15.1	(ii) "Market" means the relevant product and geographical markets. In determining the
15.2	relevant product and geographical markets, the commissioner shall give due consideration
15.3	to, among other things, the definitions or guidelines, if any, promulgated by the National
15.4	Association of Insurance Commissioners and to information, if any, submitted by parties
15.5	to the acquisition. In the absence of sufficient information to the contrary, the relevant
15.6	product market is assumed to be the direct written insurance premium for a line of business,
15.7	the line being that used in the annual statement required to be filed by health maintenance
15.8	organizations doing business in this state, and the relevant geographical market is assumed
15.9	to be this state.
15.10	(iii) The burden of showing prima facie evidence of violation of the competitive standard

15.19	of competitors; concentration; trend of concentration in the industry; and ease of entry and
15.20	exit into the market.
15.21	(c) An order may not be entered under subdivision 5 if:
15.22	(1) the acquisition will yield substantial economies of scale or economies in resource
15.23	utilization that cannot feasibly be achieved in any other way, and the public benefits that
15.24	would arise from the economies exceed the public benefits which would arise from not

15.26	(2) the acquisition will substantially increase the availability of health care coverage and
15.27	the public benefits of the increase exceed the public benefits which would arise from not
15.28	lessening competition.
15.29	Subd. 5. Orders and penalties. (a) If an acquisition violates the standards of this section,
