Sec. 23. Minnesota Statutes 2016, section 256B.4914, subdivision 8, is amended to read:

Subd. 8. **Payments for unit-based services with programming.** Payments for unit-based services with programming, including behavior programming, housing access coordination, in-home family support, independent living skills training, individualized home supports, hourly supported living services, and supported employment provided to an individual outside of any day or residential service plan must be calculated as follows, unless the services are authorized separately under subdivision 6 or 7:

- (1) determine the number of units of service to meet a recipient's needs;

(2) personnel hourly wage rate must be based on the 2009 Bureau of Labor Statistics Minnesota-specific rates or rates derived by the commissioner as provided in subdivision 5;

(3) for a recipient requiring customization for deaf and hard-of-hearing language accessibility under subdivision 12, add the customization rate provided in subdivision 12 to the result of clause (2). This is defined as the customized direct-care rate;

(4) multiply the number of direct staff hours by the appropriate staff wage in subdivision 5, paragraph (a), or the customized direct-care rate;

(5) multiply the number of direct staff hours by the product of the supervision span of control ratio in subdivision 5, paragraph (e), clause (1), and the appropriate supervision wage in subdivision 5, paragraph (a), clause (16);

(6) combine the results of clauses (4) and (5), and multiply the result by one plus the employee vacation, sick, and training allowance ratio in subdivision 5, paragraph (e), clause (2). This is defined as the direct staffing rate;

(7) for program plan support, multiply the result of clause (6) by one plus the program plan supports ratio in subdivision 5, paragraph (e), clause (4);

(8) for employee-related expenses, multiply the result of clause (7) by one plus the employee-related cost ratio in subdivision 5, paragraph (e), clause (3);

(9) for client programming and supports, multiply the result of clause (8) by one plus the client programming and supports ratio in subdivision 5, paragraph (e), clause (5);

(10) this is the subtotal rate;

(11) sum the standard general and administrative rate, the program-related expense ratio, and the absence and utilization factor ratio;

(12) divide the result of clause (10) by one minus the result of clause (11). This is the total payment amount;

(13) for supported employment provided in a shared manner, divide the total payment amount in clause (12) by the number of service recipients, not to exceed three. For independent living skills training and individualized home supports provided in a shared manner, divide the total payment amount in clause (12) by the number of service recipients, not to exceed two; and

(14) adjust the result of clause (13) by a factor to be determined by the commissioner to adjust for regional differences in the cost of providing services.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 24. Minnesota Statutes 2016, section 256B.4914, subdivision 16, is amended to read:

Subd. 16. **Budget neutrality adjustments.** (a) The commissioner shall use the following adjustments to the rate generated by the framework to assure budget neutrality until the rate information is available to implement paragraph (b). The rate generated by the framework shall be multiplied by the appropriate factor, as designated below:

(1) for residential services: 1.003;

(2) for day services: 1.000;

(3) for unit-based services with programming: 0.941; and

(4) for unit-based services without programming: 0.796.

(b) Within 12 months of January 1, 2014, the commissioner shall compare estimated spending for all home and community-based waiver services under the new payment rates defined in subdivisions 6 to 9 with estimated spending for the same recipients and services under the rates in effect on July 1, 2013. This comparison must distinguish spending under each of subdivisions 6, 7, 8, and 9. The comparison must be based on actual recipients and services for one or more service months after the new rates have gone into effect. The commissioner shall consult with the commissioner of management and budget on this analysis to ensure budget neutrality. If estimated spending under the new rates for services under one or more subdivisions differs in this comparison by 0.3 percent or more, the commissioner shall assure aggregate budget neutrality across all service areas by adjusting the budget neutrality factor in paragraph (a) in each subdivision so that total estimated spending for each subdivision under the new rates matches estimated spending under the rates in effect on July 1, 2013.

(c) A service rate developed using values in subdivision 5, paragraph (a), clause (11), is not subject to budget neutrality adjustments.

EFFECTIVE DATE. This section is effective the day following final enactment.
