Section 1. Minnesota Statutes 2012, section 16A.10, is amended by adding a subdivision to read:

The analysis must:

(1) identify the risks to the agency related to the federal government's potential inability to meet its financial or service commitments;

(2) estimate the impact of the risks to the agency in terms of potential loss of federal revenue and the resulting impact to state services;

(3) recommend strategies that would help the agency adjust to and minimize the loss of income and service impact;

(4) recommend a plan for continuous monitoring of specific leading indicators of the federal government's inability to meet its obligations that trigger certain actions by the agency; and

(5) recommend specific steps to be taken by the agency if the actions are triggered.
