Subdivision 1. **Prior to election day.** (a) At any time except during the 20 days immediately preceding any regularly scheduled election, an eligible voter or any individual who will be an eligible voter at the time of the next election may register to vote in the precinct in which the voter maintains residence by completing a voter registration application as described in section 201.071, subdivision 1, ~~and submitting it.~~ A completed application may be submitted:

(1) in person or by mail to the county auditor of that county or to the Secretary of State's Office; or

A registration that is received in person or by mail no later than 5:00 p.m. on the 21st day preceding any election, or a registration received electronically through the secretary of state's secure Web site no later than

11:59 p.m. on the 21st day preceding any election, shall be accepted. An improperly addressed or delivered registration application shall be forwarded within two working days after receipt to the county auditor of the county where the voter maintains residence. A state or local agency or an individual that accepts completed voter registration applications from a voter must submit the completed applications to the secretary of state or the appropriate county auditor within ten calendar days after the applications are dated by the voter.

(b) An application submitted electronically under paragraph (a), clause (2), may only be transmitted to the county auditor for processing if the secretary of state has verified the application information matches the information in a government database associated with the applicant's driver's license number, state identification card number, or Social Security number. The secretary of state must review all unverifiable voter registration applications submitted electronically for evidence of suspicious activity and must forward any such application to an appropriate law enforcement agency for investigation.

An individual may not electronically submit a voter registration application on behalf of any other individual.

(c) For purposes of this section, mail registration is defined as a voter registration application delivered to the secretary of state, county auditor, or municipal clerk by the United States Postal Service or a commercial carrier.

Sec. 3. Minnesota Statutes 2012, section 201.061, is amended by adding a subdivision to read:

Subd. 8. **Web site security.** The secretary of state shall maintain a log of each Internet Protocol address used to submit a voter registration application electronically under subdivision 1, paragraph (a), clause (2), and must monitor the log, volume of Web site use, and other appropriate indicators for suspicious activity. Evidence of suspicious activity that cannot be resolved by the secretary of state must be forwarded to an appropriate law enforcement agency for investigation.

Sec. 4. Minnesota Statutes 2012, section 201.071, subdivision 1, is amended to read:

Subdivision 1. **Form.** Both paper and electronic voter registration applications must contain the same information unless otherwise provided by law. A voter registration application must be of suitable size and weight for mailing and contain spaces for the following required information: voter's first name, middle name, and last name; voter's previous name, if any; voter's current address; voter's previous address, if any; voter's date of birth; voter's municipality and county of residence; voter's telephone number, if provided by the voter; date of registration; current and valid Minnesota driver's license number or Minnesota state identification number, or if the voter has no current and valid Minnesota driver's license or Minnesota state identification, the last four digits of the voter's Social Security number; and voter's signature. The paper registration application may include the voter's e-mail address, if provided by the voter, and. The electronic voter registration application must include the voter's e-mail address. The registration application may include the voter's interest in serving as an election judge, if indicated by the voter. The application must also contain the following certification of voter eligibility:

"I certify that I:

- (1) will be at least 18 years old on election day;
- (2) am a citizen of the United States;
- (3) will have resided in Minnesota for 20 days immediately preceding election day;

(4) maintain residence at the address given on the registration form;

The certification must include boxes for the voter to respond to the following questions:

"(1) Are you a citizen of the United States?" and

"(2) Will you be 18 years old on or before election day?"

And the instruction:

"If you checked 'no' to either of these questions, do not complete this form."

A paper voter registration application must be of suitable size and weight for mailing. The form of the voter registration application and the certification of voter eligibility must be as provided in this subdivision and approved by the secretary of state. Voter registration forms authorized by the National Voter Registration Act must also be accepted as valid. The federal postcard application form must also be accepted as valid if it is not deficient and the voter is eligible to register in Minnesota.

Subd. 3. **Deficient registration.** No voter registration application is deficient if it contains the voter's name, address, date of birth, current and valid Minnesota driver's license number or Minnesota state identification number, or if the voter has no current and valid Minnesota driver's license or Minnesota state identification number, the last four digits of the voter's Social Security number, if the voter has been issued a Social Security number, prior registration, if any, and signature. The absence of a zip code number does not cause the registration to be deficient. Failure to check a box on an application form that a voter has certified to be true does not cause the registration to be deficient. The election judges shall request an individual to correct a voter registration application if it is deficient or illegible. No eligible voter may be prevented from voting unless the voter's registration application is deficient or the voter is duly and successfully challenged in accordance with section 201.195 or 204C.12.

A voter registration application accepted prior to August 1, 1983, is not deficient for lack of date of birth. The county or municipality may attempt to obtain the date of birth for a voter registration application accepted prior to August 1, 1983, by a request to the voter at any time except at the polling place. Failure by the voter to comply with this request does not make the registration deficient.

A voter registration application accepted before January 1, 2004, is not deficient for lack of a valid Minnesota driver's license or state identification number or the last four digits of a Social Security number.

A voter registration application submitted by a voter who does not have a Minnesota driver's license or state identification number, or a Social Security number, is not deficient for lack of any of these numbers.

A voter registration application submitted electronically through the Web site of the secretary of state prior to the effective date of this section is not invalid as a result of its electronic submission.
