11.1	Subd. 6. Implementation deficiencies; correction process. (a) If at any time the
11.2	commissioner determines that an approved plan is not being implemented in an efficient
11.3	and effective manner, the commissioner shall provide in writing to the clearinghouse and
11.4	to each manufacturer participating in the plan an assessment of the deficiencies and
11.5	recommendations for improvement. Within 30 days of receipt of the assessment, the
11.6	clearinghouse must respond in writing to the commissioner, indicating the changes that will
11.7	be implemented to address the deficiencies noted in the assessment.
11.8	(b) No later than 90 days after submitting a response under paragraph (a), the
11.9	clearinghouse must submit to the commissioner in writing information documenting the
11.10	changes that were implemented to address the deficiencies noted in the assessment and any
11.11	information regarding the effect of the implemented changes on program operations.
11.12	(c) If the commissioner determines that the changes implemented are insufficient to
11.13	address the deficiencies, the commissioner, after providing written notice to the clearinghouse
11.14	and to each manufacturer participating in the plan, may:
11.15	(1) require the manufacturers participating in the plan to select another clearinghouse
11.16	to implement the plan; or
11.17	(2) contract with a third party to implement and administer the plan. In contracting for
11.18	implementation and administration of the plan, the commissioner shall review the costs
11.19	incurred by similar electronic waste collection and recycling programs in other states. The
11.20	commissioner may modify the plan if bids received in response to a request for proposal
11.21	exceed the average cost of collection and recycling incurred by similar electronic waste
11.22	collection and recycling programs in other states. Manufacturers participating in a plan must
11.23	pay the full administrative and implementation costs of the clearinghouse under any option
11.24	provided in this paragraph.
11.25	Sec. 3. Minnesota Statutes 2022, section 115A.1312, is amended to read:
11.26	115A.1312 REGISTRATION PROGRAM.
11.27	Subdivision 1. Requirements for sale. (a) On or after September 1, 2007 January 1,
11.28	2027, a manufacturer must not sell or offer for sale or deliver to retailers for subsequent
11.29	sale a new video display covered electronic device unless:
11.30	(1) the video display covered electronic device is labeled with the manufacturer's brand,
11.31	which label is permanently affixed and readily visible; and
11.32	(2) the manufacturer has filed a registration with the agency, as specified in subdivision

11.33 **2.**

12.1 (b) A retailer must not sell, offer for sale, rent, or lease a video display device unless
12.2 the video display device is labeled according to this subdivision and listed as registered on
12.3 the agency website according to subdivision 2.

12.4 (c) A retailer is not responsible for an unlawful sale under this subdivision if the

12.5 manufacturer's registration expired or was revoked and the retailer took possession of the

12.6 video display device prior to the expiration or revocation of the manufacturer's registration

12.7 and the unlawful sale occurred within six months after the expiration or revocation.

Subd. 2. Manufacturer registration. (a) By August October 15 each year, a manufacturer
of video display covered electronic devices sold or offered for sale to households covered
entities in the this state must submit a registration to the agency on a form prescribed by
the commissioner that includes:

12.12 (1) a list of the manufacturer's brands of video display covered electronic devices offered
12.13 for sale in this state;

12.14 (2) the name, address, and contact information of a person responsible for ensuring12.15 compliance with this chapter; and

(3) a certification that the manufacturer has complied and will continue to comply with
the requirements of sections 115A.1312 to 115A.1318 will operate under the plan approved
by the agency.

(b) A manufacturer of video display devices sold or offered for sale to a household must
 include in the registration submitted under paragraph (a), a statement disclosing whether:

(1) any video display devices sold to households exceed may not sell a covered electronic
device in this state that exceeds the maximum concentration values established for lead,
mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB's), and
polybrominated diphenyl ethers (PBDE's) under the RoHS (restricting the use of certain
hazardous substances in electrical and electronic equipment) Directive 2002/95/EC of the
European Parliament and Council and any amendments thereto; or

12.27 (2) <u>unless</u> the manufacturer has received an exemption from one or more of those
 maximum concentration values under the RoHS Directive that has been approved and
 published by the European Commission by the agency.

(c) A manufacturer who begins to sell or offer for sale video display devices to households
after August 15, 2016, and has not filed a registration under this subdivision must submit
a registration to the agency within ten days of beginning to sell or offer for sale video display
covered electronic devices to households covered entities.

13.1 (d) A registration manufacturer must be updated file an updated registration with the

agency within ten days after a change in the manufacturer's brands of video display covered
 electronic devices sold or offered for sale to households covered entities.

13.4 (e) A registration is effective upon receipt by the agency and is valid until <u>August October</u>
13.5 15 each year.

(f) The agency must review each registration and notify the manufacturer of any
information required by this section that is omitted from the registration. Within 30 days
of receipt of a notification from the agency, the manufacturer must submit a revised
registration providing the information noted by the agency.

(g) The agency must maintain on its website the names of manufacturers and the
manufacturers' brands listed in registrations filed with the agency. The agency must update
the website information promptly upon receipt of a new or updated registration. The website
must contain prominent language stating, in effect, that:

13.14 (1) sections 115A.1310 to 115A.1330 are directed at household equipment apply only
 13.15 to covered electronic devices sold to covered entities; and

13.16 (2) the manufacturers' brands list is, therefore, not a list of manufacturers qualified to
13.17 sell to industrial, commercial, or other markets identified as exempt from the requirements
13.18 of sections 115A.1310 to 115A.1330.

Subd. 3. Collector registration. No person may operate as a collector of covered 13.19 electronic devices or electronics recyclables from households covered entities unless that 13.20 person has submitted a registration with the agency by July January 15 each year on a form 13.21 prescribed by the commissioner. Registration information must include the name, address, 13.22 telephone number, and location of the business and a certification that the collector has 13.23 complied and will continue to comply with the requirements of sections 115A.1312 to 13.24 115A.1318, and 115A.1331 to 115A.1337, as applicable, and any regulations adopted by 13.25 a local government unit for that apply to the jurisdiction in which the collector operates. A 13.26 collector must indicate any end-of-life fees that will be charged at the collection point. A 13.27 registration is effective upon receipt by the agency and is valid until July January 15 each 13.28 year. A collector may submit a single registration under this subdivision to collect covered 13.29 13.30 electronic devices, electronics recyclables, or both.

Subd. 4. Recycler registration. No person may recycle video display covered electronic
devices or electronics recyclables generated by households covered entities unless that
person has submitted a registration with the agency by July October 15 each year on a form
prescribed by the commissioner. Registration information must include the name, address,

14.1	telephone number, and location of all recycling facilities under the direct control of the
14.2	recycler that may receive covered electronic devices or electronics recyclables from
14.3	households covered entities and a certification that the recycler has complied and will
14.4	continue to comply with the requirements of sections 115A.1312 to 115A.1318 115A.1337,
14.5	as applicable. A registered recycler must conduct recycling activities that are consistent
14.6	with this chapter. A registration is effective upon receipt by the agency and is valid until
14.7	July October 15 each year. A recycler may submit a single registration under this subdivision
14.8	to recycle covered electronic devices, electronics recyclables, or both.
14.9	Subd. 5. Dual registration. A person conducting both collection and recycling activities
14.10	may register under both subdivisions 3 and 4.
14.11	Subd. 6. Denial of registration. The agency may deny a registration under subdivision
14.12	3 or 4 if the collector or recycler, or an employee or officer of the collector or recycler, has,
14.13	as determined by the commissioner, a history of:
14.14	(1) repeated violations of federal, state, or local laws, regulations, standards, or ordinances
14.15	related to the collection, recycling, or other management of electronics recyclables;
14.16	(2) gross carelessness or incompetence in handling, storing, processing, transporting,
14.17	disposing of, or otherwise managing electronics recyclables, as determined by the agency;
14.18	or
14.19	(3) conviction of a felony in a federal or state court for forgery, official misconduct,
14.20	bribery, perjury, or knowingly submitting false information under any environmental law,
14.21	regulation, or permit.
14.22	Sec. 4. Minnesota Statutes 2022, section 115A.1314, is amended to read:
14.23	115A.1314 MANUFACTURER REGISTRATION FEE FEES.
14.24	Subdivision 1. Registration fee. (a) Each manufacturer who registers under section
14.25	115A.1312 must, by August October 15 each year, pay to the commissioner of revenue an
14.26	annual registration fee, on a form and in a manner prescribed by the commissioner of
14.27	revenue. The commissioner of revenue must deposit the fee in the state treasury and credit

- 14.28 the fee to the <u>electronic waste collection and recycling account in the</u> environmental fund.
- (b) For the transition year, the registration fee for manufacturers that sell 100 or more
 video display devices to households in the state during the previous calendar year <u>a</u>
 <u>manufacturer</u> is \$2,500, plus a variable recycling fee. The registration fee for manufacturers
 that sell fewer than 100 video display devices in the state during the previous calendar year
- 14.33 is a variable recycling fee. The variable recycling fee is calculated according to the formula:

- 15.1 $[A (B + C)] \times D$, where:
- A = the manufacturer's recycling obligation as determined under section 115A.1320;
 B = the number of pounds of covered electronic devices that a manufacturer recycled

CKM

- or arranged to have collected and recycled from households during the immediately preceding
 program year, as reported under section 115A.1316, subdivision 1;
- 15.6 C = the number of phase I or phase II recycling credits a manufacturer elects to use to
 15.7 calculate the variable recycling fee; and

D = the estimated per-pound cost of recycling, initially set at \$0.50 per pound for
 manufacturers who recycle less than 50 percent of the manufacturer's recycling obligation;
 \$0.40 per pound for manufacturers who recycle at least 50 percent but less than 90 percent
 of the manufacturer's recycling obligation; \$0.30 per pound for manufacturers who recycle
 at least 90 percent but less than 100 percent of the manufacturer's recycling obligation; and
 \$0.00 per pound for manufacturers who recycle 100 percent or more of the manufacturer's
 recycling obligation.

- 15.15 (c) A manufacturer may petition the agency to waive the per-pound cost of recycling
 15.16 fee, element D in the formula in paragraph (b), required under this section. The agency shall
 15.17 direct the commissioner of revenue to waive the per-pound cost of recycling fee if the
 15.18 manufacturer demonstrates to the agency's satisfaction a good faith effort to meet its recycling
 15.19 obligation as determined under section 115A.1320. The petition must include:
- 15.20 (1) documentation that the manufacturer has met at least 75 percent of its recycling
 15.21 obligation as determined under section 115A.1320;
- 15.22 (2) a list of political subdivisions and public and private collectors with whom the
 15.23 manufacturer had a formal contract or agreement in effect during the previous program year
 15.24 to recycle or collect covered electronic devices;
- (3) the total amounts of covered electronic devices collected from both within and outside
 of the 11-county metropolitan area, as defined in subdivision 2;
- 15.27 (4) a description of the manufacturer's best efforts to meet its recycling obligation as
 15.28 determined under section 115A.1320; and
- 15.29 (5) any other information requested by the agency.
- 15.30 (d) A manufacturer may retain phase I and phase II recycling credits to be added, in
- 15.31 whole or in part, to the actual value of C, as reported under section 115A.1316, subdivision
- 15.32 2, during any succeeding program year, provided that no more than 25 percent of a

manufacturer's recycling obligation (A) for any program year may be met with phase I and
 phase II recycling credits, separately or in combination, generated in a prior program year.
 A manufacturer may sell any portion or all of its phase I and phase II recycling credits to
 another manufacturer, at a price negotiated by the parties, who may use the credits in the
 same manner.

(e) For the purpose of determining B in calculating a manufacturer's variable recycling
 fee using the formula under paragraph (b), starting with the program year beginning July
 1, 2019, and continuing each year thereafter, the weight of covered electronic devices that
 a manufacturer recycled or arranged to have collected and recycled from households located
 outside the 11-county metropolitan area, as defined in subdivision 2, paragraph (b), is
 calculated at 1.5 times their actual weight.

16.12(c) For the program year beginning January 1, 2025, and annually thereafter, the agency16.13must determine the annual registration fees on a sliding scale, based on the manufacturer's16.14market share of covered electronic devices sold in this state, by number of units or weight,16.15as determined by the commissioner. The commissioner shall assign each manufacturer to16.16the applicable market share tier below, based on the commissioner's market share calculation16.17under paragraph (d):16.18Tier 15percent or greater

16.19	Tier 2	At least 1 but less than 5 percent
16.20	Tier 3	At least 0.1 but less than 1 percent
16.21	Tier 4	At least .03 but less than 0.1 percent
16.22	Tier 5	At least .01 but less than .03 percent
16.23	Tier 6	Less than .01 percent

Each manufacturer in the same tier shall pay the same fee amount. The commissioner shall
 determine the amount of the fee paid by manufacturers in each tier so that aggregate annual
 registration fees do not exceed the total annual costs of activities specified in paragraph (e).

16.27 (d) For the purposes of this section, the commissioner shall calculate each manufacturer's
 16.28 market share as follows:

(1) by multiplying the total number of units or pounds of computers, computer monitors,
televisions, printers, and facsimile machines sold by the manufacturer nationally during the
previous calendar year times the ratio of Minnesota's population to the national population
in the same year, as measured by the United States Bureau of the Census, and dividing the
result by the total number of units or pounds of computers, computer monitors, televisions,
printers, and facsimile machines sold by all manufacturers nationally; and

17.1	(2) if applicable, for those product models of computers, computer monitors, televisions,
17.2	printers, and facsimile machines sold by the manufacturer that are EPEAT registered, the
17.3	calculation in clause (1) must be reduced by:
17.4	(i) 15 percent for those product models that have been rated by EPEAT as achieving the
17.5	gold standard;
17.6	(ii) ten percent for those product models that have been rated by EPEAT as achieving
17.7	the silver standard; or
17.8	(iii) five percent for those product models that have been rated by EPEAT as achieving
17.9	the bronze standard.
17.10	(e) The aggregate annual registration fees paid by manufacturers under this subdivision
17.11	in a program year:
17.12	(1) may be used by the commissioner to implement and enforce sections 115A.1310 to
17.13	115A.1330 and for transfer to the Department of Administration for responsibilities under
17.14	section 115A.1324; and
17.15	(2) may not be used to supplement payments made from the operations fee assessed in
17.16	subdivision 2a to the clearinghouse for distribution to collectors, transporters, and recyclers,
17.17	and to manufacturers operating a mail-back system.

18.1	Subd. 2a. Operations fee. (a) Beginning January 1, 2027, the agency must assess, on a
18.2	quarterly basis, an operations fee on each manufacturer that is required to pay a registration
18.3	fee for that program year. The agency must calculate the operations fee by multiplying a
18.4	manufacturer's market share, as calculated under subdivision 1, paragraph (d), for the most
18.5	recently completed program year, by the total cost of collection, transportation, and recycling
18.6	operations of the plan during the previous quarter. For a manufacturer operating a mail-back
18.7	system under section 115A.1311, subdivision 4, the operational fee is equal to the mail-back,
18.8	transportation, and recycling costs of the program during the previous quarter. A manufacturer
18.9	must remit the full operations fee to the agency within 30 days of receipt of the fee
18.10	assessment.
18.11	(b) The commissioner shall deposit all fees collected under this subdivision into the
18.12	covered electronic device waste collection and recycling account established in section
18.13	<u>115A.1321.</u>
18.14	(c) No later than 30 days following the receipt of operations fees from manufacturers,
18.15	the commissioner must use the operations fees to make payments to the clearinghouse and
18.16	to manufacturers operating a mail-back system for collection, transportation, and recycling
18.17	costs, as applicable.
18.18	Sec. 5. Minnesota Statutes 2022, section 115A.1318, is amended to read:
18.19	115A.1318 RESPONSIBILITIES; PROHIBITION.
18.20	Subdivision 1. Manufacturer responsibilities. (a) In addition to fulfilling A manufacturer
18.21	must fulfill the requirements of sections 115A.1310 to 115A.1330, a manufacturer must
18.22	comply with paragraphs (b) to (f).
18.23	(b) A manufacturer must annually recycle or arrange for the collection and recycling of
18.24	an amount of video display devices as determined by the agency in section 115A.1320,
18.25	subdivision 1. A manufacturer must assume all financial responsibility associated with for
18.26	costs incurred from collecting, transporting, and recycling covered electronic devices that
18.27	are used to meet the manufacturer's recycling obligation determined under section 115A.1320
18.28	or that are counted as phase I or II recycling credits, including any necessary supplies. This
18.29	excludes costs that are associated with receiving and aggregating covered electronic devices
18.30	from households and all the activities up to the time that covered electronic devices are
18.31	loaded for transport to a recycler or arranged for transportation to a recycler under a plan
18.32	approved by the agency.

19.1 (c) The obligations of a manufacturer apply A manufacturer is required to recycle only
 19.2 to video display covered electronic devices received from households and do not apply to
 19.3 video display devices received from sources other than households covered entities.

(d) A manufacturer must <u>conduct and document ensure that</u> due diligence assessments
of collectors and recyclers it contracts with, and of any applicable downstream recycling
<u>operations, are conducted and documented</u>, including an assessment of items specified under
subdivision 2. A manufacturer is responsible for maintaining, for a period of three years,
documentation that all covered electronic devices recycled, partially recycled, or sent to
downstream recycling operations comply with the requirements of subdivision 2.

19.10 (e) A manufacturer must provide the agency with contact information for a person who
 19.11 can be contacted regarding the manufacturer's activities under sections 115A.1310 to
 19.12 115A.1320.

19.13 (f) (e) Only the covered electronic devices that are recycled by a registered recycler that

19.14 is certified by an ANSI-ASQ National Accreditation Board-accredited third-party certification

19.15 body to an environmentally sound management standard are eligible to meet the

19.16 manufacturer's obligation as meeting an environmentally sound management standard by

19.17 <u>a certification body accredited by the American National Standards Institute-American</u>

19.18 Society for Quality National Accreditation Board may be reported under paragraph (f).

19.19 (f) Beginning March 1, 2027, and continuing each March 1 thereafter, a manufacturer
 19.20 must report to the agency, on a form approved by the agency:

19.21 (1) a description of the collection, transportation, mail-back, and recycling activities
 19.22 conducted under the approved plan in all regions of the state;

(2) separate estimates of the number of units and the total weight of the manufacturer's
 covered electronic devices for each specific model sold to covered entities during the previous
 program year;

19.26 (3) the total weight of the manufacturer's covered electronic devices sold to covered

19.27 entities during the previous program year, which may be estimated by multiplying the weight

19.28 of its covered electronic devices sold nationally times the quotient of Minnesota's population

- 19.29 divided by the national population. The method in this clause must be used by a manufacturer
- 19.30 that sells 99 or fewer covered electronic devices to covered entities in the state during the

19.31 previous program year;

19.32 (4) an estimate of the total weight of covered electronic devices collected and recycled;

19.33 (5) a description of how the estimates in clauses (2) to (4) were calculated;

For each program year, the report 25.17 must discuss the total weight of covered electronic devices recycled and a summary of 25.18 information in the reports submitted by manufacturers and recyclers under section 115A.1316 25.19 115A.1318. The report must also discuss the various collection programs used by 25.20 manufacturers to collect covered electronic devices; information regarding covered electronic 25.21 devices that are being collected by persons other than registered manufacturers, collectors, 25.22 and recyclers; and information about covered electronic devices, if any, being disposed of 25.23 in landfills in this state. The report must examine which covered electronic devices, based 25.24 on economic and environmental considerations, should be subject to the obligation-setting 25.25 mechanism under paragraph (g). The report must include a description of enforcement 25.26 actions taken under sections 115A.1310 to 115A.1330. The agency may include in its report 25.27 other information received by the agency regarding the implementation of sections 115A.1312 25.28 25.29 115A.1310 to 115A.1330. The report must be done in conjunction with the report required under section 115A.121. 25.30
- 25.31 (i) (d) The agency shall must promote public participation in the activities regulated
 25.32 under sections 115A.1312 115A.1310 to 115A.1330 115A.1339 through public education
 25.33 and outreach efforts.

(j) (e) The agency shall must enforce sections 115A.1310 to 115A.1330 in the manner
provided by sections 115.071, subdivisions 1, 3, 4, 5, and 6; and 116.072, except for those
provisions enforced by the department, as provided in subdivision 2. The agency may revoke
a registration of a collector or recycler found to have violated sections 115A.1310 to
115A.1330.

26.6 (k) The agency shall facilitate communication between counties, collection and recycling
 26.7 centers, and manufacturers to ensure that manufacturers are aware of video display devices
 26.8 available for recycling.

26.9 (<u>1) (f)</u> The agency shall must post on its website the contact information provided by
26.10 each manufacturer under section <u>115A.1318</u> <u>115A.1312</u>, subdivision <u>12</u>, paragraph (e) (a),
26.11 clause (2).

Subd. 2. Additional duties. (a) The agency must collect the data submitted to it annually
by each manufacturer on the total weight of each specific model of video display device
sold to households, if provided; the total weight of video display devices sold to households;
the total weight of covered electronic devices collected from households that are recycled;
and data on phase I and phase II recycling credits, as required under section 115A.1316.
The department must use this data to review each manufacturer's annual registration fee
submitted to the department to ensure that the fee was calculated accurately.

26.19 (b) The agency must estimate, for each registered manufacturer, the sales of video display
 26.20 devices to households during the previous program year, based on:

26.21 (1) data provided by a manufacturer on sales of video display devices to households,
 26.22 including documentation describing how that amount was calculated and certification that
 26.23 the amount is accurate; or

26.24 (2) if a manufacturer does not provide the data specified in clause (1), national data on
 26.25 sales of video display devices.

26.26 The department must use the data specified in this subdivision to review each manufacturer's
 26.27 annual registration fee submitted to the department to ensure that the fee was calculated
 26.28 accurately according to the formula in section 115A.1314, subdivision 1.

(c) The department must enforce section 115A.1314, subdivision 1. The audit, assessment,
 appeal, collection, enforcement, disclosure, and other administrative provisions of chapters
 26.31 270B, 270C, and 289A that apply to the taxes imposed under chapter 297A apply to the fee
 imposed under section 115A.1314, subdivision 1. To enforce section 115A.1314, subdivision
 1, the commissioner of revenue may grant extensions to pay, and impose and abate penalties

- and interest on, the fee due under section 115A.1314, subdivision 1, in the manner provided
 in chapters 270C and 289A as if the fee were a tax imposed under chapter 297A.
- 27.3 (d) The department may disclose nonpublic data to the agency only when necessary for
 27.4 the efficient and effective administration of the activities regulated under sections 115A.1310
 27.5 to 115A.1330. Any data disclosed by the department to the agency retains the classification
 27.6 it had when in the possession of the department.

27.7 Sec. 8. [115A.1321] COVERED ELECTRONIC DEVICE WASTE COLLECTION 27.8 AND RECYCLING ACCOUNT.

27.9 Subdivision 1. Establishment of account. The covered electronic device waste collection

and recycling account is established as a separate account in the environmental fund in the

27.11 state treasury. The commissioner of the Pollution Control Agency shall credit to the account

27.12 registration and operations fees paid by manufacturers under sections 115A.1314 and

27.13 <u>115A.1319</u>, and appropriations and transfers to the account. Earnings, such as interest,

27.14 dividends, and any other earnings arising from assets of the account, must be credited to

27.15 the account. Funds remaining in the account at the end of a fiscal year are not canceled to

27.16 the general fund, but remain in the account until expended. The commissioner of the Pollution

27.17 Control Agency shall manage the account.

27.18 Subd. 2. Expenditures. Money in the account may be used only as follows:

27.19 (1) operations fees assessed under section 115A.1314, subdivision 2a, and the onetime

advanced operations fee assessed in section 115A.1319 must be used only for the purposes

27.21 specified in section 115A.1314, subdivision 2a, paragraph (c); and

27.22 (2) registration fees paid under section 115A.1314, subdivision 1, must be used to

27.23 reimburse the agency's costs to administer and enforce sections 115A.1310 to 115A.1330.

27.24 Subd. 3. Appropriation. Money in the account is appropriated to the commissioner for
27.25 the purposes of subdivision 2.

27.26 Sec. 9. Minnesota Statutes 2022, section 115A.1322, is amended to read:

27.27 **115A.1322 OTHER RECYCLING PROGRAMS.**

27.28 A city, county, or other public agency may not require households to use public facilities

27.29 to recycle their covered electronic devices to the exclusion of other lawful programs available.

27.30 Cities, counties, and other public agencies, including those awarded contracts by the agency

- 27.31 under section 115A.1314, subdivision 2, are encouraged to work with manufacturers to
- assist them in meeting their recycling obligations under section 115A.1318, subdivision 1.

Nothing in sections 115A.1310 to 115A.1330 prohibits or restricts the operation of any
program recycling covered electronic devices in addition to those provided by manufacturers
or prohibits or restricts any persons from receiving, collecting, transporting, or recycling
covered electronic devices, provided that those persons are registered under section
115A.1312.

28.6 Sec. 10. Minnesota Statutes 2022, section 115A.1324, is amended to read:

28.7

115A.1324 REQUIREMENTS FOR PURCHASES BY STATE AGENCIES.

(a) The Department of Administration must ensure that acquisitions of video display
 <u>covered electronic</u> devices under chapter 16C are in compliance with or not subject to
 sections 115A.1310 to 115A.1318.

(b) The solicitation documents must specify that the prospective responder is required
to cooperate fully in providing reasonable access to its records and documents that evidence
compliance with paragraph (a) and sections 115A.1310 to 115A.1318.

(c) Any person awarded a contract under chapter 16C for purchase or lease of video
 display covered electronic devices that is found to be in violation of paragraph (a) or sections
 115A.1310 to 115A.1318 is subject to the following sanctions:

(1) the contract must be voided if the commissioner of administration determines that
the potential adverse impact to the state is exceeded by the benefit obtained from voiding
the contract;

(2) the contractor is subject to suspension and disbarment under Minnesota Rules, part
1230.1150; and

(3) if the attorney general establishes that any money, property, or benefit was obtained
by a contractor as a result of violating paragraph (a) or sections 115A.1310 to 115A.1318,
the court may, in addition to any other remedy, order the disgorgement of the unlawfully
obtained money, property, or benefit.

28.26 Sec. 11. Minnesota Statutes 2022, section 115A.1326, is amended to read:

28.27 115A.1326 REGULATING VIDEO DISPLAY COVERED ELECTRONIC 28.28 DEVICES.

If the United States Environmental Protection Agency adopts regulations under the Resource Conservation and Recovery Act regarding the handling, storage, or treatment of any type of video display covered electronic device being recycled, those regulations are automatically effective in this state on the same date and supersede any rules previously

115A.1316 REPORTING REQUIREMENTS.

Subdivision 1. **Manufacturer reporting requirements.** (a) By March 1 each year, each manufacturer must report to the agency using the form prescribed:

(1) the total weight of each specific model of its video display devices sold to households during the previous calendar year; and

(2) either:

(i) the total weight of its video display devices sold to households during the previous calendar year; or

(ii) an estimate of the total weight of its video display devices sold to households during the previous calendar year, calculated by multiplying the weight of its video display devices sold nationally times the quotient of Minnesota's population divided by the national population. All manufacturers with sales of 99 or fewer video display devices to households in the state during the previous calendar year must report using the method under this item for calculating sales.

A manufacturer must submit with the report required under this paragraph a description of how the information or estimate was calculated.

(b) By August 15 each year, each manufacturer must report to the agency:

(1) the total weight of covered electronic devices the manufacturer collected from households and recycled or arranged to have collected and recycled during the preceding program year;

(2) the number of phase I and phase II recycling credits the manufacturer has purchased and sold during the preceding program year;

(3) the number of phase I and phase II recycling credits possessed by the manufacturer that the manufacturer elects to use in the calculation of its variable recycling fee under section 115A.1314, subdivision 1; and

(4) the number of phase I and phase II recycling credits the manufacturer retains at the beginning of the current program year.

(c) Upon request of the commissioner of revenue, the agency shall provide a copy of each report to the commissioner of revenue.

Subd. 2. **Recycler reporting requirements.** (a) By July 15 each year, a recycler of covered electronic devices must report to the agency:

(1) the total weight of covered electronic devices recycled during the preceding program year and must certify that the recycler has complied with section 115A.1318, subdivision 2;

(2) the weight of video display devices recycled as part of covered electronic devices recycled during the previous program year; and

(3) an estimate of the weight of portable batteries and any mercury-containing lamps that are associated with the covered electronic devices managed.

(b) Upon request of the commissioner of revenue, the agency shall provide a copy of each report to the commissioner of revenue.

Subd. 3. Collector reporting requirements. By July 15 each year, a collector must report separately to the agency using the form prescribed by the commissioner:

(1) the total pounds of covered electronic devices collected in the state;

(2) a list of all recyclers to whom collectors delivered covered electronic devices; and

(3) whether the collector had a contract with a recycler or manufacturer to provide pounds toward meeting a manufacturer's obligation.
