No person shall operate a snowmobile within the right-of-way of any trunk, county state-aid, or county highway between the hours of one-half hour after sunset to one-half hour before sunrise, except on the right-hand side of such right-of-way and in the same direction as the highway traffic on the nearest lane of the roadway adjacent thereto. No snowmobile shall be operated at any time within the right-of-way of any interstate highway or freeway within this state.

(b) Notwithstanding any provision of paragraph (a) to the contrary:

(1) under conditions prescribed by the commissioner of transportation, the commissioner of transportation may allow two-way operation of snowmobiles on either side of the trunk highway right-of-way where the commissioner of transportation determines that two-way operation will not endanger users of the trunk highway or riders of the snowmobiles using the trail;

(2) under conditions prescribed by a local road authority as defined in section 160.02, subdivision 25, the road authority may allow two-way operation of snowmobiles on either side of the right-of-way of a street or highway under the road authority's jurisdiction, where the road authority determines that two-way operation will not endanger users of the street or highway or riders of the snowmobiles using the trail;

(2) the snowmobile is brought to a complete stop before crossing the shoulder or main traveled way of the highway; ~~and~~

(3) the driver yields the right-of-way to all oncoming traffic which constitutes an immediate hazard; ~~and~~

(4) in crossing a divided highway, the crossing is made only at an intersection of such highway with another public street or highway; ~~and~~

(5) if the crossing is made between the hours of one-half hour after sunset to one-half hour before sunrise or in conditions of reduced visibility, only if both front and rear lights are on; and

(6) a snowmobile may be operated upon a bridge, other than a bridge that is part of the main traveled lanes of an interstate highway, when required for the purpose of avoiding obstructions to travel when no other method of avoidance is possible; provided the snowmobile is operated in the extreme right-hand lane, the entrance to the roadway is made within 100 feet of the bridge and the crossing is made without undue delay.

(d) No snowmobile shall be operated upon a public street or highway unless it is equipped with at least one headlamp, one tail lamp, each of minimum candlepower as prescribed by rules of the commissioner, reflector material of a minimum area of 16 square inches mounted on each side forward of the handle bars, and with brakes each of which shall conform to standards prescribed by rule of the commissioner pursuant to the authority vested in the commissioner by section 84.86, and each of which shall be subject to approval of the commissioner of public safety.

(f) All provisions of chapters 169 and 169A shall apply to the operation of snowmobiles upon streets and highways, except for those relating to required equipment, and except those which by their nature have no application. Section 169.09 applies to the operation of snowmobiles anywhere in the state or on the ice of any boundary water of the state.

(g) Any sled, trailer, or other device being towed by a snowmobile must be equipped with reflective materials as required by rule of the commissioner.

Sec. 21. Minnesota Statutes 2021 Supplement, section 116.07, subdivision 7, is amended to read:

Subd. 7. **Counties; processing applications for animal lot permits.** (a) Any Minnesota county board may, by resolution, with approval of the Pollution Control Agency, assume responsibility for processing applications for permits required by the Pollution Control Agency under this section for livestock feedlots, poultry lots or other animal lots. The responsibility for permit application processing, if assumed by a county, may be delegated by the county board to any appropriate county officer or employee.

(b) For the purposes of this subdivision, the term "processing" includes:

(1) the distribution to applicants of forms provided by the Pollution Control Agency;

(2) the receipt and examination of completed application forms, and the certification, in writing, to the Pollution Control Agency either that the animal lot facility for which a permit is sought by an applicant will comply with applicable rules and standards, or, if the facility will not comply, the respects in which a variance would be required for the issuance of a permit; and

(3) rendering to applicants, upon request, assistance necessary for the proper completion of an application.

(c) For the purposes of this subdivision, the term "processing" may include, at the option of the county board, issuing, denying, modifying, imposing conditions upon, or revoking permits pursuant to the provisions of this section or rules promulgated pursuant to it, subject to review, suspension, and reversal by the Pollution Control Agency. The Pollution Control Agency shall, after written notification, have 15 days to review, suspend, modify, or reverse the issuance of the permit. After this period, the action of the county board is final, subject to appeal as provided in chapter 14. For permit applications filed after October 1, 2001, section 15.99 applies to feedlot permits issued by the agency or a county pursuant to this subdivision.

(d) For the purpose of administration of rules adopted under this subdivision, the commissioner and the agency may provide exceptions for cases where the owner of a feedlot has specific written plans to close the feedlot within five years. These exceptions include waiving requirements for major capital improvements.

(e) For purposes of this subdivision, a discharge caused by an extraordinary natural event such as a precipitation event of greater magnitude than the 25-year, 24-hour event, tornado, or flood in excess of the 100-year flood is not a "direct discharge of pollutants."

(f) In adopting and enforcing rules under this subdivision, the commissioner shall cooperate closely with other governmental agencies.

(g) The Pollution Control Agency shall work with the Minnesota Extension Service, the Department of Agriculture, the Board of Water and Soil Resources, producer groups, local units of government, as well as with appropriate federal agencies such as the Natural Resources Conservation Service and the Farm Service Agency, to notify and educate producers of rules under this subdivision at the time the rules are being developed and adopted and at least every two years thereafter.

(h) The Pollution Control Agency shall adopt rules governing the issuance and denial of permits for livestock feedlots, poultry lots or other animal lots pursuant to this section. Pastures are exempt from the rules authorized under this paragraph. No feedlot permit shall include any terms or conditions that impose any requirements related to any pastures owned or utilized by the feedlot operator other than restrictions under a manure management plan. A feedlot permit is not required for livestock feedlots with more than ten but less than 50 animal units; provided they are not in shoreland areas. A livestock feedlot permit does not become required solely because of a change in the ownership of the buildings, grounds, or feedlot. These

rules apply both to permits issued by counties and to permits issued by the Pollution Control Agency directly. ~~No feedlot permit issued by the Pollution Control Agency shall include terms or conditions that:~~

~~(1) impose requirements related to pastures owned or used by the feedlot operator other than restrictions under a manure management plan; or~~

~~(2) require implementing nitrogen best management practices as a condition of allowing application of manure in October.~~

(i) The Pollution Control Agency shall exercise supervising authority with respect to the processing of animal lot permit applications by a county.

(j) Any new rules or amendments to existing rules proposed under the authority granted in this subdivision, or to implement new fees on animal feedlots, must be submitted to the members of legislative policy and finance committees with jurisdiction over agriculture and the environment prior to final adoption. The rules must not become effective until 90 days after the proposed rules are submitted to the members.

(k) Until new rules are adopted that provide for plans for manure storage structures, any plans for a liquid manure storage structure must be prepared or approved by a registered professional engineer or a United States Department of Agriculture, Natural Resources Conservation Service employee.

(l) A county may adopt by ordinance standards for animal feedlots that are more stringent than standards in Pollution Control Agency rules.

(m) After January 1, 2001, a county that has not accepted delegation of the feedlot permit program must hold a public meeting prior to the agency issuing a feedlot permit for a feedlot facility with 300 or more animal units, unless another public meeting has been held with regard to the feedlot facility to be permitted.

(n) After the proposed rules published in the State Register, volume 24, number 25, are finally adopted, the agency may not impose additional conditions as a part of a feedlot permit, unless specifically required by law or agreed to by the feedlot operator.

(o) For the purposes of feedlot permitting, a discharge from land-applied manure or a manure stockpile that is managed according to agency rule must not be subject to a fine for a discharge violation.

(p) For the purposes of feedlot permitting, manure that is land applied, or a manure stockpile that is managed according to agency rule, must not be considered a discharge into waters of the state, unless the discharge is to waters of the state, as defined by section 103G.005, subdivision 17, except type 1 or type 2 wetlands, as defined in section 103G.005, subdivision 17b, and does not meet discharge standards established for feedlots under agency rule.

(q) Unless the upgrade is needed to correct an immediate public health threat under section 145A.04, subdivision 8, or the facility is determined to be a concentrated animal feeding operation under Code of Federal Regulations, title 40, section 122.23, in effect on April 15, 2003, the agency may not require a feedlot operator:

(1) to spend more than \$3,000 to upgrade an existing feedlot with less than 300 animal units unless cost-share money is available to the feedlot operator for 75 percent of the cost of the upgrade; or

(2) to spend more than \$10,000 to upgrade an existing feedlot with between 300 and 500 animal units, unless cost-share money is available to the feedlot operator for 75 percent of the cost of the upgrade or \$50,000, whichever is less.

(r) A feedlot operator who stores and applies up to 100,000 gallons per calendar year of private truck wash wastewater resulting from trucks that transport animals or supplies to and from the feedlot does not require a permit to land-apply industrial by-products if the feedlot operator stores and applies the wastewater in accordance with Pollution Control Agency requirements for land applications of industrial by-product that do not require a permit.

(s) A feedlot operator who holds a permit from the Pollution Control Agency to land-apply industrial by-products from a private truck wash is not required to have a certified land applicator apply the private truck wash wastewater if the wastewater is applied by the feedlot operator to cropland owned or leased by the feedlot operator or by a commercial animal waste technician licensed by the commissioner of agriculture under chapter 18C. For purposes of this paragraph and paragraph (r), "private truck wash" means a truck washing facility owned or leased, operated, and used only by a feedlot operator to wash trucks owned or leased by the feedlot operator and used to transport animals or supplies to and from the feedlot.

(i) "Remedial response" means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of the student who is the target of the prohibited conduct. ~~Districts and schools may seek the assistance of the school safety technical assistance center under section 127A.052 to develop and implement remedial responses on behalf of a student who is the target of prohibited conduct, to stop and correct a student engaging in prohibited conduct, and for use with students and adults in the school community.~~

The board may suspend a teacher with pay pending the conclusion of the hearing and determination of the issues raised in the hearing after charges have been filed which constitute ground for discharge. If a teacher has been charged with a felony and the underlying conduct that is the subject of the felony charge is a ground for a proposed immediate discharge, the suspension pending the conclusion of the hearing and determination of the issues may be without pay. If a hearing under this paragraph is held, the board must reimburse the teacher for any salary or compensation withheld if the final decision of the board or the arbitrator does not result in a penalty to or suspension, termination, or discharge of the teacher.

Unless otherwise noted, the distance between axles must be measured longitudinally to the nearest even foot, and when the measurement is a fraction of exactly one-half foot the next largest whole number in feet shall be used, except that when the distance between axles is more than three feet four inches and less than three feet six inches the distance of four feet shall be used.

(d) The gross weights shown without parentheses in the axle weight limits table are allowed on unpaved streets and highways, unless posted to a lesser weight under section 169.87, subdivision 1. The gross weights shown in this table, whether within or without parentheses, are allowed on paved streets and highways, unless posted to a lesser weight under section 169.87, subdivision 1. Gross weights in excess of 80,000 pounds require an overweight permit under this chapter, unless otherwise allowed under section 169.826.

(e) Notwithstanding any lesser weight shown in the axle weight limits table, but subject to the restrictions on gross vehicle weights in subdivision 2, ~~paragraph (a)~~ clauses (1) and (2), two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each and a combined gross load of 68,000 pounds provided the overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more.

Sec. 73. Minnesota Statutes 2020, section 169.851, subdivision 3, is amended to read:

Subd. 3. **First haul.** "First haul" has the meaning given it in section 168.013, subdivision 3, paragraph (d), clause (3).

Sec. 74. Minnesota Statutes 2020, section 169.86, subdivision 1, is amended to read:

Subdivision 1. **Permit authorities; restrictions.** (a) The commissioner, with respect to highways under the commissioner's jurisdiction, and local authorities, with respect to highways under their jurisdiction, may, in their discretion, upon application in writing and good cause being shown therefor, issue a special permit, in writing, authorizing the applicant to move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this chapter, exceeding the gross weight for which the vehicle is registered under chapter 168, or otherwise not in conformity with the provisions of this chapter, upon any highway under the jurisdiction of the party granting such permit and for the maintenance of which such party is responsible.

(b) Permits relating to over-width, over-length manufactured homes shall not be issued to persons other than manufactured home dealers or manufacturers for movement of new units owned by the manufactured home dealer or manufacturer, until the person has presented a statement from the county auditor and treasurer where the unit is presently located, stating that all personal and real property taxes have been paid. Upon payment of the most recent single year delinquent personal property or current year taxes only, the county auditor or treasurer must issue a taxes paid statement to a manufactured home dealer or a financial institution desiring to relocate a manufactured home that has been repossessed. This statement must be dated within 30 days of the contemplated move. The statement from the county auditor and treasurer where the unit is presently located, stating that all personal and real property taxes have been paid, may be made by telephone. If the statement is obtained by telephone, the permit shall contain the date and time of the telephone call and the names of the persons in the auditor's office and treasurer's office who verified that all personal and real property taxes had been paid.

(c) The commissioner may not grant a permit authorizing the movement, in a three-vehicle combination, of a semitrailer or trailer that exceeds 28-1/2 feet, except that the commissioner (1) may renew a permit that was granted before April 16, 1984, for the movement of a semitrailer or trailer that exceeds the length limitation in section 169.81, subdivision 2, or (2) may grant a permit authorizing the transportation of empty trailers that exceed 28-1/2 feet when using a B-train hitching mechanism as defined in Code of Federal Regulations, title 23, section 658.5, ~~paragraph (e)~~, from a point of manufacture in the state to the state border.

(d) The state as to state trunk highways, a statutory or home rule charter city as to streets in the city, or a town as to roads in the town, may issue permits authorizing the transportation of combinations of vehicles exceeding the limitations in section 169.81, subdivisions 2a and 3, over highways, streets, or roads within its boundaries. Combinations of vehicles authorized by this paragraph may be restricted as to the use of state trunk highways by the commissioner, to the use of streets by the city road authority, and to the use of roads by the town road authority. Nothing in this paragraph or section 169.81, subdivisions 2a and 3, alters or changes the authority vested in local authorities under section 169.04.

Sec. 75. Minnesota Statutes 2020, section 169.86, subdivision 5, is amended to read:

Subd. 5. **Fees; proceeds deposited; appropriation.** The commissioner, with respect to highways under the commissioner's jurisdiction, may charge a fee for each permit issued. The fee for an annual permit that expires by law on the date of the vehicle registration expiration must be based on the proportion of the year that remains until the expiration date. All fees for permits issued by the commissioner of transportation must be deposited as provided in paragraph (i) and in section 174.525. Except for those annual permits for which the permit fees are specified elsewhere in this chapter, the fees are:

(a) \$15 for each single trip permit.

(b) \$36 for each job permit. A job permit may be issued for like loads carried on a specific route for a period not to exceed two months. "Like loads" means loads of the same product, weight, and dimension.

(c) \$60 for an annual permit to be issued for a period not to exceed 12 consecutive months. Annual permits may be issued for:

(1) motor vehicles used to alleviate a temporary crisis adversely affecting the safety or well-being of the public;

(2) motor vehicles that travel on interstate highways and carry loads authorized under subdivision 1a;

(3) motor vehicles operating with gross weights authorized under section 169.826, subdivision 1a;

(4) special pulpwood vehicles described in section 169.863;

(5) motor vehicles bearing snowplow blades not exceeding ten feet in width;

(6) noncommercial transportation of a boat by the owner or user of the boat; and

(7) motor vehicles carrying bales of agricultural products authorized under section 169.862.

(d) \$120 for an oversize annual permit to be issued for a period not to exceed 12 consecutive months. Annual permits may be issued for:

(1) mobile cranes;

(2) construction equipment, machinery, and supplies;

(3) manufactured homes and manufactured storage buildings;

(4) implements of husbandry;

(5) double-deck buses;

(6) commercial boat hauling and transporting waterfront structures, including, but not limited to, portable boat docks and boat lifts; and

(7) three-vehicle combinations consisting of two empty, newly manufactured trailers for cargo, horses, or livestock, not to exceed 28-1/2 feet per trailer; provided, however, the permit allows the vehicles to be moved from a trailer manufacturer to a trailer dealer only while operating on twin-trailer routes designated under section 169.81, subdivision 3, paragraph (c).

(e) For vehicles that have axle weights exceeding the weight limitations of sections 169.823 to 169.829, an additional cost added to the fees listed above. However, this paragraph applies to any vehicle described in section 168.013, subdivision 3, paragraph (b), but only when the vehicle exceeds its gross weight allowance set forth in that paragraph, and then the additional cost is for all weight, including the allowance weight, in excess of the permitted maximum axle weight. The additional cost is equal to the product of the distance traveled times the sum of the overweight axle group cost factors shown in the following chart:

#### Overweight Axle Group Cost Factors

Weight (pounds)

Cost Per Mile For Each Group Of:

exceeding weight limitations on axles	Two consecutive axles spaced within 8 feet or less	Three consecutive axles spaced within 9 feet or less	Four consecutive axles spaced within 14 feet or less
0-2,000	.12	.05	.04
2,001-4,000	.14	.06	.05
4,001-6,000	.18	.07	.06

14,001-16,000	Not permitted	.17	.12
16,001-18,000	Not permitted	.19	.15
18,001-20,000	Not permitted	Not permitted	.16
20,001-22,000	Not permitted	Not permitted	.20

The amounts added are rounded to the nearest cent for each axle or axle group. The additional cost does not apply to paragraph (c), clauses (1) and (3).

For a vehicle found to exceed the appropriate maximum permitted weight, a cost-per-mile fee of 22 cents per ton, or fraction of a ton, over the permitted maximum weight is imposed in addition to the normal permit fee. Miles must be calculated based on the distance already traveled in the state plus the distance from the point of detection to a transportation loading site or unloading site within the state or to the point of exit from the state.

(f) As an alternative to paragraph (e), an annual permit may be issued for overweight, or oversize and overweight, mobile cranes; construction equipment, machinery, and supplies; implements of husbandry; and commercial boat hauling. The fees for the permit are as follows:

Gross Weight (pounds) of Vehicle	Annual Permit Fee
90,000 or less	\$200
90,001 - 100,000	\$300
100,001 - 110,000	\$400
110,001 - 120,000	\$500
120,001 - 130,000	\$600
130,001 - 140,000	\$700

140,001 - 145,000	\$800
145,001 - 155,000	\$900

If the gross weight of the vehicle is more than 155,000 pounds the permit fee is determined under paragraph (c).

(g) For vehicles which exceed the width limitations set forth in section 169.80 by more than 72 inches, an additional cost equal to \$120 added to the amount in paragraph (a) when the permit is issued while seasonal load restrictions pursuant to section 169.87 are in effect.

(h) \$85 for an annual permit to be issued for a period not to exceed 12 months, for refuse-compactor vehicles that carry a gross weight of not more than: 22,000 pounds on a single rear axle; 38,000 pounds on a tandem rear axle; or, subject to section 169.828, subdivision 2, 46,000 pounds on a tridem rear axle. A permit issued for up to 46,000 pounds on a tridem rear axle must limit the gross vehicle weight to not more than 62,000 pounds.

(i) \$300 for a motor vehicle described in section 169.8261. The fee under this paragraph must be deposited as follows:

(1) the first \$50,000 in each fiscal year must be deposited in the trunk highway fund for costs related to administering the permit program and inspecting and posting bridges; and

(2) all remaining money in each fiscal year must be deposited in the bridge inspection and signing account as provided under subdivision 5b.

(j) ~~Beginning August 1, 2006,~~ \$200 for an annual permit for a vehicle operating under authority of section 169.824, subdivision 2, clause (2).

Sec. 76. Minnesota Statutes 2021 Supplement, section 169.8665, subdivision 3, is amended to read:

Subd. 3. **Restrictions.** (a) A vehicle issued a permit under subdivision 1 or 2:

(1) is subject to the axle weight limits in section 169.824;

(2) is subject to bridge load limits posted pursuant to section 169.84;

(3) is subject to seasonal load restrictions under section 169.87;

(4) may not be operated with a load that exceeds the tire manufacturer's recommended load under section 169.823, the manufacturer's gross vehicle weight rating as affixed to the vehicle, or other certification of gross weight rating under Code of Federal Regulations, title 49, sections 567.4 to 567.7;

(5) may not be operated on the interstate highway system; and

(6) may be operated on streets or highways under the control of a local authority only upon the approval of the local authority. However, vehicles may have reasonable access to terminals and facilities for food, fuel, repairs, and rest, and for continuity of route within one mile of the national network as provided by section 169.81, subdivision 3, and Code of Federal Regulations, title 23, section 658.19.

(b) The seasonal weight increases authorized under section ~~169.829~~ 169.826 do not apply to permits issued under this section.

Sec. 77. Minnesota Statutes 2020, section 169.871, subdivision 1b, is amended to read:

(b) Medical assistance covers medical transportation costs incurred solely for obtaining emergency medical care or transportation costs incurred by eligible persons in obtaining emergency or nonemergency medical care when paid directly to an ambulance company, nonemergency medical transportation company, or other recognized providers of transportation services. Medical transportation must be provided by:

- (1) nonemergency medical transportation providers who meet the requirements of this subdivision;

All nonemergency medical transportation providers shall bill for nonemergency medical transportation services in accordance with Minnesota health care programs criteria. Publicly operated transit systems, volunteers, and not-for-hire vehicles are exempt from the requirements outlined in this paragraph.

(d) An organization may be terminated, denied, or suspended from enrollment if:

(1) the provider has not initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

(2) the provider has initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

(ii) the individual has not received a disqualification set-aside specific to the special transportation services provider under sections 245C.22 and 245C.23.

(4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single administrative structure assessment tool that meets the technical requirements established by the commissioner, reconciles trip information with claims being submitted by providers, and ensures prompt payment for nonemergency medical transportation services.

(f) Until the commissioner implements the single administrative structure and delivery system under subdivision 18e, clients shall obtain their level-of-service certificate from the commissioner or an entity approved by the commissioner that does not dispatch rides for clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).

(g) The commissioner may use an order by the recipient's attending physician, advanced practice registered nurse, or a medical or mental health professional to certify that the recipient requires nonemergency medical transportation services. Nonemergency medical transportation providers shall perform driver-assisted services for eligible individuals, when appropriate. Driver-assisted service includes passenger pickup at and return to the individual's residence or place of business, assistance with admittance of the individual to the medical facility, and assistance in passenger securement or in securing of wheelchairs, child seats, or stretchers in the vehicle.

Nonemergency medical transportation providers must take clients to the health care provider using the most direct route, and must not exceed 30 miles for a trip to a primary care provider or 60 miles for a trip to a specialty care provider, unless the client receives authorization from the local agency.

Nonemergency medical transportation providers may not bill for separate base rates for the continuation of a trip beyond the original destination. Nonemergency medical transportation providers must maintain trip logs, which include pickup and drop-off times, signed by the medical provider or client, whichever is deemed most appropriate, attesting to mileage traveled to obtain covered medical services. Clients requesting client mileage reimbursement must sign the trip log attesting mileage traveled to obtain covered medical services.

(h) The administrative agency shall use the level of service process established by the commissioner ~~in consultation with the Nonemergency Medical Transportation Advisory Committee~~ to determine the client's most appropriate mode of transportation. If public transit or a certified transportation provider is not available to provide the appropriate service mode for the client, the client may receive a onetime service upgrade.

(i) The covered modes of transportation are:

(1) client reimbursement, which includes client mileage reimbursement provided to clients who have their own transportation, or to family or an acquaintance who provides transportation to the client;

(2) volunteer transport, which includes transportation by volunteers using their own vehicle;

(7) stretcher transport, which includes transport for a client in a prone or supine position and requires a nonemergency medical transportation provider with a vehicle that can transport a client in a prone or supine position.

(j) The local agency shall be the single administrative agency and shall administer and reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the commissioner has developed, made available, and funded the web-based single administrative structure, assessment tool, and level of need assessment under subdivision 18e. The local agency's financial obligation is limited to funds provided by the state or federal government.

(m) Payments for nonemergency medical transportation must be paid based on the client's assessed mode under paragraph (h), not the type of vehicle used to provide the service. The medical assistance reimbursement rates for nonemergency medical transportation services that are payable by or on behalf of the commissioner for nonemergency medical transportation services are:

(1) \$0.22 per mile for client reimbursement;

(2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer transport;

(5) \$18 for the base rate and \$1.55 per mile for lift-equipped/ramp transport;

(6) \$75 for the base rate and \$2.40 per mile for protected transport; and

(7) \$60 for the base rate and \$2.40 per mile for stretcher transport, and \$9 per trip for an additional attendant if deemed medically necessary.

(n) The base rate for nonemergency medical transportation services in areas defined under RUCA to be super rural is equal to 111.3 percent of the respective base rate in paragraph (m), clauses (1) to (7). The mileage rate for nonemergency medical transportation services in areas defined under RUCA to be rural or super rural areas is:

(1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage rate in paragraph (m), clauses (1) to (7); and

(2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage rate in paragraph (m), clauses (1) to (7).

(o) For purposes of reimbursement rates for nonemergency medical transportation services under paragraphs (m) and (n), the zip code of the recipient's place of residence shall determine whether the urban, rural, or super rural reimbursement rate applies.

(p) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means a census-tract based classification system under which a geographical area is determined to be urban, rural, or super rural.

(q) The commissioner, when determining reimbursement rates for nonemergency medical transportation under paragraphs (m) and (n), shall exempt all modes of transportation listed under paragraph (i) from Minnesota Rules, part 9505.0445, item R, subitem (2).

In coordination with the Department of Transportation, the commissioner shall develop and authorize a web-based single administrative structure and assessment tool, which must operate 24 hours a day, seven days a week, to facilitate the enrollee assessment process for nonemergency medical transportation services. The web-based tool shall facilitate the transportation eligibility determination process initiated by clients and client advocates; shall include an accessible automated intake and assessment process and real-time identification of level of service eligibility; and shall authorize an appropriate and auditable mode of transportation authorization. The tool shall provide a single framework for reconciling trip information with claiming and collecting complaints regarding inappropriate level of need determinations, inappropriate transportation modes utilized, and interference with accessing nonemergency medical transportation. The web-based single administrative structure shall operate on a trial basis for one year from implementation and, if approved by the commissioner, shall be permanent thereafter. ~~The commissioner shall seek input from the Nonemergency Medical Transportation Advisory Committee to ensure the software is effective and user friendly and make recommendations regarding funding of the single administrative system.~~

Sec. 147. Minnesota Statutes 2020, section 299F.19, subdivision 2, is amended to read:

Subd. 2. **Blasting agent defined; explosives classified.** For the purposes of this section and the rules adopted pursuant to this section:

(a) "Blasting agent" means any material or mixture, consisting of a fuel and oxidizer, intended for blasting, not otherwise classified as an explosive and in which none of the ingredients is classified as an explosive; providing that, the finished product, as mixed and packaged for use or shipment, cannot be detonated by means of a number 8 test blasting cap when unconfined. "Blasting agent" does not include flammable liquids or flammable gases.

(b) "Explosive" means any chemical compound, mixture, or device, the primary or common purpose of which is to function by explosion. The term includes, but is not limited to, dynamite, black powder, pellet powder, initiating explosives, detonators, safety fuses, squibs, detonating cord, igniter cord, igniters, display fireworks, and class 1.3G fireworks (formerly classified as Class B special fireworks). "Explosive" includes any material determined to be within the scope of United States Code, title 18, chapter 40, and also includes any material classified as an explosive other than consumer fireworks, 1.4G (Class C, Common), by the hazardous materials regulations of the United States Department of Transportation (DOTn) in Code of Federal Regulations, title 49.

(c) Explosives are divided into four categories and are defined as follows:

(1) High explosive: explosive material, such as dynamite, that can be caused to detonate by means of a number ~~eight~~ 8 test blasting cap when unconfined.

(2) Low explosive: explosive material that will burn or deflagrate when ignited, characterized by a rate of reaction that is less than the speed of sound, including, but not limited to, black powder, safety fuse, igniters, igniter cord, fuse lighters, class 1.3G fireworks (formerly classified as Class B special fireworks), and class 1.3C propellants.

(3) Mass-detonating explosives: division 1.1, 1.2, and 1.5 explosives alone or in combination, or loaded into various types of ammunition or containers, most of which can be expected to explode virtually instantaneously when a small portion is subjected to fire, severe concussion, impact, the impulse of an initiating agent, or the effect of a considerable discharge of energy from without. Materials that react in this manner represent a mass explosion hazard. Such an explosive will normally cause severe structural damage to adjacent objects. Explosive propagation could occur immediately to other items of ammunition and explosives stored sufficiently close to and not adequately protected from the initially exploding pile with a time interval short enough so that two or more quantities must be considered as one for quantity-distance purposes.

(4) United Nations/United States Department of Transportation (UN/DOTh) Class 1 explosives: the hazard class of explosives that further defines and categorizes explosives under the current system applied by DOTn for all explosive materials into further divisions as follows, with the letter G identifying the material as a pyrotechnic substance or article containing a pyrotechnic substance and similar materials:

(i) Division 1.1 explosives have a mass explosion hazard. A mass explosion is one that affects almost the entire load instantaneously.

(ii) Division 1.2 explosives have a projection hazard but not a mass explosion hazard.

(iii) Division 1.3 explosives have a fire hazard and either a minor blast hazard or a minor projection hazard or both, but not a mass explosion hazard.

(iv) Division 1.4 explosives pose a minor explosion hazard. The explosive effects are largely confined to the package and no projection of fragments of appreciable size or range is to be expected. An external fire must not cause virtually instantaneous explosion of almost the entire contents of the package.

(v) Division 1.5 explosives are very insensitive and are comprised of substances that have a mass explosion hazard, but are so insensitive that there is very little probability of initiation or of transition from burning to detonation under normal conditions of transport.

(vi) Division 1.6 explosives are extremely insensitive and do not have a mass explosion hazard, comprised of articles that contain only extremely insensitive detonating substances and that demonstrate a negligible probability of accidental initiation or propagation.

Sec. 148. Minnesota Statutes 2020, section 299F.40, subdivision 2, is amended to read:

the surface of the container for a period of not less than one year prior to the final enactment and approval of this section on or before April 28, 1956, or (4) any manufacturer of a container who has not sold or transferred ownership thereof by written bill of sale or otherwise.

(c) The term "liquefied petroleum gas" as used in this section shall mean and include any material which is composed predominantly of any of the following hydrocarbons or mixtures of the same: propane, propylene, butanes (normal butane and iso-butane), and butylenes.

(d) The term "industrial gas" as used in this section shall mean and include any material which is composed exclusively of any of the following gases or mixtures of them: oxygen, acetylene, nitrogen, argon, and carbon dioxide.

Subd. 7. **Sales after 1:00 a.m.; permit fee.** (a) No licensee may sell intoxicating liquor or 3.2 percent malt liquor on-sale between the hours of 1:00 a.m. and 2:00 a.m. unless the licensee has obtained a permit from the commissioner. Application for the permit must be on a form the commissioner prescribes. Permits are effective for one year from date of issuance. For retailers of intoxicating liquor, the fee for the permit is based on the licensee's gross receipts from on-sales of alcoholic beverages in the 12 months prior to the month in which the permit is issued, and is at the following rates:

- (1) up to \$100,000 in gross receipts, \$300;
- (2) over \$100,000 but not over \$500,000 in gross receipts, \$750; and
- (3) over \$500,000 in gross receipts, \$1,000.

For a licensed retailer of intoxicating liquor who did not sell intoxicating liquor at on-sale for a full 12 months prior to the month in which the permit is issued, the fee is \$200. For a retailer of 3.2 percent malt liquor, the fee is \$200.

- (2) begins receipt of a retirement annuity under chapter 352 before age 62 while employed by the employer which assumed operations of the medical facility or other public employing unit or purchased the medical facility or other public employing unit.

Sec. 154. Minnesota Statutes 2020, section 353G.08, subdivision 1, is amended to read:

Subdivision 1. **Annual funding requirements; lump-sum retirement division.** (a) Annually, the executive director shall determine the funding requirements of each account in the lump-sum retirement division of the statewide volunteer firefighter plan on or before August 1. The funding requirements computed under this subdivision must be determined using a mathematical procedure developed and certified as accurate by the approved actuary retained by the Public Employees Retirement Association and must be based on present value factors using a six percent ~~interest~~ investment return rate, without any decrement

assumptions. The funding requirements must be certified to the entity or entities associated with the fire department whose active firefighters are covered by the retirement plan.

(b) The overall funding balance of each lump-sum account for the current calendar year must be determined in the following manner:

(1) The total accrued liability for all active and deferred members of the account as of December 31 of the current year must be calculated based on the good time service credit of active and deferred members as of that date.

(2) The total present assets of the account projected to December 31 of the current year, including receipts by and disbursements from the account anticipated to occur on or before December 31, must be calculated. To the extent possible, the market value of assets must be utilized in making this calculation.

(3) The amount of the total present assets calculated under clause (2) must be subtracted from the amount of the total accrued liability calculated under clause (1). If the amount of total present assets exceeds the amount of the total accrued liability, then the account is considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the account is considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund is considered to be fully funded.

(c) The financial requirements of each lump-sum account for the following calendar year must be determined in the following manner:

(1) The total accrued liability for all active and deferred members of the account as of December 31 of the calendar year next following the current calendar year must be calculated based on the good time service used in the calculation under paragraph (b), clause (1), increased by one year.

(2) The increase in the total accrued liability of the account for the following calendar year over the total accrued liability of the account for the current year must be calculated.

(3) The amount of administrative expenses of the account must be calculated by multiplying the per-person dollar amount of the administrative expenses for the most recent prior calendar year by the number of active and deferred firefighters reported to PERA on the most recent good time service credit certification form for each account.

(4) If the account is fully funded, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3).

(5) If the account has a deficit from full funding, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3) plus an amount equal to one-tenth of the amount of the deficit from full funding of the account.

(6) If the account has a surplus over full funding, the financial requirement of the account for the following calendar year is the financial requirement of the account calculated as though the account was fully funded under clause (4) and, if the account has also had a surplus over full funding during the prior two years, additionally reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the account.

(d) The required contribution of the entity or entities associated with the fire department whose active firefighters are covered by the lump-sum retirement division is the annual financial requirements of the lump-sum account of the retirement plan under paragraph (c) reduced by the amount of any fire state aid

payable under chapter 477B or police and firefighter retirement supplemental state aid payable under section 423A.022 that is reasonably anticipated to be received by the retirement plan attributable to the entity or entities during the following calendar year, and an amount of interest on the assets projected to be received during the following calendar year calculated at the rate of six percent per annum. The required contribution must be allocated between the entities if more than one entity is involved. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

(e) The required contribution calculated in paragraph (d) must be paid to the retirement plan on or before December 31 of the year for which it was calculated. If the contribution is not received by the retirement plan by December 31, it is payable with interest at an annual compound rate of six percent from the date due until the date payment is received by the retirement plan. If the entity does not pay the full amount of the required contribution, the executive director shall collect the unpaid amount under section 353.28, subdivision 6.

Sec. 155. Minnesota Statutes 2020, section 354.35, subdivision 1, is amended to read:

Subdivision 1. **Normal retirement age definition.** For purposes of this section, "normal retirement age" means normal retirement age as defined in United States Code, title 42, section ~~416(f)~~ 416(l), as amended.

Subd. 5. **Variance from standards.** A document should conform to the standards in section 507.093, ~~paragraph (a)~~, but should not be rejected unless the document is not legible or cannot be archived. This subdivision applies only to documents dated after July 31, 1997, and does not apply to Minnesota uniform conveyancing blanks on file in the office of the commissioner of commerce provided for under section 507.09, certified copies, or any other form provided for under Minnesota Statutes.

Sec. 157. Minnesota Statutes 2020, section 360.065, subdivision 1, is amended to read:

Subdivision 1. **Notice of proposed zoning regulations, hearing.** (a) No airport zoning regulations shall be adopted, amended, or changed under sections 360.011 to 360.076, except by action of the governing body of the municipality, county, or joint airport zoning board under section 360.0655 or 360.0656, or the boards provided for in section 360.063, subdivisions 3 and 7, or by the commissioner as provided in section 360.063, subdivisions 6 and 8.

(b) A public hearing must be held on the airport zoning regulations proposed by a municipality, county, or joint airport zoning board before they are submitted to the commissioner for approval. If any changes that alter the regulations placed on a parcel of land are made to the proposed airport zoning regulations after the initial public hearing, the municipality, county, or joint airport zoning board must hold a second public hearing before final adoption of the regulation. The commissioner may require a second hearing as determined necessary.

(c) Notice of a hearing must be published by the municipality, county, or joint airport zoning board at least three times during the period between 15 days and five days before the hearing in an official newspaper and in a second newspaper designated by that authority which has a wide general circulation in the area affected by the proposed regulations and posted on the municipality's, county's, or joint airport zoning board's website. If there is not a second newspaper of wide general circulation in the area that the municipality, county, or joint airport zoning board can designate for the notice, the municipality, county, or joint airport

zoning board is only required to publish the notice once in the official newspaper of the jurisdiction. The notice shall not be published in the legal notice section of a newspaper. The notice must specify the time, location, and purpose of the hearing, and must identify any additional location and time the proposed regulations will be available for public inspection. A copy of the published notice must be added to the record of the proceedings.

(d) Notice of a hearing must be given by mail at least ten days before each hearing to persons and landowners where the location or size of a building, or the density of population, will be regulated. Mailed notice must also be provided at least ten days before each hearing to persons or municipalities that have previously requested such notice from the municipality, county, or joint airport zoning board. The notice must specify the time, location, and purpose of the hearing, and must identify any additional location and time the proposed regulations will be made available for public inspection. Mailed notice must also identify the property affected by the regulations. For the purpose of providing mailed notice, the municipality, county, or joint airport zoning board may use any appropriate records to determine the names and addresses of owners. A copy of the notice and a list of the owners and addresses to which the notice was sent must be added to the records of the proceedings. Failure to provide mailed notice to individual property owners or a defect in the notice does not invalidate the proceedings if a bona fide attempt to comply with this subdivision was made.
