthorized transfers from the obligor's child support deposit account payable to an account of the public authority responsible for child support enforcement. The court shall order the obligor to disclose to the court all deposit accounts owned by the obligor in whole or in part in any financial institution. The court may order the obligor to disclose to the court the opening or closing of any deposit account owned in whole or in part by the obligor within 30 days of the opening or closing. Sec. 76. Minnesota Statutes 1989 Supplement, section 518.611, subdivision 4, is amended to read:

Subd. 4. EFFECT OF ORDER. Withholding must begin no later than the first pay period that occurs after 14 days following the date of the notice. In the case of a financial institution, preauthorized transfers must occur in accordance with a court-ordered payment schedule. An employer or other, payor of funds, or financial institution in this state is required to withhold income according to court orders for withholding issued by other states or territories. The payor shall withhold from the income payable to the obligor the amount specified in the order and amounts required under subdivision 2, paragraph (b), and section 518.613 and shall remit, within ten days of the date the obligor is paid the remainder of the income, the amounts withheld to the public authority. The payor shall identify on the remittance information the date the obligor is paid the remainder of the income. The financial institution shall execute preauthorized transfers from the deposit accounts of the obligor in the amount specified in the order and amounts required under subdivision 2 as directed by the public authority responsible for child support enforcement. Employers may combine all amounts withheld from one pay period into one payment to each public authority, but shall separately identify each obligor making payment. Amounts received by the public authority which are in excess of public assistance expended for the party or for a child shall be remitted to the party. An employer shall not discharge, or refuse to hire, or otherwise discipline an employee as a result of a wage or salary withholding authorized by this section. The employer or other payor of funds shall be liable to the obligee for any amounts required to be withheld. A financial institution is liable to the obligee if funds in any of the obligor's deposit accounts identified in the court order equal the amount stated in the preauthorization agreement but are not transferred by the financial institution in accordance with the agreement.

When a withholding order is in effect and the obligor's employment is terminated or the periodic payment terminates, the obligor and the obligor's employer or the payor of funds shall notify the public agency responsible for child support enforcement of the termination within ten days of the termination date. The notice shall include the obligor's home address and the name and address of the obligor's new employer or payor of funds, if known. Information disclosed under this section shall not be divulged except to the extent necessary for the administration of the child support enforcement program or when otherwise authorized by law.

(b) An employer, trustee, or other payor of funds who has been served with a notice of income withholding under subdivision 2 or section 518.613 must:

Subd. 2. ARREARAGES. Arrearages that have become a support judgment, which is final by operation of law of this state or of any other jurisdiction, shall be given full faith and credit for enforcement purposes. energy loans. Of that amount, $2,200,000 must be made available as soon as federal approval is received. The balance must be made available from money received later in the fiscal years ending June 30, 1990, and June 30, 1991.

Subd. 2a. ENERGY CONSERVATION PROJECTS. $6,000,000 of oil overcharge money, as defined in Minnesota Statutes, section 4.071, is appropriated to the commissioner of jobs and training for energy conservation projects that directly serve low-income Minnesotans. $50,000 of this appropriation must be transferred to the commissioner of administration to administer the oil overcharge funds for the fiscal year ending June 30, 1991. Of the total appropriation, $4,500,000 must be made available as soon as federal approval is received. The balance must be made available from money received later in the fiscal years ending June 30, 1990, and June 30, 1991. If the amount received by June 30, 1991, is not sufficient to fully fund all appropriations of oil overcharge money to that date, this appropriation is reduced to the amount that can be fully funded with those receipts.

Subd. 3. OTHER PROJECTS. One-half of the remainder of the money specified in subdivision 1 must be appropriated to the commissioner of jobs and training for energy conservation projects that directly serve low-income Minnesotans. The commissioner of health, in consultation with the commissioner of human services, the commissioner of state planning, and the commissioner of education, shall prepare a state plan to improve utilization rates of medically appropriate prenatal care and preventive care for children. The plan must address at least the following issues: (1) methods of addressing barriers such as the need for child care and transportation; (2) techniques for improving public awareness of the need for prenatal care and preventive care, both statewide and within high-risk target populations; and (3) strategies for overcoming cultural factors that may discourage minority populations from obtaining medically appropriate prenatal care and preventive care. To the extent possible, the commissioner shall identify methods of improving access and utilization rates that would not require a significant increase in legislative appropriations, such as reallocation of existing money, coordination and increased efficiency of existing programs, techniques for generating private contributions or federal money, and increased use of volunteers and donated services and facilities. The commissioner shall also include in the plan an analysis of the extent to which improved utilization rates, both statewide and within target populations, could result in cost savings in the medical assistance program, the general assistance medical care program, and the children's health plan. The commissioner shall present the plan to the governor and the legislature by December 15, 1990. It is the intent of the legislature to enact legislation to implement the plan during the 1991 session.

This money is available until expended by the higher education coordinating board. Subd. 2. COMPONENTS. A day-fine system adopted under this section must provide for a two-step sentencing procedure for those receiving a fine as part of a probationary felony sentence. In the first step, the court determines how many punishment points a person will receive, taking into account the severity of the offense and the criminal history of the offender. The second step is to multiply the punishment points by a factor that accounts for the offender’s financial circumstances. The goal of the system is to provide a fine that is proportional to the seriousness of the offense and largely equal in impact among offenders with different financial circumstances. The system may provide for community service in lieu of fines for offenders whose means are so limited that the payment of a fine would be unlikely.

No county shall pay a rate that is less than the minimum rate determined by the commissioner.

In developing procedures for setting minimum payment rates and procedures for establishing payment rates, the commissioner shall consider the following factors:

(3) costs that a vendor must incur to operate efficiently, effectively and economically and still provide training and habilitation services that comply with quality standards required by state and federal regulations;

In developing procedures for setting transportation rates, the commissioner may consider allowing the county board to set those rates or may consider developing a uniform standard.

Medical assistance rates for home and community-based services provided under section 256B.501 by licensed vendors of day training and habilitation services must not be greater than the rates for the same services established by counties under sections 252.40 to 252.47.

Sec. 13. [252.478] METRO TRANSPORTATION SUPPORT GRANTS.

Subdivision 1. ESTABLISHMENT OF PROGRAM. The commissioner of human services shall establish and operate a metro transportation support grants program to provide reimbursement for client transportation by metro mobility to day training and habilitation services for which client transportation is required and funded component, and to maximize use of federal funds for this reimbursement. A metro transportation support grants account shall be established in the department of human services chart of accounts.

Subd. 2. RATES. Costs of transportation to and from a day training and habilitation service agency must be a part of the payment rate established for each day training and habilitation services agency.

The commissioner may approve payment rates for day training and habilitation services that exceed the limits in Minnesota Statutes, section 252.46, subdivision 6, for vendors whose transportation costs increase as a result of action taken by the regional transit board under Laws of Minnesota 1988, chapter 684, article 2, section 3, or Laws of Minnesota 1989, chapter 269, section 35, or Minnesota Statutes, section 473.386, subdivision 4.

Subd. 3. COUNTY SHARE. The county share of the metro transportation support grants program costs will be distributed by the department to all metropolitan counties from the metro transportation support grants account. For state fiscal year 1991, the funds transferred from the regional transit board to this account shall be distributed to: Ramsey county, 48 percent; Hennepin county, 46 percent; Dakota county, five percent; and Anoka county, one percent. For subsequent fiscal years, funds shall be distributed annually based on each county's percentage of total expenses incurred for trips provided on metro mobility to and from day training and habilitation services during the preceding 12-month period. Counties should deposit these funds into the program accounts that will incur the transportation expenses.

Sec. 14. Minnesota Statutes 1989 Supplement, section 256.936, subdivision 1, is amended to read:

Subdivision 1. DEFINITIONS. For purposes of this section the following terms shall have the meanings given them:

New language is indicated by underline, deletions by strikeout.
(a) "Eligible persons" means children who are one year of age or older but less than 18 years of age who have gross family incomes that are equal to or less than 185 percent of the federal poverty guidelines and who are not eligible for medical assistance under chapter 256B or general assistance medical care under chapter 256D and who are not otherwise insured for the covered services. The period of eligibility extends from the first day of the month in which the child's first birthday occurs to the last day of the month in which the child becomes 18 years old.

(b) "Covered services" means children's health services.

(c) "Children's health services" means the health services reimbursed under chapter 256B, with the exception of inpatient hospital services, special education services, private duty nursing services, orthodontic services, medical transportation services, personal care assistant and case management services, hospice care services, nursing home or intermediate care facilities services, inpatient mental health services, outpatient mental health services in excess of $1,000 per enrolled child per 12-month eligibility period, and chemical dependency services. Outpatient mental health services covered under the children's health plan are limited to diagnostic assessments, psychological testing, explanation of findings, and individual, family, and group psychotherapy.

(d) "Eligible providers" means those health care providers who provide children's health services to medical assistance recipients under rules established by the commissioner for that program. Reimbursement under this section shall be at the same rates and conditions established for medical assistance.

(e) "Commissioner" means the commissioner of human services.

(f) "Gross family income" for farm and nonfarm self-employed means income calculated using as the baseline the adjusted gross income reported on the applicant's federal income tax form for the previous year and adding back in reported depreciation, carryover loss, and net operating loss amounts that apply to the business in which the family is currently engaged. Applicants shall report the most recent financial situation of the family if it has changed from the period of time covered by the federal income tax form. The report may be in the form of percentage increase or decrease.

Sec. 15. [256.9365] PURCHASE OF CONTINUATION COVERAGE FOR AIDS PATIENTS.

Subdivision 1. PROGRAM ESTABLISHED. The commissioner of human services shall establish a program to pay private health plan premiums for persons who have contracted human immunodeficiency virus (HIV) to enable them to continue coverage under a group or individual health plan. If a person is determined to be eligible under subdivision 2, the commissioner shall pay the eligible person's group plan continuation coverage premium for 18 months after termination of employment, or pay the eligible person's individual plan premium for 24 months after initial application.

New language is indicated by underline, deletions by strikeout.
Subd. 2. ELIGIBILITY REQUIREMENTS. To be eligible for the program, an applicant must satisfy the following requirements:

(1) the applicant must provide a physician's statement verifying that the applicant is infected with HIV and is, or within three months is likely to become, too ill to work in the applicant's current employment because of HIV-related disease;

(2) the applicant's monthly gross family income must not exceed 300 percent of the federal poverty guidelines, after deducting medical expenses and insurance premiums;

(3) the applicant must not own assets with a combined value of more than $25,000;

(4) if applying for payment of group plan premiums, the applicant must be covered by an employer's or former employer's group insurance plan and be eligible to purchase continuation coverage; and

(5) if applying for payment of individual plan premiums, the applicant must be covered by an individual health plan whose coverage and premium costs satisfy additional requirements established by the commissioner in rule.

Subd. 3. RULES. The commissioner shall establish rules as necessary to implement the program. Special requirements for the payment of individual plan premiums under subdivision 2, clause (5), must be designed to ensure that the state cost of paying an individual plan premium over a two-year period does not exceed the estimated state cost that would otherwise be incurred in the medical assistance program.

Sec. 16. Minnesota Statutes 1989 Supplement, section 256.969, subdivision 2c, is amended to read:

Subd. 2c. PROPERTY PAYMENT RATES. For each hospital's first two consecutive fiscal years beginning on or after July 1, 1988, the commissioner shall limit the annual increase in property payment rates for depreciation, rents and leases, and interest expense to the annual growth in the hospital cost index derived from the methodology in effect on the day before July 1, 1989. When computing budgeted and settlement property payment rates, the commissioner shall use the annual increase in the hospital cost index forecasted by Data Resources, Inc., consistent with the quarter of the hospital's fiscal year end. For admissions occurring on or after the rate year beginning January 1, 1991, the commissioner shall obtain property data from an updated base year and establish property payment rates per admission for each hospital. Property payment rates shall be derived from data from the same base year that is used to establish operating payment rates. The property information shall include cost categories not subject to the hospital cost index and shall reflect the cost-finding methods and allowable costs of the Medicare program in effect during the base year. The

New language is indicated by underline, deletions by strikeout.
property payment rate per admission shall be adjusted for positive percentage change differences in the net book value of hospital property and equipment by increasing the property payment rate per admission 85 percent of the percentage change from the base year through the most recent year ending prior to the rate year for which required information is available. The percentage change shall be derived from equivalent audited information in both years and shall be adjusted to account for changes in generally accepted accounting principles, reclassification of assets, allocations to nonhospital areas, and fiscal years. The cost, audit, and charge data used to establish property rates shall only reflect inpatient services covered by medical assistance and shall not include operating cost information. To be eligible for the property payment rate per admission adjustment, the hospital must provide the necessary information to the commissioner, in a format specified by the commissioner, by the October 1 preceding the rate year. The commissioner shall adjust rates for the rate year beginning January 1, 1991, to ensure that all hospitals are subject to the hospital cost index limitation for two complete years.

Sec. 17. Minnesota Statutes 1989 Supplement, section 256.969, subdivision 6a, is amended to read:

Subd. 6a. SPECIAL CONSIDERATIONS. (a) In determining the payment rates, the commissioner shall consider whether the following circumstances exist:

(1) MINIMAL MEDICAL ASSISTANCE USE. Minnesota hospitals with 30 or fewer annualized admissions of Minnesota medical assistance recipients in the base year, excluding Medicare crossover admissions, may have the base year operating rates, as adjusted by the case mix index, and property payment rates established at the 70th percentile of hospitals in the peer group in effect during the base year as established by the Minnesota department of health for use by the rate review program. Rates within a peer group shall be adjusted for differences in fiscal years and outlier percentage payments before establishing the 70th percentile. The operating payment rate portion of the 70th percentile shall be adjusted by the hospital cost index. To have rates established under this paragraph, the hospital must notify the commissioner in writing by November 1 of the year preceding the rate year. This paragraph shall be applied to all payment rates of the affected hospital.

(2) UNUSUAL COST OR LENGTH OF STAY EXPERIENCE. The commissioner shall establish day and cost outlier thresholds for each diagnostic category established under subdivision 2 at two standard deviations beyond the geometric mean length of stay or allowable cost. Payment for the days and cost beyond the outlier threshold shall be in addition to the operating and property payment rates per admission established under subdivisions 2, 2b, and 2c. Payment for outliers shall be at 70 percent of the allowable operating cost calculated by dividing the operating payment rate per admission, after adjustment by the case mix index, hospital cost index, relative values and the disproportionate population adjustment, by the arithmetic mean length of stay for the

New language is indicated by underline, deletions by strikeout.
diagnostic category. The outlier threshold for neonatal and burn diagnostic categories shall be established at one standard deviation beyond the geometric mean length of stay or allowable cost, and payment shall be at 90 percent of allowable operating cost calculated in the same manner as other outliers. A hospital may choose an alternative percentage outlier payment to a minimum of 60 percent and a maximum of 80 percent if the commissioner is notified in writing of the request by October 1 of the year preceding the rate year. The chosen percentage applies to all diagnostic categories except burns and neonates. The percentage of allowable cost that is unrecognized by the outlier payment shall be added back to the base year operating payment rate per admission. Cost outliers shall be calculated using hospital specific allowable cost data. If a stay is both a day and a cost outlier, outlier payments shall be based on the higher outlier payment.

(3) DISPROPORTIONATE NUMBERS OF LOW-INCOME PATIENTS SERVED. For admissions occurring on or after July 1, 1989, the medical assistance disproportionate population adjustment shall comply with federal law at fully implemented rates. The commissioner may establish a separate disproportionate population operating payment rate adjustment under the general assistance medical care program. For admissions occurring on or after the rate year beginning January 1, 1991, the disproportionate population adjustment shall be derived from base year Medicare cost report data and may be adjusted by data reflecting actual claims paid by the department.

(4) SEPARATE BILLING BY CERTIFIED REGISTERED NURSE ANESTHETISTS. Hospitals may exclude certified registered nurse anesthetist costs from the operating payment rate as allowed by section 256B.0625, subdivision 11. To be eligible, a hospital must notify the commissioner in writing by October 1 of the year preceding the rate year of the request to exclude certified registered nurse anesthetist costs. The hospital must agree that all hospital claims for the cost and charges of certified registered nurse anesthetist services will not be included as part of the rates for inpatient services provided during the rate year. In this case, the operating payment rate shall be adjusted to exclude the cost of certified registered nurse anesthetist services. Payments made through separate claims for certified registered nurse anesthetist services shall not be paid directly through the hospital provider number or indirectly by the certified registered nurse anesthetist to the hospital or related organizations.

(5) SPECIAL RATES. The commissioner may establish special rate-setting methodologies, including a per day operating and property payment system, for hospice, ventilator dependent, and other services on a hospital and recipient specific basis taking into consideration such variables as federal designation, program size, and admission from a medical assistance waiver or home care program. The data and rate calculation method shall conform to the requirements of paragraph (7), except that hospice rates shall not exceed the amount allowed under federal law and payment shall be secondary to any other medical assistance hospice program. Rates and payments established under this para-

New language is indicated by underline, deletions by strikeout.
(6) REHABILITATION DISTINCT PARTS. Units of hospitals that are recognized as rehabilitation distinct parts by the Medicare program shall have separate provider numbers under the medical assistance program for rate establishment and billing purposes only. These units shall also have operating and property payment rates and the disproportionate population adjustment established separately from other inpatient hospital services, based on the methods of subdivisions 2, 2b, 2c, 3, 4, 5, and 6. The commissioner may establish separate relative values under subdivision 2 for rehabilitation hospitals and distinct parts as defined by the Medicare program. For individual hospitals that did not have separate medical assistance rehabilitation provider numbers or rehabilitation distinct parts in the base year, hospitals shall provide the information needed to separate rehabilitation distinct part cost and claims data from other inpatient service data.

(7) NEONATAL TRANSFERS. For admissions occurring on or after July 1, 1989, neonatal diagnostic category transfers shall have operating and property payment rates established at receiving hospitals which have neonatal intensive care units on a per day payment system that is based on the cost finding methods and allowable costs of the Medicare program during the base year. Other neonatal diagnostic category transfers shall have rates established according to paragraph (8). The rate per day for the neonatal service setting within the hospital shall be determined by dividing base year neonatal allowable costs by neonatal patient days. The operating payment rate portion of the rate shall be adjusted by the hospital cost index and the disproportionate population adjustment. The cost and charges used to establish rates shall only reflect inpatient services covered by medical assistance. Hospital and claims data used to establish rates under this paragraph shall not be used to establish payments or relative values under subdivisions 2, 2b, 2c, 3, 4, 5, and 6.

(8) TRANSFERS. Except as provided in paragraphs (5) and (7), operating and property payment rates for admissions that result in transfers and transfers shall be established on a per day payment system. The per day payment rate shall be the sum of the adjusted operating and property payment rates determined in subdivisions 2b and 2c, divided by the arithmetic mean length of stay for the diagnostic category. Each admission that results in a transfer and each transfer is considered a separate admission to each hospital, and the total of the admission and transfer payments to each hospital must not exceed the total per admission payment that would otherwise be made to each hospital under paragraph (2) and subdivisions 2b and 2c.

New language is indicated by underline, deletions by strikeout.
(b) The computation of each hospital's payment rate and the relative values of the diagnostic categories are not subject to the routine service cost limitation imposed under the Medicare program.

(c) Indian health service facilities are exempt from the rate establishment methods required by this section and shall be reimbursed at the facility's usual and customary charges to the general public. This exemption is not effective for payments under general assistance medical care.

(d) Except as provided in paragraph (a), clauses (1) and (3), out-of-state hospitals that are located within a Minnesota local trade area shall have rates established using the same procedures and methods that apply to Minnesota hospitals. Hospitals that are not required by law to file information in a format necessary to establish rates shall have rates established based on the commissioner's estimates of the information. Relative values of the diagnostic categories shall not be redetermined under this paragraph until required by rule. Hospitals affected by this paragraph shall then be included in determining relative values. However, hospitals that have rates established based upon the commissioner's estimates of information shall not be included in determining relative values. This paragraph is effective for hospital fiscal years beginning on or after July 1, 1988. A hospital shall provide the information necessary to establish rates under this paragraph at least 90 days before the start of the hospital's fiscal year.

(e) Hospitals that are not located within Minnesota or a Minnesota local trade area shall have operating and property rates established at the average of statewide and local trade area rates or, at the commissioner's discretion, at an amount negotiated by the commissioner. Relative values shall not include data from hospitals that have rates established under this paragraph. Payments, including third party liability, established under this paragraph may not exceed the charges on a claim specific basis for inpatient services that are covered by medical assistance.

(f) Medical assistance inpatient payment rates must include the cost incurred by hospitals to pay the department of health for metabolic disorder testing of newborns who are medical assistance recipients, if the cost is not recognized by another payment source.

(g) Medical assistance inpatient payments shall increase 20 percent for inpatient hospital originally paid admissions, excluding Medicare crossovers, that occurred between July 1, 1988, and December 31, 1990, if: (i) the hospital had 100 or fewer Minnesota medical assistance annualized paid admissions, excluding Medicare crossovers, that were paid by March 1, 1988, for the period January 1, 1987, to June 30, 1987; (ii) the hospital had 100 or fewer licensed beds on March 1, 1988; (iii) the hospital is located in Minnesota; and (iv) the hospital is not located in a city of the first class as defined in section 410.01. For this paragraph, medical assistance does not include general assistance medical care.

New language is indicated by underline, deletions by strikethrough.
(h) Medical assistance inpatient payments shall increase 15 percent for inpatient hospital originally paid admissions, excluding Medicare crossovers, that occurred between July 1, 1988, and December 31, 1990, if: (i) the hospital had more than 100 but fewer than 250 Minnesota medical assistance annualized paid admissions, excluding Medicare crossovers, that were paid by March 1, 1988, for the period January 1, 1987, to June 30, 1987; (ii) the hospital had 100 or fewer licensed beds on March 1, 1988; (iii) the hospital is located in Minnesota; and (iv) the hospital is not located in a city of the first class as defined in section 410.01. For this paragraph, medical assistance does not include general assistance medical care.

(i) Admissions occurring on or after July 1, 1990, that are classified to a diagnostic category of mental health or chemical dependency shall have rates established according to the methods of paragraph (a), clause (8), except the per day rate shall be multiplied by a factor of 2, provided that the total of the per day rates shall not exceed the per admission rate. This methodology shall also apply when a hold or commitment is ordered by the court for the days that inpatient hospital services are medically necessary. Stays which are medically necessary for inpatient hospital services and covered by medical assistance shall not be billable to any other governmental entity. Medical necessity shall be determined under criteria established to meet the requirements of section 256B.04, subdivision 15, or 256D.03, subdivision 7, paragraph (b).

Sec. 18. Minnesota Statutes 1989 Supplement, section 256.9695, subdivision 1, is amended to read:

Subdivision 1. APPEALS. A hospital may appeal a decision arising from the application of standards or methods under section 256.9685, 256.9686, or 256.969, if an appeal would result in a change to the hospital's payment rate or payments. Both overpayments and underpayments that result from the submission of appeals shall be implemented. Regardless of any appeal outcome, relative values shall not be recalculated. The appeal shall be heard by an administrative law judge according to sections 14.48 to 14.56, or upon agreement by both parties, according to a modified appeals procedure established by the commissioner and the office of administrative hearings. In any proceeding under this section, the appealing party must demonstrate by a preponderance of the evidence that the commissioner's determination is incorrect or not according to law.

(a) To appeal a payment rate or payment determination or a determination made from base year information, the hospital shall file a written appeal request to the commissioner within 60 days of the date the payment rate determination was mailed. The appeal request shall specify: (i) the disputed items; (ii) the authority in federal or state statute or rule upon which the hospital relies for each disputed item; and (iii) the name and address of the person to contact regarding the appeal. A change to a payment rate or payments that results from a successful appeal to the Medicare program of the base year information estab-

lishing rates for the rate year beginning in 1991 and after is a prospective adjustment to subsequent rate years. After December 31, 1990, payment rates shall not be adjusted for appeals of base year information that affect years prior to the rate year beginning January 1, 1991. Facts to be considered in any appeal of base year information are limited to those in existence at the time the payment rates of the first rate year were established from the base year information. In the case of Medicare settled appeals, the 60-day appeal period shall begin on the mailing date of the notice by the Medicare program or the date the medical assistance payment rate determination notice is mailed, whichever is later.

(b) To appeal a payment rate or payment change that results from a difference in case mix between the base year and a rate year, the procedures and requirements of paragraph (a) apply. However, the appeal must be filed with the commissioner within 60 120 days after the end of a rate year. A case mix appeal must apply to the cost of services to all medical assistance patients that received inpatient services from the hospital during the rate year appealed. For this paragraph, hospital means a facility holding the provider number as an inpatient service facility.

Sec. 19. Minnesota Statutes 1989 Supplement, section 256.9695, subdivision 3, is amended to read:

Subd. 3. TRANSITION. Except as provided in section 256.969, subdivision 6a, paragraph (a), clause (3), the commissioner shall establish a transition period for the calculation of payment rates from July 1, 1989, to December 31, 1990, as follows the implementation date of the upgrade to the Medicaid management information system.

During the transition period:

(a) Changes resulting from section 256.969, subdivision 6a, paragraph (a), clauses (1), (2), (4), (5), (6), and (8), shall not be implemented, except as provided in section 256.969, subdivision 6a, paragraph (a), clause (7), and paragraph (i).

(b) Rates established for hospital fiscal years beginning on or after July 1, 1989, shall not be adjusted for the one percent technology factor included in the hospital cost index The beginning of the 1991 rate year shall be delayed and the rates notification requirement shall not be applicable.

(c) Operating payment rates shall be indexed from the hospital’s most recent fiscal year ending prior to January 1, 1991, by prorating the hospital cost index methodology in effect on January 1, 1989. Payments made for admissions occurring on or after July June 1, 1990, shall not include be adjusted by the one percent technology factor included in the hospital cost index and the hospital cost index shall not exceed five percent. This hospital cost index limitation shall not apply to hospitals that meet the requirements of section 256.969, subdivision 6a, paragraphs (g) and (h).

Sec. 20. [256B.035] MANAGED CARE.

The commissioner of human services may contract with public or private entities for health care services for medical assistance and general assistance medical care recipients identified by the commissioner as inappropriately using health care services. The commissioner may enter into risk-based and nonrisk-based contracts. Contracts may be for the full range of health services, or a portion thereof, for medical assistance and general assistance medical care populations to determine the effectiveness of various provider reimbursement and care delivery mechanisms. The commissioner may seek necessary federal waivers and implement projects when approval of the waivers is obtained from the Health Care Financing Administration of the United States Department of Health and Human Services.

Sec. 21. Minnesota Statutes 1988, section 256B.04, subdivision 15, is amended to read:

Subd. 15. UTILIZATION REVIEW. (1) Establish on a statewide basis a new program to safeguard against unnecessary or inappropriate use of medical assistance services, against excess payments, against unnecessary or inappropriate hospital admissions or lengths of stay, and against underutilization of services in prepaid health plans, long-term care facilities or any health care delivery system subject to fixed rate reimbursement. In implementing the program, the state agency shall utilize both prepayment and postpayment review systems to determine if utilization is reasonable and necessary. The determination of whether services are reasonable and necessary shall be made by the commissioner in consultation with a professional services advisory group or health care consultant appointed by the commissioner.

(2) Contracts entered into for purposes of meeting the requirements of this subdivision shall not be subject to the set-aside provisions of chapter 16B.

(3) A recipient aggrieved by the commissioner's termination of services or denial of future services may appeal pursuant to section 256.045. A vendor aggrieved by the commissioner's determination that services provided were not reasonable or necessary may appeal pursuant to the contested case procedures of chapter 14. To appeal, the vendor shall notify the commissioner in writing within 30 days of receiving the commissioner's notice. The appeal request shall specify each disputed item, the reason for the dispute, an estimate of the dollar amount involved for each disputed item, the computation that the vendor believes

is correct, the authority in statute or rule upon which the vendor relays for each disputed item, the name and address of the person or firm with whom contacts may be made regarding the appeal, and other information required by the commissioner.

(4) The commissioner may select providers to provide case management services to recipients who use health care services inappropriately or to recipients who are eligible for other managed care projects. The providers shall be selected based upon criteria that may include a comparison with a peer group of providers related to the quality, quantity, or cost of health care services delivered or a review of sanctions previously imposed by health care services programs or the provider's professional licensing board.

Sec. 22. Minnesota Statutes 1988, section 256B.04, subdivision 16, is amended to read:

Subd. 16. PERSONAL CARE ASSISTANTS SERVICES. (a) The commissioner shall adopt permanent rules to implement, administer, and operate the personal care assistant services program. The rules must incorporate the standards and requirements adopted by the commissioner of health under section 144A.45 which are applicable to the provision of personal care assistant program. Limits on the extent of personal care assistant services that may be provided to an individual must be based on the cost-effectiveness of the services in relation to the costs of inpatient hospital care, nursing home care, and other available types of care. The rules must provide, at a minimum:

(1) that agencies be selected to contract with or employ and train staff to provide and supervise the provision of personal care services;

(2) that agencies employ or contract with a qualified applicant that a qualified recipient proposes to the agency as the recipient's choice of assistant;

(3) that agencies bill the medical assistance program for a personal care service by a personal care assistant and visits supervision by the registered nurse supervising the personal care assistant;

(4) that agencies establish a grievance mechanism; and

(5) that agencies have a quality assurance program.

(b) For personal care assistants under contract with an agency under paragraph (a), the provision of training and supervision by the agency does not create an employment relationship. The commissioner may waive the requirement for the provision of personal care services through an agency in a particular county, when there are less than two agencies providing services in that county.

Subd. 12. DISABLED CHILDREN. (a) A person is eligible for medical assistance if the person is under age 19 and qualifies as a disabled individual under United States Code, title 42, section 1382c(a), and would be eligible for medical assistance under the state plan if residing in a medical institution, and who requires a level of care provided in a hospital, skilled nursing facility, intermediate care facility, or intermediate care facility for persons with mental retardation or related conditions, for whom home care is appropriate, provided that the cost to medical assistance for home care services is not more than the amount that medical assistance would pay for appropriate institutional care.

(b) For purposes of this subdivision, “hospital” means an acute care institution as defined in section 144.696, subdivision 3, licensed pursuant to sections 144.50 to 144.58, which is appropriate if a person is technology dependent or has a chronic health condition which requires frequent intervention by a health care professional to avoid death.

(e) For purposes of this subdivision, a person “requires a level of care provided in a hospital, skilled nursing facility, intermediate care facility, or intermediate care facility for persons with mental retardation or related conditions” if the person requires 24-hour supervision because the person exhibits suicidal or homicidal ideation or behavior, psychosomatic disorders or somatopsychic disorders that may become life threatening, severe socially unacceptable behavior associated with psychiatric disorder, psychosis or severe developmental problems requiring continuous skilled observation, or disabling symptoms that do not respond to office-centered outpatient treatment.

The homestead is also excluded for the first six calendar months of the person’s stay in the long-term care facility. The person’s equity in the homestead must be reduced to an amount within limits or excluded on another basis if the person remains in the long-term care facility for a period longer than six months. Real estate not used as a home may not be retained unless the property is not salable, the equity is $6,000 or less and the income produced by the property is at least six percent of the equity, or the excess real property is exempted for a period of nine months if there is a good faith effort to sell the property and a legally binding agreement is signed to repay the amount of assistance issued during that nine months.

(a) If either the institutionalized spouse or community spouse establishes that the community spouse asset allowance under subdivision 3 (in relation to the amount of income generated by such an allowance) is not sufficient to raise the community spouse's income to the minimum monthly maintenance needs allowance in section 256B.058, subdivision 2, paragraph (c), there shall be substituted for the amount allowed to be transferred an amount sufficient, when combined with the monthly income otherwise available to the spouse, to provide the minimum monthly maintenance needs allowance. A substitution under this paragraph may be made only if the assets of the couple have been arranged so that the maximum amount of income-producing assets, at the maximum rate of return, are available to the community spouse under the community spouse asset allowance. The maximum rate of return is the average rate of return available from the financial institution holding the asset, or a rate determined by the commissioner to be reasonable according to community standards, if the asset is not held by a financial institution.

For any uncompensated transfer, the number of months of ineligibility for long-term care services shall be the lesser of 30 months, or the uncompensated transfer amount divided by the average medical assistance rate for nursing facility services in the state in effect on the date of application. The amount used to calculate the average medical assistance payment rate shall be adjusted each July 1 to reflect payment rates for the previous calendar year. The period of ineligibility begins with the month in which the assets were transferred. If the transfer was not reported to the local agency at the time of application, and the applicant received long-term care services during what would have been the period of ineligibility if the transfer

had been reported, a cause of action exists against the transferee for the cost of long-term care services provided during the period of ineligibility, or for the uncompensated amount of the transfer, whichever is less. The action may be brought by the state or the local agency responsible for providing medical assistance under chapter 256G. The uncompensated transfer amount is the fair market value of the asset at the time it was given away, sold, or disposed of, less the amount of compensation received.

Sec. 42. Minnesota Statutes 1989 Supplement, section 256B.0595, subdivision 4, is amended to read:

Subd. 4. OTHER EXCEPTIONS TO TRANSFER PROHIBITION. An institutionalized person receiving medical assistance on the date of institutionalization who has transferred assets for less than fair market value within the 30 months immediately before the date of institutionalization or an institutionalized person who was not receiving medical assistance on the date of institutionalization and who has transferred assets for less than fair market value within 30 months immediately before the month of application who has made, or whose spouse has made a transfer prohibited by subdivision 1, is not ineligible for long-term care services if one of the following conditions apply:

(1) the assets were transferred to the community spouse, as defined in section 256B.059; or

(2) the institutionalized spouse, prior to being institutionalized, transferred assets to his or her spouse, provided that the spouse to whom the assets were transferred does not then transfer those assets to another person for less than fair market value. (At the time when one spouse is institutionalized, assets must be allocated between the spouses as provided under section 256B.059); or

(3) the assets were transferred to the individual's child who is blind or permanently and totally disabled as determined in the supplemental security income program; or

(4) a satisfactory showing is made that the individual intended to dispose of the assets either at fair market value or for other valuable consideration; or

(5) the local agency determines that denial of eligibility for long-term care services would work an undue hardship and grants a waiver for excess assets. When a waiver is granted, a cause of action exists against the person to whom the assets were transferred for that portion of long-term care services granted within 30 months of the transfer, or the amount of the uncompensated transfer, whichever is less, together with the costs incurred due to the action. The action may be brought by the state or the local agency responsible for providing medical assistance under this chapter.

Hospital outpatient departments are subject to the same limitations and reimbursements as other enrolled vendors for all services, except initial triage, emergency services, and services not provided or immediately available in clinics, physicians' offices, or by other enrolled providers. A second medical opinion is required before reimbursement for elective surgeries requiring a second opinion. The commissioner shall publish in the State Register a list of elective surgeries that require a second medical opinion before reimbursement and the criteria and standards for deciding whether an elective surgery should require a second surgical opinion. The list and the criteria and standards are not subject to the requirements of sections 14.01 to 14.69. The commissioner's decision whether a second medical opinion is required, made in accordance with rules governing that decision, is not subject to administrative appeal. "Emergency services" means those medical services required for the immediate diagnosis and treatment of medical conditions that, if not immediately diagnosed and treated, could lead to serious physical or mental disability or death or are necessary to alleviate severe pain. Neither the hospital, its employees, nor any physician or dentist, shall be liable in any action arising out of a determination not to render emergency services or care if reasonable care is exercised in determining the condition of the person, or in determining the appropriateness of the facilities, or the qualifications and availability of personnel to render these services consistent with this section.

Subd. 13. DRUGS. (a) Medical assistance covers drugs if prescribed by a licensed practitioner. The commissioner shall designate a formulary committee to advise the commissioner on the names of drugs for which payment is made, recommend a system for reimbursing providers on a set fee or charge basis rather than the present system, and develop methods encouraging use of generic drugs when they are less expensive and equally effective as trademark drugs. The commissioner shall appoint the formulary committee members no later than 30 days following July 1, 1981. The formulary committee shall consist of nine members, four of whom shall be physicians who are not employed by the department of human services, and a majority of whose practice is for persons paying privately or through health insurance, three of whom shall be pharmacists who are not employed by the department of human services, and a majority of whose practice is for persons paying privately or through health insurance, a consumer representative, and a nursing home representative. Committee members shall serve two-year terms and shall serve without compensation. The commissioner may establish a drug formulary. Its establishment and publication shall not be subject to the requirements of the administrative procedure act, but the formulary committee shall review and comment on the formulary contents. Prior authorization may be required by the commissioner, with the consent of the drug formulary committee, before certain formulary drugs are eligible for payment. The formulary shall not include: drugs or products for which there is no federal funding; over-the-counter drugs, except for antacids, acetaminophen, family planning products, aspirin, insulin, and vitamins for children under the age of seven and pregnant or nursing women; or any other over-the-counter drug identified by the commissioner, in consultation with the appropriate professional consultants under contract with or employed by the state agency, as necessary, appropriate and cost effective for the treatment of certain specified chronic diseases, conditions or disorders, and this determination shall not be subject to the requirements of chapter 14, the administrative procedure act; nutritional products, except for those products needed for treatment of phenylketonuria, hyperlysineimia, maple syrup urine disease, a combined allergy to human milk, cow milk, and soy formula, or any other childhood or adult diseases, conditions, or disorders identified by the commissioner as requiring a similarly necessary nutritional product, anorectics; and drugs for which medical value has not been established. Separate payment shall not be made for nutritional products for residents of long-term care facilities; payment for dietary requirements is a component of the per diem rate paid to these facilities. Payment to drug vendors shall not be modified before the formulary is established except that the commissioner shall not permit payment for any drugs which may not by law be included in the formulary, and the commissioner’s determination shall not be subject to chapter 14, the administrative procedure act. The commissioner shall publish conditions for prohibiting payment for specific drugs after considering the formulary committee’s recommendations.

New language is indicated by underline, deletions by strikeout.
(b) The basis for determining the amount of payment shall be the lower of the actual acquisition costs of the drugs plus a fixed dispensing fee established by the commissioner, the maximum allowable cost set by the federal government or by the commissioner plus the fixed dispensing fee or the usual and customary price charged to the public. Actual acquisition cost includes quantity and other special discounts except time and cash discounts. The actual acquisition cost of a drug may be estimated by the commissioner. The maximum allowable cost of a multisource drug may be set by the commissioner and it shall be comparable to, but no higher than, the maximum amount paid by other third party payors in this state who have maximum allowable cost programs. Establishment of the amount of payment for drugs shall not be subject to the requirements of the administrative procedure act. An additional dispensing fee of $.30 may be added to the dispensing fee paid to pharmacists for legend drug prescriptions dispensed to residents of long-term care facilities when a unit dose blister card system, approved by the department, is used. Under this type of dispensing system, the pharmacist must dispense a 30-day supply of drug. The National Drug Code (NDC) from the drug container used to fill the blister card must be identified on the claim to the department. The unit dose blister card containing the drug must meet the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return of unused drugs to the pharmacy for reuse. The pharmacy provider will be required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse. Over-the-counter medications must be dispensed in the manufacturer's unopened package. Whenever a generically equivalent product is available, payment shall be on the basis of the actual acquisition cost of the generic drug, unless the prescriber specifically indicates "dispense as written" on the prescription as required by section 151.21, subdivision 2. Implementation of any change in the fixed dispensing fee that has not been subject to the administrative procedure act is limited to not more than 180 days, unless, during that time, the commissioner initiates rulemaking through the administrative procedure act.

(b) LEVEL I HOME CARE. For all new cases after December 1987, medically necessary home care services up to $800 may be provided in a calendar month.

If the services in the recipient's home care plan will exceed the $800 threshold for 30 days or less, the medically necessary services may be provided.

(c) LEVEL II HOME CARE. If the services in the recipient's home care plan exceed $800 for more than 30 days, a public health nurse from the local preadmission screening team shall determine the recipient's maximum level of home care according to this paragraph.

(1) The public health nurse from the local preadmission screening team shall base the determination of the recipient's maximum level of care on the need and eligibility of the recipient for one of the following placements:

(i) residential facility for persons with mental retardation or related conditions operated under section 256B.501;

(ii) inpatient hospital care for a ventilator-dependent recipient. "Ventilator dependent" means an individual who receives mechanical ventilation for life support at least six hours per day and is expected to or has been dependent for at least 30 consecutive days; or

(iii) all other recipients not appropriate for one of the above placements.

(2) If the recipient is eligible under clause (1)(i), the monthly medical assistance reimbursement for home care services shall not exceed the total monthly statewide average payment rate for residential facilities for children or adults with mental retardation or related conditions as appropriate for the recipient's age and level of self-preservation as determined according to Minnesota Rules, parts 9553.0010 to 9553.0080.

(3) If the recipient is eligible under clause (1)(ii), the monthly medical assistance reimbursement for home care services shall not exceed the monthly cost of care at the highest cost hospital designated as a long-term hospital under the Medicare program. For purposes of this clause, home care services means all services provided in the home that would be included in the payment for care at the long-term hospital.

(4) If the recipient is not eligible under either clause (1)(i) or (1)(ii), the monthly medical assistance reimbursement for home care services shall not exceed the total monthly statewide average payment for the case mix classification most appropriate to the recipient. The case mix classification is established under section 256B.431.
(5) The determination of the recipient's maximum level of home care by the public health nurse is called a home care cost assessment. The home care cost assessment must be requested by the home care provider before the end of the first 30 days of provided service and must be conducted by the public health nurse within ten working days following request.

(6) A home care provider shall request a new home care cost assessment when the needs of the individual have changed enough to require that a revised care plan be implemented that will increase costs beyond what was approved by the previous home care cost assessment and the change is anticipated to last for more than 30 days. The home care provider must request the home care cost assessment before the end of the first 30 days of provided service. Whenever a home care cost assessment is completed, the public health nurse that completes the home care cost assessment, in consultation with the home care provider, shall determine the time period for which a home care cost assessment shall remain valid. If the recipient continues to require home care services beyond the limited duration of the home care cost assessment, the home care provider must request a reassessment through the home care cost assessment process described above. Under no circumstances shall a home care cost assessment be valid for more than 12 months.

(7) Reimbursement for the home care cost assessment shall be made through the Medicaid administrative authority. The state shall pay the nonfederal share.

(d) LEVEL III HOME CARE. If the home care provider determines that the recipient's needs exceed the amount approved for the appropriate level of care as determined in paragraph (c), the home care provider may refer the case to the department for a level III determination. Based on the client needs, physician orders, diagnosis, condition, and plan of care, the department may give prior approval for care that exceeds level II described in paragraph (c). The amount approved shall not exceed the maximum cost for the appropriate level of care as determined in paragraph (c), clause (1), which will be the maximum ICF/MR rate for intermediate care facilities for persons with mental retardation or related conditions, or the maximum nursing home case mix payment, or the highest hospital cost for the state.

The department has 30 days from receipt of the request to complete the level III determination, during which time it may approve the higher level while reviewing the case.

Case reviews or approval of home care services in levels II and III may result in assignment of a case manager.

(e) PRIOR APPROVAL REQUIRED IN FOSTER CARE SETTING. Any home care service provided in an adult or child foster care setting must receive prior approval by the department.

Subd. 6. RECOVERY OF EXCESSIVE PAYMENTS. The commissioner shall seek monetary recovery from providers of payments made for services which exceed the limits established in this section.
Sec. 52. [256B.0629] ADVISORY COMMITTEE ON ORGAN AND TISSUE TRANSPLANTS.

Subdivision 1. CREATION AND MEMBERSHIP. By July 1, 1990, the commissioner shall appoint and convene a 12 member advisory committee to provide advice and recommendations to the commissioner concerning the eligibility of organ and tissue transplant procedures for reimbursement by medical assistance and general assistance medical care. The committee must include representatives of the transplant provider community, hospitals, patient recipient groups or organizations, the department of human services, the department of finance, and the department of health, at least one representative of a health plan regulated under chapter 62A, 62C, or 62D, and persons with expertise in ethics, law, and economics. The terms and removal of members shall be governed by section 15.059. Members shall not receive per diems but shall be compensated for expenses. The advisory committee does not expire as provided in section 15.059, subdivision 6.

Subd. 2. FUNCTION AND OBJECTIVES. The advisory committee shall meet at least twice a year. The committee’s activities include, but are not limited to:

(1) collection of information on the efficacy and experience of various forms of transplantation not approved by medicare;

(2) collection of information from Minnesota transplant providers on available services, success rates, and the current status of transplant activity in the state;

(3) development of guidelines for determining when and under what conditions, organ and tissue transplants not approved by medicare should be eligible for reimbursement by medical assistance and general assistance medical care;

(4) providing recommendations, at least annually, to the commissioner on: (i) organ and tissue transplant procedures, beyond those approved by medicare, that should also be eligible for reimbursement under medical assistance and general assistance medical care; and (ii) which transplant centers should be eligible for reimbursement from medical assistance and general assistance medical care.

Subd. 3. ANNUAL REPORT. The advisory committee shall present an annual report to the commissioner and the chairs of the health and human services appropriations divisions of the house appropriations committee and the senate finance committee by January 1 of each year on the findings and recommendations of the committee.

Subd. 4. RESPONSIBILITIES OF THE COMMISSIONER. The commissioner shall periodically:

New language is indicated by underline, deletions by strikeout.
(1) Recommend to the legislature criteria governing the eligibility of organ and tissue transplant procedures for reimbursement from medical assistance and general assistance medical care. Procedures approved by medicare are automatically eligible for medical assistance and general assistance medical care reimbursement. Additional procedures are eligible for reimbursement only upon approval by the legislature. Only procedures recommended by the task force and the commissioner may be considered by the legislature.

(2) Recommend to the legislature criteria for certifying transplant centers within and outside of Minnesota where Minnesotans receiving medical assistance and general assistance medical care may obtain transplants. Additional centers may be certified only upon approval of the legislature. Only centers recommended by the task force and the commissioner may be considered by the legislature.

Sec. 53. [256B.0643] VENDOR REQUEST FOR CONTESTED CASE PROCEEDING.

Unless otherwise provided by law, a vendor of medical care, as defined in section 256B.02, subdivision 7, must use this procedure to request a contested case, as defined in section 14.02, subdivision 3. A request for a contested case must be filed with the commissioner in writing within 60 days after the date the notification of an action or determination was mailed. The appeal request must specify:

(1) each disputed action or item;

(2) the reason for the dispute;

(3) an estimate of the dollar amount involved, if any, for each disputed item;

(4) the computation or other disposition that the appealing party believes is correct;

(5) the authority in statute or rule upon which the appealing party relies for each disputed item;

(6) the name and address of the person or firm with whom contacts may be made regarding the appeal; and

(7) other information required by the commissioner. Nothing in this section shall be construed to create a right to an administrative appeal or contested case proceeding.

Sec. 54. Minnesota Statutes 1988, section 256B.091, subdivision 4, is amended to read:

care home admission, screening teams shall assess the needs of all applicants, except (1) patients transferred from other certified nursing homes or boarding care homes; (2) patients who, having entered acute care facilities from nursing homes or boarding care homes, are returning to a nursing home or boarding care home; (3) persons entering a facility described in section 256B.431, subdivision 4; paragraph (e) individuals who are screened by another state within three months before admission to a Minnesota nursing home; (4) individuals not eligible for medical assistance whose length of stay is expected to be 30 days or less based on a physician's certification, if the facility notifies the screening team upon admission and provides an update to the screening team on the 30th day after admission; (5) individuals who have a contractual right to have their nursing home care paid for indefinitely by the veteran's administration; or (6) persons entering a facility conducted by and for the adherents of a recognized church or religious denomination for the purpose of providing care and services for those who depend upon spiritual means, through prayer alone, for healing.

The total screening cost for each county for applicants and residents of nursing homes who request a screening must be paid monthly by nursing homes and boarding care homes participating in the medical assistance program in the county. The monthly amount to be paid by each nursing home and boarding care home for fiscal year 1991 must be determined by dividing the county's estimate of the total annual cost of screenings allowed by the commissioner in the county for the following rate year by 12 to determine the monthly cost estimate and allocating the monthly cost estimate to each nursing home and boarding care home based on the number of licensed beds in the nursing home or boarding care home. The rate allowed for a screening where two team members are present shall be the actual costs up to $195. The rate allowed for a screening where only one team member is present shall be the actual costs up to $117. The commissioner shall establish by rulemaking an annual adjustment of the state maximum screening rate. The monthly cost estimate for each nursing home or boarding care home must be submitted to the nursing home or boarding care home and the county no later than February 15 of each year for inclusion in the nursing home's or boarding care home's payment rate on the following rate year. The commissioner shall include the reported annual estimated cost of screenings for each nursing home or boarding care home as an operating cost of that nursing home in accordance with section 256B.431, subdivision 2b, clause (g). For all individuals regardless of payment source, if delay-of-screening timelines are not met because a county is late in screening an individual who meets the delay-of-screening criteria, the county is solely responsible for paying the cost of the preadmission screening. If in more than ten percent of the total number of screenings performed by a county in a fiscal year for all individuals regardless of payment source, the screening timelines were not met because a county was late in screening the individual, the county is solely responsible for paying the cost of those delayed screenings that exceed ten percent. Notwithstanding section 256B.0641, overpayments attributable to payment of the screening costs under the medical assistance program may not be recovered from a facility. Any other interested person may be

screened under this subdivision if the person pays a fee for the screening based upon a sliding fee scale determined by the commissioner.

Sec. 55. Minnesota Statutes 1988, section 256B.091, subdivision 6, is amended to read:

Subd. 6. REIMBURSEMENT. The commissioner of human services shall amend the Minnesota medical assistance plan to include reimbursement for the local screening teams. Medical assistance reimbursement shall not be provided for any recipient placed in a nursing home in opposition to the screening team's recommendation after January 1, 1981; provided, however, the commissioner shall not deny reimbursement for (1) an individual admitted to a nursing home or boarding care home who is assessed to need long-term supportive services if long-term supportive services other than nursing home care are not available in that community; (2) any eligible individual placed in the nursing home or boarding care home pending an appeal of the preadmission screening team's decision; (3) any eligible individual placed in the nursing home or boarding care home by a physician in an emergency situation and where the screening team has not made a decision within five working days of its initial contact; or (4) any medical assistance recipient when, after full discussion of all appropriate alternatives including those that are expected to be less costly than care in a nursing home or boarding care home, the individual or the individual's legal representative insists on nursing home or boarding care home placement. Medical assistance reimbursement for nursing homes shall not be provided for any recipient who the team has determined does not meet the level of care criteria for nursing home placement. The screening team shall provide documentation that the most cost effective alternatives available were offered to this individual or the individual's legal representative.

Sec. 56. Minnesota Statutes Second 1989 Supplement, section 256B.091, subdivision 8, is amended to read:

Subd. 8. ALTERNATIVE CARE GRANTS. (a) The commissioner shall provide grants funds to counties participating in the program to pay costs of providing alternative care to individuals screened under subdivision 4 and nursing home or boarding care home residents who request a screening.

(b) Prior to July of each year, the commissioner shall allocate state funds available for alternative care grants to each local agency. This allocation must be made as follows: half of the state funds available for alternative care grants must be allocated to each county according to the total number of adults in that county who are recipients age 65 or older who are reported to the department by March 1 of each state fiscal year and half of the state funds available for alternative care grants must be allocated to a county according to that county's number of Medicare enrollments age 65 or older for the most recent statistical report.

(c) For fiscal year 1991 only, the appropriation shall be distributed as specified in paragraphs (1) and (2).

New language is indicated by underline, deletions by strikeout.
(1) Sufficient state funds shall be set aside for payment for unreimbursed services provided prior to April 1, 1990, as billed by each county by June 1, 1990.

(2) The remainder of the state funds available for alternative care grants must be allocated to each county in the same proportion as each county's share of the actual payments made plus claims submitted for services rendered in the base year. The base year for each county shall be either fiscal year 1989 or calendar year 1989, whichever period contains a larger total dollar amount of payments plus claims submitted for each county. To be counted in the allocation process, claims must be submitted by June 1, 1990. This allocation will include the state share for medical assistance recipients as well as the state share for those who would be eligible within 180 days after nursing home admission. No reallocation between counties will be made. The county agency shall not be reimbursed for services which exceed the county allocation. To receive reimbursement for persons who are eligible within 180 days, the county must submit invoices within 90 days following the month of service. The number of medical assistance waiver recipients which each county may serve is allocated according to the number of open medical assistance waiver cases on July 1, 1990. Additional recipients may be served with the approval of the commissioner. Those additional recipients must be served within the county's allocation.

(d) The alternative care grant appropriation for fiscal years 1992 and beyond shall cover only individuals who would be eligible for medical assistance within 180 days after admission to a nursing home. The commissioner shall allocate state funds available for alternative care grants to each county agency. The allocation must be made as follows: the state funds available for alternative care grants, up to the amount of the previous year's allocation increased by the percentage for rates in Minnesota Rules, part 9505.2490, must be allocated to each county in the same proportion as the previous year's allocation. If the appropriation is less than the previous year's allocation plus inflation, it shall be prorated according to the county's share of the formula. Any funds appropriated in excess of the previous year's allocation plus inflation shall be allocated to county agencies by methodologies that target funds for programs designed to reduce premature nursing home placements and promote cost-effective alternatives to increasing nursing home beds and nursing home utilization. The additional allocation to counties will become part of the allocation base. The commissioner shall appoint a work group including county and senior representatives to assist in developing criteria for allocating funds which may include identifying special target populations, geographic areas, or projects. No reallocation between counties shall be made. The county agency shall not be reimbursed for services which exceed the county allocation. To receive reimbursement, the county must submit invoices within 90 days following the date of service. The number of medical assistance waiver recipients which a county may serve must be allocated according to the number of open medical assistance waiver cases on July 1 of each fiscal year. Additional recipients may be served with the approval of the commissioner.

New language is indicated by underline, deletions by strikeout.
(e) The commissioner is directed to conduct a review of the preadmission screening program and alternative care grant program including screening requirements, screening reimbursement, program effectiveness, eligibility criteria for alternative care, accessibility to services, copayment and sliding fee issues, county utilization, rates for services, the payment system, funding and forecasting issues, administrative requirements, incentives for innovation, improved consistency with the community assistance for disabled individuals program and medical assistance home care services, and the allocation formula. In conducting this review, special attention should be given to ways to increase sliding fee collections and reduce or minimize administrative and program requirements and associated county costs. The commissioner shall appoint a work group including county and senior citizen representatives to assist in the program review. The commissioner must present a report on the findings of the review and recommendations for change to the legislature by February 15, 1991.

(f) Payment is available under this subdivision only for individuals (1) for whom the screening team would recommend nursing home or boarding care home admission, or continued stay if alternative care were not available; (2) who are receiving medical assistance or who would be eligible for medical assistance within 180 days of admission to a nursing home; (3) who need services that are not available at that time in the county through other public assistance; and (4) who are age 65 or older.

(g) The commissioner shall establish by rule, in accordance with chapter 14, procedures for determining grant reallocations, limits on the rates for payment of approved services, including screenings, and submittal and approval of a biennial county plan for the administration of the preadmission screening and alternative care grants program.

(h) Grants may be used for payment of costs of providing care-related supplies, equipment, and the following services such as, but not limited to: adult foster care for elderly persons, adult day care whether or not offered through a nursing home, nutritional counseling, or medical social services; which, home health aide, homemaker, personal care, case management, and respite care. The plan shall include any services prescribed by the individual's attending physician as necessary and follow up services as necessary. The county agency shall provide documentation to the commissioner verifying that the individual's alternative care is not available at that time through any other public assistance or service program and shall provide documentation in each individual's plan of care and

The county agency shall document to the commissioner that the agency made reasonable efforts to inform potential providers of the anticipated need for services under the alternative care grants program, including a minimum of 14 days written advance notice of the opportunity to be selected as a service provider and an annual public meeting with providers to explain and review the criteria for selection, and that the agency allowed potential providers an opportunity to be selected to contract with the county board. Grants to counties under this subdivision are subject to audit by the commissioner for fiscal and utilization control.

(j) The county must select providers for contracts or agreements using the following criteria and other criteria established by the county:

(1) the need for the particular services offered by the provider;

(2) the population to be served, including the number of clients, the length of time services will be provided, and the medical condition of clients;

(3) the geographic area to be served;

(4) quality assurance methods, including appropriate licensure, certification, or standards, and supervision of employees when needed;

(5) rates for each service and unit of service exclusive of county administrative costs;

(7) contract or agreement conditions, including billing requirements, cancellation, and indemnification.

(k) The county must evaluate its own agency services under the criteria established for other providers. The county shall provide a written statement of the reasons for not selecting providers.

(l) The commissioner shall establish a sliding fee schedule for requiring payment for the cost of providing services under this subdivision to persons who are eligible for the services but who are not yet eligible for medical assistance. The sliding fee schedule is not subject to chapter 14 but the commissioner shall publish the schedule and any later changes in the State Register and allow a period of 20 working days from the publication date for interested persons to comment before adopting the sliding fee schedule in final forms.

(m) The commissioner shall apply for a waiver for federal financial participation to expand the availability of services under this subdivision. Waivered services provided to medical assistance recipients must comply with the same criteria as defined in this section and in the approved waiver. Reimbursement for the medical assistance recipients shall be made from the regular medical

assistance account. The commissioner shall provide grants to counties from the nonfederal share, unless the commissioner obtains a federal waiver for medical assistance payments, of medical assistance appropriations. A county agency may use grant money to supplement but not supplant services available through other public assistance or service programs and shall not use grant money to establish new programs for which public money is available through sources other than grants provided under this subdivision. A county agency shall not use grant money to provide care under this subdivision to an individual if the anticipated cost of providing this care would exceed the average payment, as determined by the commissioner, for the level of care that the recipient would receive if placed in a nursing home or boarding care home. The nonfederal share may be used to pay up to 90 percent of the start-up and service delivery costs of providing care under this subdivision. The state share of the nonfederal portion of costs shall be 90 percent and the county share shall be ten percent. Each county agency that receives a grant shall pay ten percent of the costs for persons who are eligible for the services but who are not yet eligible for medical assistance.

(n) Beginning July 1, 1991, the state will reimburse counties according to the payment schedule in section 256.025 for the county share of costs incurred under this subdivision from January 1, 1991, on, for individuals who are receiving medical assistance.

(o) Beginning July 1, 1991, the state will reimburse counties, up to the limit of state appropriations, according to the payment schedule in section 256.025 for the county share of costs incurred under this subdivision from January 1, 1991, on, for individuals who would be eligible for medical assistance within 180 days of admission to a nursing home.

**Subd. 1c. FISCAL LIMITATIONS.** Subdivision 1 shall not be construed as requiring expenditure of money not available to county agencies for services to persons with, or who might have, mental retardation or related conditions, except for:

(2) services identified in the person's individual service plan as services that the county will provide until the person's individual service plan is amended.

Sec. 60. Minnesota Statutes 1988, section 256B.092, is amended by adding a subdivision to read:

**Subd. 1d. COUNTY REQUIREMENTS.** Before a county denies, reduces, or terminates a service to an individual due to fiscal limitations, the county agency must show that money is not available for services to persons with mental retardation or related conditions, and that good faith efforts have been made to identify needs and obtain available funds. The county agency must show this by documenting that the following actions have been taken:

(1) the county case manager has identified the person's service needs and the actions that will be taken to develop or obtain those services in the person's individual service plan and action that will be taken to prevent abuse or neglect as defined in sections 626.556, subdivision 2, paragraphs (a), (c), and (d), and 626.557, subdivision 2, paragraphs (d) and (e);

Sec. 62. Minnesota Statutes 1989 Supplement, section 256B.14, is amended to read:

256B.14 RELATIVE'S RESPONSIBILITY.

Subdivision 1. IN GENERAL. Subject to the provisions of sections 256B.055, 256B.056, and 256B.06, responsible relative means the parent of a minor recipient of medical assistance or the spouse of a medical assistance recipient.

Subd. 2. ACTIONS TO OBTAIN PAYMENT. The state agency shall promulgate rules to determine the ability of responsible relatives to contribute partial or complete payment or repayment of medical assistance furnished to recipients for whom they are responsible. These rules shall not require payment or repayment when payment would cause undue hardship to the responsible relative or that relative's immediate family. These rules shall be consistent with the requirements of section 252.27; subdivision 2; for parents of children whose eligibility for medical assistance was determined without deeming of the parents' resources and income. For parents of children receiving services under a federal medical assistance waiver or under section 134 of the Tax Equity and Fiscal Responsibility Act of 1982, United States Code, title 42, section 1396a(e)(3), while living in their natural home, including in-home family support services, respite care, homemaker services, and minor adaptations to the home, the state agency shall take into account the room, board, and services provided by the parents in determining the parental contribution to the cost of care. The county agency shall give the responsible relative notice of the amount of the payment or repayment. If the state agency or county agency finds that notice of the payment obligation was given to the responsible relative, but that the relative failed or refused to pay, a cause of action exists against the responsible relative for that portion of medical assistance granted after notice was given to the responsible relative, which the relative was determined to be able to pay.

The action may be brought by the state agency or the county agency in the county where assistance was granted, for the assistance, together with the costs of disbursements incurred due to the action.

In addition to granting the county or state agency a money judgment, the court may, upon a motion or order to show cause, order continuing contributions by a responsible relative found able to repay the county or state agency. The order shall be effective only for the period of time during which the recipient receives medical assistance from the county or state agency.

Subd. 4. APPEALS. A responsible relative may appeal the determination of an obligation to make a contribution under this section, according to section 256.045.

Sec. 63. Minnesota Statutes 1988, section 256B.15, is amended to read:

256B.15 CLAIMS AGAINST ESTATES.

Subdivision 1. ESTATES SUBJECT TO CLAIMS. If a person receives any medical assistance hereunder, on the person’s death, if single, or on the death of the survivor of a married couple, either or both of whom received medical assistance, and only when there is no surviving child who is under 21 or is blind or totally disabled, the total amount paid for medical assistance rendered for the person and spouse, after age 65, without interest, shall be filed as a claim against the estate of the person or the estate of the surviving spouse in the court having jurisdiction to probate the estate.

A claim against the estate of a surviving spouse who did not receive medical assistance, for medical assistance rendered for the deceased spouse, is limited to the value of the assets of the estate that were marital property or jointly-owned property at any time during the marriage. A claim shall be filed if medical assistance was rendered for either or both persons under one of the following circumstances:

(a) the person was over 65 years of age; or

(b) the person resided in a medical institution for six months or longer and, at the time of institutionalization or application for medical assistance, whichever is later, the person could not have reasonably been expected to be discharged and returned home, as certified in writing by the person’s treating physician. For purposes of this section only, a “medical institution” means a skilled nursing facility, intermediate care facility, intermediate care facility for persons with mental retardation, nursing facility, or inpatient hospital.

The claim shall be considered an expense of the last illness of the decedent for the purpose of section 524.3-805. Any statute of limitations that purports to limit any county agency or the state agency, or both, to recover for medical assistance granted hereunder shall not apply to any claim made hereunder for reimbursement for any medical assistance granted hereunder. Counties are entitled to one-half of the nonfederal share of medical assistance collections from estates that are directly attributable to county effort.

New language is indicated by underline, deletions by strikeout.
Subd. 2. LIMITATIONS ON CLAIMS. The claim shall include only the
total amount of medical assistance rendered after age 65 or during a period of
institutionalization described in subdivision 1, clause (b), and shall not include
interest. A claim against the estate of a surviving spouse who did not receive
medical assistance, for medical assistance rendered for the predeceased spouse,
is limited to the value of the assets of the estate that were marital property or
jointly owned property at any time during the marriage.

Subd. 3. MINOR, BLIND, OR DISABLED CHILDREN. If a decedent
who was single, or who was the surviving spouse of a married couple, is survived
by a child who is under age 21 or blind or permanently and totally disabled
according to the supplemental security income program criteria, no claim shall
be filed against the estate.

Subd. 4. OTHER SURVIVORS. If the decedent who was single or the
surviving spouse of a married couple is survived by one of the following persons,
a claim exists against the estate in an amount not to exceed the value of the
nonhomestead property included in the estate:

home at least one year before the decedent's institutionalization and continu-
ously since the date of institutionalization; or

(b) a son or daughter or, subject to federal approval, a grandchild, who
resided in the decedent medical assistance recipient's home for at least two years
immediately before the parent's institutionalization and continuously since the
date of institutionalization, and who establishes by a preponderance of the
evidence that he or she provided care to the parent or grandparent who received
medical assistance, the care was provided before institutionalization, and the
care permitted the parent to reside at home rather than in an institution.

Sec. 64. Minnesota Statutes 1988, section 256B.19, is amended by adding
a subdivision to read:

Subd. 2b. PILOT PROJECT REIMBURSEMENT. In counties where a
pilot or demonstration project is operated under the medical assistance program,
the state may pay 100 percent of the administrative costs for the pilot or
demonstration project after June 30, 1990. Reimbursement for these costs is
subject to section 256.025.

Sec. 65. Minnesota Statutes 1989 Supplement, section 256B.431, subdivi-
sion 2b, is amended to read:

Subd. 2b. OPERATING COSTS, AFTER JULY 1, 1985. (a) For rate years
beginning on or after July 1, 1985, the commissioner shall establish procedures
for determining per diem reimbursement for operating costs.

(b) The commissioner shall contract with an econometric firm with recog-

nized expertise in and access to national economic change indices that can be applied to the appropriate cost categories when determining the operating cost payment rate.

(c) The commissioner shall analyze and evaluate each nursing home's cost report of allowable operating costs incurred by the nursing home during the reporting year immediately preceding the rate year for which the payment rate becomes effective.

(d) The commissioner shall establish limits on actual allowable historical operating cost per diems based on cost reports of allowable operating costs for the reporting year that begins October 1, 1983, taking into consideration relevant factors including resident needs, geographic location, size of the nursing home, and the costs that must be incurred for the care of residents in an efficiently and economically operated nursing home. In developing the geographic groups for purposes of reimbursement under this section, the commissioner shall ensure that nursing homes in any county contiguous to the Minneapolis-St. Paul seven-county metropolitan area are included in the same geographic group. The limits established by the commissioner shall not be less, in the aggregate, than the 60th percentile of total actual allowable historical operating cost per diems for each group of nursing homes established under subdivision 1 based on cost reports of allowable operating costs in the previous reporting year. For rate years beginning on or after July 1, 1987, or until the new base period is established 1989, facilities located in geographic group I as described in Minnesota Rules, part 9549.0052 (Emergency), on January 1, 1987 1989, may choose to have the commissioner apply either the care related limits or the other operating cost limits calculated for facilities located in geographic group II, or both, if either of the limits calculated for the group II facilities is higher. The efficiency incentive for geographic group I nursing homes must be calculated based on geographic group I limits. The phase-in must be established utilizing the chosen limits. For purposes of these exceptions to the geographic grouping requirements, the definitions in Minnesota Rules, parts 9549.0050 to 9549.0059 (Emergency), and 9549.0010 to 9549.0080, apply. The limits established under this paragraph remain in effect until the commissioner establishes a new base period. Until the new base period is established, the commissioner shall adjust the limits annually using the appropriate economic change indices established in paragraph (e). In determining allowable historical operating cost per diems for purposes of setting limits and nursing home payment rates, the commissioner shall divide the allowable historical operating costs by the actual number of resident days, except that where a nursing home is occupied at less than 90 percent of licensed capacity days, the commissioner may establish procedures to adjust the computation of the per diem to an imputed occupancy level at or below 90 percent. The commissioner shall establish efficiency incentives as appropriate. The commissioner may establish efficiency incentives for different operating cost categories. The commissioner shall consider establishing efficiency incentives in care related cost categories. The commissioner may combine one or more operating cost categories and may use different methods for calculating

payment rates for each operating cost category or combination of operating cost categories. For the rate year beginning on July 1, 1985, the commissioner shall:

(1) allow nursing homes that have an average length of stay of 180 days or less in their skilled nursing level of care, 125 percent of the care related limit and 105 percent of the other operating cost limit established by rule; and

(2) exempt nursing homes licensed on July 1, 1983, by the commissioner to provide residential services for the physically handicapped under Minnesota Rules, parts 9570.2000 to 9570.3600, from the care related limits and allow 105 percent of the other operating cost limit established by rule.

For the purpose of calculating the other operating cost efficiency incentive for nursing homes referred to in clause (1) or (2), the commissioner shall use the other operating cost limit established by rule before application of the 105 percent.

(e) The commissioner shall establish a composite index or indices by determining the appropriate economic change indicators to be applied to specific operating cost categories or combination of operating cost categories.

(f) Each nursing home shall receive an operating cost payment rate equal to the sum of the nursing home’s operating cost payment rates for each operating cost category. The operating cost payment rate for an operating cost category shall be the lesser of the nursing home’s historical operating cost in the category increased by the appropriate index established in paragraph (e) for the operating cost category plus an efficiency incentive established pursuant to paragraph (d) or the limit for the operating cost category increased by the same index. If a nursing home’s actual historic operating costs are greater than the prospective payment rate for that rate year, there shall be no retroactive cost settle-up. In establishing payment rates for one or more operating cost categories, the commissioner may establish separate rates for different classes of residents based on their relative care needs.

(g) The commissioner shall include the reported actual real estate tax liability or payments in lieu of real estate tax of each nursing home as an operating cost of that nursing home. Allowable costs under this subdivision for payments made by a nonprofit nursing home that are in lieu of real estate taxes shall not exceed the amount which the nursing home would have paid to a city or township and county for fire, police, sanitation services, and road maintenance costs had real estate taxes been levied on that property for those purposes. For rate years beginning on or after July 1, 1987, the reported actual real estate tax liability or payments in lieu of real estate tax of nursing homes shall be adjusted to include an amount equal to one-half of the dollar change in real estate taxes from the prior year. The commissioner shall include a reported actual special assessment, and reported actual license fees required by the Minnesota department of health, for each nursing home as an operating cost of that nursing home. For rate years beginning on or after July 1, 1989, the commissioner shall include

a nursing home's reported public employee retirement act contribution for the reporting year as apportioned to the care-related operating cost categories and other operating cost categories multiplied by the appropriate composite index or indices established pursuant to paragraph (e) as costs under this paragraph. Total adjusted real estate tax liability, payments in lieu of real estate tax, actual special assessments paid, the indexed public employee retirement act contribution, and license fees paid as required by the Minnesota department of health, for each nursing home (1) shall be divided by actual resident days in order to compute the operating cost payment rate for this operating cost category, (2) shall not be used to compute the care-related operating cost limits or other operating cost limits established by the commissioner, and (3) shall not be increased by the composite index or indices established pursuant to paragraph (e), unless otherwise indicated in this paragraph.

(h) For rate years beginning on or after July 1, 1987, the commissioner shall adjust the rates of a nursing home that meets the criteria for the special dietary needs of its residents as specified in section 144A.071, subdivision 3, clause (c), and the requirements in section 31.651. The adjustment for raw food cost shall be the difference between the nursing home's allowable historical raw food cost per diem and 115 percent of the median historical allowable raw food cost per diem of the corresponding geographic group.

The rate adjustment shall be reduced by the applicable phase-in percentage as provided under subdivision 2h.

Sec. 66. Minnesota Statutes 1988, section 256B.431, is amended by adding a subdivision to read:

Subd. 21. INFLATION ADJUSTMENTS AFTER JULY 1, 1990. For rate years beginning on or after July 1, 1990, the forecasted composite price index for a nursing home's allowable operating cost per diems shall be determined using Data Resources, Inc., forecast for change in the Nursing Home Market Basket. The commissioner of human services shall use the indices as forecasted by Data Resources, Inc., in the fourth quarter of the calendar year preceding the rate year.

Sec. 67. Minnesota Statutes 1988, section 256B.431, subdivision 3e, is amended to read:

Subd. 3e. HOSPITAL-ATTACHED CONVALESCENT AND NURSING CARE FACILITIES. If a nonprofit or community-operated hospital and attached convalescent and nursing care facility suspend operation of the hospital, the surviving nursing care facility must be allowed to continue its status as a hospital-attached convalescent and nursing care facility for reimbursement purposes in three subsequent rate years.

Sec. 68. Minnesota Statutes 1988, section 256B.431, is amended by adding a subdivision to read:

New language is indicated by underline, deletions by strikeout.
Subd. 3h. SPECIAL PROPERTY RATE. Notwithstanding contrary provisions of chapter 256B or rules adopted under it, for rate years beginning July 1, 1990, a nursing home under lease from 1968 until 1983 with a lessee or related party having an option to purchase the nursing home, which option was subsequently exercised, shall be allowed debt and interest costs incurred by the lessee or related party on indebtedness created when the option to purchase was exercised before the end of the 1983 calendar year. The nursing home must demonstrate to the commissioner's satisfaction that the interest rate on the debt was less than market interest rates for similar arms-length transactions at the time the debt was incurred.

Sec. 69. Minnesota Statutes 1988, section 256B.431, is amended by adding a subdivision to read:

Subd. 3i. PROPERTY COSTS FOR THE RATE YEAR BEGINNING JULY 1, 1990. Notwithstanding Minnesota Rules, part 9549.0060, subpart 13, item H, the commissioner shall determine property-related payment rates for nursing homes for the rate year beginning July 1, 1990, as follows:

(a) The property-related payment rate for a nursing home that qualifies under subdivision 3g is the greater of the rate determined under that subdivision or the rate determined under paragraph (c), (d), or (e), whichever is applicable.

(b) Nursing homes shall be grouped according to the type of property-related payment rate the commissioner determined for the rate year beginning July 1, 1989. A nursing home whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item A (full rental reimbursement), shall be considered group A. A nursing home whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item B (phase-down to full rental reimbursement), shall be considered group B. A nursing home whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item C or D (phase-up to full rental reimbursement), shall be considered group C.

(c) For the rate year beginning July 1, 1990, a group A nursing home shall receive its property-related payment rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(d) For the rate year beginning July 1, 1990, a Group B nursing home shall receive the greater of 87 percent of the property-related payment rate in effect on July 1, 1989; or the rental per diem rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section in effect on July 1, 1990; or the sum of 100 percent of the nursing home's allowable principal and interest expense, plus its equipment allowance multiplied by the resident days for the reporting year ending September 30, 1989, divided by the nursing home's capacity days as determined under Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (e); except that the nursing home's property-related payment rate must not exceed its property-related payment rate in effect on July 1, 1989.

New language is indicated by underline, deletions by strikeout.
(e) For the rate year beginning July 1, 1990, a group C nursing home shall receive its property-related payment rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section, except the rate must not exceed the lesser of its property-related payment rate determined for the rate year beginning July 1, 1989, multiplied by 116 percent or its rental per diem rate determined effective July 1, 1990.

(f) The property-related payment rate for a nursing home that qualifies for a rate adjustment under Minnesota Rules, part 9549.0060, subpart 13, item G (special reappraisals), shall have the property-related payment rate determined in paragraphs (a) to (e) adjusted according to the provisions in that rule.

(g) Except as provided in subdivision 4, paragraph (f), and subdivision 11, a nursing home that has a change in ownership or a reorganization of provider entity is subject to the provisions of Minnesota Rules, part 9549.0060, subpart 13, item F.

Sec. 70. Minnesota Statutes 1988, section 256B.431, is amended by adding a subdivision to read:

Subd. 3i. PROPERTY RATE ADJUSTMENT FOR REQUIRED IMPROVEMENTS. The commissioner shall add an adjustment to the property-related payment rate of a certified, freestanding boarding care home reflecting the costs incurred by that nursing home to install a communications system in every room and hallway handrails, as required under the 1987 federal Omnibus Budget Reconciliation Act, Public Law Number 100-203. The property-related payment rate increase is only available if, and to the extent that, the nursing home's existing property-related payment rate, minus the nursing home's allowable principal and interest costs and equipment allowance, is not sufficient to cover the costs of the required improvements. Each nursing home eligible for the adjustment shall submit to the commissioner a detailed estimate of the cost increases the facility will incur to meet the new physical plant requirements. Ten percent of the amount of the costs that are determined by the commissioner to be reasonable for the nursing home to meet the new requirements, divided by resident days, must be added to the nursing home's property-related payment rate. The adjustment shall be added to the property-related payment rate determined under subdivision 3i. The resulting recalculated property-related payment rate is effective October 1, 1990, or 60 days after a nursing home submits its detailed cost estimate, whichever occurs later.

The adjustment is only available to a certified, freestanding boarding care home that cannot meet the requirements of Public Law Number 100-203 for communications systems and handrails as demonstrated to the satisfaction of the commissioner of health. When the commissioner of human services establishes that it is not cost-effective to upgrade an eligible certified, freestanding boarding care home to the new standards, the commissioner of human services may exclude the certified freestanding boarding care home if it is either an institution for mental disease or a certified, freestanding boarding care home

that would have been determined to be an institution for mental disease but for the fact that it has 16 or fewer licensed beds.

Sec. 71. Minnesota Statutes 1989 Supplement, section 256B.431, subdivision 7, is amended to read:

Subd. 7. ONE-TIME ADJUSTMENT TO NURSING HOME PAYMENT RATES TO COMPLY WITH OMNIBUS BUDGET RECONCILIATION ACT. The commissioner shall determine a one-time nursing staff adjustment to the payment rate to adjust payment rates to upgrade certain nursing homes' professional nursing staff complement to meet the minimum standards of 1987 Public Law Number 100-203. The adjustments to the payment rates determined under this subdivision cover cost increases to meet minimum standards for professional nursing staff. For a nursing home to be eligible for the payment rate adjustment, a nursing home must have all of its current licensed beds certified solely for the intermediate level of care. When the commissioner establishes that it is not cost effective to upgrade an eligible nursing home to the new minimum staff standards, the commissioner may exclude the nursing home if it is either an institution for mental disease or a nursing home that would have been determined to be an institution for mental disease, but for the fact that it has 16 or fewer licensed beds.

(a) The increased cost of professional nursing for an eligible nursing home shall be determined according to clauses (1) to (4):

(1) subtract from the number 8760 the compensated hours for professional nurses, both employed and contracted, and, if the result is greater than zero, then multiply the result by $4.55;

(2) subtract from the number 2920 the compensated hours for registered nurses, both employed and contracted, and, if the result is greater than zero, then multiply the result by $9.30;

(3) if an eligible nursing home has less than 61 licensed beds, the director of nurses' compensated hours must be included in the compensated hours for professional nurses in clause (1). If the director of nurses is also a registered nurse, the director of nurses' hours must be included in the compensated hours for registered nurses in clause (2); and

(4) the one-time nursing staff adjustment to the payment rate shall be the sum of clauses (1) and (2) as adjusted by clause (3), if appropriate, and then divided by the nursing home's actual resident days for the reporting year ending September 30, 1988.

(b) The one-time nursing staff adjustment to the payment rate is effective from January 1, 1990, to June 30, 1991.

(c) If a nursing home is granted a waiver to the minimum professional

nursing staff standards under Public Law Number 100-203 for either the professional nurse adjustment referred to in clause (1), or the registered nurse adjustment in clause (2), the commissioner must recover the portion of the nursing home's payment rate that relates to a one-time nursing staff adjustment granted under this subdivision. The amount to be recovered shall be based on the type and extent of the waiver granted.

(d) Notwithstanding the provisions of paragraph (a), clause (3), if an eligible nursing home has less than 61 licensed beds, the director of nurses' compensated hours must be excluded from the computation of compensated hours for professional nurses and registered nurses in paragraph (a), clauses (1) and (2). The commissioner shall recompute the one-time nursing staff adjustment to the payment rate using the data from the cost report for the reporting year ending September 30, 1989, and the adjustment computed under this paragraph shall replace the adjustment previously computed under this subdivision effective October 1, 1990, and shall be effective for the period October 1, 1990, to June 30, 1992.

Sec. 72. Minnesota Statutes 1988, section 256B.431, is amended by adding a subdivision to read:

Subd. 11. SPECIAL PROPERTY RATE SETTING PROCEDURES FOR CERTAIN NURSING HOMES. Notwithstanding Minnesota Rules, part 9549.0060, subpart 13, item H, to the contrary, for the rate year beginning July 1, 1990, a nursing home leased prior to January 1, 1986, and currently subject to adverse licensure action under section 144A.04, subdivision 4, paragraph (a), or section 144A.11, subdivision 2, and whose ownership changes prior to July 1, 1990, shall be allowed a property-related payment equal to the lesser of its current lease obligation divided by its capacity days as determined in Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (c), or the frozen property-related payment rate in effect for the rate year beginning July 1, 1989. For rate years beginning on or after July 1, 1991, the property-related payment rate shall be its rental rate computed using the previous owner's allowable principal and interest expense as allowed by the department prior to that prior owner's sale and lease-back transaction of December 1985.

Sec. 73. [256B.432] LONG-TERM CARE FACILITIES; CENTRAL, AFFILIATED, OR CORPORATE OFFICE COSTS.

Subdivision 1. DEFINITIONS. For purposes of this section, the following terms have the meanings given them.

includes the authority to hire or terminate employees or to provide an employee
of the central, affiliated, or corporate office to serve as administrator of the
long-term care facility:

(2) the central, affiliated, or corporate office performs or is authorized to
perform two or more of the following: the execution of contracts; authorization
of purchase orders; signature authority for checks, notes, or other finan-
cial instruments; requiring the long-term care facility to use the group or volume
purchasing services of the central, affiliated, or corporate office; or the authority
to make annual capital expenditures for the long-term care facility exceeding
$50,000, or $500 per licensed bed, whichever is less, without first securing the
approval of the long-term care facility board of directors;

(3) the central, affiliated, or corporate office becomes or is required to
become the licensee under applicable state law;

(4) the agreement provides that the compensation for services provided
under the agreement is directly related to any profits made by the long-term care
facility; or

(5) the long-term care facility entering into the agreement is governed by a
governing body that meets fewer than four times a year, that does not publish
notice of its meetings, or that does not keep formal records of its proceedings.

(b) "Consulting agreement" means any agreement the purpose of which is
for a central, affiliated, or corporate office to advise, counsel, recommend, or
suggest to the owner or operator of the nonrelated long-term care facility mea-

(c) "Long-term care facility" means a nursing home whose medical assis-
tance rates are determined according to section 256B.431 or an intermediate care
facility for persons with mental retardation and related conditions whose medi-
cal assistance rates are determined according to section 256B.501.

Subd. 2. EFFECTIVE DATE. For rate years beginning on or after July 1,
1990, the central, affiliated, or corporate office cost allocations in subdivisions 3
to 6 must be used when determining medical assistance rates under sections
256B.431 and 256B.501.

Subd. 3. ALLOCATION; DIRECT IDENTIFICATION OF COSTS OF
LONG-TERM CARE FACILITIES; MANAGEMENT AGREEMENT. All costs
that can be directly identified with a specific long-term care facility that is a
related organization to the central, affiliated, or corporate office, or that is con-
trolled by the central, affiliated, or corporate office under a management agree-
ment, must be allocated to that long-term care facility.

New language is indicated by underline, deletions by strikeout.
Subd. 4. ALLOCATION; DIRECT IDENTIFICATION OF COSTS TO OTHER ACTIVITIES. All costs that can be directly identified with any other activity or function not described in subdivision 3 must be allocated to that activity or function.

Subd. 5. ALLOCATION OF REMAINING COSTS; ALLOCATION RATIO. (a) After the costs that can be directly identified according to subdivisions 3 and 4 have been allocated, the remaining central, affiliated, or corporate office costs must be allocated between the long-term care facility operations and the other activities or facilities unrelated to the long-term care facility operations based on the ratio of expenses.

(b) For purposes of allocating these remaining central, affiliated, or corporate office costs, the numerator for the allocation ratio shall be determined as follows:

(1) for long-term care facilities that are related organizations or are controlled by a central, affiliated, or corporate office under a management agreement, the numerator of the allocation ratio shall be equal to the sum of the total costs incurred by each related organization or controlled long-term care facility;

(2) for a central, affiliated, or corporate office providing goods or services to related organizations that are not long-term care facilities, the numerator of the allocation ratio shall be equal to the sum of the total costs incurred by the non-long-term care related organizations;

(3) for a central, affiliated, or corporate office providing goods or services to unrelated long-term care facilities under a consulting agreement, the numerator of the allocation ratio shall be equal to the greater of directly identified central, affiliated, or corporate costs or the contracted amount; or

(4) for business activities that involve the providing of goods or services to unrelated parties which are not long-term care facilities, the numerator of the allocation ratio shall be equal to the greater of directly identified costs or revenues generated by the activity or function.

(c) The denominator for the allocation ratio is the sum of the numerators in paragraph (b), clauses (1) to (4).

Subd. 6. COST ALLOCATION BETWEEN LONG-TERM CARE FACILITIES. (a) Those long-term care operations that have long-term care facilities both in Minnesota and outside of Minnesota must allocate the long-term care operation’s central, affiliated, or corporate office costs identified in subdivision 5 to Minnesota based on the ratio of total resident days in Minnesota long-term care facilities to the total resident days in all facilities.

(b) The Minnesota long-term care operation’s central, affiliated, or corporate office costs identified in paragraph (a) must be allocated to each Minnesota long-term care facility on the basis of resident days.

Sec. 74. Minnesota Statutes 1988, section 256B.48, is amended by adding a subdivision to read:

Subd. 1c. CASE MIX RATE FOR PROVIDER WITH ADDENDUM TO PROVIDER AGREEMENT. A nursing home with an addendum to its provider agreement effective beginning July 1, 1983, or September 24, 1985, shall have its payment rates established by the commissioner under this subdivision. To save medical assistance resources, for rate years beginning after July 1, 1991, the provider's payment rates shall be the payment rates established by the commissioner July 1, 1990, multiplied by a 12-month inflation factor based on the forecasted inflation between the mid-points of rate years using the inflation index applied by the commissioner to other nursing homes.

The provider and the department of health shall complete case mix assessments under Minnesota Rules, chapter 4656, and parts 9549.0038 and 9549.0059, on only those residents receiving medical assistance. The commissioner of health may audit and verify the limited provider assessments at any time.

Sec. 75. Minnesota Statutes 1988, section 256B.48, subdivision 2, is amended to read:

Subd. 2. REPORTING REQUIREMENTS. No later than December 31 of each year, a skilled nursing facility or intermediate care facility, including boarding care facilities, which receives medical assistance payments or other reimbursements from the state agency shall:

(a) Provide the state agency with a copy of its audited financial statements. The audited financial statements must include a balance sheet, income statement, statement of the rate or rates charged to private paying residents, statement of retained earnings, statements of changes in financial position (cash and working capital methods) statement of cash flows, notes to the financial statements, audited applicable supplemental information, and the certified public accountant's or licensed public accountant's opinion. The examination by the certified public accountant or licensed public accountant shall be conducted in accordance with generally accepted auditing standards as promulgated and adopted by the American Institute of Certified Public Accountants;

(b) Provide the state agency with a statement of ownership for the facility;

(c) Provide the state agency with separate, audited financial statements as specified in clause (a) for every other facility owned in whole or part by an individual or entity which has an ownership interest in the facility;

(d) Upon request, provide the state agency with separate, audited financial statements as specified in clause (a) for every organization with which the facility conducts business and which is owned in whole or in part by an individual or entity which has an ownership interest in the facility;

New language is indicated by underline, deletions by strikeout.
(e) Provide the state agency with copies of leases, purchase agreements, and other documents related to the lease or purchase of the nursing facility;

(f) Upon request, provide the state agency with copies of leases, purchase agreements, and other documents related to the acquisition of equipment, goods, and services which are claimed as allowable costs; and

(g) Permit access by the state agency to the certified public accountant’s and licensed public accountant’s audit workpapers which support the audited financial statements required in clauses (a), (c), and (d).

Documents or information provided to the state agency pursuant to this subdivision shall be public. If the requirements of clauses (a) to (g) are not met, the reimbursement rate may be reduced to 80 percent of the rate in effect on the first day of the fourth calendar month after the close of the reporting year, and the reduction shall continue until the requirements are met.

Sec. 76. Minnesota Statutes 1988, section 256B.49, is amended by adding a subdivision to read:

Subd. 3. CONTINUED SERVICES FOR PERSONS OVER AGE 65. Persons who are found eligible for services under this section before their 65th birthday may remain eligible for these services after their 65th birthday if they meet all other eligibility factors.

Sec. 77. Minnesota Statutes 1989 Supplement, section 256B.495, subdivision 1, is amended to read:

Subdivision 1. PAYMENT OF RECEIVERSHIP FEES. The commissioner in consultation with the commissioner of health may establish a receivership fee payment that exceeds a long-term care facility payment rate when the commissioner of health determines a long-term care facility is subject to the receivership provisions under section 144A.14 or 144A.15 or the commissioner of human services determines that a facility is subject to the receivership under section 245A.12 or 245A.13. In establishing the receivership fee payment, the commissioner must reduce the receiver’s requested receivership fee by amounts that the commissioner determines are included in the long-term care facility’s payment rate and that can be used to cover part or all of the receivership fee. Amounts that can be used to reduce the receivership fee shall be determined by reallocating facility staff or costs that were formerly paid by the long-term care facility before the receivership and are no longer required to be paid. The amounts may include any efficiency incentive, allowance, and other amounts not specifically required to be paid for expenditures of the long-term care facility.

If the receivership fee cannot be covered by amounts in the long-term care facility’s payment rate, a receivership fee payment shall be set according to paragraphs (a) and (b) and payment shall be according to paragraphs (c) to (e).
(a) The receivership fee per diem shall be determined by dividing the annual receivership fee payment by the long-term care facility's resident days from the most recent cost report for which the commissioner has established a payment rate or the estimated resident days in the projected receivership fee period.

(b) The receivership fee per diem shall be added to the long-term care facility's payment rate.

(c) Notification of the payment rate increase must meet the requirements of section 256B.47, subdivision 2.

(d) The payment rate in paragraph (b) for a nursing home shall be effective the first day of the month following the receiver's compliance with the notice conditions in paragraph (c). The payment rate in paragraph (b) for an intermediate care facility for the mentally retarded shall be effective on the first day of the rate year in which the receivership fee per diem is determined.

(e) The commissioner may elect to make a lump sum payment of a portion of the receivership fee to the receiver or managing agent. In this case, the commissioner and the receiver or managing agent shall agree to a repayment plan. Regardless of whether the commissioner makes a lump sum payment under this paragraph, the provisions of paragraphs (a) to (d) and subdivision 2 also apply.

Sec. 78. Minnesota Statutes 1988, section 256B.50, subdivision 1, is amended to read:

Subdivision 1. SCOPE. A provider may appeal from a determination of a payment rate established pursuant to this chapter and reimbursement rules of the commissioner if the appeal, if successful, would result in a change to the provider's payment rate or to the calculation of maximum charges to therapy vendors as provided by section 256B.433, subdivision 3. Appeals must be filed in accordance with procedures in this section. This section does not apply to a request from a resident or nursing home for reconsideration of the classification of a resident under section 144.0722.

The notice of appeal must specify each disputed item; the reason for the dispute; the total dollar amount and the dollar amount per bed in dispute for each separate disallowance, allocation, or adjustment of each cost item or part of a cost item; the computation that the provider believes is correct; the authority in statute or rule upon which the provider relies for each disputed item; the name and address of the person or firm with whom contacts may be

Sec. 80. Minnesota Statutes 1988, section 256B.501, subdivision 3c, is amended to read:

Subd. 3c. COMPOSITE FORECASTED INDEX. For rate years beginning on or after October 1, 1988, the commissioner shall establish a statewide composite forecasted index to take into account economic trends and conditions between the midpoint of the facility's reporting year and the midpoint of the rate year following the reporting year. The statewide composite index must incorporate the forecast by Data Resources, Inc. of increases in the average hourly earnings of nursing and personal care workers indexed in Standard Industrial Code 805 in "Employment and Earnings," published by the Bureau of Labor Statistics, United States Department of Labor. This portion of the index must be weighted annually by the proportion of total allowable salaries and wages to the total allowable operating costs in the program, maintenance, and administrative operating cost categories for all facilities.

For adjustments to the other operating costs in the program, maintenance, and administrative operating cost categories, the statewide index must incorporate the Data Resources, Inc. forecast for increases in the national CPI-U. This portion of the index must be weighted annually by the proportion of total allowable operating costs to the total allowable operating costs in the program, maintenance, and administrative operating cost categories for all facilities. The commissioner shall use the indices as forecasted by Data Resources, Inc., in the fourth quarter of the reporting year.

For rate years beginning on or after October 1, 1990, the commissioner shall index a facility's allowable operating costs in the program, maintenance, and administrative operating cost categories by using Data Resources, Inc., forecast for change in the Consumer Price Index-All Items (U.S. city average) (CPI-U). The commissioner shall use the indices as forecasted by Data Resources, Inc., in the first quarter of the calendar year in which the rate year begins.

Sec. 81. Minnesota Statutes 1988, section 256B.501, subdivision 3e, is amended to read:

Subd. 3e. INCREASE IN LIMITS. For rate years beginning on or after October 1, 1990, the commissioner shall increase the administrative cost per licensed bed limit in subdivision 3d, paragraph (c), and the maintenance operating cost limit in Minnesota Rules, part 9553.0050, subpart 1, item A, subitem (2), by multiplying the administrative operating cost per bed limit and the maintenance operating cost limit by the composite forecasted index in subdivision 3c except that the index shall be based on the 12 months between the midpoints of the two preceding reporting years.

Sec. 82. Minnesota Statutes 1988, section 256B.501, is amended by adding a subdivision to read:

Subd. 11. INVESTMENT PER BED LIMITS, INTEREST EXPENSE LIMITATIONS, AND ARMS-LENGTH LEASES. (a) The provisions of Minnesota Rules, part 9553.0075, except as modified under this subdivision, shall apply to newly constructed or established facilities that are certified for medical assistance on or after May 1, 1990.

(b) For purposes of establishing payment rates under this subdivision and Minnesota Rules, parts 9553.0010 to 9553.0080, the term "newly constructed or newly established" means a facility (1) for which a need determination has been approved by the commissioner under sections 252.28 and 252.291; (2) whose program is newly licensed under Minnesota Rules, parts 9525.0215 to 9525.0355, and certified under Code of Federal Regulations, title 42, section 442.400, et seq., and (3) that is part of a proposal that meets the requirements of section 252.291, subdivision 2, paragraph (2). The term does not include a facility for which a need determination was granted solely for other reasons such as the relocation of a facility; a change in the facility's name, program, number of beds, type of beds, or ownership; or the sale of a facility, unless the relocation of a facility to one or more service sites is the result of a closure of a facility under section 252.292, in which case clause (3) shall not apply. The term does include a facility that converts more than 50 percent of its licensed beds from class A to class B residential or class B institutional to serve persons discharged from state regional treatment centers on or after May 1, 1990, in which case clause (3) does not apply.

(c) Newly constructed or newly established facilities that are certified for medical assistance on or after May 1, 1990, shall be allowed the capital asset investment per bed limits as provided in clauses (1) to (4).

(1) The 1990 calendar year investment per bed limit for a facility's land must not exceed $5,700 per bed for newly constructed or newly established facilities in Hennepin, Ramsey, Anoka, Washington, Dakota, Scott, Carver, Chicago, Isanti, Wright, Benton, Sherburne, Stearns, St. Louis, Clay, and Olmsted counties, and must not exceed $3,000 per bed for newly constructed or newly established facilities in other counties.

(2) The 1990 calendar year investment per bed limit for a facility's depreciable capital assets must not exceed $44,800 for class B residential beds, and $45,200 for class B institutional beds.

(3) The investment per bed limit in clause (2) must not be used in determining the three-year average percentage increase adjustment in Minnesota Rules, part 9553.0060, subpart 1, item C, subitem (4), for facilities that were newly constructed or newly established before May 1, 1990.

(4) The investment per bed limits in clause (2) shall be adjusted annually beginning January 1, 1991, and each January 1 following, as provided in Minnesota Rules, part 9553.0060, subpart 1, item C, subitem (2).

New language is indicated by underline, deletions by strikeout.
(d) A newly constructed or newly established facility's interest expense limitation as provided for in Minnesota Rules, part 9553.0060, subpart 3, item F, on capital debt for capital assets acquired during the interim or settle-up period, shall be increased by 2.5 percentage points for each full .25 percentage points that the facility's interest rate on its mortgage is below the maximum interest rate as established in Minnesota Rules, part 9553.0060, subpart 2, item A, subitem (2). For all following rate periods, the interest expense limitation on capital debt in Minnesota Rules, part 9553.0060, subpart 3, item F, shall apply to the facility's capital assets acquired, leased, or constructed after the interim or settle-up period. If a newly constructed or newly established facility is acquired by the state, the limitations of this paragraph and Minnesota Rules, part 9553.0060, subpart 3, item F, shall not apply.

(e) If a newly constructed or newly established facility is leased with an arms-length lease as provided for in Minnesota Rules, part 9553.0060, subpart 7, the lease agreement shall be subject to the following conditions:

(1) the term of the lease, including option periods, must not be less than 20 years;

(2) the maximum interest rate used in determining the present value of the lease must not exceed the lesser of the interest rate limitation in Minnesota Rules, part 9553.0060, subpart 2, item A, subitem (2), or 16 percent; and

(3) the residual value used in determining the net present value of the lease must be established using the provisions of Minnesota Rules, part 9553.0060.

(f) All leases of the physical plant of an intermediate care facility for the mentally retarded shall contain a clause that requires the owner to give the commissioner notice of any requests or orders to vacate the premises 90 days before such vacation of the premises is to take place. In the case of unlawful detainer actions, the owner shall notify the commissioner within three days of notice of an unlawful detainer action being served upon the tenant. The only exception to this notice requirement is in the case of emergencies where immediate vacation of the premises is necessary to assure the safety and welfare of the residents. In such an emergency situation, the owner shall give the commissioner notice of the request to vacate at the time the owner of the property is aware that the vacating of the premises is necessary. This section applies to all leases entered into after the effective date of this section. Rentals set in leases entered into after that date that do not contain this clause are not allowable costs for purposes of medical assistance reimbursement.

(g) A newly constructed or newly established facility's preopening costs are subject to the provisions of Minnesota Rules, part 9553.0035, subpart 12, and must be limited to only those costs incurred during one of the following periods, whichever is shorter:

(1) between the date the commissioner approves the facility's need determi-

(2) the 12-month period immediately preceding the 30 days before the date the facility is certified for medical assistance.

excess of $1,000 per assistance unit. Exempt assets, the reduction of excess assets, and the waiver of excess assets must conform to the medical assistance program in chapter 256B; and

(ii) who has countable income not in excess of the assistance standards established in section 256B.056, subdivision 4, or whose excess income is spent down pursuant to section 256B.056, subdivision 5, using a six-month budget period, except that a one-month budget period must be used for recipients residing in a long-term care facility. The method for calculating earned income disregards and deductions for a person who resides with a dependent child under age 21 shall be as specified in section 256.74, subdivision 1. However, if a disregard of $30 and one-third of the remainder described in section 256.74, subdivision 1, clause (4), has been applied to the wage earner's income, the disregard shall not be applied again until the wage earner's income has not been considered in an eligibility determination for general assistance, general assistance medical care, medical assistance, or aid to families with dependent children for 12 consecutive months. The earned income and work expense deductions for a person who does not reside with a dependent child under age 21 shall be the same as the method used to determine eligibility for a person under section 256D.06, subdivision 1, except for the disregard of the first $50 of earned income is not allowed; or

(3) who is over age 18 and who would be eligible for medical assistance except that the person resides in a facility that is determined by the commissioner or the federal health care financing administration to be an institution for mental diseases.

(b) Eligibility is available for the month of application and for three months prior to application if the person was eligible in those prior months. A redetermination of eligibility must occur every 12 months.

(c) General assistance medical care may be paid for a person, regardless of age, who is detained by law for less than one year in a county correctional or detention facility as a person accused or convicted of a crime, or admitted as an inpatient to a hospital on a criminal hold order, if the person is a recipient of general assistance medical care at the time the person is detained by law or admitted on a criminal hold order and as long as the person continues to meet other eligibility requirements of this subdivision.

(d) General assistance medical care is not available for applicants or recipients who do not cooperate with the local agency to meet the requirements of medical assistance.

(e) In determining the amount of assets of an individual, there shall be included any asset or interest in an asset, including an asset excluded under paragraph (a), that was given away, sold, or disposed of for less than fair market value within the 30 months preceding application for general assistance medical care or during the period of eligibility. Any transfer described in this paragraph

shall be presumed to have been for the purpose of establishing eligibility for general assistance medical care, unless the individual furnishes convincing evidence to establish that the transaction was exclusively for another purpose. For purposes of this paragraph, the value of the asset or interest shall be the fair market value at the time it was given away, sold, or disposed of, less the amount of compensation received. For any uncompensated transfer, the number of months of ineligibility, including partial months, shall be calculated by dividing the uncompensated transfer amount by the average monthly per person payment made by the medical assistance program to skilled nursing facilities for the previous calendar year. The individual shall remain ineligible until this fixed period has expired. The period of ineligibility may exceed 30 months, and a reapplication for benefits after 30 months from the date of the transfer shall not result in eligibility unless and until the period of ineligibility has expired. The period of ineligibility begins in the month the transfer was reported to the local agency, or if the transfer was not reported, the month in which the local agency discovered the transfer, whichever comes first. For applicants, the period of ineligibility begins on the date of the first approved application.

Sec. 87. Minnesota Statutes 1989 Supplement, section 256D.03, subdivision 4, is amended to read:

Subd. 4. GENERAL ASSISTANCE MEDICAL CARE; SERVICES. (a) Reimbursement under the general assistance medical care program shall be limited to the following categories of service: inpatient hospital care, outpatient hospital care, services provided by Medicare certified rehabilitation agencies, prescription drugs, equipment necessary to administer insulin and diagnostic supplies and equipment for diabetics to monitor blood sugar level, eyeglasses and eye examinations provided by a physician or optometrist, hearing aids, prosthetic devices, laboratory and X-ray services, physician's services, medical transportation, chiropractic services as covered under the medical assistance program, podiatric services, and dental care. In addition, payments of state aid shall be made for:

(1) outpatient services provided by a mental health center or clinic that is under contract with the county board and is certified under Minnesota Rules, parts 9520.0010 to 9520.0230 established under section 245.62;

(2) day treatment services for mental illness provided under contract with the county board;

premiums, coinsurance and deductible payments for a person who would be eligible for medical assistance except that the person resides in an institution for mental diseases; and

(6) equipment not specifically listed in this paragraph when the use of the equipment will prevent the need for costlier services that are reimbursable under this subdivision.

(b) In order to contain costs, the commissioner of human services shall select vendors of medical care who can provide the most economical care consistent with high medical standards and shall where possible contract with organizations on a prepaid capitation basis to provide these services. The commissioner shall consider proposals by counties and vendors for prepaid health plans, competitive bidding programs, block grants, or other vendor payment mechanisms designed to provide services in an economical manner or to control utilization, with safeguards to ensure that necessary services are provided. Before implementing prepaid programs in counties with a county operated or affiliated public teaching hospital or a hospital or clinic operated by the University of Minnesota, the commissioner shall consider the risks the prepaid program creates for the hospital and allow the county or hospital the opportunity to participate in the program in a manner that reflects the risk of adverse selection and the nature of the patients served by the hospital, provided the terms of participation in the program are competitive with the terms of other participants considering the nature of the population served. Payment for services provided pursuant to this subdivision shall be as provided to medical assistance vendors of these services under sections 256B.02, subdivision 8, and 256B.0625. For payments made during fiscal year 1990 and later years, the commissioner shall contract with an independent actuary to establish prepayment rates.

(c) The commissioner of human services may reduce payments provided under sections 256D.01 to 256D.21 and 261.23 in order to remain within the amount appropriated for general assistance medical care, within the following restrictions.

For the period July 1, 1985, to December 31, 1985, reductions below the cost per service unit allowable under section 256.966, are permitted only as follows: payments for inpatient and outpatient hospital care provided in response to a primary diagnosis of chemical dependency or mental illness may be reduced no more than 30 percent; payments for all other inpatient hospital care may be reduced no more than 20 percent. Reductions below the payments allowable under general assistance medical care for the remaining general assistance medical care services allowable under this subdivision may be reduced no more than ten percent.

Reductions below the payments allowable under general assistance medical care for the remaining general assistance medical care services allowable under this subdivision may be reduced no more than five percent.

For the period January 1, 1987, to June 30, 1987, reductions below the cost per service unit allowable under section 256.966 are permitted only as follows: payments for inpatient and outpatient hospital care provided in response to a primary diagnosis of chemical dependency or mental illness may be reduced no more than 15 percent; payments for all other inpatient hospital care may be reduced no more than ten percent. Reductions below the payments allowable under medical assistance for the remaining general assistance medical care services allowable under this subdivision may be reduced no more than five percent.

For the period July 1, 1987, to June 30, 1988, reductions below the cost per service unit allowable under section 256.966 are permitted only as follows: payments for inpatient and outpatient hospital care provided in response to a primary diagnosis of chemical dependency or mental illness may be reduced no more than 15 percent; payments for all other inpatient hospital care may be reduced no more than five percent. Reductions below the payments allowable under medical assistance for the remaining general assistance medical care services allowable under this subdivision may be reduced no more than five percent.

For the period July 1, 1988, to June 30, 1989, reductions below the cost per service unit allowable under section 256.966 are permitted only as follows: payments for inpatient and outpatient hospital care provided in response to a primary diagnosis of chemical dependency or mental illness may be reduced no more than 15 percent; payments for all other inpatient hospital care may not be reduced. Reductions below the payments allowable under medical assistance for the remaining general assistance medical care services allowable under this subdivision may be reduced no more than five percent.

There shall be no copayment required of any recipient of benefits for any services provided under this subdivision. A hospital receiving a reduced payment as a result of this section may apply the unpaid balance toward satisfaction of the hospital’s bad debts.

(d) Any county may, from its own resources, provide medical payments for which state payments are not made.

(e) Chemical dependency services that are reimbursed under Laws 1986, chapter 394, sections 8 to 20, must not be reimbursed under general assistance medical care.

(f) The maximum payment for new vendors enrolled in the general assistance medical care program after the base year shall be determined from the

average usual and customary charge of the same vendor type enrolled in the base year.

(g) The conditions of payment for services under this subdivision are the same as the conditions specified in rules adopted under chapter 256B governing the medical assistance program, unless otherwise provided by statute or rule.

Sec. 88. Minnesota Statutes Second 1989 Supplement, section 256D.03, subdivision 6, is amended to read:

Subd. 6. DIVISION OF COSTS. The state share of local agency expenditures for general assistance medical care shall be 90 percent and the county share shall be ten percent. Payments made under this subdivision shall be made in accordance with sections 256B.041, subdivision 5 and 256B.19, subdivision 1. In counties where a pilot or demonstration project is operated for general assistance medical care services, the state may pay 100 percent of the costs of administering the pilot or demonstration project. Reimbursement for these costs is subject to section 256.025.

Beginning July 1, 1991, the state will reimburse counties according to the payment schedule in section 256.025 for the county share of costs incurred under this subdivision from January 1, 1991, on. Payment to counties under this subdivision is subject to the provisions of section 256.017.

Notwithstanding any provision to the contrary, beginning July 1, 1991, the state shall pay 100 percent of the costs for centralized claims processing by the department of administration relative to claims beginning January 1, 1991, and submitted on behalf of general assistance medical care recipients by vendors in the general assistance medical care program.

Beginning July 1, 1991, the state shall reimburse counties up to the limit of state appropriations for general assistance medical care common carrier transportation and related travel expenses provided for medical purposes after December 31, 1990. Reimbursement shall be provided according to the payment schedule set forth in section 256.025. For purposes of this subdivision, transportation shall have the meaning given it in Code of Federal Regulations, title 42, section 440.170(a), as amended through October 1, 1987, and travel expenses shall have the meaning given in Code of Federal Regulations, title 42, section 440.170(a)(3), as amended through October 1, 1987.

The county shall ensure that only the least costly most appropriate transportation and travel expenses are used. The state may enter into volume purchase contracts, or use a competitive bidding process, whenever feasible, to minimize the costs of transportation services. If the state has entered into a volume purchase contract or used the competitive bidding procedures of chapter 16B to arrange for transportation services, the county may be required to use such arrangements to be eligible for state reimbursement for general assistance medical care common carrier transportation and related travel expenses provided for medical purposes.

Sec. 89. Minnesota Statutes 1988, section 256D.03, subdivision 7, is amended to read:

Subd. 7. DUTIES OF THE COMMISSIONER. The commissioner shall promulgate emergency and permanent rules as necessary to establish:

(a) standards of eligibility, utilization of services, and payment levels;

(b) standards for quality assurance, surveillance, and utilization review procedures that conform to those established for the medical assistance program pursuant to chapter 256B, including general criteria and procedures for the identification and prompt investigation of suspected fraud, theft, abuse, presentation of false or duplicate claims, presentation of claims for services not medically necessary, or false statements or representations of material facts by a vendor or recipient of general assistance medical care, and for the imposition of sanctions against such vendor or recipient of medical care. The rules relating to sanctions shall be consistent with the provisions of section 256B.064, subdivisions 1a and 2; and

(c) administrative and fiscal procedures for payment of the state share of the medical costs incurred by the counties under section 256D.02, subdivision 4a. Sec. 90. Minnesota Statutes 1989 Supplement, section 256D.425, subdivision 3, is amended to read:

Subd. 3. TRANSFERS. The transfer policies and procedures of the Minnesota supplemental aid program are those used by the medical general assistance medical care program under section 256B.17 256D.03, subdivision 3, paragraph (c), except that a resource that is transferred while otherwise excluded under subdivision 2 is not an available resource for purposes of eligibility for Minnesota supplemental aid.

Sec. 91. Minnesota Statutes 1988, section 518.171, subdivision 1, is amended to read:

New language is indicated by underline. Deletions by strikeout.
Subdivision 1. ORDER. Unless the obligee has comparable or better group dependent health insurance coverage available at a more reasonable cost, the court shall order the obligor to name the minor child as beneficiary on any health and dental insurance plan that is available to the obligor on a group basis or through an employer or union. "Health insurance coverage" as used in this section does not include medical assistance provided under chapter 256, 256B, or 256D.

If the court finds that dependent health or dental insurance is not available to the obligor on a group basis or through an employer or union, or that the group insurer is not accessible to the obligee, the court may require the obligor to obtain dependent health or dental insurance, or to be liable for reasonable and necessary medical or dental expenses of the child.

If the court finds that the dependent health or dental insurance required to be obtained by the obligor does not pay all the reasonable and necessary medical or dental expenses of the child, or that the dependent health or dental insurance available to the obligee does not pay all the reasonable and necessary medical or dental expenses of the child, and the court finds that the obligor has the financial ability to contribute to the payment of these medical or dental expenses, the court shall require the obligor to be liable for all or a portion of the medical or dental expenses of the child not covered by the required health or dental plan.

Sec. 92. Minnesota Statutes 1988, section 518.171, subdivision 3, is amended to read:

Subd. 3. IMPLEMENTATION. A copy of the court order for insurance coverage shall be forwarded to the obligor’s employer or union by the obligee or the public authority responsible for support enforcement only when ordered by the court or when the following conditions are met:

(1) the obligor fails to provide written proof to the obligee or the public authority, within 30 days of receiving effective notice of the court order, that the insurance has been obtained or that application for insurability has been made;

(2) the obligee or the public authority serves written notice of its intent to enforce medical support on the obligor by mail at the obligor’s last known post office address; and

(3) the obligor fails within 15 days after the mailing of the notice to provide written proof to the obligee or the public authority that the insurance coverage existed as of the date of mailing.

The employer or union shall forward a copy of the order to the health and dental insurance plan offered by the employer.

Sec. 93. Minnesota Statutes 1988, section 518.171, subdivision 4, is amended to read:

New language is indicated by underline, deletions by strikeout.
Subd. 4. EFFECT OF ORDER. The order is binding on the employer or union and the health and dental insurance plan when service under subdivision 3 has been made. Upon receipt of the order, or upon application of the obligor pursuant to the order, the employer or union and its health and dental insurance plan shall enroll the minor child as a beneficiary in the group insurance plan and withhold any required premium from the obligor’s income or wages. If more than one plan is offered by the employer or union, the child shall be enrolled in the insurance plan in which the obligor is enrolled or the least costly plan otherwise available to the obligor that is comparable to a number two qualified plan. Failure of the obligor to execute any documents necessary to enroll the dependent in the group health and dental insurance plan will not affect the obligation of the employer or union and group health and dental insurance plan to enroll the dependent in a plan for which other eligibility requirements are met. Information and authorization provided by the public authority responsible for child support enforcement, or by the custodial parent or guardian, is valid for the purposes of meeting enrollment requirements of the health plan. The insurance coverage for a child eligible under subdivision 5 shall not be terminated except as authorized in subdivision 5.

Sec. 94. Minnesota Statutes 1988, section 518.171, subdivision 7, is amended to read:

Subd. 7. RELEASE OF INFORMATION. When an order for dependent insurance coverage is in effect, the obligor’s employer or union shall release to the obligee or the public authority, upon request, information on the dependent coverage, including the name of the insurer. Notwithstanding any other law, information reported pursuant to section 268.121 shall be released to the public agency responsible for support enforcement that is enforcing an order for medical or dental insurance coverage under this section. The public agency responsible for support enforcement is authorized to release to the obligor’s insurer or employer information necessary to obtain or enforce medical support.

ARTICLE 4
INCOME MAINTENANCE

Section 1. Minnesota Statutes 1988, section 256.73, subdivision 2, is amended to read:

Subd. 2. ALLOWANCE BARRED BY OWNERSHIP OF PROPERTY. Ownership by an assistance unit of property as follows is a bar to any allowance under sections 256.72 to 256.87:

(1) The value of real property other than the homestead, which when combined with other assets exceeds the limits of paragraph (2), unless the assistance unit is making a good faith effort to sell the nonexcludable real property. The time period for disposal must not exceed nine months and the assistance unit shall execute an agreement to dispose of the property to repay assistance received during the nine months up to the amount of the net sale proceeds. The payment must be made when the property is sold. If the property is not sold within the required time or the assistance unit becomes ineligible for any reason the entire amount received during the nine months is an overpayment and subject to recovery. For the purposes of this section, "homestead" means the home owned and occupied by the child, relative, or other member of the assistance unit as a dwelling place, that is owned by, and is the usual residence of, the child, relative, or other member of the assistance unit together with the surrounding property which is not separated from the home by intervening property owned by others. "Usual residence" includes the home from which the child, relative, or other members of the assistance unit is temporarily absent due to an employability development plan approved by the local human service agency, which includes education, training, or job search within the state but outside of the immediate geographic area. Public rights-of-way, such as roads which run through the surrounding property and separate it from the home, will not affect the exemption of the property; or

(2) Personal property of an equity value in excess of $1,000 for the entire assistance unit, exclusive of personal property used as the home, one motor vehicle of an equity value not exceeding $1,500 or the entire equity value of a motor vehicle determined to be necessary for the operation of a self-employment business, one burial plot for each member of the assistance unit, one prepaid burial contract with an equity value of no more than $1,000 for each member of the assistance unit, clothing and necessary household furniture and equipment and other basic maintenance items essential for daily living, in accordance with rules promulgated by and standards established by the commissioner of human services.

New language is indicated by underline, deletions by strikeout.
(1) on behalf of any person who is receiving supplemental security income under title XVI of the Social Security Act unless permitted by federal regulations;

(2) for any month in which the assistance unit's gross income, without application of deductions or disregards, exceeds 185 percent of the standard of need for a family of the same size and composition; except that the earnings of a dependent child who is a full-time student may be disregarded for six calendar months per year and the earnings of a dependent child who is a full-time student that are derived from the jobs training and partnership act may be disregarded for six calendar months per year. If a stepparent's income is taken into account in determining need, the disregards specified in section 256.74, subdivision 1a, shall be applied to determine income available to the assistance unit before calculating the unit's gross income for purposes of this paragraph;

(3) to any assistance unit for any month in which any caretaker relative with whom the child is living is, on the last day of that month, participating in a strike;

(4) on behalf of any other individual in the assistance unit, nor shall the individual's needs be taken into account for any month in which, on the last day of the month, the individual is participating in a strike;

(5) on behalf of any individual who is the principal earner in an assistance unit whose eligibility is based on the unemployment of a parent when the principal earner, without good cause, fails or refuses to seek work, to participate in the job search program under section 256.736, or a community work experience program under section 256.737 if this program is available and participation is mandatory in the county, to accept employment, or to register with a public employment office, unless the principal earner is exempt from these work requirements.

Sec. 3. Minnesota Statutes 1988, section 256.736, subdivision 1a, is amended to read:

Subd. 1a. DEFINITIONS. As used in this section and section 256.7365, the following words have the meanings given them:

(e) “Employment and training service provider” means an administrative entity a public, private, or nonprofit agency certified by the commissioner of jobs and training to deliver employment and training services under section 268.0122, subdivision 3 and section 268.871, subdivision 1.

3. pays hourly gross earnings which are not less than the federal or state minimum wage for that type of employment, whichever is applicable;

Employment results in a net loss of income when the income remaining after subtracting necessary work-related expenses from the family’s gross income, which includes cash assistance, is less than the cash assistance the family was receiving at the time the offer of employment was made. For purposes of this definition, “work expenses” means the amount withheld or paid for: state and federal income taxes; social security withholding taxes; mandatory retirement fund deductions; dependent care costs; transportation costs to and from work at the amount allowed by the Internal Revenue Service for personal car mileage; costs of work uniforms, union dues, and medical insurance premiums; costs of tools and equipment used on the job; $1 per work day for the costs of meals eaten during employment; public liability insurance required by an employer when an automobile is used in employment and the cost is not reimbursed by the employer; and the amount paid by an employee from personal funds for business costs which are not reimbursed by the employer;

New language is indicated by underline, deletions by strikeout.
(5) offers a job vacancy which is not the result of a strike, lockout, or other bona fide labor dispute;

(6) requires a round trip commuting time from the recipient's residence of less than two hours by available transportation, exclusive of the time to transport children to and from child care;

(7) does not require the recipient to leave children under age 12 unattended in order to work, or if child care is required, such care is available; and

(8) does not discriminate at the job site on the basis of age, sex, race, color, creed, marital status, status with regard to public assistance, disability, religion, or place of national origin.

(i) “Support services” means programs, activities, and services intended to stabilize families and individuals or provide assistance for family needs related to employment or participation in employment and training services, including child care, transportation, housing assistance, personal and family counseling, crisis intervention services, peer support groups, chemical dependency counseling and treatment, money management assistance, and parenting skill courses.

Sec. 4. Minnesota Statutes 1989 Supplement, section 256.736, subdivision 3, is amended to read:

Subd. 3. REGISTRATION. (a) To the extent permissible under federal law, every caretaker or child is required to register for employment and training services, as a condition of receiving AFDC, unless the caretaker or child is:

(1) a child who is under age 16, a child age 16 or 17 who is attending elementary or secondary school or a secondary level vocational or technical school full time;

(2) ill, incapacitated, or age 60 or older;

(3) a person for whom participation in an employment and training service would require a round trip commuting time by available transportation of more than two hours;

(4) a person whose presence in the home is required because of illness or incapacity of another member of the household;

(5) a caretaker or other caretaker relative of a child under the age of three who personally provides full-time care for the child. In AFDC-UP cases, only one parent or other relative may qualify for this exemption;

(6) a caretaker or other caretaker relative personally providing care for a child under six years of age, except that when child care is arranged for or provided, the caretaker or caretaker relative may be required to register and participate in employment and training services up to a maximum of 20 hours

New language is indicated by underline, deletions by strikeout.
per week. In AFDC-UP cases, only one parent or other relative may qualify for this exemption:

(7) a caretaker if another adult relative in the assistance unit is registered and has not, without good cause, failed or refused to participate or accept employment;

(8) a pregnant woman, if it has been medically verified that the child is expected to be born in the current month or within the next six months; or

(9) employed at least 30 hours per week; or

(10) a parent who is not the principal earner if the parent who is the principal earner is required to register.

(b) To the extent permissible by federal law, applicants for benefits under the AFDC program are registered for employment and training services by signing the application form. Applicants must be informed that they are registering for employment and training services by signing the form. Persons receiving benefits on or after July 1, 1987, shall register for employment and training services to the extent permissible by federal law. The caretaker has a right to a fair hearing under section 256.045 with respect to the appropriateness of the registration.

Sec. 5. Minnesota Statutes 1988, section 256.736, subdivision 3a, is amended to read:

Subd. 3a. PARTICIPATION. Caretakers in priority groups must participate in employment and training services under this section to the extent permissible under federal law. However, no assistance unit may be sanctioned for a caretaker's failure to participate in employment and training services under this section if failure results from inadequate funding for employment and training services. (a) Except as provided under paragraphs (b) and (c), participation in employment and training services under this section is limited to the following recipients:

(1) caretakers who are required to participate in a job search under subdivision 14;

(2) custodial parents who are subject to the school attendance or case management participation requirements under subdivision 3b;

(3) caretakers whose participation in employment and training services began prior to May 1, 1990, if the caretaker’s AFDC eligibility has not been interrupted for 30 days or more and the caretaker’s employability development plan has not been completed;

(4) recipients who are members of a family in which the youngest child is within two years of being ineligible for AFDC due to age.

New language is indicated by underline, deletions by strikeout.
(5) effective September 1, 1990, custodial parents under the age of 22 who: (i) have not completed a high school education and who, at the time of application for AFDC, were not enrolled in high school or in a high school equivalency program; or (ii) have had little or no work experience in the preceding year;

(6) recipients who have received AFDC for 48 or more months out of the last 60 months;

(7) recipients who are participants in the self-employment investment demonstration project under section 268.95; and

(8) recipients who participate in the new chance research and demonstration project under contract with the department of human services.

(b) If the commissioner determines that participation of persons listed in paragraph (a) in employment and training services is insufficient either to meet federal performance targets or to fully utilize funds appropriated under this section, the commissioner may, after notifying the chairs of the senate and house health and human services committees, the health and human services division of the senate finance committee, and the health and human services division of the house appropriations committee, permit additional groups of recipients to participate until the next meeting of the legislative advisory commission, after which the additional groups may continue to enroll for participation unless the legislative advisory commission disapproves the continued enrollment. The commissioner shall allow participation of additional groups in the following order only as needed to meet performance targets or fully utilize funding for employment and training services under this section:

(1) recipients who have received at least 42 months of AFDC out of the previous 60 months;

(2) custodial parents under the age of 24 who meet the criteria in paragraph (a), clause (5), subclause (i) or (ii);

(3) recipients who have received at least 36 months of AFDC out of the previous 60 months;

(4) recipients who have received 24 or more months of AFDC out of the previous 48 months; and

(5) recipients who have not completed a high school education or a high school equivalency program.

(c) To the extent of money appropriated specifically for this paragraph, the commissioner may permit AFDC caretakers who are not eligible for participation in employment and training services under the provisions of paragraphs (a) or (b), to participate. Money must be allocated to county agencies based on the county's percentage of participants statewide in services under this section in the prior calendar year. Counties must provide equal or greater services to partici-
pants enrolled under this paragraph, as measured in average per client expenditures, as provided to other participants in employment and training services under this section. Caretakers must be selected on a first-come, first-served basis from a waiting list of caretakers who volunteer to participate. The commissioner may, on a quarterly basis, reallocate unused allocations to county agencies that have sufficient volunteers. If funding under this paragraph is discontinued in future fiscal years, caretakers who began participating under this paragraph must be deemed eligible under paragraph (a), clause (3).

Sec. 6. Minnesota Statutes 1989 Supplement, section 256.736, subdivision 3b, is amended to read:

Subd. 3b. MANDATORY ASSESSMENT AND SCHOOL ATTENDANCE FOR CERTAIN CUSTODIAL PARENTS. This subdivision applies to the extent permitted under federal law and regulation.

(a) DEFINITIONS. The definitions in this paragraph apply to this subdivision.

(1) “Custodial parent” means a recipient of AFDC who is the natural or adoptive parent of a child living with the custodial parent.

(2) “School” means:

(i) an educational program which leads to a high school diploma. The program or coursework may be, but is not limited to, a program under the post-secondary enrollment options of section 123.3514, a regular or alternative program of an elementary or secondary school, a technical institute, or a college;

(ii) coursework for a general educational development (GED) diploma of not less than six hours of classroom instruction per week; or

(iii) any other post-secondary educational program that is approved by the public school or the local agency under subdivision 11.

(b) ASSESSMENT AND PLAN; REQUIREMENT; CONTENT. The county agency must examine the educational level of each custodial parent under the age of 20 to determine if the recipient has completed a high school education or its equivalent. If the custodial parent has not completed a high school education or its equivalent and is not exempt from the requirement to attend school under paragraph (c), the county agency must complete an individual assessment for the custodial parent. The assessment must be performed as soon as possible but within 60 days of determining AFDC eligibility for the custodial parent. The assessment must provide an initial examination of the custodial parent’s educational progress and needs, literacy level, child care and supportive service needs, family circumstances, skills, and work experience. In the case of a custodial parent under the age of 18, the assessment must also consider the results of the early and periodic screening, diagnosis and treatment (EPSDT) screening, if

New language is indicated by underline, deletions by strikeout.
available, and the effect of a child's development and educational needs on the parent's ability to participate in the program. The county agency must advise the parent that the parent's first goal must be to complete an appropriate educational option if one is identified for the parent through the assessment and, in consultation with educational agencies, must review the various school completion options with the parent and assist the parent in selecting the most appropriate option.

(c) RESPONSIBILITY FOR ASSESSMENT AND PLAN. For custodial parents who are under age 18, the assessment and the employability plan must be completed by the county social services agency, as specified in section 257.33. For custodial parents who are age 18 or 19, the assessment and employability plan must be completed by the case manager. The social services agency or the case manager shall consult with representatives of educational agencies required to assist in developing educational plans under section 126.235.

(d) EDUCATION DETERMINED TO BE APPROPRIATE. If the case manager or county social services agency identifies an appropriate educational option, it must develop an employability plan in consultation with the custodial parent which reflects the assessment. The plan must specify that participation in an educational activity is required, what school or educational program is most appropriate, the services that will be provided, the activities the parent will take part in including child care and supportive services, the consequences to the custodial parent for failing to participate or comply with the specified requirements, and the right to appeal any adverse action. The employability plan must, to the extent possible, reflect the preferences of the participant.

(e) EDUCATION DETERMINED TO BE NOT APPROPRIATE. If the case manager determines that there is no appropriate educational option for a custodial parent who is age 18 or 19, the case manager shall indicate the reasons for the determination. The case manager shall then notify the county agency which must refer the custodial parent to case management services under subdivision 11 for completion of an employability plan and services. If the custodial parent fails to participate or cooperate with case management services and does not have good cause for the failure, the county agency shall apply the sanctions listed in subdivision 4, beginning with the first payment month after issuance of notice. If the county social services agency determines that school attendance is not appropriate for a custodial parent under age 18, the county agency shall refer the custodial parent to social services for services as provided in section 257.33.

(f) SCHOOL ATTENDANCE REQUIRED. Notwithstanding subdivision 3, a custodial parent must attend school if all of the following apply:

(1) the custodial parent is less than 20 years of age;

(2) transportation services needed to enable the custodial parent to attend school are available;

New language is indicated by underline, deletions by strikeout.
(3) licensed or legal nonlicensed child care services needed to enable the custodial parent to attend school are available;

(4) the custodial parent has not already received a high school diploma or its equivalent; and

(5) the custodial parent is not exempt because the custodial parent:

(i) is ill or incapacitated seriously enough to prevent him or her from attending school;

(ii) is needed in the home because of the illness or incapacity of another member of the household; this includes a custodial parent of a child who is younger than six weeks of age;

(iii) works 30 or more hours a week; or

(iv) is pregnant if it has been medically verified that the child's birth is expected in the current month or within the next six months.

(g) ENROLLMENT AND ATTENDANCE. The custodial parent must be enrolled in school and meeting the school's attendance requirements. The custodial parent is considered to be attending when he or she is enrolled but the school is not in regular session, including during holiday and summer breaks.

(h) GOOD CAUSE FOR NOT ATTENDING SCHOOL. The local agency shall not impose the sanctions in subdivision 4 if it determines that a custodial parent has good cause for not being enrolled or for not meeting the school's attendance requirements. The local agency shall determine whether good cause for not attending or not enrolling in school exists, according to this paragraph:

(1) Good cause exists when the local agency has verified that the only available school program requires round trip commuting time from the custodial parent's residence of more than two hours by available means of transportation, excluding the time necessary to transport children to and from child care.

(2) Good cause exists when the custodial parent has indicated a desire to attend school, but the public school system is not providing for his or her education and alternative programs are not available.

(i) FAILURE TO COMPLY. The case manager and social services agency shall establish ongoing contact with appropriate school staff to monitor problems that custodial parents may have in pursuing their educational plan and shall jointly seek solutions to prevent parents from failing to complete education. If the school notifies the local agency that the custodial parent is not enrolled or is not meeting the school's attendance requirements, or appears to be facing barriers to completing education, the information must be conveyed to the case manager for a custodial parent age 18 or 19, or to the social services agency for a custodial parent under age 18. The case manager or social services agency

New language is indicated by underline, deletions by strikeout.
shall reassess the appropriateness of school attendance as specified in paragraph (f). If after consultation, school attendance is still appropriate and the case manager or social services agency determines that the custodial parent has failed to enroll or is not meeting the school’s attendance requirements and the custodial parent does not have good cause, the case manager or social services agency shall inform the custodial parent’s financial worker who shall apply the sanctions listed in subdivision 4 beginning with the first payment month after issuance of notice.

(j) NOTICE AND HEARING. A right to notice and fair hearing shall be provided in accordance with section 256.045 and the Code of Federal Regulations, title 45, section 205.10.

(k) SOCIAL SERVICES. When a custodial parent under the age of 18 has failed to attend school, is not exempt, and does not have good cause, the local agency shall refer the custodial parent to the social services agency for services, as provided in section 257.33.

(l) VERIFICATION. No less often than quarterly, the financial worker must verify that the custodial parent is meeting the requirements of this subdivision. Notwithstanding section 13.32, subdivision 3, when the local agency notifies the school that a custodial parent is subject to this subdivision, the school must furnish verification of school enrollment, attendance, and progress to the local agency. The county agency must not impose the sanctions in paragraph (i) if the school fails to cooperate in providing verification of the minor parent’s education, attendance, or progress.

Sec. 7. Minnesota Statutes 1989 Supplement, section 256.736, subdivision 4, is amended to read:

Subd. 4. CONDITIONS OF CERTIFICATION. The commissioner of human services shall:

(1) Arrange for or provide any caretaker or child required to participate in employment and training services pursuant to this section with child-care services, transportation, and other necessary family services;

(a) For the first failure, 50 percent of the grant provided to the family for the month following the failure shall be made in the form of protective or vendor payments;

(b) For the second and subsequent failures, the entire grant provided to the family must be made in the form of protective or vendor payments. Assistance provided to the family must be in the form of protective or vendor payments until the recipient complies with the requirement; and

(c) When protective payments are required, the local agency may continue payments to the caretaker if a protective payee cannot reasonably be found;

(5) Provide that the county board shall impose the sanctions in clause (6) when the county board:

(a) determines that a caretaker or child required to participate in employment and training services has been found by the employment and training service provider to have failed without good cause to participate in appropriate employment and training services or to have failed without good cause to accept, through the job search program described in subdivision 14, or the community work experience program described in section 256.727 provisions of an employability development plan if the caretaker is a custodial parent age 18 or 19 and subject to the requirements of subdivision 3b, a bona fide offer of public or other employment; or

To the extent possible, the prior training, skills, and experience of a recipient must be used in making appropriate work experience assignments.

(b) As a condition to placing a person receiving aid to families with dependent children in a program under this subdivision, the county agency shall first provide the recipient the opportunity to participate in the following services:

1. placement in suitable subsidized or unsubsidized employment through participation in job search under section 256.736, subdivision 14; or

2. basic educational or vocational or occupational training for an identifiable job opportunity.

(c) If the recipient refuses who has completed a job search under section 256.736, subdivision 14, who is unable to secure suitable employment, and a who is not enrolled in an approved training program, the county agency may, subject to subdivision 1, require the recipient to participate in a community work experience program as a condition of eligibility.

(d) The county agency shall limit the maximum number of hours any participant under this section may be required to work in any month to a number equal to the amount of the aid to families with dependent children payable to the family divided by the greater of the federal minimum wage or the applicable state minimum wage.

(e) After a participant has been assigned to a position under this section for nine months, the participant may not be required to continue in that assignment unless the maximum number of hours a participant is required to work works is no greater than the amount of the aid to families with dependent children payable with respect to the family divided by the higher of (1) the federal minimum wage or the applicable state minimum wage, whichever is greater, or (2) the rate of pay for individuals employed in the same or similar occupations by the same employer at the same site.

(f) After each six months of a recipient’s participation in an assignment, and at the conclusion of each assignment under this section, the county agency shall reassess and revise, as appropriate, each participant’s employability development plan.

(g) The county agency shall apply the grant reduction sanctions specified in section 256.736, subdivision 4, clause (6), when it is determined that a mandatory participant has failed, without good cause, to participate in the program.

Sec. 18. [256.739] GRANT DIVERSION.

(a) County agencies may, according to section 256.736, subdivision 10, develop grant diversion programs that permit voluntary participation by AFDC recipients. A county agency that chooses to provide grant diversion as one of its optional employment and training services may divert to an employer part or all of the AFDC payment for the participant’s assistance unit, in compliance with federal regulations and laws. Such payments to an employer are to subsidize employment for AFDC recipients as an alternative to public assistance payments.

(b) County agencies shall limit the length of training to nine months. Placement in a grant diversion training position with an employer is for the purpose of training and employment with the same employer, who has agreed to retain the person upon satisfactory completion of training.

for care shall be made to an individual other than the parent or relative with whom the dependent child is living or to vendors of goods and services for the benefit of the child because such parent or relative is unable to properly manage the funds in the best interests and welfare of the child. At the request of a recipient, the state or county may make payments directly to vendors of goods and services, but only for goods and services appropriate to maintain the health and safety of the child, as determined by the county.

(3) The county shall be paid from state and federal funds available therefor the amount provided for in section 256.82.

(4) Federal funds available for administrative purposes shall be distributed between the state and the counties in the same proportion that expenditures were made except as provided for in section 256.017.

Sec. 20. Minnesota Statutes 1989 Supplement, section 256D.01, subdivision 1a, is amended to read:

Subd. 1a. **STANDARDS.** (a) A principal objective in providing general assistance is to provide for persons ineligible for federal programs who are unable to provide for themselves. The minimum standard of assistance determines the total amount of the general assistance grant without separate standards for shelter, utilities, or other needs.

(b) The commissioner shall set the standard of assistance for an assistance unit consisting of an adult recipient who is childless and unmarried or living apart from children and spouse and who does not live with a parent or parents or a legal custodian. When the other standards specified in this subdivision increase, this standard must also be increased by the same percentage.

(c) For an assistance unit consisting of a single adult who lives with a parent or parents, the general assistance standard of assistance is the amount that the aid to families with dependent children standard of assistance would increase if the recipient were added as an additional minor child to an assistance unit consisting of the recipient's parent and all of that parent's family members, except that the standard may not exceed the standard for a general assistance recipient living alone. Benefits received by a responsible relative of the assistance unit under the supplemental security income program, a workers' compensation program, the Minnesota supplemental aid program, or any other program based on the responsible relative's disability, and any benefits received by a responsible relative of the assistance unit under the social security retirement program, may not be counted in the determination of eligibility or benefit level for the assistance unit. Except as provided below, the assistance unit is ineligible for general assistance if the available resources or the countable income of the assistance unit and the parent or parents with whom the assistance unit lives are such that a family consisting of the assistance unit's parent or parents, the parent or parents' other family members and the assistance unit as the only or additional minor child would be financially ineligible for general assistance. For

*New language is indicated by underline, deletions by strikeout.*
the purposes of calculating the countable income of the assistance unit's parent or parents, the calculation methods, income deductions, exclusions, and disregards used when calculating the countable income for a single adult or childless couple must be used.

(d) For an assistance unit consisting of a childless couple, the standards of assistance are the same as the first and second adult standards of the aid to families with dependent children program. If one member of the couple is not included in the general assistance grant, the standard of assistance for the other is the second adult standard of the aid to families with dependent children program.

(e) For an assistance unit consisting of all members of a family, the standards of assistance are the same as the standards of assistance that apply to a family under the aid to families with dependent children program if that family had the same number of parents and children as the assistance unit under general assistance and if all members of that family were eligible for the aid to families with dependent children program. If one or more members of the family are not included in the assistance unit for general assistance, the standards of assistance for the remaining members are the same as the standards of assistance that apply to an assistance unit composed of the entire family, less the standards of assistance for a family of the same number of parents and children as those members of the family who are not in the assistance unit for general assistance. However, if an assistance unit consists solely of the minor children because their parent or parents have been sanctioned from receiving benefits from the aid to families with dependent children program, the standard for the assistance unit is the same as the special child standard of the aid to families with dependent children program. In no case shall the standard for family members who are in the assistance unit for general assistance, when combined with the standard for family members who are not in the general assistance unit, total more than the standard for the entire family if all members were in an AFDC assistance unit. A child may not be excluded from the assistance unit unless income intended for its benefit is received from a federally aided categorical assistance program or supplemental security income. The income of a child who is excluded from the assistance unit may not be counted in the determination of eligibility or benefit level for the assistance unit.

(f) An assistance unit consisting of one or more members of a family must have its grant determined using the policies and procedures of the aid to families with dependent children program. However, the standard of assistance must be determined according to paragraph (e), the first $50 of total child support received by an assistance unit in a month must be excluded and the balance counted as unearned income, and nonrecurring lump sums received by the family must be considered income in the month received and a resource in the following months.

Sec. 21. Minnesota Statutes 1988, section 256D.01, is amended by adding a subdivision to read:

New language is indicated by underline, deletions by strikeout.
Subd. 1e. RULES REGARDING EMERGENCY ASSISTANCE. In order to maximize the use of federal funds, the commissioner shall adopt rules, to the extent permitted by federal law, for eligibility for the emergency assistance program under aid to families with dependent children, and under the terms of sections 256D.01 to 256D.21 for general assistance, to require use of the emergency program under aid to families with dependent children as the primary financial resource when available. The commissioner shall adopt rules for eligibility for general assistance of persons with seasonal income and may attribute seasonal income to other periods not in excess of one year from receipt by an applicant or recipient. General assistance payments may not be made for foster care, child welfare services, or other social services. Vendor payments and vouchers may be issued only as authorized in sections 256D.05, subdivision 6, and 256D.09.

Sec. 22. Minnesota Statutes 1988, section 256D.02, subdivision 5, is amended to read:

1. the applicant’s spouse;

2. any minor child of whom the applicant is a parent, stepparent, or legal custodian, and that child’s minor siblings, including half-siblings and step-siblings;

3. the other parent of the applicant’s minor child or children together with that parent’s minor children, and, if that parent is a minor, his or her parents, stepparents, legal guardians, and minor siblings; and

4. if the applicant or recipient is a minor, the minor’s parents, stepparents, or legal guardians, and any other minor children for whom those parents, stepparents, or legal guardians are financially responsible.

A “family” must contain at least one minor child and at least one of that child’s natural or adoptive parents, stepparents, or legal custodians.

Sec. 23. Minnesota Statutes 1988, section 256D.02, subdivision 8, is amended to read:

amounts paid or withheld for federal and state personal income taxes and federal social security taxes.

"Income" includes any payments received as an annuity, retirement, or disability benefit, including veteran's or workers' compensation; old age, survivors, and disability insurance; railroad retirement benefits; unemployment benefits; and benefits under any federally aided categorical assistance program, supplementary security income, or other assistance program; rents, dividends, interest and royalties; and support and maintenance payments. Such payments may not be considered as available to meet the needs of any person other than the person for whose benefit they are received, unless that person is a family member or a spouse and the income is not excluded under section 256D.01, subdivision 1a. Goods and services provided in lieu of cash payment shall be excluded from the definition of income, except that payments made for room, board, tuition or fees by a parent, on behalf of a child enrolled as a full-time student in a post-secondary institution, and payments made on behalf of an applicant or recipient which the applicant or recipient could legally require to be paid in cash to himself or herself, must be included as income.

Sec. 24. Minnesota Statutes 1988, section 256D.02, subdivision 12, is amended to read:

Subd. 12. "Local County agency" means the agency designated by the county board of commissioners, human services boards, county welfare boards in the several counties of the state or multicounty welfare boards or departments where those have been established in accordance with law.

Sec. 25. Minnesota Statutes Second 1989 Supplement, section 256D.03, subdivision 2, is amended to read:

Subd. 2. After December 31, 1980, state aid shall be paid to local agencies for 75 percent of all general assistance and work readiness grants up to the standards of sections 256D.01, subdivision 1a, and 256D.051, and according to procedures established by the commissioner, except as provided for under section 256.017 and except that, after December 31, 1987 until January 1, 1991, state aid is reduced to 65 percent of all work readiness assistance if the local agency does not make occupational or vocational literacy training available and accessible to recipients who are eligible for assistance under section 256D.051.

After December 31, 1986, state aid must be paid to local agencies for 65 percent of work readiness assistance paid under section 256D.051 if the county does not have an approved and operating community investment program.

Beginning July 1, 1991, the state will reimburse counties according to the payment schedule in section 256.025 for the county share of local agency expenditures made under this subdivision from January 1, 1991, on. Payment to counties under this subdivision is subject to the provisions of section 256.017.

Sec. 26. Minnesota Statutes 1989 Supplement, section 256D.051, subdivision 1a, is amended to read:

Subd. 1a. WORK READINESS PAYMENTS. (a) Grants of work readiness shall be determined using the standards of assistance, exclusions, disregards, and procedures which are used in the general assistance program. Work readiness shall be granted in an amount that, when added to the nonexempt income actually available to the assistance unit, the total amount equals the applicable standard of assistance.

(b) Work readiness payments must be provided to persons determined eligible for the work readiness program as provided in this subdivision except when the special payment provisions in subdivision 1b are utilized. The initial payment must be prorated to provide assistance for the period beginning with the date the completed application is received by the county agency or the date the assistance unit meets all work readiness eligibility factors, whichever is later, and ending on the final day of that month. The amount of the first payment must be determined by dividing the number of days to be covered under the payment by the number of days in the month, to determine the percentage of days in the month that are covered by the payment, and multiplying the monthly payment amount by this percentage. Subsequent payments must be paid monthly on the first day of each month.

There shall be an initial certification period which shall begin on the date the completed application is received by the county agency or the date that the assistance unit meets all work readiness eligibility factors, whichever is later, and ending on the date that mandatory registrants in the assistance unit must attend a work readiness orientation. This initial certification period may not cover a period in excess of 30 calendar days. All mandatory registrants in the assistance unit must be informed of the period of certification, the requirement to attend orientation, and that work readiness eligibility will end at the end of the certification period unless the registrants attend orientation. A registrant who fails to comply with requirements during the certification period, including attendance at orientation, will lose work readiness eligibility without notice under section 256D.101, subdivision 1, paragraph (b).

At the time the county agency notifies the assistance unit that it is eligible for work readiness assistance, the county agency must inform all mandatory registrants in the assistance unit that they must attend an orientation within 30 days, and that work readiness eligibility will end at the end of the month in which the orientation is scheduled unless the registrants attend orientation. A registrant who fails, without good cause, to comply with requirements during this time period, including attendance at orientation, will lose work readiness eligibility without notice under section 256D.101, subdivision 1, paragraph (b). The registrant shall, however, be sent a notice, on or before the date that eligibility ends, which informs the registrant that work readiness eligibility has ended in accordance with this section for failure to comply with work readiness requirements.

requirements. The notice shall set forth the factual basis for such determina-
tion, and advises the registrant of the right to reinstate eligibility upon a showing
of good cause for the failure to meet the requirements. Subsequent assistance
must not be issued unless the person completes an application, is determined
eligible, and attends an orientation, or demonstrates that the person had good
cause for failing to comply with the requirement.

Sec. 27. Minnesota Statutes 1989 Supplement, section 256D.051, subdivi-
dision 1b, is amended to read:

Subd. 1b. SPECIAL PAYMENT PROVISIONS. A county agency may, at
its option, provide work readiness payments as provided under section 256D.05,
subdivision 6, during the initial certification period prorated to cover only an
initial certification period. The initial certification period shall cover the time
from the date the completed application is received by the county agency or the
date that the assistance unit meets all work readiness eligibility factors, whichever
is later, and ending on the date that mandatory registrants in the assistance
unit must attend a work readiness orientation. This initial certification period
may not cover a period in excess of 30 calendar days. All mandatory registrants
in the assistance unit must be informed of the period of certification, the require-
ment to attend orientation, and that work readiness eligibility will end at the
end of the certification period unless the registrants attend orientation. A
registrant who fails, without good cause, to comply with requirements during the
certification period, including attendance at orientation, will lose work readiness
eligibility without notice under section 256D.101, subdivision 1, paragraph (b).
The registrant shall, however, be sent a notice, on or before the date that
eligibility ends, which informs the registrant that work readiness eligibility has
ended in accordance with this section for failure to comply with work readiness
requirements. The notice shall set forth the factual basis for such determina-
tion, and advises the registrant of the right to reinstate eligibility upon a showing
of good cause for the failure to meet the requirements. If all mandatory regis-
trants attend orientation, an additional grant of work readiness assistance must
be issued to cover the period beginning the day after the scheduled orientation
and ending on the final day of that month. Subsequent payments of work
readiness shall be governed by subdivision 1a or section 256D.05, subdivision 6.
If one or more mandatory registrants from the assistance unit fail to attend the
orientation, those who failed to attend orientation will be removed from the
assistance unit without further notice and shall be ineligible for additional assis-
tance. Subsequent assistance to such persons shall be dependent upon the person
completing application for assistance and, being determined eligible, and attend-
ing an orientation or demonstrating that the person had good cause for failing to
comply with the requirement.

A local agency that utilizes the provisions in this subdivision must imple-
ment the provisions consistently for all applicants or recipients in the county. A
local agency must pay emergency general assistance to a registrant whose pro-
rated work readiness payment does not meet emergency needs. A local agency
which elects to pay work readiness assistance on a prorated basis under this
subdivision may not provide payments under section 256D.05, subdivision 6,
for the same time period. A county agency may, at its option, provide work
readiness payments as provided under section 256D.05, subdivision 6, during
the initial certification period.

However, notwithstanding any provision of section 256.045 to the contrary, an applicant or recipient who is referred for an assessment and is otherwise eligible to receive a general assistance or work readiness benefit, may only be provided with emergency general assistance or vendor payments pending the outcome of an administrative or judicial review. The financial and program activity report must include:
