~~(b) Amounts spent under paragraph (a), clause (6), may not exceed the amount allowed under the Federal Water Pollution Control Act.~~

~~(c) Principal forgiveness or grants provided under paragraph (a), clause (8), may not exceed 25 percent of the eligible project costs as determined by the Pollution Control Agency for project components directly related to green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities, up to a maximum of \$1,000,000.~~

Sec. 5. Minnesota Statutes 2024, section 446A.072, subdivision 5a, is amended to read:

Subd. 5a. **Type and amount of assistance.** (a) For a governmental unit receiving grant funding from the USDA/RECD, the authority may provide assistance in the form of a grant of up to 65 percent of the eligible grant need determined by USDA/RECD. A governmental unit may not receive a grant under this paragraph for more than ~~\$5,000,000~~ \$10,000,000 per project or \$20,000 per existing connection, whichever is less, unless specifically approved by law.

(b) For a governmental unit receiving a loan from the clean water revolving fund under section 446A.07, the authority may provide assistance under this section in the form of a grant if the average annual residential wastewater system cost after completion of the project would otherwise exceed 1.4 percent of the median household income of the project service area. In determining whether the average annual residential wastewater system cost would exceed 1.4 percent, the authority must consider the total costs associated with building, operating, and maintaining the wastewater system, including existing wastewater debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the clean water revolving fund loan under section 446A.07, subdivision 7. The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential wastewater system cost to 1.4 percent of median household income in the project service area, to a maximum of ~~\$5,000,000~~ \$10,000,000 per project or \$20,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

(c) For a governmental unit receiving a loan from the drinking water revolving fund under section 446A.081, the authority may provide assistance under this section in the form of a grant if the average annual residential drinking water system cost after completion of the project would otherwise exceed 1.2 percent of the median household income of the project service area. In determining whether the average annual residential drinking water system cost would exceed 1.2 percent, the authority must consider the total costs associated with building, operating, and maintaining the drinking water system, including existing drinking water debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the drinking water revolving fund loan under section 446A.081, subdivision 8, paragraph (c). The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential drinking water system cost to 1.2 percent of median household income in the project service area, to a maximum of ~~\$5,000,000~~ \$10,000,000 per project or \$20,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

(d) Notwithstanding the limits in paragraphs (a), (b), and (c), for a governmental unit receiving supplemental assistance under this section after January 1, 2002, if the authority determines that the governmental unit's construction and installation costs are significantly increased due to geological conditions of crystalline bedrock or karst areas and discharge limits that are more stringent than secondary treatment, the maximum award under this section shall not be more than \$25,000 per existing connection.

Sec. 6. Minnesota Statutes 2024, section 446A.073, subdivision 1, as amended by Laws 2025, chapter 20, section 266, is amended to read:

Subdivision 1. **Program established.** When money is appropriated for grants under this program, the authority shall award grants up to a maximum of ~~\$7,000,000~~ \$12,000,000 to governmental units to cover 80 percent of the cost of water infrastructure projects made necessary by:

(1) a wasteload reduction prescribed under a total maximum daily load plan required by section 303(d) of the federal Clean Water Act, United States Code, title 33, section 1313(d);

(2) a phosphorus concentration or mass limit which requires discharging one milligram per liter or less at permitted design flow which is incorporated into a permit issued by the Pollution Control Agency;

(3) any other water quality-based effluent limit established under section 115.03, subdivision 1, paragraph (a), clause (5), item (viii), and incorporated into a permit issued by the Pollution Control Agency that exceeds secondary treatment limits; or

(4) a total nitrogen concentration or mass limit that requires discharging ten milligrams per liter or less at permitted design flow.

Sec. 7. Minnesota Statutes 2024, section 446A.081, subdivision 9, is amended to read:

Subd. 9. **Other uses of fund.** (a) The drinking water revolving loan fund may be used as provided in the act, including the following uses:

(1) to buy or refinance the debt obligations, at or below market rates, of public water systems for drinking water systems, where the debt was incurred after the date of enactment of the act, for the purposes of construction of the necessary improvements to comply with the national primary drinking water regulations under the federal Safe Drinking Water Act;

(2) to purchase or guarantee insurance for local obligations to improve credit market access or reduce interest rates;

(3) to provide a source of revenue or security for the payment of principal and interest on revenue or general obligation bonds issued by the authority if the bond proceeds are deposited in the fund;

(4) to provide loans or loan guarantees for similar revolving funds established by a governmental unit or state agency;

(5) to earn interest on fund accounts;

(6) to pay the reasonable costs incurred by the authority, the Department of Employment and Economic Development, and the Department of Health for conducting activities as authorized and required under the act up to the limits authorized under the act; and

(7) to develop and administer programs for water system supervision, source water protection, and related programs required under the act; and

(b) The drinking water revolving fund may be used to provide additional subsidization as permitted under the federal Safe Drinking Water Act and other federal law to disadvantaged communities to provide principal forgiveness or grants:

~~(8) to provide principal forgiveness or grants to the extent permitted under the federal Safe Drinking Water Act and other federal law, (1) based on the affordability criteria and requirements established for drinking water projects under the water infrastructure funding program under section 446A.072;~~

~~(9) to provide loans, principal forgiveness or grants to the extent permitted under the federal Safe Drinking Water Act and other federal law to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities;~~

~~(10) to provide principal forgiveness, or grants (2) for 80 percent of project costs up to a maximum of \$100,000 for projects needed to comply with national primary drinking water standards for an existing nonmunicipal community public water system;~~

~~(11) to provide principal forgiveness or grants (3) to the extent permitted under the federal Safe Drinking Water Act and other federal laws for projects to replace the privately owned portion of drinking water lead service lines; and~~

~~(12) to provide principal forgiveness or grants (4) to the extent permitted under the federal Safe Drinking Water Act and other federal laws for 50 percent of project costs up to a maximum of \$3,000,000 for projects to address emerging contaminants in drinking water as defined by the United States Environmental Protection Agency; and~~

(5) for 50 percent of project costs up to a maximum of \$3,000,000 for projects needed to comply with a maximum contaminant level as defined by the federal Safe Drinking Water Act.

~~(b) Principal forgiveness or grants provided under paragraph (a), clause (9), may not exceed 25 percent of the eligible project costs as determined by the Department of Health for project components directly related to green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities, up to a maximum of \$1,000,000.~~

#### Sec. 8. [446A.082] EMERGING CONTAMINANTS GRANTS.

Subdivision 1. **Program established.** When money is appropriated under this program, the authority shall award grants to a governmental unit for up to 50 percent of the cost of drinking water infrastructure projects to address a confirmed exceedance of a health advisory level for a drinking water emerging contaminant as defined by the Environmental Protection Agency.

Subd. 2. **Eligibility.** An eligible project for this program must:

(1) be listed on the Drinking Water Revolving Fund Project Priority List under Minnesota Rules, part 4720.9015;

(2) receive priority points under Minnesota Rules, part 4720.9020, subpart 4a; and

Subd. 3. **Application and reservation of funds.** (a) Grant applications to the authority may be made at any time on forms prescribed by the authority, including a project schedule and cost estimate for the work necessary to comply with the purpose described in subdivision 2.

(b) The commissioner of health shall review and certify to the authority those projects that have plans and specifications approved under Minnesota Rules, part 4720.9060. When a project is certified by the commissioner of health, the authority shall reserve grant funds for the project in the order listed on the

commissioner of health's project priority list and in an amount based on the cost estimate in the commissioner of health's certification or the as-bid costs, whichever is less.

Subd. 4. **Grant amount.** The grant amount for an eligible project under this program shall be for an amount up to 50 percent of the eligible as-bid project cost up to \$5,000,000, minus the amount of federal emerging contaminant funds the project receives under section 446A.081, subdivision 9, paragraph (b), clause (4), or other federal emerging contaminant funds.

Subd. 5. **Grant approval.** The authority shall award a grant for an eligible project only after:

(1) the applicant has submitted the as-bid project cost;

(2) the commissioner of health has certified the grant eligible portion of the project; and

(3) the authority has determined that the additional financing necessary to complete the project has been committed from other sources.

Subd. 6. **Grant disbursement.** Grant funds shall be disbursed by the authority as eligible project costs are incurred by the governmental unit and in accordance with a project financing agreement and applicable state laws and rules governing the disbursements.

Subd. 7. **Recovering expenses.** Money granted to a grantee under this program may be recovered in a civil action brought by the attorney general against any person who may be liable under section 115B.04 or any other law. To be eligible for recovery, the expenses must be reasonable and necessary expenses, including all response costs, and administrative and legal expenses. The authority, Department of Health, and Pollution Control Agency's certification of expenses shall be prima facie evidence that the expenses are reasonable and necessary. Any money recovered in a civil action for a project financed with bonds under this section shall be transferred to the commissioner of management and budget for deposit in the state bond proceeds fund and applied toward principal interest on outstanding bonds.

#### Sec. 9. **[462A.2036] COOPERATIVE MANUFACTURED HOUSING INFRASTRUCTURE GRANT PROGRAM.**

Subdivision 1. **Grant program established.** The agency may make grants to counties and cities to provide up to 50 percent of the capital costs of housing infrastructure necessary for an eligible cooperative manufactured housing development project. The agency shall prioritize a grant award after determining that nonstate resources are committed to complete the project. The nonstate contribution may be either cash or in kind. In-kind contributions may include the value of the site, whether the site is prepared before or after the law appropriating money for the grant is enacted.

Subd. 2. **Definition.** For purposes of this section, "housing infrastructure" means publicly owned physical infrastructure necessary to support cooperative manufactured housing development projects, including but not limited to sewers, water supply systems, utility extensions, streets, wastewater treatment systems, stormwater management systems, and facilities for pretreatment of wastewater to remove phosphorus.

Subd. 3. **Eligible projects.** Housing infrastructure eligible for a grant under this section shall serve manufactured housing cooperatives as defined in section 273.124, subdivision 3a.

Subd. 4. **Application.** (a) The agency must develop forms and procedures for soliciting, reviewing, and prioritizing applications for grants under this section. At a minimum, a county or city may include in its application a resolution of the county or city council certifying that the required nonstate match is available. The agency must evaluate complete applications for funding for eligible projects to determine that:

(1) the project is necessary to increase sites available for housing development that will provide adequate housing stock for the current or future workforce; and

(2) the increase in workforce housing will result in substantial public and private capital investment in the county or city in which the project would be located.

(b) The determination of whether to make a grant for a site is within the discretion of the agency, subject to this section. The agency's decisions and application of the criteria are not subject to judicial review, except for abuse of discretion.

Subd. 5. **Maximum grant amount.** A county or city may receive no more than \$60,000 per manufactured housing lot.

Sec. 10. Laws 2013, chapter 143, article 12, section 21, is amended to read:

Sec. 21. **LEGISLATIVE OFFICE FACILITIES.**

(a) The commissioner of administration may enter into a long-term lease-purchase agreement for a term of up to 25 years, to predesign, design, construct, and equip offices, hearing rooms, and parking facilities for legislative and other functions. The facility must be located on the block bounded by Sherburne Avenue on the north, Park Street on the west, University Avenue on the south, and North Capitol Boulevard on the east. The legislative office facility must provide office accommodations for all senators and senate staff who do not have offices in the Capitol building and on-site parking facilities for all members and staff and disabled visitors to senate offices. A parking structure may also be built on the state-owned land located in the block bounded by Sherburne Avenue on the north, Park Street on the east, University Avenue on the south, and Rice Street on the west. The commissioner of management and budget may issue lease revenue bonds or certificates of participation associated with the lease-purchase agreement. The lease-purchase agreements must not be terminated, except for nonappropriation of money. The lease-purchase agreements must provide the state with a unilateral right to purchase the leased premises at specified times for specified amounts. The lease-purchase agreements are exempt from Minnesota Statutes, section 16B.24, subdivisions 6 and 6a.

(b) The facilities under the lease-purchase agreement are exempt from the design competition requirement under Minnesota Statutes, section 15B.10. Notwithstanding anything to the contrary under Minnesota Statutes, sections 16C.32 and 16C.33, if the commissioner of administration elects to use a design-build delivery method to design and construct one or more facilities under this appropriation, the Capitol Area Architectural and Planning Board, in cooperation with the commissioner, shall create a selection committee to act as the board under Minnesota Statutes, sections 16C.32 and 16C.33, for the design and construction of the facilities. Notwithstanding Minnesota Statutes, section 16B.33, if the commissioner elects to contract with a primary designer to design one or more facilities under this appropriation, the Capitol Area Architectural and Planning Board, in cooperation with the commissioner, shall create a selection committee to conduct the selection process in accordance with standards under Minnesota Statutes, chapters 15B, 16B, and 16C. A selection committee created under this section must contain no more than seven members, including at least three representatives designated by the senate Committee on Rules and Administration and three representatives designated by the speaker of the house.

(c) Notwithstanding any provision to the contrary in Minnesota Statutes, sections 16C.32 and 16C.33, if the commissioner of administration elects to use a design-build delivery method to design, construct, and equip one or more facilities and associated infrastructure to provide audio and video broadcast services for the Capitol building, State Office Building, and a new legislative office building, if applicable, the commissioner shall create a selection committee to act as the board under Minnesota Statutes, sections

16C.32 and 16C.33, to design, build, and equip the facilities. The selected design-builder may self-perform trade work or name an audio and video subcontractor as a member of the design-builder's team. If an audio and video subcontractor is named as a member of the design-builder's team, the design-builder is not required to competitively bid the trade work. Notwithstanding Minnesota Statutes, section 16C.33, subdivision 5, paragraph (b), after obtaining and evaluating qualifications from each design-builder, in accordance with the weighted criteria and subcriteria and procedures provided in the request for qualifications, the selection committee shall select a short list of up to five proposals. If the commissioner does not receive any proposals, the commissioner may either:

- (1) solicit new proposals;
  - (2) revise the request for qualifications and thereafter solicit new proposals using the revised request for qualifications; or
  - (3) request selection of a primary designer under Minnesota Statutes, section 16B.33, 16C.08, or 16C.095, and proceed with competitive bidding pursuant to Minnesota Statutes, sections 16C.25 to 16C.29.
- (d) The commissioner of administration may enter into a ground lease for state-owned property in the capitol area in conjunction with the execution of a lease-purchase agreement entered into under this section for any improvements constructed on that site. Notwithstanding the requirements of Minnesota Statutes, section 16A.695, subdivision 2, paragraph (b), the ground lease must be for a term equal to the term of the lease-purchase agreement, and must include an option to purchase the land at its then fair market value, if the improvements are not purchased by the state at the end of the term of the lease-purchase agreement, or at any earlier time that the lease-purchase agreement is terminated.
- (e) The commissioner of administration must not prepare final plans and specifications for any construction authorized under this section until the program plan and cost estimates for all elements necessary to complete the project have been approved by the senate Committee on Rules and Administration.
- (f) \$3,000,000 is appropriated in fiscal year 2014 from the general fund to the commissioner of administration for predesign and design of facilities authorized under paragraph (a). This appropriation is available for expenditure the day following final enactment and until June 30, 2015.
- (g) The commissioner of administration may reserve a portion of money from appropriations for office space costs of the legislature to fund future repairs for facilities constructed under the authority provided in this section. Money reserved under this paragraph must be credited to a segregated account for each building in the special revenue fund and is appropriated to the commissioner to make the repairs. When the state acquires title to a building with an account established under this paragraph, the account for that building must be abolished and the balance remaining in the account must be transferred to the appropriate asset preservation and replacement account.
- (h) Certificates of participation or lease revenue bonds issued by the commissioner of management and budget may be issued by public or private sale and in one or more series on the terms and conditions the commissioner of management and budget determines to be in the best interests of the state, shall be dated and bear interest at a fixed or variable rate, may be includable in or excludable from the gross income of the owners for federal income tax purposes, and may be sold at any price or percentage of par value. Any bid received may be rejected.
- (i) At the time of, or in anticipation of, issuing the lease revenue bonds or certificates of participation, and at any time thereafter, so long as the bonds or certificates are outstanding, the commissioner of management and budget may enter into agreements and ancillary arrangements relating to the bonds or

certificates, including but not limited to trust indentures, grant agreements, lease or use agreements, operating agreements, management agreements, liquidity facilities, remarketing or dealer agreements, letter of credit agreements, insurance policies, guaranty agreements, reimbursement agreements, indexing agreements, or interest exchange agreements. Any payments made or received according to the agreement or ancillary arrangement shall be made from or deposited as provided in the agreement or ancillary arrangement. The determination of the commissioner of management and budget included in an interest exchange agreement that the agreement relates to a certificate or bond shall be conclusive.

(j) The commissioner of management and budget may enter into written agreements or contracts relating to the continuing disclosure of information necessary to comply with or facilitate the issuance of the lease-purchase agreement and the related lease revenue bonds or certificates of participation in accordance with federal securities laws, rules, and regulations, including Securities and Exchange Commission rules and regulations in Code of Federal Regulations, title 17, section 240.15c 2-12. An agreement may be in the form of covenants with purchasers and holders of certificates or bonds set forth in the order or resolution authorizing the issuance of the certificates or bonds or in a separate document authorized by the order or resolution.

(k) The commissioner of administration from time to time may enter into a new lease-purchase agreement and the commissioner of management and budget may issue and sell lease revenue bonds or certificates of participation for the purpose of refunding any lease-purchase agreement authorized under this section and related lease revenue bonds or certificates of participation then outstanding, including the payment of any redemption premiums, any interest accrued or that is to accrue to the redemption date, and costs related to the issuance and sale of such refunding bonds or certificates. The proceeds of any refunding bonds or certificates may, in the discretion of the commissioner of management and budget, be applied to the purchase or payment at maturity of the bonds or certificates to be refunded, to the redemption of the outstanding lease-purchase agreements and bonds or certificates on any redemption date, or to pay interest on the refunding lease-purchase agreements and bonds or certificates and may, pending such application, be placed in escrow to be applied to such purchase, payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under Minnesota Statutes, section 11A.24. The income earned or realized on any authorized investment may also be applied to the payment of the lease-purchase agreements and bonds or certificates to be refunded, to interest or premiums on the refunded bonds or certificates, or to pay interest on the refunding lease-purchase agreements and bonds or certificates. After the terms of the escrow have been fully satisfied, any balance of proceeds and any investment income may be returned to the general fund for use in a lawful manner. All refunding lease-purchase agreements and bonds or certificates issued under the provisions of this section must be prepared, executed, delivered, and secured by appropriations in the same manner as the lease-purchase agreements and bonds or certificates to be refunded.

(l) The waiver of immunity by the state provided for by Minnesota Statutes, section 3.751, subdivision 1, shall be applicable to lease revenue bonds or certificates of participation issued under this section and any ancillary contracts to which the commissioner is a party.
