CHAPTER 713—S. F. No. 855

An act relating to itinerant vocational teachers and amending Minnesota Statutes 1945, Section 128.31.

Be it enacted by the Legislature of the State of Minnesota:

Section 1. Section 128.31 is amended to read:

128.31. Vocational aid; rules governing disbursement. Whenever any school district shall have established a vocational school, department, or classes in accordance with the rules and regulations established by the state board for vocational education and the plan for vocational education adopted by that board and approved by the United States office of education or other federal agency to which its functions are assigned, the state board for vocational education shall reimburse such school district or state tax supported institution for its expenditures for salaries and necessary travel of vocational teachers or other reimbursable expenditures from federal funds and may supplement such federal funds with such state aid as it may deem desirable under such rules as it may adopt, provided, however, that in the event of such funds not being sufficient to make such reimbursement in full, the state board for vocational education shall prorate the respective amounts available to the various districts entitled to receive reimbursement. All instruction may be given at the place of the abode of the pupils, and adults may be given instruction in adjoining or nearby districts.

In like manner the state board for vocational education shall have power to reimburse other governmental agencies for expenditures for salaries and necessary travel expenses of vocational teachers from federal funds, according to rules and regulations adopted by the state board for vocational education.

When local school districts desire but cannot provide vocational instruction for the related training required by apprentices and other learners in the trade, industrial, and distributive fields, the state board for vocational education is empowered upon request of such local school district or districts to employ itinerant vocational teachers to provide this service and pay the salary and necessary travel expense from authorized federal and state vocational aid funds under such rules as it may adopt. An itinerant vocational teacher in this section is defined as a vocational teacher employed to give part-time or periodic vocational instruction in one or more school districts.

Approved April 25, 1949.
