Money from the fund for each producer shall be released by the commissioner after review by a joint committee consisting of an equal number of representatives of the salaried employees and the nonsalaried production and maintenance employees of that producer. The District 11 director of the United States Steelworkers of America, on advice of each local employee president, shall select the employee members. In nonorganized operations, the employee committee shall be elected by the nonsalaried production and maintenance employees. The review must be completed no later than six months after the producer presents a proposal for expenditure of the funds to the committee. The funds held pursuant to this section may be released only for workforce development and associated public facility improvement, or for acquisition of plant and stationary mining equipment and facilities for the producer or for research and development in Minnesota on new mining, or taconite, iron, or steel production technology, but only if the producer provides a matching expenditure to be used for the same purpose of at least 50 percent of the distribution based on 14.7 cents per ton beginning with distributions in 2002. Effective for proposals for expenditures of money from the fund beginning May 26, 2007, the commissioner may not release the funds before the next scheduled meeting of the board. The portion of the money to be repaid is 100 percent of the grant if the equipment is removed from the taconite tax relief area within 12 months after receipt of the money from the fund, declining by ten percent for each of the subsequent nine years during which the equipment remains within the taconite tax relief area. If a taconite production facility is sold after operations at the facility had ceased, any money remaining in the fund for the former producer may be released to the purchaser of the facility on the terms otherwise applicable to the former producer under this section. If a producer fails to provide matching funds for a proposed expenditure within six months after the commissioner approves release of the funds, the funds are available for release to another producer in proportion to the distribution provided and under the conditions of this section. Any portion of the fund which is not released by the commissioner within one year of its deposit in the fund shall be divided between the taconite environmental protection fund created in section 298.223 and the Douglas J. Johnson economic protection trust fund created in section 298.292 for placement in their respective special accounts. (iii) Money

distributed in 2008 to the fund established under this section that exceeds ten cents per ton is available to qualifying producers under paragraph (a) on a pro rata basis.

(c) Repayment or transfer of money to the taconite environmental protection fund under paragraph (b), item (ii), must be allocated by the Iron Range Resources and Rehabilitation Board for public works projects in house legislative districts in the same proportion as taxable tonnage of production in 2007 in each house legislative district, for distribution in 2008, bears to total taxable tonnage of production in 2007, for distribution in 2008.
