	2016	2017
General	3,368,000	-0-
Environmental	7,031,000	7,150,000
Remediation	11,264,000	11,434,000

At the beginning of each fiscal year, the two commissioners shall jointly submit an annual spending plan to the commissioner of management and budget that maximizes the utilization of resources and appropriately allocates the money between the two departments. This appropriation is available until June 30, 2017.

\$4,279,000 the first year and \$4,343,000 the second year are from the remediation fund for purposes of the leaking underground storage tank program to investigate, clean up, and prevent future releases from underground petroleum storage tanks, and to the petroleum remediation program for purposes of vapor assessment and remediation. These same annual amounts are transferred from the petroleum tank fund to the remediation fund.

\$252,000 the first year and \$252,000 the second year are from the remediation fund for transfer to the commissioner of health for private water supply monitoring and health assessment costs in areas contaminated by unpermitted mixed municipal solid waste disposal facilities and drinking water advisories and public information activities for areas contaminated by hazardous releases.

This is a onetime transfer. The commissioner shall reimburse only a person who otherwise would not be responsible for a release or threatened release under Minnesota Statutes, section 115B.03, for all but \$10,000 of the environmental response costs incurred by the person if the commissioner determines that the costs are reasonable and were actually incurred. To be eligible for reimbursement from this transfer, a person seeking reimbursement must make a request to the commissioner, as required under Minnesota Statutes, section 115B.50, subdivision 2, on or before the day following final enactment of this act.~~

EFFECTIVE DATE. This section is effective the day following final enactment.
