A voter in need of assistance may alternatively obtain the assistance of any individual the voter chooses. Only the following persons may not provide assistance to a voter: the voter's employer, an agent of the voter's employer, an officer or agent of the voter's union, or a candidate for election. The person who assists the voter shall, unaccompanied by an election judge, retire with that voter to a booth and mark the ballot as directed by the voter. No person who assists another voter as provided in the preceding sentence shall mark the ballots of more than three voters at one election. Before the ballots are deposited, the voter may show them privately to an election judge to ascertain that they are marked as the voter directed. An election judge or other individual assisting a voter shall not in any manner request, persuade, induce, or attempt to persuade or induce the voter to vote for any particular political party or candidate. The election judges or other individuals who assist the voter shall not reveal to anyone the name of any candidate for whom the voter has voted or anything that took place while assisting the voter.

The contracts must give the state a perpetual license to use and modify the software. The contracts must include provisions to escrow the software source code, as provided in subdivision 2. Bids for voting systems and related election services must be solicited from each vendor selling or leasing voting systems that have been certified for use by the secretary of state. The contracts must be renewed from time to time.

(b) The secretary of state shall appoint an advisory committee, including representatives of the state chief information officer, county auditors, municipal clerks who have had operational experience with the use of electronic voting systems, and members of the disabilities community to advise the secretary of state in reviewing and evaluating the merits of proposals submitted from voting equipment vendors for the state contracts.

(c) Counties and municipalities may purchase or lease voting systems and obtain related election services from the state contracts. All counties and municipalities are members of the cooperative purchasing venture of the Department of Administration for the purpose of this section. For the purpose of township elections, counties must aggregate orders under contracts negotiated under this section for products and services and may apportion the costs of those products and services proportionally among the townships receiving the products and services. The plan must be signed, notarized, and submitted to the secretary of state more than 60 days before the first election at which the municipality uses an electronic voting system. Prior to July 1 of each subsequent general election year, the clerk or auditor shall submit to the secretary of state notification of any changes to the plan on file with the secretary of state. The secretary of state shall review each plan for its sufficiency and may request technical assistance from the Department of Administration or other agency which may be operating as the central computer authority. 206.83 TESTING OF VOTING SYSTEMS.

Within 14 days before election day, the official in charge of elections shall have the voting system tested to ascertain that the system will correctly mark ~~or securely transmit to automatic tabulating equipment in the polling place~~ ballots using all methods supported by the system, including through assistive technology, and count the votes cast for all candidates and on all questions. Public notice of the time and place of the test must be given at least two days in advance by publication once in official newspapers. The test must be observed by at least two election judges, who are not of the same major political party, and must be open to representatives of the political parties, candidates, the press, and the public. The test must be conducted by (1) processing a preaudited group of ballots punched or marked to record a predetermined number of valid votes for each candidate and on each question, and must include for each office one or more ballot cards which have votes in excess of the number allowed by law in order to test the ability of the voting system tabulator and electronic ballot marker to reject those votes; and (2) processing an additional test deck of ballots marked using the electronic ballot marker for the precinct, including ballots marked ~~or ballots securely transmitted electronically to automatic tabulating equipment in the polling place~~ using the electronic ballot display, audio ballot reader, and any assistive voting technology used with the electronic ballot marker. If any error is detected, the cause must be ascertained and corrected and an errorless count must be made before the voting system may be used in the election. After the completion of the test, the programs used and ballot cards must be sealed, retained, and disposed of as provided for paper ballots.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 34. **[206.89] POSTELECTION REVIEW OF VOTING SYSTEMS.**

Subdivision 1. **Definition.** For purposes of this section "post election review official" means the election administration official who is responsible for the conduct of elections in a precinct selected for review under this section.

Subd. 2. **Selection for review; notice.** At the canvass of the state primary, the county canvassing board in each county must set the date, time, and place for the postelection review of the state general election to be held under this section.

At the canvass of the state general election, the county canvassing boards must select the precincts to be reviewed. The county canvassing board of a county with fewer than 50,000 registered voters must select at least two precincts for postelection review. The county canvassing board of a county with between 50,000 and 100,000 registered voters must select at least three precincts for review. The county canvassing board of a county with over 100,000 registered voters must select at least four precincts. The precincts must be selected by lot at a public meeting. At least one precinct selected in each county must have had more than 150 votes cast at the general election.

The county auditor must notify the secretary of state of the precincts that have been chosen for review and the time and place the postelection review for that county will be conducted, as soon as the decisions are made. The secretary of state must post this information on the office Web site.

Subd. 3. **Scope and conduct of review.** The county canvassing board shall appoint the post election review official as defined in subdivision 1. The post election review must be conducted of the votes cast for President or governor; United States Senator; and United States Representative. The post election review official may conduct postelection review of the votes cast for additional offices.

The postelection review must be conducted in public at the location where the voted ballots have been securely stored after the state general election or at another location chosen by the county canvassing board. The post election review official for each precinct selected must conduct the postelection review and may be assisted by election judges designated by the post election review official for this purpose. The party balance requirement of section 204B.19 applies to election judges designated for the review. The postelection review must consist of a manual count of the ballots used in the precincts selected and must be performed in the manner provided by section 204C.21. The postelection review must be conducted in the manner provided for recounts under section 204C.361 to the extent practicable. The review must be completed no later than two days before the meeting of the state canvassing board to certify the results of the state general election.

Subd. 4. **Standard of acceptable performance by voting system.** A comparison of the results compiled by the voting system with the postelection review described in this section must show that the results of the electronic voting system differed by no more than one-half of one percent from the manual count of the offices reviewed. Valid votes that have been marked by the voter outside the vote targets or using a manual marking device that cannot be read by the voting system must not be included in making the determination whether the voting system has met the standard of acceptable performance for any precinct.

Subd. 5. **Additional review.** (a) If the postelection review reveals a difference greater than one-half of one percent, the post election review official must, within two days, conduct an additional review of at least three precincts in the same jurisdiction where the discrepancy was discovered. If all precincts in that jurisdiction have been reviewed, the county auditor must immediately publicly select by lot at least three additional precincts for review. The post election review official must complete the additional review within two days after the precincts are selected and report the results immediately to the county auditor. If the second review also indicates a difference in the vote totals compiled by the voting system that is greater than one-half of one percent from the result indicated by the postelection review, the county auditor must conduct a review of the ballots from all the remaining precincts in the county. This review must be completed no later than six weeks after the state general election.

(b) If the results from the countywide reviews from one or more counties comprising in the aggregate more than ten percent of the total number of persons voting in the election clearly indicate that an error in vote counting has occurred, the post election review official must conduct a manual recount of all the ballots in the district for the affected office. The recount must be completed and the results reported to the appropriate canvassing board no later than ten weeks after the state general election.

Subd. 6. **Report of results.** Upon completion of the postelection review, the post election review official must immediately report the results to the county auditor. The county auditor must then immediately submit the results of the postelection review electronically or in writing to the secretary of state not later than two days before the State Canvassing Board meets to canvass the state general election. The secretary of state shall report the results of the postelection review at the meeting of the State Canvassing Board to canvass the state general election.

Subd. 7. **Update of vote totals.** If the postelection review under this section results in a change in the number of votes counted for any candidate, the revised vote totals must be incorporated in the official result from those precincts.

Subd. 8. **Effect on voting systems.** If a voting system is found to have failed to record votes accurately and in the manner provided by the Minnesota election law, the voting system must not be used at another election until it has been examined and recertified by the secretary of state. If the voting system failure is attributable to either its design or to actions of the vendor, the vendor must forfeit the vendor bond required by section 206.57 and the performance bond required by section 206.66.

Subd. 9. **Costs of review.** The costs of the postelection review required by this section must be allocated as follows:

(1) the governing body responsible for each precinct selected for review must pay the costs incurred for the review conducted under subdivision 2 or 5, paragraph (a);

(2) the vendor of the voting system must pay any costs incurred by the secretary of state to examine and recertify the voting system; and

(3) the secretary of state must reimburse local units of government for the costs of any recount required under subdivision 5, paragraph (b).

Subd. 10. **Time for filing election contest.** The appropriate canvass is not completed and the time for notice of a contest of election does not begin to run until all reviews under this section have been completed.

Sec. 35. **[206.895] SECRETARY OF STATE MONITOR.**

The secretary of state must monitor and evaluate election procedures in precincts subject to the audit provided for in section 206.89 in at least four precincts in each congressional district. The precincts must be chosen by lot by the State Canvassing Board at its meeting to canvass the state general election.

Sec. 36. Minnesota Statutes 2005 Supplement, section 206.90, subdivision 8, is amended to read:

Subd. 8. **Duties of election officials.** The official in charge of elections in each municipality where an optical scan voting system is used shall have the electronic ballot marker that examines and marks votes on ballot cards ~~or the machine that securely transmits a ballot electronically to automatic tabulating equipment in the polling place~~ and the automatic tabulating equipment that examines and counts votes as ballot cards are deposited into ballot boxes put in order, set, adjusted, and made ready for voting when delivered to the election precincts. ~~Whenever a ballot card created by an electronic ballot marker certified by the secretary of state is rejected by an optical scan voting system, two election judges who are members of different major political parties shall transcribe the votes on the ballot rejected by the optical scan voting system pursuant to the procedures set forth in section 206.86, subdivision 5.~~
